(a) All producers of Puerto Rican tobacco are eligible producers, since Puerto Rican tobacco is not under U.S. marketing quotas. All producers of any kind of tobacco for which marketing quotas have been terminated are eligible producers during the periods for which the terminations are effective. Any producer of another kind of tobacco is an eligible producer if, under the applicable regulations of the Secretary of Agriculture with respect to tobacco marketing quotas and acreage allotments for the applicable marketing year, a marketing card has been issued for his farm which does not bear the words, "No Price Support," or which, if for other than Flue-Cured or Burley tobacco, is designated a "Within Quota" marketing card. In general, the marketing quota regulations provide for the issuance of marketing cards which do not bear the words "No Price Support" and which, if for other than Flue-Cured or Burley tobacco, are designated "Within Quota" marketing cards, where (1) pesticides containing DDT and TDE have not been used on the tobacco in the field or after being harvested, (2) tobacco is not produced on land owned by the Federal Government in violation of a lease restricting the production of tobacco, and (3) the farm is in compliance with the provisions of Part 718 of this title with respect to acreage allotments, disposition of any excess acreage and certifications, except that (i) in the case of flue-cured tobacco, which is under acreage-poundage quotas, the acreage may exceed the allotment, and (ii) for other kinds of tobacco, the acreage may exceed the allotment by not more than any applicable tolerance prescribed in Part 718.

(b) Marketing quota cards issued pursuant to the Agricultural Adjustment Act of 1938 as amended, when utilized for the purpose of obtaining price support under this subpart, are submitted, and the data in support thereof is reported, under the Agricultural Act of 1949, as amended, and may be utilized as CCC deems necessary or desirable for the conduct of the price support program.

§ 1464.8 Eligible tobacco.

Eligible tobacco shall be United States and Puerto Rican tobacco (as defined in the Agricultural Adjustment Act of 1938, as amended) which (a) is of a kind and crop for which price support is available; (b) if marketing quotas are in effect, has been properly identified in accordance with the applicable tobacco marketing quota regulations by (1) a marketing card which does not bear the words "No Price Support", and (2) if other than Flue-cured or Burley tobacco, a marketing card which is designated a "Within Quota" marketing card; (c) if Puerto Rican tobacco, or tobacco of a kind for which marketing quotas have been terminated, is tobacco for which the association has received a certification by the producer that pesticides containing DDT and TDE, as defined in Parts 724 and 725 of this title, were not used on the tobacco in the field or after harvest; (d) if Flue-cured tobacco or Burley tobacco, (1) is offered for marketing on a tobacco sale bill which is not marked "No Price Support," and is for a number of pounds which, when added to the pounds of Flue-cured or Burley tobacco previously marketed on that year's marketing card, does not exceed 110 percent of the effective farm marketing quota for that year; or (2) is delivered directly to the association and is a quantity which, when added to the previous marketings on such card, does not exceed 110 percent of the effective farm marketing quota for that year; (e) if flue-cured tobacco which was delivered to the association through an auction warehouse, is a quantity which, when added to previous marketings of that producer at that warehouse, does not exceed the quantity designated by the producer for marketing at that warehouse; (f) has been delivered to the association by the producer, either directly or through an auction warehouse, prior to sale to any other person; (g) has been delivered to the association by the producer, either directly or through an auction warehouse, in lots identified by not more than one marketing card for each lot; (h) is in sound and merchantable condition; (i) was not produced on land owned by the Federal Government, but this prohibition shall not apply (1) to a former owner who has enjoyed uninterrupted possession of the land or (2) during the current (non-renewed) term of any lease executed prior to March 22, 1973, to the extent that the lease permits the production of tobacco.

§ 1464.9 Auction warehouse certification of flue-cured tobacco.

Auction warehouses through which price support is made available to producers of Flue-cured tobacco shall identify, through the use of "certified" basket tickets, all tobacco (including resale and "excess" tobacco) offered for sale at auction which is determined to be of varieties eligible for full price support. A distinguishably different type of basket ticket shall be used for all other tobacco offered for sale at auction. In the case of producer tobacco, the warehouseman shall examine the marketing card prior to the time the tobacco is offered for sale, record the marketing card serial number on the tobacco sale bill, and shall use certified basket tickets on the tobacco only if the marketing card presented does not bear the words "Discount Variety." In the case of resale tobacco (tobacco which has previously been sold by the producer), the tobacco Marketing Quota Regulations provide that, when the State Executive Director, ASCS, determines there is a significant amount of discount variety tobacco available for marketing in any marketing year, he may require tobacco which is eligible for full price support to be covered by a Form MQ 79-1, Dealer's Certification—Resale Tobacco, unless its eligibility for full price support is determined by the State Executive Director or his representative. When notified by the State Executive Director that this requirement is in effect, the warehouseman shall not use a certified basket ticket for resale tobacco unless he has obtained Form MQ 79-1, properly executed by the seller, or unless the State Executive Director has determined that the tobacco is eligible to be so identified. The Form MQ 79-1 Dealer's Certification-Resale Tobacco contains a certification by the seller to the USDA and the warehouse that the tobacco offered for sale and all other resale tobacco in which the dealer has an interest was purchased directly from the producer and was identified by a marketing card not bearing the words "Discount Variety" or was purchased by him at auction sale through a warehouse having price support available to producers and was identified by a certified basket ticket. Properly executed Dealer's Certification-Resale Tobacco shall be furnished to the USDA representative stationed at the warehouse prior to the sale of the tobacco, with a copy to the warehouse. Where the State Executive Director notifies the warehouse that the certifications of any dealer are not acceptable for this purpose, the Dealer's certification shall not be used by the warehouse as a basis for a "certified" basket ticket. Such notice will be given to all warehouses having price support available to producers if a dealer is found to have made a false certification, or if a dealer fails to file reports required by applicable marketing quota regulations. In the latter case, the notice will be rescinded when the dealer files the reports if they show that he has not made false certifications with respect to identification

V39—110 JUN 6 74 XUM

of full support variety tobacco. Dealers making false certifications, or producers using marketing cards other than the one issued for the farm on which the tobacco was produced, to obtain use of certified basket tickets for tobacco not entitled to such identification, shall be subject to applicable provisions of law relating to conspiracy, fraud, or other offenses, and to penalties imposed by applicable marketing quota regulations. A dealer who has full support variety resale tobacco for which the Dealer's Certification cannot properly be executed because such tobacco or other tobacco in which he has an interest was acquired other than as the certification form provides, or a dealer whose certifications have been determined to be unacceptable, may have full support variety tobacco identified on a "certified" basket ticket through application to the State Executive Director. In such instances, if by examination of the marketing quota records and other evidence, the Director determines that the tobacco is of a full support variety, a special authorization will be given for the warehouses to identify the tobacco on a "certified" basket ticket.

Effective date: June 6, 1974.

Signed at Washington, D.C. on May 31, 1974.

KENNETH E. FRICK,
Executive Vice President,
Commodity Credit Corporation.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

Subchapter E—Account Servicing

[FmHA Instruction 451.5]

PART 1861—ROUTINE

Subpart F—Servicing of Community Program Loans and Grants

SALE AND TRANSFER OF SECURITY PROPERTY

Sections 1861.84 and 1861.85 of Subpart F of 7 CFR Part 1861 (37 FR 15502), are amended to clarify the Farmers Home Administration policies regarding the sale and transfer of security property for less than the total indebtedness owed. Pursuant to a notice published in the FEDERAL REGISTER on April 24, 1974 (39 FR 14499), the abbreviation for the Farmers Home Administration is now FmHA instead of FHA. This document has been amended to reflect that change. Since the changes are minor in nature and no substantive change in the regulation is effected, notice and public procedure thereon are unnecessary.

In § 1861.84 a new paragraph (a) is added and former paragraphs (b) through (d) are hereby redesignated (b) through (e). As amended, § 1861.84(a) reads as follows:

§ 1861.84 Sales of exchange of security property.

(a) *General.* In those cases where a substantial loss to the Government will result from the sale, or the prospective buyer is a member or members of the borrower's organization, the state director will forward all pertinent information regarding the sale such as, name of borrower, total balance owed FmHA, proposed sale price including terms and conditions, anticipated sale date, name of purchaser and present market value of the property to the National Office prior to making any commitment. It is not FmHA's policy to sell security property to a member or members of the borrower's organization at a price which will result in a loss to the Government.

* * * * *

As amended, § 1861.85(a) reads as follows:

§ 1861.85 Transfer of security and assumption of loans.

(a) *General.* In those cases where a substantial loss to the Government will result from a transfer and assumption or the prospective transferee is a member or members of the present borrower's organization, the state director will forward all pertinent information regarding the transfer such as, name of the borrower, total balance owed FmHA, proposed transfer price including terms and condition, anticipated transfer date, name of prospective transferee and the present market value of the property, to the National Office prior to making any commitment. It is not FmHA's policy to transfer security property to a member or members of the borrower's organization at a price which will result in a loss to the Government. Transfer and assumption may be approved subject to the following conditions:

* * * * *

(7 U.S.C. 1989; 42 U.S.C. 2942); delegation of authority by the Sec. of Agri., 38 FR 14944, 14948, 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 38 FR 14944, 14952, 7 CFR 2.70; delegations of authority by Dir., OEO, 29 FR 14764, 33 FR 9850.

Effective date. This revision shall become effective June 6, 1974.

Dated: May 13, 1974.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

[7 CFR Part 1464]

FLUE-CURED TOBACCO

Grade Loan Rates for Price Support on 1974-Crop Tobacco

Notice is hereby given that CCC is considering the grade loan rates to be applied in making price support available on 1974-crop flue-cured tobacco.

Consideration will be given to data, views and recommendations pertaining to the grade loan rates set out in this notice which are submitted in writing to the Director, Tobacco and Peanut Division, Agricultural Stabilization and Conservation Service, United States Department of Agriculture, Washington, D.C. 20250. In order to be sure of consideration, all submissions must be received by the Director not later than June 21. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Director during the regular business hours (8:15 a.m. to 4:45 p.m.) (7 CFR 1.27(b)).

Under the Tobacco Loan Program published in this part, CCC proposes to establish loan rates by grades for the 1974-crop flue-cured tobacco, types 11-14, as set forth herein. These proposed rates, calculated to provide the level of support of 83.3 cents per pound as determined under section 106 of the Agricultural Act of 1949 (7 U.S.C. 1445) are as follows:

§ 1464.16 1974 Crop—Flue-cured tobacco, types 11–14, loan schedule.[1]

---

[1] The loan rates listed are applicable to tied and untied flue-cured tobacco which is (1) eligible tobacco as defined in the regulations and (2) identified by a marketing card which does not bear the notation "Discount Variety-Limited Support". Rates for eligible tobacco identified by a marketing card, which bears the notation "Discount Variety-Limited Support," are 50 percent of the loan rates listed plus fifty cents ($0.50) per hundred pounds. Tobacco is eligible for advance only if consigned by the original producer.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Child Development

[45 CFR Part 1303]

HEAD START DELEGATE AGENCIES

Appeal Procedures, Opportunity To Show Cause and Hearings; Proposed Rulemaking

In the matter of procedures for appeals for Head Start delegate agencies in cases of denial of or failure to act on applications for funding and refunding by grantees, for opportunities to show cause to grantees in cases of suspension of financial assistance or denial of application for refunding by OCD, and for hearings for grantees in cases of termination of financial assistance by OCD.

Notice is hereby given that the Secretary of Health, Education, and Welfare proposes to issue regulations prescribing procedures for special notice and opportunity to appeal by agencies or organizations which would like to serve as delegate agencies of Head Start grantees, for reasonable notice and opportunity to show cause to Head Start grantees in cases of suspension of financial assistance or denial of application for refunding by OCD, and for full and fair hearings for Head Start grantees in cases of termination of financial assistance by OCD. The rights of these agencies or organizations to notice and opportunity to appeal (for delegate agencies) and to show cause, and to have a full and fair hearing (for grantees), are created by section 604 of the Economic Opportunity Act of 1964, 42 U.S.C. 2944. Section 604 requires that procedures be prescribed which assure these rights. For this purpose it is proposed to add Part 1303 to Chapter XIII, Subtitle B, Title 45, Code of Federal Regulations.

Proposed subpart B covers appeals by agencies or organizations which would like to serve as delegate agencies. It applies both to agencies or organizations which would like to continue to serve and to those which would like to begin to serve as delegate agencies. The appeal is from adverse action or inaction by a

V 39 110 JUN 6 74 XUM

Head Start grantee to, in most cases, the Regional Office official responsible for making the grant. Decision is based on written material submitted by the parties. In the case of current delegate agencies, as distinguished from prospective delegate agencies, there is a right to an informal meeting with the responsible OCD official, and to review of his decision by the Director, OCD. The decision will sustain the grantee unless it is determined that the grantee acted unfairly and did not have a rational basis for what it did.

Proposed Subpart C, Denial of Grantee's Application for Refunding, and proposed Subpart D, Suspension and Termination of Financial Assistance to Grantees, are adaptations of regulations promulgated by the Office of Economic Opportunity for programs it administers under titles I–D, II, and III–B of the Economic Opportunity Act. Part 1067 of 45 CFR Chapter X, Subtitle B.

Proposed Subpart C applies if OCD refuses to refund a grantee for circumstances related to the particular grant such as ineffective or improper use of Federal funds, failure to comply with applicable law, regulations, terms and conditions, or selection of another applicant or loss by the grantee of legal status or financial viability. Subpart C does not apply if the refusal to refund is based upon general policy. The proposed procedures provide opportunity for the submittal of written material, informal meeting with the responsible OCD official, and for the right to have an adverse decision by the responsible OCD official reviewed by the Director, OCD.

Proposed Subpart D applies if OCD suspends or terminates a grant for failure of a grantee to comply with applicable law, regulations guidelines, standards, instructions, assurances, terms and conditions, or for loss of legal status or financial viability. In cases of notice of intended suspension or summary suspension, which are for limited periods unless termination proceedings are begun, the proposed procedure gives the grantee opportunity to submit written material to, and meet informally with, the responsible OCD official. The grantee also is given the opportunity to correct deficiencies. In cases of termination the proposed procedure gives the grantee the opportunity for a full and fair hearing before an administrative law judge designated under 5 U.S.C. 3105. The administrative law judge would issue an initial decision which is subject to review by the responsible OCD official whose decision, in turn, is subject to review by the Director, OCD.

The proposed procedures give parties the right to be represented by counsel. Current delegate agencies and Head Start grantees are authorized to pay reasonable and customary legal fees and other expenses out of current operating funds.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed Part 1303 to the Acting Director, Office of Child Development, Department of Health, Education, and Welfare, 400 6th Street, SW., Washington, D.C. 20201, on or before July 8, 1974. All written submissions made pursuant to this notice will be made available for public inspection in Room 2030 of the Office of Child Development at the above address on Monday through Friday of each week from 9:00 a.m. to 5:30 p.m. (area code 202–755–7782).

(Catalog of Federal Domestic Assistance Programs No. 13.600, Child Development—Head Start)

Dated: May 30, 1974.

FRANK CARLUCCI,
Acting Secretary.

Subtitle B of 45 CFR Chapter XIII is amended by adding Part 1303 as follows:

PART 1303—PROCEDURES FOR APPEALS FOR HEAD START DELEGATE AGENCIES, AND FOR OPPORTUNITIES TO SHOW CAUSE AND HEARINGS FOR HEAD START GRANTEES

1303.4–8 Modification of procedures by consent.

AUTHORITY: Sec. 604, 78 Stat. 531, (42 U.S.C. 2944); sec. 602(n), 78 Stat. 530, (42 U.S.C. 2942(n)); Delegation of Authorities to Secretary of Health, Education, and Welfare, 34 FR 11398.

Subpart A—General

§ 1303.1–1 Purpose and application.

This part effectuates section 604 of the Economic Opportunity Act of 1964, as amended, as it applies to grantees and delegate agencies engaged in or wanting to engage in the carrying out of Head Start programs under section 222(a)(1) of that Act. It prescribes the procedures for appeals by current and prospective delegate agencies from specified adverse action by grantees; and the procedures for reasonable notice and opportunity to show cause in cases of intended or actual suspension of financial assistance and denial of refunding by OCD, and for a full and fair hearing for grantees in cases of termination of financial assistance by OCD.

§ 1303.1–2 Definitions.

As used in this part—

(a) The term "OCD" means the Office of Child Development in the U.S, Department of Health, Education, and Welfare, and includes regional staff.

(b) The term "responsible OCD official" means the official who is authorized to make the grant of assistance in question, or his designee.

(c) The term "Director" means the director of the Office of Child Development.

(d) The term "grantee" means the community action agency or other public or private non-profit agency which has been granted assistance by OCD to carry on a Head Start program.

(e) The term "delegate agency" means a public or private non-profit organization or agency to which a grantee has delegated the carrying on of all or part of its Head Start program.

(f) The term "current delegate agency" means a public or private nonprofit agency which would like to continue to carry on all or part of the Head Start program of the grantee under an arrangement with and as delegate of the grantee.

(g) The term "prospective delegate agency" means a public or private nonprofit agency or organization which would like to serve as a delegate agency.

(h) The term "program account" means the identification of a grouping of related program activities recognized by OCD which, as an individual grouping or in combination with another grouping or other groupings, constitutes the Head Start program for which a Head Start grantee is furnished Federal financial assistance, and which serves as a unit for planning, budgeting, administering, and reporting the grantee's Head Start program. Examples of program accounts are: Full Year Head Start—Part Day; Full Year Head Start—Full Day; Summer Head Start; Parent and Child Centers; and, Head Start Training and Technical Assistance.

(i) The term "substantial rejection" means that a grantee requires that the funding of a current or prospective delegate agency be reduced to 80 percent or less of the current level of operations or of the amount requested in the application; or that a grantee requires that a program account which has cost or which would cost at least 25 percent of the total cost of the Head Start program in question be eliminated or reduced to 80 percent or less of the current level of operations or of the amount requested in the application.

(j) The term "suspension" means any action by OCD temporarily suspending or curtailing assistance in whole or in part, to all or any part of a program, prior to the time that such assistance is concluded by the terms and conditions of the document in which such assistance is extended. It does not include the refusal to provide new or additional assistance.

(k) The term "termination" means any action by OCD permanently terminating assistance to all or any part of a program prior to the time such assistance is extended, but does not include the refusal to provide new or additional assistance.

§ 1303.1–3 Right to counsel, counsel fees, travel.

Parties to proceedings under this part, including OCD and delegate agencies which have the right to participate in informal meetings or termination hearings, have the right to be represented by counsel. If a party which is a delegate agency or a grantee does not have an attorney acting in that capacity as a regular member of its staff or on a retainer arrangement, such a party may designate an attorney to represent it in the proceedings and it may transfer sufficient funds from its current operating funds to pay the fees, travel, and per diem expenses of such attorney. The fees for such attorney shall be the reasonable and customary fees for an attorney practicing in the locality of the attorney. However, such fees shall not exceed $100 per day without the express written approval of the responsible OCD official. Travel and per diem expenses may be paid to such attorney from program funds in conformity with the Standard Government Travel Regulations. A delegate agency or a grantee also may designate two persons to attend and participate in proceedings under this part to which it is a party. Travel and per diem expenses may be paid to such persons from program funds in conformity with the Standard Government Travel Regulations.

§ 1303.1–4 Other remedies.

The procedures established by this part shall not be construed as precluding OCD from pursuing any other remedies authorized by law.

Subpart B—Appeals by Delegate Agencies

§ 1303.2–1 Appeal on notice of rejection or failure to act.

(a) A grantee shall give prompt, fair and adequate consideration to applications submitted by current or prospective delegate agencies to operate Head Start programs. It shall notify an applicant in writing within 30 days after receiving an application of its decision to reject it either wholly or substantially. The notice shall contain a statement of the reasons for the decision, and a statement that the applicant has a right to appeal the decision to the responsible OCD official in writing within 15 days after receipt of the notice.

(b) If a grantee fails to act upon the application of a current or prospective delegate agency to operate a Head Start program within 30 days after receiving the application, such agency has a right to appeal the grantee's failure to act in writing to the responsible OCD official within 15 days after the end of the 30 day period. In the case of a current delegate agency the failure of the grantee to act within 30 days after receiving the application shall be deemed to be a rejection.

§ 1303.2–2 Procedures for appeal by current delegate agency.

(a) Within 10 days after receiving the written appeal of a current delegate agency, the responsible OCD official will notify both parties, the appellant and the grantee, in writing that the appellant shall have the opportunity to submit written material to the responsible OCD official and to meet informally with him and the grantee to show cause why the application should not be denied; that the grantee shall have the opportunity to submit written material to the responsible OCD official and to be present at the informal meeting with him to support its decision on the appellant's application; that the time within which the parties shall submit the written material to the responsible OCD official shall be no later than 14 days after the notice by the responsible OCD official was mailed; and that the appellant may request, no later than 14 days after the notice by the responsible OCD official was mailed, the informal meeting with the responsible OCD official and the grantee. A copy of this subpart and Subpart A of this part will be included with the notice mailed by the responsible OCD official to the parties so that they may inform themselves of the nature of the written materials to be submitted, the opportunity for written rebuttal, the issues that are involved in the appeal, and the remedies available.

(b) The current delegate agency shall submit to the responsible OCD official a copy of the material it submitted to the grantee in, and in connection with, its application. It shall also submit to the responsible OCD official a written statement setting forth:

(1) Whether, prior to the grantee's decision or failure to act, the grantee advised the appellant of defects and deficiencies in its application or in the operation of its project, as appropriate.

(i) If so, when and how such advice was given.

(ii) If so, the defects and deficiencies called to the appellant's attention.

(2) Whether the grantee provided the appellant reasonable opportunity to correct the defects and deficiencies referred to in paragraph (b)(1)(ii).

(i) If so, details of the opportunity that was given.

(ii) If so, whether the grantee provided technical advice and consultation with respect to the correction of the defects and deficiencies.

(A) If the answer to paragraph (b)(2)(ii) is affirmative, describe the assistance provided; and

(B) Describe what the appellant did about correcting the defects and deficiencies.

(3) When and how the grantee notified the appellant of its decision.

(4) Whether the grantee told the appellant the reasons for its decision. If so, how such reasons were communicated to the appellant and what they were.

(5) If it is the appellant's position that the grantee acted arbitrarily or unfairly, the reason why the appellant takes this position.

(6) Any other facts and circumstances which the appellant believes will support its appeal.

(c) In connection with the appeal the grantee shall submit a written statement to the responsible OCD official setting forth:

(1) Whether, prior to rejection of the application, or the failure to act within 30 days after its receipt, the grantee advised the appellant of defects and deficiencies in the application or in the operation of the appellant's project, as appropriate.

(i) If so, when and how was such advice given.

(ii) If so, the defects or deficiencies called to the appellant's attention.

(2) Whether the grantee provided the appellant an opportunity to correct the defects and deficiencies referred to in paragraph (c).

(1) (ii).

(i) If so, details of the opportunity that was given.

(ii) If so, whether the grantee provided technical advice and consultation with respect to correction of the defects and deficiencies.

(A) If the answer to paragraph (c)(2)(ii) is affirmative, describe the assistance provided; and

(B) What the appellant did about correcting the defects and deficiencies.

(3) When and how the grantee notified the appellant of the decision.

(4) Whether the grantee told the appellant the reasons for the decision. If so, how such reasons were communicated to the appellant and, what they were.

(5) Why the grantee takes the position that it acted reasonably and fairly in arriving at its decision or in its failure to act.

(6) Any other facts and circumstances which the grantee believes will support its decision or its failure to act.

(d) At the time of submitting the written statement, each party shall furnish a copy of its statement to the other party.

(e) If the appellant does not request an informal meeting, each party shall have an opportunity to reply in writing to the written statement submitted by the other party. The written reply shall be submitted to the responsible OCD official within 10 days after the copy of the other party's written statement was mailed.

(f) If the appellant requests an informal meeting, the meeting will be scheduled by the responsible OCD official as soon as possible, but not sooner than 14 days after the written notice to

V 39 110 JUN 6 74 XUM

the parties was mailed by the responsible OCD official, unless the appellant and the grantee consent to an earlier meeting time. The responsible OCD official shall designate either the appropriate regional office or the place where the appellant or grantee is located as the place for holding the meeting.

§ 1303.2–3 Decision on appeal and review.

(a) The decision of the responsible OCD official will take into account the material submitted in writing and the information presented at the informal meeting. Unless it is found by the responsible OCD official that the grantee acted unfairly and did not have a rational basis for its decision or its failure to act, the grantee will be sustained. The decision of the responsible OCD official will be made within 5 days after the informal meeting. This decision, including a statement of the reasons therefor, will be in writing, and will be mailed immediately to the appellant and the grantee. If the decision is made on the basis of written materials only, the decision will be made within 14 days of the receipt of the materials.

(b) If the decision of the responsible OCD official sustains the decision or failure to act of the grantee, the appellant may, within 14 days of the date of mailing, make a written request for review of the decision by the Director, OCD. If the decision of the responsible OCD official does not sustain the decision or failure to act of the grantee, the grantee may, within 14 days of the date of mailing, make a written request for review of the decision by the Director, OCD. Upon such request by either party the Director, or his designee, will review the decision of the responsible OCD official, the written material submitted by the appellant and grantee, and a report of the information presented at the informal meeting, and, on the basis of this review, make the final decision. The decision of the grantee will be sustained unless it is found that it acted unfairly and without a rational basis for its decision or its failure to act. The final decision will be made no later than 30 days after receipt of the request for review. The Director will inform the appellant, the grantee, and the responsible OCD official in writing of the final decision and the reasons therefor.

§ 1303.2–4 Remedies.

(a) If the decision of the responsible OCD official does not sustain the grantee and there is no timely written request for review by the Director, OCD, or if the final decision does not sustain the grantee, the responsible OCD official will remand the application to the grantee for prompt consideration or reconsideration and decision in accordance with the criteria set forth in § 1303.2–3 (a) and (b) for decision on the appeal. The grantee shall report its decision and the reasons therefor in writing to the responsible OCD official within 10 days after the date of the remand. If the responsible OCD official finds that the grantee gave fair consideration to the application on remand and that its decision has a rational basis, the appeal will be dismissed. If the responsible OCD official finds that the grantee failed to give fair consideration to the application on remand and that its decision does not have a rational basis, or if the grantee fails to act within the 10 days, the responsible OCD official will entertain an application by the appellant for a direct grant. If such an application is approved, there will be a commensurate reduction in the level of funding of the grantee and whatever other action the responsible OCD official deems appropriate in the circumstances. If such an application is not approved, the responsible OCD official will take whatever action he deems appropriate in the circumstances.

(b) If without fault on the part of the appellant its operating funds are exhausted before its appeal has been decided, OCD will furnish sufficient funds for the maintenance of its current level of operations until a final decision has been reached.

§ 1303.2–5 Procedures for appeal by rejected prospective delegate agency.

(a) Within 10 day after receiving the written appeal of a rejected prospective delegate agency the responsible OCD official will notify both parties, the appellant and the grantee, in writing that they shall have the opportunity to submit written material in connection with the appeal; and that the time within which the written material shall be submitted to the responsible OCD official shall be no later than 14 days after the notice by the responsible OCD official was mailed. A copy of this subpart and Subpart A of this Part shall be included with the notice mailed by the responsible OCD official to the parties so that they may inform themselves of the nature of the written material to be submitted, the opportunity for written rebuttal, the issues that are involved in the appeal, and the remedies available.

(b) The appellant shall submit to the responsible OCD official copies of the material it submitted to the grantee in, and in connection with, its application. It shall also submit a written statement setting forth the same material by § 1303.2–2(b).

(c) In connection with the appeal the grantee shall submit a written statement to the responsible OCD official setting forth the same material required by § 1303.2–2(c).

(d) At the time of submitting the written statements, each party shall furnish a copy of its statement to the other party.

(e) Each party shall have an opportunity to reply in writing to the written statement submitted by the other party. The written reply shall be submitted to the responsible OCD official within 10 days after the copy of the other party's written statement was mailed.

§ 1303.2–6 Decision on appeal.

(a) The responsible OCD official may designate a person to review the written material and make a written recommended decision. The final decision will be made by the responsible OCD official no later than 14 days after the receipt of the written material.

(b) A person designated to review the written material and make a recommended decision or the responsible OCD official may ask either or both parties to submit additional written material. A copy of any such request shall be furnished to each party, and each party shall furnish a copy of any such additional written material to the other party.

(c) The recommended, if any, and final decisions will be based upon the written record resulting from the materials submitted by the parties. The decision of the grantee will be sustained unless it is found by the responsible OCD official that it acted unfairly and without a rational basis for its decision. The final decision of the responsible OCD official will be transmitted, in writing, immediately to the appellant and the grantee.

§ 1303.2–7 Remedies.

If the final decision does not sustain the grantee, the responsible OCD official will remand the application to the grantee for prompt consideration or reconsideration and decision in accordance with the criteria set forth in § 1303.2–3 (a) and (b) for decision on the appeal. The grantee shall report its decision and the reasons therefor in writing to the responsible OCD official within 10 days after the date of the remand. If the responsible OCD official finds that the grantee gave fair consideration to the application on remand and that its decision had a rational basis, the appeal shall be dismissed. If the responsible OCD official finds that the grantee failed to give fair consideration to the application on remand and that its decision did not have a rational basis, or if the grantee fails to act within the 10 days, the responsible OCD official will entertain an application by the appellant for a direct grant. If such an application is approved, there will be a commensurate reduction in the level of funding of the grantee and whatever other action the responsible OCD official deems appropriate in the circumstances. If such an application is not approved, the responsible OCD official will take whatever action he deems appropriate in the circumstances.

§ 1303.2–8 Procedures when grantee fails to act on application of prospective delegate agency.

(a) Within 10 days after receiving the written appeal based upon the failure of the grantee to act upon the application of a prospective delegate agency within 30 days, the responsible OCD official will notify both parties, the appellant and the grantee, in writing that they shall have the opportunity to submit written material in connection with the appeal; and that the time within which the written material shall be submitted to the responsible OCD official shall be no later than 14 days after the notice by the responsible OCD official was mailed. A copy of this subpart and subpart A shall be included with the notice mailed by the responsible OCD official to the parties so that they may inform themselves of the nature of the written material t obe submitted, the opportunity for written rebuttal, the issues that are involved in the appeal, and the remedies available.

(b) The appellant shall submit the following materials in writing to the responsible OCD official:

(1) Copies of the material it submitted to the grantee in, and in connection with, its application.

(2) A description of, or copies of, any communications, written or oral, between the appellant and the grantee during the 30 day period.

(3) Any other facts and circumstances which the appellant believes to be relevant to its appeal.

(c) The grantee shall submit the following materials in writing to the responsible OCD official:

(1) A description of, or copies of, any communications, written or oral, between the appellant and the grantee during the thirty day period.

(2) Any other facts and circumstances which the grantee believes to be relevant.

§ 1303.2–9 Decision on appeal.

(a) The responsible OCD official may designate a person to review the written material and make a written recommended decision. The final decision will be made by the responsible OCD official no later than 14 days after receipt of written material.

(b) The person, if any, designated to review the written material and make a recommended decision or the responsible OCD official may ask either or both parties to submit additional written material. A copy of any such request shall be furnished to each party, and each party shall furnish a copy of any such additional written material to the other party.

(c) The recommended and final decisions will be based upon the written record resulting from the material submitted by the parties. The final decision of the responsible OCD official will be transmitted, in writing, immediately to the appellant and the grantee.

§ 1303.2–10 Remedies.

The responsible OCD official will remand the application to the grantee for prompt consideration and decision in accordance with the criteria set forth in § 1303.2–3 (a) and (b) for decision on the appeal. The grantee shall report its decision and the reasons therefor in writing to the responsible OCD official within 10 days after the date of the remand. The responsible OCD official may request additional information from either party if he deems it necessary to a decision. If the responsible OCD official finds that the grantee gave fair consideration to the application on remand and that its decision has a rational basis, the appeal shall be dismissed. If the responsible OCD official finds that the grantee failed to give fair consideration to the application on remand and that its decision does not have a rational basis, or if the grantee fails to act within the 10 days, the responsible OCD official may entertain an application by the appellant for a direct grant. If such an application is approved, there will be a commensurate reduction in the level of funding of the grantee and whatever other action the responsible OCD official deems appropriate in the circumstances. If such an application is not approved, the responsible OCD official will take whatever action he deems appropriate in the circumstances.

Subpart C—Denial of Grantee's Application for Refunding

§ 1303.3–1 Denial of Refunding.

A grantee's application for refunding may be denied by the responsible OCD official for circumstances related to the particular grant such as ineffective or improper use of Federal funds or for failure to comply with applicable law, regulations, terms and conditions, or, in accordance with Part 1302 of this Chapter, upon selection by the responsible OCD official of another applicant or loss by the grantee of legal status or financial viability. The procedures in this subpart do not apply to a denial of refunding based upon general policy.

§ 1303.3–2 Notice of intended denial and opportunity to show cause.

(a) When an intention to deny a grantee's application for refunding is arrived at on bases to which this subpart applies, the responsible OCD official will provide the grantee as much advance notice thereof as is reasonably possible, in no event later than 30 days after the receipt by OCD of the application. The notice will be in writing and sent to the grantee by registered or certified mail or by telegram. The notice will state the reasons for the intended denial of the application. It will inform the grantee that the grantee has the opportunity to submit written material in opposition to the intended denial to, and to meet informally with, the responsible OCD official regarding the intended denial in order to show cause why the application for refunding should not be denied. In addition, the notice will inform the grantee of the time, not fewer than seven days nor more than 14 days after the date of sending the notice to the grantee, within which the grantee shall notify the responsible OCD official in writing as to whether and to what extent it will utilize the opportunity to show cause provided by this section.

(b) If the grantee has notified the responsible OCD official in writing as provided by paragraph (a) of this section that it will submit written material, such material shall be mailed by the grantee to the responsible OCD official within 14 days after the date the notice was mailed by the grantee.

(c) If the grantee has notified the responsible OCD official in writing as provided by paragraph (a) of this section that it wants an informal meeting, the responsible OCD official will schedule the meeting as soon as possible but not sooner than 14 days from the date the notice was mailed by the grantee, unless the grantee consents to an earlier meeting time. The responsible OCD official will designate either the appropriate regional office or the place where the grantee is located as the place for holding the meeting. If the meeting is to be in a location other than the city or county in which the grantee operates, the responsible OCD official will authorize the grantee to pay the travel and per diem expenses of two representatives of the grantee to attend the meeting.

(d) If without fault on the part of the grantee its operating funds are exhausted before a final decision has been reached on whether its application for refunding will be denied, OCD will furnish sufficient funds to the grantee to maintain its current level of operations until such final decision is made.

§ 1303.3–3 Decision on appeal and review.

(a) The decision of the responsible OCD official will be made within 5 days after the informal meeting and will take into account the material submitted in writing and the information presented at the informal meeting. The decision, including a statement of the reasons therefor, will be in writing, and will be sent by certified or registered mail immediately to the grantee. If the decision is made on the basis of written material only, the decision will be made within 14 days of the receipt of the written material.

(b) If the decision of the responsible OCD official is to deny the application for refunding, the grantee may, within 15 days of the date of mailing, make a request in writing for review of the decision by the Director, OCD. Upon such request the Director, or his designee, will review the decision, the written material submitted by the grantee, a report of the information presented at the informal meeting, and the basis for the original intention to deny the application for refunding; and, on the basis of this review, make the final decision on whether the grantee's application for refunding will be denied. The final decision will be made no later than 30 days after receipt by the Director of the request for review. The Director will inform the grantee and the responsible OCD official in writing of the final decision and the reasons therefor.

Subpart D—Suspension and Termination of Financial Assistance to Grantees

§ 1303.4–1 Purpose.

(a) This subpart establishes rules and procedures for the suspension and termination of financial assistance provided by OCD under section 222(a)(1) of the Economic Opportunity Act of 1964, as amended, for the failure of a grantee to comply with applicable laws, regulations, guidelines, standards, instructions, assurances, terms and conditions, or, in accordance with Part 1302 of this Chapter, upon loss by the grantee of legal status or financial viability.

V 39 110 JUN 6 74 XUM

(b) This subpart does not apply to any administrative action based upon any violation, or alleged violation, of title VI of the Civil Rights Act of 1964.

§ 1303.4–2 Suspension on notice and opportunity to show cause.

(a) The responsible OCD official may suspend financial assistance to a grantee in whole or in part for breach or threatened breach of any requirement stated in § 1303.4–1 pursuant to notice and opportunity to show cause why assistance should not be suspended. However, in emergency cases where the responsible OCD official determines summary action is appropriate, the alternative summary procedures of § 1303.4–3 will be followed.

(b) The responsible OCD official will notify the grantee by registered or certified mail or by telegram that OCD intends to suspend financial assistance, in whole or in part, unless good cause is shown why such action should not be taken. The notice will include:

(1) The grounds for the proposed suspension;

(2) The effective date of the proposed suspension;

(3) Information that the grantee has the opportunity to submit written material in opposition to the intended suspension and to meet informally with the responsible OCD official regarding the intended suspension;

(4) Information that the written material must be submitted to the responsible OCD official at least 7 days prior to the effective date of the proposed suspension and that a request for an informal meeting must be made in writing to the responsible OCD official no later than 7 days after the day the notice of intention to suspend was mailed to the grantee;

(5) Invitation to correct the deficiency by voluntary action; and

(6) A copy of this subpart.

(c) If the grantee request an informal meeting, the responsible OCD official will fix a time and place for the meeting which will not be less than 7 days after the grantee's request is received by OCD.

(d) The responsible OCD official may on his own intiative establish a time and place for a meeting. In no event will such meeting be scheduled less than 7 days after the notice of intention to suspend was sent to the grantee.

(e) The responsible OCD official may in his discretion extend the period of time or date for making requests or submitting material by the grantee and will notify the grantee of any such extension.

(f) At the time the responsible OCD official sends the notice of intention to suspend financial assistance to the grantee, he will send a copy of it to any delegate agency whose activities or failures to act are a substantial cause of the proposed suspension, and will inform such delegate agency that it is entitled to submit written material in opposition to the intended suspension and to participate in the informal meeting with the responsible OCD official if one is held. In addition, the responsible OCD official may give such notice to any other Head Start delegate agency of the grantee.

(g) Within 3 days of receipt of the notice of intention to suspend financial assistance, the grantee shall send a copy of such notice and a copy of this subpart to all delegate agencies which would be financially affected by the proposed suspension action. Any delegate agency that wishes to submit written material may do so within the time stated in the notice. Any delegate agency that wishes to participate in the informal meeting regarding the intended suspension, if not otherwise afforded a right to participate, may request permission to do so from the responsible OCD official, who may grant or deny such permission. In acting upon any such request from a delegate agency, the responsible OCD official will take into account the effect of the proposed suspension on the particular delegate agency, the extent to which the meeting would become unduly complicated as a result of granting such permission, and the extent to which the interests of the delegate agency requesting such permission appear to be adequately represented by other participants.

(h) The responsible OCD official will consider any timely material presented to him in writing, any material presented to him during the course of the informal meeting as well as any showing that the grantee has adequately corrected the deficiency which led to the suspension proceedings. The decision of the responsible OCD official will be made within 5 days after the conclusion of the informal meeting. If the responsible OCD official concludes that the grantee has failed to show cause why financial assistance should not be suspended, he may suspend financial assistance in whole or in part and under such terms and conditions as he specifies.

(i) Notice of such suspension will be promptly transmitted to the grantee by registered or certified mail and shall become effective upon delivery. Suspension shall not exceed 21 days unless during such period of time termination proceedings are initiated in accordance with § 1303.4–4, or unless the responsible OCD official and the grantee agree to a continuation of the suspension for an additional period of time. If termination proceedings are initiated, the suspension of financial assistance shall remain in full force and effect until such proceedings have been fully concluded.

(j) During a period of suspension no new expenditures shall be made and no new obligations shall be incurred in connection with the suspended program except as specifically authorized in writing by the respnosible OCD official. Expenditures to fulfill legally enforceable commitments made prior to the notice of suspension, in good faith and in accordance with the grantee's approved work program, and not in anticipation of suspension or termination, shall not be considered new expenditures. However, funds shall not be recognized as committed solely because the grantee has obligated them by contract or otherwise to a delegate agency.

NOTE: Willful misapplication of funds may violate section 301 of the Economic Opportunity Amendments of 1967 (42 U.S.C. 2703), or other criminal statutes.

(k) The responsible OCD official may modify the terms, condition and nature of the suspension or rescind the suspension action at any time on his own initiative or upon a showing satisfactory to him that the grantee has adequately corrected the deficiency which led to the suspension and that repetition is not threatened. Suspension partly or fully rescinded may, in the discretion of the responsible OCD official, be reimposed with or without further proceedings, except that the total time of suspension may not exceed 21 days unless termination proceedings are initiated in accordance with § 1303.4–4 or unless the responsible OCD official and the grantee agree to continuation of the suspension for an additional period of time. If termination proceedings are initiated, the suspension of assistance shall remain in full force and effect until such proceedings have been fully concluded.

§ 1303.4–3 Summary suspension and opportunity to show cause.

(a) The responsible OCD official may suspend financial assistance without prior notice and opportunity to show cause if he determines that immediate suspension is necessary because of a serious risk of:

(1) Substantial injury to or loss of project funds or property, or

(2) Violation of a Federal, State, or local criminal statute, or

(3) Violation of section 603(b) or section 613 of the Economic Opportunity Act or of OCD directive implementing these sections of the Act, and that such risk is sufficiently serious to outweigh the general policy in favor of advance notice and opportunity to show cause.

(b) The notice of summary suspension will be given to the grantee by registered or certified mail or by telegram and shall become effective upon delivery. The notice will include the following items:

(1) The effective date of the suspension.

(2) The grounds for the suspension.

(3) The extent of terms and conditions of any partial suspension.

(4) A statement forbidding the grantee to make any new expenditures or incur any new obligations in connection with the suspended portion of the program.

(5) A statement advising the grantee that it has an opportunity to show cause why the suspension should be rescinded.

(c) If the grantee requests in writing the opportunity to show cause why the suspension should be rescinded, the responsible OCD official will fix a time and place for an informal meeting for this purpose. This meeting will be held within 7 days after the grantee's request is received by OCD. Notwithstanding the provisions of this paragraph, the responsible OCD official may proceed to initiate termination proceedings at any time even though financial assistance to the grantee has been suspended in whole or in part. In the event that termination proceedings are initiated, the responsible OCD official will nevertheless afford the grantee, if it so requests, an opportunity to show cause in an informal meeting why suspension should be rescinded pending the outcome of the termination proceedings.

(d) Notices of summary suspension shall also be furnished by the responsible OCD official and by the grantee to delegate agencies in the same manner as notices of intent to suspend as set forth in § 1303.4–3 (f) and (g). Delegate agencies shall have the right to participate in the informal meeting as set forth in said paragraphs.

(e) The effective period of a summary suspension of financial assistance may not exceed 10 days unless termination proceedings are initiated in accordance with § 1303.4–4 or unless the parties agree to a continuation of summary suspension for an additional period of time, or unless the grantee, in accordance with paragraph (c) of this section, requests an opportunity to show cause why the summary suspension should be rescinded.

(f) If the grantee requests an opportunity to show cause why a summary suspension should be rescinded, the suspension of financial assistance shall continue in effect until the grantee has been afforded such opportunity and a decision has been made by the responsible OCD official. Such a decision will be made within 5 days after the conclusion of the informal meeting with the responsible OCD official. If the responsible OCD official concludes, after considering the information elicited at the informal meeting, that the grantee has failed to show cause why the suspension should be rescinded, the responsible OCD official may continue the suspension in effect for an additional 7 days, except that, if termination proceedings are initiated, the summary suspension of financial assistance shall remain in full force and effect until all termination proceedings have been fully concluded.

(g) The provisions of § 1303.4–2(j) with respect to expenditures during a period of suspension are applicable to summary suspensions.

§ 1303.4–4 Termination and hearing.

(a) The responsible OCD official may terminate financial assistance to a grantee in whole or in part for failure to comply with any requirement or for loss of legal status or financial viability as stated in § 1303.4–1 whether or not such financial assistance has been suspended. Such termination will be pursuant to reasonable notice and the opportunity for a full and fair hearing.

(b) If the responsible OCD official believes that alleged noncompliance with any requirement stated in § 1303.4–1 is serious enough to warrant termination of financial assistance, whether or not financial assistance has been suspended, he will so notify the grantee by registered or certified mail or telegram. The notice will include:

(1) A statement that there are grounds which justify the proposed termination and that sets forth the specific reasons therefor:

(2) If the activities of a delegate agency are the bases, in whole or in part, for the reasons for the proposed termination, the identity of the delegate agency;

(3) Information that the matter has been set down for hearing at a stated time and place or that the grantee has a right to request a hearing in writing within a specified period of time, not less than 10 days from the date of sending notice.

(c) The termination hearing will be scheduled by the responsible OCD official for the earliest practicable date, but not later than 30 days after the grantee's request. Consideration shall be given by the responsible OCD official to a request by a grantee to advance or postpone the date of a hearing scheduled by OCD. The hearing shall afford the grantee a full and fair opportunity to demonstrate that it is in compliance with all applicable laws, regulations, and other requirements specified in § 1303.4–1. OCD will have the burden of justifying the proposed termination action. However, if the basis of the proposed termination is the failure of a grantee to take action required by law, regulation, or other requirement specified in § 1303.4–1, the grantee shall have the burden of providing that such action was timely taken.

(d) If a grantee requests a hearing, it shall send a copy of its request to all delegate agencies which would be financially affected by the termination of assistance and to each delegate agency identified in the notice. The copies of the request shall be sent to these delegate agencies at the same time the grantee's request is made to OCD. The grantee shall promptly send OCD a list of the delegate agencies to which it has sent the copies and the date on which they were sent.

(e) If the responsible OCD official informs a grantee that a proposed termination action has been set down for hearing, the grantee shall within 5 days of its receipt of this notice send a copy of it to all delegate agencies which would be financially affected by the termination and to each delegate agency identified in the notice. The grantee shall send the responsible OCD official a list of all delegate agencies notified and the date of notification.

(f) If the responsible OCD official has initiated termination proceedings because of the activities of a delegate agency, that delegate agency may participate in the hearing as a matter of right. Any other delegate agency, person, agency or organization that wishes to participate in the hearing may, in accordance with § 1303.4–6, request permission to do so from the presiding officer of the hearing. Such participation shall not, without the consent of OCD and the grantee, alter the time limitations for the delivery of papers or other procedures set forth in this section.

(g) The results of the proceeding and any measure taken thereafter by OCD pursuant to this part shall be fully binding upon the grantee and all its delegate agencies whether or not they actually participated in the hearing.

(h) A grantee may waive a hearing and submit written information and argument for the record. Such material shall be submitted to the responsible OCD official within a reasonable period of time to be fixed by him upon the request of the grantee. The failure of a grantee to request a hearing, or to appear at a hearing for which a date had been set, unless excused for good cause, shall be deemed a waiver of the right to a hearing and consent to the making of a decision on the basis of such information as is then in the possession of OCD including the allegations contained in the notice of termination.

(i) The responsible OCD official may attempt, either personally or through a representative, to resolve the issues in dispute by informal means prior to the hearing.

§ 1303.4–5 Time and place of hearing.

The termination hearing shall be held in Washington, D.C., or in the appropriate regional office, at a time and place fixed by the responsible OCD official unless he determines that the convenience of OCD, or of the parties or their representatives, requires that another place be selected.

§ 1303.4–6 Conduct of hearing.

(a) The presiding officer at the hearing shall be an administrative law judge designated as promptly as possible in accordance with 5 U.S.C. 3105. The presiding officer shall conduct a full and fair hearing, avoid delay, maintain order, and make a sufficient record for a full and true disclosure of the facts and issues. To accomplish these ends, the presiding officer shall have all powers authorized by law, and he may make all procedural and evidentiary rulings necessary for the conduct of the hearing. The hearing shall be open to the public unless the presiding officer for good cause shown otherwise determines.

(b) After the notice described in paragraph (i) of this section is filed with the presiding officer, he shall not consult any person or party on a fact in issue unless on notice and opportunity for all parties to participate. However, in performing his functions under this part the presiding officer may use the assistance and advice of an attorney, designated by the General Counsel of the U.S. Department of Health, Education, and Welfare, who has not represented OCD or any other party or otherwise participated in a proceeding, recommendation, or decision in the particular matter.

(c) Both OCD and the grantee are entitled to present their case by oral or documentary evidence, to submit rebuttal evidence and to conduct such examination and cross-examination as may be

V 39 110 JUN 6 74 XUM

required for a full and true disclosure of all facts bearing on the issues. The issues shall be those stated in the notice required to be filed by paragraph (i) of this section, those stipulated in a prehearing conference or those agreed to by the parties.

(d) In addition to OCD, the grantee, and any delegate agencies which have a right to appear, the presiding officer in his discretion may permit the participation in the proceedings of such persons or organizations as he deems necessary for a proper determination of the issues involved. Such participation may be limited to those issues or activities which the presiding officer believes will meet the needs of the proceeding, and may be limited to the filing of written material.

(e) Any person or organization that wishes to participate in a proceeding may apply for permission to do so from the presiding officer. This application, which shall be made as soon as possible after the notice of termination has been received by the grantee, shall state the applicant's interest in the proceeding, the evidence or arguments the applicant intends to contribute, and the necessity for the introduction of such evidence or arguments.

(f) The presiding officer shall permit or deny such participation and shall give notice of this decision to the applicant, the grantee, and OCD, and, in the case of denial, a brief statement of the reasons therefore. Even if previously denied, the presiding officer may subsequently permit such participation if, in his opinion, it is warranted by subsequent circumstances. If participation is granted, the presiding officer shall notify all parties of that fact and may, in appropriate cases, include in the notification a brief statement of the issues as to which participation is permitted.

(g) Permission to participate to any extent is not a recognition that the participant has any interest which may be adversely affected or that the participant may be aggrieved by any decision, but is allowed solely for the aid and information of the presiding officer.

(h) All papers and documents which are required to be filed shall be filed with the presiding officer. Prior to filing, copies shall be sent to the other parties.

(i) The responsible OCD official will send the grantee and any other party a notice which states the time, place, nature of the hearing, and the legal authority and jurisdiction under which the hearing is to be held. The notice will also identify with reasonable specificity the facts relied on as justifying termination and the OCD requirements which it is alleged the grantee has violated. The notice will be served and filed not later than 10 days prior to the hearing.

(j) The grantee and any other party which has a right or has been granted permission to participate in the hearing shall give written confirmation to OCD and the presiding officer of its intention to appear at the hearing 3 days before it is scheduled to occur. Failure to do so may, at the discretion of the presiding officer, be deemed a waiver of the right to a hearing.

(k) All papers and documents filed or sent to a party shall be signed by the appropriate party or his authorized representative. The date on which papers are filed shall be the day on which the papers or documents are deposited, postage prepaid in the U.S. mail, or are delivered in person, except that the effective date of the notice that there appear to be grounds which warrant terminating financial assistance shall be the date of its delivery or attempted delivery at the grantee's last known address as reflected in the records of OCD.

(l) Prior to the commencement of a hearing the presiding officer may, subject to the provisions of paragraph (b) of this section, require the parties to meet with him or correspond with him concerning the settlement of any matter which will expedite a quick and fair conclusion of the hearing.

(m) Technical rules of evidence shall not apply to hearings conducted pursuant to this part, but the presiding officer shall apply rules or principles designed to assure production of relevant evidence and to subject testimony to such examination and cross-examination as may be required for a full and true disclosure of the facts. The presiding officer may exclude irrelevant, immaterial, or unduly repetitious evidence. A transcript shall be made of the oral evidence and shall be made available to any participant upon payment of the prescribed costs. All documents and other evidence submitted shall be open to examination by the parties and opportunity shall be given to refute facts and arguments advanced on either side of the issues.

(n) If the presiding officer determines that the interests of justice would be served, he may authorize the taking of depositions but only if all parties are afforded an opportunity to participate in the taking of the depositions. The party who requested the deposition shall arrange at his expense for a transcript to be made of the proceedings and shall upon request of any other party, furnish such party with a copy of the transcript.

(o) Official notice may be taken of a public document, or part thereof, such as a statute, official report, decision, opinion or published scientific data issued by any agency of the Federal Government or a State or local government and such document or data may be entered on the record without further proof of authenticity. Official notice may also be taken of such matters as may be judicially noticed in the courts of the United States, or any other matter of established fact within the general knowledge of OCD. If the decision of the presiding officer rests on official notice of a material fact not appearing in evidence, a party shall on timely request be afforded an opportunity to show the contrary.

(p) After the hearing has concluded, but before the presiding officer makes his decision, he shall afford each participant a reasonable opportunity to submit proposed findings of fact and conclusions.

§ 1303.4–7 Initial decision, exceptions, final decision and review.

(a) The decision of the presiding officer shall set forth his findings of fact, and conclusions, and shall state whether he has accepted or rejected each proposed finding of fact and conclusion submitted by the parties. Findings of fact shall be based only upon evidence submitted to the presiding officer and matters of which official notice has been taken. The decision shall so specify the requirements with which it is found that the grantee has failed to comply, if any. The decision shall be made within 14 days after the conclusion of the hearing and mailed promptly to all parties.

(b) The decision of the presiding officer may provide for continued suspension or termination of financial assistance to the grantee in whole or in part, and may contain such terms, conditions, and other provisions as are consistent with and will effectuate the purposes of the Act.

(c) The decision of the presiding officer shall be an initial decision. Any party may, within 20 days of the mailing of such initial decision, or such longer period of time as the presiding officer specifies, file with the responsible OCD official his exceptions to the initial decision and any supporting brief or statement. Upon the filing of such exceptions, the responsible OCD official will, within 20 days of the mailing of the exceptions, review the initial decision and issue his own decision in the matter, including the reasons therefor. The decision of the responsible OCD official may increase, modify, approve, vacate, or mitigate any sanction imposed in the initial decision or may remand the matter to the presiding officer for further hearing or consideration.

(d) Whenever a hearing is waived, a final decision will be made by the responsible OCD official and a written copy will be given to the grantee.

(e) The grantee may request the Director to review a final decision by the responsible OCD official which provides for the termination of financial assistance. Such a request must be made in writing within 15 days after the grantee has been notified of the decision in question and must state in detail the reasons for seeking the review. In the event the grantee requests such a review, the Director or his designee will consider the reasons stated by the grantee for seeking the review and will approve, modify, vacate or mitigate any sanction imposed by the responsible OCD official or remand the matter to the responsible OCD official for further hearing or consideration. The decision of the responsible OCD official will be given great weight by the Director or his designee during the review. During the course of his review the Director or his designee may, but is not required to, hold a hearing or allow the filing of briefs and arguments. Pending the decision of the Director or his designee, if financial assistance has been suspended it shall remain suspended under the terms and conditions specified by the responsible OCD official, unless the responsible OCD official or the Director or his designee otherwise determines. The final decision by the Director will be made no later than 30 days after receipt of the request for review.

§ 1303.4–8 Modification of procedures by consent.

In any proceeding under this subpart the responsible OCD official may alter, eliminate or modify any of the procedural provisions of this subpart, with the consent of the grantee and, in the case of a termination hearing, with the additional consent of all delegate agencies that have a right to participate in the hearing. Such consent must be in writing and be included in the hearing record.

Public Health Service

[42 CFR Part 55a]

PROGRAM GRANTS FOR COAL MINERS' RESPIRATORY CLINICS

Notice of Proposed Rulemaking

Section 427(a) of the Federal Coal Mine Health and Safety Act of 1969, as added by the Black Lung Benefits Act of 1972 (30 U.S.C. 937(a)), authorizes the Secretary of Health, Education, and Welfare to make grants and contracts for the construction, purchase, and operation of fixed-site and mobile clinical facilities for the analysis, examination, and treatment of respiratory and pulmonary impairments in both active and inactive coal miners. The section directs that the awarding of such grants and contracts shall be coordinated with the Appalachian Regional Commission.

Notice is hereby given that the Assistant Secretary for Health, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 42, Code of Federal Regulations by adding a new Part 55a which sets forth the conditions and procedures for awarding grants for the operation of coal miners' respiratory clinics. The purpose of the grant is to furnish funds for initiating such clinical services to miners with the hope that the clinics will be self-supporting when Federal assistance ceases. Accordingly, there will be full funding of approvable programs; i.e., Federal funds may be obligated for up to three years of support.

To maximize the effectiveness of the limited amount of funds available for implementing the authority of section 427(a), the regulations propose to award grants only for the operation of clinical facilities notwithstanding express authority for awarding grant funds for the construction or purchase of such clinics. Moreover, it is proposed to limit grants to any public and private nonprofit agency or institution which (1) is located in any State that contains at least three percent of the Nation's active and inactive coal miner population and which has been designated by the Governor of the State as an agency to receive funds to carry out a miners' respiratory clinic program or (2) is the recipient of grant support under the Appalachian Regional Commission Black Lung Clinic Program. The operation of miners' respiratory clinics in those States which would not qualify for grants under this part may be supported by contract under section 427(a) of the Act.

The proposed regulations provide that awards would be made to eligible applicants on the basis of an application which sets forth a plan for the operation of respiratory clinics on an area or Statewide basis. Under such a plan, grantees would contract with clinics which meet the requirements of this Part 55a for the provision of services to miners.

In accord with the legislative history of section 427(a), it is proposed to limit support for treatment to respiratory and pulmonary impairments attributable to working in coal mines and to further limit support for treatment to occupational respiratory and pulmonary diseases which would not include treatment of respiratory impairments caused by traumatic injuries and accidents in the mines. Finally, in view of the ordinary meaning of "clinic" and the reference to mobile clinics which are not suited for inpatient care, treatment would be limited to outpatient care.

The funds available for these grants must be obligated by the Department by June 30, 1974, or be returned to the Treasury. In view of the time constraints for awarding grants under this part, grant applications will be accepted and processed during the comment period and applicants will be notified of any changes in the final rulemaking which may be deemed necessary as a result of comments received.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed regulations to the Regulations Officer, National Institute for Occupational Safety and Health, Rm 3–32 (Park Bldg.), 5600 Fishers Lane, Rockville, Maryland 20852. All material received on or before June 21, 1974, will be considered and revisions made where appropriate. Any comments received will be available for public inspection at the foregoing address during regular business hours.

It is therefore proposed to issue a new Part 55a as set forth below to be effective on the date of its republication in the FEDERAL REGISTER.

Dated: May 28, 1974.

THEODORE COOPER,
Acting Assistant Secretary for Health.

Approved: June 3, 1974.

CASPAR W. WEINBERGER,
Secretary.

PART 55a—PROGRAM GRANTS FOR COAL MINERS' RESPIRATORY CLINICS

Sec.
55a.1 Applicability.
55a.2 Definitions.
55a.3 Eligibility.
55a.4 Application.
55a.5 Policy Advisory Committee.
55a.6 Medical Advisory Committee.
55a.7 Program requirements.
55a.8 Requirements for respiratory clinics.
55a.9 Evaluation and award.
55a.10 Grant payments.
55a.11 Use of project funds.
55a.12 Nondiscrimination.
55a.13 Confidentiality.
55a.14 Inventions and discoveries.
55a.15 Publications and copyright.
55a.16 Grantee accountability.
55a.17 Program reporting requirements.
55a.18 Applicability of 45 CFR Part 74.

AUTHORITY: The provisions of this Part 55a issued under sec. 508, 83 Stat. 803; 30 U.S.C. 957.

§ 55a.1 Applicability.

The provisions of this part are applicable to the award of grants pursuant to section 427(a) of the Federal Coal Mine Health and Safety Act, as amended (30 U.S.C. 937(a)) to carry out programs for the operation of fixed-site and mobile clinical facilities for examination, diagnosis, and treatment of respiratory and pulmonary impairments in coal miners.

§ 55a.2 Definitions.

Any term not defined herein shall have the meaning given it in the Act. As used in this part:

(a) "Act" means the Federal Coal Mine Health and Safety Act of 1969, as amended (30 U.S.C. 801 et seq.).

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved may be delegated.

(c) "Applicant" means any public or nonprofit private agency or institution which files an application for a grant under section 55a.4 of this part.

(d) "Nonprofit", as applied to an agency or institution, means that no part of the net earnings of such agency or institution inures or may lawfully inure to the benefit of any shareholder or individual.

(e) "Miner" means an individual who has been employed to work in or at any coal mine for at least a period of three years but does not include any worker who did not have direct contact with coal mining or coal processing operations.

(f) "Commission" means the Appalachian Regional Commission established by Title 40 App. U.S.C.

§ 55a.3 Eligibility.

(a) Any public or other nonprofit agency or institution which (1) is located in any State that contains at least 3 percent of the Nation's active and inactive coal miner population and which has been designated by the Governor of the State as the agency to receive funds to carry out a miners' respiratory clinic program, or (2) is the recipient of a grant by the Commission to carry out a miners' respiratory clinic program, is eligible to apply for a grant under this part.

(b) *Eligible projects*—Grants pursuant to section 427(a) of the Act and this

V 39 110 JUN 6 74 XUM

part may be made to eligible applicants for the purpose of carrying out area or statewide plans for the establishment and operation of fixed-site and mobile clinics for the analysis, examination, and treatment of miners' occupational respiratory and pulmonary diseases.

§ 55a.4 Application.

(a) An application for a grant under this part shall be submitted to the Secretary at such time and manner as the Secretary may prescribe.[1]

(b) The application shall contain a budget and narrative plan of the manner in which the applicant intends to conduct its program and carry out the requirements of this part, and a budget and justification of the amount of grant funds requested and such other pertinent information as the Secretary may require.

(c) The applicant must indicate (1) that a copy of the application was forwarded to the appropriate State health planning agency established pursuant to section 314(a) of the Public Health Service Act, and where such an agency has been established, to an area-wide planning agency established pursuant to section 314(b) of the Public Health Service Act for their review and comment, and (2) the dates such copies were forwarded. The applicant shall request that the comments of such agencies be forwarded to the Secretary.

(d) The application shall be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the Act, the applicable regulations of this part, and any additional conditions of the grant.

(e) Such application shall set forth the membership of the Policy Advisory Committee (hereinafter referred to as the committee) described in § 55a.5.

§ 55a.5 Policy Advisory Committee.

(a) A Policy Advisory Committe shall be established by the grantee as follows:

(1) *Selection and composition.* The members of the committee shall be selected by the grantee and shall include a fair distribution of representatives from the miner population to be served, State agencies involved in health and welfare programs for coal miners, the health professions, and appropriate State or area-wide health planning agencies. Each member of the committee shall be selected to serve for a period of one year. The members of the committee shall elect one of the members to act as chairperson.

(2) *Meetings.* The committee shall meet as often as necessary but not less than quarterly during the time services are being offered.

(3) *Functions.* The committee shall from time to time review and make recommendations concerning general policies in the following areas:

(i) Selection and dismissal of personnel including qualifications, salary and benefits and grievance procedures;

(ii) Eligibility for services;

(iii) Hours and locations of services;

(iv) Priorities for allocation of project funds among services;

(v) Methods of evaluating the program; and

(vi) Other matters concerning the administration of the program.

(b) The Secretary may, for good cause shown, permit a grantee up to three months for compliance with the requirements of this section with respect to the selection of the Policy Advisory Committee and the Medical Advisory Committee pursuant to § 55a.6.

§ 55a.6. Medical Advisory Committee.

The grantee shall appoint a Medical Advisory Committee to assist it in establishing medical care policies and in reviewing requests for medical equipment and personnel from facilities attempting to meet the requirements of § 55a.8. The Medical Advisory Committee shall be composed of at least three persons with expertise in occupational respiratory and pulmonary diseases. Each member shall be selected to serve for a period of one year.

§ 55a.7 Program requirements.

An approvable application must contain each of the following:

(a) A plan for the provision of the services required by this part specifying the area for which the services are to be provided. The plan shall include resources currently available for respiratory clinic services and a list of the clinics meeting the requirements of § 55a.8, which have agreed to participate in the program and shall be accompanied by letters of intent from the clinics listed to participate in the grantee's program. Participation may be made contingent upon the award of grant funds.

(b) An assurance that, should an award be made, the grantee will enter into binding agreements with the listed clinics which shall include provisions that:

(1) Services will be made available without the imposition of any durational residence or referral requirement;

(2) Services will be made available in a manner calculated to preserve human dignity and to maximize acceptability and utilization of services;

(3) Charges shall be made for services rendered: *Provided, however,* That no person shall be denied health services by reason of inability to pay therefor: *And further provided,* That (i) where third-party payors (including Government agencies) are authorized or under a legal obligation to pay all or a portion of such charges, all services covered by that reimbursement plan will be billed and every reasonable effort will be made to obtain payment and (ii) where the cost of care and services furnished under the program is to be reimbursed under title XIX of the Social Security Act, a written agreement with the title XIX agency will be obtained by the clinic unless the title XIX agency refuses to enter into such an agreement and the clinic provides evidence of the refusal to the grantee.

(4) Subject to the provisions of paragraph (b)(3) of this section, a schedule of charges to be made for services rendered pursuant to the program will be followed in accordance with a schedule submitted and approved as part of the program. Such charges must be consistent with prevailing rates in the community for such services.

(5) Grant funds will be used to supplement and not supplant services that the clinic established prior to the grant award except to the extent such services are, or have been, supported by an award of the Commission.

(6) Medical services will be performed under the direction of a physician with special training or experience in the diagnosis and treatment of respiratory diseases.

(c) A statement that a Policy Advisory Committee will be established in accordance with § 55a.5 and a Medical Advisory Committee will be established in accordance with § 55a.6.

§ 55a.8. Requirements for respiratory clinics.

The only clinics which may be included in an applicant's plan are those which meet, or with grantee assistance will be able to meet, the following requirements:

(a) Capability for performing the following screening examinations at the clinic:

(1) History and physical examinations by or under the supervision of a physician;

(2) Spirometry (FVC, FEV, MMV);

(3) Chest roentgenography; and

(4) Electrocardiography.

(b) Ability by on-site performance of, or under formal arrangements with other medical facilities for performing, in-depth analysis of pulmonary function including measurements of total lung volumes, alveolar gas distribution, diffusion and other gas exchange studies, blood gases, pH, and the effect of exercise on pulmonary function.

(c) Ability to provide for the following treatment services:

(1) Oxygen therapy;

(2) Intermittent positive pressure breathing;

(3) Antibiotic therapy;

(4) Physical therapy;

(5) Anti-smoking advice; and

(6) Other symptomatic treatments including use of nebulizers, bronchodilators steroids, expectorants, etc.

(d) Be approved and designated by the Social Security Administration and Department of Labor to perform disability examinations and provide treatment under the Act.

(e) Be approved by the National Institute for Occupational Safety and Health to perform roentgenographic examinations of coal miners under 42 CFR Part 37 or so equipped, staffed, and technically and professionally proficient, in the judgment of the Secretary, to meet such requirements for approval.

§ 55a.9 Evaluation and award.

(a) Within the limits of funds available for such purposes, the Secretary

---

[1] Application kits, further information, technical assistance and consultation may be obtained from the appropriate Departmental Regional Office.

may award grants to assist in the carrying out of those programs which will in his judgment best promote the purposes of section 427(a) of the Act, taking into account:

(1) The number of miners to be served;

(2) The capacity of the applicant to make rapid and effective use of such assistance;

(3) The adequacy of the applicant's facilities and staff, and the adequacy of the respective facilities and staffs of the clinics included in the applicant's plan, including their experience in providing the services called for under the program;

(4) The degree to which other resources are committed to the program;

(5) The degree to which the applicant possesses the capability to analyze contracts for the purchase of medical equipment, and its experience with the delivery of medical services by clinical facilities;

(b) The amount of any award under this part will be determined by the Secretary on the basis of his estimate of the sum necessary for a designated portion of direct program costs plus an additional amount for indirect costs, if any, which will be calculated by the Secretary either:

(1) On the basis of the estimate of the actual indirect costs reasonably related to the program; or

(2) On the basis of a percentage of all, or a portion of, the estimated direct costs of the program when there are reasonable assurances that the use of such percentage will not exceed the approximate actual indirect costs. Such award may include an estimated provisional amount for indirect costs or for designated direct costs (such as fringe benefit rates) subject to upward (within the limits of available funds) as well as downward adjustments to actual costs when the amount properly expended by the grantee for provisional items has been determined by the Secretary.

(c) All grant awards shall be in writing, shall set forth the amount of funds granted, and the period for which support is recommended.

(d) Neither the approval of any program nor any grant award shall commit or obligate the United States in any way to make additional, supplemental, continuation, or other award with respect to any approved program or portion thereof.

§ 55a.10 Grant payments.

The Secretary shall from time to time make payments to a grantee of all or a portion of any grant award, either by advance or by way of reimbursement for expenses incurred or to be incurred to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved program.

§ 55a.11 Use of project funds.

(a) Any funds granted pursuant to this part, as well as other funds to be used in performance of the approved program, shall be expended solely for carrying out the approved program in accordance with section 427(a) of the Act, the regulations of this part, the terms and conditions of the award, and the applicable cost principles prescribed by subpart Q of 45 CFR Part 74.

(b) Program funds awarded under this part may be used for renovation of existing space; purchase of medical equipment; salaries of additional personnel; transportation of patients; training of personnel, but may not be used for the construction of new facilities nor for salaries of persons in positions previously supported from other sources other than under a grant from the Appalachian Regional Commission.

(c) Program funds awarded under this part may be used to reimburse members of the Policy Advisory Committee and Medical Advisory Committee for actual expenses incurred by reason of their participation in such committee activities.

(d) Prior approval by the Secretary of revision of the budgetor's program plan is required whenever there is to be a significant change in the scope or nature of program activities including any relocation of the health services set forth in the plan filed as part of the grant application.

§ 55a.12 Nondiscrimination.

Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular section 601 of such Act which provides that no person in the United States shall on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which applies to grants made under this part, has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80). In addition no person shall, on the grounds of sex, or creed (unless otherwise medically indicated) be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. Nor shall any person be denied employment in or by such program or activity so receiving Federal financial assistance on the grounds of age, sex, creed, or marital status.

§ 55a.13 Confidentiality.

All information as to personal facts and circumstances obtained by the grantee's staff shall be held confidential, and shall not be divulged without the individual's consent except as may be required by law or as may be necessary to provide service to the individual. Information may be disclosed in summary, statistical, or other form which does not identify particular individuals.

§ 55a.14 Inventions or discoveries.

A grant award is subject to the regulations of the Department of Health, Education, and Welfare as set forth in 45 CFR Parts 6 and 8, as amended. Such regulations shall apply to any activity for which grant funds are in fact used whether within the scope of the program as approved or otherwise. Appropriate measures shall be taken by the grantee and by the Secretary to assure that no contracts, assignments or other arrangements inconsistent with the grant obligation are continued or entered into and that all personnel involved in the supported activity are aware of and comply with such obligations. Laboratory notes, related technical data, and information pertaining to inventions and discoveries shall be maintained for such periods, and filed with or otherwise made available to the Secretary or those he may designate at such times and in such manner as he may determine necessary to carry out such Department regulations.

§ 55a.15 Publications and copyright.

Except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films, or similar materials developed or resulting from a project supported by a grant under this part, subject, however, to a royalty-free, nonexclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate, and dispose of such materials and to authorize others to do so.

§ 55a.16 Grantee accountability.

(a) *Accounting for grant award payments.* All payments made by the Secretary shall be recorded by the grantee in accounting records separate from the records of all other grant funds, including funds derived from other grant awards. With respect to each approved program the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures for direct and indirect costs meeting the requirements of this part: *Provided, however,* That when the amount awarded for indirect costs was based on a predetermined fixed-percentage of estimated direct costs, the amount allowed for indirect costs shall be computed on the basis of such predetermined fixed-percentage rates applied to the total, or a selected element thereof, of the reimbursable direct costs incurred

(b) *Accounting for interest earned on grant funds.* Pursuant to section 203 of the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4213), a State will not be held accountable for interest earned on grant funds, pending their disbursement for grant purposes. A State, as defined in section 102 of the Intergovernmental Cooperation Act, means any one of the several States, the District of Columbia, Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State, but does not include the governments of the political subdivisions of the State. All grantees other than a State, as defined in this section, must return all interest earned on grant funds to the Federal Government.

(c) *Grant closeout*—(1) *Date of final accounting*. A grantee shall render, with respect to each approved program, a full account, as provided herein, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement*. There shall be payable to the Federal Government as final settlement with respect to each approved program the total sum of:

(i) Any amount not accounted for pursuant to paragraph (a) of this section;

(ii) Any credits for earned interest pursuant to paragraph (b) of this section; and

(iii) Any other amounts due pursuant to Subparts F, M, and O of 45 CFR Part 74.

Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

§ 55a.17 Program reporting requirements.

Each grant awarded pursuant to this part shall be subject to the condition that the grantee shall within 15 days after the end of each quarterly period submit to the Secretary a statistical summary of the patients examined and treated at the clinics operating under the grantee's program. In addition, the grantee shall submit such other reports as the Secretary may require.

§ 55a.18 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants under this part to States and local governments as those terms are defined in Subpart A of that Part 74. The relevant provisions of the following subparts of Part 74 shall also apply to grants to all other grantee organizations under this part.

Subpart	*Subject*
A	General.
B	Cash depositories.
C	Bonding and insurance.
D	Retention and custodial requirements for records.
F	Grant-related income.
G	Matching and cost sharing.
K	Grant payment requirements.
L	Budget revision procedures.
M	Grant closeout: Suspension, and termination.
O	Property.
Q	Cost principles.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74-GL-17]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations so as to designate a transition area at Litchfield, Illinois.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before July 8, 1974 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

An instrument approach procedure has been developed for the Litchfield Municipal Airport, Litchfield, Illinois. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this approach procedure by designating a transition area at Litchfield, Illinois.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is added:

LITCHFIELD, ILLINOIS

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Litchfield Municipal Airport (latitude 39°09'54" N., longitude 89°40'22" W.): and within 3 miles each side of the 079° bearing from the airport, extending from the 5-mile radius area to 8 miles east of the airport.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois, on May 24, 1974.

JOHN M. CYROCKI,
Director, Great Lakes Region.

[14 CFR Part 71]

[Airspace Docket No. 74-SO-56]

VOR FEDERAL AIRWAY

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation regulations that would realign V-241W in part to extend from the Dothan, Ala., VORTAC to the Tyrone, Ga., INT, via the Midway, Ala., INT and the LaGrange, Ga., VORTAC.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before July 8, 1974 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket will also be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would realign the portion of V-241W between Dothan, Ala., and Columbus, Ga., to extend from Dothan via the INT of Dothan 002°T (360°M) and LaGrange, Ga., 191°T (190°M) radials; and the LaGrange VORTAC to the INT of LaGrange 053°T (052°M) and Rome, Ga., 157°T (156°M) radials. This realignment would improve the traffic flow and terminal procedures in the Atlanta, Ga., and Columbus, Ga., areas.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on May 30, 1974.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

PREPARATION OF ENVIRONMENTAL IMPACT STATEMENTS

Policies and Procedures

Correction

In FR Doc. 74-11647 appearing at page 18288 in the issue for Friday, May 24, 1974, make the following changes:

1. The headings should read as set forth above.

2. In table III on page 18296, under the entry for "Pratt Whitney JT-4A (Long range jet): Takeoff", the entry under carbon monoxide, pounds per hour, which presently reads "18.9" should read "18.8".

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20002]

FM BROADCAST STATIONS; FLORIDA

Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Marco, Florida; St. Augustine, Florida; and Milton, Florida), RM-2143, RM-2184, RM-2251.

1. The Commission, by the Chief, Broadcast Bureau, pursuant to § 0.281 of the Commission's rules, has before it a petition filed by Collier Broadcasting Company ("Collier") seeking reconsideration of the notice of proposed rulemaking (published in the FEDERAL REGISTER on April 15, 1974, 39 FR 13559) inviting comments on the possible assignment of FM Channel 266 to Marco, Florida. Collier also filed a "Request for Staying of Time for Filing Comments". In addition, The Deltona Corporation ("Deltona") has opposed the petition for reconsideration and Collier has filed a reply to Deltona's opposition.

2. In the subject Notice of Proposed Rule Making, the Commission stated that the proposed assignment could bring a first local service to Marco, and in part we relied on the lack of a local station in discussing the merits of the proposal. Collier, as permittee of an AM station at Marco, charges that our error in not recognizing the existence of Collier's station-to-be calls for a withdrawal of the Notice. Collier contends that the error warrants such a withdrawal so that the Commission can properly decide if a Notice is warranted. Collier suggests that if the conclusion were to be favorable to the proposal the Commission then could decide that a Notice should again issue.

3. Although there is no question now about the mistake of fact, we do not agree that Collier's proposed solution would be an appropriate response to this situation. Obviously, the presence of an AM station at Marco, even if it is daytime-only, is a significant matter to consider in resolving the issue about any ultimate assignment. Nevertheless, we do not see any utility in reversing the issuance of the Notice and then quite possibly releasing it again with the corrected information. All such a course of action would produce is delay and unnecessary duplication. In our view, the preferable course is to correct our previous statement in regard to the situation at Marco, as we are doing here, and at the same time to alter the filing dates so that interested parties will have as much time as originally provided. Responsive filings would then be based on a correct description of the current situation. To establish the need to reverse the issuance of the Notice, on the other hand, the pleadings would have to establish that the Notice should not have been adopted at all, rather than just show that it was in need of more accurate presentation of facts. Using the corrected information, we continue to believe that there is justification for a Notice. Based on the responses we receive we shall be in a position to freely determine how best to proceed. Accordingly, as to the portion of this proceeding which deals with the proposed Marco assignment (RM-2143), we shall extend the deadlines. It should be mentioned in this connection that existence of a Notice of Proposed Rule Making in no way mandates or even presumes the ultimate adoption of the requested assignment.

4. Collier also mentions the matter of a Roanoke Rapids showing directed to establishing whether a first or second FM service could be provided by a Marco FM station. Apparently there is a misunderstanding about the thrust of the Notice on this score. The question was not of a first or second service being rendered to Marco but of a Marco station's ability to provide a first or second FM signal elsewhere within its coverage area. In any event, the burden of making the showing was placed on the Marco proponent if it wished to rely on this point in demonstrating the need for the assignment. Collier is free to submit its own data in comments or rebuttal data in reply comments.[1] We did not rely on first FM coverage in deciding to issue the Notice but only pointed out the allegation and the possible importance of the point if documented. As a result, no further action is required now on this aspect of the case.

5. Therefore, *it is ordered*, That the subject petition for reconsideration is granted to the extent indicated and in all other respects is denied.

6. *It is further ordered*, That the subject request for stay is granted and the time for filing comments and reply comments is extended to July 15, 1974, and July 31, 1974, respectively.

Adopted: May 29, 1974.

Released: May 30, 1974.

FEDERAL COMMUNICATIONS
COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FR Doc.74-12984 Filed 6-5-74;8:45 am]

---

[1] Collier has already submitted some data on this point in its late-filed opposition to the original petition for rule making.

[47 CFR Part 73]

[Docket No. 19974; FCC 74-562]

TABLE OF TELEVISION ASSIGNMENTS; PUERTO RICO

Memorandum Opinion and Order

In the matter of amendment of § 73.606(b) of the Commission's Rules, the Table of Television Assignments, to change Channel 7 at Ponce, Puerto Rico to a Ponce-San Juan assignment. General Policy Questions Involved in the Proposal to Move Transmitter location of the Ponce, Puerto Rico Channel 7 station to a point closer to San Juan, Puerto Rico.

1. The Commission here considers two requests of an interlocutory nature filed in this proceeding, both by WAPA-TV Broadcasting Corporation (WAPA-TV), the licensee of Station WAPA-TV, San Juan, P.R.: a "Petition for Partial Reconsideration" filed March 28, 1974, directed at the language in the Notice beginning the proceeding concerning publicity of financial reports; and a "Request for Production of Information" filed April 25, 1974, in which WAPA-TV requests that the licensee of Station WRIK-TV, Ponce, P.R., the moving party in this proceeding, furnish a vast amount of information in connection with it. Responsive material mentioned below is also considered.[1]

2. This proceeding essentially concerns a proposal by Ponce Television Corporation (PTC), the licensee of WRIK-TV, to move its transmitter location to a point closer to San Juan than to Ponce. PTC filed an application to the same effect in 1971, but withdrew it in May 1972 (it was dismissed in June 1972), after it was vigorously opposed by WAPA-TV and others and was designated for hearing on a number of issues. In September 1973 PTC filed a petition requesting in effect a "declaratory ruling" that the cause of equal access to the important San Juan market for it and other "network flagship stations" outweighed any of the problems involved in the application proposal. The present proceeding was begun by notice of inquiry and notice of proposed rulemaking or proposed statement of policy adopted March 13, 1974 and issued March 20, 1974 (FCC 74-253), 39 FR 11112, which proposed to explore the possibility of issuing such an "advance ruling" as requested by PTC, and if so to determine what would be contained in it, and also proposed formal rulemaking to redesignate the WRIK-TV channel (Channel 7) as a Ponce-San Juan assignment.

PETITION FOR PARTIAL RECONSIDERATION

3. In its "Petition for Partial Reconsideration", WAPA-TV asks deletion of the last sentence of paragraph 21 of the Notice. In this paragraph, the Commission referred to the likelihood that the economic situation and prospects of

---

[1] A third interlocutory matter involves cross-requests by WAPA-TV to examine the annual financial reports of WRIK-TV, and by PTC to examine those of the three San Juan and Caguas-San Juan stations. These requests, which are handled initially by the Executive Director under § 0.461 of the rules, are pending; decision is expected very shortly.

WRIK-TV may well be an important part of this matter, and that data contained in stations' annual financial reports (FCC Forms 324) would be considered.

> * * * and we assume that WRIK agrees that such data for WRIK-TV may be made public to the extent necessary to support the decision reached. The same assumption will be made as to other Puerto Rican licensees who participate in the proceeding.

WAPA-TV objects to the last sentence quoted, as amounting to a holding that "the financial information of other Puerto Rican licensees may be made public as a condition of their participating in their proceedings." This, it is claimed, is unfair; the Commission may not condition the right of parties in interest, such as WAPA-TV, to participate in a proceeding on their "giving up some of their right to have the annual financial reports kept confidential." This right is granted under § 0.457(d)(1)(i) of the rules. It is claimed that the Commission has held that such information will not be made available when the party involved has not attempted to use it or rely on it, which WAPA-TV has not done here (though of course WRIK-TV clearly has with respect to its own information).

4. Responses to WAPA-TV's petition were filed by PTC and by the licensee of the other San Juan station (WKAQ-TV). PTC opposed the WAPA-TV petition, asserting that: (1) WAPA-TV has conceded the relevance of financial data in this proceeding by requesting to see the financial reports of WRIK-TV (see footnote 1, above); (2) access to other financial reports is clearly necessary to WRIK-TV to make its case as to the effect of its lack of competitive equality in the San Juan market, so that the public interest would be served by other stations' data being available; (3) since the Commission will rely on data it should also have the benefit of full exploration and analysis by the parties, so that all of the financial reports should be disclosed; (4) WAPA-TV does not have any right to confidentiality in the face of persuasive reasons for disclosure; and (5) WAPA-TV is continuing its "unending efforts to delay the relief sought by WRIK"—to its advantage but undermining the public interest. WKAQ filed "Comments'' on both the WAPA-TV petition and WRIK-TV's opposition, expressing no opposition to the paragraph 21 language if it is construed as limited to what is expressed—that the Commission only means that in its decision it will make public such financial data as may be necessary to support the decision, not all details of financial reports. It is urged that we reject any suggestion such as that urged by WRIK-TV's opposition, to the effect that financial reports should generally be made available. WAPA-TV filed a reply to the WRIK-TV opposition, urging again that WAPA-TV has not relied on its own economic position and that there is completely absent the "persuasive showing" required to justify disclosure; and asserting that the party resisting disclosure need not show "prejudice" and there is involved no weighing of "harm" v. "benefit" to the respective parties. It is claimed that the cases cited by WRIK-TV do not by any means support disclosure here.

5. *Conclusions as to the request for partial reconsideration.* In our view, the WAPA-TV petition must be denied, although it is appropriate to set forth here certain qualifications on the language used in paragraph 21 and quoted above. It must be borne in mind that what is involved here is not—and was not intended to be—any consideration of making the financial reports of the stations themselves available to the public or to other parties to the proceeding. Such requests are generally handled, as they have been in this case, by the Executive Director subject to the right of appeal to the Commission. Rather, our intent was that correctly mentioned by WKAQ in its comments—to indicate, and put all parties on notice, as to what might be said in the decision as to matters involving the financial situations of the parties, i.e., that these matters would be discussed to the extent necessary to support the decision. We did not, and do not, contemplate that that will involve detailed disclosure of the individual figures of the San Juan and Caguas-San Juan stations. Rather, it is expected that, at most, it will include figures for the three stations as a group (for 1973, and for prior years adjusted to exclude from the market totals the UHF station which ceased operation in November 1972),[2] plus, possibly, a very general indication as to individual stations, for example a statement that all three stations are profitable (if that is the case), and, within rather wide limits, what percentage of total market profits, revenues, program expenses, etc., are attributable to the various stations (individual stations will not be identified). If statements of the latter kind are necessary, substantial efforts will be made to avoid disclosing respective shares in such a way as to give any station an exact idea of how any one competitor is doing. Exact dollar or percentage figures for individual stations will not be disclosed.

6. With the above qualifications, we adhere to the statement in paragraph 21 of the Notice, quoted above, and we are denying the WAPA-TV petition. In this proceeding, as in matters before the Commission generally, it is obviously necessary for any decision to be an informed one, based on all relevant facts which are available, and it is also necessary for the decision to set forth, at least generally, the considerations which prompted it, for the benefit of interested parties (and an appellate court if review is sought), as well as the public generally. We are not disposed to limit ourselves except as indicated above.

THE WAPA-TV PETITION FOR THE PRODUCTION OF INFORMATION

7. In this petition, WAPA-TV asks that it be furnished, by WRIK-TV, with a vast amount of information, the attached listing including some 92 areas in which information is requested, plus 5 other areas in which the production of documents is requested, plus a request for an order permitting WAPA-TV representatives to inspect the Ponce and San Juan studios and offices of WRIK-TV, and totaling some 17 pages. In summary, the material requested is as follows:

(a) *Personnel.* Name, job title and duties of each employee at each of the Ponce offices and studios, the San Juan offices and studios, and the WRIK-TV transmitter, as of March 1 of the years 1970 through 1974, plus the number of such employees, and the number on each date at each location principally engaged in time sales.

(b) *Equipment.* For every item costing over $100 and useable in TV program production or broadcast, the cost, order and delivery date, make and description, separately for San Juan and Ponce studios, from December 1, 1967 to March 1, 1974, including (with details) items shifted from San Juan to Ponce or vice versa (or moved elsewhere).

(c) *Programming.* Details of the WRIK-TV "local" programming during the composite weeks of 1967 through 1974, how much after deducting entertainment (including sports), and how much of the latter (and of total programming) originated from Ponce rather than San Juan, and at the Ponce studios or other locations; For a date every six months since December 1967, what were the news facilities at San Juan and at Ponce (2-way radio, TWX, Weather Bureau line, News Department tape recorders and cameras), and the same for studio lighting and control equipment; and, for a specified week in each of the last 5 years, what were the hours of studio operation at San Juan and Ponce.

(d) *Advertising.* The names of all Ponce advertisers, January 1973 through April 1, 1974, and also a description of Ponce sales efforts, including all businesses contacted with date and contacting person; information as to any separate Ponce rate cards used, and all instances of "off-card" selling (if any), January 1—April 1, 1974.

(e) *English-language programming.* The percentage of English-language programming in specified weeks of the years 1971 and after, the name and length of all such programs over 5 minutes, and, for English commercials, the year, name of sponsor, and number of announcements; and what programs (feature film or series) WRIK-TV has presented which were formerly on WTSJ-TV, the UHF station which programmed in English.

(f) *Tower location.* Details of all conversations and discussions (and identity and present location of any written memoranda) concerning the move of transmitter location away from the authorized site at Cerro Maravilla, before April 23, 1970, and any material showing that the signal from the present location into San Juan is unsatisfactory; and a statement as to what "market" United Artists analyzed before it bought control of WRIK-TV.

(g) *Financial.* A listing of all feature film and syndicated material bought by WRIK-TV from January 1970 through March 1974, by name, source and cost; a similar listing for live entertainment programming (name, who produced and cost to station); and whether any feature film or syndicated material was also shown on WUAB, Lorain, Ohio (also owned by United Artists) and, if so, how the cost was allocated.

(h) *Rating survey material.* WAPA asks some 33 questions concerning the rating survey material presented by WRIK-TV in its 1973 petition, many of them based on the 1967 report issued by the Broadcast Ratings Council, the NAB and the Advertising Research Foundation, and also on an appendix to the Harris Committee Report of 1961 (87th Cong., 1st Sess., Rept. 193), prepared by a committee of the American Statistical Association. These questions include inquiries as to whether this was a regular or special survey by the organization conducting it; the sample size and how it was selected, including the distribution of both the sample and of total TV homes by municipio for each of the 63 time periods included in the survey; what was measured and how refusals to answer, "not at home", etc. were handled; what training procedures and procedures for checking interviewers' work were used; what was the rating of each other station in each of the 63 time periods for each of the geographical divisions shown in the survey; and what was the basis for grouping the island's TV homes into the broad divisions on which the data was presented.

(i) *Request for the production* of all correspondence and memoranda, among officials of United Artists, Ponce Television Corporation and related corporations, and consulting engineers, from January 1969 through June 1973, concerning the possible transmitter move, and, from the same date until April 1, 1974, concerning the Ponce portion of the WRIK-TV operation—relating to program origination there, staffing, equipment, and solicitation of accounts which would get a "Ponce rate".

(j) Request for an order permitting examination of the WRIK-TV Ponce and San Juan studio-office premises by WAPA-TV representatives.

8. In support of its request, WAPA-TV states that the present proceeding is one sought by WRIK-TV, as a substitute for the hearing from which it withdrew in 1972, and with essentially the same questions involved and, of course, still unresolved, plus some new ones such as "viability", "competitive equality," etc. It is claimed that these matters cannot be resolved without an evidentiary hearing (to which WAPA-TV does not waive its rights and in which it would be entitled to this material), but, since the Commission intends to use the Docket 19974 proceeding to resolve the issues insofar as possible, at least it and the opposing parties must have the benefit of specific pertinent information, rather than relying on untested allegations and assertions by WRIK-TV. It is claimed that specific, basic information is needed concerning matters such as "viability", the economic and "competitive" position of WRIK-TV its claims to local service to Ponce and concerning program expenditures, and the methodology of its survey. WRIK-TV and its operation are said to be inextricably the central issue, and without the basic facts the Commission and opponents will be hamstrung, and no valid decision can be reached.

9. In opposition, WRIK-TV asserts that such discovery is entirely in appropriate for a proceeding such as this, which is rulemaking rather than adjudication; neither the Commission's rules nor the Administrative Procedure Act contemplate such procedures, and WAPA-TV has cited no authority. It is also urged that such discovery is not necessary; WAPA-TV petitioned for an extension of time in this proceeding, but did not mention any such need. The relevance or need of much of the material is disputed, as far as this proceeding is concerned (although some of it might be relevant to an application); for example, the equipment questions relate to the earlier question of WRIK-TV's alleged move of main studio to San Juan, the program cost questions can be answered from examination of WRIK-TV's forms 324, the questions on advertising efforts and English-language programming are irrelevant and anyhow can be answered by newspaper or television program guide analysis, and the questions concerning the rating survey are premature, since WRIK-TV has not filed comments and WAPA-TV can submit the same material, as it said it would. It is also urged that WAPA-TV is simply engaged in another delaying effort.

10. In reply, WAPA-TV repeats the argument that the same disclosure is required in this case as would be true in an evidentiary proceeding, and that the Commission should not be in the position of accepting untested allegations as if they were established, and permitting WRIK-TV to become a Ponce station without full investigation. It is claimed that, if this is to be more than a pro forma proceeding, there must be opportunity to inspect and test fundamental matters such as WRIK-TV's claimed economic situation, alleged inferiority of signal over San Juan, the extent to which it has provided and could be expected to continue a local Ponce-oriented service, and similar matters. As to specific points, it is claimed that the economic hardship claims cannot be evaluated without detailed information as to numbers of employees and equipment, and whether WRIK-TV can or cannot succeed as a Ponce station depends on an evaluation of how much effort it has put into programming for that community and attempting to sell time there. It is claimed that, with respect to matters such as studios and local service, the past record is the best indication of what is to be expected in the future. The questions concerning English-language programming are claimed to be relevant in connection with the "UHF impact" question (since that is what the previous San Juan UHF station specialized in, and what the new applicant proposes); and the questions as to tower location are relevant to the matter of present viability as well as UHF impact. Detailed program cost information is regarded as needed to test the claim of high programming expenditures, the questions concerning the audience survey (which are standard in that industry) are obviously needed to test that survey's reliability, and the production of documents is needed because they relate to the provision of service to Ponce, past, present and to be expected in the future. WAPA-TV asserts that while perhaps the Commission cannot order the production of this material, it can certainly indicate that it will terminate the proceeding unless it is supplied. It is also claimed that WRIK-TV's "delay" argument is baseless; there is, indeed, no real urgency here, since the ultimate parent of WRIK-TV (Transamerica Corp.) had a profit of over $89 million in 1973, and United Artists, the immediate parent, had a 1973 net income of over $14 million.

11. *Conclusions.* Upon consideration of the foregoing, we are of the view that the WAPA-TV request for information must be denied. Essentially, we reach this conclusion because of the nature of this proceeding, which is not adjudication but rather: (1) an inquiry; (2) a rulemaking concerning possible reassignment of Channel 7 so as to make it available for use by a San Juan station or a Ponce station; and (3) an exploration of the possibility of issuing a statement applying general Commission policies in this situation, and, if it is feasible to issue some kind of meaningful statement, to do so in light of material in the comments herein. As WRIK-TV points out, the Commission's discovery rules relate entirely to adjudicatory proceedings, in this case a hearing on a WRIK-TV application to move transmitter location.

12. It is apparent that a requirement for the production of all of the vast amount of information requested would substantially delay this proceeding, and, also, that it would by no means necessarily end the matter. If WAPA-TV were furnished this material, it might well simply find in it the basis for further questions and requests, which would lead to another round of discovery. Moreover, WAPA-TV asserts that in any event these various matters cannot be settled short of evidentiary hearing, which it claims for it and the other San Juan-area stations as a matter of right. Thus the production of the information here, or even of another round, would not necessarily eliminate the claims to hearing rights. Therefore, as a matter of orderly administrative procedure, we do not find it appropriate to grant the request in the context of this proceeding.

13. However, this is not to say that a good deal of the material may not ultimately be relevant to disposition of any WRIK-TV request to move, nor that none of it is relevant at this point. For example, the questions concerning WRIK-TV's audience survey material go to the

---

[2] Under general Commission practice, total figures of this kind are given, on request, for any group of three or more stations.

V 39 110 JUN 6 74 XUM

probative value of that material, insofar as it is advanced to show that (for technical reasons) WRIK–TV does not attract a sizeable audience in and around San Juan. Similarly, the "UHF impact" question decision here may involve consideration of the nature of WRIK–TV's programming as compared to that which is proposed by the new UHF applicant and was presented by the earlier UHF station (English-language programming). To the extent that WRIK's assertedly poor economic situation is advanced as justification for the move, as showing that a "Ponce" station cannot succeed, it may well be relevant to know how vigorously WRIK–TV has worked at presenting programs of particular value to that community and in attempting to sell time there. We did not attempt in the Notice to spell out what kinds of showings will be probative in this proceeding, nor do we do so now. It is up to WRIK–TV, as the petitioner here and the party who has in the past proposed to move, to make the case. In this case, as generally, the more specific the material furnished by the parties, the more likely we will be to reach a sound and meaningful decision.

EXTENSION OF TIME FOR COMMENTS

14. In a pleading filed May 21, 1974, WAPA–TV has requested that, because of the continued pendency of the three matters of an interlocutory nature, the time for comments and reply comments herein be extended for two weeks, from the present dates of June 3 and June 24, respectively. This extension appears appropriate in light of the need for parties to have substantial time to prepare their comments in light of our action herein, and, indeed, we would have granted it on our own motion for that reason, even if it had not been requested. Accordingly, we are setting comment and reply comment dates of June 17 and July 8, 1974.

15. In view of the foregoing, *it is ordered;* That:

(1) The "Petition for Partial Reconsideration" filed on March 28, 1974, by WAPA–TV Broadcasting Corporation, is denied, subject to the qualifications on the meaning of the last sentence of paragraph 21 of the notice beginning this proceeding, set forth in paragraph 5 hereinabove.

(2) The "Request for Production of Information" filed by WAPA–TV Broadcasting Corporation on April 25, 1974, is denied.

(3) The time for filing comments and reply comments in this proceeding is extended, to and including June 17 and July 8, 1974, respectively.

Adopted: May 29, 1974.

Released: June 3, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74–12983 Filed 6–5–74;8:45 am]

VETERANS ADMINISTRATION

[38 CFR Part 3]

VETERANS BENEFITS

Awards of Pension

The Administrator of Veterans' Affairs proposes regulatory changes implementing provisions of Public Law 93–177 (87 Stat. 694) relating to awards of pension to veterans. This Act amended sections 3010(b) and 3203(a) of Title 38, United States Code, to provide (1) that disability pension may be awarded effective the date the veteran became permanently and totally disabled if an application is filed within 1 year from such date and (2) an increase from $30 to $50 in the amount of pension payable to a hospitalized veteran whose award is reduced under 38 U.S.C. 3203(a)(1). To implement these provisions of the Act it is proposed to amend §§ 3.321, 3.400 and 3.551 of Title 38, Code of Federal Regulations, as set forth below. Minor editorial changes, unrelated to the substantive changes, are being made in §§ 3.321(b) (2) and 3.551 designed to reflect agency policy to avoid any appearance of seeming to preclude benefits for female veterans, their dependents or beneficiaries. Obsolete provisions in § 3.400 relating to commissioned officers of the Environmental Science Services Administration and the National Oceanic and Atmospheric Administration are deleted.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans' Affairs (27H), Veterans Administration, 810 Vermont Avenue, NW, Washington, DC 20420. All relevant material received before July 8, 1974, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4.00 p.m. Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is given that the amendments to §§ 3.321(b)(3), 3.400(b)(1) and 3.551 (a) and the introductory portion of (c) will be effective January 1, 1974.

1. In § 3.321, paragraph (b) (2) and (3) are revised to read as follows:

§ 3.321 General rating considerations.

* * * * *

(b) * * *

(2) *Pension.* Where the evidence of record establishes that an applicant for pension who is basically eligible fails to meet the disability requirements based on the percentage standards of the rating schedule but is found to be unemployable by reason of his or her disability(ies), age, occupational background and other related factors, the following are authorized to approve on an extra-schedular basis a permanent and total disability rating for pension purposes: the Adjudication Officer; or where regular schedular standards are met as of the date of the rating decision, the rating board.

(3) *Effective dates.* The effective date of these extra-schedular evaluations granting or increasing benefits will be in accordance with § 3.400(b) (1) and (2) as to original claims and in accordance with the facts found but not earlier than the date of claim in claims for increased benefits.

* * * * *

2. In § 3.400, the introductory portion preceding paragraph (a) and paragraph (b)(1) are amended and paragraphs (b)(2)(iii) and (c)(3)(iv) are revoked. The amended material reads as follows:

§ 3.400 General.

Except as otherwise provided, the effective date of an evaluation and award of pension, compensation or dependency and indemnity compensation based on an original claim, a claim reopened after final disallowance, or a claim for increase will be the date of receipt of the claim or the date entitlement arose, whichever is the later. (38 U.S.C. 3010(a))

* * * * *

(b) *Disability benefits*—(1) *Disability pension (§ 3.3(c)).* Date of receipt of claim or date on which the veteran became permanently and totally disabled, if claim is filed within 1 year from such date, whichever is to the advantage of the veteran: *Provided,* That, an award of pension may not be effective prior to the date entitlement arose. (Pub. L. 93–177; 87 Stat. 694)

(2) * * *

(iii) [Revoked]

(c) * * *

(3) * * *

(iv) [Revoked]

* * * * *

3. In § 3.551, paragraphs (a), (b), (c), (d), (e)(2) and (f) are revised to read as follows:

§ 3.551 Reduction because of hospitalization.

(a) *General.* Pension in excess of $50 monthly is subject to reduction when a veteran who has neither wife, husband, child nor dependent parent is hospitalized, unless the veteran is hospitalized for Hansen's disease. The provisions of this section apply to initial periods of hospitalization and to readmissions following discharge from a prior period of hospitalization. If the veteran is hospitalized for observation and examination, the date treatment began is considered the date of admission. Special rules governing discontinuance of aid and attendance allowance are contained in § 3.552 and for discontinuance of awards for incompetent veterans in § 3.557. Except as otherwise indicated the terms "hospitalized" and "hospitalization" in §§ 3.551 through 3.559 mean:

(1) Hospital treatment in a Veterans Administration hospital or in any hospital at Veterans Administration expense.

(2) Institutional, domiciliary or nursing home care in a Veterans Administration institution or domiciliary or at Veterans Administration expense.

(b) *Reduction after 6 months.* Pension (except as provided in paragraph (c) of this section) in excess of $30 monthly for a veteran who has neither wife, husband, child nor dependent parent shall continue at the full monthly rate until the end of the sixth calendar month following the month of admission for hospitalization. The rate payable will be reduced effective the first of the seventh calendar month to $30 monthly or 50 percent of the amount otherwise payable, whichever is greater. The reduced rate will be effective the first day of the seventh calendar month following admission. Payment of the amount withheld may be made on termination of hospitalization, as provided in § 3.556. (Pub. L. 92–328; 86 Stat. 393)

(c) *Reduction after 2 months.* Where pension is being paid to a veteran under 38 U.S.C. 521(b) or to a Spanish-American War veteran or an Indian war veteran who was not receiving pension for June 30, 1960, or who is receiving pension under 38 U.S.C. 521, the pension for a veteran who has neither wife, husband, nor child, or who, though married, is receiving pension as prescribed by 38 U.S.C. 521(b) because not living with or reasonably contributing to the support of his or her spouse shall continue at the full monthly rate until the end of the second calendar month (except as provided in paragraph (d) of this section) following the month of admission for hospitalization. The rate payable effective the first of the third calendar month will be an amount not in excess of $50 monthly. Where the veteran has been discharged from a period of hospitalization of not less than 2 full calendar months and is readmitted within 6 months, the award will be reduced effective the date of readmission. (Pub. L. 93–177; 87 Stat. 694)

(1) Where pension was being paid to a married veteran at the rate prescribed by 38 U.S.C. 521(b), all or any part of the rates payable under 38 U.S.C. 521(c) or (c) and (e) may be apportioned for an estranged wife or husband as provided in § 3.454(b) (38 U.S.C. 3203(a)).

(2) Where pension is payable to an Indian war or Spanish-American War veteran who is in need of aid and attendance, pension under 38 U.S.C. 511 or 512 may be continued under the provisions of paragraph (b) of this section if the veteran was receiving or entitled to receive pension for June 30, 1960. See § 3.711.

(d) *Computation of period.* In computing the period of hospitalization prior to reduction under paragraph (c) of this section, the period will be extended by reason of time spent on leave, regularly authorized furlough or trial visit, regardless of length after the month of admission. Absence on pass is included as part of the period of hospitalization. For the purposes of paragraph (c) of this section, the veteran will be considered to have been hospitalized for 2 calendar months when he (or she) has received a total of 60 days of treatment or care, exclusive of specified absences.

(e) * * *

(2) *Unapproved discharge.* When a veteran whose award is subject to reduction under paragraph (b) of this section has been discharged or released from a hospital against medical advice or as the result of disciplinary action, reentry within 6 months from the date of a previous admission constitutes a continuation of that period of hospitalization, and the award will not be reduced prior to the first day of the seventh calendar month following the month of original admission, exclusive of furloughs. Except as provided in the preceding sentence, if a veteran reenters a hospital within 6 months after discharge or release against medical advice or as a result of disciplinary action, the award will be reduced as of the date of readmission. A reentry 6 months or more after such discharge or release will be considered as a new admission. (Pub. L. 89–362; 80 Stat. 30)

(f) *Proof of dependents.* The veteran will be considered to have neither wife, husband, child nor dependent parent in the absence of satisfactory proof. Statements contained in the claims folder concerning the existence of such dependents will be considered a prima facie showing. If the necessary evidence is not received (1) within 60 days after the date of request where the award is subject to reduction under paragraph (b) of this section, or (2) prior to the effective date of reduction under paragraph (c) of this section, the veteran's award will be reduced on the basis of no dependents. The full rate may be authorized from the date of reduction if the necessary evidence is received within 1 year after the date of request.

* * * * *

Approved: May 31, 1974.

By direction of the Administrator.

[SEAL] R. L. ROUDEBUSH,
Deputy Administrator.

[38 CFR Part 21]

VETERANS' EDUCATION

Liberalization of Certification Requirements

The following regulatory changes provide for enrollment for a complete course, for the advance payment of educational assistance allowances in all cases on the initial enrollment in school on at least a one-half time basis if information to authorize educational benefits is timely received, and for verification by a Veterans Administration employee of continued pursuit if the student is enrolled in a college level program and in the last month of enrollment. For students in courses not leading to a standard college degree certificates of attendance are required quarterly rather than monthly. Failure to submit the required certification will result in a termination of educational benefits effective from the date of last payment unless an earlier or later date is established on the basis of facts found.

Interested persons are invited to submit written comments, suggestions or objections regarding the proposal to the Administrator of Veterans' Affairs (27H), Veterans Administration, 810 Vermont Avenue, NW., Washington, D.C. 20420. All relevant material received before July 8, 1974, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays) during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above number.

Notice is also given that it is proposed to make any regulations that are adopted effective the date of final approval.

1. In § 21.4135, paragraph (h) is revised to read as follows:

§ 21.4135 Discontinuance dates.

* * * * *

(h) *Required certifications not received after certification of enrollment (§§ 21.4203 and 21.4204).* (1) If required certification is not timely received, payments will be suspended. If not received within 2 months (two quarters for correspondence) after month due, discontinue date of last payment. If certification is later received, adjustment will be made based on facts found.

(2) If verification of enrollment and certificate of delivery of the check is not received within 60 days, in the case of an advance payment, the actual facts will be determined and adjustment made, if required, on the basis of facts found. If student failed to enroll, termination will be effective the beginning date of the enrollment period.

* * * * *

2. In § 21.4137(g), subparagraphs (2) and (3) are revised to read as follows:

§ 21.4137 Rates; educational assistance allowance; 38 U.S.C. Ch. 35.

* * * * *

(g) * * *

(2) *Payment.* The amount of the payment is not to exceed the allowance for the month or fraction thereof in which the course will commence plus the allowance for the following month. Upon receipt of an application, together with an enrollment certification or other information as required by paragraph (g)(3) and if there is no evidence in the eligible person's file showing that he is not eligible for such an advance, the check, made payable to the eligible person, shall

V 39 110 JUN 6 74 XUM

be mailed to the institution for delivery to the eligible person upon registration. No delivery shall be made more than 30 days in advance of commencement of the program. Subsequent payments shall be made each month in advance subject to certification requirements set out in §§ 21.4138, 214203, 21.4204, and 21.4205. Final payment will be withheld if absence reporting is required until the required certification is received and any necessary adjustments made.

(3) *Certification*. Advance payment will be authorized initially and at the beginning of each subsequent term within an enrollment period preceded by an interval of nonpayment for one full calendar month or more provided the application, enrollment certification or other document signed either by an authorized official of the institution or the eligible person contains the following information:

(i) The eligible person is eligible for educational benefits;

(ii) The eligible person has been accepted by the institution or is eligible to continue training there;

(iii) The eligible person has notified the institution of his intention to attend that institution or to reenroll in it;

(iv) The number of semester, clock or Carnegie hours to be pursued by the eligible person; and

(v) The beginning and ending dates of the enrollment period.

3. In § 21.4203, the introductory portion of paragraph (b) and paragraphs (b)(1) and (f) are revised to read as follows:

§ 21.4203 Reports by schools; requirements.

* * * * *

(b) *Entrance or reentrance*. The certification must clearly specify the course. Upon receipt of a certification of enrollment, an official authorization will be issued showing the beginning and ending dates of each period for which an allowance may be paid. Except as provided in paragraph (d) of this section the authorization will be for the period of enrollment to completion of the course or the extent of the eligible person's entitlement, whichever is the lesser.

(1) Schools organized on a term, quarter or semester basis will generally report enrollment for the complete course to the expected date of graduation. If a certification for the complete course covers two or more terms the school will report the dates for the break between terms or school years if a term or school year ends and the following term or school year does not begin in the same or the next calendar month. No allowances are payable for these intervals. The school will report the period between each term, quarter or semester, if the eligible veteran or student elects not to be paid for the intervals between terms. At the discretion of the Administrator, payment may be made for breaks, including intervals between terms, within a certified period of enrollment during which the school is closed under an established policy based upon an order of the President or due to an emergency situation. Enrollment will be for the complete course, except where the student is a veteran or eligible person pursuing a program on a less than half-time basis or is a serviceman. For these students a separate enrollment certification will be required for each term, quarter or semester.

* * * * *

(f) *Certification.—(1) Courses not leading to a standard college degree*. A certification must be submitted quarterly, except for those courses pursued by servicemen while on active duty or on less than one-half time basis, and except as provided in paragraph (e) and (g) of this section, for each veteran and eligible person enrolled in a course which does not lead to a standard college degree. (See § 21.4204.) A report also will be required before release of the final allowance check. The report will consist of a certification containing the information required for release of payment, signed by the veteran or eligible person and the school on or after the final date of the reporting period. The date on which each person signed must be clearly shown. The only exception to the requirement to two signatures is a certification of interruption of training when the veteran or eligible person is not available for signature.

(2) *Courses leading to a standard college degree*. Schools which have veterans or eligible persons enrolled in courses which lead to a standard college degree are not required to submit periodic certifications for students enrolled in such courses. Certifications are, however, required under paragraphs (b), (c) and (d) of this section.

(3) *Apprentice or other on-the-job training*. A certification of attendance must be submitted monthly during the period of enrollment in the same manner as certifications required in paragraph (f)(1) of this section.

* * * * *

4. In § 21.4204, paragraphs (a) and (e) are revised to read as follows:

§ 21.4204 Periodic certifications.

* * * * *

(a) *Reports by schools, veterans and eligible persons*. For a veteran or eligible person enrolled in a course which leads to a standard college degree, excepting those on active duty and veterans or eligible persons pursuing the course on a less than half-time basis there must be verification of continued enrollment in and pursuit of the course for the entire enrollment period. Verification of continued enrollment will be made by a Veterans Administration representative in direct contact with the school at least once a year and in the last month of enrollment if the enrollment period ends more than 3 months after the last verification. In the case of a veteran or eligible person who completed, interrupted or terminated his course, any communication from the student or other authorized person notifying the Veterans Administration of the veteran's or eligible person's completion of course as scheduled or earlier termination date, will be accepted to terminate payments accordingly. Reports by other veterans and eligible persons will be submitted in accordance with § 21.4203(e), (f) or (g).

* * * * *

(e) *Farm cooperative courses*. The quarterly certification will cover only those periods of classroom instruction which are included in the prescheduled institutional portion of the course.

5. In § 21.4205, the introductory portion preceding paragraph (a) is revised to read as follows:

§ 21.4205 Absences.

Absences must be reported on the quarterly certification of pursuit of a course which does not lead to a standard college degree.

* * * * *

Approved: May 31, 1974.

DEPARTMENT OF STATE

[Public Notice CM-146]

FINE ARTS COMMITTEE

Notice of Meeting

The Fine Arts Committee will hold its semi-annual meeting on Thursday, June 20, 1974 at 2:30 p.m. in the John Quincy Adams State Drawing Room in the Diplomatic Reception Rooms.

The agenda will include a summary of the work of the Fine Arts Committee since its last meeting, the announcement of all gifts and loans during the calendar year 1973 as well as January through May 1974, and the Committee's plans for the architectural improvements in the reception rooms.

The meeting is open to the public. Because of State Department security requirements anyone wishing to attend should telephone the Fine Arts Committee prior to the meeting, Area Code (202) 632-0298 to make arrangements to enter the building.

Dated: June 3, 1974.

CLEMENT E. CONGER,
Chairman, Fine Arts Committee.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

AMOBARBITAL, SECOBARBITAL, PENTOBARBITAL

Bulk Manufacture and Import; Certain Companies

By order dated November 13, 1973 (38 FR 31310), amobarbital, secobarbital, pentobarbital and their salts were transferred from Schedule III to Schedule II of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 801).

In order to provide for an orderly transition and maintain an adequate and uninterrupted supply of amobarbital, secobarbital and pentobarbital, bulk manufacturers and importers of these substances who maintained the requisite effective controls against diversion, were granted an expanded registration to permit them to conduct their respective activities with Schedule II controlled substances.

Notice is hereby given that the following parties have been granted a registration to conduct the specified activities with the specified basic class controlled substance(s):

Eli Lilly & Company, 1249 S. White River Parkway, Indianapolis, Indiana 46206. *Bulk Manufacturer:* Amobarbital, Secobarbital. *Importer:* Secobarbital, Amobarbital, Pentobarbital.

Abbott Laboratories, 14th S. Sheridan Road, North Chicago, Illinois 60064. *Bulk Manufacturer:* Pentobarbital. *Importer:* Pentobarbital.

Ganes Chemical Company, Siegfried Chemical Division, Pennsville, New Jersey. *Bulk Manufacturer:* Secobarbital, Pentobarbital, Amobarbital.

Cord Laboratories, 19191 Filer, Detroit, Michigan. *Importer:* Amobarbital, Secobarbital, Pentobarbital.

U.S. Pharmacopeial Convention, 12601 Twinbrook Parkway, Rockville, Maryland. *Importer:* Amobarbital, Secobarbital, Pentobarbital.

In the event that a registered importer applies to the Drug Enforcement Administration for authorization to import a controlled substance, all bulk manufacturers of the particular controlled substance will be afforded an opportunity to comment, object or request a hearing on the proposed application pursuant to section 1008 of the Controlled Substances Import and Export Act (21 U.S.C. 958) and § 1311.42 of Title 21 of the Code of Federal Regulations.

Dated: May 30, 1974.

JOHN R. BARTELS, Jr.,
Administrator,
Drug Enforcement Administration.

[Group 486]

CALIFORNIA

Notice of Filing of Plats of Survey

MAY 31, 1974.

1. Plats of survey of the lands described below, accepted on February 11, 1974, will be officially filed in the California State Office, Sacramento, California, effective at 10:00 a.m. on July 15, 1974:

SAN BERNARDINO MERIDIAN, CALIFORNIA

T. 1 S., R. 12 E.
  A dependent resurvey of Mineral Survey No. 5503, the resurvey and survey to complete the south and east boundaries, and the survey of section 86.
T. 2 S., R. 12 E.
  A dependent resurvey of Mineral Survey Nos. 5503 and 6538, the resurvey and survey of a portion of the east boundary, and the survey of sections 4, 9 and 16.

The area described aggregates 1,538.81 acres.

2. These surveys were executed to delineate the unsurveyed school sections within the townships.

3. For the most part the lands are of rough, rocky and mountainous terrain. The area gets only 3 to 4 inches of rainfall per year and the vegetation is the Joshua tree woodland type. It serves as a Big Horn Sheep wildlife habitat.

4. All of the public lands are classified for multiple use management and will be opened only to such forms of disposition under the public land laws as are allowed under the provisions of the multiple use classification on the effective date of the filing of these plats. The public lands have been and still are subject to the operation of the mining and mineral leasing laws.

5. All inquiries relating to this land should be sent to the California State Office, Bureau of Land Management, Federal Office Building, Room E-2841, 2800 Cottage Way, Sacramento, California 95825.

Notice of Filing of Plats of Survey

MAY 31, 1974.

1. Plats of survey of the lands described below, accepted on February 11, 1974, will be officially filed in the California State Office, Sacramento, California, effective at 10:00 a.m. on July 15, 1974:

SAN BERNARDINO MERIDIAN, CALIFORNIA

T. 2 S., R. 10 E.
  Secs. 4, 9, and 16.
T. 2 S., R. 11 E.
  Secs. 4, 9, and 16.

The area described aggregates 3,840 acres.

2. These surveys were executed to delineate the unsurveyed school sections. Title to Section 16 in each of these townships vested in the State of California as school grant lands.

3. The lands are located just north of Joshua Tree National Monument. The terrain is rough, rocky and mountainous, covered by the Joshua tree woodland type vegetation. It serves as wildlife habitat for Big Horn Sheep.

4. All of the public lands are classified for multiple use management and will be opened only to such forms of disposition under the public land laws as are allowed under the provisions of the multiple use classification on the effective date of the filing of these plats. The public lands have been and still are subject to the operation of the mining and mineral leasing laws.

OREGON

Notice of Proposed Classification of Public Lands for Disposal By Exchange

MAY 29, 1974.

Pursuant to section 7 of the Act of June 28, 1934, as amended (48 Stat. 1269; 43 U.S.C. 315g), and to regulations in 43 CFR 2400.0–3 and Subpart 2462, it is proposed to classify the lands described below for disposal through exchange, under section 8 of the Taylor Grazing Act of June 28, 1934, as amended (48 Stat. 1269; 43 U.S.C. 315g; 43 CFR 2200).

WILLAMETTE MERIDIAN, OREGON

T. 2 N., R. 20 E.,
  Sec. 24, NE¼.
T. 2 N., R. 21 E.,
  Sec. 30, NE¼SE¼.
T. 3 N., R. 21 E.,
  Sec. 12, SE¼.
T. 1 N., R. 22 E.,
  Sec. 20, S½NE¼, W½NW¼, and SE¼;
  Sec. 24, NW¼SE¼;
  Sec. 28, N½NE¼;
  Sec. 34, SW¼NW¼.
T. 2 N., R. 22 E.,
  Secs. 2 and 3;
  Sec. 4, SE¼SE¼;
  Sec. 6, lots 1, 2, and 3, NE¼, and NE¼NW¼;
  Sec. 8, SE¼;
  Secs. 10, 11, and 12;
  Sec. 14, N½;
  Sec. 15, N½N½;
  Sec. 34, NE¼, E½NW¼, N½SW¼, SE¼SW¼, and SE¼.
T. 3 N., R. 22 E.,
  Sec. 4, S½;
  Secs. 8 and 10;
  Sec. 14, W½;
  Sec. 18, SW¼SE¼;
  Sec. 20, NE¼ and E½NW¼;
  Sec. 22, N½NE¼, SW¼NE¼, W½, and W½SE¼;
  Sec. 26, SW¼SW¼;
  Sec. 27, S½SW¼;
  Sec. 28, NE¼;
  Sec. 30, lot 1 and E½W½;
  Secs. 32 and 34.

The area described aggregates 10,079.44 acres in Gilliam County.

Publication of this notice will segregate the lands from all appropriations, including location under the mining laws, except applications for exchange. Publication will not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral and vegetative resources, other than under the mining laws. In accordance with 43 CFR 2201.1 and 2201.2, no application for an exchange will be accepted until the lands have been classified and the application is accompanied by a statement from the Oregon State Director, Bureau of Land Management, that the proposal is feasible.

Information concerning these lands is available at the Oregon State Office, Bureau of Land Management (729 NE Oregon Street), P.O. Box 2965, Portland, Oregon 97208.

All persons who wish to submit comments, suggestions, or objections in connection with the proposed classification may present their views in writing to the State Director, Oregon State Office, Bureau of Land Management (729 N.E. Oregon Street), P.O. Box 2965, Portland, Oregon 97208 no later than August 7, 1974.

MAXWELL T. LIEURANCE,
Acting State Director.

  Sec. 11, NE¼NE¼;
  Sec. 12, NW¼NW¼.

These pipelines will convey natural gas across 0.716 miles of national resource lands in Eddy and Lea Counties, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

TRANSWESTERN PIPELINE

Notice of Application

MAY 30, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Transwestern Pipeline Company has applied for a 6-inch natural gas pipeline right-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 24 S., R. 24 E.,
  Sec. 9, SE¼SW¼.

This pipeline will convey natural gas across 0.04 miles of national resource land in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, New Mexico 88201.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

[New Mexico 21020]

EL PASO NATURAL GAS

Notice of Application

MAY 30, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for an 8⅝-inch natural gas pipeline right-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 22 S., R. 22 E.,
  Sec. 7, S½NE¼ and NE¼SE¼;
  Sec. 8, N½SW¼.

This pipeline will convey natural gas across 0.737 miles of national resource land in Eddy County, New Mexico.

The purpose of this notice is to inform ceeding with consideration of whether the public that the Bureau will be pro- the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, New Mexico 88201.

BUFFALO NATIONAL RIVER, ARKANSAS; PROPOSED MASTER PLAN

Notice of Extension of Time To Comment on Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act, the Department of the Interior has prepared a draft environmental statement concerning possible actions under consideration related to a proposed master plan for the Buffalo National River, Arkansas.

Written comments on the environmental statement are invited and will be accepted on or before August 5, 1974. Written comments should be addressed to the Superintendent, Buffalo National River, National Park Service, Post Office Box 1173, Harrison, Arkansas 72610.

For additional information regarding this matter see FEDERAL REGISTER of April 30, 1974, Vol. 39, No. 84, pages 15055–15056.

Dated: June 3, 1974.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

COWPENS NATIONAL BATTLEFIELD, SOUTH CAROLINA

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act, the Department of the Interior has prepared a draft environmental statement for proposed Master Plan and Development Concept Plan, Cowpens National Battlefield, South Carolina, and invites written comment on or before July 22, 1974. Written comment should be addressed to the Regional Director, Southeast Region, or to the Superintendent, Kings Mountain National Military Park at the addresses listed below.

The draft environmental statement considers the proposed development of the battlefield for visitor use in Cherokee County, South Carolina and the relocation of State Highways 11 and 110.

Copies are available from or for inspection at the following locations:

Office of the Regional Director
Southeast Region
National Park Service
3401 Whipple Avenue
Atlanta, Georgia 30344

Office of the Superintendent

SLEEPING BEAR DUNES NATIONAL LAKESHORE, MICH.; WILDERNESS PROPOSAL

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act, the Department of the Interior has prepared a draft environmental statement for a wilderness proposal for Sleeping Bear Dunes National Lakeshore, Michigan.

The statement considers designation of 26,050 acres of land as potential wilderness addition within Sleeping Bear Dunes National Lakeshore.

Written comments on the environmental statement are invited and will be accepted on or before July 22, 1974. Comments should be addressed to the Superintendent, Sleeping Bear Dunes National Lakeshore.

Copies of the draft environmental statement are available from or for inspection at the following locations:

Midwest Regional Office

[Docket No. M74–135]

ISLAND CREEK COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Island Creek Coal Company has filed a petition to modify the application of 30 CFR 75.1103 to its No. 12–E Mine located at Coal Mountain, West Virginia.

30 CFR 75.1103 provides:

> On or before May 29, 1970, devices shall be installed on all such belts (underground belt conveyors) which will give a warning automatically when a fire occurs on or near such belt. The Secretary shall prescribe a schedule for installing fire suppression devices on belt haulageways.

By its petition, Petitioner requests a waiver of the foregoing mandatory safety standard, and proposes as an alternative to said standard the fire-prevention system presently in use in Petitioner's mine.

In support of its petition, Petitioner states:

(1) The conveyor belt system at the subject mine passes through two tunnels before entering the subject mine to service the active production unit.

V 39 110 JUN 6 74 XUM

(2) The foregoing tunnels are not connected to the subject mine, and each has an opening on both sides of the mountain in which the subject mine is located.

(3) These "tunnel" belts are equipped with water lines, a fire hose, rock dust and portable fire extinguishers.

(4) The area of the mine to which the petition pertains is projected to be removed from service in July, 1974.

(5) Petitioner asserts that the proposed alternate method will at all times guarantee no less than the same measure of protection as afforded by the application of the mandatory standard.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before July 8, 1974. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

James R. Richards,
Director,
Office of Hearings and Appeals.

WHITE RIVER NATIONAL FOREST MULTIPLE USE ADVISORY COMMITTEE

Notice of Meeting

The White River National Forest Multiple Use Advisory Committee will meet at 2 p.m. June 27, 1974 in the Friendship Room of the Valley Federal Savings and Loan Building, 1429 Grand Avenue, Glenwood Springs, Colorado 81601.

The purpose of the meeting is to disband the advisory committee and to brief the group on the current planning efforts on the White River National Forest.

The meeting will be open to the public. Persons who wish to attend should notify Mrs. Betty Ford, telephone area code 303-945-6582. Written statements may be filed with the committee before or after the meeting.

Thomas C. Evans,
Forest Supervisor.

Packers and Stockyards Administration

OLIVE HILL STOCKYARDS ET AL.

Deposting of Stockyards

It has been ascertained, and notice is hereby given, that the livestock markets named herein, originally posted on the respective dates specified below as being subject to the Packers and Stockyards Act, 1921, as amended (7 U.S.C. 181 et seq.), no longer come within the definition of a stockyard under said Act and are, therefore, no longer subject to the provisions of the Act.

Facility number, name, location, of stockyard, and date of posting

KY-142, Olive Hill Stockyards, Olive Hill, Kentucky, May 12, 1960.
NC-130, Benthall's Stockyard, Rich Square, North Carolina, April 1, 1959.
OR-119, Salem Auction Yard, Salem, Oregon, May 14, 1960.
PA-129, Silver Spring Livestock Market, Inc., Mechanicsburg, Pennsylvania, November 27, 1959.
TN-125, Henderson Sales Company, Henderson, Tennessee, May 9, 1959.
TN-135, Wilson Livestock Market, Lewisburg, Tennessee, May 5, 1959.
WA-127, Puget Sound Horse and Mule Auction, Olympia, Washington, May 30, 1978.

Notice or other public procedure has not preceded promulgation of the foregoing rule. There is no legal justification for not promptly deposting a stockyard which is no longer within the definition of that term contained in the Act.

The foregoing is in the nature of a rule relieving a restriction and may be made effective in less than 30 days after publication in the Federal Register. This notice shall become effective June 6, 1974.

(42 Stat. 159, as amended and supplemented; (7 U.S.C. 181 *et seq.*))

Done at Washington, D.C., this 31st day of May 1974.

Edward L. Thompson,
Chief, Registrations, Bonds, and Reports Branch, Livestock Marketing Division.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before June 26, 1974.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the Federal Register, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74-00448-10-74700. Applicant: National Aeronautics and Space Administration, Langley Research Center, Hampton, Va. 23665. Article: Visual Landing Display System (Components thereto). Manufacturer: Redifon Flight Simulation Ltd., United Kingdom. Intended use of article: The article is intended to be used with an aircraft simulator cockpit and a real-time digital computer to provide a general research facility which will enable research studies of a variety of phenomena associated with piloted aircraft. The phenomena to be studied will be the human factors involved in the man/machine interface for a wide variety of missions in different classes of aircraft. Application received by Commissioner of Customs: May 3, 1974.

Docket Number: 74-00449-90-46040. Applicant: Case Western Reserve University, 10900 Euclid Avenue, Cleveland, Ohio 44106. Article: Electron Microscope, Model JEM 100B and accessories (including scanning attachment). Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for a wide range of M.S. or Ph. D. thesis projects and research projects of post-doctoral research associates in the areas of polymer science, physics, chemistry, metallurgy and biology. Among the specific projects are:

1. Effects of Aging on the Composite Structure and Mechanical Properties of Collagen Tissues.
2. Effects of Cyclical Straining on Mammalian Tendon.
3. Effects of Pressure on Adhesion.
4. Crazing in Atactic Polystyrene.
5. Structure-Yield Relationship in Tendon.
6. Physical and Mechanical Characterization of Chemically Modified Polyethylene.
7. The Structure of Cellulose.
8. Deformation of Cellulose and Chitin Fibrils.
9. The Molecular Structure of the Mucopolysaccharides.
10. The Morphology of Crystalline Mucopolysaccharides.
11. Mucopolysaccharide-Polypeptide Interactions in Solution.
12. Biological Membrane Structure.
13. Deformation of Fibrous Proteins-Tropomyosin.
14. Friction and Wear of Polymer Materials.
15. The Mechanism of Low Strain Deformation in Crystalline Polymers.
16. A Study of the Deformation of Polyurethane.
17. Shish-Kabob Deformation.
18. Morphology-Property Relationships in an Amorphous Polymer.
19. Deformation of Polyoxymethylene.
20. Rigid PVC Morphology.

Application received by Commissioner of Customs: May 3, 1974.

Docket Number: 74-00450-33-46070. Applicant: Virginia Commonwealth University, Medical Health Sciences Center, Medical College of Virginia, 1200 East Broad Street, Richmond, Virginia 23219.

Article: Scanning Electron Microscope, Model JSM-S1. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for studies of ocular tissue, normal and pathological, derived from human and animal eyes and their adnexa. Experiments to be conducted include:

(a) investigations of normal and abnormal development of the eye primarily based on teratogenic agents interfering with normal ocular development.

(b) comparison of the morphological configuration of normal and glaucomatous outflow channels and structures from embryonic and post-natal stages of the eye.

(c) studies to detect differences of normal and glaucomatous corneal epithelium and their causes.

(d) study of effects of intense bright light on the receptor organs of the retina and the retinal pigment epithelium and to compare those changes with macular degeneration in man, a not infrequent cause of reduced vision primarily with age.

The article will also be used for training of post-graduate fellows in Research Ophthalmology with main emphasis on ocular fine structure and pathology and for four year NIH traineeship in ophthalmology leading to a career in academic medicine. Application received by Commissioner of Customs: April 29, 1974.

Docket Number: 74-00451-33-90000. Applicant: Baylor University Medical Center, 3500 Gaston Avenue, Dallas, Texas 75246. Article: EMI Scanner-Computerized Axial Tomographic System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for experiments to be conducted on stroke patients studying the effect of strokes on brain tissue, the alterations occurring during healing, and resolution or progression of the stroke lesion. Research in the diagnosis and treatment of brain neoplasm will be performed in an effort to identify tumor type by density variations and to study the effects of various modalities of therapy such as surgery, irradiation and drug therapy. Also to be determined is the efficacy of radiotherapy utilizing variable intensity beams from 17 MEV to 4 MEV and comparison of these with Cobalt and possibly beams as low as 250 KVP. Studies will be performed to evaluate the use of the scanner in hydrocephalus, communicating or non-communicating, and the response to drug therapy, and surgical procedures such as ventriculo-atrial shunt, ventriculo-subarachnoid shunt and choroid plexus ablation. The article will also function as an educational tool by physicians as well as residents in studies of mutual interest. A continuing education course on the use and capabilities of this technique has been scheduled. Application received by Commissioner of Customs: May 6, 1974.

Docket Number: 74-00452-33-46040. Applicant: College of Resources Development, Woodward Hall, University of Rhode Island, Kingston, Rhode Island. Article: Electron Microscope, Model HS-9. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article is intended to be used for research in Biological Science, principally in the area of ultrastructure using thin-sectioning and freeze etch replication and associated techniques such as shadowing and autoradiography. In addition, the article will be used for studies of bacteria and viruses by using such methods as negative staining and nucleic acid spreading. The article will also be used to a limited degree for the training of graduate students. Application received by Commissioner of Customs: May 7, 1974.

Docket Number: 74-00457-33-26200. Applicant: Veterans Administration Hospital, 10701 East Blvd., Cleveland, Ohio 44106. Article: Selspot Optoelectron Instrument. Manufacturer: Selcom Electronic Co., Sweden. Intended use of article: The article is intended to be used to acquire kinematic data for the study of gait and other movements of limbs. Various experiments involving the evaluation of total knee and hip replacements and certain types of bracing, and experiments to determine the effectiveness of functional electrical stimulation of the upper extremity will be performed. Application received by Commissioner of Customs: May 6, 1974.

Docket Number: 74-00458-33-84600. Applicant: SUNY, Downstate Medical Center, 450 Clarkson Avenue, Brooklyn, New York 11203. Article: Paravac Model 2420, 12 inch Drape Vacuum Forming Machine. Manufacturer: Parall and Sons, Limited, United Kingdom. Intended use of article: The article is intended to be used to fabricate plastic shells for the assurance of proper beam direction in the treatment of cancer by radiation teletherapy. In addition, the article will be used in the instruction of residents in the Department of Radiation Therapy to make plastic molds for each patient thus enabling the resident to learn and practice increased accuracy in the treatment of cancer patients. Application received by Commissioner of Customs: May 6, 1974.

Docket Number: 74-00459-33-90000. Applicant: New York University Medical Center, 550 First Avenue, New York, New York 10016. Article: EMI Brain Scanner. Manufacturer: Electro Medical Industries, United Kingdom. Intended use of article: The article is intended to be used for diagnosis and cure of diseases of the brain by computerized tomographic axial examination, as well as the development of heretofore unavailable techniques for such diagnosis. The article will also be used for the training of neuroradiologists through the study of patients with brain diseases and development of new materials and techniques to prevent diagnosis by non-invasive methodology. Application received by Commissioner of Customs: May 7, 1974.

Docket Number: 74-00460-01-41700. Applicant: University of Illinois at Chicago Circle, P.O. Box 4348, Chicago, Illinois 60680. Article: TEA Laser System, Model TEA-202. Manufacturer: Lumonics Research Limited, Canada. Intended use of article: The article is intended to be used for producing CO_2, HF and DF laser pulses. The article is intended to be used to study the effects of laser radiation on various gas phase chemical reactions. It will be used to excite one of the gases, which then reacts with a second gas. Application received by Commissioner of Customs: May 9, 1974.

Docket Number 74-00462-01-41700. Applicant: Northwestern University, Department of Chemistry, Evanston, Illinois 60201. Article: Mode Locked Dye Laser, Model, SUA-10. Manufacturer: Electro-Photonics Limited, United Kingdom. Intended use of article: The article is intended to be used in studies of molecular processes in the gas phase and liquid phase. The phenomena include studies of photodissociation, electron transfer in solution, hemoglobin kinetics and aspects of photosynthetic conversion of light. Application received by Commissioner of Customs: May 8, 1974.

Docket Number: 74-00464-33-46040. Applicant: University of Massachusetts Medical School, 55 Lake Avenue, North Worcester, Mass. 01605. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for further research on the process of wound healing specifically, the identification of the intracellular mechanisms responsible for the "pull" in the closing of wounds. The article will also be used for research on atherosclerosis and cornary disease which concerns the study of the mechanism of degenerative changes in the coronary arteries.

The article will also be used in part in advanced training in research at the postdoctoral Fellow and Research Associate level. Application received by Commissioner of Customs: May 10, 1974.

Docket Number: 74-00468-99-57300. Applicant: Miami University, Pulp and Paper Technology Department, Oxford, Ohio 45056. Article: 2½ Cu.ft. Digester and B-K Microdigester Assembly. Manufacturer: Pulmac Instruments, Ltd., Canada. Intended use of article: The article is intended to be used for teaching pulp and paper students the methods used in pulping wood and the effect of variables on the quality of the pulp. It will also be used as a research tool to study new pulping processes and to develop new sources of papermaking fibers. Application received by Commissioner of Customs: May 9, 1974.

Docket Number: 74-00478-33-46500. Applicant: Southern Methodist University, Fondren Science Building, Dallas, Texas 75275. ARTICLE: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of biological, mainly mammalian or parasitic, tissues derived from experimental animals, and exhibit both normal and pathological structure. To be conducted are experiments on the morphology of cells and tissues affected by host-parasite interactions. In addition, variations in the behavior of cells and tissues under experimental pathological conditions will be studied. Application received by Commissioner of Customs: May 15, 1974.

Docket Number: 74-00479-00-46500. Applicant: State University of New York at Buffalo, Department of Pathology, Bell Facility, 180 Race Street, Buffalo, N.Y. 14207. Article: Cryokit, Model LKB 14800-1. Manufacturer: LKB Produkter

V 39 110 JUN 6 74 XUM

AB, Sweden. Intended use of article: The article is intended to be used to obtain ultrathin frozen sections of the adrenal gland for the study of the processes by which steroids are secreted from the cell in the adrenal gland of normal animal models and animals in which hypertension has been experimentally induced. In addition to research the article will be demonstrated as part of the laboratory for a course in electron microscopy. Application received by Commissioner of Customs: May 15, 1974.

Docket Number: 74-00480-33-46500. Applicant: University of Tennessee, Department of Ornamental Horticulture, Ellington Plant Science Bldg., Knoxville, Tenn. 37901. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is to be used for studies of tissue samples of plant parts, exhibiting either normal or experimentally affected anatomy and chemistry. Specifically, the article is to be used to cut thin and ultrathin sections of plastic-embedded tissues for observation of histochemical localization reactions in the light microscope, and for observation of cellular ultrastructure in the electron microscope. The article will also be used to train undergraduate and graduate students interested in ultramicrotomy of plant tissues in the use of the instrument on an individual basis. Application received by Commissioner of Customs: May 15, 1974.

Docket Number: 74-00481-20-61000. Applicant: Massachusetts Institute of Technology, 77 Massachusetts Avenue, Cambridge, Massachusetts 02139. Article: One Direct-Simple Shear Device. Manufacturer: Geonor A.S., Norway. Intended use of article: The article is intended to be used to measure the strength and stress-strain properties of soft clays for the particular case where a horizontal shear stress is applied to the sample. This type of test is used in conjunction with other methods of measuring stress-strain-strength properties to study the general topic of anisotropy of soft clays. Application received by Commissioner of Customs: May 15, 1974.

Docket Number: 74-00482-33-40700. Applicant: Duke University Medical Center, Division of Immunology, Department of Microbiology, Box 3010, Durham, North Carolina 27710. Article: Gammacell 40 Irradiation Chamber. Manufacturer: Atomic Energy of Canada, Canada. Intended use of article: The article is intended to be used for studies of the immune responses of irradiated rats, mice etc. Tissue culture of irradiated tumor and other cell lines will be investigated. In the experiments, animals will be irradiated, reconstituted with lymphoid cells and immunization or tolerance induced. In other experiments, lymphocytes will be cultured with irradiated tumor cells. The article will also be used in the course MIC 291-Fundamentals of Immunology. Application received by Commissioner of Customs: May 9, 1974.

Docket Number: 74-00454-33-43400. Applicant: National Institute of Neurological Diseases and Stroke, National Institutes of Health, Building 36, Room 5D-32, Bethesda, Maryland 20014. Article: Automatic Stepping Micromanipulator and Electric Control Unit. Manufacturer: AB Transvertex, Sweden. Intended use of article: The article is intended to be used for holding microelectrodes to obtain satisfactory recordings from auditory sensory cells. Application received by Commissioner of Customs: May 7, 1974.

Docket Number: 74-00463-15-42900. Applicant: University of Minnesota, School of Physics and Astronomy, Minneapolis, Minnesota 55455. Article: Superconducting Magnet. Manufacturer: Thor Cryogenics Ltd., United Kingdom. Intended use of article: The article is intended to be used in a solid state physics research program to control magnets used for adiabatic demagnetization studies of cooling using rare earth alloys and "brute force" nuclear cooling to achieve temperatures of about 1 mK. In addition, low and high field magnets controlled by this supply will be used to polarize very dilute magnetic impurities in Cu, Ag, and Au for nuclear orientation studies of their local magnetic moments.

The individuals working on this project are typically graduate students using the research for their Ph. D. theses, a post-doctoral fellow and an associate professor of physics. Application received by Commissioner of Customs: May 7, 1974.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-649; NDA 8-451, etc.; DESI 8451]

COMBINATION DRUGS CONTAINING PAMABROM AND PYRILAMINE MALEATE FOR ORAL USE

Withdrawal of Approval of New Drug Applications

On November 13, 1973, there was published in the FEDERAL REGISTER (38 FR 31355), a notice of opportunity for hearing (DESI 8451) in which the Commissioner of Food and Drugs proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the new drug applications listed below.

NDA 8-451; Neo Bromth Tablets containing pamabrom and pyrilamine maleate; formerly marketed by Brayten Pharmaceutical Co., Division of Chattem Drug and Chemical Co., 1715 West 38th Street, Chattanooga, Tennessee 37409.

NDA 8-613; Neoparbrom Tablets containing pamabrom and pyrilamine maleate; formerly marketed by The Central Pharmacal Co., 116-128 East Third Street, Seymour, Indiana 47274.

The basis of the proposed action was the lack of substantial evidence that the drug products are effective for their labeled indications.

Chattem Drug and Chemical Co. elected not to request a hearing concerning Neo Bromth Tablets. No other person filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes an election by such persons not to avail themselves of the opportunity for a hearing. The holders of the applications have both informed the Administration that the products are no longer marketed.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug applications reviewed and are subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (HFD-300), 5600 Fishers Lane, Rockville, Maryland 20852.

The Director of the Bureau of Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and under authority delegated to him (21 CFR 2.121), finds that on the basis of new information before him with respect to the drug products, evaluated together with the evidence available to him when the applications were approved, there is a lack of substantial evidence that the drug products will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in its labeling thereof.

Therefore, pursuant to the foregoing finding, approval of the above new drug applications and all amendments and supplements applying thereto is withdrawn effective on June 17, 1974.

Shipment in interstate commerce of the above-listed products or of any identical, related, or similar product, not the subject of an approved new drug application, will then be unlawful.

Dated: May 29, 1974.

J. RICHARD CROUT,
Director, Bureau of Drugs.

National Institutes of Health

DENTAL CARIES PROGRAM ADVISORY COMMITTEE

Amended Notice of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given that the meeting of the Dental Caries Program Advisory Committee, National Institute of Dental Research, scheduled for June 24 and 25, 1974, National Institutes of Health, Building 31-C, Conference Room 8, and published 39 FR 17248 (May 14, 1974), has been changed to a one-day meeting on June 24, 1974 only, at the National Institutes of Health, Building 31-C, Conference Room 8. This meeting will be open to the public from 9 a.m. to 5 p.m. on June 24, to discuss research programs and plans for the first half of FY 1975. Attendance by the public will be limited to space available. Dr. James P. Carlos, Associate Director, National Caries Program, National Institute of Dental Research, National Institutes of Health, Westwood Building, Room 528, Bethesda, Maryland 20014 (telephone 301-496-7239), will provide summaries of meetings, rosters of committee members, and substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.325 and 13.827 National Institutes of Health.)

Dated: May 31, 1974.

SUZANNE L. FREMEAU,
Committee Management Officers, National Institutes of Health.

GENERAL RESEARCH SUPPORT PROGRAM ADVISORY COMMITTEE

Notice of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the General Research Support Program Advisory Committee, Division of Research Resources, July 1, 1974, National Institutes of Health, Building 31, Conference Room 8. This meeting will be open to the public from 8:30 a.m. to 5 p.m., to discuss recommendations for the transitional usage of the NIH General Research Support Program authority, as it pertains to the General Research Support Grant/Biomedical Sciences Support Grant. Attendance by the public will be limited to space available.

The Information Officer who will furnish summaries of the meeting and roster of Committee members is Mr. James Augustine, Division of Research Resources, Building 31, Room 5B39, Bethesda, Maryland 20014, 496-5545.

The Executive Secretary from whom substantive information may be obtained is Dr. Ciriaco Q. Gonzales, Building 31, Room 4B04, Bethesda, Maryland 20014, 496-6743.

(Catalog of Federal Domestic Assistance Program Nos. 13.337 and 13.375 National Institutes of Health.)

Dated: May 31, 1974.

Office of Education

NATIONAL ADVISORY COUNCIL ON VOCATIONAL EDUCATION

Notice of Public Meeting

Notice is hereby given, pursuant to Pub. L. 92-463, that the next meeting of the National Advisory Council on Vocational Education will be held on June 27, 1974, from 9 a.m. to 5 p.m., local time and on June 28, 1974 from 9 a.m. to 4 p.m., local time, at the Embassy Row Hotel, Washington, D.C.

The National Advisory Council on Vocational Education is established under section 104 of the Vocational Education Amendments of 1968 (20 U.S.C. 1244). The Council is directed to advise the Commissioner of Education concerning the administration of, preparation of general regulations for, and operation of, vocational education programs, supported with assistance under the act; review the administration and operation of vocational education programs under the act; including the effectiveness of such programs in meeting the purposes for which they are established and operated, make recommendations with respect thereto, and make annual reports of its findings and recommendations to the Secretary of HEW for transmittal to the Congress, and conduct independent evaluation of programs carried out under the act and publish and distribute the results thereof.

The meeting of the Council shall be open to the public. The proposed agenda includes:

June 27 and 28: Welcoming of new Council Members
Report on the Development of new Legislation
Report of the Office of Education
Committee Reports

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the Council's Executive Director, located in Suite 412, 425 13th Street NW., Washington, D.C. 20004.

Signed at Washington, D.C. on May 29, 1974.

CALVIN DELLEFIELD,
Executive Director.

[FR Doc.74-12972 Filed 6-5-74;8:45 am]

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

NATIONAL MOTOR VEHICLE SAFETY ADVISORY COUNCIL

Notice of Public Meeting

On June 12-13, 1974, the National Motor Vehicle Safety Advisory Council will hold open meetings in the DOT Headquarters Building, 400 Seventh Street, SW., Washington, D.C. The Advisory Council is composed of 22 members, a majority of whom are representatives of the general public, including representatives of State and local governments, with the remainder including representatives of motor vehicle manufacturers, motor vehicle equipment manufacturers, and motor vehicle dealers. The Advisory Council makes recommendations to the Secretary of Transportation on motor vehicle safety and property loss reduction programs carried out by the National Highway Traffic Safety Administration.

The following meetings are subject to the approval of the Secretary of Transportation.

On June 12 at 9 a.m. in room 4234 the Crashworthiness Committee will meet with the following agenda:

Safety Standards Proposals for Seats (FMVSS 207) and Head Restraints (FMVSS 202)
Child Restraint Safety Standards
History of Air Bag Restraint Development
Members' ESV Conference Reports
Old Business
New Business

The Consumer and Public Information Committee will meet on June 12 at 1 p.m. in room 4234 with the following agenda:

Publication of Costs-Benefits of Motor Vehicle Safety Standards
Defect Notification Procedures
Consumer "Hot Line"
New Business
Old Business

On June 13 at 9 a.m. in room 4234 the full Council will meet with the following agenda:

Report of Crashworthiness Committee
Report of Consumer and Public Information Committee
Report of Congress Committee
Report of Awards Committee and Excalibur Award Balloting
Trip Reports
Effect of Federal Advisory Committee Act on Duration of Council
Old Business
New Business

This notice is given less than 15 days prior to the meeting dates as required by OMB Circular A-63 because the Council has called these meetings on short notice in order to provide the Secretary of Transportation with timely advice on pending rulemaking proposals.

For further information contact the NHTSA Executive Secretary, Room 5215, 400 Seventh Street, SW, Washington, D.C., telephone 202-426-2872.

This notice is given pursuant to section 10(a)(2) of Pub. L. 92-463, Federal Advisory Committee Act (FACA), effective January 5, 1973.

Issued on: May 30, 1974.

CALVIN BURKHART,
Executive Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. 50-389]

FLORIDA POWER & LIGHT CO.

Notice for Special Prehearing Conference

In the matter of Florida Power & Light Co. (St. Lucie Plant, Unit 2).

Take Notice, and it is hereby ordered in accordance with the Atomic Energy Act, as amended, and the Rules of Practice of the Atomic Energy Commission, that a special Prehearing Conference in the above-captioned proceeding will be held commencing at 9:30 a.m. local time on Monday, June 17, 1974, South Courtroom, U.S. District Court, 300 NE First Avenue, Miami, Florida 33101.

V 39 110 JUN 6 74 XUM

The purpose of this special Prehearing Conference is to discuss the status of discovery, questions arising therefrom, proposed schedule for all the procedural dates in the proceeding, and any other matters that would aid in the orderly disposition of the matters heretofore raised.

Issued at Bethesda, Maryland, this 31st day of May 1974.

It is so ordered.

ATOMIC SAFETY AND LICENSING BOARD,
JOHN B. FARMAKIDES,
Chairman.

[FR Doc.74-12961 Filed 6-5-74;8:45 am]

VIRGINIA ELECTRIC AND POWER CO.

Notice of Reconstitution of Board

In the matter of Virginia Electric and Power Company (North Anna Power Station, Units 1 and 2), Construction Permit Nos. CPPR-77, CPPR-78.

On May 28, 1974, the Atomic Energy Commission ruled that the Atomic Safety and Licensing Board which previously presided over the show cause proceeding involving the North Anna geological fault issue should assume jurisdiction over this proceeding. Mr. R. B. Briggs was a member of the previous Board but is not available for service in this proceeding.

Accordingly, John F. Wolf, Esq., whose address is 3409 Shepherd Street, Chevy Chase, Maryland 20015, is appointed a member of this Board. Reconstitution of the Board in this manner is in accordance with § 2.721 of the rules of practice, as amended.

Dated at: Bethesda, Md. this 3rd day of June 1974.

NATHANIEL H. GOODRICH,
Chairman, Atomic Safety and Licensing Board Panel.

[FR Doc.74-12982 Filed 6-5-74;8:45 am]

[Dockets Nos. 50-434; 50-435]

VIRGINIA ELECTRIC AND POWER CO. (SURRY POWER STATION, UNITS 3 AND 4)

Schedule for Prehearing Conference

A prehearing conference in the above matter will be held on Wednesday, June 12, 1974, at 10:00 a.m., local time, in the hearing room of the Atomic Safety and Licensing Appeal Panel, Room 550, East-West Towers, 4350 East West Highway, Bethesda, Md. 20014.

Dated at Bethesda, Maryland, this 31st day of May 1974.

For The Atomic Safety and Licensing Board.

JAMES R. YORE,
Chairman.

[Docket 40-6622]

UTAH INTERNATIONAL, INC.

Availability of Draft Environmental Statement for the Shirley Basin Uranium Mill

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a Draft Environmental Statement prepared by the Commission's Directorate of Licensing related to Utah International's Shirley Basin Uranium Mill currently operating under an interim license in Carbon County, Wyoming, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C., and in the local Public Document Room established at the Carbon County Public Library, Courthouse, Rawlins, Wyoming. The Draft Statement is also being made available at the Wyoming State Clearinghouse, State Planning Coordinator, Office of the Governor, Capitol Building, Cheyenne, Wyoming 82001. Copies of the Commission's Draft Environmental Statement may be obtained by request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Fuels and Materials, Directorate of Licensing, Regulation.

The Applicant's Environmental Report, as supplemented, submitted by Utah International, Inc., is also available for public inspection at the above-designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on September 24, 1970 (35 FR 14865).

Pursuant to 10 CFR Part 50, Appendix D, interested persons may submit comments on the Applicant's Environmental Report, as supplemented, and the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Applicant's Environmental Report and the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments are due by July 29, 1974.

Comments by Federal, State, and local officials, or other interested persons, received by the Commission will be made available for public inspection at the Commission's Public Document Room in Washington, D.C. and at the local Public Document Room in the Carbon County Public Library, Rawlins, Wyoming. Upon consideration of comments submitted with respect to the Draft Environmental Statement, the regulatory staff will prepare a Final Environmental Statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Fuels and Materials, Directorate of Licensing, Regulation.

Dated at Bethesda, Maryland, this 30th day of May 1974.

For the Atomic Energy Commission.

RICHARD B. CHITWOOD,
Chief, Technical Support Branch, Directorate of Licensing.

CIVIL AERONAUTICS BOARD

[Dockets Nos. 25351; Order 74-6-3, etc.]

AIR FRANCE ET AL.

Foreign Air Carrier Permit Applications; Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3rd day of June 1974.

Applications of Compagnie Nationale Air France (Air France), Docket No. 25351; Deutsche Lufthansa Aktiengesellschaft (Lufthansa), Docket No. 25400; Japan Air Lines Company, Ltd., Docket No. 25352; KLM Dutch Royal Airlines, Docket No. 25333; Societe Anonyme Belge d'Exploitation De La Navigation Aerienne (SABENA), Docket No. 25369; Scandinavian Airlines System (SAS), Docket No. 25466 for renewal and amendment of foreign air carrier permits.

Applications have been filed by each of the six above-named foreign air carriers for renewal of their foreign air carrier permits [1] granting, inter alia, conditional stopover authority at Anchorage, Alaska to through passengers on scheduled flights operated over their polar routes between points in Europe and points in Japan.[2] Four of the six carriers [3] additionally request amendment of their permits to allow deviation from restrictive stopover conditions in certain emergency situations as the Board may by order or regulation authorize.

At present, the subject permits allow passengers originally ticketed to be carried between a point in Japan and a point in Europe on a scheduled flight operated by the carrier between Japan and Europe to disembark at Anchorage; however, such stopover traffic must subsequently reembark on a scheduled flight of the carrier and be transported in accordance with the original routing as specified in the ticket. The requested amendments would allow departure from these stopover conditions in certain emergency situations, as specified by Board order or regulation. The permit amendments themselves would not be self-executing, but would rather be dependent upon a separate Board order or regulation implementing the permit amendment by specifying the types of emergency situations involved and the authority granted in such emergency situations. The particular emergency situations envisioned by the carriers include mechanical failures which will require a substantial period of time to repair, medical emergencies, personal emergencies, and other emergencies beyond the control of the carrier. In such emergency situations, the carriers request authority to (1) reembark at Anchorage and return to point of origin traffic which was originally ticketed to be carried between Japan and Europe, and (2) allow traffic to connect with other carriers proceeding either to the point of origin or to the originally ticketed point of destination of such traffic.

Upon consideration of the applications of the six carriers and all the relevant facts, we have decided to issue an order to show cause why the requested renewal and amendment of the foreign air carrier permits in question should not be granted.[4] In this regard, we tentatively find and conclude that the public interest requires the requested renewal and amendment of these permits.

With respect to the requests of the carriers for renewal of their permits, we make the following tentative findings and conclusions. The six carriers presently operate the following schedules on their polar routes between Europe and Japan via Anchorage: [5]

Carrier	Weekly round trips	European points
Air France	2 (B707); 4 (B747).	Paris.
JAL	7 (B747)	Amsterdam, Copenhagen, London, Hamburg, Frankfurt, Paris.
KLM	3 (DC-10)	Amsterdam.
Lufthansa	2 (B707); 1 (B747); 1 (DC-10).	Copenhagen, Hamburg, Frankfurt.
SABENA	1 (DC-10)	Brussels.
SAS	2 (B747)	Copenhagen.

All of the carriers except Air France and SAS presently utilize their conditional stopover authority at Anchorage on the above flights. Additionally, each of the six carriers has provided 19 or more years of foreign air transportation services pursuant to permits issued by the Board. In issuing the present permits, the Board found each of the carriers to be fit, willing, and able to properly perform the requested foreign air transportation,[6] and we tentatively find that there have been no intervening circumstances affecting the carriers' ability to perform which would warrant a different finding at this time. Accordingly, we tentatively conclude that renewal of each of the six subject foreign air carrier permits for a period of five years would be in the public interest.

With respect to the requests of the carriers for amendment of their permits, we make the following tentative findings and conclusions. The requested authority would be exercisable only in extraordinary emergency situations, and thus would not significantly derogate from the original restricted stopover authority. The public interest in the well-being, safety, and convenience of passengers would be served by substituted emergency transportation authority, and such transportation authority will not infringe upon the interests of other air carriers or the United States. In view of this, we tentatively conclude that the requested amendments be approved. As amended, the conditional stopover restrictions in the carriers' permits would read, in part, as follows:

> The authority granted herein shall be limited (except as may otherwise be authorized in emergency situations by Board order or regulation) to the disembarking at Anchorage * * * [7]

Upon issuance of an order making final the tentative findings, conclusions, and amendments contained herein, the Board will issue an order implementing that language and specifying the types of emergency situations covered by the permit amendments, the authority granted in such emergency situations, and such other limitations or conditions upon the grant of authority which the Board deems proper and necessary. Tentatively, the Board intends to implement the language in question by permitting the named carrier, in emergency situations, to reembark at Anchorage and return to the point of origin traffic which originally was scheduled to be transported by the carrier between a point in Europe and a point in Japan, or to allow such traffic to connect at Anchorage with other carriers proceeding either to the point of origin or to the originally ticketed point of destination of such traffic. The emergency situations comprehended within this grant of authority shall be limited to situations involving substantial mechanical failure or damage to the aircraft which will require a substantial period of time to repair, or medical emergencies due to illness or injury to a passenger. Within 30 days after any such emergency transportation is provided, the original carrier will be required to file a report with the Director, Bureau of Operating Rights, setting forth the circumstances of such carriage. This report would include:

(1) Names of all carriers, and dates, flight numbers, and routing of all flights involved;

(2) In cases of medical emergency transportation, the name of the passenger so transported;

(3) In cases of emergency transportation due to mechanical failure, the number of passengers and tons of cargo so transported; and

(4) Description of the circumstances which made substitute emergency transportation necessary, including evidence which the original carrier obtained to substantiate the need for emergency transportation (e.g., physician's report, accident or mechanics report).

Interested persons will be given 20 days following this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing which cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered That:

1. All interested persons are directed to show cause why the Board should not issue orders making final the tentative findings and conclusions stated herein and (1) renewing and amending the foreign air carrier permits held by Compagnie Nationale Air France, Deutsche Lufthansa Aktiengesellschaft, Japan Air Lines Company, Ltd., KLM Royal Dutch Airlines, Societe Anonyme Belge d'Exploitation de la Navigation Aerienne (SABENA), and Scandinavian Airlines System in the manner set forth herein,[8] and (2) implementing the conditional stopover authority amendments in the manner set forth herein;

2. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or permit amendments set forth herein shall, within 20 days of the date of this order, file with the Board and serve upon all persons listed in paragraph 5 a statement of objections together with a summary of testimony, statistical data, or other evidence expected to be relied upon to support the stated objections;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised

---

[1] The permits held by Air France, Lufthansa, Japan Air Lines (JAL), KLM, and SAS were approved by the President of the United States on April 30, 1968, and issued pursuant to Order E-26740, served May 3, 1968. SABENA's permit was approved by the President on February 1, 1969, and issued pursuant to Order 69-2-8, served February 4, 1969.

[2] In addition to stopover authority, the permits held by KLM, Lufthansa, and SABENA authorize the carriers to engage in foreign air transportation between points in Europe and the terminal point Anchorage, Alaska (or Fairbanks, Alaska in the case of Lufthansa). Air France and SAS were granted similar European-Alaska foreign air transportation authority by separate permits not at issue here. Japan Air Lines has no such European-Alaska authority, other than its conditional stopover authority.

[3] Air France, JAL, Lufthansa, and SAS.

[4] Although KLM and SABENA did not request amendment of their permits, we propose to amend the permits of all six carriers in order to maintain uniformity of stopover authority.

[5] International OAG, May 1974.

[6] These findings are set forth in the Board's orders issuing the present permits. See fn. 1. Additionally, the Board has had the opportunity to review the fitness of several of these carriers on subsequent occasions. See Order 69-12-58, served December 15, 1969 (Air France); Order 73-7-12, served July 9, 1973 (Lufthansa); Order 70-8-66, served August 19, 1970 (JAL); and Order 70-3-143, served March 30, 1970 (KLM).

[7] In the cases of KLM, Lufthansa, and SABENA, the amended permits would read as follows:

"The holder in providing service over segment 2 of this permit shall: Be limited (except as may otherwise be authorized in emergency situations by Board order or regulation) to disembarking at Anchorage. * * *"

[8] The renewod permits would inherently authorize the commingling of certain "blind sector" traffic (Europe-Asia transit passengers not stopping over in Alaska) with traffic moving in foreign air transportation (the stopover traffic), and, accordingly, no additional Part 216 authorizations are required. Moreover, Part 216 authorizations previously issued to SAS, Air France, and Lufthansa for certain other commingling operations remain in effect (see Orders E-26741, E-26742 and E-26743).

V 39 110 JUN 6 74 XUM

by the objections before further action is taken by the Board; [*]

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. A copy of this order shall be served upon Compagnie Nationale Air France, Deutsche Lufthansa Aktiengesellschaft, Japan Air Lines Company, Ltd., KLM Dutch Royal Airlines, Societe Anonyme Belge d'Exploitation de la Navigation Aerienne (SABENA), and Scandinavian Airlines System.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-13003 Filed 6-5-74;8:45 am]

[Docket No. 25513; C.A.B. 24397; Order 74-5-146]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Passenger Fares Increases

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 31st day of May 1974.

An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 and Part 261 of the Board's economic regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreement which has been assigned the above-referenced C.A.B. agreement number was adopted as a result of discussions held at the Montreux Passenger and Cargo Conference in March 1974 and relates to increasing passenger fares in the North and Central Pacific due to increasing prices of fuel.

The agreement would increase by four percent passenger fares intended for application on or after July 1, 1974 over the North and Central Pacific. The amount of increase applicable for Honolulu applies to all points in Hawaii; the amount of increase for Anchorage applies to all points in Alaska, and the amount of increase for Los Angeles applies to all other points in IATA Traffic Conference (Western Hemisphere).

The purpose of this order is to establish procedural dates for the receipt of justification, comments and replies in support of, or in opposition to, the agreement. All U.S. carrier members of IATA operating passenger services in the North and Central Pacific are required to submit complete and detailed justification in support of the agreement. The data presented in their justifications should include, but not be limited to, actual or contractual prices per gallon for fuel since September 1973 and financial forecasts, including traffic and capacity projections and estimated fuel consumption, for the year ending June 30, 1975, with and without the proposed increases, and the revenue gain anticipated from implementing the instant agreement as well as the revenue gain from previous fuel-related agreements.

Accordingly, it is ordered, That:

1. All United States air carrier members of the International Air Transport Association operating passenger services over the North and Central Pacific shall file within ten calendar days after the date of this order, full documentation and economic justification (as described above) in support of the subject agreement,

2. Comments and/or objections from interested persons shall be submitted within twenty calendar days after the date of this order; and

3. Tariffs implementing the subject agreement shall not be filed in advance of Board action on the subject agreement.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-13000 Filed 6-5-74;8:45 am]

[Docket No. 11278 etc.; Order 74-6-5]

NEW YORK-SAN JUAN CARGO RATES INVESTIGATION

Order Terminating Report Requirement

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 3rd day of June 1974.

By Order 72-3-78, dated March 23, 1972, the Board terminated the New York-San Juan Cargo Rates Investigation, Docket 11278 et al. and revoked the minimum rates prescribed therein. However, the order continued the requirement that certain carriers[1] submit to the Bureau of Accounts and Statistics monthly reports on CAB Form T-94 setting forth data on traffic and revenue between New York and San Juan, Puerto Rico.

The Board no longer has need for the reported data, and finds that requiring their continued submission would serve no useful purpose.

Accordingly, it is ordered That:

The reporting requirements of Order 72-3-78, as they relate to Airlift International, Inc., American Airlines, Inc., Eastern Air Lines, Inc., and Pan American World Airways, Inc. are hereby terminated.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-13002 Filed 6-5-74;8:45 am]

[Dockets Nos. 26754, 26755; Order 74-5-145]

TRANS WORLD AIRLINES, INC., ET AL.

Youth and Student Standby Fares; Investigation and Suspension, Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 31st day of May 1974.

In the matter of student fares proposed by Trans World Airlines, Inc., Docket No. 26754; and Youth and student standby fares of Continental Air Lines, Inc., Pan American World Airways, Inc., Trans World Airlines, Inc., Docket No. 26755.

By tariff revision[1] marked to become effective June 1, 1974, Trans World Airlines, Inc. (TWA) proposes to establish student fares between Guam, on the one hand, and Hawaii and points in the mainland United States, on the other hand, which match existing student fares applicable via Pan American World Airways, Inc. (Pan American).

In support of its proposal TWA alleges that the fares meet present student fares of Pan American.

No complaints were filed.

On the basis of the facts and information available, the Board concludes that the proposed student fares may be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated. In view of the clear question of discrimination inherent in the proposal, we further conclude that it should be suspended pending investigation. At the same time the Board tentatively concludes that Pan Amercian's existing student fares in the Guam-Hawaii/mainland markets may be unjustly discriminatory. The Board, therefore, will direct all interested parties to show cause why Pan American should not cancel its existing student fares.[2]

The Board has previously found discount fares limited to students to be unjustly discriminatory.[3] Further, the Board's recent decision in the Discount Fare Phase of the Domestic Passenger-Fare Investigation (Docket 21866-5) found that youth and family fares are unjustly discriminatory and ordered

---

[*] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further such motions, requests, or petitions for reconsideration of this order will be entertained.

[1] Airlift International, Inc., American Airlines, Inc., Eastern Air Lines, Inc., and Pan American World Airways, Inc.

[1] Revisions to Trans World Airlines, Inc., Tariff C.A.B. No. 208.

[2] We will also include in the show cause proceeding the following youth and student fares which apply in the same general geographic area and raise the same questions of lawfulness: (1) Continental Air Lines, Inc's student fares between points in the Trust Territory of the Pacific and Hawaii; (2) Pan American's youth standby and student fares between Pago Pago, American Samoa, on the one hand, and Hawaii and the continental United States, on the other hand; (3) Pan American's youth standby and student fares between Guam and Alaska; and (4) Pan American's and TWA's youth standby fares between Guam, on the one hand, and Hawaii and west coast points in the Continental United States, on the other hand.

[3] Capital Group Student Fares, 25 C.A.B. 280 (1957). See also Order 70-7-129, dated July 29, 1970, wherein the Board suspended student group fares proposed by the intra-Hawaiian carriers, which were subsequently canceled by the carriers.

their phased cancellation by June 1, 1974.[4] The fares here in question, limited as they are to students or youths, would appear to be inconsistent with those decisions. Although Pan American's student fares to Guam have been in effect without change well over two years, Trans World is just now seeking to match them. Thus, it appears that Trans World's inability to match them during the pendency of the show cause proceeding we are initiating should have little adverse effect on it.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204, 403, 404, and 1002 thereof,

It is ordered That:

1. An investigation be instituted in Docket 26754 to determine whether the fares and provisions described in Appendix A hereto,[5] and rules, regulations, and practices affecting such fares and provisions are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix A hereto are suspended and their use deferred to and including August 29, 1974, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. The investigation ordered herein be assigned for hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated;

4. All interested parties, and particularly Continental Air Lines, Inc., Trans World Airlines, Inc., and Pan American World Airways, Inc., are hereby directed to show cause, Docket 26755, why the Board should not make final its tentative findings and conclusions herein with respect to existing youth and student fares and, upon the basis of such findings and conclusions, order the respective carriers to cancel the youth and student fares described in Appendix B.[6] All responses and comments submitted pursuant to this paragraph shall be filed within 20 days after the service of this order; and

5. Copies of this order will be filed with the aforesaid tariff[7] and be served upon Trans World Airlines, Inc., which is hereby made a party to the investigation ordered in paragraph 1 (Docket 26754), and upon Continental Air Lines, Inc., and Pan American World Airways, Inc.

This order will be published in the FEDERAL REGISTER.[8]

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

CIVIL SERVICE COMMISSION

ADVISORY COUNCIL ON INTERGOVERNMENTAL PERSONNEL POLICY

Notice of Public Meeting

Pursuant to the provisions of section 10 of Public Law 92-463, effective January 5, 1973, notice is hereby given that a meeting of the Advisory Council on Intergovernmental Personnel Policy will be held from 8:30 a.m., Tuesday, June 25, through 4:30 p.m., Thursday, June 27, 1974.

The meeting will be held in Room 5A06A (Enter 5H09) of the Civil Service Commission Building, 1900 E Street, NW, Washington, D.C.

The Advisory Council's responsibility is to study and make recommendations regarding personnel policies and programs for the purpose of—

(1) Improving the quality of public administration at State and local levels of government, particularly in connection with programs that are financed in whole or in part from Federal funds;

(2) Strengthening the capacity of State and local governments to deal with complex problems confronting them;

(3) Aiding State and local governments in training their professional, administrative, and technical employees and officials;

(4) Aiding State and local governments in developing systems of personnel administration that are responsive to the goals and needs of their programs and effective in attracting and retaining capable employees; and

(5) Facilitating temporary assignments of personnel between the Federal Government and State and local governments and institutions of higher education.

At this meeting the Council will consider policy alternatives in the areas of equal employment opportunity and labor management relations in the public service. Time will also be devoted to an examination of a discussion paper on "Manpower Development for State and Local Governments."

The meeting will be open to the public. Seating will be available to accommodate up to twenty observers. No time will be devoted during the meeting to participation or presentations by members of the public. However, individuals and groups are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the Council's attention. Such material should be addressed to: Chairman, Advisory Council on Intergovernmental Personnel Policy, Room 2315, 1900 E Street, NW, Washington, D.C. 20415, Attention: Executive Secretary.

Persons wishing additional information concerning this meeting should contact the Executive Secretary at the above address or by telephone (202) 632-6248.

E. C. WAKHAM,
Executive Secretary, Advisory Council on Intergovernmental Personnel Policy.

FEDERAL EMPLOYEES PAY COUNCIL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 2:00 p.m. on Wednesday, June 19, 1974, to continue discussions on the fiscal year 1975 comparability adjustment for the statutory pay systems of the Federal Government.

In accordance with the provisions of section 10(d) of the Federal Advisory Committee Act, it was determined by the Director of the Office of Management and Budget and the Chairman of the Civil Service Commission, who serve jointly as the President's Agent for the purposes of the Federal pay comparability process, that this meeting of the Federal Employees Pay Council would not be open to the public.

For the President's Agent.

Richard H. Hall,
Advisory Committee Management Officer for the President's Agent.

COMMITTEE FOR THE IMPLEMENTATION OF COTTON TEXTILES

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN POLAND

Entry or Withdrawal From Warehouse for Consumption

JUNE 3, 1974.

On March 5, 1974, there was published in the FEDERAL REGISTER (39 FR 8374), a letter dated February 27, 1974, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, establishing levels of restraint applicable to certain specified categories of cotton textiles and cotton textile products produced or manufactured in Poland and exported to the United States during the twelve-month period beginning March 1, 1974. As set forth in that letter, the levels of restraint are subject to adjustment pursuant to paragraph 17 of the Bilateral Cotton Textile Agreement of March 15, 1967, as amended and extended, between the Governments of the United States and the Polish People's Republic, which provides for the limited carryover of shortfalls in certain categories to the next agreement year.

Accordingly, pursuant to the provisions of the bilateral agreement referred to above, there is published below a letter of June 3, 1974 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs amending the level of restraint applicable to cotton textile products in Category 43, produced or manufactured in Poland and exported to the United States during the twelve-month period which began on March 1, 1974.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229.

JUNE 3, 1974.

DEAR MR. COMMISSIONER: On February 27, 1974, the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry during the twelve-month period beginning March 1, 1974 of cotton textiles and cotton textile products in certain specified categories produced or manufactured in Poland in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.[1]

Pursuant to paragraph 17 of the Bilateral Cotton Textile Agreement of March 15, 1967, as amended and extended, between the Governments of the United States and the Polish People's Republic, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to amend, effective as soon as possible, the level of restraint established in the aforesaid directive of February 27, 1974 for cotton textile products in Category 43 to 141,709 dozen.[2]

The actions taken with respect to the Government of the Polish People's Republic and with respect to imports of cotton textiles and cotton textile products from the Polish People's Republic have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs being necessary to the implementation of such actions fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.74-12973 Filed 6-5-74;8:45 am]

---

[1] The term "adjustment" refers to those provisions of the Bilateral Cotton Textile Agreement of March 15, 1967, as amended and extended, between the Governments of the United States and the Polish People's Republic, which provide, in part, that within the aggregate and applicable group limits, limits on certain categories may be exceeded by not more than five percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements.

[2] This level has not been adjusted to reflect any entries made on and after March 1, 1974.

COUNCIL ON ENVIRONMENTAL QUALITY

ADVISORY COMMITTEE ON ALTERNATIVE AUTOMOTIVE POWER SYSTEMS

Notice of Meeting

Notice is hereby given that the Council on Environmental Quality's Advisory Committee on Alternative Automotive Power Systems will hold its next meeting in Pasadena, California on June 13 and 14, 1974. The session, which is open to the public, will commence at 9:00 a.m., Thursday, June 13, at the Jet Propulsion Laboratories, 4800 Oak Grove Drive, Pasadena, California, in Building 180, Room 101.

The agenda for this meeting will include a review of the status of the Environmental Protection Agency's Alternative Automotive Power Systems program, Jet Propulsion Laboratories' hydrogen fuel and alternative engines program, and the Atomic Energy Commission's work on high efficiency storage batteries and flywheel applications.

A list of advisory committee members is available from, and requests for additional information should be made to: Barrett J. Riordan, Council on Environmental Quality, 722 Jackson Place, NW., Washington, D.C. 20006.

GARY L. WIDMAN,
General Counsel.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20064; File No. BR-549; FCC 74-529]

CHICAGO FEDERATION OF LABOR AND INDUSTRIAL UNION COUNCIL

License Renewal Applications; Memorandum Opinion and Order; Hearing

In re applications of Chicago Federation of Labor and Industrial Union Council for renewal of license of station WCFL, Chicago, Illinois.

1. The Commission has before it the above-captioned license renewal application on remand from the United States Court of Appeals for the District of Columbia Circuit.

2. On September 1, 1970, the Chicago Federation of Labor and Industrial Union Council tendered an application for renewal of its license for standard broadcast Station WCFL, Chicago Illinois. However, Better Broadcasting Council, Inc., The Task Force for Community Broadcasting, and the Illinois Citizens Committee for Broadcasting timely filed a petition to deny that renewal application on November 2, 1970. Briefly, the petitioners alleged that substantial and material questions of fact existed with regard to the licensee's ascertainment of community problems, its proposed programming, and the station's commercial and program classification practices. The character qualifications of the licensee were also challenged by the petitioners.

3. After consideration of the matters set forth in the various pleadings, the Commission denied the aforenoted petition to deny and granted the WCFL license renewal application. Chicago Federation of Labor and Industrial Union Council, 38 FCC 2d 417, 25 RR 2d 1147, (1972). Petitioners appealed our action (Case No. 72-2235), filing their brief with the United States Court of Appeals for the District of Columbia Circuit on July 16, 1973. Upon a review of the brief and a subsequent re-examination of the record, it was determined that the Commission, due to an oversight, had failed to consider facts which have a bearing on some of the matters raised by petitioners. On March 29, 1974, the Commission requested the Court to remand this case for the Commission's further consideration. On April 17, 1974, the Court granted the Commission's unopposed motion.

4. As noted by petitioners in their brief before the Court, the Commission by letter of October 30, 1970 requested the licensee to supply a brief description of three of the programs listed on the 1970 composite week logs (i.e., Jerry G. Bishop Show, Ron Riley Show, and Dick Williamson Show) so as to enable the Commission to ascertain whether those programs were properly classified as public affairs programs. It was also pointed out in the letter that the licensee's listing of illustrative programs broadcast during the twelve months preceding the filing of the WCFL applications contained programming whose classification as public affairs programs did not appear to be in accord with the Commission's program definitions.[1] The following programs were specifically noted by the Commission: Ghost Show, Red Mottlow Baseball Show, Duke Ellington, Sports Special, Pop Goes the Music, Dick Biondi Labels the Blues, This is Elvis, Dick Biondi and Friend, Memphis Sunshines Again, In the Beginning, and Biondi Vietnam Show.

5. In its response, dated November 9, 1970, the licensee claimed that the Jerry G. Bishop Show, the Ron Riley Show and the Dick Williamson Show utilized the same basic format, namely, telephone call-ins from listeners to express their opinions on matters of local, national and international interest or to otherwise comment upon a subject under discussion with a particular guest. In the licensee's opinion, these programs were properly classified as public affairs. It was further stated that Dick Biondi and Friend was a talk show in which the guest, a prominent music personality, discussed various matters of public concern and that the Red Mottlow Baseball Show was an award-winning, special documentary commemorating the 100th anniversary of baseball in the United States and featuring a discussion of the history, current status and future of baseball and interviews with baseball personalities. These programs were also claimed to fall within the Commission's definition of public affairs programming. However, the licensee acknowledged that eight of the remaining programs questioned in our October 30, 1970 letter probably should not have been classified as public affairs, and indicated a similar willingness to accept the Commission's determination that another program, Ghost Show, was also misclassified. No further description was furnished with respect to the Duke Ellington and Sports Special programs.

6. Originally, petitioners alleged that the licensee misrepresented Station WCFL's past programming by improperly classifying two musical programs, the Dick Williamson Show and the Dick Biondi Show,[2] as public affairs presentations. Based upon a review of the petitioners' pleadings and the licensee's description of the challenged programs which was set forth in its opposition pleading, the Commission held that while the Dick Williamson Show was properly classified, the other program (the Dick Biondi Show) should not have been classified as entirely public affairs. We further concluded that: "absent other evidence, the mere fact that a licensee misclassified one or two programs does not compel the conclusion that the licensee is guilty of intentional wrongdoing" and that "There is no evidence which would support a conclusion of deliberate misrepresentation; nor is there any evidence which would establish a pattern of such misclassification." 38 FCC 2d at 424, 25 RR 2d at 1155. In reaching this latter conclusion, however, the Commission inadvertently omitted from its consideration the October 30, 1970 letter and the licensee's response thereto. The extent of the program misclassifications as reflected in the previously overlooked material, and the apparent absence of public affairs characteristics for several of those programs, compels the Commission to reverse its earlier determination. On the basis of the information before us, we find that a serious question is raised as to whether the licensee sought to misrepresent the extent of its public affairs programming.[3] The Commission is, therefore, unable to make the statutory finding that a grant of the license renewal application for Station WCFL is consistent with the public interest, convenience, and necessity, and is of the opinion that the foregoing matter should be explored in an evidentiary hearing.[4]

7. Accordingly, *It is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the above-captioned license renewal applications, are designated for hearing at a time and place to be specified in a subsequent Order, upon the following issues:

(1) To determine whether, through the use of improper program classifications, the Chicago Federation of Labor and Industrial Union Council deliberately misrepresented Station WCFL's public affairs programming and, if so, whether such conduct adversely reflects upon the qualifications of the Chicago Federation of Labor and Industrial Council to be a Commission licensee.

(2) To determine whether, in light of the evidence adduced pursuant to the foregoing issue, a grant of the application for renewal of license of Station WCFL would serve the public interest, convenience and necessity.

8. *It is further ordered*, That the petition to deny, filed by Better Broadcasting Council, Inc., The Task Force for Community Broadcasting, and the Illinois Citizens Committee for Broadcasting, is granted to the extent indicated above.

9. *It is further ordered*, That, Better Broadcasting Council, Inc., The Task Force for Community Broadcasting, and the Illinois Citizens Committee for Broadcasting are made parties to the hearing ordered herein.

10. *It is further ordered*, That, in accordance with section 309(e) of the Communications Act of 1934, as amended, the burden of proceeding with the introduction of evidence with respect to issue (1) shall be on the parties respondent. The burden of proceeding as to issue (2) and the burden of proof with respect to both issues herein shall be upon the Chicago Federation of Labor and Industrial Union Council.

11. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the Chicago Federation of Labor and Industrial Union Council and the parties respondent, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within twenty (20) days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in the Order.

12. *It is further ordered*, That, the Chicago Federation of Labor and Industrial Union Council shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rules, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: May 22, 1974.

Released: May 31, 1974.

FEDERAL COMMUNICATIONS COMMISSION,[5]
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-12987 Filed 6-5-74;8:45 am]

---

[1] Note 1(d) of Rule 73.112 defines public affairs programs as including "talks, commentaries, discussions, speeches, editorials, political programs, documentaries, forums, panels, roundtables, and similar programs primarily concerning local, national, and international public affairs."

[2] It appears that this program is the Biondi Vietnam Show referred to in our letter of October 30, 1970.

[3] The Commission has limited its re-evaluation to the record as certified to the Court on January 30, 1973. Except to the extent indicated above, we reaffirm our earlier Memorandum Opinion and Order for the reasons stated therein.

[4] On August 31, 1973, the licensee timely submitted the WCFL renewal application covering the forthcoming triennial license term (December 1, 1973 through December 1, 1976). Proof of the licensee's compliance with the local publication requirements of Rule 1.580 was also tendered at that time. No petition to deny that application has been filed. While we could delay consideration of the 1973 renewal application until resolution of the issues specified herein, the Commission believes that the more appropriate procedure is to designate for hearing both renewal applications.

[5] Commissioner Robert E. Lee dissenting and statement filed as a part of the original document; Commissioner Quello not participating.

[Docket No. 20060, File No. BP 19559 etc.]

COMMUNITY BROADCASTING COMPANY, INC. ET AL.

Construction Permit Applications; Hearing

In re applications of Community Broadcasting Company, Inc. (WKUN), Monroe, Georgia, Docket No. 20060, File No. BP-19559 (Has: 1580 kHz, 1 kW, Day; Requests: 1490 kHz, 250 W, 1 kW-LS, U), Charles Haasl, James N. Williamson, and Raymond Dehler, a joint venture, Monroe, Georgia, Docket No. 20061, File No. BP-19620 (Requests: 1490 kHz, 250 W, 1 kW-LS, U), Monroe Broadcasting, Inc. Monroe, Georgia, Docket No. 20062, File No. BP-19621 (Requests: 1490 kHz, 250 W, 1 kW-LS, U), for construction permits.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned applications which are mutually exclusive in that they seek the same frequency in the same community.

2. Community Broadcasting Company, Inc., has failed to interview any labor leaders in its survey of community needs and interests. As a result, a question exists as to whether the applicant has complied fully with Commission requirements as expressed in the *Primer on the Ascertainment of Community Problems by Broadcast Applicants*, 27 FCC 2d 650

V 39 110 JUN 6 74 XUM

(1971). See *Voice of Dixie, Inc.*, 45 FCC 2d 1027 (1974). Accordingly, a Suburban issue[1] has been included.

3. Charles Haasl, James N. Williamson, and Raymond Dehler, a Joint Venture, has failed to contact and interview labor leaders in its survey of the needs and interests of the community. Further, the applicant has failed to state who conducted the survey of the general public. Accordingly, a Suburban issue has also been included as to this applicant.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

5. Accordingly, *It is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceedng, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the efforts made by Community Broadcasting Company, Inc., and Charles Haasl, James N. Williamson, and Raymond Dehler, a Joint Venture to ascertain the community problems of the area to be served and the means by which the applicants propose to meet those problems.
2. To determine which of the proposals would, on a comparative basis, best serve the public interest.
3. To determine, in light of the evidence adduced pursuant to the foregoing issues which, if any, of the applications should be granted.

6. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

7. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: May 29, 1974.

Released: May 31, 1974.

FEDERAL COMMUNICATIONS
COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[1] Suburban Broadcasters, 20 RR 951 (1961).

[FCC 74-573]

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

Extension of Time for New Procedures on Petitions to Deny Applications

MAY 31, 1974.

The Commission on May 2, 1974 extended the time afforded to licensees in the Domestic Public Land Mobile Radio Service (DPLMRS) to comply with the new procedures relating to petitions to deny applications based on allegations of economic injury, see Commission Public Notices 10980 (April 17, 1974) and 11360 (May 2, 1974).

We now find that more time will be needed to reach a decision on the merits of those pleadings filed in response to the announcement of the new procedures.

Accordingly, the effective date for the necessary withdrawal of petitions based upon allegations of economic injury is hereby extended to July 1, 1974.

FEDERAL COMMUNICATIONS
COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

FEDERAL MARITIME COMMISSION

[Docket No. 73-35]

PORT OF PHILADELPHIA

Intermodal Service of Containers and Barges

By Order dated June 18, 1973, the Commission instituted the subject investigation into possible violations of the Shipping Act, 1916, the Intercoastal Shipping Act, 1933, the Merchant Marine Act of 1920, and the Merchant Marine Act of 1936, resulting, inter alia, from alleged diversion of cargo from the Port of Philadelphia to other ports of exit or entry and absorption of the costs of inland transportation of such cargo.[1] This Order itself is broadly worded and states that:

> There is reason to believe that * * * service [other than by direct ocean vessel calls] may include rail, motor and/or water carriage of cargo to and from the Port of Philadephia from and to other East Coast ports in the domestic and foreign trades.

Thereafter, the ordering paragraphs themselves state in pertinent part:

> (1) That * * * an investigation shall be instituted to determine whether the practices, past or present, by container or barge type of operators serving Philadelphia other than by direct ocean vessel call, whether it be by rail, highway or water * * *

violate certain provisions of the various acts; and

> (2) That the steamship companies and conferences as listed in the appendix hereto, are hereby named respondents in the proceeding * * *.

Along with a number of other carriers, American President Lines, Ltd. (APL) was named a respondent in this proceeding as a member of the Marseilles North Atlantic U.S.A. Freight Conference (Agreement 5660), as a member of the Far East Conference and as a member of the Japan-Atlantic and Gulf Freight Conference. Not specifically named as respondent is any conference or agreement servicing the Southeast Asia Trade.

On January 15, 1974, APL filed a Motion for Leave to Serve Interrogatories upon six respondents and one other party regarding the Southeast Asia Trade. APL stated in its motion that it:

> * * * hopes to show that there is not adequate direct or all-water container service between Philadelphia and the countries of Southeast Asia served by APL. To that end it wishes to inquire of the six respondents currently advertising service between Philadelphia and Southeast Asia as to volume and frequency of these movements of containers in these trades.

On February 14, 1974, Judge Kline denied APL leave to serve its interrogatories on the ground that:

> * * * the information which APL is seeking relates to activities in trade areas which were not included in the Commission's order of investigation.

Following issuance of Judge Kline's ruling, APL filed a "Motion to Reconsider Ruling on Motion for Leave to serve Interrogatories", arguing that in its view, the Southeast Asia trade is encompassed within the "text of the order" even if not specified in the "service list" of respondents provided in the appendix. It urged that the broad language of the order should not be limited by the Order's appendix listing the relevant trades and conferences.

Hearing Counsel filed a Reply supporting the motion only because it was of the opinion that granting of this motion would not lead to unnecessary delay in the proceeding. On March 26, 1974, Judge Kline denied APL's motion once more. This denial was based on the ground that the order of investigation did not encompass the trade area about which APL sought information.

Following issuance of this ruling, APL filed an appeal. Pursuant to what APL characterizes as two possible interpretations of Commission Rule 10(m), APL sought:

> 1. Leave of the Administrative Law Judge to appeal his rulings to the Commission; and
> 2. Review as of right by the Commission.

Alternatively, should they not obtain reversal of Judge Kline's rulings, APL requests amendment of the Order of Investigation in this proceeding in order to encompass specifically the "Trade between Philadelphia and the ports in the

---

[1] Subsequently, on April 5, 1974, the Commission designated this case as a vehicle for announcing "the general principles" relating to equalization, absorption and minibridge, which will apply in all other cases.

Singapore-Karachi range." In so doing, APL explains:

> * * * APL needs and is entitled to a decision as to the lawfulness of an occasional overland carriage of containers moving between Philadelphia and Southeast Asia. It cannot obtain that decision because of the confluence of three erroneous decisions: (1) We cannot raise the issue in Dkt. 73-35 because the presiding officer has ruled it outside the investigation; (2) we cannot raise it in Dkt. 71-70 because APL has been dismissed from that proceeding; (3) we cannot engage in the practice, leaving it to any who wished to complain or investigate, because it is under an injunction pending completion of Commission proceedings; [sic] (4) it cannot dissolve that injunction because the District Court erroneously believes the proceedings in Dkt. 71-70 not to have been terminated as against APL; (5) the District Court error derives from the error of the Commission in subjecting the satisfactions of complaint in Dkt. 71-70 to § 15 notice and comment and then ignoring the matter for half a year.

APL then proceeded to argue that the original order of investigation includes the Southeast Asia trade area. It reiterated its contention that the text of the order controls the appendix, and urged that sufficient notice of the investigation had been provided the trade by virtue of publication of that order. It concluded by specifically requesting:

(1) That the presiding officer allow this appeal;

(2) If he should refuse, that the appeal be considered by the Commission as of right; and

(3) That the rulings of the presiding officer of February 14, and March 26, 1974, be revised; or

(4) That the appendix to the order of investigation in this proceeding be amended as proposed above.

Reply to this Motion was filed by the Philadelphia Port Interests.[2] The port interests opposed granting of the appeal because they feared undue further complication and delay of "a proceeding * * * which is already difficult enough to manage * * *" and because allowance would provide a procedure which would allow other parties to "utilize this investigation for their own narrow purpose" adding further delay and confusion.

Judge Kline, on April 19, 1974, granted permission to appeal his rulings and certified the matter to the Commission stating:

> * * * since at least two of APL's requests must be decided by the Commission rather than the Judge, i.e., the petition to act on the settlements [not here involved] and the motion to amend the Order in No. 73-35, it would make little sense to hold back from the Commission consideration of the * * * appeal from the adverse rulings, which are part of the total picture and also bear upon interpretation of the Commission's order.
>
> Accordingly, the appeal is allowed and the matter is being certified to the Commission for its action.

The appeal and motion are before us for determination. After having reviewed these proceedings in light of our Order of Investigation, we conclude that Judge Kline's rulings on the various requests of APL were correct. However, since we have heretofore designated this a leading case, we believe that an examination of the problems involving diversion and absorption at the Port of Philadelphia include such problems in the Southeast Asia trade. To that end, we are amending our original Order of Investigation as requested by APL.

Therefore, *it is ordered*, That the Order of Investigation be amended by the addition of the phrase: "(including the trade between Philadelphia and the ports in the Singapore-Karachi range)" following the recitation of American President Lines, Ltd. under headings "Far East Conference" and "Japan-Atlantic & Gulf Freight Conference" in the Appendix to the Order of Investigation.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

FEDERAL RESERVE SYSTEM

FIDELITY AMERICAN BANKSHARES, INC.

Proposed Acquisition of Security Finance Corporation of Spartanburg

Fidelity American Bankshares, Inc., Lynchburg, Virginia, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843 (c)(8)) and § 225.4(b)(2) of the Board's regulation Y, for permission to acquire voting shares of Security Finance Corporation of Spartanburg, Spartanburg, South Carolina. Notice of the application was published in the local areas where the proposed subsidiary presently conducts business.

Applicant states that the proposed subsidiary would engage in the activities of (a) making installment loans to individuals for personal, family, or household purposes; (b) purchasing sales finance contracts executed in connection with the sale of personal, family, or household goods or services; (c) rediscounting notes receivable of independent small loan companies; (d) acting as agent in selling credit life insurance, credit disability insurance, and property insurance offered in connection with certain personal installment loans made and sales finance contracts purchased; and (e) underwriting reinsurance with respect to the credit life insurance written by the finance companies, and reinsurance on debtors of the sales finance subsidiary. Applicant states that such activities have been specified by the Board in § 225.4(a) of regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 27, 1974.

Board of Governors of the Federal Reserve System, May 30, 1974.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.74-12962 Filed 6-5-74;8:45 am]

MERCANTILE BANCORPORATION, INC.

Acquisition of Bank

Mercantile Bancorporation, Inc., St. Louis, Missouri, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of The Farmers Bank of Bowling Green, Bowling Green, Missouri. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of St. Louis. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received not later than June 17, 1974.

Board of Governors of the Federal Reserve System, May 30, 1974.

GALBANK, INC., AND UNITED STATES NATIONAL BANCSHARES, INC.

Proposed Acquisition of Bankers Data Services, Inc.

Galbank, Inc., and United States National Bancshares, Inc., both of Galveston, Texas (hereinafter jointly referred to as "Applicant") have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire all of the voting shares of Bankers Data Services, Inc., Houston, Texas. Notice of the application was published on May 14,

V 39 110 JUN 6 74 XUM

1974, in The Houston Chronicle, a newspaper circulated in Houston, Texas.

Applicant states that the proposed subsidiary would engage in the activities of providing data processing services to banks and other financial service organizations including pick-up and delivery of data information and computer programming incident to the use of such data processing services. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Dallas.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 27, 1974.

Board of Governors of the Federal Reserve System, May 30, 1974.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

PEOPLES BANKING CORP.

Acquisition of Bank

Peoples Banking Corporation, Bay City, Michigan, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares of the successor by consolidation to Oscoda State Savings Bank, Oscoda, Michigan. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than June 28, 1974.

Board of Governors of the Federal Reserve System, May 31, 1974.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.74-12996 Filed 6-5-74;8:45 am]

SOUTHEAST BANKING CORP.

Order Approving Acquisition of Bank

Southeast Banking Corporation, Miami, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of Edgewood Bank, Jacksonville, Florida ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the largest banking organization in Florida, controls 32 banks with aggregate deposits of about $1.84 billion,[1] representing 8.9 percent of total deposits in commercial banks in the State. Acquisition of Bank, with deposits of $2 million, would not significantly increase Applicant's share of commercial bank deposits in Florida.

Bank, which was organized during 1973, is the smallest of the 36 banks in the Jacksonville banking market[2] and holds approximately 0.1 percent of total commercial deposits therein. In that market, Applicant is the seventh largest banking organization with three existing subsidiary banks having aggregate deposits of approximately $83 million, representing 4.7 percent of total market deposits. Upon consummation of the proposal, Applicant's rank in the market would remain the same. The three largest banking organizations in the market (each a bank holding company) control, respectively, 27.7, 20.3, and 19.7 percent of market deposits. There is no substantial overlap between the respective service areas of Applicant's banking subsidiaries and Bank, and it appears that consummation of the proposal would not eliminate any significant existing competition between them. While the proposed acquisition would eliminate the possibility of competition developing in the future between Applicant's banking subsidiaries and Bank, the overall effect on potential competition does not appear to be significant in view of the small size of Bank, the number of intervening banks between Applicant's subsidiaries and Bank, the large number of banks in the relevant market, and the number of independent banks remaining available for acquisition. Accordingly, on the basis of the record, the Board concludes that competitive considerations are consistent with approval of the application.

In view of Applicant's commitments to inject additional equity capital into certain of its subsidiary banks, the Board regards the financial resources of Applicant and its subsidiary banks as generally satisfactory. The management of Applicant and its subsidiaries appear capable, and the prospects for the group appear favorable. The same conclusions apply with respect to the financial and managerial resources and prospects of Bank. Although there is no evidence in the record to indicate that the banking needs of the community to be served are not currently being met, Applicant proposes to expand the services presently offered by Bank, including increased consumer and business lending, thereby enabling Bank to become a more effective competitor in the relevant market. Therefore, considerations relating to the convenience and needs of the community to be served lend some weight toward approval of the application. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[3] effective May 30, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.74-12995 Filed 6-5-74;8:45 am]

BARNETT BANKS OF FLORIDA, INC.

Order Approving Acquisition of Bank

Barnett Banks of Florida, Inc., Jacksonville, Florida, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)3

---

[1] All banking data are as of June 30, 1973 and reflect bank holding company formations and acquisitions approved by the Board through April 30, 1974; however, data does not reflect Board approval on May 13, 1974 of Applicant's acquisition of Southeast National Bank of North Dade, Dade County, Florida, a proposed new bank.

[2] The Jacksonville banking market is approximated by Duval County and the city of Orange Park in Clay County.

[3] Voting for this action: Chairman Burns and Governors Sheehan, Holland and Wallich. Absent and not voting: Governors Mitchell, Brimmer and Bucher.

of the Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of Southern National Bank of Palm Beach County, Lake Worth, Florida, a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the second largest bank holding company in Florida, controls 56 banks with aggregate deposits of $1.8 billion, representing 8.6 percent of total deposits of commercial banks in the State.[1] Since Bank is a proposed new bank, consummation of the proposal would not immediately increase Applicant's share of Statewide deposits.

Bank is to be located in the city of Lake Worth in the West Palm Beach banking market. Applicant presently controls four banking subsidiaries in the West Palm Beach banking market, and ranks as the sixth largest banking organization, controling 7.5 percent of the market deposits. The largest banking organization in the market (a multibank holding company) controls approximately 20 percent of the area's commercial bank deposits. Since Bank is a proposed new bank, consummation of the proposal would not eliminate any existing competition between Applicant and Bank nor would it result in an increase in the concentration of banking resources in the market. Furthermore, it does not appear that any significant potential competition would be foreclosed as a result of the consummation of the proposal. Applicant does not occupy a dominant position in the market, and it does not appear that the present proposal would raise significant barriers to entry for other organizations not presently in the market. Nor does it appear from the record that Applicant's proposal is an attempt to preempt a site before there is a need for a bank. Accordingly, on the basis of the record before it, the Board concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources and prospects of Applicant, its subsidiary banks, and Bank are regarded as generally satisfactory, particularly in view of Applicant's commitments to inject capital into certain of its subsidiaries. Thus, considerations relating to banking factors are consistent with approval. Considerations relating to the convenience and needs of the community to be served lend some weight toward approval since Bank would serve as an alternative source of full banking services to residents of the area. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before June 28, 1974 or (b) later than three months after that date, and (c) Southern National Bank of Palm Beach County, Lake Worth, Florida, shall be opened for business not later than six months after the effective date of this Order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[2] effective May 29, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.74-12953 Filed 6-5-74;8:45 am]

DUNMIRE AGENCY, INC.

Acquisition of Additional Shares of Bank

The Dunmire Agency, Inc., Spring Hill, Kansas, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire an additional 10 shares or 1 percent of the voting shares of The State Bank of Spring Hill, Spring Hill, Kansas ("Bank"), thereby increasing Applicant's ownership to 50.4 percent of the voting shares of Bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than June 26, 1974.

Board of Governors of the Federal Reserve System, May 28, 1974.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.74-12958 Filed 6-5-74;8:45 am]

FIRST VIRGINIA BANKSHARES CORP.

Order Approving Acquisition of Bank

First Virginia Bankshares Corporation, Falls Church, Virginia, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to The Peoples National Bank of Rocky Mount, Rocky Mount, Virginia ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the shares of Bank. Accordingly, the proposed acquisition of the shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing all comments and views has expired. The Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the sixth largest banking organization in Virginia, controls 23 banks with aggregate deposits of approximately $761 million, representing 6.7 percent of the total commercial bank deposits in the State.[1] Acquisition of Bank (deposits of $30.6 million) would increase Applicant's share of deposits in Virginia by approximately 0.3 of one percentage point and would not significantly increase the concentration of banking resources within the State.

Bank, with 47 percent of the total market deposits, operates two offices in the town of Rocky Mount and is the largest of four commercial banks in Franklin County, which approximates the relevant market. Although the largest bank in the market, Bank's growth during the past 10 years has been at a slower rate than any of its competitors, and it appears likely that Bank will face increased competition in the future from two new banks in the county. Applicant has no subsidiary in the relevant market and its nearest subsidiary bank is approximately 25 miles north of Bank. There is no significant existing competition between Applicant and Bank, nor is there any reasonable probability of substantial competition developing in the future between them. On the basis of the record, it appears that consummation of the proposed acquisition would have no significant adverse effects upon existing or potential competition within the market.

Considerations relating to the financial and managerial resources and future prospects of Applicant and its subsidiaries are regarded as satisfactory and consistent with approval of the application. The same conclusions apply with respect to Bank, particularly in view of Applicant's ability to provide Bank with additional management depth. Although there is no evidence in the record to indicate that the major banking needs of the community to be served are not presently being met, affiliation with Applicant would enable Bank to expand its services to include trust and credit card services and larger loans through participations. These considerations relating to the convenience and needs of the community to be served are consistent with, and lend some weight toward, approval

---

[1] All banking data are as of June 30, 1973, and reflect bank holding company formations and acquisitions approved through April 30, 1974.

[2] Voting for this action: Chairman Burns and Governors Sheehan, Holland, and Wallich. Absent and not voting: Governors Mitchell, Brimmer, and Bucher.

Assistant Secretary of the Board.

[FR Doc.74-12956 Filed 6-5-74;8:45 am]

PATAGONIA CORP.

Proposed Acquisition of General Finance, Ltd.

Patagonia Corporation, Tucson, Arizona, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire through its wholly-owned subsidiary, Model Finance Company, Tucson, Arizona, all of the voting shares of General Finance, Ltd., Council Bluffs, Iowa (formerly known as Iowa Loans, Inc.). Notice of the application was published on April 12, 1974, in the Council Bluffs Nonpareil, a newspaper circulated in Council Bluffs, Iowa.

Applicant states that the proposed subsidiary would engage in the activities of a consumer finance company by making personal loans primarily to wage earners, purchasing consumer installment sales finance contracts, and acting as agent in the sale to its debtors of credit life, accident and health insurance which is directly related to extensions of credit to those debtors. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 27, 1974.

Board of Governors of the Federal Reserve System, May 29, 1974.

Assistant Secretary of the Board.

[FR Doc.74-12957 Filed 6-5-74;8:45 am]

REPUBLIC NEW YORK CORP. ET AL.

Order Approving Formation of Bank Holding Companies and Merger of Bank Holding Companies

Republic New York Corporation, New York, New York ("RNYC"), has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act ("Act") (12 U.S.C. 1842(a)(I)) of formation of a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of Republic Bank, National Association, New York, New York ("Bank"), the resulting bank from the proposed merger of Republic National Bank of New York ("RNB") and Kings Lafayette Bank ("KLB"), New York, New York. To facilitate the merger of RNB and KLB, RNYC has also applied for the Board's approval under section 3(a)(5) of the Act (12 U.S.C. 1842(a)(5)) to merge with Kings Lafayette Corporation, New York, New York ("KLC"), KLB's present parent holding company.

At the same time, Safrabank S.A., Panama City, Panama ("SB") and its subsidiaries Trade Development Bank Holding S.A., Luxembourg, Luxembourg ("TDRH") and Trade Development Bank, Geneva, Switzerland ("TDB"), which are presently foreign bank holding companies by virtue of their direct and indirect ownership of shares of Republic National Bank of New York, have applied for the Board's approval under section 3(a)(1) of the Act to become bank holding companies through the acquisition, directly and indirectly, of approximately 40 percent of the voting shares of RNYC. In addition, TDBH and SB have also applied to acquire, directly and indirectly, an additional 19 percent of the shares of RNYC. SB has applied for the Board's approval to acquire an additional 3 percent of the shares of TDBH.

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

RNYC is a recently-organized corporation formed for the purpose of becoming a bank holding company with respect to Bank. The acquisition of Bank by RNYC, the merger of KLC with RNYC, and the formation of SB, TDBH and TDB as bank holding companies, are part of a plan of reorganization whereby the ownership of KLC and RNB is being restructured by the principal owner of such corporations. Although the Board has separately considered each of the aforementioned applications, due to the similarity of the issues, all such applications will be considered in a single Board order.

RNB, with domestic deposits of approximately $360 million is the 23rd largest of 112 banking organizations[1] located in the Metropolitan New York banking market[2] and controls 0.3 percentage points of the total deposits in commercial banks in the market. RNB is a wholesale bank, has no domestic branches, and is engaged primarily in international banking. Approximately 50 percent of RNB's deposits and over 60 percent of its loans are derived from its foreign accounts. KLB, KLC's subsidiary bank, has deposits of $195 million, and, with approximately 0.3 percentage points of total deposits in commercial banks in the Metropolitan New York banking market, ranks as the 28th largest banking organization therein. KLB, with 18 domestic branch offices, is primarily a retail-oriented bank.

---

[2] Voting for this action: Chairman Burns and Governors Sheehan, Holland, and Wallich. Absent and not voting: Governors Mitchell, Brimmer, and Bucher.

[1] Data with respect to market rank are as of June 30, 1972; deposit data are as of December 31, 1973.

[2] The Metropolitan New York market is defined as the five boroughs of New York City, Nassau, Westchester, Putnam, and Rockland Counties, a portion of Suffolk County in New York, portions of Bergen and Hudson Counties in New Jersey, and a portion of Fairfield County in Connecticut.

Upon consummation of the proposed merger of KLC with RNYC, RNYC would control domestic deposits of about $555 million and would rank as the 15th largest banking organization in the relevant market, controlling approximately 0.6 percentage points of total deposits therein. Due to the differing characteristics of the banking business of RNB and KLC, it does not appear that any significant existing competition would be eliminated upon the merger of RNYC with KLC. Although RNYC has the resources to expand its retail operations and establish additional banking offices in the market, the amount of competition that would develop in the future between RNYC and KLC would not be significant in the context of the Metropolitan New York market. Furthermore, the principal owner of RNB is also the principal owner of KLC and it is unlikely that significant competition would develop between the two institutions. Accordingly, the Board finds that consummation of the proposed merger between RNYC and KLC would not have any significant adverse effect on existing or potential competition. On the same basis, the Board concludes that the acquisition of Bank by RNYC would not have any significant adverse effect on existing or potential competition.

The formation of SB, TDBH and TDB as bank holding companies through acquisition of shares of RNYC results from the present ownership by such foreign bank holding companies of RNB shares. As a result of the organization of RNYC and incident to the merger of RNYC and KLC, SB, TDBH and TDB would own, directly and indirectly, approximately 40 percent of the outstanding voting shares of of RNYC and thereby become foreign bank holding companies with respect to Bank. TDBH and SB also propose to acquire, directly and indirectly, an additional 19 percent of the shares of RNYC. Further, SB plans to acquire an additional 3 percent of TDBH. On the basis of the Board's analysis of the formation of RNYC and the merger of RNYC with KLC, and in light of the fact that the indirect acquisition by SB, TDBH, and TDB of shares of Bank is incident to a restructuring of the ownership of such institutions by their principal owner, it is the Board's judgment that the direct and indirect acquisition of approximately 59 percent of the shares of RNYC by SB and TDBH, and the acquisition of approximately 40 percent of the shares of RNYC by TDB would not have any significant adverse effects on either existing or potential competition.

The financial and managerial resources and future prospects of RNYC, which are largely dependent on those of Bank, appear favorable. The financial and managerial resources and future prospects of SB, TDBH and TDB also appear satisfactory. Consequently, banking factors are consistent with approval of the applications. Although it appears that the banking needs of the community to be served are being adequately met at present, upon consummation of the proposal RNYC would be able to offer international banking services through offices of KLB which do not currently offer such services. Accordingly, considerations relating to the convenience and needs lend some weight toward approval of the applications. It is the Board's judgment that consummation of the proposals would be in the public interest and that the applications should be approved.

On the basis of the record, the applications are approved for the reasons summarized above. The transactions shall not be made (a) before June 28, 1974 or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors,[3] effective May 29, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

INTERIM COMPLIANCE PANEL (COAL MINE HEALTH AND SAFETY)

LOIS COAL CO. AND MAGGARD COAL CO.

Applications for Renewal Permits, Electric Face Equipment Standard; Opportunity for Public Hearing

Applications for Renewal Permits for Noncompliance with the Electric Face Equipment Standard prescribed by the Federal Coal Mine Health and Safety Act of 1969 have been received for items of equipment in underground coal mines as follows:

(1) ICP DOCKET NO. 4176-000, LOIS COAL COMPANY, Mine No. 1, Mine ID No. 44 03482 0, Grundy, Virginia. ICP Permit No. 4176-001 (Stacy's Spinner Loading Machine, Serial No. 206), ICP Permit No. 4176-004 (Royal Cutting Machine, Serial No. 63), ICP Permit No. 4176-005 (Bailey's Battery Powered Tractor, Serial No. 78).

(2) ICP DOCKET NO. 4208-000, MAGGARD COAL COMPANY, Mine No. 18, Mine ID No. 44 01815 0, Richlands, Virginia. ICP Permit No. 4208-003 (S & S 100 Battery Tractor, Serial No. A 1964), ICP Permit No. 4208-008 (S & S 90 Battery Tractor, Serial No. A 1965).

In accordance with the provisions of § 504.7(b) of Title 30, Code of Federal Regulations, notice is hereby given that requests for public hearing as to an application for a renewal permit may be filed on or before June 21, 1974. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (35 FR 11296, July 15, 1970), as amended, copies of which may be obtained from the Panel upon request.

A copy of each application is available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1730 K Street NW., Washington, D.C. 20006.

GEORGE A. HORNBECK,
Chairman,
Interim Compliance Panel.

NATIONAL ENDOWMENT FOR THE HUMANITIES

PUBLIC PROGRAMS PANEL

Notice of Meeting

MAY 31, 1974.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463) notice is hereby given that a meeting of the Public Programs Panel will meet at Washington, D.C. on June 13, and 14, 1974.

The purpose of the meeting is to review Humanities Program Grant proposals and Development Grant proposals have been submitted to the Endowment for possible grant funding.

Because the proposed meeting will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwar-

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on May 31, 1974 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202–395–4529).

SECURITIES AND EXCHANGE COMMISSION

AMERICAN NATURAL GAS COMPANY, ET AL.

[70–5508]

Notice of Proposed Issue and Sale of Notes to Division of Bank by Holding Company and Relending of Proceeds to Subsidiary Companies

Notice is hereby given that American Natural Gas Company ("American Natural"), 30 Rockefeller Plaza, Suite 4545, New York, New York 10020, a registered holding company, and its subsidiary companies, Michigan Consolidated Gas Company ("Michigan Consolidated") and Michigan Wisconsin Pipe Line Company ("Michigan Wisconsin"), have filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6, 7, 9, 10, and 12(b) of the Act and Rule 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to said amended application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Pursuant to the Commission's orders dated May 18, 1970, and December 22, 1972 (HCAR Nos. 16727 and 17822), American Natural was authorized to issue and sell its notes, from time to time until July 1, 1974, up to a maximum of $40,000,000 to the Institutional Investment Division of First National City Bank, New York, N.Y. ("Investment Division"). American Natural is herein seeking continuation of that authorization, which is described below, until January 1, 1976.

Investment Division administers, as Trustee, pension and other funds of many corporations. It is stated that Investment Division has a continuous flow of funds from its internal operations and follows a practice of pooling these funds for loans to various corporations through its nominee, Kink & Co. The interest rate on the proposed notes will be equivalent to the highest rate paid daily by General Motors Acceptance Corporation on its commercial paper with a maturity of 30 to 180 days. American Natural will be notified by Investment Division of any change in the interest rate. The notes issued from July 1 to December 31 will mature January 1 of the following year, and those issued

from January 1 to June 30 will mature July 1 of the same year. Investment Division will have the right, however, to demand payment at any time of all or any part of the principal of the loan or loans outstanding. American Natural will have the right to prepay the notes at any time without penalty.

American Natural proposes to relend the funds obtained from Investment Division to Michigan Wisconsin and Michigan Consolidated on the same terms, conditions, and maturities as those pertaining to the funds borrowed by it. Such funds will be made available first to Michigan Wisconsin, and any available balance (within the $40,000,000 aggregate maximum) will be loaned to Michigan Consolidated. While American Natural anticipates that borrowings from the Investment Division will be available on a continuing basis, when repayment is required of all or a portion of the funds borrowed by it, the two subsidiary companies, in turn, will make repayments to American Natural, approximately pro rata, to the extent repayment is requested by Investment Division. When Investment Division again has funds available, American Natural will borrow the amounts tendered and relend them to its subsidiary companies.

It is stated that under the type of arrangement described above, the subsidiaries have been able to obtain funds at a lower cost than on borrowings from banks under lines of credit. As an example, during 1973, the interest rate from Investment Division ranged from a low of 5.66 percent to a high of 9.65 percent, compared with a range in the prime rate at First National City Bank from a low of 6 percent to a high of 10 percent.

In order to assure the availability of funds to make any required repayments to American Natural under the above arrangement, Michigan Wisconsin has obtained a $20,000,000 line of credit from the Commercial Division of First National City Bank until December 31, 1975. Any borrowings thereunder evidenced by notes will bear interest at the prevailing prime rate of First National City Bank and will mature no later than December 31, 1975. Interest is payable every 90 days, and the notes may be prepaid at any time without penalty. In connection with this line of credit, Michigan Wisconsin is required to maintain compensating balances with First National City Bank. Translated into terms of American Natural's cost of borrowing from Investment Division, these compensating balances would have the effect of increasing such cost of borrowing by approximately three-fourths of 1 percent.

American Natural requests authority to file certificates of notification required under rule 24 with respect to the proposed transactions on a quarterly basis.

The fees and expenses to be incurred in connection with the proposed transactions are estimated at $3,500, including counsel fees of $500. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than June 25, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaraton, as amended or as it may be further amended, may be granted and permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

METROPOLITAN EDISON CO.

Notice of Proposed Sale of Utility Assets

Notice is hereby given that Metropolitan Edison Company ("Met Ed"), 2800 Pottsville Pike, Muhlenberg Township, Berks County, Pennsylvania 19605, an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, has filed a declaration with this Commission designating section 12(d) of the Public Utility Holding Company Act of 1935 ("Act") and rule 44 promulgated there-

V 39 — 110 JUN 6 74 XUM

under as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Met Ed presently provides electricity to the Steelton, Pennsylvania plant of Bethlehem Steel Corporation ("Bethlehem"). Bethlehem has notified Met Ed that it wishes to be served in the future by Pennsylvania Power & Light Company ("PP&L"), a non-associated electric utility company.

In order that PP&L may take over said service to Bethlehem, it is proposed that Met Ed sell PP&L one 230 KV transmission line and appurtenances thereto and lease to PP&L portions of two 69 KV transmission lines and appurtenances thereto. These lines are necessary for PP&L to provide electric service to Bethlehem's Steelton plant. It is further proposed that Met Ed sell to Bethlehem the 230 KV Steelton substation (including supervisory equipment situated therein) and a section of 69 KV tie line running from Steelton substation to Bethlehem's substation. The consideration to be paid for all such lines and other property shall be the properties' original cost, less depreciation, computed at the settlement date of the sale.

Upon termination of the lease of the portions of the two 69 KV transmission lines, Met-Ed will transfer to Bethlehem those portions of such lines as are located on Bethlehem's property and will transfer to PP&L certain other portions of such lines. Met-Ed will dismantle and remove the portions of such 69 KV lines not so transferred and will construct a tie-line connecting the remnants of the two transmission lines retained by Met-Ed. Bethlehem will reimburse Met-Ed for the original cost, less depreciation, computed at the termination date of the lease, of the portions of the two lines which had been so leased, the removal cost, less salvage, of the portions of the two lines which are to be dismantled, and the cost of construction of the new tie-line.

Fees and expenses to be incurred in connection with the proposed transactions are estimated at $13,000, including legal fees of $10,500. The declaration states that the Pennsylvania Public Utility Commission has jurisdiction with respect to the proposed sale of property to Bethlehem. It is stated that the Federal Power Commission has jurisdiction over the acquisition by PP&L of the property to be purchased from Met-Ed, and that no other state or federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than June 24, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective pursuant to Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

AUERBACH SHOE CO.

Investigation of Workers Petition for Determination

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the former workers of the Brunswick, Maine, and Rollinsford, New Hampshire, plants of the Auerbach Shoe Co., Boston, Massachusetts, the United States Tariff Commission, on May 31, 1974, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for women (of the types provided for in items 700.45-.55 (except 700.52) of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed on or before June 17, 1974.

The petition filed in this case is available for inspection at the Office of the Secretary, United States Tariff Commission, 8th and E Streets, NW., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

By order of the Commission.

Issued: June 3, 1974.

[SEAL] KENNETH R. MASON,
Secretary.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[V-74-32]

McQUAY-PERFEX, INC.

Notice of Application for Variance and Interim Order; Grant of Interim Order

I. *Notice of application.* Notice is hereby given that McQuay-Perfex, Inc., Perfex Division, Berlin Plants, 242 South Pearl Street, Berlin, Wisconsin 54923 has made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655), and 29 CFR 1905.11 for a variance, and interim order pending a decision on the application for a variance, from the standards prescribed in 29 CFR 1910.212(a)(3)(ii) Machine guarding—Point of operation guarding.

The address of the place of employment that will be affected by the application is as follows:

McQuay-Perfex, Inc.
Perfex Division
Berlin Plants
242 South Pearl Street
Berlin, Wisconsin 54923

The applicant certifies that employees who would be affected by the variance have been notified of the application by giving a copy of it to their authorized employee representative, and by posting a copy at all places where notices to employees are normally posted. Employees have also been informed of their right to petition the Assistant Secretary for a hearing.

Regarding the merits of the application, the applicant contends that it is unable to comply with the specifications of 29 CFR 1910.212(a)(3)(ii) which, in part, requires that the point of operation of machines whose operation exposes an employee to injury shall be guarded. It states that there is no specific standard for such guards and that it is providing a place of employment as safe as that required by 29 CFR 1910.212(a)(3)(ii).

The applicant's operation in question concerns roll forming cylindrical steel shells on pyramid forming rolls. The applicant states that all powered movements of Pyramid Roll #157 are controlled by one shielded "deadman" switch, that the operator must have his hand on this switch in order for machine movement to occur and that movement stops abruptly once the switch is released. The combination of the switch, abrupt cessation of motion and a newly expanded metal barrier prevent the operator from placing any portion of his body in the danger zone during machine movement.

The applicant further contends that on Roll #159 the location of the two shielded "deadman" foot pedals for end clamp operation and the shielded "deadman" foot pedal which controls all other machine movement, in conjunction with a solenoid operated brake, prevent the operator from entering the danger zone during machine movement. The solenoid operated brake abruptly stops the roll upon release of the "deadman" switch.

The applicant contends that the operator of either roll has good visibility of the entire area of the machine either directly or via a mirror and has no need to move about. Also, defeating any of the switches would render them inoperative or prevent the operator from performing his job. The operations performed by these machines require only one individual. However, stock which necessitates the aid of a helper for proper positioning can be inserted with the power off. As a further precaution, pedestrian traffic within three feet of the base of Pyramid Rolls #157 and 159 is prohibited and markings to indicate this restriction have been provided.

The applicant states that it will employ feasible point of operation guards if they are developed and become available.

A copy of the application will be made available for inspection and copying upon request at the Office of Compliance Programming, U.S. Department of Labor, 1726 M Street, NW., Room 210, Washington, D.C. 20210, and at the following Regional and Area Offices:

U.S. Department of Labor
Occupational Safety and Health Administration

Milwaukee, Wisconsin 53203

All interested persons, including employers and employees, who believe they would be affected by the grant or denial of the application for a variance are invited to submit written data, views, and arguments relating to the pertinent application no later than July 8, 1974. In addition, employers and employees who believe they would be affected by a grant or denial of the variance may request a hearing on the application no later than July 8, 1974, in conformity with the requirements of 29 CFR 1905.15. Submission of written comments and requests for a hearing should be in quadruplicate, and must be addressed to the Office of Compliance Programming at the above address.

II. *Interim order.* It appears from the application for a variance and interim order, that an interim order is necessary to prevent undue hardship to the applicant pending a decision on the variance. Therefore, it is ordered, pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, and 29 CFR 1905.11(c) that McQuay-Perfex, Inc., Perfex Division, Berlin Plants, be, and it is hereby, authorized to operate Pyramid Rolls #157 and 159 provided the switches, guards and other safety devices and procedures herein stated are utilized in lieu of the point of operation guarding required by 29 CFR 1910.212(a)(3)(ii).

McQuay-Perfex, Inc., Perfex Division, Berlin Plants shall give notice of this interim order to employees affected thereby, by the same means required to be used to inform them of the application for a variance.

Effective date. This interim order shall be effective as of June 6, 1974, and shall remain in effect until a decision is rendered on the application for variance.

Signed at Washington, D.C., this 31st day of May 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.74-12988 Filed 6-5-74;8:45 am]

[V-73-26]

GTE SYLVANIA, INC.

Grant of Variance

I. *Background.* GTE Sylvania, Inc., Hawes Street, Towanda, Pennsylvania 18848 made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655) and 29 CFR 1905.11 for a variance from the safety standards prescribed in 29 CFR 1910.157(a)(5) concerning the mounting of fire extinguishers. Facilities affected by this application are:

GTE Sylvania, Inc.
Chemical & Metallurgical Div.
Hawes Street
Towanda, Pennsylvania 18848

Hydramet Company
Caro, Michigan 48723

Walmet Company
404 East Ten Mile Road
Pleasant Ridge, Michigan 48069

Western Gold & Platinum Company
555 Harbor Boulevard
Belmont, California 94022

Notice of the application was published in the FEDERAL REGISTER on October 12, 1973 (38 FR 28333). The notice invited interested persons, including affected employers and employees, to submit written data, views, and arguments regarding the grant or denial of the variance requested. In addition, affected employers and employees were notified of their right to request a hearing on the application for a variance. No comments and no request for a hearing have been received.

II. *Facts.* Approximately 15 percent of the applicant's portable fire extinguishers are located in administrative areas. These fire extinguishers stand in holders on the floor rather than being hung on the wall. The holder for a 15 pound CO_2 extinguisher has a steel base plate 14'' x 14'' x ¼'' upon which is welded a cylinder approximately 7⅜'' diameter x 8'' x 1/16''. The holder weighs approximately 18 pounds and is not attached to the floor. A continuous force of 16 pounds applied near the top of the extinguisher is required to topple a 15-pound CO_2 extinguisher having a gross weight of 40 pounds. The critical angle for falling is approximately 53°.

The remaining 85 percent of the applicant's extinguishers are in the production areas, and are stored or mounted in accordance with 29 CFR 1910.157(a)(5).

III. *Decision.* 29 CFR 1910.157(a)(5) requires that fire extinguishers be installed on the hangers or brackets supplied, mounted in cabinets, or set on shelves unless the extinguishers are of the wheeled type. This is intended to protect the extinguishers from being accidentally knocked over and discharging.

The holders which the applicant is using weigh 18 pounds and have a 14'' square base plate, thereby providing a low center of gravity. The 8'' height of the cylinders prevents the extinguisher from being knocked out of the holder. The force necessary to tip the extinguisher to the critical angle for falling (approximately 53°) is 16 pounds applied

V39—110 JUN 6 74
XUM

near the top of the extinguisher. These holders will be used only for fire extinguishers in the administrative areas where they are not subject to bumping by trucks and other equipment.

For these reasons it is very unlikely that the extinguishers would be tipped over. In addition, the use of portable holders makes it possible to locate the extinguishers in areas with easy access but little likelihood of bumping the extinguishers. Therefore, the mountings which the applicant is using provide a place of employment as safe as that which would be obtained by using the mountings described in 29 CFR 1910.157(a)(5).

IV. *Order.* Pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, and in Secretary of Labor's Order No. 12–71 (36 FR 8754), it is ordered that GTE Sylvania, Inc., at its locations listed above, be, and it is hereby, authorized to set portable fire extinguishers used in administrative areas in 18 pound holders set on the floor with a 14'' x 14'' x $\frac{1}{4}$'' base plate upon which is welded a 7$\frac{3}{8}$'' x 8'' x $\frac{1}{16}$'' cylinder, in lieu of using the mountings required by 29 CFR 1910.157(a)(5). In production areas, fire extinguishers shall be mounted in accordance with 29 CFR 1910.157(a)(5).

As soon as possible GTE Sylvania, Inc. shall give notice to affected employees of the terms of this order by the same means required to be used to inform them of the application for variance.

Effective date. This order shall become effective on June 6, 1974, and shall remain in effect until modified or revoked in accordance with section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970.

Signed at Washington, D.C. this 31st day of May 1974.

JOHN STENDER,
Assistant Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice 44]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

MAY 31, 1974.

The following applications (except as otherwise specifically noted, each applicant, on applications filed after March 27, 1972, states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by special rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 200 (Sub-No. 265), filed April 22, 1974. Applicant: RISS INTERNATIONAL CORPORATION, 903 Grand Avenue, Kansas City, Mo. 64142. Applicant's representative: Ivan E. Moody (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products, and articles distributed by meat packinghouses* (except hides, and commodities in bulk, in tank vehicles), as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates,* 61 M.C.C. 209 and 766, from the plantsite of and storage facilities utilized by American Beef Packers, Inc., at or near Cactus (Moore County), Tex., to points in Maryland, District of Columbia, Illinois, Delaware, New Jersey, New York, Indiana, Pennsylvania, Connecticut, Rhode Island, Massachusetts, and Ohio, restricted to traffic originating at, and destined to the named points.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Kansas City, Mo.

No. MC 2900 (Sub-No. 259), filed May 3, 1974. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, Jacksonville, Fla. 32209. Applicant's representative: S. E. Somers, Jr. (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, commodities in bulk, household goods as defined by the Commission, and those requiring special equipment): (1) Serving the plantsite and warehouse facilities of Fisher-Price Toys, at or near Murray, Ky., as an off-route point in connection with carrier's authorized regular route operations. (2) Serving the Russell Schmidt Industrial Park, at or near Mt. Clemens, Mich., as an off-route point in connection with carrier's authorized regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 2900 (Sub-No. 260), filed May 2, 1974. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, Jacksonville, Fla. 32209. Applicant's representative: S. E. Somers, Jr. (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities* (except Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities of unusual value, and those requiring special equipment): Serving the Valley Tow-Rite plantsite at or near Shelbyville, Ky., as an off-route point in connection with carrier's authorized regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Louisville, Ky.

No. MC 8958 (Sub-No. 27) (Correction), filed April 15, 1974, published in FEDERAL REGISTER issue of May 23, 1974, as No. MC–8959 (Sub-No. 27), and republished as corrected this issue. Applicant: THE YOUNGSTOWN CARTAGE, a Corporation, 825 West Federal Street, Youngstown, Ohio 44501. Applicant's representative: John P. McMahon, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: (A) *Iron and steel and iron and steel articles,* from the plantsite of Carpenter Technology Corporation at Reading, Pa., to points in Michigan, Indiana, and Illinois, and (B) *damaged and returned shipments of the above described commodities,* from Michigan, Indiana, and Illinois, to the plantsite and facilities of Carpenter Technology Corporation at Reading, Pa., restricted to traffic originating at and destined to the named origins and destination points.

NOTE.—The purpose of this republication is to indicate the correct Docket number assigned to this proceeding as MC–8958 (Sub-No. 27). If a hearing is deemed necessary, the applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 9269 (Sub-No. 18), filed April 16, 1974. Applicant: BEST WAY MOTOR FREIGHT, INC., 1765 Sixth Avenue South, Seattle, Wash. 98134. Applicant's representative: William J. Dahl (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B Explosives, household goods as defined by the Commission, Commodities in bulk, and those requiring special equipment), serving points within 15 miles of Spokane, Wash., as intermediate and off-route points in connection with carrier's authorized regular route operation.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Spokane or Seattle, Wash.

No. MC 10761 (Sub-No. 265), filed April 30, 1974. Applicant: TRANS-AMERICAN FREIGHT LINES, INC., 5650 Foremost Drive SE., Grand Rapids, Mich. 49506. Applicant's representative: A. David Millner, 744 Broad Street, Newark, N.J. 07102. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products, and articles distributed by meat packinghouses,* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates,* 61 M.C.C. 209 and 766 (except hides, and commodities in bulk, in tank vehicles), from the plantsite of and storage facilities utilized by American Beef Packers, Inc., at or near Cactus (Moore Count), Tex., to points in North Carolina, South Carolina, Michigan, Ohio, Connecticut, Rhode Island, Vermont, New Hampshire, Massachusetts, Maine, Pennsylvania, New Jersey, and New York, restricted to traffic originating at, and destined to, the named points. If a hearing is deemed necessary, applicant requests it be held in Omaha, Nebr.

No. MC 20992 (Sub-No. 30) (Correction), filed April 5, 1974, published in the FEDERAL REGISTER issue of May 16, 1974, and republished as corrected this issue. Applicant: DOTSETH TRUCK LINE, INC., Knapp, Wis. 54749. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: (1) *Vegetable harvesting and handling equipment* (except commodities in bulk, and those which by reason of size or weight require the use of special equipment), from Clear Lake, Wis., to points in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, District of Columbia, Florida, Georgia, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, Oklahoma, New Hampshire, New Mexico, North Carolina, North Dakota, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming; and (2) *materials, equipment, and supplies* used in the manufacturing, production, and distribution of vegetable harvesting and handling equipment (except commodities in bulk and those which by reason of size or weight require the use of special equipment), from points in the above-named destination states to Clear Lake, Wis.; (1) and (2) above, restricted to traffic originating at or destined to Clear Lake, Wis.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant request it be held at Minneapolis, Minn., or Chicago, Ill. The purpose of this republication is to correct the destination points named in (1) above, which were previously published in error.

No. MC 29120 (Sub-No. 180), filed April 26, 1974. Applicant: ALL-AMERICAN, INC., 900 West Delaware (P.O. Box 769), Sioux Falls, S. Dak. 57101. Applicant's representative: Michael J. Ogborn (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Toledo, Ohio, and Des Moines, Iowa: From Toledo, Ohio, over Interstate Highway 80 to Des Moines, Iowa, and return over the same route, as an alternate route for operating convenience only, in connection with carrier's authorized regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Toledo, Ohio.

No. MC 30844 (Sub-No. 505), filed April 22, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, Waterloo, Iowa 50702. Applicant's representative: Larry Strickler (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Such articles,* as are dealt in by retail department stores, from Bayonne, N.J., to Detroit, Southfield, South Gate, Roseville, and Madison Heights, Mich., and St. Louis, Mo.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 31389 (Sub-No. 181), filed April 29, 1974. Applicant: McLEAN TRUCKING COMPANY, a Corporation, 617 Waughtown Street, Winston-Salem, N.C. 27107. Applicant's representative: David F. Eshelman, P.O. Box 213, Winston-Salem, N.C. 27102. Authority sought to operate as a *common carrier,* by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission; commodities in bulk and those requiring special equipment), serving the plantsite of Kennametal, Inc., at Slippery Rock, Pa., as an off-route point in connection with carrier's authorized regular route operations to and from Pittsburgh and West Middlesex, Pa.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa., or Washington, D.C.

No. MC 41406 (Sub-No. 40), filed April 18, 1974. Applicant: ARTIM TRANSPORTATION SYSTEM, INC., 7105 Kennedy Avenue, P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: Walter F. Jones, Jr., 601 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Iron and steel articles,* between Ashland, Ky., Butler, Pa., and Middletown, Ohio, on the one hand, and, on the other, points in Indiana, Illinois, Iowa, Missouri, Wisconsin, Nebraska, on and east of U.S. Highway 81, Kansas, on and east of U.S. Highway 81, and that portion of Minnesota bounded on the south by the Minnesota-Iowa State Boundary Line, on the west by Minnesota Highway 15, on the north by Minnesota Highway 95, and on the east by the Minnesota-Wisconsin State Boundary Line including points on the designated highways (except from Middletown, Ohio, to Indiana, Illinois, and St. Louis, Mo.).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C., Indianapolis, Ind., or Chicago, Ill.

No. MC 51146 (Sub-No. 375), filed April 22, 1974. Applicant: SCHNEIDER TRANSPORT, INC., 2661 S. Broadway, Green Bay, Wis. 54304. Applicant's representative: Neil DuJardin (same address as applicant). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Refined copper and materials and supplies* used in the manufacture and distribution of refined copper, and *metal* of extraordinary, between the facilities of the American Smelting and Refining Co., located on Texas Highway 136 near Amarillo, Tex., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

V 39 — 110 — JUN 6 74 XUM

Note.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Dallas, Tex., or Chicago, Ill.

No. MC 52657 (Sub-No. 716), filed April 22, 1974. Applicant: ARCO AUTO CARRIERS, INC., 2140 West 79th Street, Chicago, Ill. 60620. Applicant's representative: A. J. Bieberstein, 121 West Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Motor vehicles* (except automobiles, trucks, and trailers), in initial movements, in truckaway service, from La Verne, Calif., to points in the United States (except Alaska, Arizona, California, Hawaii, Idaho, Nevada, Oregon, Utah, and Washington), (2) *motor vehicles* (except automobiles, trucks, and trailers), in secondary movements in truckaway service, from points in the United States (except from Alaska, Arizona, California, Hawaii, Idaho, Nevada, Oregon, Utah, and Washington), to La Verne, Calif.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 53965 (Sub-No. 95), filed April 29, 1974. Applicant: GRAVES TRUCK LINE, INC., 2130 South Ohio, Salina, Kans. 67401. Applicant's representative: Clyde N. Christey, 641 Harrison, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), (1) between Denver, Colo., and Pueblo, Colo.: From Denver over Interstate Highway 25 to Pueblo, and return over the same route, serving all intermediate points; and (2) between Denver, Colo., and Eads, Colo.: From Denver over U.S. Highway 40 to Kit Carson, thence over U.S. Hgihway 287 to Eads, and return over the same route, serving no intermediate points.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Denver, Colo.

No. MC 55896 (Sub-No. 45), filed May 2, 1974. Applicant: R-W SERVICE SYSTEM, INC., 20225 Goddard Road, Taylor, Mich. 48180. Applicant's representative: W. E. Richter (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) from points in Indiana (except those in the Chicago, Illinois, Commercial Zone), Michigan, and Ohio, on the one hand, and, on the other, the plant facilities and warehouses of American Motors Corporation, located at or near Kenosha and Racine, Wis.; and (2) *refused, rejected, and returned shipments*, from the plant facilities and warehouses of American Motors Corporation, at or near Kenosha and Racine, Wis., to the origins described in (1) above.

Note.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 56679 (Sub-No. 79), filed April 19, 1974. Applicant: BROWN TRANSPORT CORP., 125 Milton Avenue SE., Atlanta, Ga. 30315. Applicant's representative: John P. Carlton, 903 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural chemicals*, other than in bulk, from the plantsite and warehouse facilities of Monsanto Company located at or near Muscatine, Iowa, to points in Alabama, Florida, Georgia, North Carolina, South Carolina, and Tennessee.

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Des Moines, Iowa.

No. MC 59367 (Sub-No. 93), filed April 26, 1974. Applicant; DECKER TRUCK LINE, INC., P.O. Box 915, Fort Dodge, Iowa 50501. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Candy and confectionery*, from Carol Stream, Ill., to points in Iowa and Nebraska.

Note.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 61440 (Sub-No. 141), filed April 25, 1974. Applicant: LEE WAY MOTOR FREIGHT, INC., 3000 West Reno, Oklahoma City, Okla. 73108. Applicant's representative: Richard H. Champlin, P.O. Box 82488, Oklahoma City, Okla. 73108. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, livestock, household goods as defined by the Commission, commodities in bulk, commodilites requiring special equipment), serving the plant site of Colt Industries, Inc., at or near Sallisaw, Okla., as an off-route point in connection with carrier's authorized regular route operations.

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla., or Washington, D.C.

No. MC 71478 (Sub-No. 33), filed April 25, 1974. Applicant: THE CHIEF FREIGHT LINES COMPANY, a Corporation, 2401 North Harvard Avenue, Tulsa, Okla. 74115. Applicant's representative: Sam Roberts, 501 Philtower Building, Tulsa, Okla. 74103. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Dallas, Tex., and Lawton, Okla., serving no intermediate points: From Dallas, Tex., over Texas Highway 114 to junction U.S. Highway 81, thence over U.S. Highway 81 to junction Oklahoma Highway 7, thence over Highway 7 to Lawton, Okla., and return over the same route.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex.

No. MC 71478 (Sub-No. 35), filed April 25, 1974. Applicant: CHIEF FREIGHT LINES COMPANY, a Corporation, 2401 North Harvard Avenue, Tulsa, Okla. 74115. Applicant's representative: Sam Roberts, 501 Philtower Building, Tulsa, Okla. 74103. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Durant, Okla., and Pittsburg, Kans.: From Durant, Okla., over U.S. Highway 69 northbound to Pittsburg, Kans., serving the intermediate points of McAlester and Muskogee, Okla.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex., Tulsa, Okla., or Kansas City, Mo.

No. MC 82492 (Sub-No. 106), filed April 29, 1974. Applicant: MICHIGAN & NEBRASKA TRANSIT CO., INC., P.O. Box 2853, 2109 Olmstead Road, Kalamazoo, Mich. 49003. Applicant's representative: William C. Harris (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk), from Bailey, Mich., to points in North Dakota (except Fargo) and South Dakota.

Note.—If a hearing is deemed necessary, applicant requests it be held at Lansing, Mich.

No. MC 95540 (Sub-No. 901), filed May 1, 1974. Applicant: WATKINS MOTOR LINES, INC., 1940 Monroe Drive, P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk and hides), from Lovejoy, Ga., to points in Alabama, Florida, Louisiana, Kentucky, North Carolina, and South Carolina.

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 98952 (Sub-No. 29), filed April 22, 1974. Applicant: GENERAL TRANSFER COMPANY, A Corporation, 2880 North Woodford Street, Decatur, Ill. 62526. Applicant's representative: Kirkwood Yockey, Suite 300 Union Federal Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectioneries, and advertising matter, premiums, and display material* when shipped in the same vehicle with confectioneries, from the plant site and warehouse of E. J. Brach & Sons, Division of American Home Products, Incorporated, at Carol Stream, Ill., to points in Indiana and Paducah, Henderson, Owensboro, and Louisville, Ky.

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Chicago, Ill.

No. MC 100449 (Sub-No. 49), filed April 26, 1974. Applicant: MALLINGER TRUCK LINE, INC., R.F.D. 4 Fort Dodge, Iowa 50501. Applicant's representative: Thomas E. Leahy, Jr., 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and skins), from York, Nebr., to points in Illinois, Wisconsin, Missouri, Iowa, Minnesota, Texas, Michigan, Oklahoma, and Kansas.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr., Minneapolis, Minn., or either Kansas City, Mo.

No. MC 102567 (Sub-No. 172), filed April 29, 1974. Applicant: McNAIR TRANSPORT, INC., 4295 Neadow Lane, P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, 816 Houston First Savings Building, Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, between the plantsite of Gulf Oil Company, located at or near West Port Arthur, Tex., on the one hand, and, on the other, points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Houston, Tex., or New Orleans, La.

No. MC 103993 (Sub-No. 804), filed May 1, 1974. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, Ind. 46514. Applicant's representative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* designed to be drawn by passenger automobiles, in initial movements, from points in Woodbury County, Iowa, to points in the United States (except Alaska and Hawaii).

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 103993 (Sub-No. 805), filed May 1, 1974. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, Ind. 46514. Applicant's representative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* designed to be drawn by passenger automobiles, in initial movements, from points in Rhea County, Tenn., to points in the United States (except Alaska and Hawaii).

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 102567 (Sub-No. 173), filed April 30, 1974. Applicant: McNAIR TRANSPORT, INC., 4295 Meadow Lane, P.O. Drawer 5357, Bossier City, La. 71010. Applicant's representative: Jo E. Shaw, 816 Houston First Savings Building, Houston, Tex. 77002. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Rosin sizing*, in bulk, in tank vehicles, from Springhill, La., to Vicksburg, Miss.

Note.—If a hearing is deemed necessary, applicant requests it be held at Houston, Tex., or New Orleans, La.

No. MC 106674 (Sub-No. 134), filed April 18, 1974. Applicant: SCHILLI MOTOR LINES, INC., P.O. Box 123, Remington, Ind. 47977. Applicant's representative: Jerry L. Johnson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Conveyor systems*, knocked down, from Mitchell, Ind., to points in the United States on and east of a line beginning at the mouth of the Mississippi River, and extending along the Mississippi River to its junction with the western boundary to Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the International Boundary line between the United States and Canada.

Note.—If a hearing is deemed necessary, the applicant requests it be held in Indianapolis, Ind., or Chicago, Ill.

No. MC 107107 (Sub-No. 434), filed April 26, 1974. Applicant: ALTERMAN TRANSPORT LINES, INC., 12805 NW. 42d Avenue (LeJuene Road), P.O. Box 425, Opa Locka, Fla. 33054. Applicant's representative: Ford W. Sewell (same address as applicant). Note.—If a hearing is deemed necessary, applicant requests it be held at Mobile, Ala.

No. MC 108340 (Sub-No. 27), filed May 1, 1974. Applicant: HANEY TRUCK LINE, a Corporation, Number 1 Haney Lane, P.O. Box 485, Cornelius, Oreg. 97113. Applicant's representative: Lawrence V. Smart, Jr., 419 NW. 23rd Avenue, Portland, Oreg. 97210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* as described in Appendix V to the Commission's report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, between points in Oregon and Washington.

Note.—If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 108382 (Sub-No. 22), filed April 26, 1974. Applicant: SHORT FREIGHT LINES, INC., 459 South River Road, Bay City, Mich. 48706. Applicant's representative: Michael M. Briley, 300 Madison Avenue, Toledo, Ohio 43604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Furniture, cabinets, and paper products*, between the plantsite or facilities of Century Products, Inc., located at or near Cheboygan, Mich., on the one hand, and, on the other, Smithfield, N.C.

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Toledo, Ohio, or Washington, D.C.

No. MC 108393 (Sub-No. 75), filed April 25, 1974. Applicant: SIGNAL DELIVERY SERVICE, INC., 201 East Ogden Ave., Hinsdale, Ill. 60521. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Gas and electrical appliances, parts of electrical* *and gas appliances, and equipment, materials, and supplies* used in the manufacture, distribution, and repair of electrical and gas appliances, (1) between Lombard, Ill., on the one hand, and, on the other, points in Elkhart, Fulton, Kosciusko, Lake, La Porte, Marshall, Porter, Pulaski, St. Joseph, and Starke Counties, Ind., and Berrien, Cass, St. Joseph, and Van Buren Counties, Mich., (2) from St. Joseph, Mich.; Clyde, Marion, and Findlay, Ohio; Danville, Ky.; La Porte, Ind.; St. Paul, Minn.; and Ft. Smith, Ark., to Lombard, Ill., and (3) from Columbus, Ohio, and Evansville, Ind., to points in Boone, Cook, Du Page, Kane, Kankakee, Kendall, Lake, McHenry, Will, and Winnebago Counties, Ill.; Elkhart, Fulton, Kosciusko, Lake, La Porte, Marshall, Porter, Pulaski, St. Joseph, and Starke Counties, Ind., and Berrien, Cass, St. Joseph, and Van Buren Counties, Mich., under continuing contract or contracts with Whirlpool Corporation.

Note.—Common control and dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 108393 (Sub-No. 76), filed April 25, 1974. Applicant: SIGNAL DELIVERY SERVICE, INC., 201 East Ogden Ave., Hinsdale, Ill. 60521. Applicant's representative: J. A. Kundtz, 1100 National City Bank Bldg., Cleveland, Ohio 44114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Parts of electrical and gas appliances and equipment, materials and supplies* used in the manufacture, distribution and repair of electrical and gas appliances, (1) between New Buffalo, Mich., and Mt. Gilead, Ohio, on the one hand, and, on the other, Evansville, Ind.; and (2) between Kendallville, Ind., and Danville, Ky., under continuing contract or contracts with Whirlpool Corporation.

Note.—Common control and dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 108393 (Sub-No. 77), filed April 25, 1974. Applicant: SIGNAL DELIVERY SERVICE, INC., 201 E. Ogden Street, Hinsdale, Ill. 60521. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by retail department stores and mail order houses*, and, in connection therewith, *equipment, materials, and supplies*, used in the conduct of such business between Pittsburgh, Pa., on the one hand, and, on the other, Cumberland, Md.; Hornell, Lakewood, and Olean, N.Y.; Niles, Salem, Steubenville, and Youngstown, Ohio; Charleston, Fairmont, Huntington, Parkersburg, Williamson, and Wheeling, W. Va., under continuing contract or contracts with Sears, Roebuck & Co.

Note.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 109448 (Sub-No. 19), filed April 22, 1974. Applicant: PARKER TRANSFER COMPANY, a Corporation, Telegraph Road, P.O. Box 256, Elyria, Ohio 44035. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel sheets and coils*, from the plants and warehouses of Jones & Laughlin Steel Corporation located at or near Cleveland, Ohio, to points in Indiana.

Note.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 110563 (Sub-No. 138), filed May 2, 1974. Applicant: COLDWAY FOOD EXPRESS, INC., P.O. Box 747 (Ohio Building), Sidney, Ohio 45365. Applicant's representative: Joseph M. Scanlan, 111 W. Washington, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsites and warehouse facilities utilized by Kenosha Packing Co., Inc., and Birchwood Meat and Provision, Inc. (wholly owned subsidiary of Kenosha Packing, Inc.), located at or near Kenosha, Wis., and Hebron, Ill., to points in Connecticut, Delaware, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, West Virginia, Ohio, and the District of Columbia, restricted to traffic originating at the above named plantsites and warehouse facilities.

Note.—If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis., or Chicago, Ill.

No. MC 111812 (Sub-No. 505), filed April 12, 1974. Applicant: MIDWEST COAST TRANSPORT, INC., 900 West Delaware, P.O. Box 1233, Sioux Falls, S. Dak. 57101. Applicant's representative: Ralph H. Jinks (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Billings, Mont., to points in South Dakota, Iowa, Minnesota, Nebraska, Wisconsin, Illinois, Kansas, and Missouri, restricted to the transportation of traffic originating at the named origin, and destined to the destination points named above.

Note.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Billings, Mont.

No. MC 112713 (Sub-No. 168), filed April 25, 1974. Applicant: YELLOW FREIGHT SYSTEM, INC., Box 7270, 10990 Roe Avenue, Shawnee Mission, Kans. 66207. Applicant's representative: John M. Records (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), serving the plant and warehouse facilities of Valley Tow-Rite, Inc., at or near Shelbyville, Ky., as an off-route point in connection with carrier's otherwise authorized regular route operations to and from Louisville, Ky.

Note.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Louisville, Ky., or Chicago, Ill.

No. MC-112750 (Sub-No. 312), filed April 30, 1974. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Commercial papers, documents, and written instruments* (except currency and negotiable securities) as are used in the business of banks and banking institutions, between Lake Success, N.Y., and Toms River, N.J., under contract with First State Bank of Toms River.

Note.—Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC-112822 (Sub-No. 330), filed April 29, 1974. Applicant: BRAY LINES, INC., 1401 N. Little Street, P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: Robert A. Stone (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from the plantsite and storage facilities of Shurtenda Foods, Inc., located at Cedartown, Ga., to points in Arizona, Arkansas, California, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri, Montana, Nebraska, New Mexico, Ohio, Oklahoma, Oregon, Texas, Utah, Washington, and Wisconsin.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga., or Louisville, Ky.

No. MC-113434 (Sub-No. 61), filed May 3, 1974. Applicant: GRA-BELL TRUCK LINE, INC., 679 Lincoln Avenue, Holland, Mich. 49423. Applicant's representative: Wilhelmina Boersma, 1600 First Federal Building, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials, supplies, and products used in and produced by the food processing industry* (except commodities in bulk), from the plantsite and warehouse facilities of Welch Foods, Inc., at Lawton, Decatur, and Mattawan, Mich., to points in Iowa.

Note.—If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Washington, D.C.

No. MC-114211 (Sub-No. 226) (Correction), filed March 15, 1974, published in the Federal Register issue of April 25, 1974, and republished as amended this issue. Applicant: WARREN TRANSPORT, INC., 324 Manhard Street, P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Patrick Smyth, 327 South LaSalle, Chicago, Ill. 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flat glass*, from the plantsite and warehouse facilities of PPG Industries, Inc., at or near Wichita Falls, Tex., to points in Oklahoma, Kansas, Nebraska, Colorado, South Dakota, North Dakota, Minnesota, Wisconsin, Iowa, Illinois, Indiana, and Missouri.

Note.—The purpose of this republication is to include the State of Missouri, as a destination point, which was omitted in previous publication. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 114486 (Sub-No. 29), filed April 29, 1974. Applicant: AUTREY F. JAMES, doing business as A. F. JAMES TRUCK LINE, 107 Lelia Street, Texarkana, Tex. 75501. Applicant's representative: Austin L. Hatchell, 1102 Perry Brooks Bldg., Austin, Tex. 78701. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Jointing compounds* (except in bulk, in tank trailers), from the plantsite of W. S. Dickey Clay Manufacturing Co., located at Pittsburg, Kans., and Texarkana, Tex., to points in Alabama, Arizona, Arkansas, Florida, Georgia, Illinois, Iowa, Kansas, Kentucky, Louisiana, New Mexico, Minnesota, Mississippi, Missouri, Nebraska, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia, under contract with W. S. Dickey Clay Manufacturing Co.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex., or Kansas City, Mo.

No. MC 115162 (Sub-No. 292), filed May 6, 1974. Applicant: POOLE TRUCK LINE, INC., P.O. Drawer 500, Evergreen, Ala. 36401. Applicant's representative: Robert E. Tate (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood, panels, and composition board*, from Philadelphia, Pa., and points in its commercial zone, to points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas.

Note.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 116142 (Sub-No. 21), filed April 25, 1974. Applicant: BEVERAGE TRANSPORTATION, INC., 625 Eberts Lane, P.O. Box 423, York, Pa. 17405. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt and brewed beverages and related advertising materials*, from Baltimore, Md., to points in Ohio.

Note.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Harrisburg, Pa.

No. MC-116763 (Sub-No. 274) (Correction), filed April 4, 1974, published in the Federal Register issue of May 9, 1974, and republished as corrected this issue. Applicant: CARL SUBLER TRUCKING, INC., North West Street, Versailles, Ohio 45380. Applicant's representative: H. M. Richters (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk, in tank vehicles), from Dunkirk, N.Y., to points in Connecticut, Massachusetts, Rhode Island, Maine, Vermont, New Hampshire, New Jersey, Delaware, Maryland, Virginia, those points in Pennsylvania on and east of U.S. Highway 220, the District of Columbia, and Bronx, Kings, Nassau, Queens, Richmond, Suffolk, Westchester, and New York Counties, N.Y., restricted to traffic originating at Dunkirk, N.Y., and destined to the territory named.

Note.—The purpose of this republication is to add the destination points of Delaware and New York County, N.Y., which were omitted as territory destinations, and to correctly define the territorial description in Pennsylvania as "those points in Pennsylvania on and east of U.S. Highway 220," instead of U.S. Highway 200. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 117119 (Sub-No. 501), filed April 29, 1974. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., P.O. Box 188, Elm Springs, Ark. 72728. Applicant's representative: L. M. McLean (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk), in vehicles equipped with mechanical refrigeration, from the plantsites of Welch Foods, Inc., at North East, Pa., and Westfield, N.Y., and the storage facilities of Welch Foods, Inc., at North East, Pa., and Erie, Pa., to the plantsite of Welch Foods, Inc., at Kennewick, Wash., restricted to traffic originating at the named origin points and destined to the named destination points.

Note.—Common control and dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Buffalo, N.Y., or New York, N.Y.

No. MC 117940 (Sub-No. 126), filed May 3, 1974. Applicant: NATIONWIDE CARRIERS, INC., P.O. Box 104, Maple Plain, Minn. 55359. Applicant's representative: Donald L. Stern, Suite 530, Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, in vehicles equipped with mechanical refrigeration, from the plantsite and warehouse facilities of Jeno's, Inc., located at or near Superior, Wis., to points in Arkansas, Connecticut, Delaware, Kansas, Louisiana, Maine, Maryland, Massachusetts, Missouri, New Hampshire, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, Texas, Vermont, Virginia, West Virginia, and the District of Columbia.

Note.—Applicant holds contract carrier authority in MC 114789 Sub-No. 1, and other subs, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Minneapolis or Duluth, Minn.

No. MC 118034 (Sub-No. 20), filed May 1, 1974. Applicant: MILLER TRUCK LINE, INC., 901 NE. 28th Street, Fort Worth, Tex. 76106. Applicant's representative: Mert Starnes, P.O. Box 2207, Austin, Tex. 78767. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides, and commodities in bulk, in tank vehicles), from the plant site of and storage facilities utilized by American Beef Packers, Inc., at or near Cactus (Moore County), Tex., to points in Texas, Oklahoma, Arkansas, Louisiana, New Mexico, Tennessee, Mississippi, Alabama, Georgia, and Florida, restricted to traffic originating at, and destined to, the named points.

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas or Fort Worth, Tex.

No. MC 118159 (Sub-No. 144), filed April 29, 1974. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., 1925 National Plaza, Tulsa, Okla. 74151. Applicant's representative: Jack R. Anderson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the plantsite and warehouse facilities of Page Milk Co., located at or near Tulsa, Okla., to points in Colorado, Connecticut, Maryland, Massachusetts, New Jersey, New York, Ohio, Pennsylvania, and Rhode Island, restricted to traffic originating at the above-named origin and destined to the above-named states.

Note.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Tulsa, Okla., or Dallas, Tex.

No. MC 119493 (Sub-No. 110), filed May 6, 1974. Applicant: MONKEM COMPANY, INC., West 20th Street Road, P.O. Box 1196, Joplin, Mo. 64801. Applicant's representative: Ray F. Kempt, P.O. Box 1196, Joplin, Mo. 64801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel, and iron and steel articles*, from Wilton, Iowa, to points in the United States (except Alaska and Hawaii); and (2) *materials, equipment, and supplies* used in the manufacture and distribution of above specified commodities (except commodities in bulk),

V 39 110 JUN 6 74 XUM

from points in the United States (except Alaska and Hawaii), to Wilton, Iowa.

Note.—If a hearing is deemed necessary, applicant does not specify a location.

No. MC 119522 (Sub-No. 30), filed May 6, 1974. Applicant: McLAIN TRUCKING, INC., 2425 Walton Street, Anderson, Ind. 46011. Applicant's representative: John B. Leatherman, Jr., P.O. Box 2159, Anderson, Indiana 46011. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, canned goods, other than frozen, from Mount Summit, Ind., to Collinsville, Ill.

Note.—Applicant holds contract carrier authority in MC–34865 Sub 39, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Ft. Wayne, Ind.

No. MC 119669 (Sub-No. 48), filed April 29, 1974. Applicant: TEMPCO TRANSPORTATION, INC., 546 South 31A, P.O. Box 886, Columbus, Ind. 47201. Applicant's representative: Donald W. McCameron (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from the plantsite of and storage facilities utilized by American Beef Packers, Inc., at or near Cactus (Moore County), Tex., to points in Virginia, West Virginia, Maryland, the District of Columbia, Delaware, New Jersey, New York, Pennsylvania, Connecticut, Rhode Island, Massachusetts, Illinois, Indiana, Kentucky, Michigan, and Ohio.

Note.—If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Chicago, Ill.

No. MC 119726 (Sub-No. 39), filed April 29, 1974. Applicant: N. A. B. TRUCKING CO., INC., 2502 West Howard Street, Indianapolis, Ind. 46221. Applicant's representative: James L. Beattey, 130 East Washington Street, Suite 1000, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food stuff, promotional and display materials*, from Archbold, Ohio, to points in Tennessee, Arkansas, Oklahoma, Texas, Louisiana, Mississippi, Alabama, Georgia and Florida.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Indianapolis, Ind.

No. MC 119726 (Sub-No. 40), filed April 29, 1974. Applicant: N. A. B. TRUCKING CO., INC., 2502 West Howard Street, Indianapolis, Ind. 46221. Applicant's representative: James L. Beattey, 130 East Washington Street, Suite 1000, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers and closures thereof*, including caps, covers, and tops, from Terre Haute, Ind., to points in Illinois, Missouri, Wisconsin, Michigan, and Ohio.

Note.—If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 119726 (Sub-No. 41), filed April 30, 1974. Applicant: N. A. B. TRUCKING CO., INC., 2502 West Howard Street, Indianapolis, Ind. 46221. Applicant's representative: James L. Beattey, 130 East Washington Street, Suite 1000, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cardboard cartons*, knocked down, from Jacksonville, Fla., to the plantsite of Midland Glass Company, Inc., located at Warner Robins, Ga.

Note.—If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 119777 (Sub-No. 296), filed April 29, 1974. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer L, Madisonville, Ky. 42431. Applicant's representative: Ronald E. Butler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood, veneer, wood paneling, hardboard, wallboard, and particleboard, and materials, supplies and accessories* used in connection therewith, from the plantsites and warehouse of Pluswood, Inc., located at or near Oshkosh, Wis., to points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, West Virginia, and Wyoming.

Note.—Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis., or Chicago, Ill.

No. MC 120279 (Sub-No. 5), filed April 26, 1974. Applicant: F & S COMPANY, INC., 915 North Main Street, Tooele, Utah 84074. Applicant's representative: Irene Warr, 430 Judge Building, Salt Lake City, Utah 84111. Harvey (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cheese* from Hebron and Newman Grove, Nebr., to points in Wisconsin; and (2) *meats, meat products, and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Hospers, Iowa, to points in Kansas and Missouri.

Note.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr.

No. MC 127774 (Sub-No. 7), filed May 6, 1974. Applicant: HAINES TRANSPORT, INC., Box 207, Greenfield, Iowa 50849. Applicant's representative: Thomas E. Leahy, Jr., 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, from the Mid America Pipe Line Terminal located at or near Clay Center, Kans., to points in Iowa, Missouri, and Nebraska.

Note.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Omaha, Nebr.

No. MC 128981 (Sub-No. 9), filed April 30, 1974. Applicant: LAND-AIR DELIVERY, INC., 1736 North 79th Street, Kansas City, Kans. 66112. Applicant's representative: Louis J. Amato, P.O. Box E, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* moving in substituted motor for air service, between Kansas City International Airport, Kansas City Municipal Airport, located at Kansas City, Mo., and Fairfax Airport, located at Kansas City, Kans., points in Arkansas, Iowa, Illinois, Indiana, Kansas, Louisiana, Michigan, Missouri, Minnesota, Nebraska, New Mexico, on and east of In-

V39 110 JUN 6 74 XUM

terstate Highway 25 and Interstate Highway 10, Oklahoma, Texas, and Wisconsin in nonradial movement.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo.

No. MC 129222 (Sub-No. 3), filed May 2, 1974. Applicant: MARVIN FORD, doing business as FORK TRUCK LINE, Tipton, Iowa 52772. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer, and liquid fertilizer ingredients*, in bulk, from the plantsites and storage facilities utilized by Twin-State Engineering & Chemical Company, located in Scott County, Iowa, to points in Illinois, Minnesota, and Missouri.

Note.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC–133655 (Sub-No. 74) (Amendment), filed April 4, 1974, published in the Federal Register issue of May 9, 1974, and republished as amended this issue. Applicant: TRANS-NATIONAL TRUCK, INC., P.O. Box 4168, Amarillo, Tex. 79105. Applicant's representative: Charles W. Singer, Suite 1000, 327 S. LaSalle Street, Chicago, Ill. 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Refined copper and materials and supplies* used in the manufacture and distribution of refined copper; and (2) *metal of extraordinary value*, between the facilities of the American Smelting and Refining Co., located on Texas State Highway 136, near Amarillo, Tex., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, New York, Pennsylvania, Rhode Island, New Jersey, Delaware, Maryland, Virginia, Arizona, California, Colorado, New Mexico, Utah, Nevada, Wyoming, Montana, Idaho, Oregon, Washington, and the District of Columbia.

Note.—The purpose of this amendment is to indicate the specific location of the American Smelting and Refining Co. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Chicago, Ill.

No. MC 133920 (Sub-No. 6), filed May 3, 1974. Applicant: HOWARD SHEPPARD, INC., P.O. Box 755, Sandersville, Ga. 31082. Applicant's representative: Monty Schumacher, Suite 310, 2045 Peachtree Road NE., Atlanta, Ga. 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand, gravel, and crushed stone*, in dump and hopper-type vehicles, (1) from points in Georgia, to points in Florida, Alabama, Mississippi, North Carolina, South Carolina, and Tennessee; and (2) from points in Alabama, to points in Georgia.

Note.—If a hearing is deemed necessary applicant requests it be held at Atlanta, Ga.

No. MC 134783 (Sub-No. 21), filed April 29, 1974. Applicant: DIRECT SERVICE, INC., P.O. Box 786, Plainview, Tex. 79072. Applicant's representative: Charles J. Kimball, 2310 Colorado State Bank Building, 1600 Broadway, Denver, Colo. 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides, and commodities in bulk, in tank vehicles), from the plantsite of and storage facilities utilized by American Beef Packers, Inc., located at or near Cactus (Moore County), Tex., to points in Colorado, Kansas, Missouri, Iowa, Illinois, Mississippi, Texas, Oklahoma, and Louisiana.

Note.—Common control and dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Omaha, Nebr.

No. MC 134922 (Sub-No. 77), filed April 29, 1974. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: L. C. Cypert (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum and wooden windows and doors, aluminum wire, aluminum products, wood products and glass* (except commodities which because of size or weight, require the use of special equipment), between Owensboro, Ky., on the one hand, and, on the other, points in Alabama, Arkansas, Connecticut, Delaware, Georgia, Illinois, Indiana, Iowa, Kansas, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, Texas, Vermont, and Wisconsin.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Louisville, Ky., or Little Rock, Ark.

No. MC 134922 (Sub-No. 78), filed April 29, 1974. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: L. C. Cypert (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cleaning, polishing, and waxing compounds, starch, air fresheners and disinfectants, mops, dusters, plastic articles, waxers and brooms, diet and nutritional foods* (except frozen), from Franklin, Ky., and Urbana, Ohio, to points in Florida and Georgia.

Note.—If a hearing is deemed necessary, applicant requests it be held at Cincinnati, Ohio, or Little Rock, Ark.

No. MC 135797 (Sub-No. 25), filed April 29, 1974. Applicant: J. B. HUNT TRANSPORT, INC., 833 Warner Street SW., Atlanta, Ga. 30310. Applicant's representative: Virgil H. Smith, Suite 12, 1587 Phoenix Boulevard, Atlanta, Ga. 30349. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lawn mowers*, power, *and tillers*, rotary *and parts thereof*, from the plant site of Dynamark Sales, Inc., at Des Moines, Iowa, to points in Arkansas, Louisiana, Missouri, Oklahoma, Kansas, and Brownsville, Covington, Millington, and Ripley, Tenn.

Note.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Little Rock, Ark.

No. MC 136777 (Sub-No. 9) (Correction), filed April 5, 1974, published in the Federal Register issue of May 16, 1974, and republished as corrected this issue. Applicant: POPELKA TRUCKING CO., doing business as THE WAGGONERS, P.O. Box 990, Livingston, Mont. 59407. Applicant's representative: Jacob P. Billig, 1126 16th Street NW., Washington, D.C. 20036. Authority sought to operate as *contract carrier*, by motor vehicle, over irregular routes, transporting: *Flattened vehicles and scrap metal* for recycling, (1) from points in Montana, Wyoming, North Dakota, South Dakota, Nebraska, Idaho, Colorado, and Kansas, to Spokane, Seattle, Renton and Kent, Wash.; Portland, Oreg.; San Francisco, Los Angeles, and San Diego, Calif.; Phoenix, Ariz.; Salt Lake City and Provo, Utah; Denver and Pueblo, Colo.; Norfolk and Omaha, Nebr.; Kansas City, Mo.; Kansas City, Kans.; St. Louis, Mo.; Council Bluffs, Des Moines, Waterloo, Davenport, and Centerville, Iowa; St. Paul and Minneapolis, Minn.; Beloit and Milwaukee, Wis.; Chicago, Rockford, Sterling, and Alton, Ill., and the International Boundary line between the United States and Canada, located in Washington, Idaho, Montana, North Dakota, and Minnesota, and (2) from points in Iowa, Minnesota, Missouri, Kansas, and Wisconsin to St. Paul and Minneapolis, Minn; Beloit and Milwaukee, Wis.; Council Bluffs, Des Moines, Waterloo, Davenport, and Centerville, Iowa; Norfolk and Omaha, Nebr.; Chicago, Rockford, Sterling, and Altan, Ill.; and Kansas City, Kans.; and Kansas City and St. Louis, Mo.; (1) and (2) above, under contract with Krushette Kleen.

Note.—The purpose of this republication is correct the destination points named in (1) above, which were previously published in error. Applicant holds common carrier authority in MC 26396 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Missoula, Mont.

No. MC 138530 (Sub-No. 8), filed March 20, 1974. Applicant: C. O. P. TRANSPORT, INC., 307 South High Street, Cortland, Ohio 44410. Applicant's representative: Warren R. Keck, III, 28 South Second Street, Greenville, Pa. 16125. Authority sought to operate as a *contract carrier*, by motor vehicle, over iregular routes, transporting: *Machinery, strip mining, walking drag lines, mining and construction excavator shovels, stripping shovels, blast hole drills, steel forgings, castings, machinery parts, strip mining parts, walking drag line parts, mining and excavator shovel parts, drill parts and accessories* thereof; *iron and steel* used in the manufacture of above parts, *and vendor products* used in the manufacture and processing of products in the above described commodities, between the plantsite of Marion Power Shovel Co., Inc., at Marion, Ohio, points in New York, Ohio, and Pennsylvania, and Virginia, in non-radial movements, under contract with Marion Power Shovel Co., Inc.

Note.—If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, Pittsburgh, Pa. or Washington, D.C.

No. MC 138530 (Sub-No. 10), filed April 3, 1974. Applicant: C. O. P. TRANSPORT, INC., 307 South High Street, Cortland, Ohio 44410. Applicant's representative: Warren R. Keck, III, 28 South Second Street, Greenville, Pa. 16125. Authority sought to operate as a *contract carrier*, by motor vehicle, over iregular routes, transporting: *Machinery, strip mining, walking drag lines, mining and construction excavator shovels, stripping shovels, blast hole drills, steel forgings, castings, machinery parts, strip mining parts, walking drag line parts, mining and exvacator shovel parts, drill parts and accessories* thereof, *iron and steel* used in the manufacture of above parts, and *vendor products* used in the manufacture and processing of products produced and shipped by customer, between the plantsite of Marion Power Shovel Co., Inc., located at or near Marion, Ohio, points in Illinois, Indiana, Michigan, Minnesota, and Wisconsin, in non-radial movements, under contract with Marion Power Shovel Co., Inc.

Note.—If a hearing is deemed necessary, the applicant requests it be held at Columbus, Ohio, Pittsburgh, Pa., or Washington, D.C.

No. MC 138456 (Sub-No. 1), filed April 30, 1974. Applicant: S. W. BURNS AND TERRENCE W. BURNS, doing business as BURNS AND SON TRUCKING, P.O. Box 344, Springfield, Ga. 31329. Applicant's representative: William Addams, Suite 212, 5299 Roswell Rd. NE., Atlanta, Ga. 30342. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry fertilizer*, in bags, and in bulk, in dump trucks, from Savannah, Ga., to points in South Carolina.

Note.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 138469 (Sub-No. 4), filed April 29, 1974. Applicant: DONCO CARRIERS, INC., 1001 S. Rockwell, Oklahoma City, Okla. 73128. Applicant's representative: Wm. L. Peterson, Jr., 401 North Hudson, Suite 200, P.O. Box 917, Oklahoma City, Okla. 73101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crude synthetic rubber*, in bags, between Lake Charles, La., and Miami, Okla.

Note.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla., or Houston, Tex.

No. MC 139233 (Sub-No. 1), filed April 1, 1974. Applicant: MELVIN T. DICKERSON, INC., Rt. 2, Box 337, Dallas, Oreg. 97007. Applicant's representative: B. Gayle Bergstrom, 11150 SW. Allen, Beaverton, Oreg. 97005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Salads and prepared foods;* and (2) *meats, cooked, cured, and preserved*, from Beaverton, Oreg., to points in Arizona, Arkansas, California, Colorado, Georgia, Idaho, Illinois, Iowa, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Tennessee, Texas, Utah, Washington, and Wyoming, under contract with Reser's Fine Foods, Inc.

Note.—If a hearing is deemed necessary, applicant requests it be held at either Portland or Salem, Oreg.

No. MC–139648 (Correction), filed March 15, 1974, published in the Federal Register issue of April 25, 1974, and republished as corrected this issue. Applicant: STATION WAGON SERVICE, INC., P.O. Box 153, 429 Minniskink Rd., Totwa, N.J. 07511. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Parcels and packages*, not exceeding 250 pounds, picked up and delivered from one consignor to one consignee within 6 hours, between points in Passiac, and Bergen Counties, N.J.; Fairfield, Caldwell, West Caldwell, North Caldwel, Cedar Grove (Essex County), N.J.; and Montville, Lincoln Park, Caldwell, Cedàr Grove (Essex County), Pequannock, Butler, and Riverdale (Morris County), N.J., on the one hand, and, on the other, Newark Airport, N.J., points in the New York, N.Y., Commercial Zone as defined by the Commission; and points in Westchester, Nassau, and Suffolk Counties, N.Y.; and Fairfield County, Conn.

Note.—The purpose of this republication is to clearly define the scope of authority sought by the applicant. If a hearing is deemed necessary, applicant requests it be held at Newark, N.J.

No. MC 139764, filed April 29, 1974. Applicant: RALPH E. WITH, doing business as C AND L TRUCKING CO., 1827 Clement Avenue, Alameda, Calif. 94501. Applicant's representative: R. Frederick Fisher, 311 California Street, San Francisco, Calif. 94104. No. MC 124138 (Sub-No. 2), filed April 15, 1974. Applicant: OLD LYME-SAYBROOK TAXI SERVICE, INC., Old Lyme, Conn. 06371. Applicant's representative: F. Kent Sistare, Jr., 302 State Street, New London, Conn. 06320. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in special and charter operations, restricted to the transportation of not more than nine passengers in any one vehicle at one time, but not including the driver, or children under 12 years of age who occupy a seat or seats, between Stonington, North Stonington, Voluntown, Groton, Ledyard, Preston, Griswold, Lisbon, New London, Waterford, Montville, Norwich, Sprague, Bozrah, Franklin, East Lyme, Salem, Colchester, Lebanon, Old Lyme, Lyme, East Haddam, Old Saybrook, Westbrook, Essex, Deep River, Chester, Haddam, Clinton, and Killingworth, Conn., on the one hand, and, on the other, points in the New York, N.Y., commercial zone, as defined by the Commission, and Newark Airport, N.J.

Note.—If a hearing is deemed necessary, applicant requests it be held at Hartford, Conn.

No. MC 139769, filed April 24, 1974. Applicant: FALCON CHARTER SERVICE, INC., 120 Perry Street, San Francisco, Calif. 94107. Applicant's representative: Eldon M. Johnson, 650 California Street, Suite 2808, San Francisco, Calif. 94108. Authority sought to operate as a

V 39 110 JUN 6 74 XUM

common carrier, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in special or charter operations, in sightseeing, pleasure, study, or educational tours, from San Francisco, Calif., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at San Francisco, Calif.

BROKERAGE APPLICATIONS

No. MC 130240, filed April 24, 1974. Applicant: DESTOFREX DISTRIBUTING CORP., 364 Mineola Boulevard, Mineola, N.Y. 11501. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at Mineola, N.Y., to sell or offer to sell the transportation of: *General commodities* (except household goods as defined by the Commission, Classes A and B explosives, commodities in bulk and commodities requiring special equipment), between points in the United States, including Alaska and Hawaii.

NOTE.—Applicant has currently filed a motion to dismiss by declaratory order for the reasons the services performed were not those of a freight forwarder as defined by Part IV of the Interstate Commerce Act, as amended. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 130244, filed April 24, 1974. Applicant: JAMES G. KNEPPER AND NANCY L. KNEPPER, doing business as PAR CORNERS TRAVEL SERVICE, 221 West Patriot Street, Somerset, Pa. 15501. Applicant's representative: William L. Kimmel, 166 East Union Street, Somerset, Pa. 15501. Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at Somerset, Pa., to sell or offer to sell to common motor, rail, water, and air carriers, the transportation of *passengers and their baggage* in special and charter operations, in roundtrip sightseeing or pleasure tours, beginning and ending at points in Somerset and Bedford Counties, Pa., and extending to points in the United States (including Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Somerset, Pittsburgh, or Johnstown, Pa.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74-12917 Filed 6-5-74;8:45 am]

[Rule 19; Ex Parte No. 241, Exemption No. 75]

ATCHISON, TOPEKA AND SANTA FE RAILWAY CO., ET AL

Exemption Under Mandatory Car Service Rules

To: The Atchison, Topeka and Santa Fe Railway Company, Chicago, Rock Island and Pacific Railroad Company, Fort Worth and Denver Railway Company, Missouri-Kansas-Texas Railroad Company, Missouri Pacific Railroad Company, St. Louis-San Francisco Railway Company.

It appearing, That there is a massive harvest of wheat in progress in the states of Oklahoma and Texas; that present supplies of plain boxcars owned by the railroads serving these states are inadequate to move the newly harvested grain to terminal elevators for safe storage; that use of available plain boxcars owned by other carriers for movements of this grain will substantially augment the car supplies of the railroads named herein.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the railroads named herein, and their short line connections, are hereby authorized to use and to accept from shippers shipments of grain originating at stations located in Oklahoma or Texas when loaded into plain 40-ft. narrow-door boxcars of various ownerships without regard to the requirements of Car Service Rule 2.

Exception: This exemption shall not apply to plain boxcars owned by railroads named above nor to cars subject to an order of this Commission requiring return to car owner.

Effective May 28, 1974.

Expires 11:59 p.m., June 30, 1974.

Issued at Washington, D.C., May 28, 1974.

[Rule 19; Ex Parte No. 241, Exemption No. 74]

RAILROADS SERVING KEOKUK, IOWA

Exemption Under Mandatory Car Service Rules

It appearing, That because of flood conditions the railroads serving Keokuk, Iowa, are unable to move empty cars to and from that station; that sufficient cars of suitable ownership are not available for loading by shippers served by these lines; that numerous other empty cars located on these lines cannot be returned to owners until normal operations can be resumed; that compliance with Car Service Rule 2 would result in these cars standing idle and would prevent their use by shippers unable to receive other cars for loading.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the railroads serving Keokuk, Iowa, are authorized to move, place, and accept from shippers located in Keokuk, general service cars owned by other railroads regardless of the provisions of Car Service Rule 2 (see exception).

Exception: Covered hopper cars and cars subject to Interstate Commerce Commission Service Orders requiring the return of cars to owners.

Effective May 22, 1974.

Expires June 15, 1974.

Issued at Washington, D.C., May 22, 1974.

[Rev. S.O. 994; I.C.C. Order 128]

BURLINGTON NORTHERN INC.

Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Burlington Northern Inc. (BN) is unable to transport traffic over its line between Burlington, Iowa and Keota, Iowa, because of flooding.

It is ordered, That:

(a) The BN being unable to transport traffic over its line between Burlington, Iowa and Keota, Iowa, because of flooding, that carrier is hereby authorized to reroute or divert such traffic via any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained*. The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers*. Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the division of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date*. This order shall become effective at 1:00 p.m., May 21, 1974.

(g) *Expiration date*. This order shall expire at 11:59 p.m., May 31, 1974, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., May 21, 1974.

CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD CO.

Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Chicago, Rock Island and Pacific Railroad Company (RI) is unable to transport traffic to and from Burlington, Iowa, and to and from Keokuk, Iowa because of flooding.

It is ordered, That:

(a) The RI being unable to transport traffic to and from Burlington, Iowa, and to and from Keokuk, Iowa because of flooding, the RI is hereby authorized to reroute or divert such traffic via any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained*. The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers*. Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the division of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date*. This order shall become effective at 1:00 p.m., May 21, 1974.

(g) *Expiration date*. This order shall expire at 11:59 p.m., May 31, 1974, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

[Rev. S.O. 994; I.C.C. Order 126]

PENN CENTRAL TRANSPORTATION CO., ET AL.

Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Penn Central Transportation Company, George P. Baker, Robert W. Blanchette, and Richard C. Bond, Trustees (PC) is unable to transport traffic over its Hudson River bridge east of Highland, New York, because of fire damage.

It is ordered, That:

(a) *Rerouting traffic*. The PC being unable to transport traffic over its Hudson River bridge located east of Highland, New York, because of fire damage, the following routes shall be used for the rerouting of traffic:

(1) Traffic originating or terminating on the PC at stations Campbell Hall, New York to Highland, New York, inclusive, and requiring movement over the Hudson River bridge of the PC east of Highland, New York, shall be rerouted via Maybrook, New York, thence any available route.

(2) Traffic routed for interchange between the PC and the Erie Lackawanna Railway Company, Thomas F. Patton and Ralph S. Tyler, Jr., Trustees (EL), at Maybrook, New York, shall be interchanged between the PC and the EL at either Utica, New York, or Croxton (Marion) New Jersey, as mutually agreed upon by these carriers.

(3) Traffic routed for interchange between the PC and The Lehigh and Hudson River Railway Company, John C. Troiano, Trustee (LHR) at Maybrook, New York, shall be interchanged between the PC and the LHR at Maybrook, N.Y.

(b) *Concurrence of receiving roads to be obtained*. The railroad desiring to divert or reroute traffic under section (a), paragraph (1) of this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers*. Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date*. This order shall become effective at 12:01 a.m., May 25, 1974.

(g) *Expiration date*. This order shall expire at 11:59 p.m., June 15, 1974, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateways

JUNE 3, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before June 17, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience

V39 110 JUN 6 74 XUM

in identification. Protests, if any, must refer to such letter-notices by number.

No. MC–16682 (Sub-No. E3), filed May 15, 1974. Applicant: MURAL TRANSPORT, INC., 2900 Review Avenue, Long Island City, N.Y. 11101. Applicant's representative: Robert L. Shapiro (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New commercial and institutional furniture, fixtures, and equipment.* (1) From points in Connecticut, Massachusetts, and Rhode Island to points in Arizona, California, Colorado, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Nevada, New Mexico, Oklahoma, Utah, Tennessee, and Texas. (2) From points in Maine, New Hampshire, and Vermont to points in Arizona, California, Colorado, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Nevada, New Mexico, Oklahoma, Utah, Tennessee, and Texas. (3) Between points in Maine, New Hampshire, and Vermont, on the one hand, and, on the other, points in Iowa, Minnesota, and Wisconsin. (4) Between points in Connecticut, Massachusetts, New Jersey, New York, and Rhode Island, on the one hand, and, on the other, points in Iowa, Minnesota, and Wisconsin. The purpose of this filing is to eliminate the gateways of New York, N.Y., Cuyahoga County, Ohio, and points in Kentucky in proposal number 1, New York, N.Y., Cuyahoga County, Ohio, and points in Kentucky in proposal number 2, New York, N.Y., Cuyahoga County, Ohio, and Chicago, Ill., in proposal number 3, New York, N.Y., Cuyahoga County, Ohio, and Chicago, Ill., in proposal number 4.

No. MC–16682 (Sub-No. E8), filed May 15, 1974. Applicant: MURAL TRANSPORT, INC., 2900 Review Avenue, Long Island City, N.Y. 11101. Applicant's representative: Robert L. Shapiro (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New commercial and institutional furniture and fixtures*, (1) from Connecticut, Massachusetts, New Jersey, New York, and Pennsylvania, to points in Arizona, California, Colorado, Kansas, Louisiana, Mississippi, Nevada, New Mexico, Oklahoma, Utah, Tennessee, and Texas; (2) from points in Delaware, Maryland, Rhode Island, and the District of Columbia to points in Arizona, California, Colorado, Kansas, Nevada, New Mexico, Oklahoma, Utah, and Texas; (3) from points in Maine, New Hampshire, and Vermont to points in Arizona, California, Colorado, Kansas, Louisiana, Mississippi, Nevada, New Mexico, Oklahoma, Utah, Tennessee, and Texas. The purpose of this filing is to eliminate the gateways in (1) above of Cuyahoga County, Ohio, and Kentucky; in (2) above, points in Pennsylvania and Kentucky, and Cuyahoga County, Ohio, and in (3) above, points in Kentucky, New York, N.Y., and Cuyahoga County, Ohio.

No. MC–64651 (Sub-No. E1), filed May 12, 1974. Applicant: STAR TRANSPORT CO., INC., P.O. Box 2006, High Point, N.C. 27261. Applicant's representative: John T. Coon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Baltimore, Md., on the one hand, and, on the other, Philadelphia, Pa. The purpose of this filing is to eliminate the gateway of points in New Jersey which are within the Philadelphia, Pa., commercial zone.

No. MC–73165 (Sub-No. E1), filed May 14, 1974. Applicant: EAGLE MOTOR LINES, INCORPORATED, P.O. Box 11086, Birmingham, Ala. 35202. Applicant's representative: Carl U. Hurst (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles* as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except iron and steel buildings, complete, knocked down, or in sections), consisting of, *equipment, materials, and supplies*, used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, or consisting of *equipment, materials, and supplies* incidental to or used in the construction, development, operation, and maintenance of facilities for the discovery, mining, and milling of lead, zinc, iron, coal, and other minerals. (a) Between points in Texas on or south of a line beginning at Laredo, and extending along U.S. Highway 59 to Houston, Texas, and thence along U.S. Highway 90 to the Texas-Louisiana State line, on the one hand, and, on the other, Dubuque, Iowa, and points in Iowa and Wisconsin within 150 miles of Dubuque, and points in Illinois. (b) Between points in Texas on or south of a line beginning at Eagle Pass, and extending along U.S. Highway 57 to junction U.S. Highway 81, thence along U.S. Highway 81 to Round Rock thence along U.S. Highway 79 to Hearne, thence along U.S. Highway 190 to the Texas-Louisiana State line, on the one hand, and, on the other, Dubuque, Iowa, and points in Wisconsin within 150 miles of Dubuque, and points in Illinois.

(c) Between points in Texas on or east of a line beginning at Eagle Pass, and extending along U.S. Highway 277 to Abilene, thence along U.S. Highway 80 to the Texas-Louisiana State line, on the one hand, and, on the other, points in Fond du Lac, Ozaukee, Washington, Dodge, Jefferson, Waukesha, Rock, Walworth, Racine, Kenosha, and Milwaukee Counties, Wis., within 150 miles of Dubuque, Iowa, and points in Lake, Du Page, Cook, Will, and Kankakee Counties, Ill. (d) Between points in Louisiana, on the one hand, and, on the other, Dubuque, Iowa, and points in Iowa and Wisconsin within 150 miles of Dubuque. (e) Between points in Louisiana, on or east of a line beginning at the Louisiana-Texas State line southwest of Many, and extending along Louisiana Highway 6 to Clarence, thence along U.S. Highway 84 to Joyce, thence along Louisiana Highway 34 to Monroe, and thence along U.S. Highway 165 to the Louisiana-Arkansas State line, on the one hand, and, on the other, points in Illinois. (f) Between points in Louisiana in or east of Cameron, Jefferson, Davis, Calcasieu, Allen, Evangeline, and Avoyelles Parishes, on the one hand, and, on the other, points in Jasper, Lawrence, Newton, Barry, and Barton Counties, Mo., those in Cherokee and Crawford Counties, Kans., and those in Ottawa County, Okla. (g) Between points in Louisiana in or east of West Feliciana, Pointe Coupee, St. Martin, La Fayette, and Iberia Parishes, on the one hand, and, on the other, points in Labette and Montgomery Counties, Kans.

(2) *Iron and steel articles*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, the transportation of which because of size or weight requires the use of special equipment (except iron and steel buildings, complete, knocked down, or in sections, and except commodities which because of size or weight require the use of special equipment and pipe, pipeline material, machinery, equipment, and supplies incidental to and used in connection with the construction, dismantling and repairing of pipelines).

(a) Between points in Texas on or south of a line beginning at the Texas-Louisiana State line, and extending west along U.S. Highway 80 to Gladewater, thence along U.S. Highway 271 to Tyler, thence along U.S. Highway 69 to Jacksonville, thence along U.S. Highway 79 to Round Rock, thence along U.S. Highway 81 to Austin, thence along U.S. Highway 290 to Sonora, thence along U.S. Highway 277 to Eagle Pass, on the one hand, and, on the other, points in Illinois. (b) Between points in Texas on or south of U.S. Highway 80, on the one hand, and, on the other, points in Illinois on or east of a line beginning at the Illinois-Wisconsin State line near Hebron, and extending along Illinois Highway 47 to Decatur, thence along U.S. Highway 51 to Cairo. (c) Between points in Bowie, Cass, Hunt, Parker, Titus, Marion, Harrison, Upshur, Collin, Wise, Wood, and Rains Counties, Tex., on the one hand, and, on the other, points in Lake, McHenry, Kane, Cook, Du Page, Kendall, Kankakee, Iroquois, Vermilion, Edgar, Will, and Clark Counties, Ill. (d) Between points in Louisiana, on the one hand, and, on the other, points in Illinois. (e) Between points in Texas on or south of a line beginning at Farwell, and extending along U.S. Highway 60 to Bovina, thence along Texas Highway 86 to Estelline, thence along U.S. Highway 287 to Wichita Falls, thence along U.S. Highway 82 to Bells, thence along U.S. Highway 69 to Randolph, thence along Texas Highway 11 to

Pittsburg, thence along U.S. Highway 271 to Gilmer, thence along Texas Highway 154 to Marshall, and thence along U.S. Highway 80 to the Texas-Louisiana State line, on the one hand, and, on the other, points in Kentucky. (f) Between points in Texas in or south of Oldham, Potter, Carson, Gray, and Wheeler Counties (except those in Bowie, Cass, Titus, Red River, Lamar, and Fannin Counties), on the one hand, and, on the other, points in Kentucky on or east of U.S. Highway 41.

(g) Between points in Bowie, Cass, Titus, Red River, Lamar, and Fannin Counties, Tex., on the one hand, and, on the other, points in Kentucky on or east of a line beginning at Louisville, and extending along U.S. Highway 150 to Mt. Vernon, thence along U.S. Highway 25 to Corbin, and thence along U.S. Highway 25E to the Kentucky-Tennessee State line. (h) Between points in Louisiana, on the one hand, and, on the other, points in Kentucky on, east, or south of a line beginning at the Kentucky-Tennessee State line south of Scottsville, and extending along U.S. Highway 31E to Glasgow, thence along U.S. Highway 68 to Lexington, thence along U.S. Highway 60 to Mt. Sterling, thence along U.S. Highway 460 to Paintsville, and thence along U.S. Highway 23 to Louisa. (i) Between points in Louisiana in or west of St. Mary, St. Martin, Assumption, Iberville, West Baton Rouge, East Baton Rouge, and East Feliciana Parishes, on the one hand, and, on the other, points in Kentucky. (j) Between Sikeston, Mo., and points within 50 miles of Sikeston, on the one hand, and, on the other, points in Louisiana on or south of a line beginning at the Louisiana-Arkansas State line near Junction City, and extending along U.S. Highway 167 to Winfield, and thence along U.S. Highway 84 to the Louisiana-Texas State line, and that part of Texas on or south of a line beginning at Haslam, and extending along U.S. Highway 84 to Gatesville, thence along Texas Highway 36 to Abilene, and thence along U.S. Highway 80 to El Paso.

(3) *Iron and steel articles of structural steel, contractors' equipment* other than oil field, and *pipe* which because of size or weight require the use of special equipment, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except iron and steel buildings, complete, knocked down, or in sections, and except commodities which because of size or weight require the use of special equipment). (a) Between points in Louisiana in or east of West Feliciana, West Baton Rouge, Iberville, Assumption, and Terrebonne Parishes, on the one hand, and, on the other, points in Missouri, those in Kansas on or east of a line beginning at the Kansas-Nebraska State line near Chester, Nebr., and extending along U.S. Highway 81 to junction with Kansas Highway 61 southeast of McPherson, thence along Kansas Highway 61 to Hutchinson, thence along the Arkansas River to Wichita, and thence along Kansas Highway 15 to the Kansas-Oklahoma State line, and those in Oklahoma on, north, or east of a line beginning at the Oklahoma-Kansas State line near Coffeyville, Kans., and extending along U.S. Highway 75 to Bartlesville, and thence along U.S. Highway 60 to the Oklahoma-Missouri State line. (b) Between points in Louisiana, on the one hand, and, on the other, points in Missouri on or east of a line beginning at the Missouri-Iowa State line near Alexandria, and extending along U.S. Highway 61 to Troy, thence along Missouri Highway 47 to junction U.S. Highway 67 near Bonne Terre, Mo., and thence along U.S. Highway 67 to the Missouri-Arkansas State line. (c) Between points in Missouri on or north of a line beginning at the Missouri-Kansas State line near Freeman, and extending along Missouri Highway 2 to Windsor, thence along Missouri Highway 52 to Tuscumbia, thence along Missouri Highway 17 to Buckhorn, thence along U.S. Highway 66 to Rolla, thence along Missouri Highway 72 to Fredericktown, and thence along U.S. Highway 67 to the Missouri-Arkansas State line, on the one hand, and, on the other, points in Louisiana on and east of a line beginning at the Louisiana-Texas State line near Starks, and extending along Louisiana Highway 12 to Kinder, and thence along U.S. Highway 165 to the Louisiana-Arkansas State line.

(d) Between points in Louisiana on or east of a line beginning at the Louisiana State line near Jones, and extending along U.S. Highway 165 to Tullos, and thence along U.S. Highway 84 to Vidalia, on the one hand, and, on the other, points in Kansas on, north, or east of a line beginning at Kansas City, and extending along Kansas Highway 10 to Lawrence, thence along U.S. Highway 40 to Topeka, and thence along U.S. Highway 75 to the Kansas-Nebraska State line. (e) Between points in Louisiana on or east of a line beginning at the Louisiana-Texas State line near Many, and extending along Louisiana Highway 6 to Clarence, thence along U.S. Highway 84 to Joyce, thence along Louisiana Highway 34 to Monroe, and thence along U.S. Highway 165 to the Louisiana-Arkansas State line, on the one hand, and, on the other, points in Missouri on or east of a line beginning at the Missouri-Iowa State line near South Lineville, and extending along U.S. Highway 65 to Sedalia, thence along U.S. Highway 50 to Drake, thence along Missouri Highway 19 to Salem, thence along Missouri Highway 72 to Frederickstown, thence along U.S. Highway 67 to the Missouri-Arkansas State line. (f) Between points in Texas on or east of a line beginning at Brownsville, and extending along U.S. Highway 281 to Alice, thence over Texas Highway 44 to Robstown, thence over U.S. Highway 77 to Victoria, thence over U.S. Highway 59 to Houston, and thence over U.S. Highway 90 to the Texas-Louisiana State line, on the one hand, and, on the other, points in Missouri on and east of U.S. Highway 63.

(4) *Iron and steel articles consisting of road and bridge building materials*, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except iron and steel buildings, complete, knocked down, or in sections, and except commodities which because of size or weight require the use of special equipment). (a) Between points in Louisiana in or east of West Feliciana, West Baton Rouge, Iberville, Assumption, and Terrebonne Parishes, on the one hand, and, on the other, points in Missouri, Oklahoma, and that portion of Kansas within 300 miles of Joplin, Missouri. (b) Between points in Louisiana on or east of a line beginning at the Louisiana-Texas State line and extending along U.S. Highway 90 to Iowa, La., and thence over U.S. Highway 165 to the Louisiana-Arkansas State line, on the one hand, and, on the other, points in Missouri, and that part of Kansas on or east of U.S. Highway 69. (c) Between points in Louisiana on or east of a line beginning at the Louisiana-Texas State line near Many, and extending along Louisiana Highway 6 to Clarence, thence along U.S. Highway 84 to Joyce, thence along Louisiana Highway 34 to Monroe, and thence along U.S. Highway 165 to the Louisiana-Arkansas State line, on the one hand, and, on the other, points in Missouri on or east of U.S. Highway 63. (d) Between points in Louisiana, on the one hand, and, on the other, points in Missouri on or east of U.S. Highway 61. (e) Between points in Texas on or east of a line beginning at Laredo, and extending along U.S. Highway 59 to Houston, and thence along U.S. Highway 90 to the Texas-Louisiana State line, on the one hand, and, on the other, points in Missouri on or east of U.S. Highway 63. (f) Between points in Texas on or east of a line beginning at Laredo, and extending along U.S. Highway 81 to San Marcos, and thence along Texas Highway 21 to the Texas-Louisiana State line, on the one hand, and, on the other, points in Missouri on or east of a line beginning at Alexandria, and extending along U.S. Highway 61 to St. Louis, and thence along U.S. Highway 67 to the Missouri-Arkansas State line.

(5) *Iron and steel articles* consisting of mining, excavating, construction, and road building, contractors' equipment, and supplies, which by reason of size or weight requires special equipment, as described in Appendix V to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except iron and steel buildings, complete, knocked down, or in sections, and except commodities which because of size or weight require the use of special equipment), between points in Indiana, on the one hand, and, on the other, points in Louisiana, and that part of Texas on or south of a line beginning at the Texas-Louisiana State line near Marshall, and extending along U.S. Highway 80 to Abilene, and thence along U.S. Highway 277 to Eagle Pass. The purpose of this filing is to eliminate the gateways of: (1) Lake Providence, La., and Pine Bluff, Ark. [proposal numbers 1 (a), (b), (c), (d), (e), (f), and (g)], (2) Lake Providence, La. Memphis, Tenn., and West Memphis, Ark. [pro-

V 39 10 JUN 6 74 XUM

posal numbers 2 (a), (b), (c), and (d)]. (3) Lake Providence and Delhi, La., and Union City, Tenn. [proposal numbers 2 (e), (f), (g), (h), and (i)]. (4) Lake Providence, La. [proposal number 3(j)]. (5) Lake Providence, La., Memphis, Tenn., and Joplin, Mo. [proposal numbers 3 (a), (b), (c), (d), (e), and (f)]. (6) Lake Providence, La., and Warren, Ark. [proposal numbers 4 (a), (b), (c), (d), (e), and (f)]. (7) Lake Providence, La., Memphis, Tenn., West Memphis, Ark., and Cairo, Ill. (proposal number 5).

No. MC-107295 (Sub-No. E2), filed May 5, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prefinished wall paneling*, from Charlotte, N.C., (1) to points in Arizona, Louisiana, New Mexico, and Texas (Truman, Ark.);* (2) to points in Michigan and that part of Ohio in, east, and north of Lucas, Wood, Seneca, Crawford, Richland, Ashland, Holmes, Tuscarawas, Harrison, and Jefferson Counties (Chester, W. Va.);* and (3) to points in California, Colorado, Idaho, Illinois, Montana, Nevada, Oregon, Utah, Washington, Wyoming, and that part of Indiana in, north, and west of Vigo, Clay, Putnam, Hendricks, Marion, Clinton, Howard, Miami, Fulton, Marshall, and Fulton Counties (Paris, Ill.).* The purpose of this filing is to eliminate the respective gateways indicated by asterisks above.

No. MC-107295 (Sub-No. E5), filed May 5, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Pipe, conduit, and tubing*, from points in Livingston County, Ill., to points in Delaware, Maryland, New Jersey, Virginia, West Virginia, that part of South Carolina in and east of Lancaster, Kershaw, Lee, Sumter, Clarendon, Dorchester, Colleton, and Jasper Counties, and that part of North Carolina in and east of Ashe, Wilkes, Caldwell, Catawba, Lincoln, and Gaston Counties (Seville, Ohio);* (B) *steel pipe, steel conduit, and steel tubing*, when utilized as building parts or accessories, from points in Livingston County, Ill., to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont (Youngstown, Ohio);* and (C) *metal pipe, metal conduit, and metal tubing*, from points in Livingston County, Ill., to points in Louisiana, that part of Arizona on and south of a line beginning at the New Mexico-Arizona State line, thence along Interstate Highway 40 to Ash Fork, thence along U.S. Highway 66 to the Arizona-California State line, that part of Alabama in, south, and west of Baldwin and Washington Counties, that part of Mississippi in, south, and west of Bolivar, Sunflower, Humphreys, Yazoo, Madison, Scott, Jasper, and Wayne Counties, that part of New Mexico on and south of Interstate Highway 40/U.S. Highway 66, and that part of Texas in, south, and east of Wichita, Baylor, Haskill, Jones, Nolan, Mitchell, Howard, Midland, Ector, and Winker Counties (Pine Bluff, Ark), restricted in (A), (B), and (C), against the transportation (1) of oilfield commodities as described in *Mercer Extension—Oilfield Commodities*, 74 M.C.C. 459, and (2) of commodities which, because of size or weight, require the use of special equipment. The purpose of this filing is to eliminate the respective gateways indicated by asterisks above.

No. MC-107295 (Sub-No. E123), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal panels*, when utilized as prefabricated building parts, from the plantsite and storage facilities of H. H. Robertson Company at Ambridge, Pa., to points in Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington. The purpose of this filing is to eliminate the gateway of Galesburg, Ill.

No. MC-107295 (Sub-No. E124), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board*, from Edgewater, N.J., (1) to points in Arizona and California (Truman, Ark.);* and (2) to points in Idaho, Nevada, Oregon, Utah, and Washington (Kalamazoo, Mich.).* The purpose of this filing is to eliminate the respective gateways indicated by asterisks above.

No. MC-107295 (Sub-No. E125), filed May 13, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing*, from East St. Louis, Ill., (1) to points in West Virginia (Brookville, Ind.);* and (2) to points in North Dakota and South Dakota (Fort Dodge, Iowa).* The purpose of this filing is to eliminate the respective gateways indicated by asterisks above.

No. MC-107295 (Sub-No. E126), filed May 13, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition board*, from Deposit, N.Y., (1) to points in Arizona and California (Truman, Ark.);* and (2) to points in Idaho, Nevada, Oregon, Utah, and Washington (Kalamazoo, Mich.).* The purpose of this filing is to eliminate the respective gateways indicated by asterisks above.

No. MC-107295 (Sub-No. E127), filed May 13, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Particle board*, from Memphis, Tenn., (1) to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, Utah, Washington, and Wyoming (Truman, Ark.)*; and (2) to points in Connecticut, Delaware, Maine, Massachusetts, New Jersey, New York, Rhode Island, South Carolina, South Dakota, Vermont, West Virginia, and the District of Columbia (points in Henry County, Tenn:* The purpose of this filing is to eliminate the respective gateways indicated by asterisks above.

No. MC-110525 (Sub-No. E179), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials, hydrofluosilic acid, such naval stores as are chemicals, crude oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank vehicles, from those points in Georgia on, north and east of a line beginning at the Georgia-South Carolina State line, thence along Interstate Highway 20 to Atlanta, thence along Interstate Highway 85 to the Georgia-Alabama State line, to points in Florida. The purpose of this filing is to eliminate the gateway of Atlanta, Ga.

No. MC-110525 (Sub-No. 273), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677 (except bituminous products and materials), in bulk, in tank vehicles, from points in Maryland to points in Iowa. The purpose of this filing is to eliminate the gateways of Morgantown and Natrium, W. Va.

No. MC-110525 (Sub-No. E284), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Maryland to points in Nevada. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Addyston, Ohio.

No. MC-110525 (Sub-No. E289), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Maryland to points in North Dakota. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Addyston, Ohio.

No. MC-110525 (Sub-No. E296), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials, hydrofluosilic acid, such naval stores as are chemicals, crude tall oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank vehicles, from points in Maryland to points in Texas. The purpose of this filing is to eliminate the gateways of Greensboro, N.C., and Atlanta, Ga.

No. MC-110525 (Sub-No. E297), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Maryland to points in Utah. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Addyston, Ohio.

No. MC-110525 (Sub-No. E298), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Maryland to points in Washington. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Addyston, Ohio.

No. MC-110525 (Sub-No. E299), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), in bulk, in tank vehicles, from points in that part of Maryland on and east of Interstate Highway 81, to those points in that part of West Virginia on and west of a line beginning at the Maryland-West Virginia State line, then along U.S. Highway 219 to Bluefield, thence along U.S. Highway 19 to the West Virginia-Tennessee State line. The purpose of this filing is to eliminate the gateway of Morgantown, W. Va.

No. MC-110525 (Sub-No. E300), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in the *Maxwell* Co., *Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Maryland to points in Wisconsin. The purpose of this filing is to eliminate the gateway of points in Allegheny County, Pa.

No. MC-110525 (Sub-No. E354), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to points in that Jersey. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC-110525 (Sub-No. E355), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to pionts in that part of New York on and east of Interstate Highway 81. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC-110525 (Sub-No. E356), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), in bulk, in tank vehicles, from points in Michigan to points in North Carolina. The purpose of this filing is to eliminate the gateway of Institute, W. Va.

No. MC-110525 (Sub-No. E357), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicles, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to points in that part of Pennsylvania on and east of U.S. Highway 219. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC-110525 (Sub-No. E358), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to points in Rhode Island. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Fort Lee, N.J.

No. MC-110525 (Sub-No. E359), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), in bulk, in tank vehicles, from points in Michigan to points in South Carolina. The purpose of this filing is to eliminate the gateway of Institute, W. Va.

No. MC-110525 (Sub-No. E361), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except liquid hydrogen, liquid oxygen, and liquid nitrogen), in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to points in Vermont. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Syracuse, N.Y.

No. MC-110525 (Sub-No. E362), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials) in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to points in Virginia. The purpose of this filing is to eliminate the gateway of Institute, W. Va.

No. MC-110525 (Sub-No. E363), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* in bulk, in tank vehicles, from points in the Lower Peninsula of Michigan to points in West Virginia. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC-110525 (Sub-No. E364), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Mississippi to points in

V 39 110 JUN 6 74 XUM

Connecticut. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Newark, N.J.

No. MC–110525 (Sub-No. E365), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Mississippi to points in Delaware. The purpose of this filing is to eliminate the gateway of S. Charleston, W. Va.

No. MC–110525 (Sub-No. E366), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Mississippi to the District of Columbia. The purpose of this filing is to eliminate the gateway of S. Charleston, W. Va.

No. MC–110525 (Sub-No. E367), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Mississippi to points in Maine. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Syracuse, N.Y.

No. MC–110525 (Sub-No. E368), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Mississippi to points in Maryland. The purpose of this filing is to eliminate the gateway of S. Charleston, W. Va.

No. MC–110525 (Sub-No. E369), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Mississippi to points in Massachusetts. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Newark, N.J.

No. MC–110525 (Sub-No. E370), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk in tank vehicles, from points in Mississippi to points in New Hampshire. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Syracuse, N.Y.

No. MC–110525 (Sub-No. E371), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Mississippi to points in New Jersey. The purpose of this filing is to eliminate the gateway of S. Charleston, W. Va.

No. MC–110525 (Sub-No. E372), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Mississippi to points in Rhode Island. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Newark, N.J.

No. MC–110525 (Sub-No. E373), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Mississippi to points in Pennsylvania. The purpose of this filing is to eliminate the gateway of S. Charleston, W. Va.

No. MC–110525 (Sub-No. E374), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Mississippi to point in Rhode Island. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Newark, N.J.

No. MC–110525 (Sub-No. E375), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677 (except liquid hydrogen, liquid oxygen, and liquid nitrogen), in bulk, in tank vehicles, from points in Mississippi to points in Vermont. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Syracuse, N.Y.

No. MC–110525 (Sub-No. E376), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Mississippi to points in that part of Virginia on and east of a line beginning at the West Virginia-Virginia State line, thence along Virginia Highway 311 to Roanoke, thence along U.S. Highway 220 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateway of S. Charleston, W. Va.

No. MC–110525 (Sub-No. E377), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension Addyston*, 63 M.C.C. 677 (except bituminous products and materials), in bulk, in tank vehicles, from points in Mississippi to points in West Virginia. The purpose of this filing is to eliminate the gateway of S. Charleston, W. Va.

No. MC–110525 (Sub-No. 379), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Arizona. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E380), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials, hydrofluosilic acid, such naval stores as are chemicals, crude tall oil, black liquor skimmings, sulphate, and liquid alum), in bulk, in tank vehicles, from points in New Jersey to points in Arkansas. The purpose of this filing is to eliminate the gateways of Greensboro, N.C., and Atlanta, Ga.

No. MC–110525 (Sub-No. E381), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in California. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E382), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Colorado. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E383), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to the District of Columbia. The purpose of this filing is to eliminate the gateways of (1) points in Aston and Middletown Townships, Delaware County, Pa., and (2) Baltimore, Md.

No. MC–110525 (Sub-No. E384), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivatives of petroleum or bituminous materials), in bulk, in tank vehicles, from points in New Jersey to points in Florida. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E385), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), in bulk, in tank vehicles, from points in New Jersey to points in Georgia. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E386), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Idaho. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E387), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Illinois. The purpose of this filing is to eliminate the gatewar of Bridgeville, Pa.

No. MC–110525 (Sub-No. E388), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Indiana. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC–110525 (Sub-No. E389), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677 (except bituminous products and materials), from points in New Jersey to points in Iowa. The purpose of this filing is to eliminate the gateways of Follansbee and Natrium, W. Va.

No. MC 110525 (Sub-No. E390), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New Jersey to points in Kansas. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E436), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in New Mexico. The purpose of this filing is to eleminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E437), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in that part of New York on and east of Interstate Highway 81 to points in North Carolina. The purpose of this filing is to eliminate the gateways of Johnstown, Pa., and Baltimore, Md.

No. MC–110525 (Sub-No. E438), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), in bulk, in tank vehicles, from points in that part of New York west of Interstate Highway 81 to points in North Carolina. The purpose of this filing is to eliminate the gateway of Morgantown, W. Va.

No. MC–113843 (Sub-No. E23), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Connecticut to points in Minnesota. The purpose of this filing is to eliminate the gateway of LeRoy, N.Y.

No. MC–113843 (Sub-No. E78), filed May 3, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except in bulk, in tank vehicles), from Buffalo, N.Y., to points in Vermont, New Hampshire, and points in that part of Maine on and south of Maine Highway 25. [Notice No. 95]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before June 26, 1974. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75056. By order of May 30, 1974, the Motor Carrier Board approved the acquisition of control by Von E. Wilson, Carl E. Rhyne, and Spencer H. Lusk of Knoxville Tours, Inc., Knoxville, Tenn., through purchase of stock from N. W. Wolfenbarger and Ella Mae Wolfenbarger; Knoxville Tours, Inc., holds licenses in Nos. MC-12669 and MC-12669 (Sub-No. 1) issued November 28, 1958, and October 31, 1969, authorizing it to engage in operations as a broker at Knoxville, Tenn., in connection with transportation by motor vehicle of passengers and their baggage, in all expense round-trip tours, beginning and ending at points in Anderson, Blount, Knox, and Sevier Counties, Tenn., and in special and charter operations, beginning and ending at points in 30 named counties in Tennessee and extending to all points in the United States, including Alaska but excluding Hawaii. James W. Bell, 203 Clinch Avenue SW., Knoxville, Tenn. 37902, Attorney for applicants.

No. MC-FC-75156. By order of May 29, 1974, the Motor Carrier Board approved the transfer to Mosca Bros. Moving & Storage, Inc., Rome, N.Y., of the operating rights in Certificate No. MC-14063 issued April 3, 1974, to Payne Trucking, Inc., Rome, N.Y., authorizing the transportation of household goods between New York, N.Y., on the one hand, and, on the other, points in New York, Massachussetts, New Jersey, Pennsylvania, West Virginia, Ohio, Connecticut, Maryland, Michigan, New Hampshire, and Vermont. Robert J. Gallagher, 1776 Broadway, New York, N.Y. 10019, Attorney for applicants.

No. MC-FC-75168. By order of May 29, 1974, the Motor Carrier Board approved the transfer to Oble Nations, doing business as Tyler Bus Lines, Tyler, Tex., of a portion of Certificate No. MC-37640 (Sub-No. 5) issued November 24, 1964, to Texas Bus Lines, a corporation, Galveston, Tex., authorizing the transportation of passengers and their baggage, and express and newspapers in the same vehicle with passengers, between Tyler, Tex., to Mt. Pleasant, Tex.; between junction Texas Highway 155 and U.S. Highway 271, and junction unnumbered highway and U.S. Highway 271 east of Winona, Tex.; and between Gilmer, Tex., and Winona, Tex., serving named intermediate points. Mike Cotton, Esq., Attorney at Law, P.O. Box 1148, Austin, Tex. 78767.

No. MC-FC-75169. By order of May 31, 1974, the Motor Carrier Board approved ing, rugs, and padding from Inwood, N.Y. wood, N.Y., of the operating rights in Permit No. MC-134535 (Sub-No. 2) issued June 15, 1971, to Casale Contract Carriers, Inc., South Plainfield, N.J., authorizing the transportation of carpeting, rugs, and padding from Inwood, N.Y., to points in New Jersey, Philadelphia, Pa., Bridgeport, Conn., Staten Island, N.Y., and points in Bucks, Chester, Delaware, and Montgomery Counties, Pa., and Dedham, Mass. Edward F. Bowes, 744 Broad St., Newark, N.J. 07102, Attorney for transferee. Arthur J. Piken, One Lefrak City Plaza, Flushing, N.Y. 11368, Attorney for transferor.

No. MC-FC-75171. By order entered May 28, 1974, the Motor Carrier Board approved the transfer to James Transfer, Inc., St. Paul, Minn., of the operating rights set forth in Certificates Nos. MC-125370 (Sub-No. 2) and MC-125370 (Sub-No. 3), issued May 27, 1970, and February 6, 1974, respectively, to Maldwyn James, doing business as James Transfer, St. Paul, Minn., authorizing the transportation of malt beverages, from Milwaukee and Sheboygan, Wis., to Albert Lea, Austin, Owatonna, and Rochester, Minn.; from La Crosse, Wis., to Albert Lea, Austin, North Mankato, Owatonna, and Rochester, Minn.; and from St. Paul and Minneapolis, Minn., to points in Nebraska and that part of Iowa on and west of U.S. Highway 65, restricted against the transportation of shipments, destined to Mason City and Des Moines, Iowa. Howard S. Cox, 715 First National Bank Bldg., Minneapolis, Minn. 55402, attorney for applicants.

No. MC-FC-75172. By order of May 28, 1974, the Motor Carrier Board approved the transfer to Wells Express, Inc., Hoboken, N.J., of Certificate No. MC-42138 issued June 19, 1970, to Max Z. Shapiro, Kauneonga Lake, N.Y., authorizing the transportation of general commodities, with exceptions, between White Lake, N.Y., and New York, N.Y.; coal from Scranton, Honesdale, and Carbondale, Pa., to points in Sullivan County, N.Y.; and household goods between New York, N.Y., and points in Bergen, Hudson, Passaic, and Essex Counties, N.J., on the one hand, and, on the other, points in Sullivan County, N.Y. Mr. George A. Olsen (for Transferee), Registered Practitioner, 69 Tonnele Avenue, Jersey City, N.J. 07306; Leo Glass, Esq., (for Transferor), 248 Broadway, Monticello, N.Y. 12701.

No. MC-FC-75173. By order of May 30, 1974, the Motor Carrier Board approved the transfer to D. M. Bowman, Inc., Hagerstown, Md., of the operating rights in Permits Nos. MC-117613, MC-117613 (Sub-No. 1), MC-117613 (Sub-No. 2), MC-117613 (Sub-No. 6), MC-117613 (Sub-No. 7), MC-117613 (Sub-No. 11), and MC-117613 (Sub-No. 12) issued June 7, 1967, June 18, 1969, February 20, 1970, July 12, 1972, December 10, 1973, September 24, 1973, and April 8, 1974, respectively, to Donald M. Bowman, Jr., Hagerstown, Md., authorizing the transportation of various specified commodities, including brick and tile, from specified points in Virginia and Maryland to points in various eastern states, and building materials and supplies, from Gibbsboro, N.J., to points in named eastern states, under continuing contract, or contracts, with certain named shippers. Charles E. Creager, Registered Practitioner, 133 Overhill Drive, P.O. Box 1417, Hagerstown, Md. 21740, representative for applicants.

No. MC-FC-75177. By order entered May 30, 1974, the Motor Carrier Board approved the transfer to Martin Truck Line, Inc., Henderson, Tenn., of the operating rights set forth in Permit No. MC-123347, issued July 6, 1972, to E. W. Peery, doing business as Peery Trucking Co., Miston, Tenn., authorizing the transportation of steel pipe, steel retaining walls, and pipe-piling corrugated steel used in the fabrication of steel pipe, steel retaining walls, and steel tunneling, steel sheeting, guard rails, and fittings, parts, and attachments used in connection with the fabrication and installation of such items when moving incidental thereto and in the same vehicle therewith, corrugated metal pipe, and fittings, accessories, and attachments thereof, and septic tanks, from, and to points in Alabama, Arkansas, Georgia, Illinois, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Ohio, Oklahoma, Tennessee, and Texas, with certain restrictions. R. Connor Wiggins, Jr., 909 100 North Main Building, Memphis, Tenn. 38103, attorney for applicants.

[No. 35941]

WEST VIRGINIA INTRASTATE FREIGHT RATES AND CHARGES, 1973

At a Session of the INTERSTATE COMMERCE COMMISSION, Division 2, held at its office in Washington, D.C., on the 22nd day of May 1974.

It appearing, That by order served in this proceeding on December 28, 1973, an investigation was instituted by this Commission under section 13 of the Interstate Commerce Act, pursuant to a petition filed by certain railroads operating in West Virginia, to determine whether the intrastate rate level in West Virginia is unlawful because it does not include increases corresponding to the interstate increases authorized in Ex Parte Nos. 281 and 295;

It further appearing, That on April 5, 1974, the same petitioners filed a petition for leave to file an accompanying amended petition; and that a reply thereto has been filed;

It further appearing, That by said amendment, petitioners seek to have included in the instant investigation the matter of whether West Virginia intrastate freight rates and charges are unlawful to the extent that they do not include also the interim increase of 4 percent authorized by this Commission on December 20, 1973 in docket No. Ex Parte No. 303, Increased Freight Rates & Charges—1974—Nationwide;

It further appearing, That petitioners state that they could not have included the amended relief sought in their prior petition filed December 7, 1973 because, as indicated, the interim increase in Ex Parte No. 303 was not authorized until thereafter on December 20, 1973;

It further appearing, That petitioners allege that the said Ex Parte No. 303 interim increase of 4 percent applied to West Virginia intrastate commerce would provide approximately $900,000 in increased annual revenues for railroads operating in West Virginia and a commensurate loss if not granted; and that failure to include such increase in West Virginia intrastate rates results, therefore, in unjust discrimination against and an undue burden on interstate commerce;

And it further appearing, That the instant proceeding has not yet been assigned for hearing nor any evidence submitted herein; wherefore and for good cause:

It is ordered, That the amended petition be, and it is hereby, granted, and the instant investigation is hereby broadened to include also the matter of whether the present intrastate freight rates and charges in West Virginia are in any manner unlawful under section 13(4) of the act by reason of the failure of such rates and charges to include the interim increase authorized in Ex Parte No. 303 or whatever other increase may be ultimately authorized therein during the pendency of this proceeding.

It is further ordered, That all parties hereto, including the common carriers by railroad operating in West Virginia and those persons who previously notified this Commission that they intend to participate in this proceeding, shall be notified of the amendment to the investigation by service of a copy of this order upon them; that a copy shall be served upon the Governor of West Virginia and the West Virginia Public Service Commission at Charleston; and that notice to the general public shall be given by depositing a copy in the office of the Commission's Secretary and by filing a copy with the Director, Office of the Federal Register, for publication therein.

By the Commission, Division 2.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice No. 523]

ASSIGNMENT OF HEARINGS

JUNE 3, 1974.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after June 6, 1974.

MC-C-8131, Atlanta Motor Lines, Inc., et al. v. Brown Transport Corp., et al., now being assigned hearing August 6, 1974 (2 days), in Room 305, 1252 West Peachtree St. NW., Atlanta, Ga.

MC 118848 Sub-16, Domenico Bus Service, Inc., application dismissed.

W-552 Sub 15, American Commercial Barge Line Co., W-654 Sub 8, Warrior & Gulf Navigation Company—Extension—Tug & Barge, now assigned June 4, 1974, at Washington, D.C., is cancelled.

[SEAL] ROBERT L. OSWALD,
Secretary.

PILOT SCHOOLS

Title 14—Areonautics and Space

CHAPTER I—FEDERAL AVIATION ADMINMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 12547; Amdt. No. 141–13]

PART 141—PILOT SCHOOLS

The purpose of this amendment is to revise the standards for the certification of Pilot Schools prescribed in Part 141 of the Federal Aviation Regulations.

Interested persons have been afforded the opportunity to participate in this amendment by a notice of proposed rule making issued as Notice 73–5 published in the FEDERAL REGISTER on February 8, 1973 (38 FR 4046). Approximately 675 individuals, aeronautical associations and Government agencies presented comments in response to the notice. Based upon the public comments and upon further review within the FAA, a number of changes have been made to the proposed rules. Except for minor editorial changes and except as specifically discussed hereinafter, this amendment and the reasons therefor are the same as those contained in Notice 73–5.

Proposed § 141.5(b) would have required, among other things, that within 24 months before the date of its application for a pilot school certificate an applicant must have trained at its present base of operations at least 20 applicants for pilot certificates and ratings. A number of persons objected to the requirement that the 20 applicants have to be trained at the school's present base of operations. The comments point out that this proposal would force schools that had poor locations to remain at those locations rather than to try to update their facilities. On the other hand, some schools might be required to move from their present base of operations in order to meet various other requirements of the proposal. None of these schools could receive credit for the students trained at the prior location in meeting the eligibility requirements of the proposal. The FAA now recognizes that under the proposal an applicant could be penalized for complying with the new standards. Moreover, the proposal would discourage applicants from moving for the purpose of improving their facilities. For these reasons the proposed requirement has been withdrawn. There were also a number of comments objecting to the requirement that an applicant for a pilot school certificate must have trained at least 20 applicants for pilot certificates and ratings within the 24 month period before the date of its application. The comments state that this requirement would create a severe burden on many small schools and on those schools located in areas where continuous flight training operations are hampered by seasonal weather conditions. After further consideration in the light of these comments, the FAA agrees that it is not necessary in order to establish an applicant's qualifications to require that the applicant have recommended for pilot certificates and ratings at least 20 applicants for those certificates and ratings. The FAA considers that by recommending 10 applicants for pilot certificates and ratings within the 24 months prior to his application, an applicant for a pilot school certificate has shown that he has adequate recent training experience for that certificate. Finally, the term "designated flight examiner" has been corrected to "designated pilot examiner."

Several commentators questioned the need for the restriction in proposed § 141.15 on the location of pilot schools outside the United States. It was argued that by adopting this proposed requirement the FAA would contribute to a further decline in U.S. civil aviation leadership and that the decision as to whether or not to grant a certificate for a school located in a foreign country should be based on business and public need. One commentator indicated that the certification of international schools has been a significant factor in the export of U.S. manufactured general aviation aircraft and the potential loss of sales, and consequent loss in the balance of payments to the U.S. far outweighs the relatively minor expense and time consumed to provide inspection and surveillance of pilot schools outside the United States. The proposed § 141.15 reflects a long standing policy in the FAA with respect to the certification of pilot schools and it does not appear that this policy has resulted in any of the problems referred to in the comments. Therefore, there is no reason to expect that those problems will now arise simply because the existing policy is stated in the regulation. The purpose of certificated pilot schools is to provide pilot training for citizens of the United States. This is consistent with a similar requirement in Part 145 of the FARs concerning repair stations.

Proposed § 141.17(b) provides that a certificated pilot school or provisional pilot school has 15 days after change in ownership in which to apply for an appropriate amendment to its certificate. In response to a number of comments, that period has been changed to 30 days. The FAA now considers that this is in keeping with good business practice and would still accomplish FAA's objective.

The final regulation contains the new § 141.18 *Carriage of narcotic drugs, marihuana, and depressant or stimulant drugs or substances* which was added to Part 141 by Amendment 141–12 adopted June 19, 1973 (38 FR 17493).

After further consideration, the FAA has determined that under proposed § 141.23(c), a pilot school must remove from its premises all indication that the school is certificated by the Administrator not only when its certificate is surrendered, suspended, revoked or has expired but also when the school is moved to another location. This is necessary to avoid misleading potential applicants should a non-certificated school occupy the premises vacated by a certificated school. In addition, the FAA is aware that proposed § 141.23 does not carry out the FAA's intent as set forth in Notice 73–5. As stated in the preamble to that Notice, proposed § 141.23 should have required that when a school's certificate is surrendered, suspended, terminated, or revoked, any indication (including signs) that the school is certificated by the FAA be removed. However, as drafted, proposed § 141.23(c) incorrectly limited this provision to the school's premises. This has been corrected in the final rule.

In response to comments concerning proposed § 141.27(c)(2), the FAA now considers that a one year required waiting period before the holder of an expired provisional certificate may reapply for a renewal of its provisional certificate is too restrictive. The FAA believes that a waiting period of 180 days is sufficient to ensure that the provisional school makes every effort to meet the requirements for a pilot school certificate. The proposal has been changed accordingly. In addition, after further consideration, the FAA has determined that proposed paragraph (b)(2) of § 141.27 serves no useful purpose. As proposed a pilot school need only enroll one student in a course of training in order to meet the requirements for the renewal of its pilot school rating. However, as proposed the provision provides no assurance that a student would be enrolled for the purpose of training and not merely for the purpose of the certificate renewal. This provision has been withdrawn and after further study, may become the subject of a separate rule making action.

Proposed § 141.29 covers the validity of pilot school certificates that are in effect on the date that the revised Part 141 becomes effective. As proposed under paragraph (a) a pilot school certificate issued before the effective date of revised Part 141 remains in effect until the expiration date of that certificate unless it is sooner surrendered, suspended, or revoked. This will allow schools holding certificates on the effective date of revised Part 141 to continue to train students under the provisions of old Part 141 until the certificates expire (24 months after date of issuance) and will also allow students already enrolled in the school to continue their training. As pointed out in the preamble to Notice 73–5, the proposal also provided in paragraph (b) for the renewal of a pilot school certificate issued prior to the effective date of the revised Part 141 for the period of time necessary for those students who are enrolled in the school prior to the effective date of the revised Part to complete their training but in no event would the certificates be renewed for a period longer than 24 months after the effective date of the revised Part. This has been clarified in the final rule. In order to implement § 141.29, an amendment to Part 61 is being processed concurrently with this final rule which allows graduates of pilot schools operating under certificates issued under old Part 141 in accordance with § 141.29 to be tested for their pilot certificates under the requirements of Part 61 in effect prior to November 1, 1973. Under these provisions for a period of time some schools may hold dual certificates.

There were a number of objections to proposed § 141.31. As proposed the section prescribed the facilities an applicant must have available on a "continuous use" basis in order to obtain and hold a pilot school or a provisional pilot school certificate. As used in the proposal, a person has "continuous use" of a facility, including an airport, if it has

the use when needed as the owner or under a written agreement giving it that use for at least one year from the date of application for the initial certificate or a renewal. Most of the comments noted that since leases are negotiated for a year or less it would be extremely difficult under the proposal to have a lease coincide with application for initial certification or for renewal of a certificate. Moreover, FAA approved military schools rarely get a one year lease from the Government and a municipality may not wish to include an airport in a lease for one year. Based on these comments and after further study, the FAA does not consider it necessary to require a pilot school to have the use of a facility, including an airport, under a written agreement for a minimum of one year. It is enough if the school has "continuous use" at the time of application for, or renewal of, a certificate and for at least six months thereafter. This should meet the objections raised by the comments and, at the same time, assure that the schools will have the facilities and airports to provide the necessary continuity in training for their students.

Many of the persons commenting on § 141.33 apparently thought that the proposal would have prevented an applicant for a pilot school certificate from designating more than one instructor to assist the chief instructor. This was not intended and the proposal has been changed to require that, where necessary, a pilot school applicant shall designate at least one instructor to assist the chief instructor and to serve for him in his absence. In addition, the word "operations" has been deleted from § 141.33(a)(1) to make it clear that a pilot school applicant must show that it has adequate personnel and authorized instructors regardless of their assigned responsibilities.

A large number of comments were received with respect to the chief instructor qualifications in § 141.35. A majority of these comments objected to some aspect of this proposal. Among the more pertinent comments, was the comment that under the proposal, a person may qualify as a chief flight instructor with one year's experience as a flight instructor in an approved training course of a certificated pilot school. The comment pointed out that this could result in a flight instructor who has been employed on a "part time" basis and who has given a minimum of flight instruction being appointed to the responsible position of chief flight instructor. In addition, it was pointed out that the flight instructing experience required for a chief flight instructor in airplanes should be comparable to that required for helicopters, gliders, and as an instrument instructor. The comments also indicated that 1,000 hours of flight instructing experience in an airplane is unrealistic and unnecessary. Most commentators thought that the requirement of 500 hours as a certificated classroom instructor for a chief instructor in a ground school course should be deleted since there is presently no requirement to log or record classroom instruction. It was also suggested that the requirements for an assistant chief instructor should be reduced by 50 percent.

The FAA sees merit in most of the comments received on this proposal. After further consideration, it appears that the proposal should be given additional study. Therefore the proposed requirements have been withdrawn except those which require the chief instructor to pass an oral test on Parts 61, 91 and 141 and on the training standards of the course for which he is designated and to pass a flight test on the procedures and maneuvers appropriate to that course. In the meantime, the current requirements governing the chief flight instructor as set forth in present § 141.59 have been retained. They have, however, been revised to remove obsolete terms without making any substantive changes and without imposing any additional burdens on any person. Contrary to the opinions expressed in some of the comments, the FAA considers that an assistant chief instructor should meet the same experience and knowledge requirements as the chief instructor in order to prevent any derogation in the quality of instruction during the chief instructor's absence. Finally, the term "classroom instructor" has been corrected to "ground instructor" since there are no certificated classroom instructors.

By far the most controversial proposal in Notice 73–5 was the proposed new requirement for airports in § 141.37. Most commentators pointed out that very few airports currently used by pilot schools could meet these requirements and that many pilot schools use municipal facilities over which they have no control. They indicated that pilot schools must use the available airports, therefore the requirements for those airports should be limited to the minimum needed for safety. In view of the overwhelming number of comments in opposition to the proposed requirements, and based upon further consideration within the FAA, it has been determined that the proposed requirements exceed those necessary for a majority of the training aircraft in use today. The FAA is now aware that only a few of the airports available to pilot schools, including those recently constructed to FAA specifications, could meet the proposed standards. For the foregoing reasons, and in response to the comments, the FAA has determined that the present airport standards in Part 141 (§ 141.51(a)) should be retained as the minimum standards. However, the FAA considers that the requirements for a wind direction indicator, a traffic direction indicator and airport lighting as proposed in Notice 73–5 constitute a necessary upgrading of airports used by pilot schools and should be required in the interest of safety. With these exceptions, the proposed airport requirements have been withdrawn.

Section 141.39 of Notice 73–5 proposed requirements for the aircraft used by pilot schools. All of the comments concerning this proposal expressed concern over the requirement for an "operable transponder" in aircraft used for flight instruction and solo flights in IFR enroute operations and instrument approaches. The comments pointed out that under other regulations, in the airspace where transponders are required equipment in all aircraft, training aircraft along with other aircraft must have the transponder. However, in many areas of the country a transponder may not be usable due to the lack of ground radar coverage in the low altitude regions where most training flights are conducted. Moreover, it was pointed out that students may be instructed in the use and operation of transponder equipment by means of simulators and other ground training aids. Therefore, there is no need for a requirement in Part 141 that each aircraft used in IFR training be equipped with an operable transponder. The FAA agrees and the proposed requirement has been withdrawn.

There were some objections to the requirements in § 141.41 dealing with ground trainers and training aids. In particular the comments objected to the requirements that a pilot ground trainer must have an enclosed pilot's station or cockpit and must simulate motion. The comments indicated that such requirements are unnecessary. The FAA does not agree. An enclosed pilot station or cockpit is necessary not only to simulate the environment of instrument flight but to separate the student from distractions around the ground trainer. Moreover, the fundamentals of VFR flying require the student to relate motion to control movement. There were also some objections to the requirement that a ground trainer used for IFR instruction have a means of recording flight path. However, the FAA believes that such a requirement is necessary for effective IFR ground trainer instruction. Both the student and the instructor benefit when the trainer provides the capability of reconstructing a flight with a visual record of any mistakes made by the student. These proposed requirements have, therefore, not been changed. However, from the comments received in response to proposd § 141.41, it appears that there are a larger number of ground trainers currently being used by pilot schools that do not meet all of the requirements proposed in that section. Nevertheless, these other trainers can be used to provide effective instruction in certain of the operations required in an approved training course curriculum and there appears to be no reason why pilot schools should not be allowed to continue using those trainers for instruction. However, because of their limitations, full credit against flight time as proposed in the notice should not be allowed for instruction in such trainers. The final provisions in Appendixes A, C, D, E and F allow a credit for instruction in the other trainers of not more than 50 percent of the credit against flight time proposed for instruction in a ground trainer meeting all of the proposed requirements. This minor relaxation of the proposed requirement should not reduce the standard of training provided for in Notice 73–5. Finally, it appears from the

V 39 110 JUN 6 74 XUM

comments that the requirement that training aids and equipment must be adequate in size for the class and classroom for which it is used has resulted in considerable confusion. Upon further consideration, the FAA has determined that this proposed requirement is unnecessary and it has been withdrawn.

The term "readyroom" is used in § 141.43 and throughout the proposal. However, this term is now considered inappropriate and the more descriptive term "briefing area" is used in its place in the final rule. With further reference to § 141.43, the FAA does not now consider it necessary to require that the briefing areas be "located near the ramp and accessible to the dispatch office." In the light of the comments, the FAA believes that the schools should be allowed to locate their "briefing areas" where they best serve the particular needs of the school and its students and proposed § 141.43(a)(3) has been withdrawn. As proposed under paragraph (b) of § 141.43, an applicant for a pilot school certificate would have had to show that its required readyroom (now briefing area) was not available for use by another school or business during the time that it was required for use by the applicant. Some comments referred to this requirement as unnecessarily adding to the physical space required for a school and the expense of maintaining that school. The comments recommended a change in the proposal and they argue that there should be no conflict if a pilot school's briefing area is available for use in its air-taxi operations or in its business of serving transient pilots or aircraft renters at the same time that it is to be used by its students. After further consideration of this proposal, the FAA agrees that the use of a briefing area by the passengers of an air-taxi/commercial operator, or by transient pilots, or aircraft renters at the same time that it is available for use by a pilot school should not create interference with the functions of the schools and these are the only types of businesses likely to be using the facilities when they are also being used by the school. However, as proposed, the FAA still believes that it would not be appropriate to allow the simultaneous use of a briefing area by the students and instructors of more than one pilot school.

The term "classroom" has been changed in proposed § 141.45 and throughout the remaining provisions of Part 141 in response to a number of objections. The FAA believes that this provision should cover all training areas. Learning booths or corrals may be used more effectively in some learning situations and the requirements for lighting, heating and ventilation should also cover those training areas rather than be limited to the traditional "classroom." For this reason the title of proposed § 141.43 has been changed to "Ground training facilities." A number of commentators objected to the requirement that a classroom be located so that the students in that classroom would not be distracted by flight and maintenance operations on the airport. The comments indicated that small operators could be required to construct classrooms in order to meet this requirement. The FAA is aware that many ground training facilities are located on airports and that there will be occasional distractions created by operations on the airport. The purpose of this requirement is to isolate the ground training facilities from those routine operations on an airport that are continually distracting to students. The benefits to be derived from this proposal outweigh any financial burden that may result from compliance with the requirement.

In connection with proposed § 141.53, a large number of comments suggested that the FAA should prepare and publish sample course outlines for the pilot schools rather than require the schools to prepare and obtain approval of their own. This matter was considered at the time that Notice 73–5 was developed. As stated in the notice, consistent with the new total operational training concept incorporated in the recent revision to Part 61 of the Federal Aviation Regulations, a revamped concept of pilot training by a certificated pilot school is also necessary. In developing the proposed revision to Part 141 the major emphasis centered around the ability of a certificated school to, among other things, develop its own course of training. To assist the schools in the preparation of their training courses and to provide the desired standardization, the FAA has included a curriculum for each flight course in an Appendix to Part 141. This should reduce to a minimum the variance in the training courses approved in the district and regional offices throughout the FAA. Therefore, the FAA does not consider it necessary or appropriate to develop sample course outlines. The minimum curriculum prescribed for each training course substantially reduces the burden on the schools and provides the information needed to develop appropriate training courses. In addition, the FAA intends to provide additional guidelines for the benefit of all interested persons in the form of Advisory Circulars.

With further reference to § 141.53, a comment was received requesting that, in light of the requirement in § 141.13, it be made clear that an amendment to an existing course outline can be made without providing three copies of the entire course outline to the FAA. The FAA agrees and paragraph (b) of § 141.53 has been changed to make it clear that only three copies of the pages in the course outline to be amended need be furnished the FAA when an amendment to an approved training course is requested.

Section 141.55 is another of the proposals in Notice 73–5 which received substantial comments. Section 141.55 sets forth the required contents of the training course outline. Many of the commentators repeated their requests for FAA prepared course outlines. This suggestion has not been adopted, however, for the reasons discussed in connection with proposed § 141.53. However, a number of suggested changes have been made to § 141.55. In response to comments, the proposed requirement for a description of each audio-visual aid, projector, tape recorder, etc., in each training course outline, has been changed to require only that the outline contain a description of the "types" of such equipment. Thus, multiples of similar instructional aids need not be individually described. It should also be made clear that modern individual instructional aids, along with other training aids may be used in a course of training as long as the course objectives and standards as specified in this section are attained. In addition, the proposal has been changed to require a listing of the airports at which training flights originate rather than a description of those airports. Airport descriptions are on file with the FAA and are regularly published in the Airmen's Information Manual and other government manuals. On the other hand, as proposed, the final rule still requires a description of the facilities that are available for use by students and operating personnel at each airport. Proposed paragraph (b)(4) required that the tests and checks used to measure a student's accomplishments be included in the training syllabus. This was an oversight since such a requirement would destroy the integrity of those tests and checks. Since a description of the tests and checks will give the student the necessary information concerning the techniques that will be used to measure his progress, this is all that is required in the final rule.

The qualifications for examining authority under proposed § 141.63 have been changed in response to a large number of comments. The requirement that an applicant must have actively conducted a certificated pilot school "at its present base of operations" for at least 24 months has been withdrawn. The FAA agrees with the commentators that under this proposal a school that had poor facilities or a poor location would probably elect to remain at that location in order to meet this requirement rather than relocate to improve the school. This would not be in the public interest. Moreover, the FAA no longer believes that an applicant for an examining authority need graduate at least 20 students during the 24 months prior to its application. This provision would penalize the smaller schools and those schools in locations where continuous operations are hampered by seasonal weather conditions. For this reason, the proposal has been changed so that a school need graduate only 10 students during the preceding 24 months in order to be eligible for examining authority. Finally, proposed paragraph (b)(3) has been withdrawn. The proposal did not specify the kinds of violations involving pilot training which would make an applicant ineligible for examining authority. The comments generally requested a listing of those violations. The proposal covered all possible violations and a listing as requested is unnecessary. However, the FAA now believes that in light of other provisions in the regulation which establish the qualifications of the applicant through a showing of its training skills and management ability, the entire requirement is unnecessary.

As proposed under § 141.65 a pilot school holding an examining authority may recommend graduates of that school's approved certification courses for any pilot certificate and rating without taking the FAA flight or written test. The FAA is now aware that the failure to exclude flight instructor certificates, airline transport pilot certificates (ATR) and associated ratings and turbojet type ratings from that provision was an oversight. The examining authority is now and has always been limited to private and commercial pilot certificates and even with the increase in qualifications required of applicants for, and holders of, an examining authority under this proposed revision the FAA does not consider that the extension of that authority to cover instructor and airline transport pilot certificates and turbojet type ratings to be in the interest of safety. New Part 61 contains sweeping changes which establish new concepts of pilot training with the flight instructor as the keystone. Under new Part 61, the flight instructor will assume full responsibility for all phases of the required flight and ground training. Insofar as turbojet type ratings are concerned, most pilot schools have little experience with such sophisticated equipment and do not have the expertise to conduct a training course for such a rating without close monitoring by the FAA. In recognition of the need for high testing standards, the FAA maintains a continuous training program at the Aeronautical Center to qualify and keep current its most experienced inspectors to conduct turbojet practical tests. The average pilot school would not have access to such a specialized program. Finally, because of the privileges granted to the holder of an airline transport pilot certificate, the FAA feels it must retain sole authority for testing applicants for such certificates. An airline transport pilot certificate authorizes the holder to act as pilot in command of large aircraft engaged in air carrier and commercial operator operations governed by Part 121 of the FARs. The standards for airline transport pilots are constantly being monitored by the FAA and it would present a difficult task to disseminate the changes resulting from this monitoring program to all pilot schools for incorporation into their testing program. The FAA believes that it would be unfair to require anyone outside of the FAA to assume this burden. For the foregoing reasons, it would not be in the public interest, and the FAA did not intend, to give pilot schools authority to test applicants for the flight instructor and ATR certificates and for turbojet type ratings. Therefore, the proposed examining authority in § 141.65 insofar as it applied to instructor and ATR certificates and turbojet type ratings has been withdrawn.

In response to various comments paragraph (a) of § 141.67 has been revised to make it clear that the written or flight test referred to therein is an "FAA" written or flight test and that the holder of an examining authority may not recommend a person for the issuance of a pilot certificate or rating without taking the FAA tests unless that person has "satisfactorily" completed all of the approved course of training at the holder's school. Paragraph (b) has been revised to make it clear that the final written or flight test given by the holder of an examining authority must be given to a person who has completed the approved course of training and not to a person who has only enrolled in that course.

There were some objections to the requirement that a pilot school could not use a test more than once unless it contained appropriate changes in substance to preclude a compromise of the test by the students. The comments characterized this proposal as unrealistic and pointed out that the very active pilot schools would be constantly revising their tests. The FAA recognizes that the proposal creates some burden on the schools. However, it also recognizes the need to preclude the ground school written tests from being compromised. In light of the foregoing, the final rule has been relaxed and now prohibits any school from using a test it or the appropriate FAA District Office knows, or has reason to believe, has been compromised. This accomplishes the purpose of the proposal but does not require that each test be regularly revised.

The comments on § 141.75 stated that the check list contained in various operators handbooks should be adequate for the purpose of this regulation and recommended that the requirement for a separate check list be withdrawn. The FAA does not agree. A check list separate from the owners manual or operators handbook is essential in the interest of safety, particularly when there is only one pilot aboard the aircraft. The check lists in general use today, and which are the kind intended to be used under this proposal, contain the necessary items covering, among other things, preflight, takeoff, climb, cruise, prelanding, and emergency procedures, organized for efficient utilization. For safety reasons, such a check list must be readily accessible to the pilot, especially the student pilot, at all times, particularly during emergencies. The FAA does not believe that in an emergency a pilot school student should have to search through the pages of a manual or handbook to find the appropriate emergency procedures or any of the other necessary procedures. For this reason the proposal has not been changed.

A substantial number of comments objected to the proposal in § 141.77 that would prohibit the holder of a pilot school or provisional pilot school certificate from crediting a student with instruction or training received in another school for more than one-half of the lessons in the crediting school's approved training course. The commentators generally thought that in view of the intended upgrading of pilot schools under Notice 73–5, this proposal was arbitrary, discriminating, antiquated and indicated a lack of confidence in FAA approved schools. The comments pointed out that the proposal does not take into account the intended standardization of flight training systems throughout the industry and the proposed rule would allow only 50 per cent credit to a student for previous training even though the previous school and the new school had identical curriculums and training systems. Moreover, the proposal would not allow credit for previous training at other than an approved school which implies that the receiving school is not competent to judge a student's ability or entrance point in a training program. After full consideration of the comments the FAA now considers that the proposal is not in the public interest. It could in some instances work a severe hardship on the students, particularly VA students. Such students if forced to transfer to another school because of a need to relocate, could be required to retake a portion of their training, and the VA may be reluctant to pay for that training again. The present requirements of § 141.11(b) have been in effect for a number of years and have provided the necessary and appropriate latitude to pilot schools with respect to crediting a student's previous training. This revision to Part 141 constitutes an upgrading of the standards for pilot schools and for the first time requires that pilot schools certify as to the training that has been completed and the results of that training. Therefore, the FAA believes that the proposed limitation on crediting a student with instruction or training received in another school should be withdrawn and that the appropriate requirements in present § 141.11(b), should be retained.

A large number of persons objected to the proposal in § 141.79 providing that a student may not be authorized to start a solo practice flight from an airport until the flight has been approved by the authorized flight instructor who is present at that airport. The comments pointed out that in advance courses, a certificated pilot may be given the assignment of several practice flights before returning for a lesson with the instructor and there is no need for an authorized flight instructor to be present at the airport for each of these practice flights. A flight instructor should be able to authorize solo practice flights without waiting to dispatch a student on each practice flight. After further consideration the FAA agrees that the proposed requirement imposes an unnecessary burden on school operations with respect to students in the advanced courses. However, the student pilots in the Private Pilot Certification Course and the Private Test Course need close supervision and should not be allowed to start a solo practice flight until so authorized by the authorized flight instructor who is present at the airport. This is consistent with the requirement in Appendixes A and B that each student be given a preflight briefing and a postflight critique by the instructor after each training flight. The FAA agrees that the same supervision is not

V 39 110 JUN 6 74 XUM

necessary with respect to the more advanced courses which involve pilots holding at least a private pilot certificate. In this connection, the final rule does not require that a preflight briefing or a postflight critique be included in the curriculum for the advance courses. Finally, a minor change has been made in paragraph (d) to make it clear that flight instructors and not ground instructors must accomplish the required flight check.

Consistent with the change previously discussed concerning proposed § 141.35, the title to proposed § 141.81 has been changed to "Ground training." A number of comments concerning § 141.81 expressed the opinion that there is no need for the requirement that the chief instructor must be present and available during the time that ground training instruction is being given by a person who does not hold a flight or ground instructor certificate since the proposal also requires that such instruction be given under the direct supervision of the chief instructor. The commentators also indicated that even though the instructor is uncertificated, if he were found qualified to instruct by the chief instructor, as the proposal requires, he should be able to instruct without the chief instructor being present and available at the base when that instruction is being given. The FAA does not agree. The chief instructor must always be available at the base where instruction is being given for consultation with both certificated and uncertificated instructors on matters requiring his instruction and decision. In addition, since the chief instructor is allowed under this regulation to use uncertificated persons as ground instructors based on his own evaluation of their qualifications, the FAA believes that he must exercise direct supervision over that instruction and he must, therefore, be present at the base during the time that the instruction is being given. The FAA was concerned that this might not be obvious to all persons and in order to avoid confusion the proposed regulation contained both requirements. The comments clearly indicate the need to retain that part of the proposal. On the other hand, the certificated instructor has established his qualifications in accordance with the requirements of Part 143 of the FARs, and does not require supervision from the chief instructor to the same extent as the uncertificated person, even though the chief instructor would always be required to exercise the general supervision necessary to maintain training techniques, procedures and standards for the school as required in § 141.85. In any event, the requirement that the chief instructor must be present at the base when ground instruction by an uncertificated instructor is being given should impose no hardship on the chief instructor since he must approve the use of the uncertificated instructor and can schedule his time accordingly. Finally, the FAA believes that the ground school instructor should be permitted to give instruction under the direct supervision of either the chief instructor or his assistant chief instructor since they must meet the same requirements. The proposal has been changed accordingly.

Proposed paragraph (c) of § 141.83 requires that each school allow the Administrator to make tests, flight checks, or examinations of its students to determine compliance with the school's approved course of training. However, as proposed, the section does not expressly require that each school comply with its approved course of training. Therefore, paragraph (a) in the final rule has been corrected consistent with the requirements of paragraph (c) to make it clear that each school must comply with its approved course of training. Finally, in response to a number of comments, proposed § 141.83 has been changed to allow the tests given by a designated pilot examiner as well as the tests given by an FAA inspector to be used in measuring the quality of instruction of a certificated school.

A number of commentators expressed confusion concerning the general requirement in proposed § 141.85 that a chief instructor or his designated assistant must be present and available at the school's base of operation during the time that instruction is being given in an approved course of training. Since § 141.85 covers both flight and ground instructor responsibilities, the FAA recognizes the need to clarify this requirement consistent with the changes to the provisions of proposed § 141.81 for ground instructors. As previously stated, instruction by an uncertificated ground instructor must be under the direct supervision of the chief instructor and the chief instructor must, therefore, be present during the time that instruction is being given. This requirement is set forth in § 141.81 and there is no need to repeat it in this section. On the other hand, the chief instructor must always be available for consultation at the school's base of operation during instruction in an approved course of training whether the instruction is given by a certificated or an uncertificated instructor. This change is reflected in § 141.85 for both flight and ground instructors.

Proposed § 141.87 would have allowed the holder of a pilot school certificate to continue to conduct training or instruction for a course without a chief instructor for that course for a period of not more than 30 days pending the designation and approval of another chief instructor. The FAA now agrees with the majority of comments concerning this provision that 30 days does not provide sufficient time for most schools to obtain a qualified chief instructor and agrees that schools should have 60 days in which to obtain the services of a chief instructor. This change should have no adverse affect on safety since during this 60 day period, each stage and final test of a student enrolled in the approved course of training must be given by an FAA inspector or designated pilot examiner.

The proposed satellite base requirements in § 141.91 received a number of comments, principally regarding the 25 mile limitation and the requirement that the chief instructor has to be readily available for consultation. Many commentators were under the impression that like similar provisions in proposed §§ 141.81 and 141.85, this proposal required the chief instructor to be present at the satellite base during training or instruction in an approved course. This, however, was not proposed. As proposed the chief instructor need merely be available for consultation and the 25 mile limitation on satellite bases makes this a feasible requirement. Thus, in order to assure that a chief instructor can provide the necessary supervision and meet his other responsibilities with respect to a school's main base of operation and its satellite bases, the FAA considers it necessary to retain the 25 mile limitation as proposed.

A number of comments objected to the provision in proposed § 141.93 that required pilot schools to furnish each student, upon enrollment, with a copy of the approved training course outline. The FAA agrees and the final rule requires only that each student be furnished a copy of the training syllabus required in § 141.55(b). The training syllabus should provide the student with all the material he needs to enroll, train and graduate from an approved course. The training course outline will always be available at the school for examination by any interested student. Several commentators requested that the proposal be changed to require a school to forward a copy of each certificate of enrollment to the FAA District Office within a week or even a month after enrollment rather than within 5 days as proposed. The FAA does not agree. A weekly or monthly report would not serve the intended purpose. A pilot school could enroll, train and graduate a student from some short courses in less than a week. Under these conditions, the FAA could receive an enrollment certificate after the student had graduated with the result that there would not be proper surveillance of the short courses. Finally, the provision in paragraph (a) of § 141.93 requiring that a certificate of enrollment contain the date on which a student is required to complete the course has been withdrawn. This is consistent with the action taken by the FAA with respect to proposed § 141.95(c) in this final rule.

Numerous comments objected to the time limits for course completion specified in § 141.95(c). The comments pointed out that in some cases the student may have commitments that would prevent him from proceeding toward course completion at a normal rate and, in other cases, weather or other unforeseen circumstances could affect his course timing. The comments noted that while the use of prepared individual instructional programs encourage and facilitate the completion of courses on a predetermined schedule, the penalty under § 141.95(c) for failure to meet that schedule is severe and is unnecessary. The proposal was based on the FAA's belief that recent experience and a reasonably active training schedule are essential to good flight training and that active, diligent students graduate in the minimum time, with lower costs to themselves. The failure of pilot schools to graduate students after enrollment has been a longstanding problem and the proposal was designed to meet that problem. However, the FAA recognizes from the comments received that the schedules proposed for course completion were too restrictive and that the proposal did not provide the necessary flexibility. Nevertheless, the FAA believes that appropriate schedules for course completion can be developed and that such schedules should be established. This proposal has been withdrawn and will be given further study for inclusion in a future rule-making action.

Several comments recommended that the proposed Subpart F covering training records be withdrawn. The comments stated that it imposes an unnecessary and costly burden on the pilot schools. The FAA does not agree. This requirement will provide valuable records for students who transfer to other schools and will provide the long needed participation and accomplishment records for all students.

The proposed Appendixes which set forth the minimum curriculum requirements for each pilot training course also received a large number of comments in response to the Notice. The pertinent comments and the disposition of those comments are discussed separately for each Appendix.

Appendix A. A number of comments suggested that this Appendix should be revised to provide for advanced systems of instruction that coordinate learning in various subjects rather than treating each subject as a complete entity, unrelated to other subjects. The commentators expressed the opinion that the best course of instruction is one which furnishes information of the Federal Aviation Regulations, Navigation, Air Traffic Control, and Weather in cohesive units consistent with the student's progress in flight, his "need to know," and his ability to understand subjects in their application. The comments further indicated that where the subjects are taught as a coordinated whole, it is not practical to give examinations at the completion of each "group of classroom subjects" as proposed under paragraph 5(b). It is only practical to give examinations upon completion of each stage of training specified in the training syllabus required in the training course outline. The FAA agrees that modern training techniques and demands make it feasible to allow pilot schools to give their training courses by means of formal classroom instruction or individual instruction, as needed. The FAA believes that the position presented by the comments with respect to stage and final tests is valid and the proposal has been changed to require each student to satisfactorily accomplish a written examination at the completion of each stage of training specified in the approved training syllabus and a final test at the conclusion of the course. This also applies to the similar provisions in the other appendixes, and appropriate changes have been made to the stage and final test requirements of those appendixes.

It appears that there was some confusion concerning the term "classroom instruction" as used in all of the Appendixes. The comments point out that modern course materials intermix materials relating to the operation of aircraft, such as weight and balance computations, with basic principles of flight as appropriate to the stage of development of the student. These comments suggest that provision be made to allow the pilot schools to cover these subjects either in individual courses or in classroom instruction. The FAA did not intend, by using the term "classroom instruction," to prohibit individual instruction not conducted in a classroom. To make this clear, the term "classroom instruction" as used in each Appendix has been changed to "ground training" in the final rule.

Various comments concerning Appendix A, as well as Appendixes B, D, and E state that the requirement for a preflight briefing and a postflight critique for each training flight is unrealistic. They point out that many advance students may be scheduled for a solo practice flight with complete confidence without a preflight briefing or postflight critique by the flight instructor. The FAA agrees that not all training flights require a briefing and critique. However, the FAA considers that student pilots need a preflight briefing and postflight critique on all training flights. As discussed in connection with § 141.79, the more advanced students do not need this close supervision. Since the training flight involving student pilots would occur in the private pilot certification courses, the proposed requirement is retained in Appendixes A and B. It has been withdrawn from the remaining appendixes.

In reviewing the requirements of proposed paragraph 4 of Appendix A concerning solo flights, the FAA realizes that the proposal did not take into consideration schools located on islands where the required cross-country flights cannot be made safely. Therefore, to accommodate those shcools the provisions of paragraph 4 have been changed consistent with the new provisions in Part 61 to except schools located on islands where cross-country flights cannot be accomplished without flying over water more than 10 nautical miles from the nearest shoreline from compliance with paragraph 4. However, if other airports are available that permit civil operations and to which flights may be made without flying over water for more than 10 nautical miles, the school would have to show that its students completed two round trip solo flights between the airports that are farthest apart. Since any limitations on the cross-country training received by a graduate of a private pilot certification course is important for the purpose of certification under § 61.111 of Part 61 of the FARs, it is necessary that the pilot school indicate whether the graduating student met the full cross-country requirements or those applicable to pilot schools on small islands. The provision of § 141.95(b) have been changed accordingly.

Consistent with the relaxatory changes made in proposed § 141.77 the FAA has withdrawn the proposal which would have prohibited pilot schools from granting credit to its students for prior pilot training experience and tests.

Finally, a number of persons expressed the view that more flexibility should be provided in allocating the minimum of 35 hours of flight training between instructional and solo flights. It was suggested that the minimum time required for flight instruction be reduced from 20 to 15 hours and the minimum solo time be reduced from 15 to 10 hours with the remaining 10 hours to be allocated among instructional time, solo time and trainer time as deemed appropriate. The FAA does not agree. Revised Part 61 is the testing medium for all applicants and requires considerably more knowledge and skill than was previously required. The flight times proposed in the Notice provide the minimum training necessary to obtain the experience and skills needed under the revised testing requirements of Part 61.

Appendix B. With respect to Appendix B, Private Test Course (airplanes), the comments pointed out that the requirement for 12 hours of flight instruction under paragraph 4 would result in a student having 42 hours at graduation, whereas, only 40 hours is required under Part 61 of the FARs. Since it was not intended that the student in a pilot school meet higher requirements concerning flight time and training than required under Part 61 of the FARs, the proposal has been changed to require only a total of 10 hours of flight instruction under paragraph 4.

In addition, the experience requirements have been changed in format only to make them consistent with the similar requirements in Appendix E covering the Commercial Test Course (airplanes).

Finally, because of the changes made in § 141.77, the provision covering credit for previous training or tests proposed in paragraph 6 is now unnecessary and it has been withdrawn.

Appendix C. A number of comments received in response to proposed Appendix C recommended that the minimum flight training for an instrument rating course school be increased from 35 to 40 hours. The FAA does not agree. While it may take the average student more than 35 hours to complete an instrument rating course, there are students who can complete the course in the minimum time. To arbitrarily increase this minimum would place an undue burden on such persons. If a school desires to increase the minimum time required for completion of the course, it may do so simply by submitting the higher time requirement in the course outline for the instrument rating course.

The reference to "instrument approach plates" in paragraph 2(b) has been cor-

V 39—110 JUN 6 74 XUM

rected to read "instrument approach procedure charts."

Finally, there was an inadvertent omission in Notice 73–5 concerning the instrument flight training required under Appendix C. As proposed, paragraph 3 covering flight training omitted the requirement for training in cross-country flying in simulated or actual IFR conditions, on Federal airways or as routed by ATC, including one such trip of at least 250 nautical miles including VOR, ADF and ILS approaches at different airports. This requirement is included in § 61.65(c)(4) of Part 61 and § 141.83 provides that for a student who has completed a course of training for a pilot certificate or rating, the flight test is based on the standards prescribed in Part 61. Therefore, a student taking an instrument rating course under Part 141 is already required to be tested on the basis of the requirement of § 61.65(c)(4). For this reason, it is appropriate to incorporate that provision in the approved course curriculum for instrument rating courses by pilot schools. This correction imposes no additional burden on any person.

Appendix D. There were numerous comments on the curriculum for the Commercial Pilot Certification Course set forth in Appendix D. A majority of the comments objected to the requirement, in paragraph 3(b)(3), for ten hours of flight instruction in an airplane with, among other things, a true airspeed of more than 165 knots at the critical altitude with 75 percent power. The comments point out that of approximately 14 models of airplanes currently in production that meet the basic requirements of paragraph 3(b)(3), only two meet the true airspeed requirement. Most commentators thought that the proposed requirement was excessive. After further consideration in the light of comments the FAA considers that the airspeed requirement in paragraph 3(b)(3) is unnecessary. Therefore, this proposed requirement has been withdrawn and a more realistic requirement based on engine horsepower has been incorporated as suggested. The rule now requires the ten hours of instruction to be given in an airplane with retractable gear, flaps, and a controllable propeller, and powered by at least a 180 hp engine. A number of comments also stated that the proposed requirement for 100 hours of ground training is excessive and should be reduced by 20 percent. The FAA does not agree. Present Part 141 requires 150 hours of ground training to complete the commercial pilot ground school. This proposal reduced that figure by 50 hours while, at the same time, adding a requirement for ground training for an instrument rating. The FAA does not believe that any further reduction can be made in the hours of ground training without impairing the effectiveness of the course.

Proposed paragraph 3(c) allowed flight time as pilot in command of an airplane with not more than two other pilots assigned by the school to specific flight crew duties on the flight to be credited for not more than 50 hours of solo practice. In response to comments received concerning this paragraph, the provision has been changed to make it clear that no persons other than the additional pilots may be carried aboard the airplane. Moreover, the FAA now considers that it should be left up to the school to decide the number of pilots, including students in training, who should be assigned to flight crew duties on the airplane. The rule has been changed accordingly.

Proposed paragraph 3(c)(3) of Appendix D requires at least 5 hours of solo flight time in complex airplanes. The purpose of this requirement was to acquaint the student in a commercial pilot certification course with the complexities of a high performance airplane. However, this can be accomplished with the student acting as pilot in command just as well as during a solo flight while at the same time reducing the burden on the pilot schools who would be required to furnish an expensive airplane for solo use by relatively "low time" pilots. The commercial students will receive the required solo time under other provisions of the course curriculum. Therefore, it is considered appropriate to change the proposal to provide for 5 hours of pilot in command time on complex airplanes rather than require 5 hours of solo flight time in such airplanes. Consistent with this change, the requirement for a solo checkout in complex airplanes in paragraph 3(b)(3) has been withdrawn.

Appendix F. With respect to Appendix F, several comments objected to the requirement for 20 hours of flight instruction in order to obtain a type rating. It was pointed out that some operators are qualifying pilots on aircraft with approximately four hours of flight time in addition to detailed instruction on the aircraft systems and emergency and normal procedures, through the use of modern training aids, including simulators. The comments recommended 10 hours total, of which 75 percent could be obtained in a pilot ground trainer, as a conservative minimum requirement for pilot schools. After careful study, the FAA believes that the 20 hour requirement for a type rating could be reduced. This kind of training is directed primarily toward professional pilots with considerable experience and as the comments indicate, it would not take the average pilot 20 hours to get a type rating in many large airplanes. Therefore, the hours of flight instruction required for a type rating have been reduced to 10 hours.

Finally, the previous experience requirements proposed in paragraphs C.II (c), C.III(c), C.IV(a)(4), D.(d), D.III (c), E.II(c), E.III(c), E.IV(c) and E.V (c) of Appendix F have been withdrawn consistent with the changes made in § 141.77.

Appendix G. Appendix G was intended to prescribe the general curriculum appropriate to a pilot ground school course. However, as proposed, the curriculum contained the specific requirements for private and commercial certificates which are also set forth in the curriculum covering the individual pilot certification courses. This has created considerable confusion. Therefore, the curriculum requirements have been revised, without making any substantive change in the requirements, to make it clear that a pilot ground school may offer ground training for any of the certification or test preparation courses set forth in the other Appendixes of the Part, as long as its curriculum meets the ground training requirements specified in the curriculum for the particular courses.

Finally, the provision in Appendix G concerning the credit allowed for previous training and experience has been withdrawn consistent with the changes made in § 141.77.

Appendix H. Appendix H has been changed in response to various comments to make it clear that the instruction under paragraph 3(a)(2) (i) and (iii) is flight instruction with the instructor in the aircraft.

Any conforming changes to other parts of the Federal Aviation Regulations necessary to reflect the changes being made to Part 141 will be covered in a separate rulemaking action.

In consideration of the foregoing, Part 141 of the Federal Aviation Regulations is revised, effective November 1, 1974, to read as follows:

Subpart A—General

Sec.
141.1 Applicability.
141.3 Certificate required.
141.5 Pilot school certificate.
141.7 Provisional pilot school certificate.
141.9 Examining authority.
141.11 Pilot school ratings.
141.13 Application for issuance, amendment, or renewal.
141.15 Location of facilities.
141.17 Duration of certificates.
141.18 Carriage of narcotic drugs, marahauna, and depressant or stimulant drugs or substances.
141.19 Display of certificate.
141.21 Inspections.
141.23 Advertising limitations.
141.25 Business office and operations base.
141.27 Renewal of certificates and ratings.
141.29 Existing pilot school certificates; validity.

Subpart B—Personnel and Facilities Requirements

141.31 Applicability.
141.33 Personnel.
141.35 Chief instructor qualifications.
141.37 Airports.
141.39 Aircraft.
141.41 Ground trainers and training aids.
141.43 Pilot briefing areas.
141.45 Ground training facilities.

Subpart C—Training Course Outline and Curriculum

141.51 Applicability.
141.53 Training course outline: General.
141.55 Training course outline: Contents.
141.57 Special curricula.

Subpart D—Examining Authority

141.61 Applicability.
141.63 Application and qualification.
141.65 Privileges.
141.67 Limitations and reports.

Subpart E—Operating Rules

141.71 Applicability.
141.73 Privileges.
141.75 Aircraft requirements.
141.77 Limitations.

Sec.
141.79 Flight instruction.
141.81 Ground training.
141.83 Quality of instruction.
141.85 Chief instructor responsibilities.
141.87 Change of chief instructor.
141.89 Maintenance of personnel, facilities and equipment.
141.91 Satellite bases.
141.93 Enrollment.
141.95 Graduation certificate.

Subpart F—Records

141.101 Training records.

Appendices

Appendix A—Private pilot certification course (airplanes).
Appendix B—Private test course (airplanes).
Appendix C—Instrument rating course (airplanes).
Appendix D—Commercial pilot certification course (airplanes).
Appendix E—Commercial test course (airplanes).
Appendix F—Rotorcraft, gliders, lighter-than-air-aircraft and aircraft rating courses.
Appendix G—Pilot ground school course.
Appendix H—Test preparation courses.

AUTHORITY: Sections 313(a), 314, 601, 602, and 607 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1355, 1421, 1422, and 1427), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Subpart A—General

§ 141.1 Applicability.

This Part prescribes the requirements for issuing pilot school certificates, provisional pilot school certificates, and associated ratings and the general operating rules for the holders of those certificates and ratings.

§ 141.3 Certificate required.

No person may operate as a certificated pilot school without, or in violation of, a pilot school certificate or provisional pilot school certificate issued under this Part.

§ 141.5 Pilot school certificate.

An applicant is issued a pilot school certificate with associated ratings for that certificate if—

(a) It meets the pertinent requirements of Subparts A through C of this Part; and

(b) Within the 24 months before the date of application, it has trained and recommended for pilot certification and rating tests, at least 10 applicants for pilot certificates and ratings and at least 8 of the 10 most recent graduates tested by an FAA inspector or designated pilot examiner, passed that test the first time.

§ 141.7 Provisional pilot school certificate.

An applicant is issued a provisional pilot school certificate with associated ratings if it meets the pertinent requirements of Subparts A through C of this Part, but does not meet the recent training activity requirement specified in § 141.5(b).

§ 141.9 Examining authority.

An applicant is issued an examining authority for its pilot school certificate if it meets the requirements of Subpart D of this Part.

§ 141.11 Pilot school ratings.

Associated ratings are issued with a pilot school certificate or a provisional pilot school certificate, specifying each of the following courses that the school is authorized to conduct:

(a) *Certification courses.*
(1) Private pilot.
(2) Private test course.
(3) Instrument rating.
(4) Commercial pilot.
(5) Commercial test course.
(6) Additional aircraft rating.
(b) *Pilot ground school course.*
(1) Pilot ground school.
(c) *Test preparation courses.*
(1) Flight instructor certification.
(2) Additional flight instructor rating.
(3) Additional instrument rating.
(4) Airline transport pilot certification.
(5) Pilot refresher course.
(6) Agricultural aircraft operations course.
(7) Rotorcraft external loan operations course.

§ 141.13 Application for issuance, amendment, or renewal.

(a) Application for an original certificate and rating, for an additional rating, or for the renewal of a certificate under this Part is made on a form and in a manner prescribed by the Administrator.

(b) An application for the issuance or amendment of a certificate or rating must be accompanied by three copies of the proposed training course outline for each course for which approval is sought.

§ 141.15 Location of facilities.

Neither a pilot school certificate nor a provisional pilot school certificate is issued for a school having a base or other facilities located outside the United States unless the Administrator finds that the location of the base or facilities at that place is needed for the training of students who are citizens of the United States.

§ 141.17 Duration of certificates.

(a) Unless sooner surrendered, suspended, or revoked, a pilot school certificate or a provisional pilot school certificate expires—

(1) At the end of the twenty-fourth month after the month in which it was issued or renewed; or

(2) Except as provided in paragraph (b) of this section, on the date that any change in ownership of the school or the facilities upon which its certification is based occurs; or

(3) Upon notice by the Administrator that the school has failed for more than 60 days to maintain the facilities, aircraft, and personnel required for at least one of its approved courses.

(b) A change in the ownership of a certificated pilot school or provisional pilot school does no terminate that certificate if within 30 days after the date that any change in ownership of the school occurs, application is made for an appropriate amendment to the certificate and no change in the facilities, instructor, personnel or training course is involved.

(c) An examining authority issued to the holder of a pilot school certificate expires on the date that the pilot school certificate expires, or is surrendered, suspended, or revoked.

§ 141.18 Carriage of narcotic drugs, marihuana, and depressant or stimulant drugs or substances.

If the holder of a certificate issued under this Part permits any aircraft owned or leased by that holder to be engaged in any operation that the certificate holder knows to be in violation of § 91.12(a) of this chapter, that operation is a basis for suspending or revoking the certificate.

§ 141.19 Display of certificate.

(a) Each holder of a pilot school certificate or a provisional pilot school certificate shall display that certificate at a place in the school that is normally accessible to the public and is not obscured.

(b) A certificate shall be made available for inspection upon request by the Administrator, or an authorized representative of the National Transportation Safety Board, or of any Federal, State, or local law enforcement officer.

§ 141.21 Inspections.

Each holder of a certificate issued under this Part shall allow the Administrator to inspect its personnel, facilities, equipment, and records to determine its compliance with the Federal Aviation Act of 1958, and the Federal Aviation Regulations, and its eligibility to hold its certificate.

§ 141.23 Advertising limitations.

(a) The holder of a pilot school certificate or a provisional pilot school certificate may not make any statement relating to its certification and ratings which is false or designed to mislead any person contemplating enrollment in that school.

(b) The holder of a pilot school certificate or a provisional pilot school certificate may not advertise that the school is certificated unless it clearly differentiates between courses that have been approved and those that have not.

(c) The holder of a pilot school certificate or a provisional pilot school certificate—

(1) That has relocated its school shall promptly remove from the premises it has vacated all signs indicating that the school was certificated by the Administrator; or

(2) Whose certificate has expired, or has been surrendered, suspended, or revoked shall promptly remove all indications (including signs), wherever located, that the school is certficated by the Administrator.

§ 141.25 Business office and operations base.

(a) Each holder of a pilot school or a provisional pilot school certificate shall

V 39 110 JUN 6 74 XUM

maintain a principal business office with a mailing address in the name shown on its certificate. The business office shall have facilities and equipment that are adequate to maintain the required school files and records and to operate the business of the school. The office may not be shared with, or used by, another pilot school.

(b) Each certificate holder shall, before changing the location of its business office or base of operations, notify the FAA District Office having jurisdiction over the area of the new location. The notice shall be submitted in writing at least 30 days before the change. For a change in the holder's base of operations, the notice shall be accompanied by any amendments needed for the holder's approved training course outline.

(c) No certificate holder may conduct training at an operations base other than the one specified in its certificate, until—

(1) The base has been inspected and approved by the FAA District Office having jurisdiction over the school for use by the certificate holder; and

(2) The course of training and any needed amendments thereto have been approved for training at that base.

§ 141.27 Renewal of certificates and ratings.

(a) *Pilot school certificates.* The holder of a pilot school certificate may apply for a renewal of the certificate not less than 30 days before the certificate expires. If the school meets the requirements of this Part for the issuance of the certificate, its certificate is renewed for 24 months.

(b) *Pilot school ratings.* Each pilot school rating on a pilot school certificate may be renewed with that certificate for another 24 months if the Administrator finds that the school meets the requirements prescribed in this Part for the issuance of the rating.

(c) *Provisional pilot school certificates.* (1) A provisional pilot school certificate and any ratings on that certificate may not be renewed. However, the holder of that certificate may apply for a pilot school certificate with appropriate ratings not less than 30 days before the provisional certificate expires. The school is issued a pilot school certificate with appropriate ratings, if it meets the appropriate requirements of this Part.

(2) The holder of a provisional pilot school certificate may not reapply for a provisional pilot school certificate for at least 180 days after the date of its expiration.

§141.29 Existing pilot school certificates; validity.

(a) A pilot school certificate issued before November 1, 1974 remains in effect until the expiration date on that certificate, unless it is sooner surrendered, suspended, or revoked.

(b) A pilot school certificate issued before November 1, 1974, may be renewed under the requirements of Part 141 in effect before November 1, 1974, to allow those students enrolled in a school's approved course of training prior to November 1, 1974, to complete that training. The renewal is issued for a period long enough for the students to complete their training in the enrolled course, but not for more than 24 months after November 1, 1974.

Subpart B—Personnel, Aircraft, and Facilities Requirements

§ 141.31 Applicability.

This subpart prescribes the personnel and aircraft requirements for a pilot school or a provisional pilot school certificate. It also prescribes the facilities an applicant must have available to him on a continuous use basis to hold a pilot school or provisional pilot school certificate. As used in this subpart, a person has the continuous use of a facility, including an airport, if it has the use of the facility when needed as the owner, or under a written agreement giving it that use for at least 6 calendar months from the date of the application for the initial certificate or a renewal of that certificate.

§ 141.33 Personnel.

(a) An applicant for a pilot school or provisional pilot school certificate must show that—

(1) It has adequate personnel and authorized instructors, including a chief instructor for each course of training, who are qualified and competent to perform the duties to which they are assigned;

(2) Each dispatcher, aircraft handler, line crewman, and serviceman to be used has been instructed in the procedures and responsibilities of his employment. (Qualified operations personnel may serve in more than one capacity with a pilot school or provisional pilot school); and

(3) Each instructor to be used for ground or flight instruction holds a flight or ground instructor certificate, as appropriate, with ratings for the course of instruction and any aircraft used in that course.

(b) An applicant for a pilot school or a provisional pilot school certificate shall designate a chief instructor for each course of training who meets the requirements of a § 141.35 of this Part. Where necessary, the applicant shall also designate at least one instructor to assist the chief instructor and serve for the chief instructor in his absence. A chief instructor or his assistant may be designated to serve in that capacity for more than one approved course but not for more than one school.

§ 141.35 Chief instructor qualifications.

(a) To be eligible for a designation as a chief flight instructor or an assistant chief flight instructor for a course of training, a person must meet the following requirements:

(1) He must pass—

(i) An oral test on this Part and on Parts 61 and 91 of this chapter and on the training standards and objectives of the course for which he is designated; and

(ii) A flight test on the flight procedures and maneuvers appropriate to that course.

(2) He must meet the applicable requirements of paragraphs (b), (c), and (d) of this section. However, a chief flight instructor or an assistant chief flight instructor for a course of training for gliders, free balloons or airships is only required to have 40 percent of the hours required in paragraphs (b) and (c) of this section.

(b) For a course of training leading to the issuance of a private pilot certificate or rating, a chief flight instructor or an assistant chief flight instructor must have—

(1) At least a commercial pilot certificate and a flight instructor certificate, each with a rating for the category and class of aircraft used in the course;

(2) At least 1,000 hours as pilot in command;

(3) Primary flight instruction experience, acquired as either a certificated flight instructor or an instructor in a military pilot primary flight training program, or a combination thereof, consisting of at least—

(i) Two years and a total of 500 flight hours; or

(ii) 1,000 flight hours; and

(4) Within the year preceding designation, at least 100 hours of flight instruction as a certificated flight instructor in the category of aircraft used in the course.

(c) For a course of training leading to the issuance of an instrument rating or a rating with instrument privileges, a chief flight instructor or an assistant chief flight instructor must have—

(1) At least a commercial pilot certificate and a flight instructor certificate, each with an appropriate instrument rating;

(2) At least 100 hours of flight time under actual or simulated instrument conditions;

(3) At least 1,000 hours as pilot in command;

(4) Instrument flight instructor experience, acquired as either a certificated instrument flight instructor or an instructor in a military pilot basic or instrument flight training program, or a combination thereof; consisting of at least—

(i) Two years and a total of 250 flight hours; or

(ii) 400 flight hours; and

(5) Within the year preceding designation, at least—

(i) 100 hours of instrument flight instruction as a certificated instrument flight instructor; or

(ii) One year of active service as an FAA designated instrument rating examiner.

(d) For a course of training other than those that lead to the issuance of a private pilot certificate or rating, or an instrument rating or a rating with instrument privileges, a chief flight instructor or an assistant chief flight instructor must have—

(1) At least a commercial pilot certificate and a flight instructor certificate, each with a rating for the category and class of aircraft used in the course of training and, for a course of training using airplanes or airships, an instrument rating on his commercial pilot certificate;

(2) At least 2,000 hours as pilot in command;

(3) Flight instruction experience, acquired as either a certificated flight instructor or an instructor in a military pilot primary or basic flight training program or a combination thereof, consisting of at least—

(i) Three years and a total of 1,000 flight hours; or

(ii) 1,500 flight hours; and

(4) Within the year preceding designation, at least—

(i) 100 hours of pilot instruction as a certificated flight instructor in the category of aircraft use in the course;

(ii) One year of active service as chief flight instructor of an approved course of training; or

(iii) One year of active service as an FAA designated pilot examiner.

(e) To be eligible for designation as a chief instructor or an assistant chief instructor for a ground school course, a person must have one year of experience as a ground school instructor in a certificated pilot school.

§ 141.37 Airports.

(a) An applicant for a pilot school certificate or a provisional pilot school certificate must show that it has continuous use of each airport at which training flights originate.

(b) Each airport used for airplanes and gliders must have at least one runway or takeoff area that allows training aircraft to make a normal takeoff or landing at full gross weight—

(1) Under calm wind (not more than five miles per hour) conditions and temperatures equal to the mean high temperature for the hottest month of the year in the operating area;

(2) Clearing all obstacles in the takeoff flight path by at least 50 feet;

(3) With the powerplant operation and landing gear and flap operation, if applicable recommended by the manufacturer; and

(4) With smooth transition from liftoff to the best rate of climb speed without exceptional piloting skills or techniques.

(c) Each airport must have a wind direction indicator that is visible from the ends of each runway at ground level.

(d) Each airport must have a traffic direction indicator when the airport has no operating control tower and UNICOM advisories are not available.

(e) Each airport used for night training flights must have permanent runway lights.

§ 141.39 Aircraft.

An applicant for a pilot school or provisional pilot school certificate must show that each aircraft used by that school for flight instruction and solo flights meets the following requirements:

(a) It must be registered as a civil aircraft of the United States.

(b) Except for aircraft used for flight instruction and solo flights in a course of training for agricultural aircraft operations, external load operations and similar aerial work operations, it must be certificated in the standard airworthiness category.

(c) It must be maintained and inspected in accordance with the requirements of Part 91 of this chapter that apply to aircraft used to give flight instruction for hire.

(d) For use in flight instruction, it must be at least a two place aircraft having engine power controls and flight controls that are easily reached and that operate in a normal manner from both pilot stations.

(e) For use in IFR en route operations and instrument approaches, it must be equipped and maintained for IFR operations. However, for instruction in the control and precision maneuvering of an aircraft by reference to instruments, the aircraft may be equipped as provided in the approved course of training.

§ 141.41 Ground trainers and training aids.

An applicant for a pilot school or a provisional pilot school certificate must show that its ground trainers, and training aids and equipment meet the following requirements:

(a) *Pilot ground trainers.* (1) Each pilot ground trainer used to obtain the maximum flight training credit allowed for ground trainers in an approved pilot training course curriculum must have—

(i) An enclosed pilot's station or cockpit which accommodates one or more flight crewmembers;

(ii) Controls to simulate the rotation of the trainer about three axes;

(iii) The minimum instrumentation and equipment required for powered aircraft in § 91.33 of this chapter, for the type of flight operations simulated;

(iv) For VFR instruction, a means for simulating visual flight conditions, including motion of the trainer, or projections, or models operated by the flight controls; and

(v) For IFR instruction, a means for recording the flight path simulated by the trainer.

(2) Pilot ground trainers other than those covered under paragraph (a)(1) of this section must have—

(i) An enclosed pilot's station or cockpit, which accommodates one or more flight crewmembers;

(ii) Controls to simulate the rotation of the trainer about three axes; and

(iii) The minimum instrumentation and equipment required for powered aircraft in § 91.33 of this chapter, for the type of flight operations simulated.

(b) *Training aids and equipment.* Each training aid, including any audio-visuals, mockup, chart, or aircraft component listed in the approved training course outline must be accurate and appropriate to the course for which it is used.

§ 141.43 Pilot briefing areas.

(a) An applicant for a pilot school or provisional pilot school certificate must show that it has the continuous use of a briefing area located at each airport at which training flights originate, that is—

(1) Adequate to shelter students waiting to engage in their training flights;

(2) Arranged and equipped for the conduct of pilot briefings; and

(3) For a school with an instrument or commercial pilot course rating, equipped with private landline or telephone communication to the nearest FAA Flight Service Station, except that this communication equipment is not required if the briefing area and the flight service station are located on the same airport and are readily accessible to each other.

(b) A briefing area required by paragraph (a) of this section may not be used by the applicant if it is available for use by any other pilot school during the period it is required for use by the applicant.

§ 141.45 Ground training facilities.

An applicant for a pilot school or provisional pilot school certificate must show that each room, training booth, or other space used for instructional purposes is heated, lighted, and ventilated to conform to local building, sanitation, and health codes. In addition, the training facility must be so located that the students in that facility are not distracted by the instruction conducted in other rooms, or by flight and maintenance operations on the airport.

Subpart C—Training Course Outline and Curriculum

§ 141.51 Applicability.

This subpart prescribes the curriculum and course outline requirements for the issuance of a pilot school or provisional pilot school certificate and ratings.

§ 141.53 Training course outline: General.

(a) *General.* An applicant for a pilot school or provisional pilot school certificate must obtain the Administrator's approval of the outline of each training course for which certification and rating is sought.

(b) *Application.* An application for the approval of an initial or amended training course outline is made in triplicate to the FAA District Office having jurisdiction over the area in which the operations base of the applicant is located. It must be made at least 30 days before any training under that course, or any amendment thereto, is scheduled to begin. An application for an amendment to an approved training course must be accompanied by three copies of the pages in the course outline for which an amendment is requested.

§ 141.55 Training course outline: Contents.

(a) *General.* The outline for each course of training for which approval is requested must meet the minimum cur-

V 39 110 JUN 6 74 XUM

riculum for that course prescribed in the appropriate appendix of this Part, and contain the following information:

(1) A description of each room used for ground training, including its size and the maximum number of students that may be instructed in the room at one time.

(2) A description of each type of audio-visual aid, projector, tape recorder, mockup, aircraft component and other special training aid used for ground training.

(3) A description of each pilot ground trainer used for instruction.

(4) A listing of the airports at which training flights originate and a description of the facilities, including pilot briefing areas that are available for use by the students and operating personnel at each of those airports.

(5) A description of the type of aircraft including any special equipment, used for each phase of instruction.

(6) The minimum qualifications and ratings for each instructor used for ground or flight training.

(b) *Training syllabus.* In addition to the items specified in paragraph (a) of this section, the course outline must include a training syllabus for each course of training that includes at least the following information:

(1) The pilot certificate and ratings, if any; the medical certificate, if necessary; and the training, pilot experience and knowledge, required for enrollment in the course.

(2) A description of each lesson, including its objectives and standards and the measurable unit of student accomplishment or learning to be derived from the lesson or course.

(3) The stage of training (including the standards therefor) normally accomplished within each training period of not more than 90 days.

(4) A description of the tests and checks used to measure a student's accomplishment for each stage of training.

§ 141.57 Special curricula.

An applicant for a pilot school or provisional pilot school certificate may apply for approval to conduct a special course of pilot training for which a curriculum is not prescribed in the appendixes to this Part, if it shows that the special course of pilot training contains features which can be expected to achieve a level of pilot competency equivalent to that achieved by the curriculum prescribed in the appendixes to this Part or the requirements of Part 61 of this chapter.

Subpart D—Examining Authority

§ 141.61 Applicability.

This subpart prescribes the requirements for the issuance of an examining authority to the holder of a pilot school certificate and the privileges and limitations of that authority.

§ 141.63 Application and qualification.

(a) Application for an examining authority is made on a form and in a manner prescribed by the Administrator.

(b) To be eligible for an examining authority an applicant must hold a pilot school certificate. In addition, the applicant must show that—

(1) It has actively conducted a certificated pilot school for at least 24 months before the date of application; and

(2) Within the 24 months before the date of application for the examining authority, at least 10 students were graduated from the course for which the authority is requested, and at least 9 of the most recent 10 graduates of that course, who were given an interim or final test by an FAA inspector or a designated pilot examiner, passed that test the first time.

§ 141.65 Privileges.

The holder of an examining authority may recommend graduates of the school's approved certification courses for pilot certificates and ratings except flight instructor certificates, airline transport pilot certificates and ratings, and turbojet type ratings, without taking the FAA flight or written test, or both, in accordance with the provisions of this subpart.

§ 141.67 Limitations and reports.

(a) The holder of an examining authority may not recommend any person for the issuance of a pilot certificate or rating without taking the FAA written or flight test unless that person has—

(1) Been enrolled by the holder of the examining authority in its approved course of training for the particular pilot certificate or rating recommended; and

(2) Satisfactorily completed all of that course of training at its school.

(b) Each final written or flight test given by the holder of an examining authority to a person who has completed the approved course of training must be at least equal in scope, depth, and difficulty to the comparable written or flight test prescribed by the Administrator under Part 61 of this chapter.

(c) A final ground school written test may not be given by the holder of an examining authority to a student enrolled in its approved course of training unless the test has been approved by the FAA District Office having jurisdiction over the area in which the holder of the examining authority is located. In addition, an approved test may not be given by the holder of an examining authority when—

(1) It knows or has reason to believe that the test has been compromised; or

(2) It has been notified that the District Office knows or has reason to believe that the test has been compromised.

(d) The holder of an examining authority shall submit to the FAA District Office a copy of the appropriate training record for each person recommended by it for a pilot certificate or rating.

Subpart E—Operating Rules

§ 141.71 Applicability.

This subpart prescribes the operating rules that are applicable to a pilot school or provisional pilot school certificated under the provisions of this part.

§ 141.73 Privileges.

(a) The holder of a pilot school or a provisional pilot school certificate may advertise and conduct approved pilot training courses in accordance with the certificate and ratings that it holds.

(b) A certificate pilot school holding an examining authority for a certification course may recommend each graduate of that course for the issuance of a pilot certificate and rating appropriate to that course without the necessiy of taking an FAA written or flight test from an FAA inspector or designated pilot examiner.

§ 141.75 Aircraft requirements.

(a) A pretakeoff and prelanding checklist, and the operator's handbook for the aircraft (if one is furnished by the manufacturer) or copies of the handbook if furnished to each student using the aircraft, must be carried on each aircraft used for flight instruction and solo flights.

(b) Each aircraft used for flight instruction and solo flight must have a standard airworthiness certificate, except that an aircraft certificated in the restricted category may be used for flight training and solo flights conducted under special courses for agricultural aircraft operation, external load operations, and similar aerial work operations if its use for training is not prohibited by the operating limitations for the aircraft.

§ 141.77 Limitations.

(a) The holder of a pilot school or a provisional pilot school certificate may not issue a graduation certificate to a student, nor may a certificated pilot school recommend a student for a pilot certificate or rating, unless the student has completed the training therefor specified in the school's course of training and passed the required final tests.

(b) The holder of a pilot school or a provisional pilot school certificate may not graduate a student from a course of training unless he has completed all of the curriculum requirements of that course. A student may be credited, but not for more than one-half of the curriculum requirements, with previous pilot experience and knowledge, based upon an appropriate flight check or test by the school. Course credits may be transferred from one certificated school to another. The receiving school shall determine the amount to be transferred, based on a flight check or written test, or both, of the student. Credit for training and instruction received in another school may not be given unless—

(1) The other school holds a certificate issued under this Part and certifies to the kind and amount of training and to the result of each stage and final test given to that student;

(2) The training and instruction was conducted by the other school in accordance with that school's approved training course; and

(3) The student was enrolled in the other school's approved training course

before he received the instruction and training.

§ 141.79 Flight instruction.

(a) No person other than a flight instructor who has the ratings and the minimum qualifications specified in the approved training course outline may give a student flight instruction under an approved course of training.

(b) No student pilot may be authorized to start a solo practice flight from an airport until the flight has been approved by an authorized flight instructor who is present at that airport.

(c) Each chief flight instructor must complete at least once each 12 months, a flight instructor refresher course consisting of not less than 24 hours of ground or flight instruction, or both.

(d) Each flight instructor for an approved course of training must satisfactorily accomplish a flight check given to him by the designated chief flight instructor for the school by whom he is employed. He must also satisfactorily accomplish this flight check each 12 months from the month in which the initial check is given. In addition, he must satisfactorily accomplish a flight check in each type of aircraft in which he gives instruction.

(e) An instructor may not be used in an approved course of training until he has been briefed in regard to the objectives and standards of the course by the designated chief instructor or his assistant.

§ 141.81 Ground training.

(a) Except as provided in paragraph (b) of this section, each instructor used for ground training in an approved course of training must hold a flight or ground instructor certificate with an appropriate rating for the course of training.

(b) A person who does not meet the requirements of paragraph (a) of this section may be used for ground training in an approved course of training if—

(1) The chief instructor for that course of training finds him qualified to give that instruction; and

(2) The instruction is given under the direct supervision of the chief instructor or the assistant chief instructor who is present at the base when the instruction is given.

(c) An instructor may not be used in an approved course of training until he has been briefed in regard to the objectives and standards of that course by the designated chief instructor or his assistant.

§ 141.83 Quality of instruction.

(a) Each holder of a pilot school or provisional pilot school certificate must comply with the approved course of training and must provide training and instruction of such quality that at least 8 out of the 10 students or graduates of that school most recently tested by an FAA inspector or designated pilot examiner, passed on their first attempt either of the following tests:

(1) A test for a pilot certificate or rating, or for an operating privilege appropriate to the course from which the student graduated; or

(2) A test given to a student to determine his competence and knowledge of a completed stage of the training course in which he is enrolled.

(b) The failure of a certificated pilot school or provisional pilot school to maintain the quality of instruction specified in paragraph (a) of this section is considered to be the basis for the suspension or revocation of the certificate held by that school.

(c) The holder of a pilot school or provisional pilot school certificate shall allow the Administrator to make any test, flight check, or examination of its students to determine compliance with its approved course of training and the quality of its instruction and training. A flight check conducted under the provisions of this paragraph is based upon the standards prescribed in the school's approved course of training. However, if the student has completed a course of training for a pilot certificate or rating, the flight test is based upon the standards prescribed in Part 61 of this chapter.

§ 141.85 Chief instructor responsibilities.

(a) Each person designated as a chief instructor for a certificated pilot school or provisional pilot school shall be responsible for—

(1) Certifying training records, graduation certificates, stage and final test reports, and student recommendations;

(2) Conducting an initial proficiency check of each instructor before he is used in an approved course of instruction and, thereafter, at least once each 12 months from the month in which the initial check was conducted;

(3) Conducting each stage or final test given to a student enrolled in an approved course of instruction; and

(4) Maintaining training techniques, procedures, and standards for the school that are acceptable to the Administrator.

(b) The chief instructor or his designated assistant shall be available at the school's base of operations during the time that instruction is given for an approved course of training.

§ 141.87 Change of chief instructor.

(a) The holder of a pilot school or provisional pilot school certificate shall immediately notify in writing the FAA District Office having jurisdiction over the area in which the school is located, of any change in its designation of a chief instructor of an approved training course.

(b) The holder of a pilot school or provisional pilot school certificate may, after providing the notification required in paragraph (a) of this section and pending the designation and approval of another chief instructor, conduct training or instruction without a chief instructor for that course of training for a period of not more than 60 days. However, during that time each stage or final test of a student enrolled in that approved course of training must be given by an FAA inspector, or a designated pilot examiner.

§ 141.89 Maintenance of personnel, facilities, and equipment.

The holder of a pilot school or provisional pilot school certificate may not give instruction or training to a student who is enrolled in an approved course of training unless—

(a) Each airport, aircraft, and facility necessary for that instruction or training meets the standards specified in the holder's approved training course outline and the appropriate requirements of this Part; and

(b) Except as provided in § 141.87, each instructor or chief instructor meets the qualifications specified in the holder's approved course of training and the appropriate requirements of this Part.

§ 141.91 Satellite bases.

The holder of a pilot school or provisional pilot school certificate may conduct ground or flight training and instruction in an approved course of training at a base other than its main operations base if—

(a) The satellite base is located not more than 25 nautical miles from its main operations base;

(b) The airport, facilities, and personnel used at the satellite base meet the appropriate requirements of Subpart B of this Part and its approved training course outline;

(c) The instructors are under the direct supervision of the chief instructor for the appropriate training course, who is readily available for consultation; and

(d) The FAA District Office having juridiction over the area in which the school is located is notified in writing if training or instruction is conducted there for more than seven consecutive days.

§ 141.93 Enrollment.

(a) The holder of a pilot school or a provisional pilot school certificate shall furnish each student, at the time he is enrolled in each approved training course, with the following:

(1) A certificate of enrollment containing—

(i) The name of the course in which he is enrolled; and

(ii) The date of that enrollment.

(2) A copy of the training syllabus required under § 141.55(b).

(3) A copy of the safety procedures and practices developed by the school covering the use of its facilities and the operation of its aircraft, including instructions on the following:

(i) The weather minimums required by the school for dual and solo flights.

(ii) The procedures for starting and taxiing aircraft on the ramp.

(iii) Fire precautions and procedures.

(iv) Redispatch procedures after unprogrammed landings, on and off airports.

V 39 110 JUN 6 74 XUM

(v) Aircraft discrepancies and write offs.

(vi) Securing of aircraft when not in use.

(vii) Fuel reserves necessary for local and cross-country flights.

(viii) Avoidance of other aircraft in flight and on the ground.

(ix) Minimum altitude limitations and simulated emergency landing instructions.

(x) Description and use of assigned practice areas.

(b) The holder of a pilot school or provisional pilot school certificate shall, within 5 days after the date of enrollment, forward a copy of each certificate of enrollment required by paragraph (a)(1) of this section to the FAA District Office having jurisdiction over the area in which the school is located.

§ 141.95 Graduation certificate.

(a) The holder of a pilot school or provisional pilot school certificate shall issue a graduation certificate to each student who completes its approved course of training.

(b) The certificate shall be issued to the student upon his completion of the course of training and contain at least the following information:

(1) The name of the school and the number of the school certificate.

(2) The name of the graduate to whom it was issued.

(3) The course of training for which it was issued.

(4) The date of graduation.

(5) A statement that the student has satisfactorily completed each required stage of the approved course of training including the tests for those stages.

(6) A certification of the information contained in the certificate by the chief instructor for that course of training.

(7) A statement showing the cross-country training the student received in the course of training.

Subpart F—Records

§ 141.101 Training records.

(a) Each holder of a pilot school or provisional pilot school certificate shall establish and maintain a current and accurate record of the participation and accomplishment of each student enrolled in an approved course of training conducted by the school (the student's logbook is not acceptable for this record). The record shall include—

(1) The date the student was enrolled;

(2) A chronological log of the student's attendance, subjects, and flight operations covered in his training and instruction, and the names and grades of any tests taken by the student; and

(3) The date the student graduated, terminated his training, or transferred to another school.

(b) Whenever a student graduates, terminates his training, or transfers to another school, his record shall be certified to that effect by the chief instructor.

(c) The holder of a certificate for a pilot school or a provisional pilot school shall retain each student record required by this section for at least 1 year from the date that the student graduates from the course to which the record pertains, terminates his enrollment in that course, or transfers to another school.

(d) The holder of a certificate for a pilot school or a provisional pilot school shall, upon request of a student, make a copy of his record available to him.

APPENDIX A

PRIVATE PILOT CERTIFICATION COURSE (AIRPLANES)

1. *Applicability.* This Appendix prescribes the minimum curriculum for a private pilot certification course (airplanes) required by § 141.55.

2. *Ground training.* The course must consist of at least 35 hours of ground training in the following subjects:

(a) The Federal Aviation Regulations applicable to private pilot privileges, limitations, and flight operations; the rules of the National Transportation Safety Board pertaining to accident reporting; the use of the Airman's Information Manual; and the FAA Advisory Circular System.

(b) VFR navigation using pilotage, dead reckoning, and radio aids.

(c) The recognition of critical weather situations from the ground and in flight and the procurement and use of aeronautical weather reports and forecasts.

(d) The safe and efficient operation of airplanes, including high density airport operations, collision avoidance precautions, and radio communication procedures.

3. *Flight training.*

(a) The course must consist of at least 35 hours of the flight training listed in this section and section 4 of this Appendix. Instruction in a pilot ground trainer that meets the requirements of § 141.41(a)(1) may be credited for not more than 5 of the required 35 hours of flight time. Instruction in a pilot ground trainer that meets the requirement of § 141.41(a)(2) may be credited for not more than 2.5 hours of the required 35 hours of flight time.

(b) Each training flight must include a preflight briefing and a postflight critique of the student by the instructor assigned to that flight.

(c) Flight training must consist of at least 20 hours of instruction in the following subjects:

(1) Preflight operations, including weight and balance determination, line inspection, starting and runups, and airplane servicing.

(2) Airport and traffic pattern operations, including operations at controlled airports, radio communications, and collision avoidance precautions.

(3) Flight maneuvering by reference to ground objects.

(4) Flight at critically slow airspeeds, recognition of imminent stalls, and recovery from imminent and full stalls.

(5) Normal and crosswind takeoffs and landings.

(6) Control and maneuvering an airplane solely by reference to instruments, including emergency descents and climbs using radio aids or radar directives.

(7) Cross-country flying using pilotage, dead reckoning, and radio aids, including a two-hour dual flight at least part of which must be on Federal airways.

(8) Maximum performance takeoffs and landings.

(9) Night flying, including 5 takeoffs and landings as sole manipulator of the controls, and VFR navigation.

(10) Emergency operations, including simulated aircraft and equipment malfunctions, lost procedures, and emergency go-arounds.

4. *Solo flights.* The course must provide at least 15 hours of solo flights, including—

(a) *Solo practice.* Directed solo practice on all VFR flight operations for which flight instruction is required (except simulated emergencies) to develop proficiency, resourcefulness, and self-reliance; and

(b) *Cross-country flights.* (1) Ten hours of cross-country flights, each flight with a landing at a point more than 50 nautical miles from the point of departure, and one flight with landings at not less than three points, each of which is more than 100 nautical miles from the other points; or

(2) If a pilot school or a provisional pilot school shows that it is located on an island from which cross-country flights cannot be accomplished without flying over water more than 10 nautical miles from the nearest shoreline, it need not include cross-country flights under subparagraph (1) of this paragraph. However, if other airports that permit civil operations are available to which a flight may be made without flying over water more than 10 nautical miles from the nearest shoreline, the school must include in its course, two round trip solo flights between those airports that are farthest apart, including a landing at each airport on both flights.

5. *Stage and final tests.* (a) Each student enrolled in a private pilot certification course must satisfactorily accomplish the stage and final tests prescribed in this section. The written tests may not be credited for more than 3 hours of the 35 hours of required ground training, and the flight tests may not be credited for more than 4 hours of the 35 hours of required flight training.

(b) Each student must satisfactorily accomplish a written examination at the completion of each stage of training specified in the approved training syllabus for the private pilot certification course and a final test at the conclusion of that course.

(c) Each student must satisfactorily accomplish a flight test at the completion of the first solo cross-country flight and at the conclusion of that course.

APPENDIX B

PRIVATE TEST COURSE (AIRPLANES)

1. *Applicability.* This Appendix prescribes the minimum curriculum for a private test course (airplanes) required by § 141.55.

2. *Experience.* For enrollment as a student in a private test course (airplanes) an applicant must—

(a) Have logged at least 30 hours of flight time as a pilot; and

(b) Have such experience and flight training that upon completion of his approved private test course (airplanes) he will meet the aeronautical experience requirements prescribed in Part 61 of this chapter for a private pilot certificate.

3. *Ground training.* The course must consist of at least 35 hours of ground training in the subjects listed in § 2 of Appendix A of this Part.

4. *Flight training.* (a) The course must consist of a total of at least 10 hours of flight instruction in the subjects listed in § 3(c) of Appendix A of this Part.

(b) Each training flight must include a preflight briefing and a postflight critique of the student by the instructor assigned to that flight.

5. *Stage and final tests.* Each student enrolled in the course must satisfactorily accomplish the final tests prescribed in § 5 of Appendix A of this Part. Written tests may not be credited for more than 3 hours of the required 35 hours of ground training, and the flight tests may not be credited for more than 2 hours of the required 10 hours of flight training.

APPENDIX C

INSTRUMENT RATING COURSE (AIRPLANES)

1. *Applicability.* This Appendix prescribes the minimum curriculum for a training course for an Instrument Rating Course (airplanes) required by § 141.55.

2. *Ground training.* The course must consist of at least 30 hours of ground training instruction in the following subjects:

(a) The Federal Aviation Regulations that apply to flight under IFR conditions, the IFR air traffic system and procedures, and the provisions of the Airman's Information Manual pertinent to IFR flights.

(b) Dead reckoning appropriate to IFR navigation, IFR navigation by radio aids using the VOR, ADF, and ILS systems, and the use of IFR charts and instrument approach procedure charts.

(c) The procurement and use of aviation weather reports and forecasts, and the elements of forecasting weather trends on the basis of that information and personal observation of weather conditions.

(d) The function, use, and limitations of flight instruments required for IFR flight, including transponders, radar and radio aids to navigation.

3. *Flight training.* The course must consist of at least 35 hours of instrument flight instruction given by an appropriately rated flight instructor, covering the operations listed in paragraphs (a) through (d) of this section. Instruction given by an authorized instructor in a pilot ground trainer which meets the requirements of § 141.41(a)(1) may be credited for not more than 15 hours of the required flight instruction. Instruction in a pilot ground trainer that meets the requirements of § 141.41(a)(2) may be credited for not more than 7.5 of the required 35 hours of flight time.

(a) Control and accurate maneuvering of an airplane solely by reference to flight instruments.

(b) IFR navigation by the use of VOR and ADF systems, including time, speed and distance computations and compliance with air traffic control instructions and procedures.

(c) Instrument approaches to published minimums using the VOR, ADF, and ILS systems (instruction in the use of the ILS glide slope may be given in an instrument ground trainer or with an airborne ILS simulator).

(d) Cross-country flying in simulated or actual IFR conditions, on Federal airways or as routed by ATC, including one such trip of at least 250 nautical miles including VOR, ADF, and ILS approaches at different airports.

(e) Emergency procedures appropriate to the maneuvering of an airplane solely by reference to flight instruments.

4. *Stage and final tests.*

(a) Each student must satisfactorily accomplish a written test at the completion of each stage of training specified in the approved training syllabus for the instrument rating course. In addition, he must satisfactorily accomplish a final written test at the conclusion of that course. The written tests may not be credited for more than 5 hours of the 30 hours of required ground training.

(b) Each student must satisfactorily accomplish a flight stage test at the completion of each operation listed in paragraphs (a), (b), and (c) of section 3 of this Appendix. In addition, he must satisfactorily accomplish a final flight test at the completion of the course. The stage and final tests may not be credited for more than 5 hours of the required 35 hours of flight training.

APPENDIX D

COMMERCIAL PILOT CERTIFICATION COURSE (AIRPLANES)

1. *Applicability.* This Appendix prescribes the minimum curriculum for a commercial pilot certification course (airplanes) required by § 141.55.

2. *Ground training.* The course must consist of at least 100 hours of ground training instruction in the following subjects:

(a) The ground training subjects prescribed in section 2 of Appendix A of this Part for a private pilot certification course, except the private pilot privileges and limitations of paragraph (a) of that section.

(b) The ground training subjects prescribed in section 2 of Appendix C of this Part 141 for an Instrument Rating Course.

(c) The Federal Aviation Regulations covering the privileges, limitations, and operations of a commercial pilot, and the operations for which an air taxi/commercial operator, agricultural aircraft operator, and external load operator certificate, waiver, or exemption is required.

(d) Basic aerodynamics, and the principles of flight which apply to airplanes.

(e) The safe and efficient operation of airplanes, including inspection and certification requirements, operating limitations, high altitude operations and physiological considerations, loading computations, the significance of the use of airplane performance speeds, the computations involved in runway and obstacle clearance and crosswind component considerations, and cruise control.

3. *Flight training*—(a) *General.* The course must consist of at least 190 hours of the flight training and instruction prescribed in this section. Instruction in a pilot ground trainer that meets the requirements of § 141.41(a)(1) may be credited for not more than 40 hours of the required 190 hours of flight time. Instruction in a pilot ground trainer that meets the requirements of § 141.41(a)(2) may be credited for not more than 20 hours of the required 190 hours of flight time.

(b) *Flight instruction.* The course must consist of at least 75 hours of instruction in the operations listed in subparagraphs (1) through (6) of this paragraph. Instruction in a pilot ground trainer that meets the requirements of § 141.41(a)(1) may be credited for not more than 20 hours of the required 75 hours. Instruction in a pilot ground trainer that meets the requirements of § 141.41(a)(2) may be credited for not more than 10 hours of the required 75 hours.

(1) The pilot operations for the Private Piolt Course prescribed in § 3 of Appendix A of this Part.

(2) The IFR operations for the Instrument Rating Course prescribed in § 3 of Appendix C of this Part.

(3) Ten hours of flight instruction in an airplane with retractable gear, flaps, a controllable propeller, and powered by at least 180 hp. engine.

(4) Night flying, including a cross-country night flight with a landing at a point more than 100 miles from the point of departure.

(5) Normal and maximum performance takeoffs and landings using precision approaches and prescribed airplane performance speeds, including operations at maximum authorized takeoff weight.

(6) Emergency procedures appropriate to VFR and IFR flight and to the operation of complex airplane systems.

(c) *Solo practice.* The course must consist of at least 100 hours of the flights listed in subparagraphs (1) through (4) of this paragraph. Flight time as pilot in command of an airplane carrying only those persons who are pilots assigned by the school to specific flight crew duties on the flight may be credited for not more than 50 hours of that requirement.

(1) Directed solo practice on each VFR operation for which flight instruction is required (except simulated emergencies).

(2) At least 40 hours of solo cross-country flights, including one flight with landings at three points, each of which is more than 200 nautical miles from the other points, except that those flights conducted in the State of Hawaii may be made with landings at points which are 100 nautical miles apart.

(3) At least 5 hours of pilot in command time in an airplane described in paragraph (b)(3) of this section, including not less than 10 takeoffs and 10 landings to a full stop.

(4) At least 5 hours of night flight, including at least 10 takeoffs and 10 landings to a full stop.

4. *Stage and final tests*—(a) *Written examinations.* Each student enrolled in the course must satisfactorily accomplish a written test upon the completion of each stage of training specified in the approved training syllabus for the commercial pilot certification course. In addition, he must satisfactorily accomplish a final stage test at the completion of all of that course. The stage and final tests may be credited for not more than 6 hours of the required 100 hours of ground training.

(b) *Flight tests.* Each student enrolled in a commercial pilot certification course (airplanes) must satisfactorily accomplish a stage flight test at the completion of each of the stages listed in subparagraphs (1), (2), (3), (4), and (5), of this paragraph. In addition, he must satisfactorily accomplish a final test at the completion of all of those stages. The stage and final tests may not be credited for more than 10 hours of the required 190 hours of flight training.

(1) Solo.

(2) Cross-country.

(3) High performance airplane operations.

(4) IFR operations.

(5) Commercial Pilot Course test, VFR and IFR.

APPENDIX E

COMMERCIAL TEST COURSE (AIRPLANES)

1. *Applicability.* This Appendix prescribes the minimum curriculum for a commercial test course (airplanes) required by § 141.55.

2. *Experience.* For enrollment as a student in a commercial test course (airplanes) an applicant must—

(a) Hold a valid private pilot certificate;

(b) Hold a valid instrument rating, or be enrolled in an approved instrument rating course; and

(c) Have such experience and flight training that upon completion of his approved commercial test course he will meet the aeronautical experience requirements prescribed in Part 61 of this chapter for a commercial pilot certificate.

3. *Ground training.* The course must consist of at least 50 hours of ground training instruction in the following subjects:

(a) A review of the ground training subjects prescribed in § 2 of Appendix A of this Part 141 for a private pilot certification.

(b) A review of the ground training subjects prescribed in § 2 of Appendix C of this Part 141 for an instrument rating course.

(c) The Federal Aviation Regulations covering the privileges, limitations, and operations of a commercial pilot, and the operations for which an air taxi/commercial operator, agricultural aircraft operator, and external load operator certificate, waiver or exemption is required.

(d) Basic aerodynamics, and the principles of flight that apply to airplanes.

(e) The safe and efficient operation of airplanes, including inspection and certifica-

V 39 110 JUN 6 74 XUM

tion requirements, operating limitations, high altitude operations and psysiological considerations, loading computations, the significance and use of airplane performance speeds, and computations involved in runway and obstacles clerance and cross-wind component considerations.

4. *Flight training.*—(a) *General.* The course must consist of at least 25 hours of flight training prescribed in this section. Instruction in a pilot ground trainer that meets the requirements of § 141.41(a)(1) may be credited for not more than 20 per cent of the total number of hours of flight time. Instruction in a pilot ground trainer that meets the requirements of § 141.41(a)(2) may be credited for not more than 10 per cent of the total number of hours of flight time.

(b) *Flight instruction.* The course must consist of at least 20 hours of flight instruction in the subjects listed in subparagraphs (1) through (3) of this paragraph. Instruction in a ground trainer that meets the requirements of § 141.41(a)(1) may be credited for not more than 4 hours of the required 20 hours. Instruction in a ground trainer that meets the retquirements of § 141.41(a)(2) may be credited for not more than 2 hours of the required 20 hours.

(1) A review of the VFR operations prescribed in § 3 of Appendix A of this Part for a private course.

(2) A review of the IFR operations prescribed in § 3 of Appendix C of this Part for an instrument rating course.

(3) A review of the VFR operations prescribed in § 3(b)(3) through (6) of Appendix D of this Part for a commercial pilot certification course.

(c) *Directed solo practice.* If the course includes directed solo practice necessary to develop the flight proficiency of each student, the practice may not exceed a ratio of 3 hours of directed solo practice for each hour of the flight instruction required by the school's approved course outline.

5. *Stage and final tests.*—(a) *Written tests.* Each student enrolled in the course must satisfactorily accomplish a stage test upon the completion of each stage of training specified in the approved training syllabus for the commercial test course. In addition, he must satisfactorily accomplish a final test at the conclusion of that course. The stage and final tests may not be credited for more than 4 hours of the required 50 hours of ground training.

(b) *Flight tests.* Each student enrolled in the course must satisfactorily accomplish a final test at the completion of the course. However, if the approved course of training exceeds 35 hours he must be given a test at an appropriate stage prior to completion of 35 hours of flight training. The flight tests may not be credited for more than 3 of the required hours of flight training.

(c) *Total flight experience.* The approved training course outline must specify the minimum number of hours of flight instruction and directed solo practice (if any) that is provided for each student under the requirements of paragraphs (b) and (c) of § 4 of this Appendix. The total number of hours of all flight training given to a student under this section and the minimum experience required for enrollment under § 2 of this Appendix must meet the minimum aeronautical experience requirements of § 61.129 of this chapter for the issuance of a commercial pilot certificate.

APPENDIX F

ROTORCRAFT, GLIDERS, LIGHTER-THAN-AIR AIRCRAFT AND AIRCRAFT RATING COURSES

A. *Applicability.* This Appendix prescribes the minimum curriculum for a pilot certification course for a rotorcraft, glider, lighter-than-air aircraft, or aircraft rating, required by § 141.55.

B. *General Requirements.* The course must be comparable in scope, depth, and detail with the curriculum prescribed in Appendices A through D of this Part for a pilot certification course (airplanes) with the same rating. Each course must provide ground and flight training covering the aeronautical knowledge and skill items required by Part 61 of this chapter for the certificate or rating concerned. In addition, each course must meet the appropriate requirements of this Appendix.

C. *Rotorcraft*—I. *Kinds of rotorcraft pilot certification courses.* An approved rotorcraft pilot certification course includes—

(a) A helicopter or gyroplane course—private pilots;

(b) A helicopter or gyroplane course—commercial pilots; and

(c) An instrument rating—helicopter.

II. *Helicopter or gyroplane course: Private pilots.*

(a) A private pilot certification course for helicopters or gyroplanes must consist of at least the following:

(1) Ground training—35 hours.

(2) Flight training—35 hours, including the following:

(i) Flight instruction—20 hours.

(ii) Solo practice—10 hours, including a flight with landings at three points, each of which is more than 25 nautical miles from the other two points.

(b) Stage and final tests may be credited for not more than 3 hours of the 35 hours of ground training, and for not more than 4 hours of the 35 hours of flight training required by paragraphs (a)(1) and (a)(2) of this section.

III. *Helicopter or gyroplane course—commercial pilots.* (a) A commercial pilot certification course of training for helicopters or gyroplanes must consist of at least the following:

(1) Ground training—65 hours.

(2) Flight training—150 hours of flight training at least 50 hours of which must be in helicopters or gyroplanes.

The flight training must include the following:

(i) Flight instruction—50 hours.

(ii) Directed solo—100 hours (including a cross-country flight with landings at three points, each of which is more than 50 nautical miles from the other two points).

(b) Stage and final tests may be credited for not more than 5 hours of the required 65 hours of ground training, and for not more than 7 hours of the required 150 hours of flight training prescribed in paragraphs (a)(1) and (a)(2) of this section.

IV. *Instrument rating—helicopter course.* (a) An instrument rating—helicopter course of training must consist of at least the following:

(1) Ground training—35 hours.

(2) Instrument flight training—35 hours. Instrument instruction in a pilot ground trainer that meets the requirements of § 141.41(a)(1) may be credited for not more than 10 hours of the required 35 hours of flight training. Instruction in a ground trainer that meets the requirements of § 141.41(a)(2) may be credited for not more than 5 hours of the required 35 hours. The instrument flight instruction must include a 100-mile simulated or actual IFR cross-country flight, and 25 hours of flight instruction.

(3) Stage and final tests may be credited for not more than 5 hours of the 35 hours of required ground training, and not more than 5 hours of the 35 hours of instrument training.

D. *Gliders*—I. *Kinds of glider pilot certification courses.* An approved glider certification course includes—

(a) A glider course—private pilots; and

(b) A glider course—commercial pilots.

II. *Glider course: Private pilot.* A private pilot certification course for gliders must consist of at least the following:

(a) Ground training—15 hours.

(b) Flight training—8 hours (including 35 flights if ground tows are used, or 20 flights if aero tows are used). The flight training must include the following:

(1) Flight instruction—2 hours (including 20 flights if ground tows are used or 15 flights if aero tows are used).

(2) Directed solo—5 hours (including at least 15 flights if ground tows are used or 5 flights if aero tows are used).

(c) Stage and flight tests may be credited for not more than one hour of the 15 hours of ground training, and for not more than one-half hour of the 2 hours of flight instruction required by paragraphs (a)(1) and (a)(2) of this section.

III. *Glider course: Commercial pilot.* (a) An approved commercial pilot certification course for gliders must consist of at least the following:

(1) Ground training—25 hours.

(2) Flight training—20 hours of flight time in gliders (consisting of at least 50 flights), including the following:

(i) Flight instruction—8 hours.

(ii) Directed solo—10 hours.

(b) Stage and final tests may be credited for not more than 2 hours of the 25 hours of ground training, and for not more than 2 hours of the 20 hours of flight training required by paragraphs (a)(1) and (a)(2) of this section.

E. *Lighter-than-air aircraft*—I. *Kinds of lighter-than-air pilot certification courses.* An approved lighter-than-air pilot certification course includes—

(a) An airship course—private pilot;

(b) A free balloon course—private pilot;

(c) An airship course—commercial pilot; and

(d) A free balloon course—commercial pilot.

II. *Airship—private pilot.* (a) A private pilot certification course for an airship must consist of at least the following:

(1) Ground training—35 hours.

(2) Flight training—50 hours (45 hours must be in airships), including the following:

(i) Flight instruction—20 hours in airships.

(ii) Directed solo, or performing the functions of a pilot in command of an airship for which more than one pilot is required—10 hours.

(b) Stage and final tests may be credited for not more than 5 hours of the 35 hours of ground training, and not more than 5 hours of the 50 hours of flight training required by paragraphs (a)(1) and (a)(2) of this section.

III. *Free balloon course; private pilot.* (a) A private pilot course for a free balloon must consist of at least the following:

(1) Ground training—10 hours.

(2) Flight training—6 free flights, including—

(i) Two flights of one hour duration each if a gas balloon is used, or of 30 minutes duration if a hot air balloon is used;

(ii) At least one solo flight; and

(iii) One ascent under control to 5,000 feet above the point of takeoff if a gas balloon is used, or 3,000 feet above the point of takeoff if a hot air balloon is used.

(b) The written and stage checks may be credited for not more than one hour of the ground training, and not more than one of the 6 flights required by paragraph (a)(1) and (a)(2) of this section.

IV. *Airship course—commercial pilot.* (a) A commercial pilot course for an airship must consist of at least the following:

---

(1) Ground training—100 hours.

(2) Flight training—190 hours in airships as follows:

(i) Flight instruction—80 hours, including 30 hours instrument time.

(ii) 100 hours of solo time, or flight time performing the functions of a pilot in command in an airship that requires more than one pilot, including 10 hours of cross-country flying and 10 hours of night flying.

(b) Stage and final tests may be credited for not more than 6 hours of the 100 hours of ground training, and not more than 10 hours of the 190 hours of flight training required by paragraphs (a)(1) and (a)(2), respectively, of this section.

V. *Free balloon course; commercial pilot.* (a) A commercial pilot certification course for free balloons must consist of at least the following:

(1) Ground training—20 hours.

(2) Flight training—8 free flights, including—

(i) 2 flights of more than 2 hours duration if a gas balloon is used, or 2 flights of more than 1 hour duration if a hot air balloon is used;

(ii) 1 ascent under control to more than 10,000 feet above the takeoff point if a gas balloon is used, or to more than 5,000 feet above the takeoff point if a hot air balloon is used; and

(iii) 2 solo flights.

(b) Stage and final tests may be credited for not more than 2 hours of the 20 hours of ground training, and not more than one of the flights required by paragraphs (a)(1) and (a)(2), respectively, of this section.

F. *Aircraft rating course*—I. *Kinds of aircraft rating courses.* An approved aircraft rating course includes—

(a) An aircraft category rating;

(b) An aircraft class rating; and

(c) An aircraft type rating.

II. *Aircraft category rating.* An aircraft category rating course must include at least the ground training and flight instruction required by Part 61 of this chapter for the issuance of a pilot certificate with a category rating appropriate to the course. However, the Administrator may approve a lesser number of hours of ground training, or flight instruction, or both, if the course provides for the use of special training aids, such as ground procedures, trainers, systems mock-ups, and audio-visual training materials, or requires appropriate aeronautical experience of the students as a prerequisite for enrollment in the course.

III. *Aircraft class rating.* An aircraft class rating course must include at least the flight instruction required by Part 61 of this chapter for the issuance of a pilot certificate with a class rating appropriate to the course.

IV. *Aircraft type rating.* An aircraft type rating course must include at least 10 hours of ground training on the aircraft systems, performance, operation, and loading. In addition, it must include at least 10 hours of flight instruction. Instruction in a pilot ground trainer that meets the requirements of § 141.41(a)(1) may be credited for not more than 5 of the 10 hours of required flight instruction. Instruction in a pilot ground trainer that meets the requirements of § 141.41(a)(2) may be credited for not more than 2.5 of the 10 hours of required flight instruction.

APPENDIX G

PILOT GROUND SCHOOL COURSE

1. *Applicability.* This Appendix prescribes the minimum curriculum for a pilot ground school course required by § 141.55.

2. *General requirements.* An approved course of training for a pilot ground school course must contain the instruction necessary to provide each student with adequate knowledge of those subjects needed to safely exercise the privileges of the pilot certificate sought.

3. *Ground training instruction.* A pilot ground school course must include at least the subjects and the number of hours of ground training specified in the ground training section of the curriculum prescribed in the Appendixes to this Part for the certification or test preparation course to which the ground school course is directed.

4. *Stage and final tests.* Each student must pass a written test at the completion of each stage of training specified in the approved training syllabus for each ground training course in which he is enrolled. In addition, he must pass a final written test at the completion of the course. The stage and final tests may be credited towards the total ground training time required for each certification and test preparation course as provided in the curriculum prescribed in the Appendixes to this Part for that course.

APPENDIX H

TEST PREPARATION COURSES

1. *Applicability.* This Appendix prescribes the minimum curriculum required under § 141.55 of this Part 141 for each test preparation course listed in § 141.11.

2. *General requirements.*

(a) A test preparation course is eligible for approval if the Administrator determines that it is adequate for a student enrolled in that course, upon graduation, to safely exercise the privileges of the certificate, rating, or authority for which the course is conducted.

(b) Each course for a test preparation must be equivalent in scope, depth, and detail with the curriculum for the corresponding test course prescribed in Appendices A, B, C, and D of this Part 141. However, the number of hours of ground training and flight training included in the course must meet the curriculum prescribed in this Appendix. (The minimums prescribed in this Appendix for each test preparation course are based upon the amount of training that is required for students who meet the total flight experience requirements prescribed in Part 61 of this chapter at the time of enrollment.)

(c) Minimum experience, knowledge, or skill, requirements necessary as a prerequisite for enrollment are prescribed in the appropriate test preparation courses contained in this Appendix.

3. *Flight instructor certification course.*

(a) An approved course of training for a flight instructor certification course must contain at least the following:

(1) *Ground training*—40 hours.

(2) *Instructor training*—25 hours, including—

(i) 10 hours of flight instruction in the analysis and performance of flight training maneuvers;

(ii) 5 hours of practice ground instruction; and

(iii) 10 hours of practice flight instruction (with the instructor in the aircraft).

(b) *Credit for previous training of experience:* A student may be credited with the following training and experience acquired before his enrollment in the course.

(1) Satisfactory completion of two years of study on the principles of education in a college or university may be credited for 20 hours of the required 40 hours of ground training prescribed in paragraph (a)(1) of this section.

(2) One year of experience as a full-time instructor in an institution of secondary or advanced education may be credited for 5 hours of the required practice ground instruction prescribed in paragraph (a)(2) of this section.

(c) *Prerequisite for enrollment.* To be eligible for enrollment each student must hold—

(1) A commercial pilot certificate;

(2) A rating for the aircraft used in the course; and

(3) An instrument rating for enrollment in an airplane instructor rating course.

4. *Additional flight instructor rating courses.*

(a) An approved course of training for an additional flight instructor rating course must consist of at least the following:

(1) *Ground training*—20 hours.

(2) *Instructor training (with an instructor in the aircraft).* 20 hours, including—

(i) 10 hours of analysis of flight training maneuvers, or, in the case of a glider instructor rating course, 10 flights in a glider; and

(ii) 10 hours of practice flight instruction, or, in the case of glider instructor rating course, 10 flights in a glider.

5. *Additional instrument rating course (airplane or helicopter).*

(a) An approved training course for an additional instrument rating course must include at least the following:

(1) *Ground training*—15 hours.

(2) *Flight instruction*—15 hours.

(b) *Prerequisites for enrollment.* To be eligible for enrollment each student must hold a valid pilot certificate with an instrument rating, and an aircraft rating for the aircraft used in the course.

6. *Airline transport pilot test course.*

(a) An approved training course for an airline transport pilot test course must include at least the following:

(1) *Ground training*—40 hours.

(2) *Flight instruction*—25 hours, including at least 15 hours of instrument flight instruction.

(b) *Prerequisites for enrollment.* To be eligible for enrollment each student must—

(1) Hold a commercial pilot certificate with an instrument rating and a rating for the aircraft used in the course; and

(2) Meet the experience requirements of Part 61 of this chapter for the issuance of an airline transport pilot certificate.

7. *Pilot certificate, aircraft or instrument rating refresher course.*

(a) An approved refresher training course for a pilot certificate, aircraft rating, or an instrument rating must contain at least the following:

(1) *Ground training*—4 hours.

(2) *Flight instruction*—6 hours, which may include not more than 2 hours of directed solo or pilot in command practice.

(b) *Prerequisites for enrollment.* To be eligible for enrollment each student must hold a valid pilot certificate with ratings appropriate to the refresher course.

8. *Agricultural aircraft operations course.*

(a) An approved training course for pilots of agricultural aircraft must include at least the following:

(1) *Ground training*—25 hours, including at least 15 hours on the handling of agricultural and industrial chemicals.

(2) *Flight instruction*—15 hours, which may include not more than 5 hours of directed solo practice.

(b) *Prerequisite for enrollment.* To be eligible for enrollment each student must hold a valid commercial pilot certificate with a rating for the aircraft used in the course.

9. *Rotorcraft external-load operations course.*

(a) An approved training course for pilots of a rotorcraft with an external-load must contain at least the following:

(1) *Ground training*—10 hours.

(2) *Flight instruction*—15 hours.

(b) *Prerequisite for enrollment.* To be eligible for enrollment each student must

V 39 110 JUN 6 74 XUM

hold a valid commercial pilot certificate with a rating for the rotorcraft used in the course.

This revision is made under the authority of sections 313(a), 314, 601, 602, and 607 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1355, 1421, 1422, and 1427), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

NOTE: The reporting and recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Issued in Washington, D.C., on May 29, 1974.

ALEXANDER P. BUTTERFIELD,
Administrator.

FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Limitations on Coverage of Costs; Interim Schedule

V 39 110 JUN 6 74 XUM

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Regulations No. 5, further amended]

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Subpart D—Principles of Reimbursement for Provider Costs and for Services by Hospital-Based Physicians; Appeals by Providers

Subpart F—Agreements, Elections, Contracts, Nominations, and Notices

LIMITATIONS ON COVERAGE OF COSTS UNDER MEDICARE

On March 19, 1974, there was published in the FEDERAL REGISTER (39 FR 10260) a notice of proposed rule making with proposed amendments to Subparts D and F of Regulations No. 5 (20 CFR Part 405), regarding implementation of section 223 of Public Law 92–603 entitled "Limitations on Coverage of Costs Under Medicare." On April 30, 1974, an extension of the comment period was granted (39 FR 15045) giving interested parties until May 18, 1974, to submit written comments or suggestions thereon. Comments and suggestions received with regard to this Notice of Proposed Rules Making, responses thereto and changes in the proposed regulations are summarized below.

1. Many commenters recommended that the proposed regulations be revised to eliminate the necessity for providers to obtain intermediary approval of provider charges to beneficiaries for excess costs and the requirement that similar charges be made to all patients because such provisions are not in accordance with the law. The proposed regulations have been revised to clarify that the intermediary's only role is to validate the computation of the charge. Also, the regulations have been revised to eliminate the requirement that a provider electing to make charges based on excess cost must make such charges to all individuals entitled to benefits under title XVIII. This is not a requirement of the law, and it could result in unjustifiable hardship and difficulty.

2. In response to comments, the regulations have been revised to indicate that public notice required before a provider may impose excess charges on beneficiaries will be published as a notice in a newspaper of general circulation serving the provider's locality and such other notice as the Secretary may require.

3. A recommendation was received and adopted that the definition of "emergency services" in § 405.461(d) be revised to conform to the definition of "emergency services" used for purposes of payment to non-participating hospitals.

4. Comments were received indicating that no limits should be applied to providers. As this is clearly inconsistent with the statute, such suggestions could not be adopted.

5. Comments were received concerning a possible lack of sufficient recognition in the limits of the effect of the cost of teaching programs in a hospital. Our analysis of data indicated that teaching hospitals tended to be concentrated in certain classification groups so that almost always the limits applied to them seem to reflect well the costs of similar hospitals. Nevertheless, the regulations provide that, where a provider can demonstrate that its costs exceed the applicable limit by reason of teaching effort, an exception can be made to the application of the limit to the extent that the added costs flow from approved educational activities and are atypical (although reasonable) for providers in the comparison group. No definition of a teaching hospital that could be reflected in a classification system and could be assumed to improve the effectiveness of the system for setting limits on hospital inpatient general routine service costs has been advanced. As a result, no modifications have been made in response to these comments.

6. A number of comments expressed disagreement with various aspects of the classification system. It is recognized that the presently proposed limits may not be as refined as those which may be developed in the future. However, the initial limits will identify hospitals whose costs are substantially higher than those deemed necessary for efficient delivery of hospital inpatient general routine services. Efforts to develop a more advanced classification system—one that will permit improved identification of hospitals whose costs are excessive—will continue but awaiting the development of such a system is neither desirable nor necessary.

7. A recommendation was received but not adopted for the elimination of the requirement, in § 405.461(a)(2), that a high-cost provider may not impose charges on a beneficiary for emergency services. The basis for this recommendation is the view that charges could not in any event be made for emergency services on the assumption that the cost limits do not apply to such services. However, the language of the law contains no support for the view that the cost limits do not apply to emergency services but states specifically that no charges can be made by the high-cost provider for such services.

8. Recommendations were received, but not adopted, that § 405.461(a) (4) and (5) be modified to eliminate the requirement that the Social Security Administration identify to the public and the high-cost provider identify to the beneficiary the specified charges to meet the costs in excess of costs determined to be necessary in the efficient delivery of health services under title XVIII.

This requirement is contained specifically in section 1866(a) of the Social Security Act as amended by § 223 of P.L. 92–603 and, therefore, this suggestion could not be adopted.

9. A comment was received, but not adopted, that the requirement in section 405.461(a)(3), that the admitting physician have no direct or indirect financial interest in the high-cost provider which is making charges to his patients be modified by the insertion of "significant" before "direct or indirect financial interest." Section 1866(a) of the Social Security Act as amended by § 223 of P.L. 92–603 contains such wording and such a change would be contrary to the statute.

10. Under the provision for recovery by new providers of amounts unreimbursed as a result of application of cost limits published in the Notice of Proposed Rule Making or the lower of cost or charges provision, a new provider's recovery during any year of the new provider base period or recovery period was limited to the lesser of the amount by which the provider's charges exceeded cost or the amount by which the provider's costs were less than the applicable limit. As a result of further study, the Social Security Administration believes that this provision should be liberalized and simplified. Thus, the regulations have been revised to provide that where costs in the current reporting period are below the cost limit, the amount of the recovery of accumulated unreimbursable costs under the lower of cost or charges provision is only limited to the extent aggregate charges applicable to health insurance beneficiaries exceed aggregate costs for services provided to such beneficiaries during such reporting period.

11. A number of editorial changes have also been made in the interest of clarity.

The regulations are issued under the authority contained in sections 1102, 1861(v), 1866(a), and 1871; 49 Stat. 647, as amended; 79 Stat. 313, as amended; 79 Stat. 327, as amended; 79 Stat. 331; 42 U.S.C. 1302, 1395x(v), 1395cc(a), and 1395hh.

Effective date. These regulations will be effective July 1, 1974.

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged—Hospital Insurance.)

Dated: May 21, 1974.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: May 30, 1974.

FRANK CARLUCCI,
Acting Secretary of Health, Education, and Welfare.

Part 405 of Chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

Subpart D—Principles of Reimbursement for Provider Costs and for Services by Hospital-based Physicians; Appeals by Providers

1. In § 405.401, paragraph (a) is revised to read as follows:

§ 405.401 Introduction.

(a) Under the health insurance program for the aged and disabled, the amount paid to any provider of services—i.e., hospital, skilled nursing facility, or home health agency—for the covered services furnished to beneficiaries is required by section 1814(b) and section 1833(a)(2) of the Act to be the reasonable cost of such services subject to the provisions of §§ 405.455 and 405.460.

* * * * *

2. In § 405.402, paragraph (a) is revised to read as follows:

§ 405.402 Cost reimbursement: General.

(a) In formulating methods for making fair and equitable reimbursement for services rendered beneficiaries of the program, payment is to be made on the basis of current costs of the individual provider, rather than costs of a past period or a fixed negotiated rate. All necessary and proper expenses of an institution in the production of services, including normal standby costs, are recognized. Furthermore, the share of the total institutional cost that is borne by the program is related to the care furnished beneficiaries so that no part of their cost would need to be borne by other patients. Conversely, costs attributable to other patients of the institution are not to be borne by the program. Thus, the application of this approach, with appropriate accounting support, will result in meeting actual costs of services to beneficiaries as such costs vary from institution to institution. However, payments to providers of services for services rendered health insurance program beneficiaries are subject to the provisions of §§ 405.455 and 405.460.

§ 405.455 [Amended]

3. In § 405.455, paragraph (d)(1) is amended by adding at the end of the material preceding the example the sentence "However, no recovery may be made in any period in which costs are unreimbursed under § 405.460."

4. In § 405.455, paragraph (d)(2) is revised to read as follows:

(2) *New provider*—(i) *General.* A new provider of services may carry forward for five succeeding cost reporting periods costs attributable to program beneficiaries which are unreimbursed under the provisions of this section during a base period, which includes any cost reporting period which begins after December 31, 1973, and ends on or before the last day of its third year of operation. Where beneficiary charges exceed reasonable cost in the five succeeding reporting periods, such previously unreimbursed amounts carried forward shall be reimbursed to the provider to the extent that such previously unreimbursed amounts carried forward, together with costs applicable to program beneficiaries in such subsequent periods, do not exceed customary charges with respect to services to program beneficiaries in such subsequent periods. If such five succeeding cost reporting periods combined include fewer than 60 full calendar months, the provider may carry forward costs unreimbursed under this section for one additional reporting period.

Example. A provider begins its operations on March 5, 1972. However, it begins to participate in the Medicare program as of January 1, 1973, and reports on a calendar year basis. Since it would be subject to the application of the provision for its cost reporting period beginning with January 1, 1974, it would be permitted to accumulate any unreimbursed costs (excess of costs over its charges) incurred during this reporting period. Since this cost reporting period ends before the end of the third year of operation, its carryover period will be the succeeding five cost reporting periods ending with December 31, 1979. Had this provider begun its operation on July 1, 1973, and become a participating provider as of the same date (with a fiscal year ending June 30), it would have been able to accumulate any unreimbursed costs for the two cost reporting periods ending June 30, 1975, and June 30, 1976. Its carryover period would then be the five cost reporting periods ending no later than June 30, 1981, in the case of costs unreimbursed in either of the reporting periods ending June 30, 1975, and June 30, 1976.

(ii) *New provider base period; unreimbursed costs under lower of cost or charges.* Where costs of a new provider are unreimbursed under this section but no costs are unreimbursed under § 405.460 during the new provider base period, such previously unreimbursed amounts which a provider may recover during any cost reporting period in the new provider base period or carry forward period is limited to the amount by which the aggregate customary charges applicable to health insurance beneficiaries during any such period exceed the aggregate costs applicable to such beneficiaries during that period, without regard to the application of the cost limits described in § 405.460(d) during the recovery period; except that no recovery may be made in any period in which costs are unreimbursed under § 405.460.

(iii) *New provider base period; unreimbursed costs under lower of cost or charges and cost limits.* Where costs of a new provider are unreimbursed under both this section and § 405.460 during the base period, such previously unreimbursed amounts carried forward shall be reimbursed to the provider in accordance with § 405.460(g)(3)(ii).

5. Section 405.460 is added to read as follows:

§ 405.460 Limitations on coverage of costs.

(a) *Principle.* In the determination of the allowability of provider costs, costs estimated to be in excess of those necessary in the efficient delivery of needed health services are excluded. Such estimates may be made with respect to direct or indirect overall costs or costs of specific items or services, or groups of items or services and upon publication in the FEDERAL REGISTER will constitute limits on amounts otherwise payable under the program. These limits will be imposed prospectively and may be on a per diem, per visit, or other basis.

(b) *Application.* In determining the limits to be applied, providers may be classified by type of provider (e.g., hospitals, skilled nursing facilities, and home health agencies) and within each provider class by such factors as the Secretary shall find appropriate and practical, such as:

(1) Type of services rendered;

(2) Geographical area where services are rendered, allowing for grouping of noncontiguous areas having similar demographic and economic characteristics;

(3) Size of institution;

(4) Nature and mix of services rendered; or

(5) Type and mix of patients treated.

(c) *Data.* In establishing limits, the estimates of the costs necessary for efficient delivery of health services may be based on cost reports or other data providing indicators of current costs, with current and past period data being adjusted to arrive at estimated costs for the prospective periods to which limits shall be applied.

(d) *Notice of limits to be imposed.* Prior to the onset of a cost period to which a limit shall be applied, a notice shall be published in the Federal Register establishing the limits to be applied to an identified cost and type and class of provider of service.

(e) *Provider rights to review.* A request by a provider for review of the determination of an intermediary concerning classification for, exceptions to, or exemptions from the cost limits imposed under the provisions of this section shall be made to the intermediary under the provisions of §§ 405.490–405.499f.

(f) *Exceptions, exemptions, and adjustments.* The following types of exceptions, exemptions, and classification adjustments may be granted under this section but only upon the provider's demonstration that the conditions indicated are present:

(1) *Reclassification.* A provider shall be entitled to obtain adjustment of its classification by the intermediary for the purpose of cost limits applied under this section on the basis of evidence that such a classification is at variance with the criteria specified in promulgating limits under paragraph (d) of this section.

(2) *Exception of cost of atypical services.* Where the actual cost of items or services furnished by a provider exceeds the applicable limit by reason of the provision of items or services that are atypical in nature and scope as compared to the services generally provided by institutions similarly classified and appropriate reason exists for the provision of such items or services, the limits may be adjusted upward to reflect any added costs flowing from the delivery of such items or services. Such adjustments may only be made where the provider demonstrates: (i) The provision of the atypical items or services were by reason of the special needs of the patients treated and necessary in the efficient delivery of needed health care, or (ii) the added costs flow from approved educational activities (as described in § 405.421) to the extent such costs are atypical (although reasonable) for providers in the comparison group. In addition, such adjustments may be made only to the extent that such justified costs are separately identified by the provider and can be verified by the intermediary.

(3) *Exception because of extraordinary circumstances.* Where a provider's costs exceed the limits due to extraordinary circumstances beyond the control of the provider, the provider may request

V 39 110 JUN 6 74 XUM

an exception from the cost limits to the extent that the provider shows such higher costs result from the extraordinary circumstances. These circumstances may include but are not limited to increased costs attributable to strikes, fire, earthquake, flood, or similar unusual occurrences with substantial cost effects.

(4) *Exemption as sole community provider.* The limitation on costs imposed under this section shall not be applicable where a provider by reason of factors such as isolated location or absence of other providers of the same type, is the sole source of such care reasonably available to beneficiaries.

(g) *New providers; accumulation of unreimbursed costs and carryover to subsequent periods*—(1) *General.* A new provider of services may carry forward for five succeeding cost reporting periods costs attributable to health insurance program beneficiaries which are unreimbursed under this section and not charged to patients during any cost reporting period ending on or before the last day of its third year of operation. Such period is called the new provider base period. If the five succeeding cost reporting periods combined include fewer than 60 full calendar months, the provider may carry forward such unreimbursed costs for one additional reporting period.

Example. A provider begins operation on April 7, 1973. However, it begins to participate in the health insurance program as of January 1, 1974, and reports on a calendar year basis. The provider would be permitted to accumulate any costs unreimbursed under this section which were incurred during reporting periods ending prior to April 7, 1976. Because the calendar year 1975 cost reporting period ends before the end of the third year of operation, its carryover period will be the succeeding five cost reporting periods ending on December 31, 1980. Had this provider begun its operations on July 1, 1973, and become a participating provider as of the same date (with a fiscal year ending June 30), it would have been able to accumulate any such unreimbursed costs for the cost reporting periods ending June 30, 1975, and June 30, 1976 (the limits are not applicable to the year ending June 30, 1974). Its carryover period would then be the five cost reporting periods ending no later than June 30, 1981, in the case of costs unreimbursed in either of the reporting periods ending June 30, 1975, or June 30, 1976.

(2) *New provider defined.* A new provider is an institution that has operated as the type of facility (or the equivalent thereof) for which it is certified in the program under present and previous ownership for less than 3 full years.

(3) *Recovery of unreimbursed excess cost*—(i) *New provider base period; unreimbursed costs under cost limits.* Where costs of a new provider are unreimbursed under this section during the new provider base period, but no costs are unreimbursed under § 405.455 during such base period, such unreimbursed amounts which a provider may recover during any cost reporting period in the new provider base period or carry forward period is limited to the lesser of (A) the amount by which the provider's current cost limit under this section exceeds the provider's reasonable cost for items and services to which such limit is applied during that cost reporting period, or (B) the amount by which the aggregate customary charges applicable to health insurance program beneficiaries during any such period exceeds the aggregate costs for such services which are applicable to such beneficiaries during that period (see § 405.455).

(ii) *New provider base period; unreimbursed costs under lower of cost or charges and cost limits.* Where costs of a new provider are unreimbursed under the provisions of both this section and § 405.455 during the new provider base period, the amount of such unreimbursed costs which a new provider may recover during any cost reporting period in which the cost limit is not exceeded is limited to the extent that such unreimbursed costs plus normally reimbursable costs do not exceed aggregate customary charges with respect to health insurance beneficiaries during that period. In the application of this paragraph, costs previously unreimbursed under this section will be recovered first, in accordance with paragraph (g) (3) (i) of this section, and any remaining unreimbursed costs shall be carried forward to the next succeeding year within the new provider base period or carry forward period. Costs previously unreimbursed under § 405.455 may thereafter be recovered to the extent that aggregate customary charges with respect to health insurance beneficiaries exceed the aggregate reimbursable costs applicable to such beneficiaries plus amounts recovered under paragraph (g) (3) (i) of this section during that period. Any remaining unreimbursed costs under § 405.455 may be carried forward to the next succeeding reporting period within the new provider base period or carry forward period.

6. Section 405.461 is added to read as follows:

§ 405.461 Limitations on coverage of costs; charges to beneficiaries where cost limits are applied to services.

(a) *Principle.* A provider of services that customarily furnishes an individual items or services which are more expensive than the items or services determined to be necessary in the efficient delivery of needed health services described in § 405.460, may charge an individual entitled to benefits under title XVIII for such more expensive items or services even though not requested by the individual. The charge, however, may not exceed the amount by which the cost of (or, if less, the customary charges for) such more expensive items or services furnished by such provider in the second cost reporting period immediately preceding the cost reporting period in which such charges are imposed exceeds the applicable limit imposed under the provisions of § 405.460(d). This charge may be made only if:

(1) The intermediary determines that the charges have been calculated properly in accordance with the provisions of this section; and

(2) The services are not emergency services as defined in paragraph (d) of this section; and

(3) The admitting physician has no direct or indirect financial interest in such provider; and

(4) The Social Security Administration has provided notice to the public through notice in a newspaper of general circulation servicing the provider's locality and such other notice as the Secretary may require, of any charges the provider is authorized to impose on individuals entitled to benefits under title XVIII of the Act on account of costs in excess of the costs determined to be necessary in the efficient delivery of needed health services under such title; and

(5) The provider has, in the manner described in paragraph (e) of this section, identified such charges to such individual or person acting on his behalf as charges to meet the costs in excess of the costs determined to be necessary in the efficient delivery of needed health services under title XVIII of the Act.

(b) *Provider request to charge beneficiaries for costs in excess of limits.* (1) Where a provider's actual costs (or, if less, the customary charges) in the second preceding cost period exceed the prospective limits established for such costs, the intermediary shall, at the provider's request, validate in advance the charges which may be made to the beneficiaries for the excess.

(2) Where a provider does not have a second preceding cost period and is a new provider as defined in § 405.460(g), the provider, subject to validation by the intermediary, will estimate the current cost of the service to which a limit is being applied. Such amount shall be adjusted to an amount equivalent to costs in the second preceding year by use of a factor to be developed based on estimates of cost increases during the preceding 2 years and published by the Social Security Administration. The amount thus derived will be used in lieu of the second preceding cost period amount in determining the charge to the beneficiary.

(3) To obtain consideration of such a request, the provider must submit to the intermediary a statement indicating the charge for which it is seeking validation and providing the data and method used to determine the amount. Such statement should include:

(i) Producer's name and number;

(ii) Identity of class and prospective cost limit for the class in which the provider has been included;

(iii) Amount of charge and cost period in which the charge is to be imposed;

(iv) The cost and customary charge for items and services rendered to beneficiaries; and

(v) The cost period ending date of the second reporting period immediately preceding the cost period in which the charge is to be imposed. The intermediary may request such additional information as it finds necessary with respect to the request.

(c) *Provider charges*—(1) *Establishing the charges.* If the actual cost incurred (or, if less, the customary charges) in

the prior period determined under paragraph (a) of this section exceeds the limits applicable to the pertinent period, the provider may charge the beneficiary to the extent costs in the second preceding cost reporting period (or the equivalent when there is no second preceding period) exceed the current cost limits. (Data from the most recently submitted appropriate cost report will be used in determining the actual cost.) For example, if a limit of $58 per day is applied to the cost of general routine services for the provider's cost reporting period starting in calendar year 1975 and if the provider's actual general routine cost in the second preceding reporting period, i.e., the reporting period starting in calendar year 1973, was $60 per day, the provider (after first having obtained intermediary validation and subject to the considerations and requirements specified in paragraph (a) of this section) may charge hospital insurance beneficiaries up to $2 per day for general routine services.

(2) *Adjusting cost.* Program reimbursement for the costs to which limits imposed under § 405.460 are applied in any cost reporting period shall not exceed the lesser of the provider's actual cost or the limits imposed under § 405.460. If program reimbursement for items or services to which such limits are applied plus the charges to beneficiaries for such items or services imposed under this section exceed the provider's actual cost for such items or services, program payment to the provider shall be reduced to the extent program payment plus charges to the beneficiaries exceed actual cost. If the provider's actual cost for general routine services in 1975 was $57,000, the cost limit was $58,000, and billed charges to hospital insurance beneficiaries were $2,000, the provider would receive $55,000 from the program ($57,000 actual cost minus the $2,000 in charges to the beneficiaries).

(d) *Definition of emergency services.* For purposes of paragraph (a) (2) of this section, emergency services are those hospital services which are necessary to prevent the death or serious impairment of the health of the individual, and which, because of the threat to the life or health of the individual, necessitate the use of the most accessible hospital (see § 405.192) available and equipped to furnish such services. Where an individual has been admitted to such hospital as an inpatient because of an emergency, the emergency will be deemed to continue until it is safe from a medical standpoint to move the individual to another hospital or other institution or to discharge him.

(e) *Identification of charges to individual.* For purposes of paragraph (a) (5) of this section, a provider shall give or send to the individual or his representative, a schedule of all items and services which the individual might need and for which the provider imposes charges under this section, and the charge for each. Such schedule shall specify that the charges are necessary to meet the costs in excess of the costs determined to be necessary in the efficient delivery of needed health services under title XVIII of the Act and shall include such other information as the Social Security Administration considers necessary to protect the individual's rights under this section. The provider, in arranging for the individual's admission, first service, or start of care, shall give or send this schedule to the individual or his representative when arrangements are being made for such services or if this is not feasible, as soon thereafter as is practicable but no later than at the initiation of services.

Subpart F—Agreements, Elections, Contracts, Nominations, and Notices

7. In § 405.607, paragraph (a) is revised to read as follows:

§ 405.607 Essentials of agreements with providers of services.

Under the terms of the agreement (see § 405.606) the provider agrees:

(a) Not to charge any individual, or other person (except as described in §§ 405.608–405.610 and 405.461):

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

HOSPITAL COSTS UNDER THE HEALTH INSURANCE PROGRAM

Interim Schedule of Limits

On March 19, 1974, there was published in the FEDERAL REGISTER (39 FR 10313) a Notice of Proposed Schedule of Limits on Hospital Costs Under the Medicare program for cost reporting periods beginning on and after the effective date of final regulations implementing section 223 of P.L. 92–603. On April 30, 1974, an extension of the comment period was granted (39 FR 15060) giving interested parties until May 18, 1974, to submit written comments or suggestions thereon. Comments and suggestions received with regard to this Notice of Proposed Schedule of Limits, responses thereto, and changes in the proposed schedule of limits are summarized below:

1. Many commenters suggested that the term "general routine service costs" should be clarified to indicate whether the inpatient routine nursing salary cost differential payment is to be included. This suggestion was adopted and the Notice has been revised to indicate that the limits apply to the total of "hospital inpatient general routine service costs" as defined in § 405.452(d)(2) (also see § 405.452(d)(7)) and the inpatient routine nursing salary cost differential payment defined in § 405.430 and excludes the cost of any inpatient special care units and ancillary services.

2. One of the comments received noted that the District of Columbia was included in both the schedules of limits—within Standard Metropolitan Statistical Area (SMSA) and outside SMSA. The Schedule of Limits applicable to hospitals located outside SMSA's has been revised to delete specific dollar limitations for hospitals located in Washington, D.C. because the entire area of Washington, D.C. is located within an SMSA. The Schedule of Limits for hospitals within SMSA's has been revised to include dollar limitations for hospitals located in a newly designated and defined SMSA in Alaska.

3. The Notice has been revised to reflect a publication (Federal Information Processing Standards Publication—F.I.P.S. Pub. 8–3) in which the definition and list of SMSA's can be found.

4. Some comments were received suggesting that the final published regulations, rather than the Notice of proposed limits, include the detailed methodology employed to establish the limits on general routine service costs for hospitals. The Secretary believes it more appropriate for the Notices to describe the methodology used in determining the published limits and thus make it easier for interested parties to understand the methodology. Moreover, there may be different methods for different types of providers and for different types of services. Therefore, this suggestion has not been adopted.

5. A number of comments were received regarding various aspects of the classification system and their effect on setting limits. While it is recognized that the initial limits may not be as refined as those developed in the future, it is believed the initial limits will identify hospitals whose costs are in excess of those deemed necessary for efficient delivery of hospital inpatient general routine services. Efforts to develop a more advanced classifications system—one that will permit improved identification of hospitals whose costs are excessive—will continue but awaiting development of such a system is neither desirable or necessary. These comments although not adopted at this time, will be taken into account in future efforts to refine the classification system.

6. Various editorial changes have been made in the interest of clarity. The following Notice of Schedule of Limits on Hospital Inpatient General Routine Service Costs has been adopted by the Secretary.

Notice is hereby given that the Schedule of Limits on Hospital Inpatient General Routine Service Costs in the Medicare program has been established by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. This interim schedule is applicable for cost reporting periods beginning on or after July 1, 1974, and before the earlier of July 1, 1975 or the effective date of any revised schedule. The schedule set forth herein will be carefully reviewed by the Commissioner in the coming months with a view toward developing a more refined classification system which better adjusts for such cost factors as patient mix, scope-of-services, and the economic conditions of the local labor market. As revised, a new schedule will be published, with the approval of the Secretary, to be effective for cost reporting periods beginning no later than July 1, 1975.

The Schedule of Limits on Hospital Inpatient General Routine Service Costs set out below will apply to the entire cost reporting period of a provider whose cost reporting period begins during the effective period of this schedule. The schedule, as approved, applies to the total of the cost of routine services as defined in 20 CFR, § 405.452(d)(2) (also see § 405.452(d)(7)) and the inpatient routine nursing salary cost differential payment described in § 405.430. These limits do not apply to the cost of special care units or ancillary services. Section 1861(v)(1) of the Social Security Act as amended by section 223 (Limitations on Coverage of Costs Under Medicare) of P.L. 92–603 (the Social Security Amendments of 1972) permits the Secretary to set prospective limits on overall provider costs or provider costs for specific items or services based on estimates of the costs necessary in the efficient delivery of needed health services. Separate schedules of limits will be issued for skilled nursing facilities and home health agencies prior to the beginning of the cost reporting period to which such limits would be applied.

To provide adequate sized comparison bases and to permit reasonable comparisons between providers within a group a classification system was developed to take into account two principal elements: hospital size and economic environment essentially reflecting urban or nonurban locations by geographic groupings. A provider's location within a Standard Metropolitan Statistical Area is used as a proxy for an urban location while providers not located in a Standard Metropolitan Statistical Area are considered nonurban. (A Standard Metropolitan Statistical Area, as defined by the Office of Management and Budget, is a county or group of contiguous counties which (1) includes at least one city of 50,000 inhabitants, or (2) otherwise meets the basic criteria specified by the Office of Management and Budget for defining such areas. The standard definition and a complete list of Standard Metropolitan Statistical Areas can be found in the Federal Information Processing Standards Publication (F.I.P.S Pub. 8–3), which is available from the Superintendent of Documents, United States Government Printing Office, Washington, D.C. 20402.)

These two principal elements (size and economic environment) are reflected in five State groupings with the States classified according to per capita income as follows:

STATE GROUP I

Alaska
California
Connecticut
Hawaii
Illinois
Nevada
New Jersey
New York
Washington, D.C.

STATE GROUP II

Delaware
Maryland
Massachusetts
Michigan
Ohio
Pennsylvania
Rhode Island
Washington

STATE GROUP III

Arizona
Colorado
Florida
Indiana
Iowa
Kansas
Minnesota
Missouri
Nebraska
New Hampshire
Oregon
Virginia
Wisconsin

STATE GROUP IV

Georgia
Idaho
Maine
Montana
North Carolina
Oklahoma
South Dakota
Texas
Utah
Vermont
Wyoming

STATE GROUP V

Alabama
Arkansas
Kentucky
Louisiana
Mississippi
New Mexico
North Dakota
Puerto Rico
South Carolina
Tennessee
West Virginia

Providers in each of the five State groups have been divided between those located in SMSA's and those not in SMSA's. These 10 groups have been further divided into 7 bed-size categories resulting in 70 classes.

The actual limits were developed for each of the 70 groups in the following manner:

1. Inpatient routine service cost data for each participating hospital was obtained from the fiscal intermediaries.

2. The data for hospitals in each class were arrayed in descending order of inpatient routine service cost.

3. The 90th percentile and the median were computed for each class.

4. For each class, an amount equal to 10 percent of the median was added to the 90th percentile amount.

5. This sum was adjusted by a factor at a 10.5 percent annual rate to reflect estimated cost increases.

6. The amounts calculated in step 5 are rounded to the next higher dollar which establishes the limit for each class, subject to adjustment for other than calendar year hospitals.

Under the authority of section 1861(v) of the Social Security Act as amended by P.L. 92–603, the following dollar limitations apply to the total of the hospital inpatient general routine service costs and the inpatient routine nursing salary cost differential (excluding costs incurred for special care units and ancillary services), adjusted upward as provided for below, and are applicable to cost reporting periods beginning on and after July 1, 1974, and before the earlier of July 1, 1975 or the effective date of any revised schedule. Revised schedules of limits will be published on a periodic basis.

Where a hospital has a cost reporting period beginning on or after July 1, 1974, the published limit will be adjusted upward by 9/10th of one percent of the published limit for each elapsed month between January 1, 1974, and the month in which the hospital's reporting period starts. Adjustment must be calculated in dollars and cents.

Example. Hospital A's cost reporting period starting in 1974, begins October 1, 1974, and ends September 30, 1975. The cost factor for Hospital A's group for calendar year 1974 is $83.00.

Computation of adjusted cost limit

Cost factor	$83.00
Plus: Adjustment for 9-mo. period (Jan. 1, 1974 to Sept. 30, 1974, 9 mos. × .9 percent=8.1 percent, 8.1 percent × $83.00	6.72
Adjusted cost limit applicable to hospital A for the Oct. 1, 1974, to Sept. 30, 1975, reporting period	89.72

■

FIRE SAFETY EQUIPMENT IN NURSING HOMES

Insurance for Supplemental Loans

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing Production and Mortgage Credit—Federal Housing Commissioner

[24 CFR Part 232]

[Docket No. R–74–272]

FIRE SAFETY EQUIPMENT IN NURSING HOMES

Insurance for Supplemental Loans

The Department of Housing and Urban Development is considering amending Subtitle B of Title 24 of the Code of Federal Regulations, Chapter II, Subchapter B, Part 232, Nursing Homes and Intermediate Care Facilities Mortgage Insurance, by adding a new Subpart C, Eligibility Requirements—Supplemental Loans to Finance Purchase and Installation of Fire Safety Equipment, and a new Subpart D, Contract Rights and Obligations. The amendments will implement section 232(1) of the National Housing Act, which section was added by Pub. L. 93–204, December 28, 1973, to provide insurance of supplemental loans to finance the purchase and installation of fire safety equipment necessary to meet the fire safety requirements of the Department of Health, Education, and Welfare for providers of services under titles XVIII and XIX of the Social Security Act.

The regulations will apply to both conventionally-financed and federally insured nursing homes and intermediate care facilities.

Interested persons are invited to participate in the making of the proposed rule by submitting written data, views or statements with regard to the proposed regulations. Communications should be filed in triplicate, using the above docket number and title, with the Rules Docket Clerk, Office of General Counsel, Room 10245, Department of Housing and Urban Development, 451 Seventh Street, SW., Washington, D.C., 20410. All relevant material received on or before July 8, 1974, will be considered by the Secretary before adoption of a final rule. Copies of comments submitted will be available during business hours, both before and after the specified closing date, at the above address, for examination by interested persons.

The proposed amendment is as follows:

PART 232—NURSING HOMES AND INTERMEDIATE CARE FACILITIES MORTGAGE INSURANCE

Subpart C—Eligibility Requirements—Supplemental Loans to Finance Purchase and Installation of Fire Safety Equipment

AUTHORITY: Sec. 211, 52 Stat. 23, as amended; sec. 232, 73 Stat. 663 (12 U.S.C. 1715b, 1715w); as further amended by Pub. L. 93–204 (Dec. 28, 1973).

Subpart C—Eligibility Requirements—Supplemental Loans to Finance Purchase and Installation of Fire Safety Equipment

§ 232.500 Definitions.

In addition to the definitions contained in Subpart A, incorporated herein by reference, the following terms, as used in §§ 232.500 et seq., shall have the meaning indicated:

(a) "Insured loan" means a loan insured by the endorsement of the credit instrument by the Commissioner.

(b) "Insurance premium" means the loan insurance premium paid by the financial institution to the Commissioner in consideration of the contract of insurance.

(c) "Fire safety equipment" means equipment purchased, installed, and maintained in nursing homes and intermediate care facilities, which is necessary for compliance by such home or facility with the applicable requirements for institutional occupancy under the 1967 edition of the Life Safety Code of the National Fire Protection Association, or other such code or requirements approved by the Secretary of Health, Education, and Welfare for providers of services under title XVIII and title XIX of the Social Security Act. In addition to those requirements approved by the Secretary of Health, Education, and Welfare as necessary for institutional occupancy, "fire safety equipment" may also include those fire safety-related improvements which are not mandatory under the requirements of the Secretary of Health, Education, and Welfare but which he considers desirable for protection against the hazards of fire and which the borrower agrees to install. For the purposes of this definition, the terms "nursing home" and "intermediate care facilities" shall include those facilities designated as skilled nursing facilities or intermediate care facilities by HEW.

(d) "Fire safety loan" means any form of secured or unsecured obligation as may be determined by the Commissioner to be eligible for insurance under this subpart.

(e) "Equipment cost" means the reasonable cost of "fire safety equipment" fully installed as estimated by the Secretary of Health, Education, and Welfare and as determined by the Commissioner.

(f) "Insured loan maturity" means the date on which the loan indebtedness would be extinguished if paid in accordance with periodic payments provided for in the loan instrument or instruments.

(g) "Approved lender" means a financial institution or other mortgagee approved by the Commissioner as eligible for insurance under section 2 of the National Housing Act, or a mortgagee approved under section 203(b)(1) of the National Housing Act.

FEES AND CHARGES

§ 232.505 Application and application fee.

(a) *Prior approval.* An application for insurance of a fire safety loan under this part shall be considered only in connection with a proposal which has been approved by the Secretary of Health, Education, and Welfare, or his designee, based upon (1) his determination of need for such equipment to be installed in the facility as a condition for participation for providers of services under Title XVIII and Title XIX of the Social Security Act, and (2) his determination that upon installation of such equipment the project will meet the fire safety requirements prescribed by the Secretary of HEW for participation under Titles XVIII and XIX of the Social Security Act, and (3) his judgment that the cost estimate for purchase and installation of the equipment is a reasonable cost estimate."

(b) *Filing of application.* An application for insurance of a fire safety loan for a nursing home or intermediate care facility shall be submitted on an approved FHA form by an approved lender and by the owners of such project through the local FHA office.

(c) *Application fee.* An application fee of $2.00 per thousand dollars of the amount of the fire safety loan applied for shall accompany the application. The minimum application fee shall be $50.00.

§ 232.510 Commitment and commitment fee.

(a) *Issuance of commitment.* Upon approval of an application for insurance, a commitment shall be issued by the Commissioner setting forth the terms and conditions upon which the fire safety loan will be insured.

(b) *Type of commitment.* The commitment will provide for the insurance of the loan after satisfactory completion of installation of the fire safety equipment, as determined by the Secretary of HEW.

(c) *Term of commitment.* (1) If the commitment fee is paid as required, a commitment shall have a term within which the borrower is required to begin construction, and if construction is begun as required, for such additional period as the Commissioner deems necessary for satisfactory completion of installation.

(2) The term of a commitment may be extended in such manner as the Commissioner may prescribe.

(d) *Commitment fee.* A commitment fee which, when added to the application fee, will aggregate $4.00 per thousand of the amount of the fire safety loan (with a minimum total of $50.00 for both fees) set forth in the commitment, and shall be paid prior to issuance of the commitment.

(e) *Reopening of expired commitments.* An expired commitment may be reopened if a request for reopening is received by the Commissioner within 10 days of the expiration of the commitment. The reopening request shall be accompanied by a fee of 50 cents per thousand dollars of the amount of the expired commitment. If the reopening request is not received by the Commissioner within the required 10-day period, a new application, accompanied by the required application and commitment fee, must be submitted.

(f) *Increase in commitment prior to endorsement.* An application, filed prior to endorsement, for an increase in the amount of an outstanding firm commitment shall be accompanied by a combined additional application and commitment fee. The combined additional fee shall be in an amount which will aggregate $4.00 per thousand dollars of the amount of the requested increase. If an inspection fee was required in the original commitment, an additional inspection fee shall be paid in an amount computed at the same dollar rate per thousand dollars of the amount of increase in commitment as was used for the inspection fee required in the original commitment. The additional inspection fee shall be paid prior to the date installation of fire safety equipment, is begun or, if installation has begun, it shall be paid with the application for increase.

§ 232.515 Refund of fees.

If the amount of the commitment issued or an increase in loan prior to endorsement is less than the amount applied for, the Commissioner shall refund the excess amount of the application and commitment fees submitted by the applicant. If an application is rejected before it is assigned for processing, or in such other instances as the Commissioner may determine, the entire application and commitment fees or any portion thereof may be returned to the applicant. Commitment and reopening fees may be refunded, in whole or in part, if it is determined by the Commissioner that the installation of fire safety equipment for the project has been prevented because of condemnation proceedings or other legal action taken by a governmental body or public agency, or in such other instances as the Commissioner may determine.

§ 232.520 Maximum fees and charges by lender.

The lender may collect from the borrower the amount of the fees provided for in this subpart. The lender may also collect from the borrower an initial service charge in an amount not to exceed one and one-half of one percent of the original principal amount of the loan to reimburse the lender for the cost of originating and closing the transaction. Any additional charges shall be subject to the prior approval of the Commissioner.

§ 232.522 Inspection fee.

The commitment shall provide for the payment of an inspection fee in an amount not to exceed $5.00 per thousand dollars of the commitment. The minimum inspection fee shall be $50.00 paid prior to the date construction is begun: *Provided, however,* That in no case shall the combined total of the fees provided for in §§ 232.505, 232.510 and this section exceeds one percent of the original principal face amount of the loan.

ELIGIBLE SECURITY INSTRUMENTS

§ 232.525 Note and security form.

The lender shall present for insurance a note and security instrument, if required, on forms approved by the Commissioner for use in the jurisdiction in which the property to be improved is located.

§ 232.530 Disbursement of proceeds.

At the time of endorsement for insurance of the note by the Commissioner, the entire principal amount of the note shall have been disbursed to the borrower or to his creditors for his account and with his consent.

§ 232.535 Loan multiples—minimum principal.

The loan shall involve a principal obligation in multiples of $100, and the minimum principal obligation shall be $5,000.

§ 232.540 Method of loan payment and amortization period.

(a) *Monthly payments.* The loan shall provide for monthly payments on the first day of each month on account of interest and principal and shall provide for payment in accordance with the amortization plan as agreed upon by the borrower, the lender and the Commissioner.

(b) *Amortization period.* (1) The loan shall have an amortization of either 5, 10, or 15 years by providing for either 60, 120, or 180 monthly amortization payments. No fire safety loan shall have an amortization period in excess of 15 years unless the amount of the loan exceeds $50,000.00, in which event the amortization period may be increased to 20 years, with a provision for 240 monthly amortization payments.

(2) In any event, the loan shall have a maturity satisfactory to the Commissioner of not less than 5 or more than 20 years from the date of the beginning of amortization or the Commissioner's estimate of the remaining economic life of the structure, whichever is the lesser.

(3) The Commissioner shall establish the date of the first payment to the principal.

§ 232.545 Covenant against liens.

The security instrument shall contain a covenant against the creation by the borrower of additional liens against the property superior or inferior to the lien of such instrument, except with the prior approval of the Commissioner.

§ 232.550 Accumulation of next premium.

The security instrument shall provide for payments by the borrower to the lender on each interest payment date of an amount sufficient to accumulate in the hands of the lender one payment period prior to its due date the next annual insurance premium payable by the lender to the Commissioner.

§ 232.555 Security instrument and lien.

The security instrument shall cover the entire property included in the project, shall be a lien on the real property of the project under the laws of the jurisdiction in which the project is located, and may be junior to such prior liens or mortgage indebtedness as the Commissioner may approve. The Commissioner may from time to time require such other security, in lieu of, or in addition to, a lien on real property as he may prescribe.

§ 232.560 Maximum interest rate.

(a) The loan shall bear interest at the rate agreed upon by the lender and the borrower, which rate shall not exceed nine percent.

(b) Interest shall be payable in monthly installments on the principal amount of the loan outstanding on the due date of each installment.

§ 232.565 Maximum loan amount.

The principal amount of the loan shall not exceed the Commissioner's estimate of the cost of the fire safety equipment, including the cost of installation. The sum of the liens against the property which are superior in priority to the fire safety loan and the fire safety loan shall not exceed ninety percent of the Commissioner's estimate of the value of the project upon completion of installation of the fire safety equipment. The cost of installation may include the cost of such other work to be performed on the project as is necessary to meet the requirements of the Secretary of Health, Education, and Welfare and the Commissioner to enhance the fire safety of the project, and such costs incidental to installation as may be approved by the Commissioner.

§ 232.570 Endorsement of credit instrument.

The Commissioner shall indicate his insurance of the loan by endorsing the credit instrument and identifying the section of the Act and regulations under which the loan is insured and the date of insurance, subject to the presentation and approval by him of the following:

(a) Certification of full disbursement of loan proceeds as provided for in § 232.530.

(b) Certification of costs as required by § 232.610.

(c) Statement by the Secretary of Health, Education, and Welfare that the fire safety equipment noted in the determination required by § 232.620 has been satisfactorily installed.

§ 232.580 Application of payments.

(a) The security instrument shall provide that all monthly payments to be made by the borrower shall be added together and this aggregate amount shall be paid by the borrower upon each monthly payment date in a single payment. The lender shall apply the payment to the following items in the order set forth:

(1) Premium charges under the contract of insurance;

(2) Interest on the loan;

(3) Amortization of the principal of the loan;

(b) Any deficiency in the amount of any monthly payments required under paragraph (a) of this section shall constitute an event of default and the loan shall further provide for a grace period of 30 days within which time the default must be cured.

§ 232.585 Prepayment privilege and prepayment charge.

The security instrument shall contain a provision permitting prepayment of the loan in whole or in part upon any interest payment date after giving to the lender 30 days' advance written notice and it may contain a provision, with the approval of the Commissioner, for a reasonable charge in the event of prepayment.

Property Requirements

§ 232.590 Eligibility of property.

(a) A loan to be eligible for insurance shall be on real estate held:

(1) In fee simple; or

(2) On the interest of the lessee under a lease for not less than ninety-nine years which is renewable; or

(3) Under a lease having a period of not less than fifty years to run from the date the loan is executed.

(b) The property constituting security for the loan transaction must be held by an eligible borrower as herein defined and must at the time the loan is insured be free and clear of all liens other than those specifically approved by the Commissioner.

Title

§ 232.595 Eligibility of title.

In order for the property which is to be the security for a loan to be insured under this subpart to be eligible for insurance, the Commissioner shall determine that the title to the property is vested in the borrower as of the date the security instrument is filed for the record. The title evidence will be examined by the Commissioner and the endorsement of the credit instrument for insurance shall be evidence of its acceptability.

§ 232.600 Title evidence.

The lender, without expense to the Commissioner, shall furnish to the Commissioner a policy of title insurance, or if the lender is unable to furnish such policy for reasons satisfactory to the Commissioner, the lender without expense to the Commissioner, shall furnish an abstract of title. The following are the requirements covering the title insurance and abstract of title:

(a) The policy of title insurance shall be issued by a company and in a form satisfactory to the Commissioner. The policy shall name as the insureds the lender and the Secretary of Housing and Urban Development, as their respective interests may appear. The policy shall provide that upon acquisition of title by the lender or the Secretary, it will become an owner's policy running to the lender or the Secretary, as the case may be.

(b) The abstract of title shall be satisfactory to the Commissioner, prepared by an abstract title company or an individual engaged in the business of preparing abstracts of title, accompanied by a legal opinion satisfactory to the Commissioner, as to the quality of such title, signed by an attorney at law experienced in the examination of titles.

Form of Contract

§ 232.605 Contract requirements.

(a) The contract between the mortgagor and the general contractor may be in the form of either a lump sum contract or a cost plus contract. Either form of contract shall include the cost of fire safety equipment, its installation, and such other work to be performed by the contractor as necessary to meet the requirements of the Secretary of Health, Education, and Welfare and the Commissioner. A lump sum contract shall provide for the payment of a specified amount. A cost plus contract shall provide for the payment of the contractor's actual cost of compliance with the requirements of the contract, plus such allowance for overhead and profit as may be approved by the Commissioner and shall provide that the total cost under the contract shall not exceed an upset price as approved by the Commissioner.

(b) If agreed to by the general contractor and borrower, a lump sum form of contract between the borrower and the general contractor may be used unless the Commissioner determines that a cost plus contract with a maximum upset price is necessary to protect the interests of the borrower or the Commissioner.

Cost Certification Requirements

§ 232.610 Certification of cost requirements.

(a) *Certificate and adjustment.* No loan shall be insured unless:

(1) A certification of actual cost is made by the contractor in cases in which a cost plus form of contract is used; and

(2) The amount of the loan is adjusted to reflect the actual cost to the borrower of the improvements when either a cost plus or lump sum form of contract is used.

(b) *Cost computation.* The term "actual cost of the improvements" shall mean the cost to the borrower of the improvements, after deducting the amount of any kickbacks, rebates, or trade discount received in connection with the improvements, and including the amounts paid under any contract for the improvements, labor, materials, and for any other items of expense approved by the Commissioner.

(c) *Statement of facts.* Any agreement, undertaking, statement or certification required in connection with cost certification shall specifically state that it has been made, presented and delivered for the purpose of influencing an official action of the Commissioner and may be relied upon as a true statement of the facts contained therein.

(d) *Incontestability.* Upon the Commissioner's approval of the cost certification, such certification shall be final and incontestable except for fraud or material misrepresentation on the part of the borrower.

(e) *Records.* The borrower shall keep and maintain adequate records of all costs of any construction improvements or other cost items not representing work under the general contract and shall require the builder to keep similar records and, upon request by the Commissioner, shall make available for examination such records, including any collateral agreements.

Eligible Borrowers

§ 232.615 Eligible borrowers.

In order to be eligible as a borrower under this subpart the applicant shall be a profit or non-profit entity, which owns a nursing home or intermediate care facility for which the Secretary of Health, Education, and Welfare has determined that the installation of fire safety equipment in such facility is necessary to meet the requirements of the Secretary of Health, Education, and Welfare for providers of services under title XVIII and title XIX of the Social Security Act and that upon completion of the installation of such equipment the nursing home or intermediate care facility will meet not only the applicable fire safety requirements of HEW but will meet, or has submitted a plan acceptable to HEW to meet, other pertinent health and safety requirements of HEW for providers of such services. At the time of application a nursing home or intermediate care facility need not be provided such services if upon completion of installation such home or facility will meet, or has submitted a plan acceptable to HEW to meet, the requirements of HEW for providers of such services. Until the termination of all obligations of the Commissioner under an insurance contract under this subpart and during such further period of time as the Commissioner shall be the owner, holder, or reinsurer of the loan, the borrower shall be regulated or restricted by the Commissioner as to methods of operation including requirements for maintenance of fire safety equipment.

Special Requirements

§ 232.620 Determination of compliance by HEW.

An application under this subpart must be accompanied by a statement from the Secretary of Health, Education, and Welfare, or his designee, that the Secretary has determined that the physical plant of the facility, when the fire safety equipment has been installed, will be in compliance with the HEW requirements for fire safety and will meet, or has submitted a plan acceptable to HEW to meet, other pertinent health and safety requirements for providers of services under title XVIII and title XIX of the Social Security Act (Medicare and Medicaid). The architectural exhibits, as approved by HEW, together with any commitment requirements HEW deems appropriate, must accompany the statement. In the case of Intermediate Care Facilities, the statement by HEW to HUD will be based upon a determination that the facility has been approved in accordance with applicable HEW statutes and regulations, subject to the proper installation of the proposed equipment.

§ 232.625 Discrimination prohibited.

Any contract or subcontract executed for the installation of equipment, or construction of improvements to the project shall provide that there shall be no discrimination against any employee or applicant for employment because of sex, religion, race, color, creed or national origin.

§ 232.630 Assurance of completion.

If the property upon which the fire safety equipment is to be installed is subject to a mortgage insured or held by the Commissioner pursuant to Subpart B of this part, the Commissioner may require such assurance of completion of the contract for installation as he may from time to time prescribe.

Subpart D—Contract Rights and Obligations

§ 232.800 Definitions.

All of the definitions contained in § 232.500 shall apply to this subpart. In addition, as used in this subpart, the following term shall have the meaning indicated:

(a) "Contract of insurance" means the agreement evidenced by the endorsement of the Commissioner upon the note given in connection with an insured loan and includes the provisions of this subpart and the applicable provisions of the Act.

(b) "Maturity" means the date on which the loan indebtedness would be extinguished if paid in accordance with periodic payments provided for in the loan.

Premiums

§ 232.805 Insurance premiums.

(a) *First premium.* The lender, upon the endorsement of the loan for insurance, shall pay to the Commissioner a first loan insurance premium equal to one percent of the original face amount of the note.

(b) *Second premium.* The lender, on the date of the first principal payment, shall pay a second premium equal to one percent of the average outstanding principal obligation of the loan for the year following such first principal payment date which shall be adjusted as of that date so that the aggregate of the first and second premiums shall equal the sum of one percent per annum of the average outstanding principal obligation of the loan for the period from the date of the insurance endorsement to one year following the date of the first principal payment.

(c) *Annual insurance premium.* Until the note is paid in full, or until the loan is assigned to the Commissioner, or until the contract of insurance is otherwise terminated with the consent of the Commissioner, the lender, on each anniversary of the date of the first principal payment shall pay an annual loan insurance premium equal to one percent of the average outstanding principal obligation of the loan for the year following the date on which such premium becomes payable.

(d) *Method of premium payment.* Premiums shall be payable in cash or in debentures of the General Insurance Fund at par plus accrued interest. All premiums are payable in advance and no refund can be made of any portion thereof except as provided in § 232.800 et seq.

(e) *Calculation of premiums.* The premiums payable on and after the date of the first principal payment shall be calculated in accordance with the amortization provisions without taking into account delinquent payments or prepayments.

§ 232.815 Termination of insurance.

(a) *Prepayment in full.* The contract of insurance shall be terminated if the loan is paid in full prior to its maturity. Notice of the prepayment shall be given to the Commissioner, on a form prescribed by the Commissioner, within 30 days from the date of the prepayment. The insurance termination shall become effective as of the date of the prepayment, or 30 days prior to the Commissioner's receipt of the prepayment notice, whichever is later.

(b) *Voluntary termination.* The contract of insurance shall be voluntarily terminated upon receipt by the Commissioner of a written request, on a form prescribed by the Commissioner, by the borrower and the lender for such termination, accompanied by a submission of the original credit instrument for cancellation of the insurance endorsement and the remittance of all sums to which the Commissioner is entitled. The termination shall become effective as of the date these requirements are met.

§ 232.825 Pro rata refund of insurance premium.

Upon termination of a loan insurance contract by a payment in full or by a voluntary termination, the Commissioner shall refund to the lender for the account of the borrower an amount equal to the pro rata portion of the current annual loan insurance premium theretofore paid which is applicable to the portion of the year subsequent to the effective date of the termination.

Rights and Duties of Lender Under the Contract of Insurance

§ 232.830 Definition of default.

(a) If the borrower fails to make any payments due under or provided to be paid by the terms of the note or security instrument, the note shall be considered in default for the purposes of this subpart.

(b) The failure to perform any other covenant under the note or security instrument shall be considered a default, provided the lender, because of such default, has exercised its rights under the note or security instrument and accelerated the debt.

(c) If such defaults as defined in paragraphs (a) and (b) of this section continue for a period of 30 days, the lender

V 39 110 JUN 6 74 XUM

shall be entitled to receive the benefits of insurance hereinafter provided.

§ 232.840 Date of default.

In computing loan insurance benefits, the date of default shall be considered as:

(a) The date of the lender's acceleration of the debt because of the borrower's uncorrected failure to perform a covenant or obligation under the note or security instrument; or

(b) The date of the first failure to make a monthly payment which subsequent payments by the borrower are insufficient to cover when applied to the overdue monthly payments in the order in which they become due.

§ 232.850 Notice of default.

(a) If the default is not cured within the 30 day grace period, as defined in § 232.830(c), the lender shall, within 30 days thereafter, notify the Commissioner in writing of such default.

(b) The lender shall give notice in writing to the Commissioner of the failure of the borrower to comply with any covenant or obligation under the security instrument or note regardless of the fact that the lender may not have elected to accelerate the debt.

§ 232.860 Commissioner's right to require acceleration.

Upon receipt of notice of the failure of the borrower to comply with any covenant or obligation under the security instrument or note, or otherwise being apprised thereof, the Commissioner may require the lender to accelerate payment of the outstanding principal balance due.

§ 232.865 Election by lender.

Where a real estate mortgage, or other security instrument has been used to secure the payment of a loan made under the provisions of this subpart and Subpart C of this part, the lender may either elect to assign the loan to the Commissioner in exchange for the payment of insurance benefits or may exercise its rights under the note and security instrument in lieu of making a claim for insurance benefits. If the lender elects the latter course, the Commissioner shall be so notified and the contract of insurance shall be deemed terminated upon the date of receipt of such notification.

§ 232.875 Maximum claim period.

Notice of intention to file claim on a form prescribed by the Commissioner shall be filed within 45 days after the lender becomes eligible for the benefits of the loan insurance, or within such later time as may be agreed upon by the Commissioner in writing.

§ 232.880 Items to be delivered on submitting claim.

Within 30 days after the filing of the notice of intention to file claim, or within such further period as may be agreed upon by the Commission in writing, the lender shall deliver to the Commissioner:

(a) The fiscal data pertaining to the loan transactions;

(b) Receipts covering all disbursements as required by the fiscal data form;

(c) The original note and any security instrument or instruments which shall be assigned to the Commissioner without recourse or warranty, except that the lender must warrant that no act or omission of the lender has impaired the validity and priority of such security instrument or instruments, that the security instrument or instruments are prior to all mechanics' and material-men's liens filed of record subsequent to the recording of such security instrument or instruments regardless of whether such liens attached prior to such recording date, and prior to all liens and encumbrances which may have attached or defects which which may have arisen subsequent to the recording of such security instrument or instruments, except such liens or other matters as may be approved by the Commissioner, that the amount stated in the instrument of assignment is actually due and owing under the security instrument or instruments, that there are no offsets or counterclaims thereto, and that the lender has a good right to assign such note and security instrument or instruments;

(d) The assignment to the Commissioner of all rights and interests arising under the note and security instrument or instruments so in default and all claims of the lender against the borrower or others arising out of the loan transaction;

(e) All policies of title or other insurance or surety bonds, or other guarantees and any and all claims thereunder; including evidence satisfactory to the Commissioner that the original title coverage has been extended to include the assignment of the note and security instrument or instruments to the Commissioner.

(f) All records, ledger cards, documents, books, papers and accounts relating to the loan transaction;

(g) Any additional information or data which the Commissioner may require.

(h) The following cash items, held in connection with the loan insured under this subpart, shall either be retained by the lender or delivered to the Commissioner in accordance with instructions to be issued by the Commissioner at the time the insurance claim is filed.

(1) Any cash held by the lender or its agents or to which it is entitled including deposits made for the account of the borrower and which have not been applied in reduction of the principal of the loan indebtedness.

(2) All funds held by the lender for the account of the borrower received pursuant to any other agreement.

§ 232.885 Insurance benefits.

(a) *Method of payment.* Payment of claim shall be made in the following manner:

(1) *Payment in cash.* Unless a written request for payment in debentures is filed with the application, payment shall be made in cash.

(2) *Optional payment in debentures.* Payment shall be made in debentures upon filing a written request with the application.

(b) *Amount of payment.* Upon an acceptable assignment of the note and security instrument, the Commissioner shall pay the claim of the lender in an amount equal to the unpaid principal balance of the loan as of the date of default determined as follows:

(1) By adding the following items:

(i) Any accrued interest due as of the date of execution of the assignment of the loan to the Commissioner.

(ii) Any advances approved by the Commissioner made previously by the lender under the provisions of the note or security instrument or instruments.

(iii) Reimbursement for such reasonable collection costs, court costs, and attorney's fees as may be approved by the Commissioner.

(iv) Any loan insurance premiums paid after default.

(v) If payment is made in cash, an amount equivalent to the debenture interest which would have been earned thereon, as of the date such cash payment is made, except when the lender fails to meet any one of the applicable requirements of §§ 232.850, 232.875, and 232.880, within the specified time and in a manner satisfactory to the Commissioner (or within such further time as the Commissioner may approve in writing), the interest allowance in such cash payment shall be computed only to the date on which the particular required action should have been taken or to which it was extended.

(2) By deducting from the total of the items computed under paragraph (b)(1) of this section the following items:

(i) Any amount received by the lender on account of the loan after the date of default.

(ii) Any net income received by the lender from the property covered by the note or security instrument and not applied to prior debts held by that lender.

(iii) The sum of the cash items retained by the lender pursuant to § 232.880(h)(i)(ii).

§ 232.890 Characteristics of debentures.

Debentures issued in settlement of insurance claims under this subpart shall have the same characteristics and the same requirements for registration and redemption as those issued pursuant to Subpart B of this part except that debentures shall bear interest at the rate in effect as of the date the commitment was issued, or as of the date the loan was first endorsed for insurance, whichever rate is higher and shall mature 10 years from the date of issue which date shall be the date of execution of the assignment of the loan to the Commissioner.

§ 232.893 Cash adjustment.

Any difference of less than $50 between the amount of debentures to be issued to the lender and the total amount of the lender's claim, as approved by the Commissioner, shall be adjusted by the issuance of a check in payment thereof.

ASSIGNMENTS

§ 232.895 Assignment of insured loans.

(a) An insured loan may be transferred only to a transferee who is a lender approved by the Commissioner. Upon such transfer and the assumption by the transferee of all obligations under the contract of insurance the transferor shall be released from its obligations under the contract of insurance.

(b) The contract of insurance shall terminate with respect to loans described in paragraph (a) of this section upon the happening of either of the following events:

(1) The transfer or pledge of the insured loan to any person, firm, or corporation, public or private, other than an approved lender.

(2) The disposal by a lender of any partial interest in the insured loan to other than an approved lender.

EXTENSION OF TIME

§ 232.897 Actions to be taken by lender.

With respect to any action required of the lender within a period of time prescribed by this subpart, the Commissioner may extend such period.

Issued at Washington, D.C., May 31, 1974.

SHELDON B. LUBAR,
Assistant Secretary-Commissioner.

PART 733—POLITICAL ACTIVITY OF FEDERAL EMPLOYEES

Comprehensive Employment and Training; Correction

In the Federal Register of May 24. 1974, FR Doc. 74-11946, on page 18279. the words "parts A, B, and E of title I of" were inadvertently omitted from the introductory paragraph of the revision of § 733.301. The paragraph should read as follows: "The Comprehensive Employment and Training Act of 1973 (Pub. L. 93-203, 87 Stat. 839) repealed parts A, B. and E of title I of the Economic Opportunity Act of 1964, but continued the Job Corps within the Department of Labor."

United States Civil Service Commission,

PART 930—PROGRAMS FOR SPECIFIC POSITIONS AND EXAMINATIONS (MISCELLANEOUS)

Use of the Term "Judge"

Section 930.203a is amended to prohibit the use of the word "judge" in the title of any position other than Administrative Law Judge for any purpose.

Section 930.203a is revised as set out below.

V39 111 JUN 7 74 XUM

§ 930.203a Title of Administrative Law Judge.

The title, "administrative law judge" is the official class title for an administrative law judge position. Each agency shall use only this official class title for personnel, budget, fiscal and all other purposes, and may not use the word "judge" as the title or part of the title for any other position for any purpose.

(5 U.S.C. 1305, 3105, 3344, 5362, 7521)

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

[Phase IV Price Notice 1974-8]

WHOLESALE/RETAIL PRICE "REPURIFICATION"

Phase IV Price Notice

The purpose of this notice is to explain the validity and effect of § 150.313 for the last reporting quarter ended prior to the expiration of price controls.

Under § 150.313 a markup or gross margin excess in a particular quarter will be excused to the extent that the excess is offset by the firm in the succeeding fiscal quarter. The question has arisen as to whether this provision has any applicability when the excess occurs with respect to the last fiscal quarter ended under price controls and the succeeding fiscal quarter is the quarter which follows expiration of price control authority.

It is clear that § 150.313 contemplates that the succeeding fiscal quarter in which the markup or gross margin excess is offset will be a quarter in which controls are in effect. "Repurification" during a quarter in which no controls are in effect would not be meaningful. It is the conclusion of the Council, therefore, that § 150.313 does not apply to excuse markup or gross margin violations for the last full quarter under controls. In other words, a markup or gross margin excess for a quarter which ends on or before April 30, 1974, cannot be excused by operation of § 150.313.

However, in appropriate cases the Council would be willing to consider, in the context of post-controls compliance settlements, the effect of true forebearance of price increases in the subsequent quarter which can be demonstrated to have resulted in "repurification" as described in § 150.313.

In addition, a markup or gross margin excess may be excused where the succeeding fiscal quarter is the quarter in which price controls expire if the firm can demonstrate, to the satisfaction of the Council, that the excess was fully offset as of April 30, 1974 (i.e., during the "stub" period, if any, between the end of the last full quarter under controls and the expiration of the Economic Stabilization Act).

Issued in Washington, D.C., on June 4, 1974.

JAMES W. MCLANE,
Deputy Director,
Cost of Living Council.

[FR Doc.74-13065 Filed 6-4-74;11:07 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 82—EXOTIC NEWCASTLE DISEASE; AND PSITTACOSIS OR ORNITHOSIS IN POULTRY

Areas Released From Quarantine

This amendment excludes portions of El Paso County in Texas from the areas quarantined because of exotic Newcastle disease under the regulations in 9 CFR Part 82, as amended. Therefore, the restrictions pertaining to the interstate movement of poultry, mynah and psittacine birds, and birds of all other species under any form of confinement, and their carcasses and parts thereof, and certain other articles from quarantined areas, as contained in 9 CFR Part 82, as amended, will not apply to the excluded areas.

Accordingly, Part 82, Title 9, Code of Federal Regulations, is hereby amended in the following respect:

§ 82.3 [Amended]

In § 82.3, in paragraph (a)(1) relating to the State of Texas, paragraphs (i), (ii), (iii) and (iv) relating to El Paso County are deleted.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132 (21 U.S.C. 111-113, 115, 117, 120, 123-126, 134b, 134f), 37 FR 28464, 28477; 38 FR 19141.)

Effective date. The foregoing amendment shall become effective June 3, 1974.

The amendment relieves certain restrictions no longer deemed necessary to prevent the spread of exotic Newcastle disease, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 3d day of June 1974.

PIERRE A. CHALOUX,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.74-13084 Filed 6-6-74;8:45 am]

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE (MEAT AND POULTRY PRODUCTS INSPECTION) DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—MANDATORY MEAT INSPECTION

PART 318—ENTRY INTO OFFICIAL ESTABLISHMENTS; REINSPECTION AND PREPARATION OF PRODUCTS

PART 325—TRANSPORTATION

Additional Products Sealing Methods

Statement of Considerations: On July 13, 1973, there was published in the FEDERAL REGISTER (38 FR 18682), under the administrative procedure provisions in 5 U.S.C. 553, a notice of proposed rulemaking to allow additional sealing methods for restricted meat products.

The current regulations specify that certain restricted meat products may be transferred in vehicles sealed with official program seals, or in closed containers sealed by cording and affixing thereto official program wing seals or sealing with wax impressed by an official program metal brand.

The two methods of closing containers approved by the regulations are no longer applicable since the program has discontinued issuing wing seals and wax seals are seldom used. Other control methods have not been permitted.

The proposal would delete the two approved methods for sealing closed containers and allow for the use of pressure sensitive tape applied in two directions around each container and stamped at the intersection with an official inspection legend.

Interested persons were given until September 14, 1973, to submit to the Hearing Clerk written data, views, or arguments concerning the proposed amendments.

The Department received one written comment which requested that an additional sealing method allowing for the use of nonmetallic straps be added to the regulations. Upon evaluation of the additional sealing method, the Department has determined that the method is consistent with the intent of the regulation and will effectively accomplish the required control.

Therefore, §§ 318.10(c)(2)(vi) and 325.7(b) are amended as set forth in the proposal, except that a provision to allow the use of nonmetallic straps as a sealing device has been added to § 325.7(b), as set forth below.

(Sec. 21, 34 Stat. 1260, as amended (21 U.S.C. 621); 37 FR 28464, 28477)

It does not appear that further public participation in rulemaking proceedings on the amendments would make additional information available to the Department. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that further notice and other rulemaking procedures on the amendments are impracticable and unnecessary.

These amendments shall become effective July 8, 1974.

Done at Washington, D.C., on May 30, 1974.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

1. In § 318-10 paragraph (c)(2)(vi) is revised as follows.

§ 318.10 Prescribed treatment of pork and products containing pork to destroy trichinae.

* * * * *

(c) * * *
(2) * * *
(vi) Pork which has been refrigerated as specified in this subparagraph may be transferred in sealed railroad cars, sealed motortrucks, sealed trailers, or sealed closed containers to another official establishment at the same or another location, for use in the preparation of product covered by paragraph (b) of this section. Such vehicles and containers shall be sealed and transported between official establishments in accordance with § 325.7 of this subchapter.

* * * * *

2. In § 325.7 paragraph (b) is revised as follows.

§ 325.7 Shipment of products requiring special supervision between official establishments under official seal; certificate.

* * * * *

(b) When such restricted product is shipped from one official establishment to another official establishment in the same railroad car or other means of conveyance with other product, such restricted product shall be packed in individual closed containers as hereinafter provided. Containers shall be sealed by firmly applying a pressure sensitive tape around each container in two directions and stamping the intersection of the tape with the marking device described in § 312.2(a) of this subchapter for use on burlap, muslin, etc. (2½-inch rubber brand). Such tape must possess the adhesive property to actually remove a portion of the container surface when the tape is removed. Alternatively, an inelastic, nonmetallic strap which will retain a legible imprint of the marking device (2½-inch rubber brand) may be used. The imprint of the marking device shall be placed partially on the strap and partially on the container. Such restricted product shall be marked "U.S. passed for cooking" or "pork product ---- °F.----days refrigeration" or "beef passed for refrigeration," as the case may be. In addition, a "U.S. retained" tag shall be securely affixed to each container of product passed for cooking and of beef passed for refrigeration. The means of conveyance shall not be sealed unless at least 25 percent of the other product in the vehicle is unmarked. For each consignment there shall be promptly issued and forwarded by the inspector to the inspector in charge at destination, a report on the form entitled "Notice of Unmarked Meats Shipped in Sealed Cars," appropriately modified to show the character of the containers, and that the contents are restricted. A duplicate copy shall be retained in the program files.

Title 10—Energy

CHAPTER II—FEDERAL ENERGY OFFICE

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Miscellaneous Amendments

The amendments published herein are designed to correct technical errors and omissions in Part 211, Mandatory Petroleum Allocation Regulations, issued May 1, 1974 (39 FR 15960, May 6, 1974), effective June 1, 1974.

As part of these corrections, § 211.12 (d)(1), which sets forth the method by which a supplier determines the amounts of product which it supplies under allocation levels not subject to an allocation fraction, is changed to include all amounts not subject to an allocation fraction except those supplied to utilities. A subparagraph (x) is added to § 211.13(b)(1) to provide a means to calculate the supplier-initiated unusual growth adjustment for wholesale purchasers of propane, which has a base period extending into the first quarter of 1973.

Several corrections are made in Subpart D (Propane), including provision for supplier-initiated unusual growth adjustments for wholesale purchasers of propane and requiring FEO approval of unusual growth adjustments for wholesale purchasers of propane for industrial or petrochemical feedstock use. It is also clarified that the use of propane by gas utilities for peak shaving purposes during any twelve month period beginning after January 1, 1974, is limited to one hundred percent of the amount contracted for or purchased for delivery during the base period. The limits placed on inventories controlled by gas utilities are also changed to specify one hundred twenty percent of the modified allocation entitlement under § 211.84 for gas utilities, and one hundred twenty percent of the volumes used for all industrial uses during the period April 1, 1972 through March 31, 1973, provided that inventories are not used to exceed a firm's allocation entitlement. Although the base period for propane is each calendar quarter during the period April 1, 1972, through March 31, 1973, purchasers of propane are given the option for the month of June, 1974, of using only the month of June, 1972, as the base period.

Finally, a definition of wholesale purchaser-consumer is added in § 211.142 for purposes of Subpart H to specify that civil air carriers are wholesale purchaser-consumers.

Because the purpose of these amendments is to provide technical corrections to FEO regulations, the FEO finds that publication in accordance with normal rulemaking procedure is impracticable and that good cause exists for making these amendments effective in less than 30 days.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, E.O. 11748, 38 FR 33575)

In consideration of the foregoing, Chapter II of Title 10 of the Code of Federal Regulations is revised as set forth herein, effective immediately.

Issued in Washington, D.C., June 4, 1974.

WILLIAM N. WALKER,
General Counsel,
Federal Energy Office.

§ 211.12 [Amended]

1. Section 211.12(d)(1) is amended in the first sentence by deleting the phrase "of 100 percent of current requirements" and by inserting between the words "fraction" and "shall" the phrase "(other than a utility)".

2. Section 211.12 is further amended in paragraph (d) by redesignating paragraphs (3) and (4) as paragraphs (4) and (5), respectively, and by adding a new paragraph (3) to read as follows:

* * * * *

(d) *Determination of amounts not subject to an allocation fraction.* * * *
(3) Suppliers which certify their requirements for wholesale purchaser-consumers and end-users entitled to an allocation level of 100 percent of current requirements not subject to an allocation fraction or which receive a certification from any other supplier of such requirements shall be entitled to an adjustment of their base period use as provided by § 211.13(d)(4).

* * * * *

§ 211.13 [Amended]

3. Section 211.13 is amended in paragraph (b)(1) by adding a paragraph (x) to read as follows:

* * * * *

(b) *Adjustments for unusual growth—(1) Supplier-initiated wholesale purchaser unusual growth adjustment.* * * *

(x) Although wholesale purchasers of propane have a base period that includes part of 1973, for the purpose of this paragraph, suppliers shall determine such wholesale purchasers' unusual growth by comparing the volume of propane purchased from the supplier in 1972 and the volume purchased in 1973. If the supplier did not supply the wholesale purchaser for all of 1972, the adjustment shall be made by a comparison of the volume for the period in 1972 that the supplier did supply the wholesale purchaser and the volume purchased by the wholesale purchaser during the corresponding period of 1973.

* * * * *

4. Section 211.13 is further amended in paragraph (d) by adding subparagraph (4) to read as follows:

* * * * *

(d) *Adjustments for increased current requirements.* * * *

V39 111 JUN 7 74 XUM

(4) All suppliers which, in their capacity as wholesale purchaser-resellers, certify their requirements for wholesale purchaser-consumers and end-users entitled to an allocation level of 100 percent of current requirements not subject to an allocation fraction pursuant to § 211.12(d) or which receive a certification from any other supplier of such requirements, shall in turn certify to their suppliers such increased requirements and be assigned a proportionate adjustment to that part of their base period use received from each supplier.

* * * * *

5. Section 211.82 is revised in the definitions of "Base period," "Producer" and "Propane-butane mix" to read as follows:

§ 211.62 Definitions.

"Base period" means each calendar quarter during the period April 1, 1972, through March 31, 1973, which corresponds to the present calendar quarter except that for the period June 1, 1974, through June 30, 1974, purchasers of propane may, at their option, use the period June 1, 1972 through June 30, 1972, as the base period.

* * * * *

"Producer" means a firm which produces propane in a refinery, natural gas processing plant or fractionating plant, or imports more than 2,000,000 gallons per year, including firms which own natural gas and have their gas processed for their account by others but retain title.

* * * * *

"Propane-butane mix" means any mixture consisting exclusively of propane and butane which contains greater than ten (10) percent propane by weight.

* * * * *

6. Section 211.83 is amended by deleting paragraph (d) and by adding paragraph (c)(2)(v) to read as follows:

§ 211.83 Allocation levels.

* * * * *

(c) *Allocation levels subject to an allocation fraction.* * * *

(2) * * *

(v) *Peak shaving for gas utilities.* The use of propane for peak shaving by gas utilities during any consecutive twelve month period beginning after January 1, 1974, is limited to the volume of propane equal to one hundred (100) percent of that volume which a gas utility contracted for or purchased for delivery during the period April 1, 1972 through March 31, 1973, regardless of whether that volume was used during the period. Propane shall not be used for peak shaving as long as the gas utility continues service during such peak shaving usage to interruptible industrial customers (other than for process fuel, plant protection fuel, or raw material) or to any non-residential customer who can use a fuel other than natural gas, propane or butane.

* * * * *

7. Section 211.84 is revised in paragraph (c)(3) to read as follows:

§ 211.84 Modified allocation levels.

* * * * *

(c) *Modified allocation levels subject to an allocation fraction.* * * *

(3) One hundred (100) percent of base period volumes for:

(i) Standby volumes, or any other industrial use;

(ii) Synthetic natural gas feedstock use; and

(iii) Peak shaving for gas utilities. The use of propane for peak shaving by gas utilities during any twelve month period beginning after January 1, 1974, is limited to the volume of propane equal to one hundred (100) percent of that volume which a gas utility contracted for or purchased for delivery during the period April 1, 1972 through March 31, 1973, regardless of whether that volume was used during the period. Propane shall not be used for peak shaving as long as the gas utility continues service during such peak shaving usage to interruptible customers (other than for process fuel, plant protection fuel, or raw material) or to any non-residential customer who can use a fuel other than natural gas, propane or butane.

8. Section 211.86 is amended in paragraphs (a), (e) and (g) to read as follows:

§ 211.86 Method of allocation.

(a) *General.* Except as specifically otherwise provided in this subpart, the allocation of propane shall be as specified in § 211.10. Adjustments to a wholesale purchaser's base period volume specified in § 211.13 shall apply to this subpart, except that wholesale purchaser-consumers using propane for industrial use or petrochemical feedstock use may not receive increased supplies of propane on the basis of an adjustment for unsual growth under § 211.13(b) until such adjustment has been approved by FEO. Wholesale purchaser-consumers of propane for such uses which have received adjustments for unusual growth shall submit to FEO the proposed adjustment and the basis therefor. FEO may require the wholesale purchaser-consumers to submit additional information to justify the adjustment. FEO may approve, deny or modify the adjustment. New wholesale purchasers and end-users are subject to the requirements of § 211.12. Notwithstanding the provisions of § 211.12 (c), each supplier or producer which sells propane to a wholesale purchaser-consumer, end-user or dispensing station shall determine the base period volume of those purchasers but is not required to report that determination to such purchasers except on written request by a purchaser.

* * * * *

(e) Operators of merchant storage facilities shall not release for shipment to gas utilities any quantity of propane which, when taken together with other amounts of propane supplied to that utility for the allocation quarter, exceeds the quantity of propane which may be supplied under the allocation level for utilities in § 211.83(c)(2)(v) or the modified allocation level for utilities in § 211.84(c)(3)(iii).

* * * * *

(g) Producers, suppliers and wholesale purchasers (except gas utilities and industrial users) shall be permitted to accumulate an inventory of propane during the summer in quantities which are normal and reasonable for seasonal usage in accordance with their normal business practices. Inventories controlled by gas utilities and industrial users (including petrochemical producers) shall be limited to:

(1) One hundred twenty (120) percent of the modified allocation entitlement specified in § 211.84 for gas utilities.

(2) One hundred twenty (120) percent of the volumes used for all industrial uses (including standby volumes) during the period April 1, 1972 through March 31, 1973, provided however, that an industrial firm may not use such inventories to exceed its allocation entitlement specified in § 211.84, as appropriate.

If a firm currently controls greater than the above-mentioned inventories, it shall not accept an allocation from a supplier or producer until its inventories are reduced to conform to the limits imposed in this paragraph.

9. Section 211.87 is revised in paragraphs (a), (c) and (e) to read as follows:

§ 211.87 Procedures and reporting requirements.

(a) All owners of storage facilities (or operators thereof) with a capacity in excess of 500,000 gallons which store propane shall report to the Administrator, FEO, the total volume, locations, and ownership of propane in storage including that owned by the storage owner or operator of affiliated companies, and that held in transit. If it is not possible to report each separate account of "in transit" storage, then the total volume shall be reported. This same information shall be reported as of the end of each month on Form FEO 103B and filed within fifteen (15) days after the close of that month. All owners of propane in a merchant storage facility shall file form FEO 101A with the operator of the merchant storage facility, and shall revise such form prior to withdrawal of propane from storage. These reports shall be kept on file by the merchant storage facility operator, and are subject to FEO audit.

* * * * *

(c) The general reporting and recordkeeping requirements contained in Subpart L of this part apply to this subpart except that the requirements of § 211.224 shall not apply and the information required to be kept on FEO forms in § 211.-223 may be kept by suppliers or producers in accordance with that firm's customary recordkeeping practices.

* * * * *

(e) Producers and specified wholesale purchaser-resellers of propane shall report on Form FEO 100–A.

10. Section 211.142 is amended by adding, in the appropriate alphabetical order, the definition of "Wholesale purchaser-consumer" to read as follows:

§ 211.142 Definitions.

* * * * *

"Wholesale purchaser-consumer" means wholesale purchaser-consumer as defined in § 211.51, and any civil air carrier as defined in this section.

[FR Doc.74–13102 Filed 6–6–74;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 74–WE–18–AD, Amdt. 39–1868]

PART 39—AIRWORTHINESS DIRECTIVES

AiResearch Model TPE331–1–151B, –2–201C, –3U–307G, –5–251C, –2–251K and –6–251M Engines

Amendment 39–1842 (39 FR 16873), AD 74–10–10, requires a modification and recurring inspection of the fuel control assembly mounting and support bracket fasteners on the AiResearch Model TPE331–1–151B, –2–201C, –3U–307G, –5–251C, –5–251K and –6–251M engines. After issuing Amendment 39–1842 the agency determined that the installation of a larger fastener for the attachment of the fuel control assembly support bracket to the fuel control assembly effectively eliminates the tendency of this support to loosen in service. Therefore, the AD is being amended to require the modification of the fuel control assembly support bracket attachment lug and installation of the improved fastener, after which the recurring inspection and retorquing of the fuel control assembly mounting and support bracket fasteners required by the AD may be discontinued.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–1842 (39 FR 16873), AD 74–10–10, is amended as follows:

1. Add a new paragraph (d) to read:

(d) Unless previously accomplished, within the next 1000 hours time in service, or within one year after the effective date of this AD, whichever occurs earlier, the fuel control assembly support bracket attachment lug and fastener must be modified in accordance with AiResearch Service Bulletin TPE331–73–0029, dated May 27, 1974, or later FAA-approved revisions. This change has been incorporated in production engines by model and serial number as defined in paragraph 1.A. of the above referenced service bulletin.

2. Add a new paragraph (e) to read:

(e) The recurring inspection required in (b), above, may be discontinued when the modification prescribed in (d), above, have been accomplished.

This amendment becomes effective June 14, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Los Angeles, Calif., on May 31, 1974.

ARVIN O. BASNIGHT,
Director,
FAA Western Region.

[FR Doc.74–13041 Filed 6–6–74;8:45 am]

[Airworthiness Docket No. 74–WE–19–AD, Amdt. 39–1869]

PART 39—AIRWORTHINESS DIRECTIVES

AiResearch Model TSCP700–4B Auxiliary Power Units (APU)

Amendment 39–1837 (39 FR 16874) AD 74–10–11, requires the installation of a placard in view of the flight crew prohibiting all in-flight operation of the AiResearch Model TSCP700–4B APU on McDonnell Douglas Model DC–10 aircraft. After issuing Amendment 39–1837, the agency determined that inspection of the fuel control differential pressure regulator housing and the installation of a bypass system to deliver fuel back to the inlet side of the fuel pump on shut-down prevents the pressure surge which caused the development of fatigue cracks in fuel control differential pressure regulator housing. Therefore, the AD is being amended to permit the in-flight operation of the APU after the housings have been inspected and the bypass system has been installed.

Since this amendment provides an alternative means of compliance and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–1837, (39 FR 16874), AD 74–10–11, is amended as follows:

(1) Delete the last two sentences of the AD beginning with, "Within 25 hours * * *," and add a new paragraph (a), to read:

(a) Within 25 hours additional time in service after the effective date of this AD, as amended, unless already accomplished, install a placard in view of the flight crew to prohibit all in-flight operation of the APU. Thereafter the APU may not be used in flight but may be used in ground operations.

(2) Delete the Note which reads: "This is interim action. An inspection program * * * FAA Western Region."

(3) Add a new paragraph (b) to read:

(b) The operating restriction prescribed in (a), above, may be removed when the inspections and modifications described in paragraph 2.B. and C. of AiResearch Service Bulletin 969900–49–3635, Revision 1, dated May 14, 1974, or later FAA-approved revisions, are accomplished. Differential pressure regulator body assembly P/N 977320 –1 or –2 which does not meet the wall thickness and fillet radius requirements specified in the referenced Service Bulletin must be rendered unserviceable. Those found satisfactory or that can be reworked per the instructions contained in paragraph 2.B.(4) of the referenced Service Bulletin must be re-identified as P/N 977320–4 and may be continued in service. Re-identify the fuel control assembly per paragraph 2.D. of the referenced service bulletin.

(4) Add a new paragraph (c) to read:

(c) Within 8000 APU operating cycles in service after accomplishment of paragraph (b), above, and at intervals not to exceed 3000 APU operating cycles in service thereafter, inspect the fuel control differential pressure regulator body, P/N 977320–4, for cracks in accordance with paragraph 2.B.(2) of AiResearch Service Bulletin 969900–49–3635. If cracks are found, replace the housing with a serviceable housing conforming to P/N 977320–4, prior to further in-flight operation.

NOTE: For the purpose of this AD, an APU operating cycle is any operation consisting of a start and shut-down. The number of cycles may be determined by actual count, or, subject to acceptance by the assigned FAA Maintenance Inspector, may be calculated by dividing the fuel control assembly time in service by the operator's fleet average APU operating time per APU operating cycle.

(5) Add a new paragraph (d) to read:

(d) The inspections prescribed in (c) above may be discontinued when the fuel control differential pressure regulator body assembly P/N 977320–4 is replaced with a new part conforming to P/N 977656–1.

(6) Add a new paragraph (e) to read:

(e) Equivalent procedures may be approved by the Chief, Aircraft Engineering Division, FAA Western Region, upon submission of adequate substantiation data.

This amendment becomes effective June 14, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on May 31, 1974.

ARVIN O. BASNIGHT,
Director,
FAA Western Region.

[FR Doc.74–13040 Filed 6–6–74;8:45 am]

[Airworthiness Docket No. 73–SW–74, Amdt. 39–1864]

PART 39—AIRWORTHINESS DIRECTIVES

Bell Model 47 Series Helicopters

Amendment 39–1801 (39 FR 11083), AD 74–7–1, requires disassembly and internal inspection of vertical control tubes for internal corrosion within 100 hours time in service and thereafter at 1200 hour intervals on Bell Model 47 Series helicopters. The Amendment also requires replacement of corroded tubes, protection of tube internal surfaces and sealing of the tube assembly to preclude corrosion and it also requires submittal

V 39 — 111 JUN 7 74 XUM

of reports to assess the magnitude of the corrosion.

Preliminary written and verbal reports have been received on the affected tubes but a trend has not developed from this limited information. Written reports are still required to assess the magnitude of tube corrosion. As a result of these preliminary reports, it is apparent that the A.D. can be revised to return to service those control tubes with light corrosion pits, provided these tubes are removed from service prior to accumulating 200 hours time in service after the initial inspection. Therefore the A.D. is being amended accordingly.

Since this amendment provides relief and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–1801 (39 FR 11083), AD 74–7–1 is amended as follows:

1. By revising subparagraph (c) to read as follows:

(c) Remove corroded control tubes from service prior to further flight, except as specified by paragraph (g) of this A.D. and submit a report of finding a corroded tube to Chief, Engineering and Manufacturing Branch, Flight Standards Division, Southwest Region, FAA, P.O. Box 1689, Fort Worth, Texas 76101. The control tube assembly part number, degree of corrosion found and total time in service should be included in the report. FAA Form 8330–2 may be used for this report. (Reporting approved by the Bureau of the Budget under BOB No. 04–R0174.)

2. By adding a new subparagraph (g) as follows:

(g) Tubes with light corrosion over less than twenty-five percent of the area in any one-half inch length of the tube may be returned to service provided the tube is assembled and protected as noted in paragraph (d) of this A.D. and the tube is removed from service prior to accumulating 200 hours time in service after the initial inspection prescribed by this A.D. was conducted.

Note: Advisory Circular No. 43–4, page 47 defines light corrosion.

This amendment becomes effective May 30, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423), sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)).)

Issued in Fort Worth, Tex., on May 29, 1974.

Henry L. Newman,
Director, Southwest Region.

[FR Doc.74-13043 Filed 6-6-74;8:45 am]

[Airworthiness Docket No. 74-WE-17-AD, Amdt. 39-1865]

PART 39—AIRWORTHINESS DIRECTIVES

McDonnell Douglas Model DC–9 and Military C–9A & C–9B Airplanes

There have been fatigue failures in the spoiler actuating link and/or fitting of the spoiler actuating mechanism on McDonnell Douglas DC–9 series airplanes. Failures of any of these elements could result in an unsafe condition. In a recent incident an airplane experienced an abrupt 45° roll as the result of sudden spoiler deployment which was attributed to fatigue failure of the spoiler link, P/N 3923250–3. Failure occurred when the pilot was selecting 25° to 50° flaps at approximately 1,000 altitude on approach.

The manufacturer has issued Service Bulletins S/B 27–156 and 27–139 to operators of the Model DC–9 and military C–9A and C–9B airplanes, providing instructions for retrofit of a new improved spoiler actuating link, P/N 3923250–7, and spoiler fitting, P/N 3923251–3 "G". These new parts were incorporated in the DC–9 production line on fuselage number F/N 716 and 623 and subsequent aircraft respectively.

Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require initial and repetitive inspections of spoiler actuating links and fittings for cracks and replacement, if necessary, and revisions to appropriate sections of the model DC–9 Airplane Flight Manual (AFM), on McDonnell Douglas DC–9–10, –20, –30, –40 series and military C–9A and C–9B (DC–9–32F) airplanes. The AD contains provisions for terminating actions.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

McDonnell Douglas. Applies to all Model DC–9 Series airplanes, including, but not limited to models thereof, –10, –20, –30, and –40 (Military C–9A and C–9B), inclusive of fuselage number F/N 1 through 715, certificated in all categories, which correspond to the factory serial numbers listed in Douglas Service Bulletin No. S/B 27–139, dated January 20, 1971, or later FAA-approved revisions; and/or which correspond to the factory serial numbers listed in Douglas Service Bulletin No. S/B 27–156, dated February 7, 1974, or later FAA-approved revisions, as applicable.

Compliance required as indicated:

I. To detect fatigue cracks in the spoiler actuator links, P/N 3923250–3 and/or –5, and in the spoiler fitting, P/N 3923251–3–NC and/or through "F" Change, accomplish the following:

(A) (1) For airplanes with 3,000 hours or more time in service on these parts on the effective date of this A.D., within the next 300 hours time in service and thereafter at intervals not to exceed 300 hours time in service on these parts from the last inspection, visually inspect the spoiler actuating links, P/N 392350–3 and/or –5 and/or the spoiler fittings, P/N 392351–3–NC and/or through "F" Change, in accordance with the instructions and procedures of paragraph (B), below. At or prior to the accumulation of an additional 1,000 hours time in service from the first visual inspection on these parts, institute the program of ultrasonic inspection methods in accordance with the inspections outlined in Douglas All Operators Letter, AOL, 9–802 dated May 14, 1974, or equivalent inspection means approved by the Chief, Aircraft Engineering Division, FAA Western Region, per (C) below.

(2) For airplanes with less than 3,000 hours time in service on these parts on the effective date of this A.D., comply with paragraph (B) before the accumulation of 3,300 total hours time in service.

(B) (1) Visually inspect the exposed surfaces on the forward and aft lugs including the areas surrounding the grease fittings on the spoiler actuating link, P/N 3923250–3 and/or –5 for evidence of cracking.

(2) Visually inspect the exposed surface and areas surrounding the grease fitting on the spoiler fitting, P/N 392351–3–NC and/or through "F" Change for evidence of cracking.

(3) If a crack(s) is found:

(a) In the spoiler actuator link, before further flight, replace the cracked part(s) with a new part, P/N 3923250–5, of the same design, in accordance with Douglas Service Bulletin S/B 27–42, Revision 3, dated April 8, 1968, or later FAA-approved revisions; or replace with a new part, P/N 3923250–7, in accordance with Douglas Service Bulletin S/B 27–156, dated February 7, 1974, or later FAA-approved revisions.

(b) In the spoiler fitting, P/N 3923251–3–NC and/or through "F" Change, replace the cracked part(s) with a new part, P/N 3923251–3–"G" Change, in accordance with Douglas Service Bulletin S/B 27–139, dated January 20, 1971, or later FAA-approved revisions, prior to further flight.

(4) (a) Upon installation of a new part(s), P/N 3923250–5 in accordance with the requirements of (B)(3)(a), the inspections required in (B)(1) and (B)(2) and (C), below, may be discontinued until the new part(s) accumulate 3,000 hours time in service, at which time institute the program of ultrasonic inspections of (C), below, and any necessary replacement per this A.D.; or,

(b) Upon installation of a new part(s) P/N 3923250–7, in accordance with the requirements of (B)(3)(a), the inspection requirements of this A.D. may be discontinued for that part only.

(c) Upon installation of a new part(a) P/N 3923251–"G" Change, in accordance with the requirements of (B)(3)(b), the inspection requirements of this A.D. may be discontinued for that part only.

(C) At or prior to 1,000 hours time in service on the parts after the accomplishment of the first visual inspection required by (B)(1) and (B)(2), above, and at intervals not to exceed 1,600 hours time in service thereafter or, at or before the accumulation of 3,000 hours time in service on new parts, P/N 3923250–5, and at intervals not to exceed 1,600 hours time in service thereafter.

(1) Perform an ultrasonic inspection in accordance with the instructions outlined in Douglas All Operators Letter, AOL 9–802, dated May 14, 1974, or equivalent inspection means approved by the Chief, Aircraft Engineering Division, FAA Western Region, on the spoiler actuating link, P/N 3923250–3 and/or –5, and the spoiler fitting, P/N 3923251–3 and/or through "F" Change; or

(2) Replace the spoiler actuator link(s), P/N 3923250–3 and/or –5 and or spoiler fitting(s), P/N 3923251–3–NC and/or through "F" Change, with a new spoiler link, P/N 3923250–7 and/or spoiler fitting P/N 3923251–3–"G" Change, in accordance with the instructions in Douglas Service Bulletins S/B 27–139, dated January 20, 1971, and S/B 27–156, dated February 7, 1974, or later FAA-approved revisions. Upon accomplishment of this link and/or fitting installation, the inspection requirements of this A.D. may be discontinued for that part(s) only.

Note: (a) For the purposes of this A.D., if the time-in-service hours of either the spoiler actuating link or the spoiler fitting cannot be established, the part will be considered to have the same number of time-in-service hours as the airplane on which it is installed.

(b) Refer to the appropriate Douglas and/or Operators Maintenance and Overhaul Manuals and/or the Service Bulletins noted in this A.D. for instructions and caution and warning notes necessary for accomplishing the inspections of these parts.

(3) If cracks are found in the spoiler actuator link and/or spoiler fitting as a result of the ultrasonic inspection, before further flight, replace the cracked parts as specified in (B)(3)(a) and (B)(3)(b) and comply with the requirements of (B)(4)(a), (B)(4)(b) and (B)(4)(c), as applicable.

Note: The airplane may be flown in accordance with FARs 21.197 and 21.199, with crack(s), in the spoiler fitting and/or link, using the applicable limitations and procedures prescribed in Part II of this A.D., to a base where the inspection and/or maintenance can be performed.

(D) If cracks are found as a result of the inspections performed in compliance with this A.D., report the findings to the Chief, Aircraft Engineering Division, FAA Western Region, P.O. Box 92007, Worldway Postal Center, Los Angeles, California 90009 (Reporting approved by the Bureau of Budget under BOB No. 04–R–0174).

Identify part number, total hours time in service on the part and time in service since last inspection; number, size and location of crack(s); total time on the aircraft, serial number of the aircraft; spoiler location (inboard or outboard).

II. To provide crews with operational information should spoiler float occur, evidenced by abrupt roll, and to provide for a permanent change in the FAA-approved Airplane Flight Manual (and/or appropriate AFM section of the operator's manual required by FAR 121.133 and 121.141), "Emergency Procedures" Section, accomplish the following:

(A) *Placard.* Within 48 hours after the effective date of this AD, unless already accomplished, install a placard as close as practicable to the flap position indicator, reading as follows:

DC–9–10. Flap selection excess 20° must be made prior to 1000 feet AGL. See Section I, AFM for alternate procedures.

DC–9–20, 30, 40, C9A, C9B. Flap selection excess 25° must be made prior to 1000 feet AGL. See Section I, AFM for alternate procedures.

(B) *Limitations.* Within 48 hours after the effective date of this AD, unless already accomplished, incorporate the "Limitations" set forth below into the airplane flight manual. Operators shall initiate action to notify and ensure that flight crewmembers are apprised of these limitations.

DC–9–10—Sec. I *Limitations.* (New Title) "Flaps"; "Flap selection in excess of 20° must be made prior to descending below 1000 feet above ground level except for the following:

"Approach and landing may be made with a maximum of 30° flaps when 15 percent is added to the 50° flap landing field length."

Sec. I *Limitations.* Performance and Operating Limitations. Add a new paragraph as follows:

"When using the 30° flaps for landing, the maximum permissible quick turn around landing weight shown on the plot 'Maximum Permissible Quick Turn Around Landing Weight Flaps Down' in Section IV must be reduced by 15 percent."

DC–9–20, 30, 40, C9A, C9B—Sec. I *Limitations.* (New Title) "Flaps" Flap selection in excess of 25° must be made prior to descending below 1000 feet above ground level except for the following:

"Approach and landing may be made with a maximum of 25° flaps when 20 percent is added to the 50° flap landing field length."

Sec. I *Limitations.* Performance and Operating Limitations. Add new paragraph as follows:

"When using the 25° flaps for landing, the maximum permissible quick turn around landing weight shown on the plot 'Maximum Permissible Quick Turn Around Landing Weight Flaps Full Down' in Section IV must be reduced by 20 percent."

The "Limitations" may be terminated, and the placard removed when any one of the following requirements have been accomplished.

(1) Compliance with both I (B)(4)(b) and (B)(4)(c); or

(2) Compliance with I(B)(4)(b) and initial 1,000 hours ultrasonic inspection per (C)(1) for spoiler fittings; or

(3) Compliance with I(B)(4)(c) and initial 1,000 hours ultrasonic inspection per (C)(1) for spoiler links; or

(4) Compliance with the initial 1,000 hours ultrasonic inspections per (C)(1) for both the spoiler links and fittings.

(C) Emergency Procedures.

Within 48 hours after the effective date of this AD, unless already accomplished, incorporate the "Emergency Procedures" set forth below into the airplane flight manual. These procedures shall constitute a permanent change to the manual. Operators shall initiate action to notify and ensure that flight crewmembers are apprised of this change.

Emergency procedures. All models.

New Section "Spoiler Float";

"Should rapid roll develop during extension of flap to 50°, retract flaps immediately to single engine landing flap setting. Adjust speed as required."

This amendment becomes effective June 13, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on May 30, 1974.

Arvin O. Basnight,
Director,
FAA Western Region.

[Airspace Docket No. 74-NW-06]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

On April 15, 1974, a notice of proposed rulemaking was published in the Federal Register (39 FR 13556) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Bremerton, Washington, Control Zone.

Interested persons were given 30 days in which to submit written data, views or arguments. No objections were received, and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., August 15, 1974.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Seattle, Wash., May 30, 1974.

C. B. Walk, Jr.,
Director, Northwest Region.

In § 71.171 (39 FR 354) the description of the Bremerton, Washington Control Zone is amended to read:

Bremerton, Washington

Within a 5-mile radius of Kitsap County Airport (Latitude 47°29'35" N., Longitude 122°45'35" W.), within 3 miles each side of the 209° bearing from the Kitsap RBN (Latitude 47°29'48" N., Longitude 122°45'36" W.) extending from the 5-mile radius to 8 miles SW. of the RBN, and within 2 miles each side of the 028° bearing from the Kitsap RBN extending from the 5-mile radius zone to 7 miles northeast of the RBN. This Control Zone will be effective during the time established in advance by a Notice to Airmen and continuously published in the Airmen's Information Manual.

[FR Doc.74-13046 Filed 6-6-74;8:45 am]

[Airspace Docket No. 74-SO-49]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone; Correction

On May 16, 1974, FR Doc. No. 74-11226 was published in the Federal Register (39 FR 17431), amending Part 71 of the Federal Aviation Regulations by amending the alteration of the Fort Lauderdale, Fla. (Executive Airport) control zone.

In the amendment, reference is erroneously made to "Runway 8/27" in lieu of "Runway 8/26." It is necessary to amend the FR Doc. to correct this error. Since this amendment is editorial in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In line six of the amended description "* * * Runway 8/27 * * *" is deleted and "* * * Runway 8/26 * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on May 28, 1974.

Phillip M. Swatek,
Director, Southern Region.

[FR Doc.74-13035 Filed 6-6-74;8:45 am]

[Airspace Docket No. 74-SO-40]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On April 18, 1974, a notice of proposed rulemaking was published in the Federal

V39 111 JUN 7 74 XUM

REGISTER (39 FR 13899), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Jacksonville, Fla., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., August 15, 1974, as hereinafter set forth.

In § 71.181 (39 FR 440), the Jacksonville, Fla., transition area is amended as follows:

"* * * long. 81°25'15" W.)." is deleted and "* * * long. 81°25'15" W.); within a 6.5-mile radius of Herlong Airport (lat. 30°16'30" N. long. 81°48'20" W.)." is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on May 28, 1974.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.74-13034 Filed 6-6-74;8:45 am]

[Airspace Docket No. 74-SW-15]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation regulations is to alter the Lawton, Okla., transition area.

On April 18, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 13899) stating the Federal Aviation Administration proposed to alter the 700-foot transition area at Lawton, Okla.

Interested persons were afforded an opportunity to participate in the rulemaking through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation regulations is amended, effective 0901 G.m.t., August 15, 1974, as hereinafter set forth.

In § 71.181 (39 FR 440), the Lawton, Okla., transition area is amended to read:

LAWTON, OKLA.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Lawton Municipal Airport (latitude 34°34'15" N., longitude 98°24'55" W.); within 8 miles W and 5 miles E of the Lawton VOR 357° and 177° radials, extending from 5 miles N to 7 miles S of the VOR; within 10 miles W and 5 miles E of the Lawton VOR 177° radial extending from 7 miles S to 17 miles S of the VOR and within 2 miles each side of the 180° bearing from the Fort Sill RBN extending from the 7-mile radius area to the RBN and excluding that portion within the confines of the Wichita Falls, Tex., transition area.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on May 24, 1974.

ALBERT H. THURBURN,
*Acting Director,
Southwest Region.*

[FR Doc.74-13045 Filed 6-6-74;8:45 am]

[Airspace Docket No. 74-WE-5]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On April 18, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 13898) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a new transition area for Oakdale Airport, California.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendment is hereby adopted subject to the following change.

Delete "106°" where it appears in the text and substitute "104°" therefor.

Since this change is minor in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary.

Effective date. This amendment shall be effective 0901 G.m.t., August 15, 1974.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Los Angeles, Calif., on May 30, 1974.

ROBERT O. BLANCHARD,
*Acting Director,
Western Region.*

In § 71.131 (39 FR 440) the following transition area is added:

OAKDALE, CALIF.

That airspace extending upward from 700 feet above the surface within a 3-mile radius of Oakdale Airport (latitude 37°45'28" N., longitude 120°43'01" W.) and within 2.5 miles each side of the Stockton VORTAC 104° radial, extending from the 3-mile radius area to 16 miles E of the VORTAC.

[FR Doc. 74-13037 Filed 6-6-74;8:45 am]

[Airspace Docket No. 74-WE-7]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Control Zone

On April 26, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 14725) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would establish a new control zone at Scottsdale Airport, Arizona.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., August 15, 1974.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Los Angeles, Calif. on May 30, 1974.

ROBERT O. BLANCHARD,
*Acting Director,
Western Region.*

In § 71.171 (39 FR 354) the following control zone is added:

SCOTTSDALE, ARIZ.

Within a 5-mile radius of Scottsdale Airport (latitude 33°37'05" N., longitude 111°-54'55" W.). This control zone will be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously established and published in the Airman's Information Manual.

[FR Doc.74-13038 Filed 6-6-74;8:45 am]

[Airspace Docket No. 74-SW-14]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate a 700-foot transition area at Pearsall, Tex.

On April 18, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 13899) stating the Federal Aviation Administration proposed to designate the Pearsall, Tex., transition area.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., August 15, 1974, as hereinafter set forth.

In § 71.181 (39 FR 440), the following transition area is added:

PEARSALL, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of McKinley Field Airport (latitude 28°49'00" N., longitude 99°07'00" W.) and within 2.5 miles either side of the Cotulla, Tex. VORTAC 001° radial extending from the 5-mile radius area to 18.5 miles north of the VORTAC.

(Sec. 307(a) Federal Aviation Act of 1958, (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on May 24, 1974.

[Airspace Docket No. 74-SO-9]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of VOR Federal Airway

On March 18, 1974, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (39 FR 10161) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate alternate VOR Federal Airway No. 7E between Montgomery, Ala., and Birmingham, Ala.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments, but no comments were received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., August 15, 1974, as hereinafter set forth.

Section 71.123 (39 FR 307, 3929) is amended as follows:

In V-7 Between "Birmingham;" and "Muscle Shoals, Ala.," add: "including an east alternate via INT of Montgomery 358° and Birmingham 140° radials;".

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on June 3, 1974.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and
Air Traffic Rules Division.*

[Airspace Docket No. 74-SO-10]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of VOR Federal Airways

On March 25, 1974, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (39 FR 11099) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would revoke VOR Federal Airway segments in the Atlanta, Ga., to Charlotte, N.C., area which are no longer needed.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments, but no comments were received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., August 15, 1974, as hereinafter set forth.

Section 71.123 (39 FR 307) is amended as follows:

1. In V-194 "From Norcross, Ga., INT Norcross 042° and Anderson, S.C., 274° radials; Anderson; INT Anderson 065° and Charlotte, N.C., 240° radials; Charlotte; Liberty, N.C.;" is deleted and "From Liberty, N.C., via" is substituted therefor.

2. In V-296 "From Sugarloaf Mountain, N.C., Fort Mill, S.C.;" is deleted and "From Fort Mill, S.C.;" is substituted therefor.

(Sec. 307(a), Federal Avaition Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on June 3, 1974.

CHARLES H. NEWPOL,
*Acting Chief, Airspace and
Air Traffic Rules Division.*

[Airspace Docket No. 74-GL-8]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Alteration of Jet Routes

On April 8, 1974, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (39 FR 12769) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 75 of the Federal Aviation Regulations that would realign Jet Route Nos. 60 and 146 between Lincoln, Nebr., and Iowa City, Iowa.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., August 15, 1974, as hereinafter set forth.

Section 75.100 (39 FR 699) is amended as follows:

1. In Jet Route No. 60

"INT Lincoln 089° and Iowa City, Iowa, 252° radials; Iowa City;" is deleted and "Iowa City, Iowa;" is substituted therefor.

2. In Jet Route No. 146

"INT Lincoln 089° and Iowa City, Iowa, 252° radials; Iowa City;" is deleted and "Iowa City, Iowa;" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1848(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on June 3, 1974.

Correction

In FR Doc. 74-8754 appearing at page 13774 in the issue of Wednesday, April 17, 1974 make the following changes:

1. In the first column, second line, "36 FR" should read "36(228)".
2. In item No. 4, fourth line, the figures "798,799" should read "798-799".
3. In item No. 12, second line, the word "biolography" should read "bibliography".
4. In item No. 14, fourth line, "Vol. 29" should read "Vol. 229".
5. In term No. 15, second line, the word "Irons" should read "Ions".

SUBCHAPTER C—DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Oleandomycin

The Commissioner of Food and Drugs has evaluated supplemental new animal drug applications (11-545V and 35-287V) filed by Pfizer, Inc., New York, NY 10017, proposing safe and effective use of swine feed concentrates containing up to 225 grams of oleandomycin activity per ton, and revision of the limits of assay for finished feeds for chickens, turkeys, and swine. The supplemental applications are approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 2.120), § 135e.45 is amended by revising paragraphs (c) and (e) to read as follows:

§ 135e.45 Oleandomycin.

* * * * *

(c) *Assay limits.* (1) Feeds containing up to 11.25 grams of oleandomycin per ton to contain 70 to 130 percent of the labeled amount of product.

(2) Feed concentrates containing more than 11.25 grams of oleandomycin per ton to contain 75 to 125 percent of the labeled amount of product.

* * * * *

V 39 — 111 JUN 7 74 XUM

(e) *Special considerations.* (1) Bentonite should not be used in feeds containing oleandomycin.

(2) Finished swine feeds processed from concentrates that contain up to 225 grams of oleandomycin per ton and conforming to the requirements of paragraph (f)(1) of this section are not required to comply with the provisions of section 512(m) of the act.

* * * * *

Effective date. This order shall be effective June 7, 1974.

(Sec. 512(1), 82 Stat. 347; (21 U.S.C. 360b(1)))

Dated: May 31, 1974.

FRED J. KINGMA,
Acting Director, Bureau of Veterinary Medicine.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T.D. 7315]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Depreciation Allowance for Property of Certain Public Utilities

By notice of proposed rulemaking appearing in the FEDERAL REGISTER for September 1, 1972 (37 FR 17845), amendments to the Income Tax Regulations (26 CFR Part 1) were proposed in order to conform the regulations to section 441(a) of the Tax Reform Act of 1969 (83 Stat. 625), relating to depreciation allowance for property of certain public utilities. By notice of proposed rulemaking published on May 31, 1973 (38 FR 14287), new paragraph (6) was added to § 1.167(l)-1(h) as proposed on September 1, 1972. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, certain changes were made and the proposed amendments are adopted by this document, subject to the changes indicated below. The amendments supersede § 13.13 of this chapter relating to use of a normalization method of accounting which was prescribed by T.D. 7049, approved June 25, 1970 (35 FR 10518).

Section 167(l) provides limitations on the use of certain methods of computing a reasonable allowance for depreciation under section 167(a) with respect to public utility property for all taxable years for which a Federal income tax return was not filed before August 1, 1969. Under section 167(l), a taxpayer may always use a straight line method (or other subsection (l) method) of depreciation, and the use of a method of depreciation other than a subsection (l) method is generally not prohibited if the taxpayer uses a normalization method of regulated accounting. Further, in certain cases the use of a method of depreciation other than a subsection (l) method is not prohibited by section 167(l) if the taxpayer used a flowthrough method of regulated accounting for its "July 1969 regulated accounting period". A taxpayer may not use a method of depreciation other than a subsection (l) method in the case of pre-1970 public utility property unless such method of depreciation is its "applicable 1968 method".

The regulations provide definitions for "public utility property", "pre-1970 public utility property", "post-1969 public utility property", "applicable 1968 method", "subsection (l) method", "July 1969 regulated accounting period", "normalization method of regulated accounting", and "flow-through method of regulated accounting". The definition of "applicable 1968 method" has been modified to include a method of accelerated depreciation otherwise allowable under section 167 if the method results in a lesser depreciation expense in the year of the change to such method.

Paragraph (h) of § 1.167(l)-1 provides rules with respect to the use of a normalization method of regulated accounting. Under these rules a taxpayer is deemed to be using a normalization method of regulated accounting with respect to its public utility property if it uses the same method of depreciation to compute both its tax expense and its depreciation expense for purposes of establishing cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account and, if it uses a different method to compute its allowance under section 167 than the method used for the purposes previously described, the taxpayer makes adjustments to a reserve to reflect the total amount of deferral of Federal income tax liability resulting from the use of such different method of depreciation. Paragraph (h)(3) provides rules for establishing compliance with normalization requirements in respect of operating books of account. These rules have been modified to provide additional time in which to establish such compliance.

Paragraph (h)(6) provides that a taxpayer does not use a normalization method of regulated accounting if, for ratemaking purposes, the amount for deferred taxes under section 167(l) which is excluded from the base to which the taxpayer's rate of return is applied exceeds the amount in the reserve for deferred taxes for the period used in determining the taxpayer's cost of service in such ratemaking. Paragraph (h)(6) also provides a formula to determine the amount in the reserve account. This paragraph has been clarified to indicate that the "period used" may be an historical (base) period, a projected period, or a combination thereof. In addition inclusion of the reserve for deferred taxes in no-cost capital in those rate cases in which the rate of return is based upon the cost of capital is to be considered as an exclusion of the normalization reserve from the rate base for purposes of paragraph (h)(6). Also, the effective date for certain provisions in paragraph (h)(6) has been changed.

Paragraph (i) of § 1.167(l)-1 defines the term "flow-through method of regulated accounting".

Section 167(l)-3, relating to the property of a taxpayer which is subject to the jurisdiction of two or more regulatory bodies, has been modified to clarify the rules as they relate to a single multiple asset account.

Adoption of amendments to the regulations. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendments described in the first paragraph of this document are hereby adopted, subject to the changes set forth below. The regulations hereby adopted supersede the provisions of § 13.13 of this chapter (relating to use of a normalization method of accounting for public utility property) which were prescribed by Treasury Decision 7049 (35 FR 10518), approved June 25, 1970.

PARAGRAPH 1. Section 1.167 (a)-11 is changed as follows:

1. Subdivision (ii) of paragraph (b)(6), as set forth in paragraph 1 of the notice of proposed rulemaking of September 1, 1972, is changed by deleting the portion of such subdivision preceding the last sentence thereof.

2. The second sentence of paragraph (c) (1) (iv) (*a*) is revised.

These revised provisions read as set forth below.

PAR. 2. Section 1.167 (a)-12 is changed by revising the last sentence of paragraph (a) (4) (iii) (*b*) and the second sentence of paragraph (a) (5) (v) to read as set forth below.

PAR. 3. Section 1.167 (l)-1, as set forth in paragraph 2 of the notice of proposed rulemaking of September 1, 1972, is changed as follows:

1. Six new sentences are added at the end of paragraph (a)(1).

2. The third sentence of paragraph (a)(2) is changed by deleting the word "generally".

3. A sentence is added at the end of paragraph (e)(1).

4. The first sentence of paragraph (h)(2)(i) is revised.

5. Examples (1), (2), and (3) of paragraph (h)(2)(ii) are changed by deleting the phrase "in 1972" and by substituting therefor the phrase "for 1972" in the last sentence of example (1) and in the eighth sentence of example (2) and by deleting the phrase "in 1971" and substituting therefor the phrase "for 1971" in the last sentence of example (3).

6. Paragraph (h)(3) (i), (ii), and (iii) is revised.

7. Examples (1) and (2) of paragraph (h)(4)(iii) are revised and a new example (3) is added.

8. The heading and the last two sentences of paragraph (h)(5) are revised.

These changed provisions read as set forth below.

PAR. 4. Section 1.167 (l)-1, as set forth in the notice of proposed rulemaking of May 31, 1973, is changed to read as set forth below.

PAR. 5. Section 1.167(l)-3, as set forth in paragraph 3 of the notice of proposed rule making of September 1, 1972, is changed by adding a new sentence after the first sentence of paragraph (a)(1) to read as set forth below.

PAR. 6. Section 1.167(l)-5 is redesignated as § 1.167(l)-4.

(Secs. 167(l) (83 Stat. 625; 26 U.S.C. 167); 7805, Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805))

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: May 29, 1974.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

PARAGRAPH 1. Section 1.167(a)-11 is changed as follows:

1. The next to last sentence of paragraph (b)(6)(ii) is amended by deleting the following text from the paragraph.

2. The second sentence of paragraph (c)(1)(iv)(*a*) is revised.

These revised provisions read as follows:

§ 1.167(a)-11 Depreciation based on class lives and asset depreciation ranges for property placed in service after December 31, 1970.

* * * * *

(b) *Reasonable allowance using asset depreciation ranges.* * * *

(6) *Special rule for certain public utility property.* * * *

(ii) *Normalization.* * * * and makes adjustments to a reserve to reflect the deferral of taxes resulting from the election to apply this section. A determination whether the taxpayer is considered to normalize (within the meaning of the preceding sentence) the tax deferral resulting from the election to apply this section shall be made in a manner consistent with the principles for determining whether a taxpayer is using the "normalization method of accounting" (within the meaning of section 167(l)(3)(G)). [Deleted] See § 1.167(l)-1(h).

* * * * *

(c) *Manner of determining allowance*—(1) *In general.* * * *

(iv) *Limitation of methods.* (*a*) * * * Generally, the method of depreciation which may be adopted is subject to the limitations contained in section 167(c), (j) and (l). * * *

* * * * *

PAR. 2. Section 1.167 (a)-12 is changed by revising the last sentence of paragraph (a)(4)(iii)(*b*) and the second sentence of paragraph (a)(5)(v) to read as follows:

§ 1.167(a)-12 Depreciation based on class lives for property first placed in service before January 1, 1971.

(a) *In general.* * * *

(4) *Requirements of election.* * * *

(iii) *Special rule for certain public utility property.* * * *

(*b*) * * * See § 1.167 (l)-1 (h).

* * * * *

(5) *Determination of reasonable allowance for depreciation.* * * *

(v) *Method of depreciation.* * * * The method of depreciation is subject to the limitations of section 167 (c), (j), and (l). * * *

* * * * *

PAR. 3. Section 1.167(l)-4 is redesignated as § 1.167(l)-2 and immediately after § 1.167(l) and before such redesignated § 1.167(l)-2 there is added the following new section:

§ 1.167(l)-1 Limitations on reasonable allowance in case of property of certain public utilities.

(a) *In general*—(1) *Scope.* Section 167(l) in general provides limitations on the use of certain methods of computing a reasonable allowance for depreciation under section 167(a) with respect to "public utility property" (see paragraph (b) of this section) for all taxable years for which a Federal income tax return was not filed before August 1, 1969. The limitations are set forth in paragraph (c) of this section for "pre-1970 public utility property" and in paragraph (d) of this section for "post-1969 public utility property." Under section 167(l), a taxpayer may always use a straight line method (or other "subsection (l) method" as defined in paragraph (f) of this section). In general, the use of a method of depreciation other than a subsection (l) method is not prohibited by section 167(l) for any taxpayer if the taxpayer uses a "normalization method of regulated accounting" (described in paragraph (h) of this section). In certain cases, the use of a method of depreciation other than a subsection (l) method is not prohibited by section 167(l) if the taxpayer used a "flow-through method of regulated accounting" described in paragraph (i) of this section) for its "July 1969 regulated accounting period" (described in paragraph (g) of this section) whether or not the taxpayer uses either a normalization or a flow-through method of regulated accounting after its July 1969 regulated accounting period. However, in no event may a method of depreciation other than a subsection (l) method be used in the case of pre-1970 public utility property unless such method of depreciation is the "applicable 1968 method" (within the meaning of paragraph (e) of this section). The normalization requirements of section 167(l) with respect to public utility property defined in section 167(l)(3)(A) pertain only to the deferral of Federal income tax liability resulting from the use of an accelerated method of depreciation for computing the allowance for depreciation under section 167 and the use of straight line depreciation for computing tax expense and depreciation expense for purposes of establishing cost of services and for reflecting operating results in regulated books of account. Regulations under section 167(l) do not pertain to other book-tax timing differences with respect to State income taxes, F.I.C.A. taxes, construction costs, or any other taxes and items. The rules provided in paragraph (h)(6) of this section are to insure that the same time period is used to determine the deferred tax reserve amount resulting from the use of an accelerated method of depreciation for cost of service purposes and the reserve amount that may be excluded from the rate base or included in no-cost capital in determining such cost of services. The formula provided in paragraph (h)(6)(ii) of this section is to be used in conjunction with the method of accounting for the reserve for deferred taxes (otherwise proper under paragraph (h)(2) of this section) in accordance with the accounting requirements prescribed or approved, if applicable, by the regulatory body having jurisdiction over the taxpayer's regulated books of account. The formula provides a method to determine the period of time during which the taxpayer will be treated as having received amounts credited or charged to the reserve account so that the disallowance of earnings with respect to such amounts through rate base exclusion or treatment as no-cost capital will take into account the factor of time for which such amounts are held by the taxpayer. The formula serves to limit the amount of such disallowance.

(2) *Methods of depreciation.* For purposes of section 167(l), in the case of a declining balance method each different uniform rate applied to the unrecovered cost or other basis of the property is a different method of depreciation. For purposes of section 167(l), a change in a uniform rate of depreciation due to a change in the useful life of the property or a change in the taxpayer's unrecovered cost or other basis for the property is not a change in the method of depreciation. The use of "guideline lives" or "class lives" for Federal income tax purposes and different lives on the taxpayer's regulated books of account is generally not treated for purposes of section 167(l) as a different method of depreciation. Further, the use of an unrecovered cost or other basis or salvage value for Federal income tax purposes different from the basis or salvage value used on the taxpayer's regulated books of account is not treated as a different method of depreciation.

(3) *Application of certain other provisions to public utility property.* For rules with respect to application of the investment credit to public utility property, see section 46(e). For rules with respect to the application of the class life asset depreciation range system, including the treatment of the use of "class lives" for Federal income tax purposes and different lives on the taxpayer's regulated books of account, see § 1.167(a)-11 and § 1.167(a)-12.

(4) *Effect on agreements under section 167(d).* If the taxpayer has entered into an agreement under section 167(d) as to any public utility property and such agreement requires the use of a method of depreciation prohibited by section 167(l), such agreement shall terminate as to such property. The termination, in accordance with this subparagraph, shall not affect any other property (whether or not public utility property) covered by the agreement.

(5) *Effect of change in method of depreciation.* If, because the method of

V39 111 JUN 7 74 XUM

depreciation used by the taxpayer with respect to public utility property is prohibited by section 167(l), the taxpayer changes to a method of depreciation not prohibited by section 167(l), then when the change is made the unrecovered cost or other basis shall be recovered through annual allowances over the estimated remaining useful life determined in accordance with the circumstances existing at that time.

(b) *Public utility property*—(1) *In general.* Under section 167(l)(3)(A), property is "public utility property" during any period in which it is used predominantly in a "section 167(l) public utility activity." The term "section 167(l) public utility activity" means the trade or business of the furnishing or sale of—

(i) Electrical energy, water, or sewage disposal services,

(ii) Gas or steam through a local distribution system,

(iii) Telephone services,

(iv) Other communication services (whether or not telephone services) if furnished or sold by the Communications Satellite Corporation for purposes authorized by the Communications Satellite Act of 1962 (47 U.S.C. 701), or

(v) Transportation of gas or steam by pipeline,

if the rates for such furnishing or sale, as the case may be, are regulated, i.e., have been established or approved by a regulatory body described in section 167(l)(3)(A). The term "regulatory body described in section 167(l)(3)(A)" means a State (including the District of Columbia) or political subdivision thereof, any agency or instrumentality of the United States, or a public service or public utility commission or other body of any State or political subdivision thereof similar to such a commission. The term "established or approved" includes the filing of a schedule of rates with a regulatory body which has the power to approve such rates, even though such body has taken no action on the filed schedule or generally leaves undisturbed rates filed by the taxpayer involved.

(2) *Classification of property.* If property is not used solely in a section 167(l) public utility activity, such property shall be public utility property if its predominant use is in a section 167(l) public utility activity. The predominant use of property for any period shall be determined by reference to the proper accounts to which expenditures for such property are chargeable under the system of regulated accounts required to be used for the period for which the determination is made and in accordance with the principles of § 1.46–3(g)(4) (relating to credit for investment in certain depreciable property). Thus, for example, for purposes of determining whether property is used predominantly in the trade or business of the furnishing or sale of transportation of gas by pipeline, or furnishing or sale of gas through a local distribution system, or both, the rules prescribed in § 1.46–3(g)(4) apply, except that accounts 365 through 371, inclusive (Transmission Plant), shall be added to the accounts enumerated in subdivision (i) of such paragraph (g)(4).

(c) *Pre-1970 public utility property*—(1) *Definition.* (i) Under section 167(l)(3)(B), the term "pre-1970 public utility property" means property which was public utility property at any time before January 1, 1970. If a taxpayer acquires pre-1970 public utility property, such property shall be pre-1970 public utility property in the hands of the taxpayer even though such property may have been acquired by the taxpayer in an arm's-length cash sale at fair market value or in a tax-free exchange. Thus, for example, if corporation X which is a member of the same controlled group of corporations (within the meaning of section 1563(a)) as corporation Y sells pre-1970 public utility property to Y, such property is pre-1970 public utility property in the hands of Y. The result would be the same if X and Y were not members of the same controlled group of corporations.

(ii) If the basis of public utility property acquired by the taxpayer in a transaction is determined in whole or in part by reference to the basis of any of the taxpayer's pre-1970 public utility property by reason of the application of any provision of the code, and if immediately after the transaction the adjusted basis of the property acquired is less than 200 percent of the adjusted basis of such pre-1970 public utility property immediately before the transaction, the property acquired is pre-1970 public utility property.

(2) *Methods of depreciation not prohibited.* Under section 167(l)(1), in the case of pre-1970 public utility property, the term "reasonable allowance" as used in section 167(a) means, for a taxable year for which a Federal income tax return was not filed before August 1, 1969, and in which such property is public utility property, an allowance (allowable without regard to section 167(l)) computed under—

(i) A subsection (l) method, or

(ii) The applicable 1968 method (other than a subsection (l) method) used by the taxpayer for such property, but only if—

(*a*) The taxpayer uses in respect of such taxable year a normalization method of regulated accounting for such property,

(*b*) The taxpayer used a flow-through method of regulated accounting for such property for its July 1969 regulated accounting period, or

(*c*) The taxpayer's first regulated accounting period with respect to such property is after the taxpayer's July 1969 regulated accounting period and the taxpayer used a flow-through method of regulated accounting for its July 1969 regulated accounting period for public utility property of the same kind (or if there is no property of the same kind, property of the most similar kind) most recently placed in service. See paragraph (e)(5) of this section for determination of same (or similar) kind.

(3) *Flow-through method of regulated accounting in certain cases.* See paragraph (e)(6) of this section for treatment of certain taxpayers with pending applications for change in method of accounting as being deemed to have used a flow-through method of regulated accounting for the July 1969 regulated accounting period.

(4) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). Corporation X, a calendar-year taxpayer subject to the jurisdiction of a regulatory body described in section 167(l)(3)(A), used the straight line method of deprecation (a subsection (l) method) for all of its public utility property for which depreciation was allowable on its Federal income tax return for 1967 (the latest taxable year for which X, prior to August 1, 1969, filed a return). Assume that under paragraph (e) of this section, X's applicable 1968 method is a subsection (l) method with respect to all of its public utility property. Thus, with respect to its pre-1970 public utility property, X may only use a straight line method (or any other subsection (l) method) of depreciation for all taxable years after 1967.

Example (2). Corporation Y, a calendar-year taxpayer subject to the jurisdiction of the Federal Power Commmision, is engaged exclusively in the transportation of gas by pipeline. On its Federal income tax return for 1967 (the latest taxable year for which Y, prior to August 1, 1969, filed a return), Y used the declining balance method of depreciation using a rate of 150 percent of the straight-line rate for all of its nonsection 1250 public utility property with respect to which depreciation was allowable. Assume that with respect to all of such property, Y's applicable 1968 method under paragraph (e) of this section is such 150 percent declining balance method. Assume that Y used a normalization method of regulated accounting for all relevant regulated accounting periods. If Y continues to use a normalization method of regulated accounting, Y may compute its reasonable allowance for purposes of section 167(a) using such 150 percent declining balance method for its nonsection 1250 pre-1970 public utility property for all taxable years beginning with 1968, provided the use of such method is allowable without regard to section 167(l). Y may also use a subsection (l) method for any of such pre-1970 public utility property for all taxable years beginning after 1967. However, because each different uniform rate applied to the basis of the property is a different method of depreciation, Y may not use a declining balance method of depreciation using a rate of twice the straight line rate for any of such pre-1970 public utility property for any taxable year beginning after 1967.

Example (3). Assume the same facts as in example (2) except that with respect to all of its nonsection 1250 pre-1970 public utility property accounted for in its July 1969 regulated accounting period Y used a flow-through method of regulated accounting for such period. Assume further that such property is the property on the basis of which the applicable 1968 method is established for pre-1970 public utility property of the same kind, but having a first regulated accounting period after the taxpayer's July 1969 regulated accounting period. Beginning with 1968, with respect to such property Y may compute its reasonable allowance for purposes of section 167(a) using the declining balance method of depreciation and a rate of 150 percent of the straight line rate, whether it uses a normalization or flow-through method of regulated accounting after its July 1969 regulated accounting period, provided the use of such method is allowable without regard to section 167(l).

(d) *Post-1969 public utility property*—(1) *In general.* Under section 167(l)(3)(C), the term "post-1969 public utility property" means any public utility property which is not pre-1970 public utility property.

(2) *Methods of depreciation not prohibited.* Under section 167(l)(2), in the case of post-1969 public utility property, the term "reasonable allowance" as used in section 167(a) means, for a taxable year, an allowance (allowable without regard to section 167(l)) computed under—

(i) A subsection (l) method,

(ii) A method of depreciation otherwise allowable under section 167 if, with respect to the property, the taxpayer uses in respect of such taxable year a normalization method of regulated accounting, or

(iii) The taxpayer's applicable 1968 method (other than a subsection (l) method) with respect to the property in question, if the taxpayer used a flow-through method of regulated accounting for its July 1969 regulated accounting period for the property of the same (or similar) kind most recently placed in service, provided that the property in question is not property to which an election under section 167(l)(4)(A) applies. See § 1.167(l)–2 for rules with respect to an election under section 167(l)(4)(A). See paragraph (e)(5) of this section for definition of same (or similar) kind.

(3) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). Corporation X is engaged exclusively in the trade or business of the transportation of gas by pipeline and is subject to the jurisdiction of the Federal Power Commission. With respect to all its public utility property, X's applicable 1968 method (as determined under paragraph (e) of this section) is the straight line method of depreciation. X may determine its reasonable allowance for depreciation under section 167(a) with respect to its post-1969 public utility property under a straight line method (or other subsection (l) method) or, if X uses a normalization method of regulated accounting, any other method of depreciation, provided that the use of such other method is allowable under section 167 without regard to section 167(l).

Example (2). Assume the same facts as in example (1) except that with respect to all of X's post-1969 public utility property the applicable 1968 method (as determined under paragraph (e) of this section) is the declining balance method using a rate of 150 percent of the straight line rate. Assume further that all of X's pre-1970 public utility property was accounted for in its July 1969 regulated accounting period, and that X used a flow-through method of regulated accounting for such period. X may determine its reasonable allowance for depreciation under section 167 with respect to its post-1969 public utility property by using the straight line method of depreciation (or any other subsection (l) method), by using any method otherwise allowable under section 167 (such as a declining balance method) if X uses a normalization method of regulated accounting, or, by using the declining balance method using a rate of 150 percent of the straight line rate, whether or not X uses a normalization or a flow-through method of regulated accounting.

(e) *Applicable 1968 method*—(1) *In general.* Under section 167(l)(3)(D), except as provided in subparagraphs (3) and (4) of this paragraph, the term "applicable 1968 method" means with respect to any public utility property—

(i) The method of depreciation properly used by the taxpayer in its Federal income tax return with respect to such property for the latest taxable year for which a return was filed before August 1, 1969,

(ii) If subdivision (i) of this subparagraph does not apply, the method of depreciation properly used by the taxpayer in its Federal income tax return for the latest taxable year for which a return was filed before August 1, 1969, with respect to public utility property of the same kind (or if there is no property of the same kind, property of the most similar kind) most recently placed in service before the end of such latest taxable year, or

(iii) If neither subdivision (i) nor (ii) of this subparagraph applies, a subsection (l) method.

If, on or after August 1, 1969, the taxpayer files an amended return for the taxable year referred to in subdivisions (i) and (ii) of this subparagraph, such amended return shall not be taken into consideration in determining the applicable 1968 method. The term "applicable 1968 method" also means with respect to any public utility property, for the year of change and subsequent years, a method of depreciation otherwise allowable under section 167 to which the taxpayer changes from an applicable 1968 method if, such new method results in a lesser allowance for depreciation for such property under section 167 in the year of change and the taxpayer secures the Commissioner's consent to the change in accordance with the procedures of section 446(e) and § 1.446–1.

(2) *Placed in service.* For purposes of this section, property is placed in service on the date on which the period for depreciation begins under section 167. See, for example, § 1.167(a)–10(b) and § 1.167(a)–11(c)(2). If under an averaging convention property which is placed in service (as defined in § 1.46–3(d)(ii)) by the taxpayer on different dates is treated as placed in service on the same date, then for purposes of section 167(l) the property shall be treated as having been placed in service on the date the period for depreciation with respect to such property would begin under section 167 absent such averaging convention. Thus, for example, if, except for the fact that the averaging convention used assumes that all additions and retirements made during the first half of the year were made on the first day of the year, the period of depreciation for two items of public utility property would begin on January 10 and March 15, respectively, then for purposes of determining the property of the same (or similar) kind most recently placed in service, such items of property shall be treated as placed in service on January 10 and March 15, respectively.

(3) *Certain section 1250 property.* If a taxpayer is required under section 167(j) to use a method of depreciation other than its applicable 1968 method with respect to any section 1250 property, the term "applicable 1968 method" means the method of depreciation allowable under section 167(j) which is the most nearly comparable method to the applicable 1968 method determined under subparagraph (1) of this paragraph. For example, if the applicable 1968 method on new section 1250 property is the declining balance method using 200 percent of the straight line rate, the most nearly comparable method allowable for new section 1250 property under section 167(j) would be the declining balance method using 150 percent of the straight line rate. If the applicable 1968 method determined under subparagraph (1) of this paragraph is the sum of the years-digits method, the term "most nearly comparable method" refers to any method of depreciation allowable under section 167(j).

(4) *Applicable 1968 method in certain cases.* (i) (*a*) Under section 167(l)(3)(E), if the taxpayer evidenced within the time and manner specified in (*b*) of this subdivision (i) the intent to use a method of depreciation under section 167 (other than its applicable 1968 method as determined under subparagraph (1) or (3) of this paragraph or a subsection (l) method) with respect to any public utility property, such method of depreciation shall be deemed to be the taxpayer's applicable 1968 method with respect to such public utility property and public utility property of the same (or most similar) kind subsequently placed in service.

(*b*) Under this subdivision (i), the intent to use a method of depreciation under section 167 is evidenced—

(*1*) By a timely application for permission for a change in method of accounting filed by the taxpayer before August 1, 1969, or

(*2*) By the use of such method of depreciation in the computation by the taxpayer of its tax expense for purposes of reflecting operating results in its regulated books of account for its July 1969 regulated accounting period, as established in the manner prescribed in subparagraph (g)(1) (i), (ii), or (iii) of this section.

(ii) (*a*) If public utility property is acquired in a transaction in which its basis in the hands of the transferee is determined in whole or in part by reference to its basis in the hands of the transferor by reason of the application of any provision of the Code, or in a transfer (including any purchase for cash or in exchange) from a related person, then in the hands of the transferee the applicable 1968 method with respect to such property shall be determined by reference to the treatment in respect of such property in the hands of the transferor.

V 39—111 JUN 7 74 XUM

(*b*) For purposes of this subdivision (ii), the term "related person" means a person who is related to another person if either immediately before or after the transfer—

(*1*) The relationship between such persons would result in a disallowance of losses under section 267 (relating to disallowance of losses, etc., between related taxpayers) or section 707(b) (relating to losses disallowed, etc., between partners and controlled partnerships) and the regulations thereunder, or

(*2*) Such persons are members of the same controlled group of corporations, as defined in section 1563(a) (relating to definition of controlled group of corporations), except that "more than 50 percent" shall be substituted for "at least 80 percent" each place it appears in section 1563(a) and the regulations thereunder.

(5) *Same or similar.* The classification of property as being of the same (or similar) kind shall be made by reference to the function of the public utility to which the primary use of the property relates. Property which performs the identical function in the identical manner shall be treated as property of the same kind. The determination that property is of a similar kind shall be made by reference to the proper account to which expenditures for the property are chargeable under the system of regulated accounts required to be used by the taxpayer for the period in which the property in question was acquired. Property, the expenditure for which is chargeable to the same account, is property of the most similar kind. Property, the expenditure for which is chargeable to an account for property which serves the same general function, is property of a similar kind. Thus, for example, if corporation X, a natural gas company, subject to the jurisdiction of the Federal Power Commission, had property properly chargeable to account 366 (relating to transmission plant structures and improvements) acquired an additional structure properly chargeable to account 366, under the uniform system of accounts prescribed for natural gas companies (class A and class B) by the Federal Power Commission, effective September 1, 1968, the addition would constitute property of the same kind if it performed the identical function in the identical manner. If, however, the addition did not perform the identical function in the identical manner, it would be property of the most similar kind.

(6) *Regulated method of accounting in certain cases.* Under section 167(l)(4)(B), if with respect to any pre-1970 public utility property the taxpayer filed a timely application for change in method of accounting referred to in subparagraph (4)(i)(*b*)(*1*) of this paragraph and with respect to property of the same (or similar) kind most recently placed in service the taxpayer used a flow-through method of regulated accounting for its July 1969 regulated accounting period, then for purposes of section 167(l)(1)(B) and paragraph (c) of this section the taxpayer shall be deemed to have used a flow-through method of regulated accounting with respect to such pre-1970 public utility property.

(7) *Examples.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). Corporation X is a calendar-year taxpayer. On its Federal income tax return for 1967 (the latest taxable year for which X, prior to August 1, 1969, filed a return) X used a straight line method of depreciation with respect to certain public utility property placed in service before 1965 and used the declining balance method of depreciation using 200 percent of the straight line rate (double declining balance) with respect to the same kind of public utility property placed in service after 1964. In 1968 and 1970, X placed in service additional public utility property of the same kind. The applicable 1968 method with respect to the above described public utility property is shown in the following chart:

Property held in 1970	Placed in service	Method on 1967 return	Applicable 1968 method
Group 1	Before 1965	Straight line.	Straight line.
Group 2	After 1964 and before 1968.	Double declining balance.	Double declining balance.
Group 3	After 1967 and before 1969.		Do.
Group 4	After 1968		Do.

Example (2). Corporation Y is a calendar-year taxpayer engaged exclusively in the trade or business of the furnishing of electrical energy. In 1954, Y placed in service hydroelectric generators and for all purposes Y has taken straight line depreciation with respect to such generators. In 1960, Y placed in service fossil fuel generators and for all purposes since 1960 has used the declining balance method of depreciation using a rate of 150 percent of the straight line rate (computed without reduction for salvage) with respect to such generators. After 1960 and before 1970 Y did not place in service any generators. In 1970, Y placed in service additional hydroelectric generators. The applicable 1968 method with respect to the hydroelectric generators placed in service in 1970 would be the straight line method because it was the method used by Y on its return for the latest taxable year for which Y filed a return before August 1, 1969, with respect to property of the same kind (i.e., hydroelectric generators) most recently placed in service.

Example (3). Assume the same facts as in example (2), except that the generators placed in service in 1970 were nuclear generators. The applicable 1968 method with respect to such generators is the declining balance method using a rate of 150 percent of the straight line rate because, with respect to property of the most similar kind (fossil fuel generators) most recently placed in service, Y used such declining balance method on its return for the latest taxable year for which it filed a return before August 1, 1969.

(f) *Subsection (l) method.* Under section 167(l)(3)(F), the term "subsection (l) method" means a reasonable and consistently applied ratable method of computing depreciation which is allowable under section 167(a), such as, for example, the straight line method or a unit of production method or machine-hour method. The term "subsection (l) method" does not include any declining balance method (regardless of the uniform rate applied), sum of the years-digits method, or method of depreciation which is allowable solely by reason of section 167(b)(4) or (j)(1)(C).

(g) *July 1969 regulated accounting period*—(1) *In general.* Under section 167(l)(3)(I), the term "July 1969 regulated accounting period" means the taxpayer's latest accounting period ending before August 1, 1969, for which the taxpayer regularly computed, before January 1, 1970, its tax expense for purposes of reflecting operating results in its regulated books of account. The computation by the taxpayer of such tax expense may be established by reference to the following:

(i) The most recent periodic report of a period ending before August 1, 1969, required by a regulatory body described in section 167(l)(3)(A) having jurisdiction over the taxpayer's regulated books of account which was filed with such body before January 1, 1970 (whether or not such body has jurisdiction over rates).

(ii) If subdivision (i) of this subparagraph does not apply, the taxpayer's most recent report to its shareholders for a period ending before August 1, 1969, but only if such report was distributed to the shareholders before January 1, 1970, and if the taxpayer's stocks or securities are traded in an established securities market during such period. For purposes of this subdivision, the term "established securities market" has the meaning assigned to such term in § 1.453–3(d)(4).

(iii) If subdivisions (i) and (ii) of this subparagraph do not apply, entries made to the satisfaction of the district director before January 1, 1970, in its regulated books of account for its most recent accounting period ending before August 1, 1969.

(2) *July 1969 method of regulated accounting in certain acquisitions.* If public utility property is acquired in a transaction in which its basis in the hands of the transferee is determined in whole or in part by reference to its basis in the hands of the transferor by reason of the application of any provision of the Code, or in a transfer (including any purchase for cash or in exchange) from a related person, then in the hands of the transferee the method of regulated accounting for such property's July 1969 regulated accounting period shall be determined by reference to the treatment in respect of such property in the hands of the transferor. See paragraph (e)(4)(ii) of this section for definition of "related person".

(3) *Determination date.* For purposes of section 167(l), any reference to a method of depreciation under section 167(a), or a method of regulated accounting, taken into account by the taxpayer in computing its tax expense for its July 1969 regulated accounting period shall be a reference to such tax expense as shown on the periodic report or report to shareholders to which subparagraph (1)(i) or (ii) of this paragraph applies or the entries made on the taxpayer's regulated books of account to which subparagraph (1)(iii) of this paragraph applies. Thus, for example, assume that regulatory body A having jurisdiction over public utility property with respect to X's regulated books of account requires X to reflect its tax expense in such books using the same method of depreciation which regulatory body B uses for determining X's cost of service for ratemaking purposes. If in 1971, in the course of approving a rate change for X, B retroactively determines X's cost of service for ratemaking purposes for X's July 1969 regulated accounting period using a method of depreciation different from the method reflected in X's regulated books of account as of January 1, 1970, the method of depreciation used by X for its July 1969 regulated accounting period would be determined without reference to the method retroactively used by B in 1971.

(h) *Normalization method of accounting*—(1) *In general.* (i) Under section 167(l), a taxpayer uses a normalization method of regulated accounting with respect to public utility property—

(*a*) If the same method of depreciation (whether or not a subsection (l) method) is used to compute both its tax expense and its depreciation expense for purposes of establishing cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account, and

(*b*) If to compute its allowance for depreciation under section 167 it uses a method of depreciation other than the method it used for purposes described in (*a*) of this subdivision, the taxpayer makes adjustments consistent with subparagraph (2) of this paragraph to a reserve to reflect the total amount of the deferral of Federal income tax liability resulting from the use with respect to all of its public utility property of such different methods of depreciation.

(ii) In the case of a taxpayer described in section 167(l)(1)(B) or (2)(C), the reference in subdivision (i) of this subparagraph shall be a reference only to such taxpayer's "qualified public utility property". See § 1.167(l)–2(b) for definition of "qualified public utility property".

(iii) Except as provided in this subparagraph, the amount of Federal income tax liability deferred as a result of the use of different method of depreciation under subdivision (i) of this subparagraph is the excess (computed without regard to credits) of the amount the tax liability would have been had a subsection (l) method been used over the amount of the actual tax liability. Such amount shall be taken into account for the taxable year in which such different methods of depreciation are used. If, however, in respect of any taxable year the use of a method of depreciation other than a subsection (l) method for purposes of determining the taxpayer's reasonable allowance under section 167(a) results in a net operating loss carryover (as determined under section 172) to a year succeeding such taxable year which would not have arisen (or an increase in such carryover which would not have arisen) had the taxpayer determined his reasonable allowance under section 167(a) using a subsection (l) method, then the amount and time of the deferral of tax liability shall be taken into account in such appropriate time and manner as is satisfactory to the district director.

(2) *Adjustments to reserve.* (i) The taxpayer must credit the amount of deferred Federal income tax determined under subparagraph (1)(i) of this paragraph for any taxable year to a reserve for deferred taxes, a depreciation reserve, or other reserve account. The taxpayer need not establish a separate reserve account for such amount but the amount of deferred tax determined under subparagraph (1)(i) of this paragraph must be accounted for in such a manner so as to be readily identifiable. With respect to any account, the aggregate amount allocable to deferred tax under section 167(l) shall not be reduced except to reflect the amount for any taxable year by which Federal income taxes are greater by reason of the prior use of different methods of depreciation under subparagraph (1)(i) of this paragraph. An additional exception is that the aggregate amount allocable to deferred tax under section 167(l) may be properly adjusted to reflect asset retirements or the expiration of the period for depreciation used in determining the allowance for depreciation under section 167(a).

(ii) The provisions of this subparagraph may be illustrated by the following examples:

Example (1). Corporation X is exclusively engaged in the transportation of gas by pipeline subject to the jurisdiction of the Federal Power Commission. With respect to its post-1969 public utility property, X is entitled under section 167(l)(2)(B) to use a method of depreciation other than a subsection (l) method if it uses a normalization method of regulated accounting. With respect to such property, X has not made any election under § 1.167(a)–11 (relating to depreciation based on class lives and asset depreciation ranges). In 1972, X places in service public utility property with an unadjusted basis of $2 million, and an estimated useful life of 20 years. X uses the declining balance method of depreciation with a rate twice the straight line rate. If X uses a normalization method of regulated accounting, the amount of depreciation allowable under section 167(a) with respect to such property for 1972 computed under the double declining balance method would be $200,000. X computes its tax expense and depreciation expense for purposes of determining its cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account using the straight line method of depreciation (a subsection (l) method). A depreciation allowance computed in this manner is $100,000. The excess of the depreciation allowance determined under the double declining balance method ($200,000) over the depreciation expense computed using the straight line method ($100,000) is $100,000. Thus, assuming a tax rate of 48 percent, X used a normalization method of regulated accounting for 1972 with respect to property placed in service that year if for 1972 it added to a reserve $48,000 as taxes deferred as a result of the use by X of a method of depreciation for Federal income tax purposes different from that used for establishing its cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account.

Example (2). Assume the same facts as in example (1), except that X elects to apply § 1.167(a)–11 with respect to all eligible property placed in service in 1972. Assume further that all property X placed in service in 1972 is eligible property. One hundred percent of the asset guideline period for such property is 22 years and the asset depreciation range is from 17.5 years to 26.5 years. X uses the double declining balance method of depreciation, selects an asset depreciation period of 17.5 years, and applies the half-year convention (described in § 1.167(a)–11(c)(2)(iii)). In 1972, the depreciation allowable under section 167(a) with respect to property placed in service in 1972 is $114,285 (determined without regard to the normalization requirements in § 1.167(a)–11(b)(6) and in section 167(l)). X computes its tax expense for purposes of determining its cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account using the straight line method of depreciation (a subsection (l) method), an estimated useful life of 22 years (that is, 100 percent of the asset guideline period), and the half-year convention. A depreciation allowance computed in this manner is $45,454. Assuming a tax rate of 48 percent, the amount that X must add to a reserve for 1972 with respect to property placed in service that year in order to qualify as using a normalization method of regulated accounting under section 167(l)(3)(G) is $27,429 and the amount in order to satisfy the normalization requirements of § 1.167(a)–11(b)(6) is $5,610. X determined such amounts as follows:

(1) Depreciation allowance on tax return (determined without regard to section 167(l) and § 1.167(a)–11(b)(6))	$114,285
(2) Line (1), recomputed using a straight line method	57,142
(3) Difference in depreciation allowance attributable to different methods (line (1) minus line (2))	$57,143
(4) Amount to add to reserve under this paragraph (48 percent of line (3))	27,429
(5) Amount in line (2)	$57,142
(6) Line (5), recomputed by using an estimated useful life of 22 years and the half-year convention	45,454
(7) Difference in depreciation allowance attributable to difference in depreciation periods	$11,688
(8) Amount to add to reserve under § 1.167(a)–11(b)(6)(ii) (48 percent of line (7))	5,610

If, for its depreciation expense for purposes of determining its cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account, X had used a period in excess of the asset guideline period of 22 years, the total amount in lines (4) and (8) in this example would not be changed.

Example (3). Corporation Y, a calendar-year taxpayer which is engaged in furnishing electrical energy, made the election provided by section 167(l)(4)(a) with respect to its "qualified public utility property" (as defined in § 1.167(l)–2(b)). In 1971, Y placed in service qualified public utility property which had an adjusted basis of $2 million, estimated useful life of 20 years, and no salvage value. With respect to property of

V39—111 JUN 7 74 XUM

the same kind most recently placed in service, Y used a flow-through method of regulated accounting for its July 1969 regulated accounting period and the applicable 1968 method is the declining balance method of depreciation using 200 percent of the straight line rate. The amount of depreciation allowable under the double declining balance method with respect to the qualified public utility property would be $200,000. Y computes its tax expense and depreciation expense for purposes of determining its cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account using the straight line method of depreciation. A depreciation allowance with respect to the qualified public utility property determined in this manner is $100,000. The excess of the depreciation allowance determined under the double declining balance method ($200,000) over the depreciation expense computed using the straight line method ($100,000) is $100,000. Thus, assuming a tax rate of 48 percent, Y used a normalization method of regulated accounting for 1971 if for 1971 it added to a reserve $48,000 as tax deferred as a result of the use by Y of a method of depreciation for Federal income tax purposes with respect to its qualified public utility property which method was different from that used for establishing its cost of service for ratemaking purposes and for reflecting operating results in its regulated books of account for such property.

Example (4). Corporation Z, exclusively engaged in a public utility activity did not use a flow-through method of regulated accounting for its July 1969 regulated accounting period. In 1971, a regulatory body having jurisdiction over all of Z's property issued an order applicable to all years beginning with 1968 which provided, in effect, that Z use an accelerated method of depreciation for purposes of section 167 and for determining its tax expenses for purposes of reflecting operating results in its regulated books of account. The order further provided that Z normalize 50 percent of the tax deferral resulting from the use of the accelerated method of depreciation and that Z flow-through 50 percent of the tax deferral resulting therefrom. Under section 167(l), the method of accounting provided in the order would not be a normalization method of regulated accounting because Z would not be permitted to normalize 100 percent of the tax deferral resulting from the use of an accelerated method of depreciation. Thus, with respect to its public utility property for purposes of section 167, Z may only use a subsection (l) method of depreciation.

Example (5). Assume the same facts as in example (4) except that the order of the regulatory body provided, in effect, that Z normalize 100 percent of the tax deferral with respect to 50 percent of its public utility property and flow-through the tax savings with respect to the other 50 percent of its property. Because the effect of such an order would allow Z to flow-through a portion of the tax savings resulting from the use of an accelerated method of depreciation, Z would not be using a normalization method of regulated accounting with respect to any of its properties. Thus, with respect to its public utility property for purposes of section 167, Z may only use a subsection (l) method of depreciation.

(3) *Establishing compliance with normalization requirements in respect of operating books of account.* The taxpayer may establish compliance with the requirement in subparagraph (1)(i) of this paragraph in respect of reflecting operating results, and adjustments to a reserve, in its operating books of account by reference to the following:

(i) The most recent periodic report for a period beginning before the end of the taxable year, required by a regulatory body described in section 167(l)(3)(A) having jurisdiction over the taxpayer's regulated operating books of account which was filed with such body before the due date (determined with regard to extensions) of the taxpayer's Federal income tax return for such taxable year (whether or not such body has jurisdiction over rates).

(ii) If subdivision (i) of this subparagraph does not apply, the taxpayer's most recent report to its shareholders for the taxable year but only if (*a*) such report was distributed to the shareholders before the due date (determined with regard to extensions) of the taxpayer's Federal income tax return for the taxable year and (*b*) the taxpayer's stocks or securities are traded in an established securities market during such taxable year. For purposes of this subdivision, the term "established securities market" has the meaning assigned to such term in § 1.453–3(d)(4).

(iii) If neither subdivision (i) nor (ii) of this subparagraph applies, entries made to the satisfaction of the district director before the due date (determined with regard to extensions) of the taxpayer's Federal income tax return for the taxable year in its regulated books of account for its most recent period beginning before the end of such taxable year.

(4) *Establishing compliance with normalization requirements in computing cost of service for ratemaking purposes.* (i) In the case of a taxpayer which used a flow-through method of regulated accounting for its July 1969 regulated accounting period or thereafter, with respect to all or a portion of its pre-1970 public utility property, if a regulatory body having jurisdiction to establish the rates of such taxpayer as to such property (or a court which has jurisdiction over such body) issues an order of general application (or an order of specific application to the taxpayer) which states that such regulatory body (or court) will permit a class of taxpayers of which such taxpayer is a member (or such taxpayer) to use the normalization method of regulated accounting to establish cost of service for ratemaking purposes with respect to all or a portion of its public utility property, the taxpayer will be presumed to be using the same method of depreciation to compute both its tax expense and its depreciation expense for purposes of establishing its cost of service for ratemaking purposes with respect to the public utility property to which such order applies. In the event that such order is in any way conditional, the preceding sentence shall not apply until all of the conditions contained in such order which are applicable to the taxpayer have been fulfilled. The taxpayer shall establish to the satisfaction of the Commissioner or his delegate that such conditions have been fulfilled.

(ii) In the case of a taxpayer which did not use the flow-through method of regulated accounting for its July 1969 regulated accounting period or thereafter (including a taxpayer which used a subsection (l) method of depreciation to compute its allowance for depreciation under section 167(a) and to compute its tax expense for purposes of reflecting operating results in its regulated books of account), with respect to any of its public utility property, it will be presumed that such taxpayer is using the same method of depreciation to compute both its tax expense and its depreciation expense for purposes of establishing its cost of service for ratemaking purposes with respect to its post-1969 public utility property. The presumption described in the preceding sentence shall not apply in any case where there is (*a*) an expression of intent (regardless of the manner in which such expression of intent is indicated) by the regulatory body (or bodies), having jurisdiction to establish the rates of such taxpayer, which indicates that the policy of such regulatory body is in any way inconsistent with the use of the normalization method of regulated accounting by such taxpayer or by a class of taxpayers of which such taxpayer is a member, or (*b*) a decision by a court having jurisdiction over such regulatory body which decision is in any way inconsistent with the use of the normalization method of regulated accounting by such taxpayer or a class of taxpayers of which such taxpayer is a member. The presumption shall be applicable on January 1, 1970, and shall, unless rebutted, be effective until an inconsistent expression of intent is indicated by such regulatory body or by such court. An example of such an inconsistent expression of intent is the case of a regulatory body which has, after the July 1969 regulated accounting period and before January 1, 1970, directed public utilities subject to its ratemaking jurisdiction to use a flow-through method of regulated accounting, or has issued an order of general application which states that such agency will direct a class of public utilities of which the taxpayer is a member to use a flow-through method of regulated accounting. The presumption described in this subdivision may be rebutted by evidence that the flow-through method of regulated accounting is being used by the taxpayer with respect to such property.

(iii) The provisions of this subparagraph may be illustrated by the following examples:

Example (*1*). Corporation X is a calendar-year taxpayer and its "applicable 1968 method" is a straight line method of depreciation. Effective January 1, 1970, X began collecting rates which were based on a sum of the years-digits method of depreciation and a normalization method of regulated accounting which rates had been approved by a regulatory body having jurisdiction over X. On October 1, 1971, a court of proper jurisdiction annulled the rate order prospectively, which annulment was not appealed, on the basis that the regulatory body had abused its discretion by determining the rates on the basis of a normalization method of regulated accounting. As there was no inconsistent expression of intent during 1970 or prior to the due date of X's return for 1970, X's use of the sum of the years-digits method of depreciation for purposes of section 167 on such return was proper. For 1971, the presumption is in effect through September 30. During 1971, X may use the sum of the years-digits method of depreciation for purposes of section 167 from January 1 through September 30, 1971. After September 30, 1971, and for taxable years after 1971, X must use a straight line method of depreciation until the inconsistent court decision is no longer in effect.

Example (2). Assume the same facts as in example (1), except that pursuant to the order of annulment, X was required to refund the portion of the rates attributable to the use of the normalization method of regulated accounting. As there was no inconsistent expression of intent during 1970 or prior to the due date of X's return for 1970, X has the benefit of the presumption with respect to its use of the sum of the years-digits method of depreciation for purposes of section 167, but because of the retroactive nature of the rate order X must file an amended return for 1970 using a straight line method of depreciation. As the inconsistent decision by the court was handed down prior to the due date of X's Federal income tax return for 1971, for 1971 and thereafter the presumption of subdivision (ii) of this subparagraph does not apply. X must file its Federal income tax returns for such years using a straight line method of depreciation.

Example (3). Assume the same facts as in example (2), except that the annulment order was stayed pending appeal of the decision to a court of proper appellate jurisdiction. X has the benefit of the presumption as described in example (2) for the year 1970, but for 1971 and thereafter the presumption of subdivision (ii) of this subparagraph does not apply. Further, X must file an amended return for 1970 using a straight line method of depreciation and for 1971 and thereafter X must file its returns using a straight line method of depreciation unless X and the district director have consented in writing to extend the time for assessment of tax for 1970 and thereafter with respect to the issue of normalization method of regulated accounting for as long as may be necessary to allow for resolution of the appeal with respect to the annulment of the rate order.

(5) *Change in method of regulated accounting.* The taxpayer shall notify the district director of a change in its method of regulated accounting, an order by a regulatory body or court that such method be changed, or an interim or final rate determination by a regulatory body which determination is inconsistent with the method of regulated accounting used by the taxpayer immediately prior to the effective date of such rate determination. Such notification shall be made within 90 days of the date that the change in method, the order, or the determination is effective. In the case of a change in the method of regulated accounting, the taxpayer shall recompute its tax liability for any affected taxable year and such recomputation shall be made in the form of an amended return where necessary unless the taxpayer and the district director have consented in writing to extend the time for assessment of tax with respect to the issue of normalization method of regulated accounting.

(6) *Exclusion of normalization reserve from rate base.* (i) Notwithstanding the provisions of subparagraph (1) of this paragraph, a taxpayer does not use a normalization method of regulated accounting if, for ratemaking purposes, the amount of the reserve for deferred taxes under section 167 (l) which is excluded from the base to which the taxpayer's rate of return is applied, or which is treated as no-cost capital in those rate cases in which the rate of return is based upon the cost of capital, exceeds the amount of such reserve for deferred taxes for the period used in determining the taxpayer's tax expense in computing cost of service in such ratemaking.

(ii) For the purpose of determining the maximum amount of the reserve to be excluded from the rate base (or to be included as no-cost capital) under subdivision (i) of this subparagraph, if solely an historical period is used to determine depreciation for Federal income tax expense for ratemaking purposes, then the amount of the reserve account for the period is the amount of the reserve (determined under subparagraph (2) of this paragraph) at the end of the historical period. If solely a future period is used for such determination, the amount of the reserve account for the period is the amount of the reserve at the beginning of the period and a pro rata portion of the amount of any projected increase to be credited or decrease to be charged to the account during such period. If such determination is made by reference both to an historical portion and to a future portion of a period, the amount of the reserve account for the period is the amount of the reserve at the end of the historical portion of the period and a pro rata portion of the amount of any projected increase to be credited or decrease to be charged to the account during the future portion of the period. The pro rata portion of any increase to be credited or decrease to be charged during a future period (or the future portion of a part-historical and part-future period) shall be determined by multiplying any such increase or decrease by a fraction, the numerator of which is the number of days remaining in the period at the time such increase or decrease is to be accrued, and the denominator of which is the total number of days in the period (or future portion).

(iii) The provisions of subdivision (i) of this subparagraph shall not apply in the case of a final determination of a rate case entered on or before May 31, 1973. For this purpose, a determination is final if all rights to request a review, a rehearing, or a redetermination by the regulatory body which makes such determination have been exhausted or have lapsed. The provisions of subdivision (ii) of this subparagraph shall not apply in the case of a rate case filed prior to June 7, 1974, for which a rate order is entered by a regulatory body having jurisdiction to establish the rates of the taxpayer prior to September 5, 1974, whether or not such order is final, appealable, or subject to further review or reconsideration.

(iv) The provisions of this subparagraph may be illustrated by the following examples:

Example (*1*). Corporation X is exclusively engaged in the transportation of gas by pipeline subject to the jurisdiction of the Z Power Commission. With respect to its post-1969 public utility property, X is entitled under section 167(l)(2)(B) to use a method of depreciation other than a subsection (l) method if it uses a normalization method of regulated accounting. With respect to X the Z Power Commission for purposes of establishing cost of service uses a recent consecutive 12-month period ending not more than 4 months prior to the date of filing a rate case adjusted for certain known changes occurring within a 9-month period subsequent to the base period. X's rate case is filed on January 1, 1975. The year 1974 is the recorded test period for X's rate case and is the period used in determining X's tax expense in computing cost of service. The rates are contemplated to be in effect for the years 1975, 1976, and 1977. The adjustments for known changes relate only to wages and salaries. X's rate base at the end of 1974 is $145,000,000. The amount of the reserve for deferred taxes under section 167(l) at the end of 1974 is $1,300,000, and the reserve is projected to be $4,400,000 at the end of 1975, $6,500,000 at the end of 1976, and $9,800,000 at the end of 1977. X does not use a normalization method of regulated accounting if the Z Power Commission excludes more than $1,300,000 from the rate base to which X's rate of return is applied. Similarly, X does not use a normalization method of regulated accounting if, instead of the above, the Z Power Commission, in determining X's rate of return which is applied to the rate base, assigns to no-cost capital an amount that represents the reserve account for deferred tax that is greater than $1,300,000.

Example (2). Assume the same facts as in example (1) except that the adjustments for known changes in cost of service made by the Z Power Commission include an additional depreciation expense that reflects the installation of new equipment put into service on January 1, 1975. Assume further that the reserve for deferred taxes under section 167(l) at the end of 1974 is $1,300,000 and that the monthly net increases for the first 9 months of 1975 are projected to be

January 1–31	$ 310,000
February 1–28	300,000
March 1–31	300,000
April 1–30	280,000
May 1–31	270,000
June 1–30	260,000
July 1–31	260,000
August 1–31	250,000
September 1–30	240,000
	$2,470,000

For its regulated books of account X accrues such increases as of the last day of the month but as a matter of convenience credits increases or charges decreases to the reserve account on the 15th day of the month following the whole month for which such increase or decrease is accrued. The maximum amount that may be excluded from the rate base is $2,470,879 (the amount in the reserve at the end of the historical portion of the period ($1,300,000) and a pro rata portion of the amount of any projected increase for the future portion of the period to be credited to the reserve ($1,170,879)). Such pro rata portion is computed (without regard to the

V 39—111 JUN 7 74 XUM

date such increase will actually be posted to the account) as follows:

$310,000 x 243/273=$ 275,934
300,000 x 215/273= 236,264
300,000 x 184/273= 202,198
280,000 x 154/273= 157,949
270,000 x 123/273= 121,648
260,000 x 93/273= 88,571
260,000 x 62/273= 59,048
250,000 x 31/273= 28,388
240,000 x 1/273= 879

$1,170,879.

Example (3). Assume the same facts as in example (1) except that for purposes of establishing cost of service the Z Power Commission uses a future test year (1975). The rates are contemplated to be in effect for 1975, 1976, and 1977. Assume further that plant additions, depreciation expense, and taxes are projected to the end of 1975 and that the reserve for deferred taxes under section 167 (l) is $1,300,000 for 1974 and is projected to be $4,400,000 at the end of 1975. Assume also that the Z Power Commission applies the rate of return to X's 1974 rate base of $145,000,000. X and the Z Power Commission through negotiation arrive at the level of approved rates. X uses a normalization method of regulated accounting only if the settlement agreement, the rate order, or record of the proceedings of the Z Power Commission indicates that the Z Power Commission did not exclude an amount representing the reserve for deferred taxes from X's rate base ($145,000,000) greater than $1,300,000 plus a pro rata portion of the projected increases and decreases that are to be credited or charged to the reserve account for 1975. Assume that for 1975 quarterly net increases are projected to be

1st quarter	$910,000
2nd quarter	810,000
3rd quarter	750,000
4th quarter	630,000
Total	$3,100,000

For its regulated books of account X will accrue such increases as of the last day of the quarter but as a matter of convenience will credit increases or charge decreases to the reserve account on the 15th day of the month following the last month of the quarter for which such increase or decrease will be accrued. The maximum amount that may be excluded from the rate base is $2,591,480 (the amount of the reserve at the beginning of the period ($1,300,000) plus a pro rata portion ($1,291,480) of the $3,100,000 projected increase to be credited to the reserve during the period). Such portion is computed (without regard to the date such increase will actually be posted to the account) as follows:

$910,000 × 276/365=$ 688,110
810,000 × 185/365= 410,548
750,000 × 93/365= 191,096
630,000 × 1/365= 1,726

$1,291,480

(i) *Flow-through method of regulated accounting*. Under section 167(l)(3)(H), a taxpayer uses a flow-through method of regulated accounting with respect to public utility property if it uses the same method of depreciation (other than a subsection (l) method) to compute its allowance for depreciation under section 167 and to compute its tax expense for purposes of reflecting operating results in its regulated books of account unless such method is the same method used by the taxpayer to determine its depreciation expense for purposes of reflecting operating results in its regulated books of account. Except as provided in the preceding sentence, the method of depreciation used by a taxpayer with respect to public utility property for purposes of determining cost of service for ratemaking purposes or rate base for ratemaking purposes shall not be considered in determining whether the taxpayer used a flow-through method of regulated accounting. A taxpayer may establish use of a flow-through method of regulated accounting in the same manner that compliance with normanization requirements in respect of operating books of account may be established under paragraph (h)(4) of this section.

PAR. 4. Immediately following redesignated § 1.167(l)-2, there is added the following new section:

§ 1.167(l)-3 Multiple regulation, asset acquisitions, reorganizations, etc.

(a) *Property not entirely subject to jurisdiction of one regulatory body*—(1) *In general*. If a taxpayer which uses a method of depreciation other than a subsection (l) method of depreciation is required by a regulatory body having jurisdiction over less than all of its property to use, or not to use, a method of regulated accounting (i.e., normalization or flow-through), such taxpayer shall be considered as using, or not using, such method of regulated accounting only with respect to property subject to the jurisdiction of such regulatory body. In the case of property which is contained in a multiple asset account, the provisions of § 1.167(a)-7(c) and § 1.167(a)-11(c)(1)(iv) apply to prohibit depreciating a single account by two or more different methods.

(2) *Jurisdiction of regulatory body*. For purposes of this paragraph, a regulatory body is considered to have jurisdiction over property of a taxpayer if expenses with respect to the property are included in cost of service as determined by the regulatory body for ratemaking purposes or for reflecting operating results in its regulated books of account. For example, if regulatory body A, having jurisdiction over 60 percent of an item of X corporation's public utility property, required X to use the flow-through method of regulated accounting in circumstances which would bar X from using a method of depreciation under section 167(a) other than a subsection (l) method, and if regulatory body B, having jurisdiction over the remaining 40 percent of such item of property does not so require X to use the flow-through method of regulated accounting (or if the remaining 40 percent is not subject to the jurisdiction of any regulatory body), then with respect to 60 percent of the adjusted basis of the property X is prohibited from using a method of depreciation for purposes of section 167(a) other than a subsection (l) method. If in such example, A, having jurisdiction over 60 percent of X's public utility property, had jurisdiction over 100 percent of a particular generator, then with respect to the generator X would be prohibited from using a method of depreciation other than a subsection (l) method.

(3) *Public utility property subject to more than one regulatory body*. If a regulatory body having jurisdiction over public utility property with respect to the taxpayer's regulated books of account requires the taxpayer to reflect its tax expense in such books in the manner used by the regulatory body having jurisdiction over the public utility property for purposes of determining the taxpayer's cost of service for ratemaking purposes, the rules of subparagraphs (1) and (2) of this paragraph shall apply.

(b) *Leasing transactions*—(1) *Leased property*. Public utility property as defined in paragraph (b) of § 1.167(l)-1 includes property which is leased by a taxpayer where the leasing of such property is part of the lessor's section 167(l) public utility activity. Thus, such leased property qualifies as public utility property even though the predominant use of such property by the lessee is in other than a section 167(l) public utility activity. Further, leased property qualifies as public utility property under section 167(l) even though the leasing is not part of the lessor's public utility activity if the predominant use of such property by the lessee or any sublessee is in a section 167(l) public utility activity. However, the limitations of section 167(l) apply to a taxpayer only if such taxpayer is subject to the jurisdiction of a regulatory body described in section 167(l)(3)(A). For example, if a financial institution purchases property which it then leases to a lessee which uses such property predominantly in a section 167(l) public utility activity, the property qualifies as public utility property. However, because the financial institution's rates for leasing the property are not subject to the jurisdiction of a regulatory body described in section 167(l)(3)(A), the provisions of section 167(l) do not apply to the depreciation deductions taken with respect to the property by the financial institution. For possible application of section 167(l) to the lessee, see subparagraph (2) of this paragraph.

(2) *Certain rental payments*. Under section 167(l)(5), if a taxpayer leases property which is public utility property and the regulatory body having jurisdiction over such property for purposes of determining the taxpayer's operating results in its regulated books of account or for ratemaking purposes allows only an amount of such lessee's expenses with respect to the lease which is less than the amount which the taxpayer deducts for purposes of its Federal income tax liability, then a portion of the difference between such amounts shall not be allowed as a deduction by the taxpayer for purposes of its Federal income tax liability in such manner and time as the Commissioner or his delegate may determine consistent with the principles of § 1.167(l)-1 and this section applicable as to when a method of depreciation other than a subsection (l) method

may be used for purposes of section 167(a).

(c) *Certain partnership arrangements*. Under section 167(l)(5), if property held by a partnership is not public utility property in the hands of the partnership but would be public utility property if an election was made under section 761 to be excluded from partnership treatment, then section 167(l) shall be applied by treating the partners as directly owning the property in proportion to their partnership interests.

(d) *Cross reference*. See § 1.167(l)-1(c)(1) for treatment of certain property as "pre-1970 public utility property" and § 1.167(l)-1(e)(4)(ii) for applicable 1968 method in the case of property acquired in certain transactions.

PAR. 5. Paragraph (b) of § 1.162-1 is amended by adding at the end thereof a new subparagraph (6) which reads as follows:

§ 1.162-1 Business expenses.

* * * * *

(b) *Cross references*. * * *

(6) For treatment of certain rental payments with respect to public utility property, see section 167(l) and § 1.167(l)-3.

§ 1.167(l)-5 [Redesignated]

PAR. 6. Section 1.167(l)-5 is redesignated as § 1.167(l)-4.

Enforcement; Civil and Criminal Penalty Procedures

Correction

In FR Doc. 74-12624 appearing at page 19472 in the issue of Monday, June 3, 1974, after the first line of § 1.07-23, insert the following: "may transfer a case to another".

Title 36—Parks, Forests, and Public Property

CHAPTER VII—LIBRARY OF CONGRESS

[Regulation No. 1111-1]

PART 701—PROCEDURES AND SERVICES

Loans of Library Materials for Blind and Other Physically Handicapped Persons

Under the provisions of the Act of March 3, 1931 (46 Stat. 1487), as amended, the Library of Congress, through its Division for the Blind and Physically Handicapped, provides for the loan of library materials to blind and physically handicapped persons who are eligible. To be eligible, individuals must meet certain criteria set out in Library of Congress regulations. The Library recently learned that certain of those eligibility requirements used terms which were less than accurate diagnoses of specific conditions, and persons identified as competent to make judgments on eligibility criteria for one specific condition were not so qualified for others. To remedy this situation, the Library sought advice from nationally prominent individuals and institutions regarding authorities competent to judge the physical and organic basis of specific individual disabilities. As a result of that investigation, changes were made in the eligibility requirements; they are as follows:

Section 701.10 is amended to read as follows:

§ 701.10 Loans of library materials for blind and other physically handicapped persons.

(a) *Program*. In connection with the Library's program of service under the act of March 3, 1931 (46 Stat. 1487), as amended, its Division for the Blind and Physically Handicapped provides books in raised characters (braille), on sound reproduction recordings, or in any other form, under regulations established by the Librarian of Congress. The Division also provides and maintains reproducers for such sound reproduction recordings for the use of blind and other physically handicapped residents of the United States, including the several States, Territories, Insular Possessions, and the District of Columbia, and American citizens temporarily domiciled abroad.

(b) Eligibility Criteria. (1) The following persons are eligible for such service:

(i) Blind persons whose visual acuity, as determined by competent authority, is 20/200 or less in the better eye with correcting glasses, or whose widest diameter if visual field subtends an angular distance no greater than 20 degrees.

(ii) Persons whose visual disability, with correction and regardless of optical measurement, is certified by competent authority as preventing the reading of standard printed material.

(iii) Persons certified by competent authority as unable to read or unable to use standard printed material as a result of physical limitations.

(iv) Persons certified by competent authority as having a reading disability resulting from organic dysfunction and of sufficient severity to prevent their reading printed material in a normal manner.

(2) In connection with eligibility for loan services "competent authority" is defined as follows:

(i) In cases of blindness, visual disability, or physical limitations "competent authority" is defined to include doctors of medicine, ophthalmologists, optometrists, registered nurses, therapists, professional staff of hospitals, institutions, and public or welfare agencies (e.g., social workers, case workers, counselors, home teachers, and superintendents). In the absence of any of these, certification may be made by professional librarians or by any person whose competence under specific circumstances is acceptable to the Library of Congress.

(ii) In the case of reading disability from organic dysfunction, competent authority is defined as doctors of medicine who may consult with colleagues in associated disciplines.

(c) *Loans through regional libraries*. Sound reproducers are lent to individuals and appropriate centers through agencies, libraries, and other organizations designated by the Librarian of Congress to service specific geographic areas, to certify eligibility or prospective readers, and to arrange for maintenance and repair of reproducers. Libraries designated by the Librarian of Congress serve as local or regional centers for the direct loan of such books, reproducers, or other specialized material to eligible readers in specific geographic areas. They share in the certification of prospective readers, and utilize all available channels of communication to acquaint the public within their jurisdiction with all aspects of the program.

(d) *National collections*. The Librarian of Congress, through the Division for the Blind and Physically Handicapped, defines regions and determines the need for new regional libraries and deposit collections in cooperation with other libraries or agencies whose activities are primarily concerned with the blind or physically handicapped. The National Collections located in the Division for the Blind and Physically Handicapped serve as one such regional center, and provide services to other libraries, and to blind and physically handicapped readers anywhere in the nation requiring specialized materials. It serves as the center from which books, recordings, sound reproducers, and other specialized materials are lent to eligible blind and physically handicapped readers who may be temporarily domiciled outside the jurisdictions enumerated by the act.

(e) *Institutions*. The reading materials and sound reproducers for the use of the blind and physically handicapped may be loaned to individuals who qualify, to schools for the blind or otherwise handicapped, and to institutions for the use of such persons only. The reading materials and sound reproducers may also be used in public or private schools; however, the individual students who qualify must be the direct and only recipients of the materials and equipment.

(f) *Musical scores*. The Division also maintains a library of musical scores, instructional texts, and other specialized materials for the use of the blind and other physically handicapped residents of the United States and its possessions in furthering their educational, vocational, and cultural opportunities in the field of music. Such scores, texts, and materials are made available on a loan basis under regulations developed by the Librarian of Congress in consultation with persons, organizations, and agencies engaged in work for the blind and for other physically handicapped persons.

(g) *Veterans*. In the lending of such books, recordings, reproducers, musical scores, instructional texts, and other specialized materials, preference shall be at all times given to the needs of the blind and other physically handicapped persons who have been honorably discharged

V 39 111 JUN 7 74 XUM

from the Armed Forces of the United States.

(h) Inquiries for information relative to the prescribed procedures and regulations governing such loans and requests for loans should be addressed to: Chief, Division for the Blind and Physically Handicapped, Library of Congress, Washington, D.C. 20542.

Effective date: July 1, 1974.

Issued in Washington, D.C., May 31, 1974.

[SEAL] JOHN G. LORENZ,
Acting Librarian of Congress.

[FR Doc.74-13080 Filed 6-6-74;8:45 am]

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 3—ADJUDICATION

Subpart A—Pension, Compensation and Dependency and Indemnity Compensation

Subpart C—Servicemen's Indemnity

Revocation of Obsolete Provisions

On page 12899 of the FEDERAL REGISTER of April 9, 1974, there was published a notice of proposed regulatory development to revoke obsolete provisions relating to servicemen's indemnity. In addition, minor editorial changes were made to reflect agency policy to avoid any appearance of seeming to preclude benefits for female veterans, dependents, or beneficiaries. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

No written comments have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. Sections 3.658(a) and 3.702(d) and the revocation of §§ 3.400 (t), 3.403(e), 3.500(s), 3.704(b), 3.705, 3.706 and 3.1800 through 3.1822 are effective May 31, 1974.

Approved: May 31, 1974.

By direction of the Administrator.

[SEAL] R. L. ROUDEBUSH,
Deputy Administrator.

1. In § 3.400, paragraph (t) is revoked and the former paragraphs (u), (v), (w) and (x) are redesignated (t), (u), (v), and (w). The redesignated paragraphs read as follows:

§ 3.400 General.

Except as otherwise provided, the effective date of an award of pension, compensation or dependency and indemnity compensation based on an original claim, a claim reopened after final disallowance, or a claim for increase will be the date of receipt of the claim or the date entitlement arose, whichever is the later. The effective date of an evaluation and award of pension or compensation for a veteran will be the date of receipt of the claim or the date entitlement arose, whichever is later. (38 U.S.C. 3010(a))

* * * * *

(t) *Whereabouts now known.* (See § 3.158(c).)

(u) *Void or annulled marriage of a child (38 U.S.C. 3010(a), (k); § 3.55)*—(1) *Void.* Date the parties ceased to cohabit or date of receipt of claim, whichever is later.

(2) *Annulled.* Date the decree of annulment became final if claim is filed within 1 year after that date; otherwise date of receipt of claim.

(v) *Termination of remarriage of widow (widower) (38 U.S.C. 3010(a), (k); 38 U.S.C. 103(d)(2) and 3010(l) effective January 1, 1971; § 3.55)*—(1) *Void.* Date the parties ceased to cohabit or date of receipt of claim, whichever is the later.

(2) *Annulled.* Date the decree of annulment became final if claim is filed within 1 year after that date; otherwise date of receipt of claim.

(3) *Death.* Date of death if claim is filed within 1 year after that date; otherwise date of receipt of claim. (Effective January 1, 1971)

(4) *Divorce.* Date the decree became final if claim is filed within 1 year after that date; otherwise date of receipt of claim. (Effective January 1, 1971)

(w) *Termination of relationship or conduct resulting in restriction on payment of benefits (38 U.S.C. 103(d)(3), 3010(m), effective January 1, 1971; §§ 3.50(b)(2) and 3.55).* Date of receipt of application filed after termination of relationship and after December 31, 1970.

2. In § 3.402, the headnote, the introductory portion preceding paragraph (a), and paragraphs (a) and (b) are amended to read as follows:

§ 3.402 Widows (widowers).

Awards of pension, compensation, or dependency and indemnity compensation to or for a widow (widower) will be effective as follows:

(a) *Additional allowance of dependency and indemnity compensation for children (§ 3.5(e)).* Commencing date of widow's (widower's) award. See § 3.400(c).

(b) *Legal widow (widower) entitled.* See § 3.657.

* * * * *

3. In § 3.403, the introductory portion preceding paragraph (a) is amended, paragraph (e) is revoked and the former paragraph (f) is redesignated (e). The amended material and the redesignated paragraph (e) read as follows:

§ 3.403 Children.

Awards of pension, compensation, or dependency and indemnity compensation to or for a child, or to or for a veteran or widow (widower) on behalf of such child, will be effective as follows:

* * * * *

(e) *Adopted child.* Date of adoption either interlocutory or final or date of adoptive placement agreement, but not earlier than the date from which benefits are otherwise payable.

4. In § 3.500, paragraph (s) is revoked and former paragraphs (t) through (w) are redesignated (s) through (v). The redesignated paragraphs (s), (t), (u) and (v) read as follows:

§ 3.500 General.

The effective date of a rating which results in the reduction or discontinuance of an award will be in accordance with the facts found except as provided in § 3.105. The effective date of reduction or discontinuance of an award of pension, compensation, or dependency and indemnity compensation for a payee or dependent will be the earliest of the dates stated in these paragraphs unless otherwise provided. Where an award is reduced, the reduced rate will be effective the day following the date of discontinuance of the greater benefit. (38 U.S.C. 3012(b))

* * * * *

(s) *Treasonable acts or subversive activities. (38 U.S.C. 3504 and 3505; §§ 3.902 and 3.903)* Beginning date of award, or day preceding date of commission of treasonable act or subversive activities for which convicted, whichever is later. (See § 3.669.)

(t) *Whereabouts unknown (§§ 3.158, 3.656).* Date of last payment.

(u) *Change in law or Veterans Administration issue, or interpretation.* See § 3.114.

(v) *Failure to furnish evidence.* Except as otherwise provided, date of last payment where evidence requested to establish continued entitlement is not furnished.

5. In § 3.656, paragraph (d) is amended to read as follows:

§ 3.656 Disappearance of veteran.

* * * * *

(d) When any veteran has disappeared for 90 days or more and his (or her) whereabouts remain unknown to members of his (or her) family and the Veterans Administration, any pension under Public Law 86–211 (73 Stat. 432) or Indian or Spanish-American War pension which the veteran was receiving or entitled to receive may be paid to or for the spouse or children. The status of the veteran at the time of disappearance, with respect to permanent and total disability, income and net worth will be presumed to continue unchanged. Payment for the wife (husband) or children will be effective the day following the date of last payment to the veteran if a claim is received within 1 year after that date; otherwise from date of receipt of a claim. The total amount payable will be the lesser of these amounts:

(1) Death pension.

(2) Amount of pension payable to the veteran at the time of disappearance. (38 U.S.C. 507)

6. Section 3.657 is revised to read as follows:

§ 3.657 Widow (widower) becomes entitled, or entitlement terminates.

Where a widow (widower) establishes entitlement to pension, compensation, or dependency and indemnity compensation, an award to another person as widow (widower), or for a child or children as if there were no widow (widower), will be discontinued or adjusted as provided in this section.

(a) *Widow's (widower's) awards.* For periods on or after December 1, 1962, where a legal widow (widower) establishes entitlement after payments have been made to another person as widow (widower), the full rate payable to the legal widow (widower) will be authorized effective the date of entitlement. Payments to the former payee will be discontinued as follows:

(1) Where benefits are payable to the legal widow (widower) from a date prior to the date of filing claim, the award to the former payee will be terminated the day preceding the effective date of the award to the legal widow (widower).

(2) Where benefits are payable to the legal widow (widower) from the date of filing claim, the award to the former payee will be terminated effective the date of receipt of the claim or date of last payment, whichever is later.

(b) *Children's awards.* (1) Where a widow (widower) establishes entitlement and:

(i) Payments were being made for a child or children at a lower monthly rate than that provided where there is a widow (widower), the award to the widow (widower) will be effective the date provided by the applicable law, and will be the difference between the rate paid for the children and the rate payable for the widow (widower) and children. The full rate will be payable for the widow (widower) effective the day following the date of last payment for the children;

(ii) Payments were being made for a child or children at the same or higher monthly rate than that provided where there is a widow (widower), the award to the widow (widower) will be effective the day following the date of last payment on the awards on behalf of the children.

(2) Where a widow (widower) has received benefits after entitlement was terminated and,

(i) The child or children were entitled to a lower monthly rate, the award to the widow (widower) will be amended to authorize payment at the rate provided for the children as if there were no widow (widower), covering the period from the date the widow's (widower's) entitlement terminated to the date of last payment. The award for the child or children will be made effective the following day.

(ii) The child or children were entitled to a higher monthly rate, the award to the widow (widower) will be discontinued effective date of last payment. The award to the children will be effective the day following the date the widow's (widower's) entitlement terminated and will be the difference between the rate payable for the children and the rate paid on the widow's (widower's) award. The full rate will be payable for the children effective the day following the date of last payment to the widow (widower).

7. Section 3.658 is revised to read as follows:

§ 3.658 Offsets; dependency and indemnity compensation.

(a) When an award of dependency and indemnity compensation is made covering a period for which death compensation, servicemen's indemnity, or benefits under the Federal Employees' Compensation Act, based on military service, have been paid to the same payee based on the same death, the award of dependency and indemnity compensation will be made subject to an offset of payments of death compensation or benefits under the Federal Employees' Compensation Act over the same period.

(b) When a retroactive award of dependency and indemnity compensation is made to or for a child over the age of 18 and the widow (widower) has received death compensation on behalf of the child at a higher rate than the rate of dependency and indemnity compensation payable to the widow (widower) over the same period, the difference will be offset against the award of dependency and indemnity compensation otherwise payable for the child. If awards of dependency and indemnity compensation are being made for more than one child over the age of 18, the amount to be offset will be equally divided. (38 U.S.C. 416(b) (1) and (2))

8. In § 3.702, paragraphs (c), (d), (e) and (f) are amended to read as follows:

§ 3.702 Dependency and indemnity compensation.

* * * * *

(c) *Limitation.* A claim for dependency and indemnity compensation may not be filed or withdrawn after the death of the widow (widower), child, or parent.

(d) *Finality of election.* An election to receive dependency and indemnity compensation is final and the claimant may not thereafter reelect death pension or compensation in that case. The election is final when the payee (or his fiduciary) has negotiated one check for this benefit or when the payee dies after filing claim. There is no right of reelection.

(e) *Widow (widower) becomes entitled.* A widow (widower) who becomes eligible to receive death compensation by reason of liberalizing provisions of any law may receive death compensation or elect dependency and indemnity compensation even though dependency and indemnity compensation has been paid to a child or children of the veteran.

(f) *Death pension rate.* (1) Effective October 1, 1961, where the monthly rate of dependency and indemnity compensation payable to a widow (widower) who has children is less than the monthly rate of death pension which would be payable to such widow (widower) if the veteran's death had not been service connected, dependency and indemnity compensation shall be paid to such widow (widower) in an amount equal to the pension rate for any month (or part thereof) in which this rate is greater. (38 U.S.C. 412(b))

(2) Effective June 22, 1966, where the monthly rate of dependency and indemnity compensation payable to a widow (widower) who has children is less than the monthly rate of death pension which would be payable for the children if the veteran's death had not been service connected and the widow (widower) were not entitled to such pension, dependency and indemnity compensation shall be payable to the widow (widower) in an amount equal to the monthly rate of death pension which would be payable to the children for any month (or part thereof) in which this rate is greater. (38 U.S.C. 412(b))

9. In § 3.703, paragraphs (a) and (c) are amended to read as follows:

§ 3.703 Two parents in same parental line.

(a) *General.* Death compensation or dependency and indemnity compensation is not payable for a child if dependency and indemnity compensation is paid to or for a child or to the widow (widower) on account of the child by reason of the death of another parent in the same parental line where both parents died before June 9, 1960. Where the death of one such parent occurred on or after June 9, 1960, gratuitous benefits may not be paid or furnished to or on account of any child by reason of the death of more than one parent in the same parental line.

* * * * *

(c) *Other payees.* Where a child has elected to receive pension, compensation, dependency and indemnity compensation or dependents' educational assistance under 38 U.S.C. ch. 35 based on the death of a veteran, he (or she) will be excluded from consideration in determining the eligibility or rate payable to a widow (widower) or another child or children in the case of another deceased veteran in the same parental line. See § 3.659(b).

10. In § 3.704, paragraph (b) is revoked and former paragraph (c) is redesignated (b). The redesignated (b) reads as follows:

§ 3.704 Elections within class of dependents.

* * * * *

(b) *Parents.* If there are two parents eligible for dependency and indemnity compensation and only one parent files claim for this benefit, the rate of dependency and indemnity compensation for that parent will not exceed the amount which would be paid to him if both parents had filed claim for dependency and indemnity compensation. The rate of death compensation for the other parent will not exceed the amount which would be paid if both parents were receiving this benefit.

§§ 3.705 and 3.706 [Revoked]

11. Section 3.705, Surrender of servicemen's indemnity, and § 3.706, Servicemen's indemnity for children, are

V 39 — 111 JUN 7 74 XUM

revoked and the cross reference immediately following § 3.706 is deleted.

§§ 3.1800 through 3.1822 [Revoked]

12. Subpart C, Servicemen's Indemnity, is revoked.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER H—OCEAN DUMPING

PART 227—CRITERIA FOR THE EVALUATION OF PERMIT APPLICATIONS

Transportation for Dumping and Dumping of Material Into Ocean Waters

Section 102(c) of the Marine Protection, Research, and Sanctuaries Act of 1972 (Pub. L. 92–532) gives the Administrator of the Environmental Protection Agency the authority to designate sites where ocean dumping may be permitted. The EPA ocean dumping regulations (40 CFR, Chapter I, Subchapter H, § 220.4(d)) state that ocean dumping sites will be designated by publication in this Part.

The Regional Administrator of EPA Region VI has recommended the designation of a new site in the Gulf of Mexico for the disposal of wastes from the Du Pont plant at Belle, West Virginia. A baseline survey of the site will be conducted prior to using it for ocean waste disposal, and a monitoring program of the impact of the wastes on the site will be initiated as soon as dumping begins.

The area selected is in the southeastern part of the Gulf of Mexico approximately 200 statute miles from the nearest land in water approximately 1600 fathoms deep. This site is approved for interim use until an environmental impact statement is prepared and the site is formally approved for continuing use or withdrawn from use. This action is necessary to permit the ocean disposal of wastes for which there is no feasible alternative and for which the existing site has been deemed unsuitable for further use for the disposal of these wastes.

Management authority for this site is delegated to the Regional Administrator of Region VI, providing however, that this site may not be used for the disposal of wastes other than those from the Du Pont plant at Belle, West Virginia, without the prior approval of the Deputy Assistant Administrator for Water Program Operations.

RUSSELL E. TRAIN,
Administrator.

JUNE 4, 1974.

Chapter I of Title 40 is amended by adding to the list of approved interim ocean dumping sites in Subchapter H, Ocean Dumping, Part 227, the area bounded by the following coordinates:

26 degrees, 50 minutes North latitude
27 degrees, 10 minutes North latitude
86 degrees, 50 minutes West longitude
87 degrees, 10 minutes West longitude

PART 574—TIRE IDENTIFICATION AND RECORDKEEPING

Universal Registration Format

Correction

In FR Doc. 74–12638 appearing on page 19482 in the issue of Monday, June 3, 1974, § 574.7 is corrected to read as follows:

§ 574.7 Information requirements—tire manufacturers, brand name owners, retreaders.

(a) Each tire manufacturer, brand name owner and retreader (hereinafter referred to in this section and § 574.8 as "tire manufacturer" unless specified otherwise), or his designee, shall provide forms to every distributor and dealer of his tires who offers these tires for sale or lease to tire purchasers, by which the distributor or dealer may record the information appearing in paragraphs (a)(1), (a)(2) and (a)(3) of this section. Forms similar to Figure 3 shall be provided to those dealers who request them, or if a dealer prefers, he may supply his own form as long as it contains the required information as indicated in Figure 3.

(1) Name and address of the tire purchaser;

(2) Tire identification number;

(3) Name and address of the tire seller or other means by which the manufacturer can identify the tire seller.

(b) Each tire manufacture shall record and maintain, or have recorded and maintained for him, the information specified in paragraph (a) of this section and shall not use this information for any commercial purpose detrimental to tire distributors or dealers. Any new-tire manufacturer to whom forms are mistakenly returned shall forward the new-tire registration forms to the proper new-tire manufacturer within 90 days from receipt of the form.

(c) Each tire manufacturer shall maintain, or have maintained for him, a record of each tire distributor or dealer who purchases tire directly from him and sells them to tire purchasers, the number of tires purchased by each such distributor or dealer, the number of tires for which reports have been received from each such distributor or dealer pursuant to paragraph (a) of § 574.8, the total number of tires sold by the tire manufacturer, and the total number of tires for which reports have been received.

(d) Information required by paragraph (a) of this section shall be maintained for a period of not less than 3 years from the date the tire manufacturer of his designee records the information submitted to him.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Rev. S.O. 1171]

PART 1033—CAR SERVICE

Return of Hopper Cars

JUNE 4, 1974.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 3rd day of June 1974.

It appearing, that an acute shortage of hopper cars exists in certain sections of the country; that shippers are being deprived of hopper cars required for loading coal, resulting in an emergency, forcing curtailment of their operations, and thus creating great economic loss and reduced employment of their personnel; that coal stockpiles of several utility companies are being depleted; that hopper cars, after being unloaded, are being appropriated and being retained in services for which they have not been designated by the car owners; that present regulations and practices with respect to the use, supply, control, movement, distribution, exchange, interchange, and return of hopper cars are ineffective. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1171 Service Order No. 1171.

(a) Regulations for return of hopper cars: Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) Exclude from all loading and return to owner empty, either via the reverse of the service route or direct, as agreed to by the owner, all hopper cars owned by the following railroads:

Illinois Central Gulf Railroad Company, Reporting marks: GM&O, IC, ICG.
St. Louis-San Francisco Railway Company[1] Reporting marks: SLSF.
Southern Railway System[1] Reporting marks: CG, INT, NS, SOU.

(2) Carriers named in subparagraph (1) of this paragraph are prohibited from loading all hopper cars foreign to their lines and must return such cars to the owner, either via the reverse of the service route or direct, as agreed to by the owner.

(b) For the purpose of improving car utilization and the efficiency of railroad operations, or alleviating inequities or hardships, modifications may be authorized by the Chief Transportation Officer of the car owner, or by R. D. Pfahler, Director, Bureau of Operations, Interstate Commerce Commission. Modifications authorized by the car owner must be confirmed in writing to W. H. Van Slyke, Chairman, Car Service Division, Association of American Railroads, Washington, D.C., for submission to, and approval by, R. D. Pfahler.

(c) No common carrier by railroad subject to the Interstate Commerce Act shall accept from shipper any loaded hopper car, described in this order, contrary to the provisions of the order.

(d) The term hopper cars, as used in this order, means all freight cars assigned one of the mechanical designations described in the section "Class 'H'—Hopper Car type," under the heading "General Service Freight Equipment" published on pages 1119 to 1121, inclusive, of the Official Railway Equipment Register, ICC RER No. 391, issued by W. J. Trezise, or successive issues thereof, including cars bearing mechanical designations modified in the manner described in Notes 1, 2 or 3 of that section, and listed elsewhere in that tariff under the name of a railroad named in subparagraph (1) of paragraph (a) of this section.

---

[1] Addition.

V39 1111 JUN 7 74 XUM

(e) Application: The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(f) Effective date: This order shall become effective at 12:01 a.m., June 10, 1974.

(g) Expiration date: The provisions of this order shall expire at 11:59 p.m., October 31, 1974, unless otherwise modified, changed or suspended by order of this Commission.

(Secs. 1, 12, 15 and 17(2), 24 Stat. 379, 383, 384 as amended; (49 U.S.C. 1, 12, 15 and 17 (2)). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4), 17 (2))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

CHAPTER VII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (AGRICULTURAL ADJUSTMENT), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 724—FIRE-CURED, DARK AIR-CURED, VIRGINIA SUN-CURED, CIGAR-BINDER (TYPES 51 & 52) AND CIGAR-FILLER AND BINDER (TYPES 42, 43, 44, 53, 54 AND 55) TOBACCO

Termination of Quotas, 1974 Crop Cigar Binder Tobacco, Types 51 & 52

Basis and purpose. Section 724.36 is issued pursuant to, and in accordance with, the Agricultural Adjustment Act of 1938, as amended, hereinafter referred to as the "Act", to proclaim (1) that the operation of farm marketing quotas in effect on cigar-binder (types 51 & 52) tobacco for the 1974–75 marketing year will cause the amount of such kind of tobacco which is free of marketing restrictions to be less than the normal supply of such kind of tobacco, and (2) the termination of existing marketing quotas for such kind of tobacco for the 1974–75 marketing year.

The material previously appearing in this section under centerhead Termination of Quotas—1972–73 Marketing Year and Termination of Quotas—1973–74 Marketing Year remain in full force and effect as to the crop to which it was applicable.

A notice that an investigation was to be made to determine the existence of the fact stated in (1) above, and if such fact was found to exist, the actions to be taken with respect to an increase in or termination of marketing quotas on cigar-binder (types 51 & 52) tobacco for the 1974–75 marketing year was published in the FEDERAL REGISTER on April 18, 1974 (39 FR 13891). In such notice interested persons were given the opportunity to submit data, views, and recommendations pertaining to the investigation and action to be taken on the basis thereof. The only submission received pursuant to such notice concurred in the proposed termination of marketing quotas.

The notice referred to above contained the latest available statistics of the Federal Government pertaining to the normal supply, total supply, and prospective supply of cigar-binder (types 51 & 52) tobacco for the 1974–75 marketing year. On the basis of the investigation which has been made, it has been determined that the operation of farm marketing quotas on cigar-binder (types 51 & 52) tobacco for the 1974–75 marketing year will cause the amount of such tobacco which is free of marketing restrictions to be less than the normal supply of such kind of tobacco, and that farm marketing quotas on such kind of tobacco for the 1974–75 marketing year should be terminated.

This document constitutes a substantive rule which relieves marketing quota restrictions, and producers of cigar-binder tobacco, who are preparing to plant their 1974 crops, need to know immediately the provisions hereof. Accordingly, this document shall become effective June 7, 1974.

Section 724.36 and the heading above § 724.36 are revised to read as follows.

TERMINATION OF QUOTAS—1974–75 MARKETING YEAR

§ 724.36 Cigar-binder (types 51 & 52) tobacco.

It has been determined that the operation of farm marketing quotas in effect on cigar-binder (types 51 & 52) tobacco for the 1974–75 marketing year will cause the amount of such kind of tobacco which is free of marketing restrictions to be less than the normal supply of such kind of tobacco, and farm marketing quotas for the 1974–75 marketing year for such kind of tobacco are hereby terminated.

(Secs. 371, 375, 52 Stat. 64, as amended, 66, as amended; (7 U.S.C. 1371, 1375).)

Effective date: June 7, 1974.

Signed at Washington, D.C. on: May 31, 1974.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Regulation 642]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period June 9–15, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.942 Lemon Regulation 642.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is somewhat slower this week, with little change in the pattern for the range of sizes. Average f.o.b. price was $6.37 per carton the week ended June 1, 1974, compared to $6.27 per carton the previous week. Track and rolling supplies at 200 cars were up 15 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until July 8, 1974 (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when the regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on June 4, 1974.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period June 9, 1974, through June 15, 1974, is hereby fixed at 325,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

[Lime Regulation 3]

PART 911—LIMES GROWN IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida limes that may be shipped to fresh market during the weekly regulation period June 9–15, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 911. The quantity of limes so fixed was arrived at after consideration of the total available supply of Florida limes, the quantity currently available for market, lime prices, and the relationship of season average returns to the parity price for Florida limes.

§ 911.403 Lime Regulation 3.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 37 FR 10497), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Florida Lime Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the quantity of limes that may be marketed during the ensuing week stems from the production and marketing situation confronting the Florida lime industry.

(i) The committee has submitted its recommendation with respect to the quantity of limes which it deems advisable to be handled during the succeeding week. Such recommendation results from consideration of the factors enumerated in the order. Shipping point prices for fresh market limes have fallen sharply during the past several weeks. The committee further reports the fresh market demand for limes continues weak because of cool weather on the Eastern seaboard. Fresh shipments for the weeks ended June 1, 1974, and May 25, 1974, were 19,790 bushels and 24,973 bushels, respectively.

(ii) Having considered the recommendation and information submitted by the committee, and other available information the Secretary finds that the quantity of limes which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this regulation until July 8, 1974 (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Florida limes, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such limes; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on June 4, 1974.

(b) *Order.* (1) The quantity of limes grown in Florida which may be handled during the period June 9, 1974, through June 15, 1974, is hereby fixed at 18,000 bushels.

(2) As used in this section, "handled" and "limes" have the same meaning as when used in said amended marketing agreement and order, and "bushel" means 55 pounds of limes.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX

Stock Dividends

Notice is hereby given that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by July 8, 1974.

Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, a person submitting written comments should not include therein material that he considers to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rule making is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9). Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by July 8, 1974. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register.

The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under section 305 of the Internal Revenue Code of 1954, relating to distributions of stock and stock rights.

The proposed amendment to § 1.305–3(b)(3) would make it clear that a payment of interest to the holder of a convertible debenture is treated as a distribution of property to a shareholder for purposes of section 305(b)(2).

Under section 305(b)(2), a distribution (including a deemed distribution) by a corporation of its stock or rights to acquire its stock is treated as a distribution of property to which section 301 applies if the distribution, or a series of distributions of which such distribution is one, has the result of the receipt of property by some shareholders and an increase in the proportionate interests of other shareholders in the assets or earnings and profits of the corporation.

The proposed amendment to example (6) of § 1.305–5(d) inserts the term "call price" in lieu of the term "call premium". As amended, this example excludes from the application of section 305 an exchange of preferred stock for new preferred stock pursuant to a reorganization under section 368(a)(1) where the shares of each preferred stock have substantially the same market value and where the liquidation preference and call price of the shares of the new preferred stock are not greater than those of the old preferred stock.

Proposed amendments to the regulations. The Income Tax Regulations (26 CFR Part 1) under section 305 of the Internal Revenue Code of 1954, relating to distributions of stock and stock rights are amended as follows:

PARAGRAPH 1. Section 1.305–3(b) is amended by adding a sentence in parenthesis immediately after the third sentence of subparagraph (3) to read as follows:

§ 1.305–3 Disproportionate distributions.

* * * * *

(b) *Special rules.* * * *

(3) * * * (Under section 305(d)(2), the payment of interest to a holder of a convertible debenture is treated as a distribution of property to a shareholder for purposes of section 305(b)(2).) * * *

* * * * *

§ 1.305–5 [Amended]

PAR. 2. Example (6) of § 1.305–5(d) is amended by deleting from the last sentence "call premium" and inserting in lieu thereof "call price".

[7 CFR Part 924]

[Docket No. AO–317–A1]

FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN THE STATE OF WASHINGTON AND IN UMATILLA COUNTY, OREGON

Decision and Referendum Order With Respect to Proposed Amendment of the Marketing Agreement and Order

This decision and referendum order, issued pursuant to the rules of practice and procedure governing the proceedings to formulate marketing agreements and orders (7 CFR Part 900), relates to evidence presented at a public hearing in Yakima, Washington, on February 28, 1974, after notice thereof published in the FEDERAL REGISTER (39 FR 6535) on proposals to amend the marketing agreement and Order No. 924 (7 CFR Part 924) regulating the handling of fresh prunes grown in designated counties in the State of Washington and in Umatilla County, Oregon. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; (7 U.S.C. 601–674)).

On the basis of the evidence adduced at the hearing, and the record thereof, the recommended decision on this proceeding was filed with the Hearing Clerk, United States Department of Agriculture, on May 2, 1974. The notice of the filing of such recommended decision, affording opportunity to file written exceptions thereto, was published in the FEDERAL REGISTER (FR Doc. 74–10533; 39 FR 16361). None were filed.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision set forth in the FEDERAL REGISTER (FR Doc. 74–10533; 39 FR 16361) are hereby approved and adopted as the material issues, findings and conclusions, rulings, and general findings of this decision as published in full herein.

Material issues. The material issues presented on the record were concerned with amending the order to:

(1) Revise the provisions which authorize marketing research and development projects to include authority for production research projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fresh prunes.

(2) Authorize the issuance of expanded container regulations that could include specification of the minimum strength of material in containers of fresh prunes; and

(3) Make conforming changes.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence adduced at the hearing and the record thereof except as to item (2) which is hereby abandoned for the reasons hereinafter cited:

(1) The order presently contains authority for committee expenditures on marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of prunes.

The order should be amended, as hereinafter set forth, to include authority for production research designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fresh prunes.

For several years the committee has conducted marketing research projects aimed at maintaining the market quality of prunes so as to promote their marketing, distribution, and consumption. During this time it has become apparent to the committee that some of the quality problems affecting the marketing, distribution, and consumption of prunes originate in the orchard. A number of factors affect the production of quality fruit such as nitrogen levels, root stocks, irrigation methods and firmness of the fruit at harvest. Often in its attempts to find solutions to marketing problems, the committee has found it difficult to separate production and marketing and it has concluded that unless its research can be extended into the production of the fruit much of its past efforts are likely to be lost for lack of final conclusion as to the cause of such problems. One such problem which has been the subject of study is internal browning of prunes. The incidence of this problem appears to be related to production factors but the committee has been hampered in its efforts to deal with the problem because it has not had authority to fund research which must be conducted at the orchard level.

The committee has been dependent upon other agencies to perform any production research and it has found that such research as well as other research of primary interest to the prune industry often cannot be undertaken or continued by the universities or other agencies in the research area without supplementary industry funding. Currently, the marketing order is considered as the only available industry agency through which all of the Washington-Oregon prune production area may equitably support research designed for its primary benefit. Authorizing the committee to engage in production research as contemplated by this amendment would enable it to fund such projects to the extent necessary from assessments under the order.

While it is evident that the committee's primary interest is in being able to conduct production research which may alleviate or contribute to the solution of marketing problems, the authority should not be so limited as to preclude production research with the primary aim of more efficient production. Rather, the order should permit the committee's conduct of or participation in research projects that are partly or exclusively production oriented if the need arises. Survival of the industry dictates that production be carried out efficiently. Advancing technology and changing economic situations render it difficult to foresee all the areas of production which may require study, therefore the authority should be broad enough in scope to permit the committee, subject to approval of the Secretary, to investigate any facet of production with a view toward improving the efficiency of production. In addition, new laws and regulation enacted for the protection of consumers and the environment may require research involving industry-wide cooperation to ascertain how to produce prunes most economically under such requirements. The expanded authority should enable the committee to participate in the development of production practices and procedures to meet the requirement of such laws and regulation especially when they would have an impact on the production and marketing of prunes.

In formulating production research projects the committee should be authorized to secure the advice and service of persons knowledgeable in any segment of the research field. The committee could establish subcommittees to assist it in the efficient and expeditious planning of production research projects or programs. Such subcommittees could explore research methods, develop preliminary projects and programs, and make recommendations with respect to any such activities. Subcommittees could also evaluate project activities at any state of completion. Final decisions of any such recommendation would be the prerogative of the committee subject to approval of the Secretary. In the conduct of any production research projects, the committee should be authorized to conduct the projects, or to contract for the conduct of such projects, with persons or organizations that specialize in this field of activity.

In submitting projects to the Secretary for his approval, the committee should include recommendations as to the funds to be obtained from assessments under the order and its appraisal of the relative urgency of individual projects whenever several possibilities are involved. The committee should fully consider the cost of any such activities, when developing its budget, both as to additional items of expense and the applicable assessment rate. The committee should review its production research program annually to appraise its effectiveness. Copies of the annual report on the program should be provided to the Secretary and made available at the committee office for examination by producers, handlers, and other interested persons.

(2) The notice of hearing contained an amendment proposal to expand the authority for regulation of containers to include specifications of minimum strength of material. One witness supported this proposal on behalf of the Washington-Oregon Fresh Prune Marketing Committee. However, the Committee later, unanimously recommended abandonment of this proposal. The committee stated that the container situation is in a state of flux due to shortages of various types of materials and that opposition, which was not apparent at the hearing, has developed. It is therefore concluded that the proposal should be dropped from further consideration in this proceeding.

(3) No conforming changes are necessary.

Ruling on proposed findings and conclusions. March 25, 1974, was fixed as the final date for the filing of briefs with respect to the facts presented in evidence at the hearing and on the findings and conclusions that should be drawn therefrom. No brief was filed.

General findings. Upon the basis of the evidence adduced at such hearing, and the record thereof, it is found that:

(1) The marketing agreement and order, as hereby proposed to be amended, and all the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said marketing agreement and order, as hereby proposed to be amended, regulate the handling of prunes grown in the production area in the same manner as, and are applicable only to persons in the respective classes of commercial or industrial activity specified in a proposed marketing agreement and order upon which a hearing has been held;

(3) The said marketing agreement and order, as hereby proposed to be amended, are limited in their application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) The said marketing agreement and order, as hereby proposed to be amended, prescribe, so far as practicable, such different terms applicable to different parts of the production area as are necessary to give due recognition to the differences in the production and marketing of prunes grown in the production area; and

(5) All handling of prunes grown in the production area as defined in said marketing agreement and order, as hereby proposed to be amended, is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Amendment of the marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement, as Amended, Regulating the Handling of Fresh Prunes Grown in Designated Counties in the State of Washington and in Umatilla County, Oregon"

V 39 — 111 JUN 7 74 XUM

and "Order Amending the Order Regulating the Handling of Fresh Prunes Grown in Designated Counties in the State of Washington and in Umatilla County, Oregon" which have been decided upon as the appropriate and detailed means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the aforesaid rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

Referendum order. Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), it is hereby directed that a referendum be conducted among the producers who, during the period April 1, 1973, through March 31, 1974 (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged, in the Counties of Okanogan, Chelan, Kittitas, Yakima, and Klickitat in the State of Washington and all the counties in Washington lying east thereof, and in Umatilla County, Oregon, in the production for market of fresh prunes to ascertain whether such producers favor the issuance of said annexed order amending the marketing order regulating the handling of fresh prunes grown in the aforesaid production area. Allan E. Henry and John E. Coop, Jr., Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated as agents of the Secretary of Agriculture, to conduct said referendum severally or jointly.

The procedure applicable to this referendum shall be the "Procedure for the Conduct of Referenda in Connection with Marketing Orders for Fruits, Vegetables, and Nuts Pursuant to the Agricultural Marketing Agreement Act of 1937, as Amended" (7 CFR Part 900.400 et seq.).

The ballots used in the referendum shall contain a summary describing the terms and conditions of the proposed amendatory order.

Copies of the aforesaid annexed order, of the aforesaid referendum procedure, and of this order may be examined in the office of the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250.

Ballots to be cast in the referendum, and other necessary forms and instructions, may be obtained from any referendum agent or appointee.

It is hereby ordered, That all of this decision and referendum order, except the annexed marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in said marketing order, as amended by annexed order which will be published with this decision.

Dated: June 3, 1974.

RICHARD L. FELTNER,
Assistant Secretary for Marketing and Consumer Services.

ORDER[1] AMENDING THE ORDER REGULATING THE HANDLING OF FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN THE STATE OF WASHINGTON AND IN UMATILLA COUNTY, OREGON

§ 924.0 Findings and determinations.

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations made in connection with the issuance of the order; and all of said previous findings and determinations are hereby ratified and affirmed except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and the applicable rules of practice and procedure effective thereunder (7 CFR Part 900), a public hearing was held at Yakima, Washington, on February 28, 1974, upon proposed amendments to the marketing agreement and Order No. 924 (7 CFR Part 924), regulating the handling of fresh prunes grown in designated counties in the State of Washington and in Umatilla County, Oregon. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said order, as hereby proposed to be amended, regulates the handling of prunes grown in the production area in the same manner as, and is applicable only to persons in the respective classes of commercial or industrial activity specified in, a proposed marketing agreement and order upon which a hearing has been held;

(3) The said order, as hereby proposed to be amended, is limited in its application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) The said order, as hereby proposed to be amended, prescribes, so far as practicable, such different terms applicable to different parts of the production area as are necessary to give due recognition to the differences in the production and marketing of prunes in the production area; and

(5) All handling of prunes grown in the production area is in the current of interstate or foreign commerce or directly burdens, obstructs, or effects such commerce.

It is, therefore, ordered, That, on and after the effective date hereof, all handling of fresh prunes grown in said production area shall be in conformity to, and in compliance with, the terms and conditions of the said order, as hereby amended, as follows:

Section 924.45 is redesignated and revised to read as follows:

§ 924.45 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, and marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fresh prunes. The expense of such projects shall be paid from funds collected pursuant to § 924.41.

[FR Doc.74–13083 Filed 6–6–74;8:45 am]

---

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and order have been met.

[7 CFR Part 1131]

MILK IN THE CENTRAL ARIZONA MARKETING AREA

Suspension of Certain Provisions of the Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the suspension of certain provisions of the order regulating the handling of mlk in the Central Arizona marketing area is being considered for the months of June and July 1974.

All persons who desire to submit written data, views, or arguments in connection with the proposed suspension should file the same with the Hearing Clerk, Room 112–A, Administration Building, United States Department of Agriculture, Washington, D.C., 20250, on or before June 14, 1974. All documents filed should be in quadruplicate.

All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The provisions proposed to be suspended are as follows:

1. Subparagraph (1) of § 1131.13(c) in its entirety.

Statement of consideration. The proposed suspension would remove the provision, for June and July 1974, that not more than eight days' production of any producer may be diverted to a nonpool plant from a pool plant during the month.

The suspension was requested by a cooperative association that not only supplies the market with a substantial part of its needs, but also handles much of the reserve supply of milk for fluid use.

The basis for the request is that a temporary increase in production, coupled with a decline in Class I sales will make it necessary for the plant of the association to receive and manufacture more milk in June and July than had reasonably been anticipated. Accordingly, the plant will not meet the pooling requirements of the order for those months.

The plant could operate on a nonpool basis for June and July, but it would have to divert more than eight days' production of its producers. Consequently, without the suspension, substantial quantities of milk regularly associated with the pool during the past fall and winter would be excluded from the pool.

The proposed suspension is requested pending a study of the need to amend, on the basis of a hearing, the pooling and diversion provisions of the order.

Signed at Washington, D.C. on June 4, 1974.

JOHN C. BLUM,
Associate Administrator.

[FR Doc.74–13141 Filed 6–6–74;8:45 am]

DEPARTMENT OF THE INTERIOR

Mining Enforcement and Safety Administration

[30 CFR Part 77]

REFUSE PILES AND WATER AND SILT IMPOUNDMENTS

Public Hearing

Pursuant to the authority vested in the Secretary of the Interior under section 101(a) of the Federal Coal Mine Health and Safety Act of 1969, as amended (83 Stat. 745 (30 U.S.C. 811 (a))), there was published in the FEDERAL REGISTER for January 16, 1974 (39 FR 2004), a notice proposing that Part 77, Subchapter O, Chapter I, Title 30, Code of Federal Regulations, be amended by adding paragraphs (h) and (i) to § 77.215 and by adding §§ 77.215–1 through 77.215–4 and new §§ 77.216 through 77.216–3. The proposed amendments pertain to refuse piles and water and silt impoundments.

Interested persons were afforded a period in excess of 45 days following publication within which to submit to the Administrator, Mining Enforcement and Safety Administration, written comments, suggestions and objections to these proposed standards, stating the grounds therefor, and to request a public hearing on such objections.

Written objections were timely filed with the Administrator stating the grounds for objections and requesting a public hearing on the proposed paragraphs (h) and (i) of §§ 77.215, §§ 77.215–1 through 77.215–4, and §§ 77.216 through 77.216–3 of 30 C.F.R. Part 77. In accordance with section 101(f) of the Act, a Notice of Objections Filed and Hearing Requested was published in the Federal Register for May 14, 1974 (39 FR 17234).

Pursuant to section 101(g) of the Act, notice is hereby given that a public hearing will be held on Tuesday, July 23 and Wednesday, July 24, 1974, beginning at 9 a.m. on Tuesday, July 23 in the House Chamber, State Capitol Building, Charleston, West Virginia, for the purpose of receiving relevant evidence. The following issues have been raised by the comments and objections filed:

(1) Whether the regulations should specifically state that they cover only refuse piles and impoundments affecting coal miners on coal mine property.

(2) Whether the regulations should be limited to refuse piles and impoundments which actually present a danger or whether the regulations should extend coverage to refuse piles and impoundments which can potentially present a danger.

(3) Whether refuse piles and impoundments located below natural surface drainage, such as in mined-out strip pits, should be exempted from the regulations.

(4) Whether the requirement for a maximum lift of two feet before compaction for refuse piles should be set at a greater height depending upon material compacted, location, and disposal pattern.

(5) Whether the requirement for maintenance of a maximum slope of 27° for refuse piles is too restrictive and slopes of a greater degree should be permitted depending upon the material, base soil conditions, and climate.

(6) Whether a standard safety factor should be used for refuse piles rather than the lift thickness and slope limitations.

(7) Whether inert material should be deposited between compacted lifts.

(8) Whether the extinguishing of burning refuse piles should be permitted by methods other than sealing or excavation of the burning material.

(9) Whether a plan for extinguishing refuse pile fires should be submitted to the District Manager for approval; such plan would include training of miners, supervision, procedures for eliminating potentially hazardous conditions, and procedures for removing miners from potentially hazardous conditions.

(10) Whether a standardized reporting form should be adopted by MESA.

(11) Whether the 180 day reporting requirement for both refuse piles and impoundments should be longer because of limited numbers of qualified engineers or whether no extension of time should be granted.

(12) Whether the determination that a refuse pile or impoundment can present a danger should be made by MESA, a registered engineer or the operator.

(13) Whether the District Manager should be required to respond in writing within specified time limits to operators who have submitted required information.

(14) Whether the perimeter survey requirement for refuse piles should be less than 500 feet.

(15) Whether the "largest (map) scale available" referred to in § 77.215–1(a)(1) and § 77.216–1(a)(2) should be specified.

(16) Whether the terms "active," "abandoned" and "final abandonment" when used with reference to refuse piles and impoundments should be defined.

(17) Whether the requirement in § 77.215–1(a)(6) for reporting the proximity of the nearest stream should also include reporting proximity and location of any other stream which potentially could adversely affect the stability of the pile.

(18) Whether the periodic certification reports required for refuse piles and impoundments are necessary.

(19) Whether the Coal Mine Health and Safety District Manager should have the discretion, provided for by §§ 77.215–1(a)(8) and 77.216–1(a)(18), to require "other information" concerning refuse piles and impoundments.

(20) Whether a registered engineer should be required to certify a refuse pile or impoundment as "safe."

(21) Whether a registered engineer should be required to design and supervise construction of refuse piles as well as impounding structures in accordance with specified requirements.

(22) Whether abandonment planning should be required to be undertaken during initial evaluation or design of refuse piles and impoundments.

(23) Whether abandoned and inactive refuse piles should be required to be sealed, covered with top soil and revegetated to assure stability.

(24) Whether abandonment plans required by §§ 77.215–3 and 77.216–1(d) should contain provisions to "preclude future impoundment" of water or silt, or major slope instability or whether the provision should preclude "probable future impoundment" or some other alternative.

(25) Whether there is a purpose and need for identification markers on refuse piles and impoundments, and if so, what information should they contain.

(26) Whether impounding structures should be eliminated.

(27) Whether impounding structures made of refuse materials should be immediately drained.

(28) Whether the term "silt" should be replaced by other terms such as, "sediment" or "fine refuse."

(29) Whether the depth of impounded water and silt should be measured from the upstream toe or downstream toe of the impoundment.

(30) Whether the height of the impoundment should be measured from the upstream toe or downstream toe of the impoundment.

(31) Whether storage volume of 20 acre feet or impoundment of water or silt to a height of 20 feet warrants an assumption of a hazardous condition.

(32) Whether the phrase "maximum probable flood" in § 77.216–1(a)(8) should be changed to "100 year storm" or other term.

(33) Whether the reporting requirements of downstream conditions in § 77.216–1(a)(14) and (15) should be replaced by a discussion of analyses and design considerations of downstream conditions or whether the requirements should be deleted.

(34) Whether any changes or modifications in impounding structures should be required to be reported to the District Manager or whether only those changes "adversely affecting the stability of the impoundments" should be required to be reported.

(35) Whether abandonment plans required by § 77.216–1(d) for impoundments should be limited to those impoundments required to be reported under § 77.216.

(36) Whether all water and silt impoundments should be inspected weekly.

(37) Whether provision should be made for issuance of administrative variances from methods and requirements specified in the regulations.

The Administrator—Mining Enforcement and Safety Administration, or his designee, will conduct the hearing.

The hearing shall be conducted in an informal manner and a verbatim transcript will be maintained. All written statements, charts and other data will be received in the record. Within 60 days after completion of the hearing, findings of fact concerning the issues presented at the hearing shall be made and such findings shall be made public.

Persons who desire to testify at the hearing should notify the Administrator—Mining Enforcement and Safety Administration, Department of the Interior, Washington, D.C. 20240, not later than Tuesday, July 16, 1974. Copies of comments, suggestions, and objections filed may be examined at, or obtained from, the Office of the Assistant Administrator, Coal Mine Health and Safety, Room 4070, Department of the Interior.

V39 111 JUN 7 74 XUM

Washington, D.C. 20240, telephone (202) 343-4249.

Dated: June 2, 1974.

C. K. MALLORY,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74-SO-15]

REPORTING POINTS

Proposed Designation and Revocation

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate three compulsory reporting points and revoke one compulsory reporting point in the vicinity of San Juan, Puerto Rico.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, PO Box 20636, Atlanta, Ga. 30320. All communications received on or before July 8, 1974, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As part of this proposal relates to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The proposed amendment would designate as new compulsory reporting points:

1. Dorado, Puerto Rico, NDB.
2. St. Croix, Virgin Islands, VOR.
3. Drake Intersection: Ponce, Puerto Rico, VORTAC 206°T radial, 62 NM from Ponce.

The proposed amendment would also revoke Hawaii Intersection as a compulsory reporting point. The proposed alterations to reporting points are required to conform to revised terminal area and traffic flow procedures in the San Juan area.

(Section 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 FR 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on June 3, 1974.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74-13033 Filed 6-6-74;8:45 am]

[14 CFR Part 75]

[Airspace Docket No. 74-WA-17]

RNAV ROUTE

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal Aviation Regulations that would realign J-949R between Dallas, Tex., and Houston, Tex.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101. All communications received on or before July 8, 1974 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would realign J-949R from Greater Southwest, Tex., Waypoint (32°49'10.3" N., 97°02'28.2" W.) direct to Navasota, Tex., Waypoint (30°17'20" N., 96°03'30" W.). This would move the route centerline up to nine miles westward to make it compatible with planned standard instrument arrival routes.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Washington, D.C., on June 3, 1974.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

VETERANS ADMINISTRATION

[38 CFR Part 3]

ANNUAL INCOME

Domestic Volunteer Service Program

Pub. L. 93-113 (87 Stat. 394), the Domestic Volunteer Service Act of 1973 enacted October 1, 1973, provided statutory authorization for the following programs administered by the ACTION Agency: Volunteers in Service to America, University Year for ACTION, Program for Local Services, ACTION Cooperative Volunteers, Foster Grandparent Program, Older American Community Service Programs, Retired Senior Volunteer Program, Senior Corps of Retired Executives and Active Corps of Executives. One section of the Act provides that payments to volunteers under the Act shall not in any way reduce or eliminate the level of or eligibility for assistance or services any such volunteer may be receiving under any Government program. This prohibition has been construed to include benefits payable by the Veterans Administration. The following proposed regulatory changes implement this prohibition by amending Part 3 of Title 38, Code of Federal Regulations, to exclude payments to volunteers under the Domestic Volunteer Service Act from computation of income in claims for compensation, pension and dependency and indemnity compensation. In addition minor editorial changes have been made in §§ 3.261, 3.262 and 3.263 designed to reflect agency policy to avoid any appearance of seeming to preclude benefits for female veterans, dependents, or beneficiaries. No substantive change affecting benefits is involved.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans' Affairs (27H), Veterans Administration, 810 Vermont Avenue, NW., Washington, DC 20420. All relevant material received before July 8, 1974, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is given that the proposed amendment to §§ 3.261 and 3.262(q) would be effective October 1, 1973.

1. In § 3.261, paragraph (a)(33) is amended to read as follows:

§ 3.261 Character of income: exclusions and estates.

* * * * *

	Dependency (parents)	Dependency and indemnity compensation (parents)	Pension: protected (veterans, widows (widowers), and children)	Pension: Public Law 86-211 (veterans, widows (widowers), and children)	See—
(a) *Income:*					
* * *	*	*	*	*	*
(33) The following programs administered by the ACTION Agency:					
Foster Grandparent Program and Older Americans Community Service Programs payments (Public Law 93-29; 87 Stat. 55).	Excluded	Excluded	Excluded	Excluded	§ 3.262(q)(1).
Volunteers in Service to America (VISTA), University Year for ACTION (UYA), Program for Local Services (PLS), ACTION Cooperative Volunteers (ACV), Foster Grandparent Program (FGP) and Older American Community Service Programs, Retired Senior Volunteer Program (RSVP), Senior Corps of Retired Executives (SCORE), and Active Corps of Executives (ACE) (Public Law 93-113; 87 Stat. 394).	do	do	do	do	§ 3.262(q)(2).
* * *			*		

2. In § 3.262, paragraph (o), (p) and (q) are amended to read as follows:

§ 3.262 Evaluation of income.

* * * * *

(o) *Final expenses of veteran or parent's spouse; dependency and indemnity compensation.* Effective January 1, 1967, in claims for dependency and indemnity compensation there will be excluded from the income of a parent, as provided in paragraph (p) of this section, amounts equal to amounts paid by the parent for:

(1) The expenses of the veteran's last illness and burial to the extent that such expenses are not reimbursed under 38 U.S.C. ch. 23.

(2) The parent's deceased spouse's just debts, the expenses of the spouse's last illness to the extent such expenses are not reimbursed under 38 U.S.C. ch. 51 and the expenses of the spouse's burial to the extent that such expenses are not reimbursed under 38 U.S.C. ch. 23 or 51. (38 U.S.C. 415(g))

(p) *Final expenses; year of exclusion.* For the purpose of paragraphs (m), (n) and (o) of this section, in the absence of contradictory information, the claimant's statement will be accepted as to the nature, amount and date of payment, and identity of the creditor. Except as provided in this paragraph, payments will be deducted from annual income for the year in which such payments are made. Payments made by a veteran, the wife or husband of a veteran, widow, widower, child or, in dependency and indemnity compensation claims, by a parent during the calendar year following the year in which the veteran, spouse or child died may be deducted from the claimant's income for the year of last illness or burial if this deduction is advantageous to him.

(q) *Volunteer programs*—(1) *Payments under Foster Grandparent Program and Older Americans Community Service Programs.* Effective May 3, 1973, compensation received under the Foster Grandparent Program and the Older Americans Community Service Programs will be excluded from income in claims for compensation, pension and dependency and indemnity compensation. (Pub. L. 93-29; 87 Stat. 55)

(2) *Payments under Domestic Volunteer Service Act programs.* Effective October 1, 1973, compensation or reimbursement received under a Domestic Volunteer Service Act program (including Volunteers in Service to America (VISTA), University Year for ACTION (UYA), Program for Local Services (PLS), ACTION cooperative Volunteers (ACV), Foster Grandparent Program (FGP) and Older American Community Service Program, Retired Senior Volunteer Program (RSVP), Senior Corps of Retired Executives (SCORE) and Active Corps of Executives (ACE)) will be excluded from income in claims for compensation, pension and dependency and indemnity compensation. (Pub. L. 93-113; 87 Stat. 394)

3. In § 3.263, paragraph (a) is amended to read as follows:

§ 3.263 Corpus of estate; net worth.

(a) *General.* The following rules are for application in determining the corpus of estate of a parent where dependency is a factor under § 3.250, and the net worth of a veteran, widow, widower or child where pension is subject to Pub. L. 86-211 (73 Stat. 432) under § 3.252(b). Only the estate of the parent, in claims based on dependency, or the estate of the veteran, widow, widower or child-claimant in claims for pension, will be considered. In the absence of contradictory information, the claimant's statement as to ownership and estimate of value will be accepted.

* * * * *

Approved: June 3, 1974.

By direction of the Administrator.

[SEAL] R. L. ROUDEBUSH,
Deputy Administrator.

CHIEF OF NAVAL OPERATIONS EXECUTIVE PANEL ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act [Pub. L. 92–463 (1972)], notice is hereby given that the Chief of Naval Operations Executive Panel Advisory Committee will have a closed meeting on June 20, 1974, at the Program Evaluation Center (Room 4D710), the Pentagon, Washington, D.C. The meeting will commence at 9:15 a.m. and is scheduled to terminate at 5:30 p.m. The agenda consists of matters classified in the interests of national security, including future Navy programs, force levels and force level planning; recent developments in the Soviet Navy; and current events impacting upon the U.S. Navy's ability to support policies of the United States.

Dated: June 4, 1974.

Fish and Wildlife Service

ENDANGERED SPECIES PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit has been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93–205).

Applicant. The New York Zoological Society, 185th Street and Southern Boulevard, Bronx, New York 10460.

MARCH 29, 1974.

DIRECTOR,
Bureau of Sports Fisheries and Wildlife,
U.S. Department of the Interior,
Washington, D.C. 20240

DEAR SIR: This is an application for the importation of 2 male and 4 female Great Indian Rhinoceros (*Rhinoceros unicornis*) under Provisions 17.23 of the Endangered Species Act of 1973, Title 50 Chapter 1, Part 17.

APPLICANT

The New York Zoological Society, 185th Street and Southern Boulevard, Bronx, New York 10460, Telephone (212) 933–1500.

SOURCE OF SPECIMENS

Every effort will be made to acquire zoo-born specimens in the United States and abroad, however, at least some of the specimens will be wild-born. None of them will have been caught for commercial purposes.

Ernst Lang, Director, Basle Zoological Gardens has given the New York Zoological Society an option to acquire a specimen born there and the National Zoo has indicated a willingness to enter into a cooperative breeding program with the New York Zoological Society which in long term will involve other facilities than the zoos mentioned.

Curator of Mammals, H. B. House travelled in India from January 16 to February 1, 1974 to explore the possibilities of acquiring animals from the state of Assam. There are several available there, including zoo born specimens and animals orphaned by extremely severe flooding in the Kaziranga sanctuary during summer of 1973. None of the animals available in Assam were captured for the purpose of export.

The New York Zoological Society has made a proposal to the Ministry of Forests in Assam for an animal exchange to procure at least partial fulfillment of our goal of 2.4 specimens.

STATUS OF THE SPECIES IN THE WILD

The total population in the wild has remained relatively stable over the last 15 years with reductions in some areas being balanced by increases in others. Numbers are estimated at between 600–700 in eight sanctuaries in India and the Chitawan Sanctuary in Nepal. Limiting factors are habitat change and poaching.

The future of the species under optimal habitat conditions and reliable protection would be secure. Under existing conditions it is a particularly vulnerable and important endangered species. Its available low lying habitat subject to seasonal floods is being continually encroached upon and available high ground to escape the monsoon flooding is continually reduced in area and has undergone deterioration through over use. Any change in the conservation situation in India and Nepal could lead to immediate and drastic destruction in the rhino sanctuaries. Witness the destruction that occurred during and following the turmoil of the 1971 Indian and Pakistan conflict. Poachers were estimated to have destroyed 29 of the surviving 60 animals in India's Jaldapara Reserve near the border of Bangladesh.

An intensive continuing study of the behavior and ecology of this species is being conducted by Dr. Andrew Laurie in Nepal and India. This project which began in December 1972, is supported by the New York Zoological Society and is the first in-depth study of the species in the wild. Preliminary results have been of assistance in developing plans for the species at the Bronx Zoo.

STATUS OF THE SPECIES IN CAPTIVITY

Volume 13 of the International Zoo Yearbook lists 24/23 in 24 collections as of between February and June 1972. Of this number 10/10 have been born in captivity.

HISTORY OF THE SPECIES IN CAPTIVITY

The Great Indian Rhinoceros has been maintained in many zoological parks throughout the world, attaining longevities of as much as 47 years. However, the breeding of the species with the exception of the Basle Zoo in Switzerland had been from single pairs and has not been pursued on a long term. The Basle Zoo has achieved significant success with the species having produced twelve offspring. Nowhere have facilities been provided to develop and maintain an age structured population allowing for long term breeding through many generations. To our knowledge no second generation zoo born animals exist. A male born in Basle and a female born in Whipsnade, England did produce a stillborn fetus at the Milwaukee Zoo.

NEW YORK ZOOLOGICAL PARK FACILITIES

Construction begins in the spring 1974 on the exhibit and management facilities for the species. Indoor heated facilities will include 8 stalls each 12′ x 20′, 1 stall approximately 15′ x 20′, and 1 hexagonal breeding stall 46′ in diameter. Outdoor facilities will include 3 pens 25′ x 50′, a pen 30′ x 40′, and a pen about 50′ x 70′, and a 2 acre exhibit. See attached sketch.

Temporary facilities exist in the present Elephant House in the Bronx Zoo which are adequate for housing the initial group of Rhinoceroses and the new facilities will be ready well before breeding will occur. Construction is scheduled to be complete in 1976.

PURPOSE OF IMPORTATION

The New York Zoological Society seeks to establish a major propagating population of Indian Rhinoceroses as a contribution towards the long-term survival of the species

and as an educational exhibit in its forthcoming forty acre TROPICAL ASIA MAN AND WILDLIFE EXHIBIT. The Society seeks to employ Indian Rhinoceros displays and propagating facilities as a force to arouse interest in the plight of vanishing species and a means to raise its 2.5 million annual zoo-goers' environmental literacy.

Captive propagation plays an important role in the survival of some species of animals—the Pere David deer, Przewalskii horse, Formosan sika deer, and Wisent would all be extinct today if they had not been bred in captivity. As each year passes more and more species of wild animals become endangered. Some of those whose habitat is disappearing or that are under heavy hunting pressure will only be saved in captivity. Obviously not all endangered species can be saved from extinction through captive propagation. Some do not adapt well to captivity, and others are so scarce that we can no longer remove specimens from the wild populations without decreasing their chances for survival. For this reason, it is imperative that we obtain breeding nuclei of those rare or endangered species which do adapt to captivity before their numbers in the wild become so few as to prohibit their acquisition. And the breeding nuclei must be of sufficient size as to permit a long-term self-sustaining propagation program for the captive group similar to the breeding groups of cattle which sustain most beef ranches. We cannot maintain a single breeding pair of some endangered species with any real hope of propagating the species over a long period of time. This Adam-and-Eve approach to captive propagation of rare and endangered species was once the traditional approach, but has failed frequently when one of the breeding pair dies or becomes senile. What cattle ranch relies on a single pair of cows for its calf production?

There is yet another reason for starting with a nucleus breeding group rather than a single pair. A single pair obviously does not contain all genetic variation found within the wild populations. Therefore, starting with a single pair means throwing away a lot of the genetic material of the species. Since captive propagation of endangered species is meant to be a hedge against total extinction, it should incorporate as much genetic variation within the captive gene pool as possible. This means starting with a group of specimens.

If we hope to save wild species from extinction by captive breeding, we must be prepared to maintain a captive breeding group for all time (Pere David deer would become extinct quickly if zoos decided no longer to breed it), and without the luxury of later imports of wild-caught "new blood" (there are no wild Pere David deer). This can only be accomplished by developing self-sustaining captive groups with an age structure and sex ratio which approximates the condition in the wild. This is what we expect to accomplish with this group of 2/4 Indian rhinoceroses sought in this application.

While endangered, the Indian rhinoceroses has not yet become so scarce that importation of naturally orphaned specimens from the wild will threaten the survival of the wild populations.

There is reason to believe that this situation may not continue to be true in the future. If a captive population is to be acquired, it must be done now.

The nucleus group sought in this application can be maintained easily in the facilities about to be constructed in the New York Zoological Park. From this nucleus we expect to breed a large self-sustaining captive group of up to 10–15 specimens in our facilities, and an even larger group when the specimens in cooperating zoological institutions are considered. Our planned facilities are designed to permit future expansion if that is warranted. Such a large self-sustaining group will not only insure the survival of the species in the event that it becomes extinct in the wild, but also will be a source of supply for other zoos, thereby eliminating the necessity of later imports, should the species remain endangered but not disappear in the wild. Such a large group also could supply specimens for restocking suitable areas of habitat within the former natural range of the species in southern Asia, if that were desirable.

COOPERATIVE PROGRAMS

The staff of the New York Zoological Society is actively cooperating with other zoos in attempting to develop breeding programs for rare and endangered species. Several specimens including mountain gorilla, gerenuk, okapi, anoa, Congo buffalo, flat-headed cat, swamp monkey, wanderoo and others have been sent to various cooperating zoos. A total of 10 pairs of Mouse Deer have been sent to as many zoos in an effort to establish other breeding groups of this species, Comparable efforts have been characteristic of the Society's Department of Ornithology and Herpetology

Our staff will participate with the Indian Rhinoceros studbook and will cooperate in any management procedures on Indian Rhinoceros that might develop Discussion has been initiated for the development of cooperative breeding programs for this species with the Assam State Zoo, Gauhati, Assam, India and the National Zoo, Washington, D C.

SHIPPING ARRANGEMENTS

Every effort will be made to transport the animals as quickly and safely as possible. Air transport will be utilized if available. Final arrangements must await issuance of the permit. Details will be supplied then

LONG-TERM RESPONSIBILITY

The New York Zoological Society has a long-term commitment to wildlife conservation. The financial support of the New York Zoological Society is sufficient to assure the continuity of its conservation and propagation activities (see the attached Annual Report).

The New York Zoological Society guarantees that the propagation of the Indian Rhinoceros is a long-term commitment of its staff. Our husbandy and facilities will be updated as our knowledge of Indian Rhinoceros improves. Even so, if for some reason it became necessary to terminate our efforts, we would immediately make our Indian Rhinoceroses available to a zoological institution which would continue this program.

NEW YORK ZOOLOGICAL SOCIETY ANIMAL HUSBANDRY

The New York Zoological Park maintains high standards of animal nutrition and animal care. A female Indian Rhinoceros was kept at the New York Zoological Park from 1923 to 1962 or almost 39 years. Management procedures and diets at other institutions keeping and especially breeding this species have been investigated and every effort will be made to develop and maintain the best of nutrition. Facilities design and construction has taken into account behavioral attributes of this basically non-social animal. Wallowing and bathing facilities will be provided during hot weather when such activities occur in wild populations. All animals will have access to the large exhibit in compatible groups or singly in rotation. Animal maintenance will be under the direct care of men experienced with this and related species. The animals will be under the observation of the staff veterinarian and a regular parasite check will be made with treatment that may be indicated.

STAFF QUALIFICATIONS

The staff of the Department of Mammalogy of the New York Zoological Society directly responsible for the mammal collection consists of Curator (H. B. House), Associate Curator (J. G. Doherty), Animal Manager (J. A. Ruf), two assistant Animal Managers, (M. Rolla and M. J. Montana) and 87 Menagerie Keepers. The staff Veterinarian is E. P Dolensek and the pathologist is Dr. A. R. Belson. Curricula vitae for Curators House, Doherty and Dr. E. P. Dolensek and Dr. A. R. Belson are attached.

CERTIFICATION

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

H. B. HOUSE,
Curator of Mammals.

WILLIAM G. CONWAY,
General Director.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Bureau's office in Suite 600, 1612 K Street. NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FSF/LE), Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240. All relevant comments received no later than July 8, 1974 will be considered.

Dated: June 3, 1974.

LYNN A. GREENWALT,
Director, Bureau of
Sport Fisheries and Wildlife.

ENDANGERED SPECIES PERMIT

Notice of Receipt of Application

Notice is hereby given that the following application for a permit has been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93–205).

Applicant. The New York Zoological Society, 185th Street and Southern Boulevard. Bronx, New York 10460.

FEBRUARY 26, 1974

DIRECTOR,
Bureau of Sports Fisheries and Wildlife,
U.S. Department of the Interior,
Washington, D.C. 20240.

DEAR SIR: This is an application for the importation of two (2) male and four (4) female Thamin (*Cervus eldi thamin*) under provisions 17.12b of the Endangered Species Conservation Act, Title 50, Chapter 1, Part 17. To the best of our knowledge, no group with sound breeding potential is available for purchase in the United States.

V 39—111 JUN 7 74 XUM

Applicant

The New York Zoological Society, 185th Street and Southern Boulevard, Bronx, New York 10460, Telephone (212) 933-1500, requests permission to import 2 male and 4 female Brow-antlered Deer or Thamin (*Cervus eldi thamin*).

History of Specimens

All animals were born in the Rangoon Zoo, Rangoon, Burma and have remained there to the present. Attached please find a statement of legal export.

Reason for Request

The New York Zoological Society seeks to establish a major propagating population of Thamin as a contribution towards the long-term survival of the species and as an educational exhibit in its forthcoming forty acre Tropical Asia Man and Wildlife Exhibit. The Society seeks to employ Thamin displays and propagating facilities as a force to arouse interest in the plight of vanishing species and a means to raise the environmental literacy of its 2.5 million zoo-goers.

New York Zoological Park Exhibit and Breeding Facilities

Temporary and acclimatization quarters, pending completion of the facilities in the new Tropical Asian exhibit complex in 1975, will be provided in the existing Zebra House at the New York Zoological Park. Facilities include 6 heated indoor stalls and an outdoor fenced area. Permanent quarters will consist of 2 large herd and 2 isolation indoor heated stalls for winter use, 2 non-exhibit herd pens and 2 non-exhibit isolation pens outdoors. The exhibit proper is 5.5 acres and consisting of both open meadow and forested areas. Attached please find a drawing of the management facilities for this species.

New York Zoological Park Thamin Husbandry Program and Staff Qualifications

The Thamin will be exhibited daily for 8–9 months each year, as weather permits. They will return to non-exhibit herd pens each evening and for 3–4 months of the year will remain here with free access to the heated stalls in cold weather. Isolation stalls and pens are available should they become necessary for male separation, animals undergoing therapy, weaning, crating or other. We expect to manage this fairly social species continuously in a herd situation, hence the large communal winter stalls (which, however, can be sub-divided). The diet will consist of hays and Purina Dairy and Heifer grain ration and hydroponically-grown grass with mineralized salt and water continuously available and pasture.

The animals will be subject to the procedures of the Society's Animal Health Department under Dr. Emil Dolensek, our resident veterinarian and Dr. Belson, pathologist and their consultants in various specialties. (See attached list). Each animal will be tuberculin-tested and given a complete blood chemistry "work-up" upon arrival. The Society's animal hospital has excellent facilities for pathology investigations and necropsies. Parasite counts will be continuously monitored and treated as circumstances indicate.

Thamin at the Bronx Zoo will receive direct care from keepers exceptionally experienced with a variety of hoofed animals, including several species of deer, under the supervision of Curator of Mammals, H. B. House and Associate Curator of Mammals, J. G. Doherty. The staff of the Department of Mammalogy has had a longstanding commitment to conservation and the captive breeding of endangered species as evidenced by long-term breeding programs for many species including the endangered Siberian tigers, snow leopards, Pere David deer and wisent. These programs are in the process of expansion as herds increase and other programs are being developed. The number of less endangered species exhibited is being reduced to accommodate the expansion of successful breeding programs for rare or vanishing species. The Society's total collection has been reduced from 1,100 species to 750 species in the past 6 years while the number of specimens has increased from 2,600 to 3,500. Curricula vitae of Curators of Mammalogy, H. B. House and J. G. Doherty, Veterinarians, Emil P. Dolensek and A. Belson are attached. A list of consultants in animal management and medicine is also attached.

History of the Species in Captivity

The species is not presently exhibited in the New York Zoological Park. The following excerpt from "Management of Wild Mammals in Captivity", by Lee S. Crandall, documents our experience with the species in the past and that of other zoos:

"Eld's deer has been shown in zoological gardens sparingly but rather widely over a considerable number of years, the Zoological Society of London having received its first specimen in 1867 (Flower, 1929). The only captive stock of consequence at the present time is the small herd in the Parc Zoologique du Bois de Vincennes, Paris. The original animals were brought from French Indochina just before World War II and presumably represent the eastern race, *Cervus e. siamensis*.

Our first specimens of Eld's deer, a male and two females of unknown origin, were obtained from William Jamrach, in London, and came to us in 1905, as the gift of William Rockefeller. A second pair, again of undetermined race, was purchased in 1928. A female offspring of the latter pair, born in 1930, lived until 1950 and was the survivor of the group, so that the species is no longer represented in our collection.

Eld's deer, in our experience, were more sensitive to cold than other members of *Cervus* and were provided with mildly heated shelters during the winter months, although they had free access to their runs at all times. They presented no feeding problems but were flighty and easily alarmed. I recall a young male that, startled by some unusual sight or sound, hurled himself completely through two wire fences—perhaps not as stout as they might have been—and was killed by impact against a third.

Blanford (1888–91) says that antlers are shed in June in Manipur but not until September in Lower Burma. The breeding season in Burma is from March to May, the young being born in October and November. Unfortunately, I have no notes on these periods here, though a rather extended rut is suggested by the distribution of twenty-five births here: September, four; October, two; December, four; January, nine; February, two; March, four. One pair of twins was included. Although most of these dates fall within the cold months, the rather delicate young survived well, since they usually were born in the heated shelters. One youngster, less fortunate, succumbed to a December reading of −2° F. (−18.8° C.). A terse note on its record card reads: "Carcass fed to thylacine"—a most unusual sequence, not likely to be repeated. The very short gestation period of 183 days given by both Asdell (1946) and Kenneth (1953) stems from Jennison (n.d.) and requires verification.

A female received by the Zoological Gardens of London on April 21, 1900, lived until October 19, 1913, or 13 years, 5 months, 28 days (Flower, 1931), while a specimen born at the Philadelphia Zoological Garden on July 7, 1918, and transferred to the National Zoological Park, lived there until October 21, 1936, or 18 years, 3 months, 14 days (Jones, 1958). A female received here on August 16, 1928, died on November 19, 1948, after 20 years, 3 months, 3 days, while a daughter of this animal, born here on January 7, 1930, lived until April 24, 1950, or 20 years, 3 months, 17 days." Since the publication of Mr. Crandall's book (1964) the species has been imported to the National Zoo where it is breeding and to the Brownsville, Texas Zoo. Curator H. B. House was in Rangoon, Burma in January 1973 and saw a number of specimens including nine young less than a month old in the Rangoon Zoological Gardens. All of the above imports into the United States have come from the same source from which we seek to import.

Abroad there are breeding groups of the species in Calcutta, and Delhi, India; Paris, France; East Berlin; West Berlin and Leipzig, Germany; as well as Rangoon, Burma. According to Volume 13, International Zoo Yearbook, between February and June 1972 there were 43/41/4 animals of which 24/24/4 have been bred in captivity in 9 collections.

Literature on the Species and Status in the Wild

There is little in the scientific literature on the species. Natural history notes, behavioral studies and population figures are sketchy and tentative. The Red Data Book, Volume I, 1972 ed., lists 2 of the three recognized subspecies as endangered excluding the Burmese form (*Cervus eldi thamin*) which we are applying to import. The accounts given for the endangered forms here give little recent concrete data. *DEER OF THE WORLD* by G. Kenneth Whitehead published in 1972 includes a brief account for the species giving some unqualified or unreferenced comments on natural history, distribution and populations. During the January visit of H. B. House to Burma he was assured by Colonel Sithu Hla Aung, Director General of Surveys and Chairman, Management Committee, Rangoon Zoological Gardens that the species was being effectively protected in Burma. No concrete data was presented. An unsubstantiated population figure of around 4,000 is given for Burma in Whitehead's book.

Cooperative Efforts

The staff of the New York Zoological Society is actively cooperating with other zoos in attempting to develop breeding programs for many species. Several specimens including mountain gorilla, gerenuk, okapi, anoa, Congo buffalo, flat-headed cat, swamp monkey, wanderoo and others have been sent to various cooperating zoos. A total of 10 pairs plus replacement individuals of Mouse Deer have been sent to as many zoos in an effort to establish other breeding groups of this species. Comparable efforts have been characteristic of the Society's Departments of Ornithology and Herpetology. We will participate in any authorized studbook that may be developed for the Thamin.

Shipping Arrangement

Shipment will be from Rangoon to Hamburg, Germany via Frankfurt by air. The animals will remain in USDA acceptable quarantine in Hamburg for a minimum of 60 days. They will travel by boat from Hamburg to New York and by truck to USDA Quarantine in Clifton, New Jersey under the supervision of a zoo keeper. Transfer from Clifton to the New York Zoological Park will be made by truck after a minimum of 60 days quarantine. Crates will allow for size and postural adjustments of the animals and

for proper cleaning, feeding and watering in transit.

Long-Term Responsibility

The New York Zoological Society has a long-term commitment to wildlife conservation. The financial support of the New York Zoological Society is sufficient to assure the continuity of its conservation and propagation activities (see the attached Annual Report).

The New York Zoological Society guarantees that the propagation of the thamin is a long-term commitment of its staff. Our husbandary and facilities will be updated as our knowledge of thamin improves. Even so, if for some reason it became necessary to terminate our efforts, we would immediately make our thamin available to a zoological institution which would continue this program.

Certification

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50 and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statements hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

H. B. House,
Curator of Mammals.

W. G. Conway,
General Director.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Bureau's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FSF/LE), Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240. All relevant comments received no later than July 8, 1974 will be considered.

Dated: June 3, 1974.

Lynn A. Greenwalt,
Director, Bureau of
Sport Fisheries and Wildlife.

[FR Doc.74-13056 Filed 6-6-74;8:45 am]

ENDANGERED SPECIES PERMIT

Notice of Receipt of Application

Notice is hereby given that the following application for a permit has been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant. Western Game Breeders Society, Gerald D. Perkins, Secretary-Treasurer, 1535 Adobe Drive, Pacifica, California 94044.

Chief, Division of Law Enforcement,
U.S. Department of the Interior,
Fish and Wildlife Service,
Bureau of Sport Fisheries and Wildlife,
Washington, D.C. 20240.

April 30, 1974.

Subject: Application of Western Game Breeders Society of America to import a pair of White Eared Pheasants from the Jersey Wildlife Preservation Trust. These are second generation stock avairy breed from 1969 imported birds.

Fees: Enclosed is money order payable to Bureau of Sport Fisheries and Wildlife for Importation or Entry as shown in § 13.11(d) for $10.00.

General Information: Applicant—Western Game Breeders Society, Gerald D. Perkins, Secretary-Treasurer, 1535 Adobe Drive, Pacifica, Ca. 94044. As these birds are 2nd and 3rd generation of avairy raised stock no restrictions of foreign countries are involved.

Certification: I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 30, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

Effective date: Soon as possible, or June 1, 1974.

Gerald D. Perkins.

April 30, 1974.

Common and Scientific Name: Pheasant—White Eared Crossoptilon-Crossoptilon.

Number—Age and Sex: two birds of 1973 hatch—1 male, 1 female.

Origin: Jersey Wildlife Preservation Trust, Les Augres Manor, Jersey, Channel Islands, Mr. Gerald Durrell, Director. These birds have been declared surplus to the Trusts requirements. They also have a pair of scalped birds which we would like to have if they are still available as they are not fit for exhibition, but would suit our purpose of breeding. Their weight is approximately three (3) pounds apiece.

Justification: As the organization is dedicated to the preservation of all birds in their true form we feel that the importing of a pair of these endangered species would certainly enhance the chances of surviving by the maintaining of captive avairy stock throughout the world. All our members feel very strongly that we should take on this project and that what we are doing is very worthwhile and are sharing the financial aspect through our treasury. As we have imported a trio of Swinhoee Pheasants: Lophura Swinhoii from the Zurich Zoo in Switzerland 1971 we know and have complied with the requirements of keeping records and stud books up to date with our birds. Resume of the Society's designated breeder whom will be the breeder of these birds: See enclosed papers, documents and pictures regarding Mr. James Chamberlain, 4850 Alcorn Rd., Fallon, Nevada 89406.

Sincerely,

Gerald D. Perkins,
Secretary/Treasurer,
Western Game Breeders Society.

ENDANGERED SPECIES PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit has been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant. Mr. Charles Sivelle, 41 Westcliff Drive, Huntington Station, Huntington, Long Island, Dix Hills, New York 11746.

The Director,
Bureau of Sport Fisheries and Wildlife,
U.S. Department of the Interior,
Washington, D.C. 20240

Subject: FSF/LE—ENF 7-02 ES-Application 342.

Dear Sir: The undersigned, Charles Sivelle of 41 Westcliff Drive, Dix Hills, N.Y. 11746 (516-423-6146) has applied for an ES permit and is hereby submitting additional information as directed as of April 8, 1974.

The undersigned is an individual, born Sept. 24, 1918, is 5'11" tall, weighs 194 lbs., has brown hair, blue eyes and is a male.

He is a devoted pheasant fancier and has the most complete collection of pheasants in the world on his estate at the above address. His facilities consist of sixteen acres of land containing over 100 pens or individual aviaries of a minimum of 400 sq. feet each with heights of 3 to 9 ft. Besides the above are forty-two flights of 600 sq. ft. each with complete inner heated flights of 200 sq. ft. which are available for housing the birds to be imported. There is also available an orchard completely under wire of one acre with several heated shelters.

At present the undersigned has forty-one varieties of pheasants including Borneo Argus, Koklass, 3 varieties of peacock pheasants, 2 pr. Palawans, 3 pr. Germains and 3 pr. Greys, Borneo Crested and Crestless Firebacks, Bulwar's, Malayan Crested, 4 pair of Satyr Tragopans, 4 pair of Temminick Tragopans, 3 pair of Brown Eared, 2 pairs of Blue Eared and 2 pair of White Eared.

The 15 pair of palawan peacock pheasants (Polyplectron emphanum) one to two years of age, for which this permit is requested are being supplied by the Philippine Zoological Botanical Gardens and Aquarium per Osmundo Aguilar the director. These birds will either be brought in by Rev. Fr. Osmundo Aguilar himself or shipped direct from Queson City, Philippines. These birds were captive bred by the Philippine Zoological Botanical Gardens & Aquarium in their aviaries from wild caught stock. They are to be utilized to supply new blood for the present captive stock in America which is rather inbred at this time. Very few of these pheasants have been imported into the U.S.A. in the last three years. Other types of pheasants supplied by myself and several Zoos will be shipped to the Philippine Zoological Botanical Gardens & Aquarium in exchange for these pheasants.

At least three pair of these pheasants will be sent to the San Diego Zoo, two pair to the N.Y. Zoo and one pair to the National Zoo for propagation purposes. Those that are left will be retained by myself on my property for propagation purposes only.

The undersigned has successfully bred this specie of pheasant for many years and the introduction of new blood is essential. There are about forty pairs of this specie in private collections and in several Zoos at present in the United States and these were propagated primarily from a dozen pair of imported birds.

This importation will provide a positive deterrent to the possible extinction of this specie and at the same time provide the Philippine Islands with a source of other rare pheasants in turn aiding in the prevention of their extinction.

V 39 111 JUN 7 74 XUM

The undersigned's qualifications and previous experience in caring for and handling captive live wildlife are as follows:

(1) President of American Game Bird Breeder's Cooperative Federation, Re-elected 3 times.

(2) Director—American Pheasant and Waterfowl Society.

(3) Past President and Executive Secretary of Avicultural Society of Long Island.

(4) Recipient of "Outstanding Game Bird Propagation Awards" from the American Game Bird Breeders Cooperative Federation for past 3 years.

(5) "Avicultural Hall of Fame" award in 1969.

(6) "Outstanding Pheasant Breeder" of 1970 of American Pheasant and Waterfowl Society, also received same award in 1971 and 1972.

I have 17 years experience in pheasant propagation. Imported the Mikado Pheasant 7 years ago, the Hume Bar Tail pheasant 7 years ago, the Jima Copper Pheasant 5 years ago and have since raised and distributed over 200 Mikados, over 200 Bar-Tails, over 50 Jima Coppers, over 100 Brown Eared and over 50 Edwards and more than 200 Swinhoes—All on the Endangered Species list.

The undersigned has already been working with the N.Y. Zoo in establishing a cooperative breeding program and are at present establishing a studbook containing an up to date record of Palawan pheasants now being bred in the U.S.A.

If the above permit is forthcoming within thirty days Osmundo Aguilar of the Philippine Zoological Botanical Gardens & Aquarium will accompany the shipment into the U.S. at which time the birds will be quarantined on arrival at the port of New York. Space has been provided by the Clifton Station for this time.

After quarantine the birds will be paired off for propagation at the various Zoo's listed above and at the premises of the undersigned in avaries properly designed and already available to receive them.

I hereby certify that I have read and am familiar with the regulations contained in Title 50, Part 13, of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter I of Title 50, and I further certify that the information submitted in the application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statement hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

Very truly yours,

CHARLES SIVELLE.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Bureau's office in Suite 600, 1612 K Street, NW, Washington, D.C.

Fish and Wildlife Service

ENDANGERED SPECIES PERMIT

Receipt of Application

Notice is hereby given that the following application for a permit has been received under section 10 of the Endangered Species Act of 1973 (Pub. L. 93-205).

Applicant. Mr. Bobby Berosini, Bobby Berosini's Performing Orang-Utans, Star Route 4, Box 128, Reeds Spring, Missouri 65737.

APRIL 23, 1974.

Application for a permit to transport 3 Orangutans from State to State in the business of a Theatrical Performer.

(1) As above address.

(2) Individuals address as above. Born 10th Aug. 1946. Height 5'11", Weight 161 lbs. Brown Hair and Eyes. Male. Animal Trainer and Performer.

(3) Individual, address as above.

(4) Travelling from State to State. Home based at above address.

(5) Economic Hardship. My trade as an animal trainer and performer is my only livlihood and also that of my family, without the income to support myself and my family, I would be unable to pay my bills, feed my family and my animals. This is the only living I have ever been trained for.

(6) All 3 of my animals have been born in captivity, in America.

(7) I hereby certify that I have read and am familiar with the regulations contained in Title 50 Part 13 of the Code of Federal Regulations and the other applicable parts in Subchapter B of Chapter 1 of Title 50, and I further certify that the information submitted in this application for a permit is complete and accurate to the best of my knowledge and belief. I understand that any false statements hereon may subject me to the criminal penalties of 18 U.S.C. 1001.

13.12.

(1) Orangutan, 2 Females 5 years and 3 years, 1 Male 7 years.

(3) Economic Hardship, as described in No. 5 above.

(4) Travelling from State to state. Home address as above. These animals whilst travelling are housed in individual cages in a custom 30' van made especially for these animals with their needs in mind.

(5) Animals born in captivity.

BOBBY BEROSINI.

Documents and other information submitted in connection with this application are available for public inspection during normal business hours at the Bureau's office in Suite 600, 1612 K Street, NW., Washington, D.C.

Interested persons may comment on this application by submitting written data, views, or arguments, preferably in triplicate, to the Director (FSF/LE), Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240. All relevant comments received no later than July 8, 1974 will be considered.

Dated: June 3, 1974.

MILL AND DEER CREEK BASINS, CALIF.

Power Site Cancellation 308

Pursuant to authority under the Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31), and 220 Departmental Manual 6.1, Power Site Classifications 72, 182, and 446 are hereby canceled to the extent that they affect the following described land:

MOUNT DIABLO MERIDIAN

Power Site Classification 72 of June 3, 1924;

T. 26 N., R. 1 W.,
  Sec. 24, SE¼SE¼;
  Sec. 26, SE¼NE¼, SW¼NW¼, W½SW¼, and N½SE¼;
  Sec. 32, S½SW¼.
  Area—360 acres.

Power Site Classification 182 of May 26, 1927;

T. 25 N., R. 1 E.,
  Sec. 12, lot 5;
  Sec. 20, NW¼NE¼.
T. 26 N., R. 3 E.,
  Sec. 5, lot 3, SE¼NW¼, and E½SW¼;
  Sec. 7, E½SE¼.
T. 27 N., R. 3 E.,
  Sec. 26, N½NW¼;
  Sec. 34, N½NW¼.
T. 27 N., R. 4 E.,
  Sec. 1, lot 3 of NE¼ (now lot 6), lot 4 of NE¼ (now lot 5), E½ of lot 4 of NW¼, lots 7 and 8, SW¼, and W½SE¼;
  Sec. 2, S½S½ and NE¼SE¼;
  Sec. 9, NE¼SE¼ and S½SE¼;
  Sec. 10, S½NE¼ and S½;
  Sec. 11, N½NE¼, SW¼NE¼, W½, and NW¼SE¼;
  Sec. 12, N½NW¼;
  Sec. 15, N½NE¼ and NW¼;
  Sec. 16, N½, SW¼, and N½SE¼;
  Sec. 17, S½NE¼, S½SW¼, and SE¼;
  Sec. 20, N½NE¼, SW¼NE¼, NW¼, and NW¼SE¼.
T. 25 N., R. 1 W.,
  Sec. 13, lots 1 and 2, S½NW¼, N½SW¼, and unsurveyed SE¼ (now lots 3, 4, and N½SE¼);
  Sec. 23, lots 2, 3, 4, 6, and 7.
  Area—4,288 acres.

Power Site Classification 446 of November 29, 1965;

T. 28 N., R. 5 E.,
  Sec. 22, SW¼NW¼.
  Area—40 acres.

The effective date of this cancellation is September 30, 1974.

Dated: May 31, 1974.

HENRY W. COULTER,
Acting Director.

GOLDEN GATE NATIONAL RECREATION AREA CITIZENS' ADVISORY COMMISSION

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Golden Gate National Recreation Area Citizens' Advisory Commission will be held at 1 p.m. on June 29, 1974 at the San Francisco Main Public Library Conference Room, corner of Larkin and McAllister Sts., San Francisco, California.

The purpose of the Golden Gate National Recreation Area Citizens' Advisory Commission is to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on problems and programs pertinent to the National Park System in Marin and San Francisco Counties.

The members of the Advisory Commission are as follows:

Mr. Frank Boerger, Chairman
Mr. Ernest C. Ayala
Mr. Richard Bartke
Mr. Fred Blumberg
Mr. Joseph Caverly
Mr. Lambert Lee Choy
Mrs. Daphne Greene
Mr. Peter Haas, Sr.
Mr. Joseph Mendoza
Mrs. Amy Meyer
Mr. John M. Mitchell
Mr. Merritt Robinson
Mr. William Thomas
Mr. Gene Washington
Dr. Edgar Wayburn

The main purposes of the meeting are to adopt by-laws for the Commission and to hear briefings by members of the Golden Gate National Recreation Area staff on the area's overall operations to date.

This meeting will be open to the public. Any member of the public may file with the Committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting or who wish to submit written statements may contact William J. Whalen, Superintendent, Golden Gate National Recreation Area, Fort Mason, San Francisco, California, 94123, telephone 415-556-2920.

Minutes of the meeting will be available for public inspection by July 15, 1974 in the office of the Superintendent, Golden Gate National Recreation Area, Fort Mason, San Francisco.

Dated: May 30, 1974.

HOWARD H. CHAPMAN,
Regional Director, Western Region.

National Park Service

MINUTE MAN NATIONAL HISTORICAL PARK ADVISORY COMMISSION

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Minute Man National Historical Park Advisory Commission will be held, commencing at 3:30 p.m., on Friday, 21 June, 1974, at Park Headquarters on Route 2A, Lincoln, Massachusetts.

The Commission was established by Pub. L. 86-321 to advise the Secretary of the Interior on the development of Minute Man National Historical Park.

The members of the Advisory Commission are as follows:

Hon. F. Bradford Morse, Chairman, New York, New York.
Mr. James DeNormandie, Lincoln, Massachusetts.
Mr. Francis S. Moulton, Jr., Concord, Massachusetts.
Mr. Donald E. Nickerson, Lexington, Massachusetts.
Mrs. Katherine S. White, Lincoln, Massachusetts.

At this meeting, reports will be submitted by the Superintendent and Land Acquisition Officer on Park operations and land acquisition activities since the last Commission meeting. Also, a Bicentennial Report of the Minute Man Towns will be presented.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited, and it is expected that not more than 35 persons will be able to attend. Any member of the public may file with the Commission a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements may contact David L. Moffitt, Superintendent, Minute Man National Historical Park, at 617-259-9240. Minutes of the meeting will be available for public inspection four weeks after the meeting at the office of the Superintendent.

JERRY D. WAGERS,
Regional Director.

SLEEPING BEAR DUNES NATIONAL LAKESHORE, MICHIGAN

Public Hearing Regarding Wilderness Proposal

Notice is hereby given in accordance with the provisions of the Act of October 21, 1970 (84 Stat. 1075, 1077; (16 U.S.C. 460x; 460x-5)), and in accordance with Departmental procedures as identified in 43 CFR 19.5 that a public hearing will be held beginning at 1 p.m. on July 12, 1974, in the Veterans of Foreign Wars, Kenneth C. Evans Post, 1144 Beulah Highway, Beulah, Michigan, for the purpose of receiving comments and suggestions as to the appropriateness of a proposal for the establishment of potential wilderness comprising about 26,060 acres within the Sleeping Bear Dunes National Lakeshore, Michigan.

A packet containing a preliminary wilderness study report, and providing additional information about the proposal, may be obtained from the Superintendent, Sleeping Bear Dunes National Lakeshore, 400½ Main Street, Frankfort, Michigan 49635, or from the Regional Director, Midwest Region, National Park Service, 1709 Jackson Street, Omaha, Nebraska 68102.

A description of the preliminary boundaries and a map of the areas proposed for establishment as wilderness are available for review in the above offices and in Room 1210 of the Department of the Interior Building at 18th and C Streets NW., Washington, D.C.

Interested individuals, representatives of organizations and public officials are invited to express their views in person at the aforementioned public hearing, provided they notify the Hearing Officer, in care of the Superintendent, Sleeping Bear Dunes National Lakeshore, 400½ Main Street, Frankfort, Michigan 49635, by July 10, 1974, of their desire to appear. Those not wishing to appear in person may submit written statements on the wilderness proposal to the Hearing Officer at that address for inclusion in the official record which will be held open for written statements until August 12, 1974.

Time limitations may make it necessary to limit the length of oral presentations and to restrict to one person the presentation made in behalf of an organization. An oral statement may, however, be supplemented by a more complete written statement which may be submitted to the Hearing Officer at the time of presentation of the oral statement. Written statements presented in person at the hearing will be considered for inclusion in the transcribed hearing record. However, all materials so presented at the hearing shall be subject to determinations that they are appropriate for inclusion in the transcribed hearing record. To the extent that time is available after presentation of oral statements by those who have given the required advance notice, the Hearing Officer will give others present an opportunity to be heard.

After an explanation of the proposal by a representative of the National Park Service, the Hearing Officer, insofar as possible will adhere to the following order in calling for the presentation of oral statements:

(1) Governor of the State or his representative.

(2) Members of Congress.

(3) Members of the State Legislature.

(4) Official representative of the counties in which the proposed wilderness is located.

(5) Officials of other Federal agencies or public bodies.

(6) Organizations in alphabetical order.

(7) Individuals in alphabetical order.

(8) Others not giving advance notice, to the extent there is remaining time.

Dated: May 28, 1974.

RICHARD C. CURRY,
Associate Director, National Park Service.

Bureau of Land Management

[ES 11765]

FLORIDA

Proposed Withdrawal and Reservation of Lands

MAY 30, 1974.

The Bureau of Sport Fisheries and Wildlife, U.S. Department of the Interior, has filed application ES 11765 for the withdrawal from all forms of appropriation under the public land laws, including the mining laws, the mineral leasing laws, and the Act of July 31, 1947

(61 Stat. 681 (30 U.S.C. 601–604)) of the lands described below, subject to valid existing rights:

TALLAHASSEE MERIDIAN

T. 31 S., R. 39 E.,
Sec. 9, Lot 9.

The area described contains 37.50 acres in Indian River County, Florida.

The applicant desires the use of the land as a part of the Pelican Island National Wildlife Refuge for the management of the endangered brown pelican and other colonial nesting birds and other wildlife.

On or before July 8, 1974 all persons who wish to submit comments, suggestions or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Eastern States Office, Bureau of Land Management, Department of the Interior, 7981 Eastern Avenue, Silver Spring, Maryland 20910.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

The authorized officer will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant, a public hearing will be held at a convenient time and place, which will be announced.

LOWELL J. UDY,
Director,
Eastern States Office.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

DEKALB, ILLINOIS

Designation as Inspection Point

Statement of considerations. The Illinois Department of Agriculture is designated to operate as an official inspection agency in accordance with the provisions of section 7(f) of the U.S. Grain Standards Act (7 U.S.C. 79(f)). The Illinois Department of Agriculture is now and has been providing official inspection service for many years at East St. Louis, Shawneetown, Fairfield, and Casey, Illinois, as designated inspection points. A designated inspection point is defined as a city, town, or other location assigned under the regulations to an official inspection agency for the conduct of official inspections, and within which the official inspection agency, or one or more of its licensed inspectors is located (7 CFR 26.1(b)(13)).

The Illinois Department of Agriculture now plans to locate one or more of its licensed grain inspectors at Dekalb, Illinois, and has requested that its assignment be amended in accordance with § 26.99(b) of the regulations (7 CFR 26.99(b)) to add Dekalb, Illinois, as a designated inspection point.

Notice is hereby given that the Agricultural Marketing Service has under consideration the proposed request from the Illinois Department of Agriculture to add Dekalb, Illinois, as a designated inspection point under the U.S. Grain Standards Act.

Opportunity is hereby afforded all interested persons to submit written views and comments with respect to this matter to the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250. All material submitted should be in duplicate and mailed to the Hearing Clerk not later than July 8, 1974. All materials submitted pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). Consideration will be given to the views and comments so filed with the Hearing Clerk and to all other information available to the U.S. Department of Agriculture before final determination is made with respect to this matter.

Done in Washington, D.C., on June 3, 1974.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

Forest Service

INTERIM REVISION—FLATHEAD NATIONAL FOREST TEN-YEAR TIMBER MANAGEMENT PLAN

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Interim Revision—Flathead National Forest Ten-Year Timber Management Plan, Forest Service Report Number USDA-FS-FES (Adm) 74-12.

The environmental statement concerns a proposed interim revision of the Flathead National Forest Ten-Year Timber Management Plan.

This final environmental statement was filed with CEQ on May 30, 1974.

Copies are available for inspection during regular working hours at the following locations.

USDA Forest Service
South Agriculture Bldg., Room 3231
12th St. and Independence Ave., SW
Washington, DC 20250

USDA Forest Service
Northern Region
Federal Building, Room 3077
Missoula, MT 59801

USDA Forest Service
Flathead National Forest
290 North Main
Kalispell, MT 59901

A limited number of single copies are available upon request to Forest Supervisor Edsel L. Corpe, Flathead National Forest, 290 North Main, Kalispell, MT 59901.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

KEITH M. THOMPSON,
Acting Regional Forester,
Northern Region, Forest Service.

MAY 30, 1974.

Food and Drug Administration

ADVISORY COMMITTEES

Change of Open Sessions of Meetings

In the FEDERAL REGISTER of May 29, 1974 (39 FR 18692), the Food and Drug Administration announced, pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776; (5 U.S.C. App.)), public advisory committee meetings for the month of June and other required information in accordance with provisions set forth in section 10(a) (1) and (2) of the act.

Notice is hereby given that the open sessions for the following committees are changed as set forth below:

For the Panel on Review of Topical Analgesics on June 10 and 11, the open session for public participation scheduled for 9 a.m. on June 10 is changed to 9 a.m. on June 11.

For the Panel on Review of Bacterial Vaccines and Bacterial Antigens on June 21 and 22, the open session for public participation scheduled for 9 a.m. on June 21 is changed to 11 a.m. on June 21.

Dated: June 3, 1974.

SAM D. FINE,
Associate Commissioner
for Compliance.

Social and Rehabilitation Service

CUBAN REFUGEE PROGRAM

Phaseout of Federal Reimbursement to States

Notice is hereby given that the Social and Rehabilitation Service will reduce, beginning July 1, 1974, and will terminate, by July 1, 1977, Federal reimbursements to States under the Migration and

Refugee Assistance Act of 1962 (Pub. L. 87-510).

This action is based on the following considerations: (1) The emergency situation which led to the establishment of the Cuban Refugee Program and of the special reimbursements to States for assistance to needy refugees no longer exists. (2) The Cuban refugee airlift, which accounted for the major influx of Cuban refugees, terminated on April 6, 1973. (3) Approximately 80 percent of the Cuban refugees in the United States are fully self-supporting and making significant economic and tax contributions in the areas in which they live. (4) Through the program of Supplemental Security Income for the Aged, Blind, and Disabled (SSI), which began January 1, 1974, and which includes needy refugees, the Federal Government has assumed continuing responsibility for basic assistance to aged, blind, and disabled Cuban refugees.

As the special refugee funds are phased out, Federal matching will be provided to States for assistance to refugees who are eligible for the federally aided programs of Aid to Families with Dependent Children (AFDC) and Medical Assistance (Medicaid). The phaseout is gradual in that it requires States and local jurisdictions to begin to assume responsibility for only those refugee recipients who have been in the United States more than 5 years (the minimum time required to obtain citizenship) and provides a 3-year period prior to the final termination of the special Federal reimbursements.

A phaseout of Federal Cuban Refugee Program reimbursements to States was originally scheduled to begin July 1, 1973. A proposal to phase out was published in the FEDERAL REGISTER of April 10, 1973 (38 FR 9103), and, following careful consideration of comments received, a notice of phaseout was published in the FEDERAL REGISTER of June 27, 1973 (38 FR 16928). The phaseout was subsequently suspended until further notice (FEDERAL REGISTER of August 9, 1973; 38 FR 21517) in the light of Congressional action to continue the funding of the Cuban Refugee Program at a nonphaseout level. This suspension has been continued throughout fiscal year 1974, thus providing States with 1 additional year of Cuban Refugee Program reimbursements on the previous basis (except for the change effected by the start of the SSI program January 1, 1974).

The present phaseout plan for the Cuban Refugee Program is unchanged from the previous plan except for (1) the 1-year delay in the starting date and (2) technical revisions reflecting the fact that the SSI program is now in operation.

In view of the fact that the present plan contains no substantive changes, that opportunity for comment was provided prior to the 1973 notice of phaseout, that the proposed budget of the Cuban Refugee Program for fiscal year 1975 is based on the phaseout beginning July 1, 1974, and that the States need leadtime in order to identify refugee recipients over 5 years in the United States and to prepare to place them on the regular assistance programs, the Department has determined that publication of a proposed notice is unnecessary and that publication of a final notice is in the public interest.

Therefore the Department has determined that the phaseout plan shall be placed in effect as follows:

1. Effective July 1, 1974, Federal reimbursements to States for financial and medical assistance to needy Cuban refugees, from funds appropriated to carry out the provisions of the Migration and Refugee Assistance Act of 1962 (Pub. L. 87-510) relating to assistance to refugees in the United States (Cuban Refugee Program), shall be discontinued for cases in which the head of the case has lived in the United States for 5 years or longer, and thereafter at such time as the head of an assisted case has lived in the United States for 5 years, with the following exceptions: (a) In accordance with existing policy, no reimbursements are made for State supplemental payments under title XVI of the Social Security Act (Supplemental Security Income for the Aged, Blind, and Disabled) regardless of the length of time the head of the case has lived in the United States; and (b) reimbursements for financial and medical assistance to cases not eligible under title IV-A, XVI, or XIX of the Act shall be continued to any State in which persons born in Cuba comprised 3 percent or more of the total population of the State according to the 1970 census of population. Such reimbursement is subject to annual review and approval by the Department of Health, Education, and Welfare and in no event shall continue beyond June 30, 1977.

2. Effective July 1, 1977, all Federal reimbursements to States for financial and medical assistance to needy Cuban refugees, from funds appropriated as specified above, shall be terminated.

(Catalog of Federal Domestic Assistance, Program No. 13.762, Refugee Assistance—Cuban Refugees.)

Dated: June 3, 1974.

JAMES S. DWIGHT, Jr.,
Administrator, Social and
Rehabilitation Service.

Office of the Secretary

SECRETARY'S ADVISORY COMMITTEE ON THE RIGHTS AND RESPONSIBILITIES OF WOMEN

Notice of Meeting

The Secretary's Advisory Committee on the Rights and Responsibilities of Women, which was established to review the policies, programs, and activities of the Department of Health, Education, and Welfare relative to women and to make recommendations to the Secretary on how to better the services of HEW's programs to meet these special needs of women, will meet Monday and Tuesday, June 17-18, 1974. On Monday and Tuesday the Committee will meet from 9 a.m. to 5 p.m. in Room 3173, HEW-North Building, 330 Independence Avenue, SW., Washington, D.C. The Committee will meet to finalize recommendations on their four priorities: Title IX of the Education Amendments of 1972, National Health Insurance relating to the health needs of women, Career Ladders for Women, and Social Security to be submitted to the Secretary late in June.

Persons wishing to submit written statements to the Committee, should send them to the Executive Secretary; Room 3062 North Building, Washington, D.C. 20201; phone: 202-245-8454 by June 12th. Members of the public are invited to attend the meeting.

Dated: May 14, 1974.

KAREN KEESLING,
Executive Secretary, Secretary's Advisory Committee on the Rights and Responsibilities of Women.

Federal Aviation Administration

MICROWAVE LANDING SYSTEM ADVISORY COMMITTEE

Notice of Meeting

Pursuant to section 10(a)(2) of P.L. 92-463, notice is hereby given that the Microwave Landing System (MLS) Advisory Committee will hold a meeting on July 9-10, 1974, beginning at 9 a.m., e.d.t., July 9 in Conference Room 9, FAA Headquarters, 800 Independence Avenue, SW., Washington, D.C. The following agenda items are scheduled for this meeting:

1. *Briefing*—MLS Economic Analysis.
2. *Briefing*—Status of Decision-Making Criteria and Plans.
3. *Briefing*—Status of Phase II Test Program.
4. *Discussion*—Small Community Services Systems.
5. *Briefing*—Status of Interim MLS.

All those interested in attending the meeting should contact Mr. Jules I. Kanter, Executive Director, Microwave Landing System Advisory Committee, Federal Aviation Administration, 2100 2nd Street, S.W., Washington, D.C. 20590. Telephone 202-426-3406. The meeting will be open to the public.

Issued in Washington, D.C. on May 28, 1974.

JULES I. KANTER,
Executive Director, Microwave Landing System Advisory Committee.

Coast Guard

[CGD 74-145]

PROVIDENCE RIVER, RHODE ISLAND

Public Hearing on Proposed Changes to Aids to Navigation

Notice is hereby given that a public hearing will be held by Commander, First

V 39—111 JUN 7 74 XUM

Coast Guard District regarding proposed major changes in aids to navigation marking the navigation channels in the vicinity of Coddington Cove, Dyer Island and Quonset Pt. in the Providence River, Rhode Island. The hearing will be held on Wednesday, July 17, 1974 at 7 p.m. at the Quonset-Davisville Yacht Club, Construction Battalion Center, North Kingstown, Rhode Island 02854.

Specific details of the proposed changes in aids to navigation are contained in Local Notice to Mariners Number 8, dated February 20, 1974 and published by Commander, First Coast Guard District. Interested persons may obtain copies from the Coast Guard Marine Inspection Office, 104 John E. Fogarty Federal Building, Providence, Rhode Island 02903 or from Commander, First Coast Guard District, 150 Causeway Street, Boston, Massachusetts 02114.

The hearing will be informal. It will be conducted by a representative of the Commander, First Coast Guard District, who will make an opening statement presenting a brief summary of the proposed changes. Interested persons will then have an opportunity to present their oral statements. Additional procedures for conducting the hearing will be announced at the hearing.

Interested persons may submit written data, views, or arguments to the Commander, First Coast Guard District, 150 Causeway Street, Boston, Massachusetts 02114. Each person submitting comments should include his name and address, identify the subject, state his views on the effect the proposed changes will have on safety to navigation, commerce and the public interest, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, First Coast Guard District. Written comments may also be submitted at the public hearing.

(Sec. 1, 63 Stat. 500, 80 Stat. 937 (14 U.S.C. 91, 81, 49 U.S.C. 1655(b) (1)); 33 CFR 62.01-1, 62.05-1 49 CFR 1.46(b))

Dated: June 4, 1974.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

Federal Highway Administration

MASSACHUSETTS' PROPOSED ACTION PLAN

Highway Project Development

The Massachusetts Department of Public Works has submitted to the Federal Highway Administration of the U.S. Department of Transportation a proposed action plan as required by Policy and Procedure Memorandum 90-4 issued on June 1, 1973. The action plan outlines the organizational relationships, the assignments of responsibility, and the procedures to be used by the State to assure that economic, social and environmental effects are fully considered in developing highway projects and that final decisions on highway projects are made in the best overall public interest, taking into consideration: (1) needs for fast, safe and efficient transportation; (2) public services; and (3) costs of eliminating or minimizing adverse effects.

The proposed action plan is available for public review at the following locations:

1. Massachusetts Department of Public Works, Mr. Robert T. Tierney, Chief Engineer, Department of Public Works, 4th Floor, 100 nashua Street, Boston, Massachusetts 02114.
2. District 1, Mr. Dean P. Amidon, District Highway Engineer, P.O. Box 1151, Pittsfield, Massachusetts 01201.
3. District 2, Mr. Francis J. Hoey, District Highway Engineer, 2 North King Street, Northampton, Massachusetts 01060.
4. District 3, Mr. John J. Lyons, District Highway Engineer, 403 Belmont Street, Worcester, Massachusetts 01604.
5. District 4, Mr. Charles Mistretta, District Highway Engineer, 519 Appleton Street, Arlington, Massachusetts 02174.
6. District 5, Mr. Jacob Berkover, District Highway Engineer, 485 Maple Street, P.O. Box 74, Danvers, Massachusetts 01923.
7. District 6, Mr. Joseph T. Cronin, District Highway Engineer, 1000 County Street, Taunton, Massachusetts 02780.
8. District 7, Mr. Raymond Kelleher, District Highway Engineer, 151 Pierce Street, Middleborough, Massachusetts 02346.
9. District 8, Mr. Charles K. Brown, District Highway Engineer, 400 "D" Street, South Boston, Massachusetts 02210.
10. Massachusetts Division Office, FHWA, JFK Federal Building, Government Center—Room 612, Boston, Massachusetts 02203.
11. FHWA Regional Office, Region 1, 4 Normanskill Boulevard, Delmar, New York 12054.
12. U.S. Department of Transportation, Federal Highway Administration, Environmental Development Division, Nassif Building, Room 3246, 400-7th Street, SW., Washington, D.C. 20590.

Comments from interested groups and the public on the proposed Action Plan are invited. Comments should be sent to the FHWA Regional Office shown above before July 12, 1974.

Issued on June 3, 1974.

NORBERT T. TIEMANN,
Federal Highway Administrator.

National Highway Traffic Safety Administration

YOUTHS HIGHWAY SAFETY ADVISORY COMMITTEE

Public Meeting

On June 22-23, 1974, the Youths Highway Safety Advisory Committee will hold an open meeting at the DOT Headquarters Building, 400 Seventh Street SW., Rooms 5332-5336, Washington, D.C. The Committee is composed of persons appointed by the National Highway Traffic Safety Administrator to consult with and advise him concerning programs and activities to attract and sustain the participation of young people in the national effort to combat highway deaths and injuries.

The meeting will be in session from 9 a.m. to 5 p.m. on June 22, 1974 and from 9 a.m. to 12 noon on June 23, 1974. The agenda is as follows:

Briefing on School Bus Safety.
Briefing on Motorcycle Education.
Briefing on Anti-Skid Braking Systems.
Briefing on Research Safety Vehicle Program.
Reports on Resolutions.
Discussion on Proposed Resolutions.
Report on March Conference—Follow-up.
Regional Reports.

For further information, contact Executive Secretariat, Room 5215, 400 Seventh Street SW., Washington, D.C., telephone 202—426-2872.

This notice is given pursuant to section 10(a)(2) of Pub. L. 92-463, Federal Advisory Committee Act (FACA) effective January 5, 1973.

Issued on June 3, 1974.

CALVIN BURKHART,
Executive Secretary.

[FR Doc.74-13051 Filed 6-6-74;8:45 am]

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON SAFETY FEATURES PROVIDED BY ARCHITECT-ENGINEERS

Notice of Meeting

JUNE 5, 1974.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Safety Features Provided by Architect-Engineers will hold a meeting on June 26 and 27, 1974 in Room 1046 at 1717 H Street NW., Washington, D.C.

The purpose of the meeting will be to discuss the role of the Architect-Engineer in nuclear plant design and the safety features that are provided by the Architect-Engineer as opposed to those provided by the nuclear steam system supplier.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

WEDNESDAY, JUNE 26, 1974, 9 A.M.-5 P.M.

Discussions with the Bechtel Corporation.

THURSDAY, JUNE 27, 1974, 9 A.M.-5 P.M.

Discussions with the Stone & Webster Engineering Corporation.

Representatives of the Architect-Engineers will make presentations on the role of the Architect-Engineer, standardization of plant design, interfaces with the nuclear steam system supplier, operating experience, and specific design features, and other items.

In connection with the above agenda, the Subcommittee will hold executive sessions prior to, and at the close of, each day's public session, which will involve a discussion of its preliminary views, and

an exchange of opinions of the Subcommittee members and internal deliberations and formulation of recommendations to the ACRS. In addition, the Subcommittee may hold a closed session with the Regulatory Staff and representatives of the Architect-Engineers to discuss privileged information relating to industrial security and specific plant design features.

I have determined, in accordance with subsection 10(d) of Pub. L. 92-463, that the executive sessions at the beginning and end of each day's session will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any non-exempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect such privileged information and protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than June 19, 1974 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon documents which are on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:30 p.m. and 3:30 p.m. on June 26 and 27, 1974.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on June 24, 1974, to the Office of the Executive Secretary of the Committee (telephone 301-973-5651) between 8:30 a.m. and 5:15 p.m., e.d.t.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street NW., Washington, D.C. 20545, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portions of the meeting will be available for inspection on or after July 1, 1974 at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street NE., Washington, D.C. 20002 (telephone 202-547-6222) upon payment of appropriate charges.

(j) On request, copies of the Minutes of the meeting will be made available for inspection at the Atomic Energy Commission Public Document Room, 1717 H Street NW., Washington, D.C. 20545 after August 27, 1974. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

[Dockets Nos. PRM-70-3 and PRM-70-4]

GENERAL ELECTRIC CO. AND TEXAS NUCLEAR CORP.

Denial of Petitions

Please take notice that the Atomic Energy Commission has denied petitions for rule making submitted by General Electric Co., 175 Curtner Avenue, San Jose, California and Texas Nuclear Corporation, 9101 Research Blvd., Austin, Texas.

By letter dated May 8, 1973, General Electric Co. petitioned the Commission to amend its regulation 10 CFR Part 70 to authorize export under a general license of small amounts of special nuclear materials such as (a) not more than one gram of uranium-235 and uranium-233 in enriched uranium; (b) not more than one gram of plutonium in any physical or chemical form except metal; (c) not more than 5 g of plutonium in a sealed neutron source; and (d) not more than 0.5 g of plutonium in a heat source such as a pacemaker battery. A notice of filing of petition, Docket No. PRM-70-3, was published in the FEDERAL REGISTER on May 31, 1973 (38 FR 14302).

By letter dated July 17, 1973, Texas Nuclear Corp. petitioned the Commission to amend its regulation 10 CFR Part 70 to authorize export under a general license of not more than 3 milligrams of contained plutonium-238 in a solid, encapsulated form as the component part of a small, portable instrument which uses the technique of X-ray fluorescence to perform quantitative elemental analysis. A notice of filing of petition, Docket No. PRM-70-4, was published in the FEDERAL REGISTER on August 16, 1973 (38 FR 22177).

The Atomic Energy Act of 1954, as amended, authorizes the Commission to issue licenses to export special nuclear material under the terms of an agreement for cooperation arranged pursuant to section 123 of the Act. All such agreements have limiting language as to type, amount, and end-use of the special nuclear material which may be exported. At present, such exports are dealt with by specific licenses that specify, on a case-by-case basis, the full name and address of the ultimate consignee, and of any intermediate consignee, and the type, amount, and end-use of the material which may be exported regardless of the amount of special nuclear material involved. In addition, section 123 of the Act requires that each agreement for cooperation contain (1) a guaranty by the cooperating party that security safeguards and standards as set forth therein will be maintained, (2) a guaranty that any material to be transferred thereunder will not be re-exported except as specified therein, and (3) a guaranty that the material to be transferred thereunder will not be used for any military purpose.

The Commission considers that these requirements cannot be met by the conditions of any general license that the Commission could issue for the export of special nuclear material. Accordingly, the Commission has denied the petitions on the grounds that the terms of agreements for cooperation, arranged pursuant to section 123 of the Atomic Energy Act of 1954, as amended, are not conducive to the issuance of a general license authorizing export of small quantities of special nuclear material.

Copies of the petitions for rule making and of the Commission's letters of denial are available for public inspection in the Commission's Public Document Room at 1717 H Street NW., Washington, D.C.

V 39-111 JUN 7 74 XUM

Dated at Germantown, Maryland, this 3rd day of June 1974.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

REGULATORY GUIDES

Issuance and Availability

The Atomic Energy Commission has issued a new guide in its Regulatory Guide series. This series has been developed to describe and make available to the public methods acceptable to the AEC Regulatory staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

The new guide is in Division 1, "Power Reactor Guides." Regulatory Guide 1.77, "Assumptions Used for Evaluating a Control Rod Ejection Accident for Pressurized Water Reactors," identifies acceptable analytical methods and assumptions that may be used in evaluating the consequences of a rod ejection accident in uranium oxide-fueled pressurized water reactors.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in any published guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Requests for single copies of the issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 1 Regulatory Guides currently being developed include the following:

Tornado Design Classification.
Availability of Electric Power Sources.
Requirements for Instrumentation to Assess Nuclear Power Plant Conditions During and Following an Accident for Water-Cooled Reactors.
Shared Emergency and shutdown Power Systems at Multi-Unit Sites.
Isolation of Low Pressure Systems Connected to the Reactor Coolant Pressure Boundary.
Requirements for Collection, Storage, and Maintenance of Nuclear Power Plant Quality Assurance Records.
Requirements for Assessing Ability of Material Underneath Nuclear Power Plant Foundations to Withstand Safe Shutdown Earthquake.
Fire Protection Criteria for Nuclear Power Plants.
Protective Coatings for Light Water Nuclear Reactor Containment Facilities.
Inservice Surveillance of Grouted Prestressing Tendons.
Seismic Input Motion to Uncoupled Structural Model.
Primary Reactor Containment (Concrete) Design and Analysis.
Quality Assurance Requirements for Installation, Inspection, and Testing of Mechanical Equipment and Systems.
Quality Assurance Requirements for Installation, Inspection and Testing of Structural Concrete and Structural Steel.
Fracture Toughness Requirements for Vessels Under Overstress Conditions.
Material Limitations for Component Supports.
Protection Against Postulated Events and Accidents Outside of Containment.
Requirements for Auditing of Quality Assurance Programs for Nuclear Power Plants.
Assumptions Used for Evaluating the Potential Radiological Consequences of a Gas Holdup Tank Failure in a Boiling Water Reactor.
Quality Assurance Requirements for Procurement of Equipment, Materials, and Services.
Quality Assurance Requirements for Lifting Equipment.
Maintenance and Testing of Batteries.
Qualification of Class I Electrical Equipment.
Type Tests for Class IE Cables, Connections, and Field Splices for Nuclear Power Plants.
Seismic Qualification of Class I Electric Equipment.
Fracture Toughness Requirements for Materials for Class 2 and 3 Components.
Maintenance of Water Purity in PWR Secondary Systems.
Main Stream Line Sealing System Design Guidelines for Boiling Water Reactors.
Criteria for Heat-up and Cool-down Procedures.
Effects of Residual Elements on Predicted Radiation Damage.
Inservice Inspection and Testing of Steam Generators Tubing.
Component Design Criteria for Elevated Temperature Reactors.
Preoperational Testing of Emergency Core Cooling Systems for Pressurized Water Reactors.
Fuel Oil Supplies for Standby Diesel-Generators.
Assumptions Used for Evaluating the Habitability of a Nuclear Power Plant Control Room During a Postulated Toxic Chemical Release.
Assumptions Used for Evaluating the Potential Radiological Consequences of a Liquid Radioactive Waste System Accident.
Code Case Acceptability for ASME Section III Materials.
Sumps for Emergency Core Cooling and Containment Spray Systems.
Surveillance and Examination and Testing of Irradiated Fuel Rods.
Elevated Temperature Inservice Surveillance Tests for HTGR Plants.
Design Load Combinations for Component Supports.
Termination of Nuclear Reactor Operating Licenses.
Preoperational Testing of Instrument Air Systems.
Requirements for Containment Isolation.
Probable Maximum Storm Surge Flooding on Lakes and Sea Shores.
Requirements for Concrete Reactor Vessels and Containments (ASME Section III Division 2).
Instrument Span and Trip Setting.
Failed Fuel Detection System for Nuclear Power Plants.
Code Case Acceptability—ASME Section III Design and Fabrication.
Code Case Acceptability—ASME Section III Nonmetallic Materials.
Design, Qualification Test and Installation Requirements for Class 2 and 3 Safety-Related Pumps.
Seismic Response Combination of Modes and Spatial Components.
Analysis of Seismic Recorded Data.
Protection of Nuclear Power Plant Control Room Operators Against an Onsite Chlorine Release.
Self-Operated and Power Operated Safety-Related Valves Functional Specification.
Nuclear Power Plant Environmental Characteristics for Designated Sites.

TEXAS UTILITIES GENERATING CO.

Availability of AEC Final Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the U.S. Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that the Final Environmental Statement prepared by the Commission's Directorate of Licensing, related to the proposed issuance of construction permits for the Texas Utilities Generating Company's Comanche Peak Electric Station, Units 1 and 2, to be located near Glen Rose, Texas, is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and in the Somervell Public Library, On-the-Square, Glen Rose, Texas 76043. The Final Environmental Statement is also being made available at the North Central Texas Council of Governments, P.O. Box 5888, Arlington, Texas 76011 and the Division of Planning and Coordination, Office of the Governor, P.O. Box 12428 Capital Station, Austin, Texas 78711.

The notice of availability of the Draft Environmental Statement for the Comanche Peak Steam Electric Station, Units 1 and 2 with request for comments from interested persons was published in the FEDERAL REGISTER on February 21, 1974 (39 FR 6633). The comments received from Federal, State and local agencies and interested members of the public have been included as appendices to the Final Environmental Statement.

Single copies of the Final Environmental Statement may be obtained by writing the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 3rd day of June 1974.

For the Atomic Energy Commission.

B. J. YOUNGBLOOD,
Chief, Environmental Projects Branch 3, Directorate of Licensing.

[Docket No. 50-266]

WISCONSIN ELECTRIC AND WISCONSIN MICHIGAN POWER CO.

Issuance of Facility License Amendment

Notice is hereby given that the U.S. Atomic Energy Commission ("the Commission") has issued Amendment No. 3 to Facility Operating License No. DPR-24 issued to Wisconsin Electric and Wisconsin Michigan Power Company which revised Technical Specifications for operation of the Point Beach Nuclear Plant Unit No. 1, located in the Town of Two Creeks, Manitowoc County, Wisconsin. The amendment is effective as of its date of issuance.

The amendment permits changes to the Technical Specifications to permit Cycle 3 operation at a reduced system pressure.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act, as amended ("the Act"), and the Commission's rules and regulations and the Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated May 1, 1974, (2) Amendment No. 3 to License No. DPR-24 and Change No. 8, and (3) the Commission's related Safety Evaluation. All of these are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Manitowoc Public Library, 808 Hamilton Street, Manitowoc, Wisconsin.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 23rd day of May 1974.

For the Atomic Energy Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch No. 1 Directorate of Licensing.

[Dockets Nos. 50-458 and 50-459]

GULF STATES UTILITIES CO.

Availability of AEC Draft Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a Draft Environmental Statement prepared by the Commission's Directorate of Licensing related to the proposed River Bend Station, Units 1 and 2, to be constructed by Gulf States Utilities Company to be located in West Feliciana Parish, Louisiana is available for inspection by the public in the Commission's Public Document Room 1717 H Street, NW., Washington, D.C. and in the Audubon Library, West Feliciana Branch, Ferdinand Street, St. Francisville, Louisiana 70775. The Draft Statement is also being made available at the Commission on Intergovernmental Relations, P.O. Box 44455, Capitol Station, Baton Rouge, Louisiana 70804 and the Florida District Clearinghouse, Capitol Regional Planning Commission, 101 St. Ferdinand Street, Suite 205, Baton Rouge, Louisiana 70801. Copies of the Commission's Draft Environmental Statement may be obtained by request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

The Applicant's Environmental Report, as supplemented, submitted by Gulf States Utilities Company is also available for public inspection at the above-designated locations. Notice of availability of the Applicant's Environmental Report was published in the FEDERAL REGISTER on October 30, 1973 (38 FR 29910).

Pursuant to 10 CFR Part 50, Appendix D, interested persons may submit comments on the Applicant's Environmental Report, as supplemented, and the Draft Environmental Statement for the Commission's consideration. Federal and State agencies are being provided with copies of the Applicant's Environmental Report and the Draft Environmental Statement (local agencies may obtain these documents upon request). Comments are due by July 29, 1974. When comments thereon by Federal, State, and local officials are received by the Commission, such comments will be made available for public inspection at the Commission's Public Document Room in Washington, D.C. and the Audubon Library, West Feliciana Branch, Ferdinand Street, St. Francisville, Louisiana 70775. Upon consideration of comments submitted with respect to the Draft Environmental Statement, the Regulatory staff will prepare a Final Environmental Statement, the availability of which will be published in the FEDERAL REGISTER.

Comments on the Draft Environmental Statement from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 3rd day of June 1974.

For the Atomic Energy Commission.

WM. H. REGAN, Jr.,
Chief, Environmental Projects Branch 4, Directorate of Licensing.

CIVIL AERONAUTICS BOARD

[Docket 24283 etc.; Order 74-6-18]

AIR CARRIER REORGANIZATION INVESTIGATION

Diversified Business Activities

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 4th day of June, 1974.

On August 27, 1973, Administrative Law Judge E. Robert Seaver issued his decision in the above-entitled proceeding[1] wherein he found, interalia, that certificated, scheduled air carriers should be permitted to engage in diversified business activities so long as such activities are monitored by the Board under the comprehensive regulatory scheme[2] that he set forth in his decision.[3] Judge Seaver proposed that his suggested regulatory scheme be imposed by Board decision in this proceeding on all certificated, scheduled carriers without further rulemaking procedures. Subsequently, by Order 73-9-8, the Board took review of the decision on its own motion.

Disagreement with Judge Seaver's conclusion that diversification regulations of general applicability should be promulgated herein prompted American Airlines; Frontier Airlines, RKO General and the General Tire and Rubber Company jointly (hereafter referred to as "Frontier"); Hughes Airwest and Summa Corporation jointly (hereafter referred to as "Airwest"); Pan American World Airways; and Trans World Airlines to file motions with the Board that, in the main, sought either permission to intervene or an order of the Board indicating that the Investigation would not result in the imposition of a regulatory scheme of general applicability without further proceedings in which all interested parties could participate.[4] In gen-

---

[1] Hereafter "the Investigation."

[2] Judge Seaver's proposal would apply to diversification whether by parent corporations of airlines, airline subsidiaries, or unincorporated divisions of airlines.

[3] Judge Seaver also recommended that Braniff's corporate reorganization be approved. By Order 73-11-8, the Board granted Braniff's motion to sever its corporate reorganization application from the Investigation and approved it on an interim basis, subject to certain conditions.

[4] The present parties to the Investigation are United, Braniff, Flying Tiger, National, the Department of Transportation, the Department of Justice, and the Bureau of Operating Rights.

V39—111 JUN 7 74 XUM

eral, the carriers argue that the Board order instituting the Investigation indicated that the proceeding was intended to encompass diversification questions only insofar as they are related to holding companies—not to airlines that diversified by means of other forms of corporate organizations. They assert that the imposition of the proposed regulatory scheme on nonparties would thus violate the notice provisions of the Administrative Procedure Act.[5] Several of the carriers request, alternatively, that the binding effect of a Board decision in the Investigation be limited to the existing parties. Frontier and Pan American urge that if the Board believes that regulations of general applicability are needed to control diversification, the adoption of such regulations should be accomplished via a rulemaking proceeding that could be instituted following completion of the Investigation.

The Bureau of Operating Rights filed an answer to the motions of Pan American, TWA and American in which it urges that we deny the carriers' intervention requests on the basis that the addition of new parties would expand the issues and delay a final decision in the proceeding. The Bureau urges us to institute a rulemaking proceeding subsequent to the Investigation in the event that we decide that diversification regulations of general applicability should be promulgated.

In response to Braniff's severance proposal and the motions of Pan American, American and TWA, United filed a motion to restructure proceeding and for other relief. Answers to United's motion have been filed by Pan American, American, Frontier, Braniff, Flying Tiger, the Department of Justice and the Bureau.[6]

United's restructure motion requests that the Investigation be changed from an adjudicatory proceeding into a rulemaking case. The carrier urges that the regulations proposed in Judge Seaver's decision should be published as proposed rules, and that, thereafter, all interested persons should be given an opportunity to submit comments both on the merits of the proposed rules and on the issue of whether the Federal Aviation Act gives the Board the power to adopt them. United's position is that this restructuring would avoid the need for two separate proceedings, would insure that any regulatory scheme regarding air carrier diversification would have uniform applicability, and would avoid the "exercise in frustration" that the Bureau proposes—i.e., a rulemaking proceeding whose outcome would be a foregone conclusion in view of the prior decision of the Board in this Investigation.

In an answer to United's motion, Flying Tiger submits that since it is the only air carrier whose diversified activities are currently subjected to a prior Board approval regime, any restructuring of the proceeding should be undertaken only if it is accompanied by relief for Flying Tiger from paragraph 3 of Order 70-6-119 that required Flying Tiger to obtain prior Board approval of certain transactions between the carrier and its subsidiaries and affiliates.[7] The answers of Frontier and Pan American take no position on the merits of United's proposal. American and DOJ filed answers in support of United's restructure motion.[8]

The Bureau filed an answer urging the Board to deny the restructure motion, stating that the proposal is fundamentally an attempt to retry the issues in the proceeding de novo—and, consequently, to delay, if not thwart altogether, the regulation of United's presently unregulated diversification activities. The Bureau again urges that the Board proceed to decision with respect to the carriers now parties to the Investigation, but that we hold a subsequent rulemaking proceeding before the promulgation of rules of general applicability.

Upon consideration of the aforementioned pleadings, we have determined to deny United's restructure motion and the substantive motions of the various other carriers who seek intervention, declaratory orders or other forms of relief. In addition, for the reasons discussed below, we have determined to limit the proceedings on review to consideration of the issues raised by air carrier diversification through the airline formed holding company form of organization.[9]

First, as indicated by our instituting order (Order 72-3-27) the primary impetus for this investigation was our concern for the "potential ramifications of the formation by air carriers of holding companies."[10] Similarly, the air carriers we named as parties are carriers which at the time of the order's issuance either had diversified through the holding company form of corporate organization (United and Flying Tiger) or which desired to form a holding company (Braniff), or which had been authorized by the Board to form a holding company (Airlift).

Second, the vast bulk of evidence adduced at the hearing concerns the diversification activities of air carrier formed holding companies.

Third, limiting the proceeding to diversification via airline formed holding companies will permit the proceeding to move more expeditiously. In addition, the experience the Board gains in this proceeding may well enable the Board to better shape any future proceeding covering diversification by other means—or, perhaps, to entirely avoid such a proceeding (if, for example, we were to determine in the Investigation that airline diversification does not warrant Board supervision or control).

In regard to United's claim that moving ahead with the Investigation as it is now structured could result in the imposition of requirements on Braniff, Flying Tiger and United that would place them at a disadvantage relative to other carriers, the parties herein will be free to argue this matter when they express their views to the Board on the nature of the action the Board should take herein. And we also disagree with United's contention that the adoption of a regulatory scheme on other carriers subsequent to the Investigation would be an "exercise in frustration." As touched on above, we have not, of course, made any final determination that additional controls or other requirements should be imposed on airline diversification activities, nor have we finally passed on whether diversification through airline formed holding companies presents greater potential danger for harm to the public interest than other forms of diversification (as Judge Seaver concluded), or, for that matter, whether it is less of a problem in that respect than other diversification approaches. Thus we cannot conclude that further proceedings concerning airline diversification (rulemaking or otherwise) will in fact be instituted after conclusion of this proceeding. In any event, we see no problem with first imposing appropriate requirements on the parties to the Investigation and thereafter imposing by regulation the same or similar requirements on other carriers. (See Southern Pacific-Santa Fe Air Freight Forwarder Case, Order 70-10-100, PSDR-31/EDR-204, 36 FR 12310, and ER-701/702 (Amdt. 11), ER-703 (Amdt. 2) and Reg. PS-48 (Amdt. 27), 36 FR 20157.)

Our ruling here largely moots the various pending petitions to intervene, which generally were based on the petitioners' concern that this proceeding would encompass diversification other than through airline formed holding companies. However, because of the apparently broad interest in this proceeding we will permit any interested person to submit a pleading in the nature of a brief amicus curiae to the Board on the matters at issue in the Investigation on or before the date briefs are due from the parties.[11] Such pleadings shall be limited to 25 pages. In addition any nonparty desiring to present oral argument may seek permission to do so by written request accompanying his brief.[12]

---

[5] See 5 U.S.C. § 553(b).

[6] The answers of DOJ and the Bureau were attached to motions for leave to file late answers. We will grant the motions.

[7] By Order 74-5-90, the Board raised the amount upon which the intercompany transaction prior approval condition of Order 70-6-119 is triggered from $100,000 to $1 million.

[8] Braniff answered United's motion urging that, prior to or in connection with any action to restructure the proceeding, separate expedited action should be taken with respect to its corporate reorganization application. As noted, supra, the Board granted Braniff's request on an interim basis. Accordingly, we will dismiss as moot that part of United's motion that requests severance of Braniff's corporate reorganization application.

[9] Thus diversification through subsidiaries or divisions of airlines will not be here considered, nor the diversification that results from the acquisition of control of an airline by a nonairline company.

[10] Thus United's motion to restructure is to a large extent a wholly untimely petition for reconsideration of our instituting order.

[11] In addition to the matters at issue in this proceeding, the amicus briefs may discuss what further action the Board should take in respect to diversification activities conducted by airlines (or their affiliates) other than through airline formed holding companies.

Briefs shall be due not later than forty-five days from the date of adoption of this order. Oral argument will be heard at a time and place to be hereafter designated by the Chief Administrative Law Judge.

Accordingly, it is ordered: 1. That the motion of United Air Lines, Inc. to restructure proceeding and for other relief, except insofar as it requests severance of Braniff's corporate reorganization application which request be and it hereby is dismissed as moot, be and it hereby is denied;

2. That the motions of the Bureau of Operating Rights and the Department of Transportation for leave to file late-filed answers to United's motion to restructure proceeding be and they hereby are granted;

3. That the motion of Trans World Airlines, Inc. to file exceptions, and brief in support thereof, to the decision of Administrative Law Judge E. Robert Seaver and the motion of Trans World Airlines for leave to file a brief in support of its exceptions to such decision be and they hereby are denied;

4. That the motion of Frontier Airlines, Inc., RKO General Inc., and the General Tire and Rubber Company requesting (1) an order clarifying the scope of this proceeding or (2) leave to participate in oral argument be and it hereby is denied;

5. That the motion of Pan American World Airways, Inc. for leave to file otherwise unauthorized documents be and it hereby is granted to the extent the carrier requests leave to file an intervention petition, and that it be and hereby is denied to the extent the carrier requests leave to file exceptions to Judge Seaver's decision;

6. That the petition of Pan American World Airways for leave to intervene in this proceeding be and it hereby is denied;

7. That the motion of American Airlines, Inc. for leave to submit a brief and participate in oral argument be and it hereby is denied;

8. That the motion for leave to file an otherwise unauthorized document and statement of Hughes Airwest and Summa Corporation be and it hereby is granted;

9. That the request of Hughes Airwest and Summa Corporation that any regulations that may result from this proceeding should not apply to them be and it hereby is dismissed;

10. That any party to this proceeding may file a brief with the Board, and any interested person may file a pleading in the nature of a brief amicus curiae with the Board, within 45 days after the date of adoption of this order;

11. That any interested person who files a pleading in the nature of a brief amicus curiae and who desires to participate in oral argument should file a written request for permission to do so which request should accompany his brief and set forth (1) the nature of such person's interest in the proceeding; (2) the general nature of the issues such person intends to focus on at oral argument before the Board; and (3) a statement as to why such person's interest will not be adequately represented by the present parties; and

12. That copies of this Order shall be served on all parties to this proceeding and on all certificated air carriers.

This Order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-13106 Filed 6-6-74;8:45 am]

[Docket No. 26724; Order 74-5-149]

AMERICAN AIRLINES, INC. ET AL.

Cancellation of Certain Military Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 31st day of May, 1974.

By tariff revisions which became effective on various dates in February, March, and April, 1974, American Airlines, Inc., (American), Delta Air Lines, Inc., (Delta), and Eastern Air Lines, Inc., (Eastern), established an expiration date of June 8, 1974 for all military standby fares and military reservation fares (reservation fares only for Delta) between San Juan, St. Croix, and St. Thomas, on the one hand, and the mainland United States, on the other. By subsequent revisions marked for effectiveness June 1, 1974, Delta (for standby fares only) and Pan American World Airways, Inc., (Pan American) also propose a June 8 expiration date for military fares in the same market. The carriers contend that the fares are no longer economically viable, particularly in light of recent capacity restraints in the market brought about in part by the current fuel shortage.

The Department of Defense (DOD) has filed a complaint requesting that the cancellations be suspended and/or investigated. In support of its complaint, DOD alleges that cancellation of the fares is without substantive justification, discriminatory, inconsistent with presently structured military furlough fares and rules, and adverse to the interest of the national defense. DOD asserts that 3,000 military personnel are stationed on the island of Puerto Rico, and that they rely solely on scheduled air service for leave travel to the U.S. mainland. Since government-sponsored "space available" travel under the auspices of the Military Airlift Command was terminated on July 1, 1973, DOD alleges that the proposed cancellation will impose undue financial hardship and deprivation on servicemen who desire to join their families in the U.S. Finally, DOD alleges that cancellation of the fares would be contrary to the Board's determination in Docket 26404, "Military Furlough Fares," where the Board allegedly "found lawful and required by national defense needs a military reservation fare in domestic service equivalent to 75 percent of normal fare."

Answers have been filed by American, Delta, Eastern and Pan American.

Upon consideration of all relevant matters, the Board has determined that the cancellation of military fares between the mainland United States, on the one hand, and San Juan, St. Croix, and St. Thomas, on the other, may be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that those cancellations not yet effective should be suspended pending investigation.

The Board does not consider that it would be consistent with its statutory responsibilities to permit, without an investigation and over the objections of DOD, the abrupt cancellation of all military fares in the mainland-Puerto Rico/Virgin Islands markets. This proposal by the carriers goes considerably beyond their earlier action in reducing the discount involved in such fares in the mainland domestic markets (Order 74-3-67, March 14, 1974). A further consideration is the fact that alternative forms of low-cost travel are available on the mainland, whereas air transportation is the only available means of travel in the mainland Puerto Rico/Virgin Islands markets. The proposed cancellation would effectively double the cost of travel home for many service personnel stationed in the islands, on top of earlier fare increases in these markets during the past several years. Military fares have been justified on national defense considerations which transcend the purely promotional considerations which are the basis for most other discount fares. For all these reasons, we believe that DOD should have an opportunity to substantiate in a hearing its contentions that the cancellation of military fares in overseas markets will cause undue hardship to service personnel, before such fares are permitted to be cancelled. Compare Orders 70-5-142, 70-11-93, 70-11-133, and 70-12-155.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204, 403, 404, and 1002 thereof.

It is ordered, That: 1. An investigation be instituted to determine whether the fares and provisions described in Appendices A and B attached hereto, and rules, regulations and practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described

---

[12] Such requests shall state (1) the nature of such person's interest in the proceeding, (2) the general nature of the issues such person intends to focus on at oral argument and (3) why such person's interest is not adequately represented by the parties to the Investigation.

V39-111 JUN 7 74 XUM

in Appendix B hereto are suspended and their use deferred to and including August 29, 1974, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. Except to the extent granted herein, the complaint in Docket 26724 is hereby dismissed;

4. The proceeding ordered herein be assigned for hearing before an Administrative Law Judge of the Board at a time and place hereafter to be designated; and

5. Copies of this order be served upon the Department of Defense, American Airlines, Inc., Eastern Air Lines, Inc., Delta Air Lines, Inc., and Pan American World Airways, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

APPENDIX A

TARIFF C.A.B. NO. 244 ISSUED BY AMERICAN AIRLINES, INC.

The Expiration Date of June 8, 1974, shown in reference mark "a" in connection with the "M" and "YM" class fares on the following pages:

37th Revised Page 76
33rd Revised Pages 76–A and 76–B
47th Revised Pages 79 and 80
48rd Revised Page 83

TARIFF C.A.B. NO. 404 ISSUED BY INTERNATIONAL AIR TARIFFS, CORP., AGENT

On 33rd Revised Page 109 the encircled plus reference mark denoting the expiration date of June 8, 1974, at the bottom of the page.

TARIFF C.A.B. NO. 326, ISSUED BY EASTERN AIRLINES, INC.

On 13th Revised Page 20, and 8th Revised Pages 21 and 22 the the expiration date of June 8, 1974, shown in connection with Rule 9.

On 23rd Revised Page 105, the encircled plus reference mark shown in connection with section 5 Part A.

On 23rd Revised Page 106, the encircled plus reference mark shown in connection with section 5 Parts A and B.

TARIFF C.A.B. NO. 334 ISSUED BY INTERNATIONAL AIR TRAFFIC TARIFFS CORP., AGENT

On 39th Revised Page 3, the expiration date of June 8, 1974 shown in connection with Rule 5.

On 36th Revised Page 4, the expiration date of June 8, 1974, shown in connection with Rule 5.

On 53rd Revised Page 9, the encircled plus reference mark shown in connection with TABLE 3 and the explanation of such reference mark at the bottom of the page.

The provisions on 54th Revised Page 9 insofar as they would cancel by omission fares and provisions continued in effect as a result of the suspension of provisions on 53rd Revised Page 9 above.

TARIFF C.A.B. NO. 404, ISSUED BY INTERNATIONAL AIR TRAFFIC TARIFFS CORP., AGENT

On 11th Revised Page 108–B the encircled plus reference mark shown in connection with section 10 Part 1.

The provisions on 12th Revised Page 108–B, insofar as they would cancel by omission fares and provisions continued in effect as a result of the suspension of provisions on 11th Revised Page 108–B.

On 12th Revised Page 108–B, the increased fares in section 10 Part 2.

On 34th Revised Page 109, the encircled plus reference mark shown in connection with section 10 Part 3 and Part 4.

COMMISSION ON THE REVIEW OF THE NATIONAL POLICY TOWARD GAMBLING

Notice of Hearings

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770), notice is hereby given that the Commission on the Review of the National Policy Toward Gambling, established under the authority of Pub. L. 91–452, Part D, sec. 804–808 of the Organized Crime Control Act of 1970, will meet on June 26, 1974, at 10 a.m. in Room 155 Russell Senate Office Building, Washington, D.C., for the purpose of holding Hearings.

The purpose of the Hearings will be to enable the Commission to explore the

experiences of the Federal Bureau of Investigation and the Federal Communications Commission concerning their investigations and prosecution of gambling activities pursuant to those Federal statutes governing the prohibition and taxation of gambling activities. Representatives from these agencies will present statistical information relating to existing enforcement practices and in addition will offer testimony as to any recommendations they may have which in their opinion may serve to improve the effectiveness of the said existing practices.

The meeting of the Commission will be open to the public, and interested persons are invited to attend. The rules of procedure for person or persons presenting matters to the Commission are subject to the following conditions:

(a) Any such interested person or persons must receive authorization to present such matters from the Chairman of the Commission. Not later than seven (7) days preceding such Executive or Public Hearings, a request for such authorization must be received in writing at the offices of the Commission. Such a request shall be accompanied by a concise description of the material which such person or persons desire to present to the Commission or Subcommittee.

(b) The Chairman of the Commission shall, within three (3) days from the receipt of such a request make a determination that the subject matter presented by such interested person or persons is timely and appropriate for such Executive or Public Hearings of the Commission or Subcommittee thereof, and shall notify such interested person or persons by Certified Mail of the decision.

(c) In the event such interested person or persons is allowed to present matters to the Commission or Subcommittee thereof in Executive or Public Hearings, then a prepared written statement of expected presentation shall be filed in the office of the Commission, not later than 48 hours in advance of the Hearings at which the statement is to be presented.

(d) After the receipt of the statement of expected presentation, the Chairman shall then make a determination of the extent that time is available for such interested person or persons to present oral statements in addition thereto. In the event that the Chairman determines that time is not available for such oral statements, the interested person or persons' statement shall be recorded and made a part of the subject proceedings.

(e) Provided further that any such interested person or persons who feels aggrieved by or takes exception to any of the determinations made by the Chairman of the Commission shall have the opportunity to present in writing to each member of the Commission the basis for such grievance or exception taken to such ruling by the Chairman and thereafter the decision of the Chairman shall be reconsidered by each member of the Commission at its next regular meeting or hearing. Notice by Certified Mail to such interested person or persons shall include the final decision of the full Commission on its reconsideration and shall constitute notification of the action taken by the Commission.

(f) Any deviation from the preceding requirements, shall constitute on the part of such interested person or persons, a withdrawal of any request previously made.

JAMES E. RITCHIE,
Executive Director.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS RECEIVED

Environmental impact statements received by the Council on Environmental Quality from May 27 through May 31, 1974. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines, the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (July 22, 1974.)

Copies of individual statements are available for review from the originating agency. Back copies will also be available from a commercial source, the Environmental Law Institute, of Washington, D.C.

DEPARTMENT OF AGRICULTURE

Contact: Dr. Fred H. Tschirley, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331–E, Administration Building, Washington, D.C. 20250, 202–447–3965.

FOREST SERVICE

Final

Red River Gorge, Daniel Boone National Forest, Wolfe and Powell Counties, Ky., May 29: The statement refers to a proposed ten year management plan for the Red River Gorge Unit, Stanton Ranger District, Daniel Boone National Forest. The unit contains 42,023 acres, 25,683 of which will be managed as a Geological Area and 16,360 of which will be managed for multiple use benefits, including timber management. Major impact will be reduction of timber use and big game species within the Geological Area, and impact on water quality, soil, and vegetative cover from timber harvest and road construction in the remaining areas (250 pages). Comments made by: DOI, USDA, EPA, state and local agencies, and concerned citizens (ELR Order No. 40891.)

East Bradfield Timber Sale, Tongass National Forest, May 27: The statement refers to the proposed timber sale of 80 million board feet of over-mature Sitka spruce and western hemlock from 2,076 acres. Removal will be on an even-aged management basis. The sale area is within the Tongass National Forest, on the mainland along the East Fork of the Bradfield River 38 miles southeast of Wrangell. Adverse impact would include the loss of wilderness character along part of the East Bradfield River. Comments made by: HUD, DOT, EPA, DOI, AHP, state agencies, and concerned citizens. (ELR Order No. 31845.)

RURAL ELECTRIFICATION ADMINISTRATION

Draft

Sebree Plant Addition, Henderson and Webster Counties, Ky., May 28: Proposed is the granting of an insured loan to the Big Rivers Electric Corp., for the construction of a 66MW distillate fuel oil combustion turbine at the existing Sebree generating station. No additional transmission lines would be required. Adverse impact will include the release of nitrogen oxides, sulfur dioxide, and particulate matter (two volumes). (ELR Order No. 40880).

SOIL CONSERVATION SERVICE

Draft

Flat Rock Creek, Crawford County, Ark., May 29: Proposed is a watershed protection, flood prevention, and recreation project on Flat Rock Creek Watershed. Project measures will include land treatment, 4.2 miles of concrete lined channel, and 3.2 miles of debris-cleared channel. About 1,030 acres of flood plain land will be protected. Agricultural and forest productivition on 32 acres of grassland and 19 acres of woodland will be committed to project measures; one dwelling and one farm operation will be relocated (44 pages). (ELR Order No. 40901.)

Newman Lake Watershed, Spokane County, Wash., May 28: Proposed is a watershed protection, flood prevention, and fish and wildlife project in Spokane County. Project measure will include land treatment, 3.8 miles of channel work, a gated outlet structure with fish screens, and a water level control structure and stream gage. Flooding will be reduced on 1,030 acres of cropland and 50 acres of shoreline property. About 460 acres of Type 1 wetlands will be eliminated; 25.5 acres of land will be committed to project structures. (40 pages.) (ELR Order No. 40871.)

SOIL CONSERVATION SERVICE

Draft

Spring Canyon Watershed, Goshen County, Wyo., May 29: Proposed is a watershed protection and flood prevention project, which will involve the construction of a dam and reservoir, channel works, and land treatment measures. The action will result in the commitment of 100 acres of rangeland to structural measure; 75 acres of rangeland will be subject to a two year disruption of vegetative cover. (ELR Order No. 40900.)

Final

White Oak Creek Fish and Wildlife Plan, Ouachita and Nevada Counties, Ark., May 28: The statement refers to the proposed development of 3,455 acres as a public fish and wildlife area, in order to increase hunting activities. Development will include the creation of 1,100 acres of green tree reservoirs (Type 1 wetland); enhancing and preserving 600 acres of Type 6 and 7 wetland; managing 300 acres of pine hardwood and 1,455 acres of bottom land hardwood; and improving access and creating basic facilities. There will be increased vehicular traffic noise, and littering; wildlife habitat may be reduced. (53 pages.) Comments made by: COE, HEW, DOI, EPA, and state agencies. (ELR Order No. 40874.)

DEPARTMENT OF DEFENSE, ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN–PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202–693–7168.

Draft

Bon Secour River, Maintenance Dredging, Alabama, May 28: The statement refers to

V 39 — 111 JUN 7 74 XUM

the continued operation and maintenance of an existing navigation channel from the Gulf Intracoastal Waterway through Bon Secour Bay and up Bon Secour River to a point about 600 feet above Oak Landing. Spoil from maintenance dredging will be pumped to diked land disposal sites. Adverse impacts are the destruction of benthic communities, displacement of wildlife, a temporary decrease in water quality, and a temporary increase in noise levels in the project area. (Mobile District) (35 pages.) (ELR Order No. 40869.)

Tensas Basin, Flood Control, Concordia County, La., May 28: The statement refers to the construction of a 4,000 cubic feet per second pumping plant, inlet and outlet channels, channel enlargement, a cutoff, and installation of four weirs in the lower 22 miles of Bayou Cocodrie, and the installation of water control levees and structures and public access facilities on the Red River Wildlife Management Area and Bayou Cocodrie. Adverse impacts include the clearing of bottomland hardwood forest, reduction of fish and wildlife habitat, physical alteration of lower 22 miles of Bayou Cocodrie, and some local air and noise pollution. (Vicksburg District) (60 pages.) (ELR Order No. 40873.)

Winter Harbor Small Boat Navigation Project, Hancock County, Maine, May 28: The statement refers to the navigation improvement in Inner Winter Harbor, Hancock County, consisting of dredging 6.5 acres of anchorage to a depth of 8 feet mean low water and disposal of 25,000 cu. yds. of spoil material. It is proposed to deposit the spoil in Winter Harbor Sound. Adverse impacts are those normally associated with dredging and spoil disposal. (Waltham District) (44 pages.) (ELR Order No. 40872.)

Rio Grande River, Santa Fe, Arroyo Mascaras, New Mexico, May 30: The project involves the construction of a dry flood control reservoir on the Santa Fe River; channelization of approximately 4,000 feet of Arroyo Mascaras, raise Apartment Drive bridge; and provide a new bridge at College St. in Santa Fe. Adverse impacts are: the alteration of 22 acres; turbidity in the river and two reservoirs would be evident until revegetation, and short-term air and noise pollution due to construction. (Albuquerque District.) (ELR Order No. 40904.)

Turtle Creek Local Protection Project, Canadian County, Okla., May 30: The project consists of channel improvement including realignment on Turtle Creek in Yukon, Canadian County. This project would provide 100-year frequency flood protection on about 600 acres of land. Adverse impacts include the use of 40 acres of land, and the removal of vegetation along portions of Turtle Creek. (Tulsa District) (59 pages.) (ELR Order No. 40907.)

Chehalis River Flood Control, Grays Harbor County, Wash., May 28: The proposed project consists of a levee system which would protect 1,288 acres of flood plain lands at the head of Grays Harbor. The project would remove some 20 acres of brush and trees which will have a negative effect on the wildlife of the area. There would also be adverse impacts normally associated with construction. (Seattle District) (44 pages.) (ELR Order No. 40876.)

Draft

Wailupe Stream Flood-Control, Oahu, Hawaii, May 29: Proposed is a flood control project on Wailupe Stream, Oahu. Project measures include an excavated outlet channel 200 feet seaward of the stream mouth; a 30 foot long rip-rap channel at the stream mouth; the concrete-lining of 8,650 ft. of channel; the excavation of a debris basin; and related work. The statement indicates only the temporary impacts of construction disruption that will occur. (Pacific Ocean Division) (27 pages.) (ELR Order No. 40898.)

Final

Hastings Local Flood Protection Works, Minnesota, May 31: The statement refers to a proposed local flood protection project on the Vermillion River at Hastings. Project measures would include a floodway, channel enlargement, levee extension, and the lowering of Peavy Mill Dam. Adverse impact would include the loss of 150 large trees and wildlife habitat, and the loss of the historic and aesthetic Peavy Dam and mill pond. (St. Paul District) (56 pages.) Comments made by: EPA, USDA, HUD, DOI, DOT, and state and local agencies. (ELR Order No. 40909.)

Biloxi Harbor Dredging, Mississippi, May 30: The project includes the continued maintenance of exisiting Federal channels; expansion of a segment of existing Federal channel to its currently authorized dimensions; and the transformation of existing channels which were constructed and maintained by local interests into a Federal project. Adverse impacts include the loss of bottom dwelling organisms, temporary increases in turbidity, temporary reduction in primary production, loss of phytoplankton, and the increasing of the level of certain dissolved pollutants by resuspending contaminated sedimentary material through dredging operations. (Mobile District.) Comments made by: EPA, DOC, DOI, HUD, DOT, USDA, state agencies, and concerned citizens. (ELR Order No. 40906.)

FEDERAL POWER COMMISSION

Contact: Dr. Richard F. Hill, Acting Advisor on Environmental Quality, 441 G Street NW., Washington, D.C. 20426, 202–386–6084.

Draft

American Fork Creek Project No. 696, Utah, May 28: Proposed is the relicensing of Utah Power and Light Co.'s American Creek Project, No. 696. The project includes a concrete overflow type diversion dam with flash boards, one 950 kW generating station, transmission lines, and related works. The project has a visual impact upon the Timpanogos Cave National Monument. (77 pages.) (ELR Order No. 40877.)

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kauders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, 202–343–4161.

Draft

Richmond Naval Air Station, Dade County, Fla., May 30: Proposed is the disposal of 1,042 acres of land at the former Naval Air Station. Approximately 1,010 acres will be assigned to BOR of DOI for subsequent conveyance to Dade County for recreational and zoological purposes; 32 acres will be assigned to HEW for conveyance to Dade County for use for a vocational school; 217.17 acres and 32 buildings will be retained by GSA for possible further Federal use. (A total of 205.41 acres have already been transferred to the Justice Department for a Federal Youth Center.) There will be adverse impacts from the various new uses; BOR and HEW will prepare impact statements on their proposals. (45 pages.) (ELR Order No. 40906.)

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Contact: Mr. Richard H. Broun, Acting Director, Office of Community and Environmental Standards, Room 7206, 451 7th Street SW., Washington, D.C. 20410, 202–755–5980.

Final

Zia Urban Renewal, City of Gallup, McKinley County, N. Mex., May 29: The statement refers to the proposed approval of an amendment to the Zia Urban Renewal Project, in the City of Gallup. Project measures would include the construction and repair of public streets and sidewalks; drainage system improvements; acquisition and clearance of substandard buildings; and provision of housing for project relocatees. Adverse impacts will include the isolation of the project area from the main part of the City by the construction of an intown interstate bypass (I–40), and the increase of pressure for the closing of the Sunnyside Elementary School, due to its proximity to the highway. Comments made by: CEQ, USDA, COE, DOT, DOI, EPA, FPC, state, and local agencies and concerned citizens. (ELR Order No. 40888.)

St. Paul Development Project, Wise County, Va., May 28: The project is a redevelopment effort based upon the combined action of HUD, the Tennessee Valley Authority, the Virginia Department of Highways, and the Wise County Redevelopment and Housing Authority. The St. Paul Development Project will include flood control measures; the relocation of highways US 58A and State Route 63; commercial and industrial development; the provision of adequate utilities; and the renewal of housing. Impact of the redevelopment of St. Paul will include the displacements of families and businesses. Comments made by: EPA, DOI, COE, USDA, AHP, HEW. (ELR Order No. 40875.)

DEPARTMENT OF THE INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, 202–343–3891.

BUREAU OF LAND MANAGEMENT

Draft

Coal Resources, Eastern Powder River, Campbell and Converse Counties, Wyo., May 30: The statement, which contains both site specific and regional analyses, discusses overall coal development on 4,978,560 acres of the Eastern Powder River Coal Basin. Elements of development include four individual coal development plans (for Atlantic-Richfield, Carter Oil, Kerr-McGee, and Wyodak Resources); and a new railroad between Douglas and Gillette. Development-related projects will include transmission line, coal gasification plants, water supply works, roadways, communications, and new residence and business communities. Federal agency involvements of the Interstate Commerce Commission, the U.S. Geological Survey, BLM, and the Forest Service are considered collectively by the statement. (ELR Order No. 40905.)

BUREAU OF OUTDOOR RECREATION

Final

Upper Iowa Scenic River Project, Winneshiek County, Iowa, May 28: The proposed action would initiate public acquisition of a land corridor along the Upper Iowa River. The ultimate length of the corridor will be 80 miles. The segment covered by the statement will be 28.7 river miles and 4,993.5 acres, to be acquired utilizing a 50 percent grant from the Federal Land and Water Conservation Fund. The project is intended to protect the free-flowing, scenic values of the Upper Iowa River, and to make the river available for public recreation use. Impact will include the acquisition of the land, in fee title; the possible impact of future, as yet unplanned, development; and that of the long-range acquisition of the entire 80 miles. Comments made by: HUD, EPA, USDA, DOT, DOI, state and local agencies, and concerned citizens. (ELR Order No. 40882.)

BUREAU OF SPORTS FISHERIES AND WILDLIFE

Draft

Proposed White River National Fish Hatchery, Windsor County, Vt., May 28: Proposed is the construction of a fish hatchery near Bethel. The hatchery will provide for the propagation of Atlantic Salmon, in order to help restore the species to the Connecticut River Watershed. Construction activity may temporarily increase the silt load on White River; hatchery effluent may cause odors in the immediate vicinity of the effluent treatment plant (99 pages). (ELR Order No. 40881.)

NATIONAL PARK SERVICE

Draft

Development Concept, Grand Canyon Village, Arizona, May 28: Proposed is a Development Concept Plan for the Grand Canyon National Park; a land use plan; and plans for access and circulation, and development. The plan will result in increased carrying capacity for day use due to centralization of facilities and implementation of a mass-transit system. There will be some degradation of the historic environment due to possible relocation of historic structures to a proposed historic village (138 pages). (ELR Order No. 40883.)

Proposed Master Plan, Grand Canyon Complex, Arizona, May 29: Proposed is a master plan for the use, development, interpretation, and preservation of the Grand Canyon National Park. The park would be enlarged to encompass the "Grand Canyon" entity; Grand Canyon Village would be redeveloped for concentrated, heavy, day use; the majority of park lands would be managed as natural or wilderness areas (129 pages). (ELR Order No. 40894.)

Development Plans, Cowpens National Battlefield, Cherokee County, S.C., May 28: Proposed is a development concept plan for the Cowpens National Battlefield. The battlefield would be restored; visitor facilities would be increased; a road system, parking areas, a picnic area, foot trails, a visitor center, and related facilities would be constructed. Adverse impact will result from increased visitation (88 pages). (ELR Order No. 40885.)

Final

Natural Resources Manage. Plan, Hawaii Volcanoes National Park, Hawaii, May 28: Proposed is a composite plan of biological research and the propagation of rare and endangered plant species. The plan is intended to reintroduce rare plants into former range, protect rare endemic biota from depredation by feral goats and pigs, and reestablish and nurture remnants of endemic Hawaiian ecosystems (145 pages). Comments made by: USDA, DOI, DOT, state, and local agencies and concerned citizens. (ELR Order No. 40884.)

Draft

Wilderness Proposal, Sleeping Bear Dunes National Lake, Michigan, May 28: Proposed is the legislative designation of 26,050 acres of the Sleeping Bear Dunes National Lakeshore as potential wilderness. The land would include three tracts: North and South Manitou Islands, and one tract on the mainland. There would be some impact on visitor use, research programs, resource management, culture, and the economy (65 pages). (ELR Order No. 40878.)

STATE DEPARTMENT

Draft

Third U.N. Law of the Seas Conference, May 29: The statement refers to the final negotiations within the United Nations with regard to an International Law of the Seas Treaty. Of particular concern is the orderly development and conservation of the hard mineral resources of the deep seabed beyond the limits of national jurisdiction. This document addresses these matters as a portion of the overall statement being developed by the Department of State. Immediate impacts are foreseen on the socio-economic levels of human affairs, and on some benthic animals; neither appears to be significant. (ELR Order No. 40903.)

TENNESSEE VALLEY AUTHORITY

Contact: Dr. Francis Gartrell, Director of Environmental Research and Development, 720 Edney Building, Chattanooga, Tennessee 37401, 615–755–2002.

Final

Bellefonte Nuclear Plant, Jackson County, Ala., May 28: The project involved is a two-unit, 2,664 MW generator name plate rated nuclear power plant, which would be constructed on a 1,500 acre tract on a peninsula of the Tennessee River, at Guntersville Lake. The plant will utilize two natural draft towers for cooling. Excess heat will be discharged to Guntersville Lake; there will be releases of minute quantities of radioactivity to the air and water; land use at the site will be changed from agricultural to industrial (2 volumes). Comments made by: AEC, EPA, FPC, USDA, DOD, DOC, HEW, HUD, DOI, DOT, and state agencies. (ELR Order No. 40870.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 7th Street SW., Washington, D.C. 20590, 202–426–4357.

FEDERAL HIGHWAY ADMINISTRATION

Draft

S.R. 500, Melbourne, Brevard County, Fla., May 29: Proposed is the reconstruction of six miles of S.R. 500 from two to four lanes. Adverse impact will include the taking of additional right-of-way, and the displacement of people; noise levels will increase. A 4(f) statement will be filed for the encroachment upon Melbourne Country Club and Babcock Park (139 pages). (ELR Order No. 40890.)

U.S. 71, Clay and Dickinson Counties, Iowa, May 29: The statement refers to the construction of U.S. 71 from U.S. 18 near Spencer to an interchange with Iowa 32 in Dickinson County. Total project length will be 16 miles. Adverse impact will include the removal of from 800 to 1,100 acres of land from agricultural production, the loss of wildlife habitat, and the displacement of families and businesses. There will be increased levels of noise and air pollution (144 pages). (ELR Order No. 40889.)

Versailles-Lexington, Woodford and Fayette Counties, Ky., May 29: The project involves the rebuilding of the Versailles-Lexington Road. The total length of the four lane reconstruction will be eight miles. Adverse impacts are the relocation of families and businesses, the removal of trees, and the degradation of water quality during construction (86 pages). (ELR Order No. 40892.)

U.S. 23, Letcher County, Ky., May 29: The statement refers to the proposed construction of U.S. 23 beginning at the Kentucky-Virginia state line and extending 2.5 miles in a northerly direction to a junction with U.S. 119 northwest of Jenkins. There will be increased noise levels and a degradation of water quality in Elkhorn Lake (86 pages). (ELR Order No. 40893.)

New Hampshire Rte. 175, Woodstock, Grafton County, N.H., May 28: The statement refers to the proposed relocation of a 1.2 mile segment of New Hampshire Route 175 in the town of Woodstock. The new two lane facility will necessitate the acquisition of 2.5 acres of land. Other adverse impacts include increased traffic noise levels, temporarily increased siltation levels in the Pemigewasset River during construction, and the loss of wildlife habitat (67 pages). (ELR Order No. 40886.)

U.S. 431, Randolph and Cleburne Counties, Ala., May 29: The statement refers to the proposed improvement of U.S. 431 from Wedowee to near the south end of the Tallapoosa River Bridge. The length of the proposed project is about 16.7 miles. There are two alternative locations. Adverse impacts are the acquisition of several acres of land for right-of-way; the displacement of several families and one business; some erosion and water pollution; increases in air and noise pollution; and the destruction of some wildlife habitat (20 pages). (ELR Order No. 40896.)

FAS Route 1197, Bourbon County, Kans., May 29: The project involves the improvement of approximately 1.36 miles of FAS Route 1197, including a bridge and channel change. The use of 28 acres of land (mostly agricultural) will be necessary. There will be increased air and noise pollution during construction (18 pages). (ELR Order No. 40897.)

Route 50, Cole County, Mo., May 29: The statement refers to the proposed construction of Route 50 in Cole County. The 6 mile project consists of acquiring right-of-way for a 4 lane divided highway including a diamond, a modified diamond and a loop interchange. Adverse impacts are the use of 240 acres of land, and the removal of 7 houses, 1 commercial building, 1 trailer and 3 sheds (10 pages). (ELR Order No. 40902.)

Pedestrian Overpasses, Omaha, Douglas County, Nebr., May 29: The project involves the construction of pedestrian overpasses over two Omaha City streets. The overpasses will be located at Foutenelle Boulevard at Maple Street and Center Street at 32nd Avenue. Adverse impacts are the acquisition of right-of-way at the Center Street at 32nd Avenue location, and negative impacts normally associated with construction (23 pages). (ELR Order No. 40899.)

Final

I–65—County Road 17 Interchange, Shelby County, Ala., May 28: The statement refers to the construction of an interchange at I–65–2(31) and County Road 17. Land will be taken for right-of-way, and sixteen families will be displaced. The interchange is expected to spur regional and community growth (55 pages). Comments made by: HUD, EPA, HEW, USDA, DOT, and state agencies. (ELR Order No. 40879.)

TREASURY DEPARTMENT

Contact: Mr. Richard E. Slitor, Assistant Director, Office of Tax Analysis, Room 4205, Washington, D.C. 20220, 202–964–2797.

Final

New United States Mint, Denver, Colo., May 28: The statement refers to the proposed construction of a new United States Mint in Denver. The facility will include High-bay, one story buildings and multi-story support/administration buildings, parking areas, vehicle maneuvering areas, and landscaping. Total gross building space will be 700,000 sq. ft. Two sites are presently under consideration, the northwest corner of the Park Hill Golf Course in Denver; and the northwest corner of the Denver Federal Center in Lakewood. There will be construction disruption, and impact from vehicular traffic (144 pages). Comments made by: EPA, USDA, COE, HEW, HUD, DOI, DOT,

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN COLOMBIA

Reallocation of Ex-Quota Amounts

June 4, 1974.

On April 24, 1974, there was published in the Federal Register (39 FR 14537) a letter dated April 22, 1974, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs directing that five million square yards of ex-quota cotton fabrics, requested by the Government of Colombia pursuant to the U.S. Government's ad hoc offer of October 30, 1973, to its cotton textile bilateral agreement partners, be reallocated among Categories 5/6, 9, 16, 22/23, 26 (duck) and 26 (other than duck).

In a letter dated May 16, 1974, the Government of Colombia requested, and the United States Government has acceded to the request, that the aforementioned five million square yards again be reallocated among the indicated six categories, as follows:

Country	Category	Second reallocation of ex-quota amounts (square yards)
Colombia	5/6	160,000
	9	300,000
	16	50,000
	22/23	2,250,000
	26 (duck)	350,000
	26 (other than duck)	1,890,000

Accordingly, there is published below a letter of June 4, 1974, from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs amending the directive of April 22, 1974.

Seth M. Bodner,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

Commissioner of Customs,
Department of the Treasury
Washington, D.C. 20229

June 4, 1974.

Dear Mr. Commissioner:

This directive amends but does not cancel the directive issued to you on April 22, 1974 by the Chairman of the Committee for the Implementation of Textile Agreements, pursuant to the offer by the United States Government to all of its bilateral cotton textile agreement partners to export on a one-time basis additional quantities of cotton yarn and/or fabric.

In accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to reallocate the five million square yards of ex-quota cotton textile fabrics requested by the Government of Colombia among the following categories:

Category:	*Reallocation of Exquota amounts*
5–27 (as a group)—square yards	5,000,000
5/6 ...do	160,000
9 ...do	300,000
16 ...do	50,000
22/23 ...do	2,250,000
26 (duck)[1] ...do	350,000
26 (other than duck)[2] ...do	1,890,000

[1] The T.S.U.S.A. numbers for duck fabric are:

320.—01 through 04,06,08
321.—01 through 04,06,08
322.—01 through 04,06,08
326.—01 through 04,06,08
327.—01 through 04,06,08
328.—01 through 04,06,08

[2] All T.S.U.S.A. numbers in Category 26 other than those indicated in footnote 1.

The actions taken with respect to the Government of Colombia and with respect to imports of cotton textile products from Colombia have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs being necessary to the implementation of such actions fall within the foreign affairs exception to the rulemaking provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Seth M. Bodner,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

DELAWARE RIVER BASIN COMMISSION

BRISTOL OIL CORP.

Docking and Storage Facility Environmental Statement

The Delaware River Basin Commission, in compliance with the National Environmental Policy Act of 1969 (Pub. L. 91–190) requiring Federal agencies consider the probable environmental consequences of any major Federal action, has determined that for the following proposed action the Commission is the "lead agency" and will prepare an environmental impact statement as required by law. The determination is based upon an environmental assessment by Commission staff of the proposed action.

Bristol Oil Corporation proposes to construct a docking facility for berthing ocean going tankers, fuel storage terminal and a new chemical storage facility on Rohm and Haas property abutting the Delaware River at Otter Creek in Bristol Township, Bucks County, Pennsylvania. The docking facility is proposed to handle delivery from 37 tankers per year and 100 oil barges per year receiving fuel oil. The oil storage capacity proposed is 1,000,000 barrels of No. 6 and utility grade turbine fuel oil. The proposed chemical tanks will hold up to 6,000,000 gallons of methyl, methacrylate, ethyl acrylate, and butyl acrylate, all raw materials used by the existing Rohm and Haas plant. There is proposed a 15,000 foot long 10 inch pipe to carry No. 6 fuel to the Croyden electric generating station south of the site.

A draft environmental impact statement will be prepared and made available to the public for review and comment as soon as practicable. Notification of its availability will be via the Federal Register, local newspapers and normal Commission mailings.

The Commission would appreciate immediate knowledge of any other Federal agency presently engaged in the preparation of a statement on this proposed action or related action to avoid duplication.

A copy of the applicant's Environmental Report is available for use in the Commission's library by anyone interested in reviewing the project.

Those agencies, organizations and persons interested in receiving the draft environmental impact statement for this proposed action should advise the Commission's Environmental Unit.

Dated: June 7, 1974.

W. Brinton Whitall,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

ALTERNATIVE WASTE TREATMENT MANAGEMENT TECHNIQUES

Extension of Time for Comments

Pursuant to section 304(d)(2) of the Federal Water Pollution Control Act Amendments of 1972 (Pub. L. 92–500), the Environmental Protection Agency (EPA) gave notice on March 25, 1974 of the availability of a report entitled "Alternative Waste Management Techniques for Best Practicable Waste Treatment" which provided for public comment through May 9, 1974 (39 FR 11135). On May 2, 1974, the Environmental Protection Agency (EPA) gave notice of an extension of time for public comment through June 10, 1974 (39 FR 15351). It has been determined that a further extension of time for public comment is necessary.

Therefore, the last sentence of the March 25, 1974 notice (39 FR 11135), which reads "Comments may be submitted on or before June 10, 1974" (as revised on May 2, 1974) is hereby revised to read "Comments may be submitted on or before July 1, 1974."

James L. Agee,
Acting Assistant Administrator for Water and Hazardous Materials.

NATIONAL AIR QUALITY CRITERIA ADVISORY COMMITTEE OF THE SCIENCE ADVISORY BOARD

Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given that a meeting of the National Air Quality Criteria Advisory Committee of the Science Advisory Board will be held at 9 a.m. on June 27, 1974 in Conference Room A (Room 1112), Crystal Mall Building No. 1921 Jefferson Davis Highway, Arlington, Virginia.

The purpose of the meeting will be to consult the committee regarding (1) the determination and documentation of adverse effects on the public health and welfare of the following environmental pollutants: (a) Chromium, and (b) lead from stationary sources, and (2) on working guidelines for the preparation of summary evaluative reports on pollutants. The agenda will also include brief overview reports and discussions on (3) recent research findings on the health implications of airborn lead, (4) current regulations regarding the control of lead additives in gasoline and the air quality implications of these regulations, and (5) health implications of environmental controls and particularly the impact of mobile emissions controls.

The meeting will be open to the public. Any member of the public wishing to attend or submit a paper should contact the Executive Secretary, Mr. Ernst Linde, Scientist Administrator, National Environmental Research Center, Environmental Protection Agency, Research Triangle Park, North Carolina 27711.

The telephone number is (919) 549-8411, extension 2266.

Albert C. Trakowski, Jr.,
Acting Assistant Administrator for Research and Development.

June 3, 1974.

FEDERAL POWER COMMISSION

[Docket Nos. RP71–7 and RP73–77]

ALABAMA-TENNESSEE NATURAL GAS CO.

Proposed PGA Rate Adjustment

May 30, 1974.

Take notice that on May 21, 1974, Alabama-Tennessee Natural Gas Company (Alabama-Tennessee) tendered for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, Third Revised Sheet No. 3–A and, in the alternative, Substitute Third Revised Sheet No. 3–A, superseding Second Revised Sheet No. 3–A.

Alabama-Tennessee states that the sole purpose of these revised tariff sheets is to adjust Alabama-Tennessee's rates pursuant to the PGA provisions of section 20 of the General Terms and Conditions of its tariff to reflect the increase of 4.04 cents per Mcf filed by its sole supplier Tennessee Gas Pipeline Company or, in the alternative, the alternative increase of 3.78 cents per Mcf also filed by Tennessee Gas Pipeline Company.

Alabama-Tennessee states that copies of the filings have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 12, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

[FR Doc.74–13074 Filed 6–6–74;8:45 am]

[Docket No. CI74–612]

COLUMBIA GAS DEVELOPMENT CORP.

Notice of Application; Corrections

May 30, 1974.

In the notice of application pursuant to § 2.75 of the Commission's general policy and interpretations issued May 16, 1974 and published in the Federal Register May 23, 1974, 39 FR 18138, Page 18138, Paragraph 1, line 13, please change "257" to "267".

Kenneth F. Plumb,
Secretary.

[FR Doc.74–13070 Filed 6–6–74;8:45 am]

[Docket No. E–8744]

DELMARVA POWER & LIGHT CO.

Extension of Time for Filing

May 30, 1974.

On April 22, 1974, Delmarva Power & Light Company (Delmarva) tendered for filing a proposed change in rates to track the Delaware Five Percent Utilities Tax which became effective January 1, 1974. On May 15, 1974, City of Dover filed a petition to intervene, formal protest and request for suspension of filed tariffs.

On May 28, Delmarva filed a motion to extend the time for filing an answer to Dover's petition to intervene "15 days after the Commission has determined whether such Petition shall be accepted and an answer thereto required".

Upon consideration, notice is hereby given that Delmarva is granted 15 days from the date of issuance of this notice to file its answer to Dover's petition to intervene.

It is noted that the proper means to seek review of a Commission order acting upon Dover's petition to intervene is the filing of an application for rehearing pursuant to § 1.34 of the Commission's rules of practice and procedure.

Kenneth F. Plumb,
Secretary.

[FR Doc.74–13066 Filed 6–6–74;8:45 am]

[Docket No. CI74–651]

EMERALD PETROLEUM CORP. (OPERATOR), ET AL.

Notice of Application

May 30, 1974.

Take notice that on May 10, 1974, Emerald Petroleum Corporation (Operator), et al. (Applicant), P.O. Box 51325, Lafayette, Louisiana 70501, filed in Docket No. CI74–651 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale in interstate commerce to Southern Natural Gas Company (Southern) from the Bayou Pigeon Field, Iberia Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 45,000 Mcf of gas per month to Southern from the subject acreage at 45.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment, for one year within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

Any person desiring to be heard or to make any protest with reference to said application should on or before June 17, 1974 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[Docket No. RP74-73]

TENNESSEE GAS PIPELINE CO.

Order Denying Application for Rehearing and Rejecting Revised Tariff Sheets

MAY 30, 1974.

On April 30, 1974, as supplemented on May 10, 1974, Tennessee Gas Pipeline Company filed an application for rehearing of the Commission's order of April 10, 1974, rejecting Tennessee's proposed research and development rate adjustment provision. Tennessee also submitted with its application for rehearing a revised R&D provision designed to overcome, in part, the Commission's objections to the originally-filed R&D provision.

In its order of April 10, 1974, the Commission found that Tennessee's proposed R&D provision did not comply with the requirements of Order No. 483 and the provisions of § 154.38(d)(5) of the regulations promulgated under Order 483, in the following three respects:

(1) The proposed R&D adjustment provision provided that all amounts received from others in payment for rights and benefits received from R&D expenditures in account 188 should be credited to account 188 "up to the amount of such expenditures previously charged thereto." The Commission rejected this proposed limitation on the credits to account 188.

(2) The Commission found that § 2.4 of Tennessee's proposed R&D adjustment provision was overly complex, unnecessary, and would result in the possible duplication of R&D expenditures to be recouped under other sections of the adjustment provision.

(3) The Commission found that Tennessee's proposed use of the rate of return claimed by Tennessee in any pending rate proceeding, subject to refund, in determining the rate effect of capitalized R&D expenditures, was contrary to the terms of Order No. 483.

In its revised R&D provision, Tennessee would eliminate the limitation set forth in item (1) above, and would clarify the language of § 2.4 of the adjustment provision. In all other respects the revised R&D provision is essentially identical to that originally filed.

In its application for rehearing Tennessee argues that the proposed amortization of capitalized R&D costs under § 2.4 is consistent with the Commission's governing Order No. 483. Tennessee further argues that a similar provision was approved by the Commission in a recent settlement order involving Northern Natural Gas Company.[1]

We fully agree with Tennessee that amortization of capitalized R&D costs should be and is permitted. However § 2.4 is not necessary for this purpose. Any rate adjustments required as a result of amortization of capitalized R&D costs may be made by Tennessee under § 2.3 of the adjustment provision. Section 2.3 contemplates rate adjustments based on R&D costs chargeable to operations. These costs include capitalized R&D costs being amortized. Reference is made to Commission Order No. 504 (Mimeo p. 67), which specifies that amortized amounts are charged to the "appropriate operating expense account". The amortized amounts are thereby charged to operations within the meaning of Order No. 483 (mimeo p. 21), and of § 2.3 of Tennessee's R&D rate adjustment provision. It follows that proposed § 2.4 is unnecessary and should be rejected, and that Tennessee's application for rehearing on this issue should be denied.

It is true that a rate adjustment provision for amortized R&D costs was approved in the Northern Natural settlement. However, the settlement terms did not provide for any rate adjustment to track R&D costs chargeable to operations. Under these circumstances, a separate provision for tracking amortized amounts was justified. It follows that the Northern Natural case is of no precedential value in this instance.

Tennessee further relies on Northern Natural in support of its request to use "the rate of return claimed in its filing in any pending rate proceeding", subject to refund, in determining the amount of return for capitalized R&D costs. Order 483 requires that the rate of return used shall be that "last allowed by the Commission * * *".

We do not think the Northern Natural case justifies approval of Tennessee's claimed rate of return provision. The settlement in Northern Natural was negotiated and submitted prior to the issuance of Order No. 483. Northern Natural's R&D tracker did not become a part of its FPC tariff, as contemplated by Order 483, and by Tennessee herein. One of the objectives of providing for automatic tariff-based rate adjustments is to eliminate the contingencies which normally attach to rate increase applications, whereby the proposed rates are permitted to go into effect subject to refund after final rate determination. For the above reasons, we decline to adopt the Northern Natural settlement as a precedent for judging the justness and reasonableness of tariff R&D rate adjustment provisions pursuant to Order 483.

For the reasons stated above, Tennessee's application for rehearing should be denied, and Tennessee's revised R&D rate adjustment provision, as supplemented, should be rejected.

The Commission orders. (A) Tennessee's application for rehearing of the Commission's order issued in this docket on April 10, 1974, is denied.

(B) Tennessee's revised R&D rate adjustment provision, as supplemented, is rejected.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13073 Filed 6-6-74;8:45 am]

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (74-34)]

NASA SPACE PROGRAM ADVISORY COUNCIL

Notice of Meeting

The NASA Space Program Advisory Council will meet on July 2 and 3, 1974, in Room 7002, Federal Office Building 6, 400 Maryland Avenue, SW., Washington, D.C. The meeting is open to the public from 8:45 a.m. to 4:00 p.m. on July 2, 1974, and from 10:30 a.m. to Noon on July 3, 1974. The seating capacity of the room is about 40 persons, including Council members and other participants. Visitors will be requested to sign a visitor's register.

The NASA Space Program Advisory Council was established as an interdisciplinary group to advise NASA senior management with respect to the plans for, the work in progress on, and the accomplishments of NASA's space programs. The Council is concerned with the disciplines appropriate to Physical Sciences, Life Sciences, Space Applications, and Space Systems, as they bear on space programs. The Chairman of the Council is Dr. Frederick Seitz. There are currently twelve members on the Council and additional members on four committees which report to the Council. The following list sets forth the approved agenda and schedule for the meeting. For further information contact the Executive Secretary, Mr. Nathaniel B. Cohen, Area Code 202, 755-8433.

ITEM, TIME, AND TOPIC

Tuesday, July 2

1. 8:45 a.m., *Chairman's opening remarks.* a. Membership of the Space Program Advisory Council has been enlarged to provide greater breadth of representation. The new members will be introduced.

b. The Chairman will brief the Council on the progress made in establishing a SPAC Subcommittee on Scientist-Astronauts and initiating the study on that subject.

2. 9 a.m., *NASA reorganization and FY 1976 budget preview.* The recent NASA Headquarters reorganization will be described for the information of the Council. The status of planning for the Fiscal Year 1976 NASA budget and the major issues likely to be faced will be presented.

3. 10 a.m., *Status of NASA's Long Range Planning.* A summary of the status of NASA's long range planning and possible future planning efforts will be presented to the Council.

4. 11 a.m., *Participation of Universities in NASA Program.* The Council will be briefed on the status of NASA/University Programs and on plans for future NASA support of relevant university research.

12 noon, *Lunch.*

5. 1:30 p.m., *Committee Chairmen's Reports.* Time is provided for the Chairman of the SPAC Committees to report on the activities of their respective committees.

6. 3 p.m., *Low Cost Systems Program Report.* The program of the Low Cost Systems Office, aimed at reducing significantly the cost of developing and operating space systems, will be described to the Council.

4 p.m., *Adjourn.*

Wednesday, July 3

7. 9 a.m., *Executive Session.* This executive session of the Council will involve a critique of NASA programs, their implementation, and overall NASA objectives, as they may be affected by the recent NASA reorganization. Discussion of these topics will require frequent references to and comment on the professional qualifications of individuals working on NASA programs. Because discussion of these matters may invade the personal privacy of the individuals involved, the session will be closed pursuant to 5 U.S.C. 552(b)(6).

8. 10:30 a.m., *Review of Space Shuttle and Spacelab Programs.* A review of the status of and continued planning for the Space Shuttle and Spacelab Programs will be provided to the Council.

Noon, *Adjourn.*

BOYD C. MYERS II,
Assistant Associate Administrator for Organization and Management, National Aeronautics and Space Administration.

JUNE 3, 1974.

WAGE COMMITTEE

Notice of Meeting

Pursuant to the provisions of Section 10 of the Federal Advisory Committee Act (Pub. L. 92-463), notice is hereby given that a meeting of the National Aeronautics and Space Administration Wage Committee will be held on June 24, 1974.

The meeting will convene at 10 a.m. and will be held in Room 521M, 600 Independence Avenue, Washington, D.C. 20546.

The Committee's primary responsibility is to consider and make recommendations to the Director of Personnel, National Aeronautics and Space Administration, on all matters involved in the development and authorization of a wage schedule for the Cleveland, Ohio Wage Area pursuant to Pub. L. 92-392.

The approved agenda of the Committee provides that it will consider wage survey data, local reports, recommendations, and statistical analyses, and a proposed wage schedule derived therefrom.

Under the provisions of section 10(d) of Pub. L. 92-463 and 5 U.S.C. 552(b)(4) the Assistant Associate Administrator for Organization and Management, National Aeronautics and Space Administration, has determined that this meeting will be closed to the public.

Members of the public who may wish to do so are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the Committee's attention. Additional information concerning this meeting may be obtained by contacting the Chairman, National Aeronautics and Space Administration Wage Committee, Mail Stop 3-9, Lewis Research Center, National Aeronautics and Space Administration, 21000 Brookpark Road, Cleveland, OH 44135.

BOYD C. MYERS II,
Assistant Associate Administrator for Organization and Management, National Aeronautics and Space Administration.

MAY 31, 1974.

NATIONAL SCIENCE FOUNDATION

SCIENCE ADVISER AND INDUSTRY REPRESENTATIVES

Notice of Meeting

In order to improve channels of communication with members of the academic and industrial communities who are actively involved with science and technology, the Science Adviser and members of his Science and Technology Policy Office hold informal discussions from time to time and various representatives of these communities to discuss issues of mutual interest. While these ad hoc informal discussions with the Science Adviser are not considered to be meetings of "advisory committees" as that term is defined in section 3 of the Federal Advisory Committee Act (Pub. L. 92-436), these sessions are believed to be of sufficient importance and interest to the general public to have them opened for public attendance and observation.

A meeting of various industry representatives with the Science Adviser and members of his Science and Technology Policy Office is scheduled to be held on Tuesday, June 18, 1974 in the Board Room of the National Science Foundation, Room 540, at 1800 G Street, NW., Washington, D.C. 20550. The meeting will begin at 9 a.m. and will conclude no later than 4 p.m. The subject matters for discussion include:

(1) Government policies with respect to IR&D (independent research and development) and B&P (bid and proposal).
(2) Potential barriers to industry exploitation of foreign markets such as patents, export controls and R&D cost recoupment.
(3) Industry-university relationships.

Members of the public are invited to observe this meeting. Space will be available on a first-come, first-served basis. Public participation is limited to questions or statements submitted to the Chairman in writing or to such oral presentations as the Chairman may permit within available time. Persons wishing to attend such meetings are requested to either write or phone Mr. James E. Carpenter, Science and Technology Policy Office, National Science Foundation, 1800 G Street, NW., Washington, D.C. 20550, telephone 202/632-9495.

Dated: June 4, 1974.

H. GUYFORD STEVER,
Science Adviser.

(3) Assistant District Directors for Finance & Investment, $350,000.
(4) Chief, Financing Division, $350,000.
(5) Branch Managers, $100,000.

4. *Handicapped Assistance Loans.* To approve or decline Handicapped Assistance Loans not exceeding following amounts (SBA share):

a. Assistant Regional Director for Finance & Investment, $350,000.
b. District Directors, $350,000.
c. Assistant District Directors for Finance & Investment, $350,000.
d. Chief, Financing Division, $350,000.
e. Supervisory Loan Officers, $100,000.
f. Branch Managers, $100,000.

SEC. B. *Other Financing Authority*—1. a. *Loan Participation Agreements.* To enter into business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, strategic arms limitation economic injury, and handicapped assistance loan participation agreements with banks:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Director for Finance & Investment.
(4) Chief, Financing Division.
(5) Supervisory Loan Officers.
(6) Branch Managers.

b. To enter into blanket loan guarantee agreements with banks:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Financing Division.
(5) Supervisory Loan Officers.
(6) Branch Managers.

2. To execute loan authorizations for loans approved by higher authority and for loans personally approved under delegated authority:

a. Assistant Regional Director for Finance & Investment.
b. District Directors.
c. Assistant District Directors for Finance & Investment.
d. Chief, Financing Division.
e. Supervisory Loan Officers.
f. Branch Managers.

3. To cancel, reinstate, modify, and amend authorizations:

a. For business, economic opportunity, disaster, displaced business, consumer

V39—111 JUN 7 74 XUM

protection (meat, egg, poultry), occupational safety and health loans, coal mine health and safety loans, strategic arms limitation economic injury, and handicapped assistance loans:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Financing Division.
(5) Chief, Portfolio Management Division.

b. For fully undisbursed or partially disbursed business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health, strategic arms limitation, economic injury, coal mine health and safety loans, and handicapped assistance loans:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Financing Division.
(5) Chief, Portfolio Management Division.

c. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, strategic arms limitation economic injury, occupational safety and health loans, and handicapped assistance loans personally approved under delegated authority:

(1) Chief, Financing Division.
(2) Supervisory Loan Officers.
(3) Branch Managers.

4. To approve minor modifications in fully undisbursed loan authorization;

a. District Loan Officers.
b. Branch Loan Officers.

5. a. To extend the disbursement period on all loan authorizations:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Financing Division.
(5) Chief, Portfolio Management Division.
(6) Branch Managers.

b. To extend the disbursement period on all loan authorizations on loans fully undisbursed:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Financing Division.
(5) Branch Managers.

6. To approve service charges by participating banks not to exceed 2 percent per annum on the outstanding principal balance of construction loans and loans involving accounts receivable and inventory financing:

a. Assistant Regional Director for Finance & Investment.
b. District Directors.
c. Assistant District Directors for Finance & Investment.
d. Chief, Financing Division.
e. Chief, Portfolio Management Division.
f. Branch Managers.

PART II—DISASTER PROGRAM

SECTION A. *Disaster Loan Authority.* 1. To decline direct disaster and immediate participation disaster loans in any amount and to approve such loans up to the total SBA funds of (1) $50,000 per household for repairs or replacement of the home and/or not to exceed an additional $10,000 allowable for household goods and personal items, but in no event may the money loaned for physical loss or damage exceed $55,000 for a single disaster on home loans, except for funds to refinance prior liens or mortgages, which may be approved in addition to the foregoing limits for amounts up to $50,000; and (2) $500,000 on disaster business loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, strategic arms limitation economic injury, and economic injury disaster loans, in connection with declarations made by the Secretary of Agriculture for natural disasters) except to the extent of refinancing of a previous SBA disaster loan:

a. Assistant Regional Director for Finance & Investment.
b. District Directors.
c. Assistant District Directors for Finance & Investment.
d. Chief, Financing Division.
e. Branch Managers.
f. Disaster Branch Managers.

2. To decline direct disaster and immediate participation disaster loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, strategic arms limitation economic injury, and economic injury disaster loans in connection with declarations made by Secretary of Agriculture for natural disasters) in any amount and to approve such loans up to the total SBA funds of $50,000:

Not applicable.

3. To decline disaster guaranteed loans in any amount and to approve such loans up to an SBA guarantee of the following amounts:

a. Assistant Regional Director for Finance & Investment, $1,000,000.
b. District Directors, $500,000.
c. Assistant District Directors for Finance & Investment, $500,000.
d. Chief, Financing Division, $500,000.
e. Branch Managers, $500,000.
f. Disaster Branch Manager, $500,000.

4. To appoint as a processing representative any bank in the disaster area:

a. Assistant Regional Director for Finance & Investment.
b. District Directors.
c. Assistant District Directors for Finance & Investment.
d. Branch Managers.

SEC. B. *Administrative Authority*—1. *Establishment and Closing of Disaster Field Offices.* (a) To establish field offices upon receipt of advice of the designation of a disaster area and to close disaster field offices when no longer advisable to maintain such offices; and (b) to obligate the Small Business Administration to reimburse the General Services Administration for the rental of temporary office space.

a. Assistant Regional Director for Administration.
b. District Directors.

2. *Purchase and Contract Authority.* a. To contract for local credit bureau services and loss verification services pursuant to chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that chapter.

(1) Assistant Regional Director for Administration.
(2) District Directors.

b. To purchase office supplies and equipment, including office machines and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that chapter.

(1) Assistant Regional Director for Administration.
(2) District Directors.
(3) Disaster Branch Managers.

PART III—COMMUNITY ECONOMIC DEVELOPMENT (CED) PROGRAM

SECTION A.—*Section 501 and 502 Loan Approval Authority.* 1. To approve or decline section 501 state development company loans:

a. Without dollar limitation:

Not applicable.

b. Up to the following amounts (SBA share): *Provided,* The official concurs in at least one prior recommendation:

(1) Assistant Regional Director for Finance & Investment, $350,000.
(2) District Directors, $350,000.
(3) Assistant District Directors for Finance & Investment, $350,000.

2. To approve or decline section 502 local development company loans:

a. Up to the following amount (SBA share):

(1) Assistant Regional Director for Finance & Investment, $350,000.
(2) District Directors, $350,000.
(3) Assistant District Directors for Finance & Investment, $350,000.

b. Up to the following amount (SBA share) when project cost does not exceed $1,000,000. *Provided,* The official concurs in at least one prior recommendation:

Not applicable.

c. Up to the following amount (SBA share) when project cost does not to exceed $700,000: *Provided,* The official concurs in an least one prior recommendation:

Not applicable.

SEC. B. *Other 501 and 502 Authority.* 1. a. To extend the disbursement period

on sections 501 and 502 loan authorizations:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Financing Division.
(5) Chief, Portfolio Management Division.
(6) Branch Managers.

b. To extend the disbursement period on fully undisbursed sections 501 and 502 loans:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Financing Division.
(5) Branch Managers.

2. a. To execute sections 501 and 502 loan authorizations for loans approved by higher authority and for loans personally approved under delegated authority:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Financing Division.

3. a. To cancel, reinstate, modify, and amend authorizations for sections 501 and 502 loans:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Financing Division.
(5) Chief, Portfolio Management Division.
(6) Branch Managers.

b. To cancel, reinstate, modify, and amend authorizations for fully undisbursed or partially disbursed sections 501 and 502 loans:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Financing Division.
(5) Chief, Portfolio Management Division.
(6) Branch Managers.

4. To enter into section 502 loan participation agreements with banks:

a. Assistant Regional Director for Finance & Investment.
b. District Directors.
c. Assistant District Directors for Finance & Investment.
d. Chief, Financing Division.
e. Branch Managers.

SEC. C. *Lease guarantee approval authority.* 1. To approve or decline applications for the direct guarantee of payment of rent not to exceed the following amounts:

a. Assistant Regional Director for Finance & Investment, $1,000,000.
b. District Directors, $500,000.
c. Assistant District Directors for Finance & Investment, $500,000.
d. Regional Office Economic Development Specialist, $500,000.

2. To guarantee sureties of small businesses against portions of losses resulting from the breach of bid, payment, or performance bonds on contracts not to exceed $500,000:

a. Assistant Regional Director for Finance & Investment.
b. Regional Office Economic Development Specialist.

SEC. D. *Other lease guarantee authority.* 1. To issue and modify commitment letters:

a. Assistant Regional Director for Finance & Investment.
b. District Directors.
c. Assistant District Directors for Finance & Investment.
d. Regional Office Economic Development Specialist.
e. Branch Managers.

SEC. E. *EDA Loan Disbursement Authority.* 1. To disburse approved EDA loans, as authorized:

Not applicable.

PART IV—PORTFOLIO MANAGEMENT (PM) PROGRAM

SECTION A.—*Portfolio management, servicing, collections and liquidation authority.* 1. To take all necessary actions in connection with the administration, servicing, collection, and liquidation of all loans, exclusive of matters in litigation, and to do and perform and to assent to the doing and performance of, and all and every act and thing requisite and proper to effectuate the granted powers, including without limiting the generality of the foregoing, the assignment, endorsement, transfer, and delivery (but in all cases without representation, recourse, or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator; the execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, release (in whole or part) of liens, satisfaction pieces, affidavits, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing; the approval of bank applications for use of liquidity privilege under the loan guaranty plan; and to advertise regarding the public sale of collateral in connection with the liquidation of loans, and acquired property:

a. Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Portfolio Management Division.
(5) Branch Managers, Springfield, Illinois; Milwaukee, Wisconsin; Cincinnati, Ohio.

b. Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan; and the cancellation of authority to liquidate:

(1) Supervisory Loan Officers.
(2) Branch Manager, Marquette, Michigan.

c. Except: To compromise or sell any primary obligation or other evidence or indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan other than a disaster home loan and the cancellation of authority to liquidate any loan other than a disaster home loan.

Not applicable.

2. To contract for the services of fee appraisers, engineering, marketing and feasibility studies, and other required services, in conjunction with loan processing, servicing, and loan liquidation:

a. Assistant Regional Director for Finance & Investment.
b. District Directors.
c. Assistant District Directors for Finance & Investment.
d. Chief, Portfolio Management Division.
e. Branch Managers (except Marquette, Michigan).

3. To take all necessary action in liquidating Economic Development Administration (EDA) loans, exclusive of matters in litigation, and acquired collateral, when and as authorized by EDA:

a. Assistant Regional Director for Finance & Investment.
b. District Directors.
c. Assistant District Directors for Finance & Investment.
d. Chief, Portfolio Management Division.

SEC. B. *Portfolio management, servicing, collection and liquidation authority.* 1. To take all necessary actions in connection with the administration, servicing, and collection of all loans, other than those accounts classified as "in liquidation," and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, including without limiting the generality of the foregoing, the assignment, endorsement, transfer and delivery (but in all cases without representation,

V39—111 JUN 7 74 XUM

recourse, or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator; the execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing; and the approval of bank applications for use of liquidity privilege under the loan guaranty plan:

a. Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan; and the cancellation of authority to liquidate.

Not applicable.

2. To approve the following actions:

a. Use of such portions of the cash surrender value of assigned life insurance as are required to pay premiums due to the policy.

b. Release of dividends on assigned life insurance or consent to application of dividends against premiums due or to become due.

c. Minor modifications in the authorizations.

d. Extension of disbursement period on loans partially undisbursed.

e. Extension of initial principal payments.

f. Adjustment of interest payment dates.

g. Release of hazard insurance checks not in excess of $500 and endorsement of such checks on behalf of the Agency where SBA is named as joint loss payee.

h. Release of equipment with or without consideration where the value of equipment being released does not exceed $500:

(1) Concerning all current direct and participation loans and First Mortgage Plan 502 loans:

(a) District Loan Officers.
(b) Branch Loan Officers.

(2) Concerning all direct and participation loans:

Not applicable.

SEC. C.—*Lease guarantee administration and servicing authority.* 1. a. To service claims arising under all lease insurance policies issued in the region, approving the payment, or recommending denial of such claims:

(1) Assistant Regional Director for Finance & Investment.

b. To service claims arising under all lease insurance policies issued in the district, approving the payment, or recommending denial of such claims:

(1) District Directors.
(2) Assistant District Directors for Finance & Investment.
(3) Chief, Portfolio Management Division.

c. To service claims arising under all lease insurance policies issued in the branch office area, approving the payment or recommending denial of such claims:

(1) Branch Managers.

2. To take all actions necessary to mitigate losses from lease guarantees:

a. Assistant Regional Director for Finance & Investment.
b. District Directors.
c. Assistant District Directors for Finance & Investment.
d. Chief, Portfolio Management Division.
e. Branch Managers.

PART V—PROCUREMENT ASSISTANCE

SECTION A.—*Certificate of competency approval authority.* 1. With the exception of re-referred cases, to approve applications for Certificates of Competency up to but not exceeding $250,000 bid value received from small business concerns located within the geographical jurisdiction of the following:

a. Assistant Regional Director for Procurement Assistance.

2. To deny an application for a Certificate of Competency when an adverse determination as to capacity or credit is concurred in:

a. Assistant Regional Director for Procurement Assistance.

SEC. B. *Section 8(a) contracting authority.* 1. To enter into contracts, on behalf of the Small Business Administration, with the U.S. Government and any department, agency, or officer thereof having procurement powers, obligating the Small Business Administration to furnish articles, equipment, supplies, or materials to the Government and agreeing as to the terms and conditions of such contracts:

a. Assistant Regional Director for Procurement Assistance.

2. To arrange for the performance of such contracts by negotiating or otherwise letting subcontracts to small business concerns or others for the manufacture, supply, or assembly of such articles, equipment, supplies, or materials, or parts thereof, or servicing or processing in connection therewith, or such management services as may be necessary to enable the Small Business Administration to perform such contracts:

a. Assistant Regional Director for Procurement Assistance.

3. To certify to any officer of the Government having procurement powers that the Small Business Administration is competent to perform any specific Government procurement contract to be let by any such officer:

a. Assistant Regional Director for Procurement Assistance.

PART VI—MANAGEMENT ASSISTANCE

SECTION A.—*Section 406 contract management authority.* 1. To take all necessary actions in connection with the administration and management of contracts, executed by the Associate Administrator for Financial Assistance under the authority granted in section 406 of the Economic Opportunity Act of 1964, as amended, except changes, amendments, modifications, or termination of the original contract:

a. Assistant Regional Director for Management Assistance

PART VII—LEGAL SERVICES

SECTION A.—*Authority to conduct litigation activities.* 1. To conduct all litigation activities, including SBIC matters, as assigned, and to take all action necessary in connection with matters in litigation; and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, including without limiting the generality of the foregoing:

a. The assignment, endorsement, transfer and delivery (but in all cases without representation, recourse, or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator, as to all matters in litigation.

b. The execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing, as to all matters in litigation.

(1) Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement:

(a) Regional Counsel.
(b) District Directors.
(c) Branch Managers (except Marquette, Michigan).

(2) Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small

Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan; and the cancellation of authority to liquidate:

(a) District Counsels.

2. To conduct all litigation activities, including SBIC matters, as assigned, and to take all action necessary in connection with matters in litigation; and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, with the exception of the following, which are reserved to regional and district counsel:

a. The assignment, endorsement, transfer and delivery of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator, as to all matters in litigation.

b. The execution and delivery of contracts of sale or lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing, as to all matters in litigation:

(1) District Attorneys.
(2) Branch Attorneys (except Marquette, Michigan).

3. To take all necessary action in liquidating Economic Development Administration (EDA) loans having litigative aspects, when and as authorized by EDA:

a. Regional Counsel.
b. District Directors.
c. District Counsels.
d. District Attorneys.
e. Branch Managers (except Marquette, Michigan).
f. Branch Attorneys (except Marquette, Michigan).

SEC. B. *Loan closing authority.* 1. To close and disburse approved SBA loans and rehabilitation loans for Department of Housing and Urban Development:

a. Regional Counsel.
b. District Directors.
c. District Counsels.
d. District Attorneys.
e. Branch Managers.
f. Branch Attorneys (except Marquette, Michigan).

2. To close and disburse approved SBA loans:

a. Regional Counsel.
b. District Directors.
c. District Counsels.
d. District Attorneys.
e. Branch Managers (except Marquette, Michigan).
f. Branch Attorneys (except Marquette, Michigan).

3. To close approved EDA loans, as authorized:

a. Regional Counsel.
b. District Directors.
c. District Counsels.
d. District Attorneys.
e. Branch Managers (except Marquette, Michigan).
f. Branch Attorneys (except Marquette, Michigan).

4. To approve, when requested, in advance of disbursement, conformed copies of notes, and other closing documents; and certify to the participating bank that such documents are in compliance with the participation authorization:

a. Regional Counsel.
b. District Directors.
c. District Counsels.
d. District Attorneys.
e. Branch Managers (except Marquette, Michigan).
f. Branch Attorneys (except Marquette, Michigan).

PART VIII—ELIGIBILITY AND SIZE DETERMINATIONS

SECTION A.—*Eligibility determinations.* 1. a. In accordance with Small Business Administration standards and policies, to determine eligibility of applicants for assistance under any program of the Agency:

(1) *Except.* The SBIC and Procurement Assistance programs:

(a) Assistant Regional Director for Finance & Investment.
(b) District Directors.
(c) Assistant District Directors for Finance & Investment.
(d) Chief, Financing Division.
(e) Branch Managers.

(2) *Except.* The SBIC and Community Economic Development programs:

Not applicable.

b. In accordance with Small Business Administration standards and policies, to determine eligibility of applicants for assistance under the sections 501 and 502 programs of the Agency:

Not applicable.

c. In accordance with Small Business Administration standards and policies, to determine eligibility of applicants for assistance under the Management Assistance programs:

(1) Assistant Regional Director for Management Assistance.
(2) District Directors.
(3) Assistant District Directors for Management Assistance.
(4) Branch Managers.

SEC. B.—*Size determinations.* 1. a. To make initial size determinations within the meaning of the Small Business Size Standards Regulations, as amended, and further, to make product classification decisions, as related to all agency Financial Assistance programs:

(1) Assistant Regional Director for Finance & Investment.
(2) District Directors.
(3) Assistant District Directors for Finance & Investment.
(4) Chief, Financing Division.
(5) Branch Managers.

b. To make initial size determinations within the meaning of the Small Business Size Standards Regulations, as amended, as related to all agency Procurement Assistance programs:

(1) Assistant Regional Director for Procurement Assistance.
(2) District Directors.
(3) Branch Managers.

c. To make initial size determinations within the meaning of the Small Business Size Standards Regulations, as amended, as related to all agency Management Assistance programs:

(1) Assistant Regional Director for Management Assistance.
(2) District Directors.
(3) Assistant District Directors for Management Assistance.
(4) Branch Managers.

PART IX—ADMINISTRATIVE

SECTION A.—*Authority to purchase, rent, or contract for equipment, services, and supplies.* 1. To purchase reproductions of loan documents, chargeable to the revolving fund, requested by U.S. Attorneys in foreclosure cases:

a. Assistant Regional Director for Administration.
b. Regional Office Services Manager.
c. District Directors.
d. District Administrative Officers.
e. Branch Managers (except Marquette, Michigan).

2. *To purchase office supplies and equipment,* including office machines and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257(a) and (b) of that chapter.

a. Assistant Regional Director for Administration.
b. Regional Office Services Manager.
c. District Directors.
d. District Administrative Officers.
e. Branch Manager, Springfield, Illinois.

3. To rent motor vehicles and garage space for the storage of such vehicles when not furnished by this Administration:

a. Assistant Regional Director for Administration.
b. Regional Office Services Manager.
c. District Directors.
d. District Administrative Officers.
e. Branch Managers.
f. Disaster Branch Managers.

SEC. B. 1. Use of the Seal of the Small Business Administration. To certify true copies of any books, records, papers, or other documents on file with the Small Business Administration; to certify extracts from such materials to certify the nonexistence of records on file; and to

V39—111 JUN 7 74 XUM

cause the seal of the Small Business Administration to be affixed to all such certifications.

a. District Directors.
b. Branch Managers.

PART X—EXERCISE OF AUTHORITY BY OFFICIAL IN AN ACTING CAPACITY AND REDELEGATION

The authority delegated herein to a specific position may not be redelegated; however, such authority may be exercised by an SBA employee designated as acting in that position.

PART XI—RESCISSION OF AUTHORITY

All authority previously delegated by the Administrator to specific positions in Region V is hereby rescinded without prejudice to actions taken under all such delegations of authority prior to effective date hereof:

Effective dates: Regional Office, District Offices, and Branch Offices, except Madison District Office, October 28, 1973, Madison District Office—December 23, 1973.

Dated: May 2, 1974.

ROBERT A. DWYER,
Regional Director, Region V.

DEPARTMENT OF LABOR

Wage and Hour Division

EMPLOYMENT OF LEARNERS AT SPECIAL MINIMUM WAGES

Authorizing Certificates

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.) and Administrative Order No. 621 (36 FR 12819) the firms listed in this notice have been issued special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. For each certificate, the effective and expiration dates, number or proportion of learners and the principal product manufactured by the establishment are as indicated. Conditions on occupations, wage rates, and learning periods which are provided in certificates issued under the supplemental industry regulations cited in the captions below are as established in those regulations; such conditions in certificates not issued under the supplemental industry regulations are as listed.

The following certificates were issued under the apparel industry learner regulations (29 CFR 522.1 to 522.9, as amended and 522.20 to 522.25, as amended). The following normal labor turnover certificates authorize 10 percent of the total number of factory production workers.

Anthracite Shirt Co., Shamokin, PA; 12-1-73 to 11-30-74. (Women's blouses and men's shirts)

Charles Meyers & Co., Belleville, IL; 11-28-73 to 11-27-74. (Men's pants)

Franklin Ferguson Co., Inc., Florala, AL; 12-19-73 to 12-18-74. (Men's and boys' shirts)

Freeland Shirt Co., Inc., Freeland, PA; 11-4-73 to 11-3-74. (Men's outerwear jackets and vests)

The Hercules Trouser Co., Inc., Hillsboro, OH; 12-1-73 to 11-30-74. (Men's and boys' pants)

The Hercules Trouser Co., Inc., Manchester, OH; 12-1-73 to 11-30-74. (Men's and boys' pants)

P. Jacobson and Sons, Inc., Middlesboro, KY; 11-12-73 to 11-11-74. (Men's shirts)

Lismore Mfg. Corp., Fall River, MA; 12-1-73 to 11-30-74. (Women's and children's woven underwear and sleepwear)

Monroe Industries, Inc., Tellico Plains, TN; 12-15-73 to 12-14-74. (Men's and boys' shirts)

Salant & Salant, Paris, TN; 11-26-73 to 11-25-74. (Men's and boys' shirts)

Steele Apparel Co., Inc., Steele, MO; 11-29-73 to 11-28-74. (Women's dresses)

Warsaw Mfg. Co., Kingstree, SC; 11-29-73 to 11-28-74. (Women's slacks)

The following plant expansion certificate was issued authorizing the number of learners indicated.

J'Nelle-Cater, Inc., Shaw, MS; 11-26-73 to 5-25-74. 30 learners. (Women's, misses' and juniors' blouses)

The following certificate was issued under the glove industry learner regulations (29 CFR 522.1 to 522.9, as amended and 522.60 to 522.65, as amended.)

Jomac Products, Ind., Winnfield, LA; 11-21-73 to 5-20-74; 22 learners for plant expansion purposes. (Work gloves)

The following certificates were issued under the knitted wear industry learner regulations (29 CFR 522.1 to 522.9, as amended and 522.30 to 522.35, as amended).

Barad & Co., Rolla, MO; 12-17-73 to 12-16-74; 5 percent of the total number of factory production workers for normal labor turnover purposes. (Women's sleepwear)

Lismore Mfg. Corp., Fall River, MA; 12-1-73 to 11-30-74; 5 percent of the total number of factory production workers engaged in the production of women's and children's knitted underwear and sleepwear for normal labor turnover purposes. Women's and children's knit underwear and sleepwear)

The following learner certificates were issued in Puerto Rico to the companies hereinafter named. The effective and expiration dates, learner rates, occupations, learning periods and the number of learners authorized to be employed, are indicated.

C. T. P. Division—General Cigar Co., Inc., Caguas, PR; 10-23-73 to 10-22-74; 10 learners for normal labor turnover purposes in the occupation of machine stripping, for a learning period of 160 hours at the rate of $1.38 an hour. (Tobacco)

R. B. Tobacco Corp., Caguas, PR; 10-27-73 to 10-26-74; 10 learners for normal labor turnover purposes in the occupation of machine stripping, for a learning period of 160 hours at the rate of $1.38 an hour. (Tobacco)

Each learner certificate has been issued upon the representations of the employer which, among other things, were that employment of learners at special minimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificate may be annulled or withdrawn, as indicated therein, in the manner provided in 29 CFR, Part 528. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before June 24, 1974.

Signed at Washington, D.C. this 31st day of May 1974.

ARTHUR H. KORN,
Authorized Representative of the Administrator.

INTERSTATE COMMERCE COMMISSION

Office of Hearings

[Notice No. 525]

ASSIGNMENT OF HEARINGS

JUNE 4, 1974.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after June 7, 1974.

CORRECTION

MC-F-11953, Carolina Freight Carriers, Corp.—Purchase—Deerfield, Motor Express, Inc., and MC-2253 Sub 60, Carolina Freight Carriers Corp., now assigned June 10, 1974, will be held in Room 1614, Court of Claims, 219 South Dearborn Street, Chicago, Ill., instead of June 3, 1974.

[SEAL] ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY ELIMINATION OF GATEWAY LETTER NOTICES

JUNE 4, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination rules (49 CFR 1065 (a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before June 17, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 2452 (Sub-No. E1), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Avenue, Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, between Cincinnati, Dayton, Greenville, Hamilton, and Middletown, Ohio, on the one hand, and, on the other, Davenport, Iowa. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC 2452 (Sub-No. E2), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Avenue, Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Dayton, Ohio, on the one hand, and, on the other, De Kalb, Dixon, Freeport, La Salle, Rockford, and Rock Island, Ill. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC 2452 (Sub-No. E3), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Avenue, Summit, Ill. 60602. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Cincinnati, Ohio, on the one hand, and, on the other, De Kalb, Dixon, Freeport, La Salle, Rockford, Rock Island, and Waukegan, Ill. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC 2452 (Sub-No. E4), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Avenue, Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Hamilton, Ohio, on the one hand, and, on the other, De Kalb, Dixon, Freeport, La Salle, Rockford, and Rock Island, Ill. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC-11727 (Sub-No. E2), filed May 12, 1974. Applicant: JAMES H. RUSSELL, Washington Highway, Smithfield, R.I. 02917. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Rd., Hingham, Mass. 02043. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Orange County, New York, on the one hand, and, on the other, Providence, R.I., points in that part of Massachusetts on and east of U.S. Highway 5, and points in that part of Connecticut on and east of U.S. Highway 5, and those on U.S. Highway 1 between the New York-Connecticut State line and New Haven (except those in Fairfield County). The purpose of this filing is to eliminate the gateway of Essex County, N.J.

No. MC-11727 (Sub-No. E3), filed May 12, 1974. Applicant: JAMES H. RUSSELL, Washington Highway, Smithfield, R.I. 02917. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Rd., Hingham, Mass. 02043. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular

V39—111 JUN 7 74 XUM

routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between New York, N.Y., on the one hand, and, on the other, points in that part of Pennsylvania east of the Susquehanna River. The purpose of this filing is to eliminate the gateway of points in Essex County, N.J.

No. MC–11727 (Sub-No. E4), filed May 12, 1974. Applicant: JAMES H. RUSSELL, Washington Highway, Smithfield, R.I. 02917. Applicant's representative: Francis H. Barrett, Jr., 10 Industrial Park Rd., Hingham, Mass. 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Orange County, N.Y., on the one hand, and, on the other, points in that part of Pennsylvania located east of the Susquehanna River and south of U.S. Highway 22. The purpose of this filing is to eliminate the gateway of Essex County, N.J.

No. MC–11727 (Sub-No. E5), filed May 12, 1974. Applicant: JAMES H. RUSSELL, Washington Highway, Smithfield, R.I. 02917. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Rd., Hingham, Mass. 02034. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Philadelphia, Pa., on the one hand, and, on the other, points in that part of Pennsylvania east of the Susquehanna River located east of a line beginning at the New Jersey-Pennsylvania State line and extending along Pennsylvania Highway 32 to junction Pennsylvania Highway 611, thence along Pennsylvania Highway 611 to junction Pennsylvania Highway 212 to junction Pennsylvania Highway 309, thence along Pennsylvania Highway 309 to Pennsylvania Highway 100, thence along Pennsylvania Highway 100 to junction Pennsylvania Highway 23, thence along Pennsylvania Highway 23 to Pennsylvania Highway 10, thence along Pennsylvania Highway 10 to the Pennsylvania-Maryland State line. The purpose of this filing is to eliminate the gateway of Camden, N.J.

No. MC–11727 (Sub-No. E6), filed May 12, 1974. Applicant: JAMES H. RUSSELL, Washington Highway, Smithfield, R.I. 02917. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Rd., Hingham, Mass. 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in that part of New York within 150 miles of Newark, N.J., on the one hand, and, on the other, points in that part of Pennsylvania within 25 miles of the City Hall of Philadelphia, Pa. The purpose of this filing is to eliminate the gateway of Camden, N.J.

No. MC 16682 (Sub-No. E4), filed May 15, 1974. Applicant: MURAL TRANSPORT, INC., 2900 Review Avenue, Long Island City, N.Y. 11101. Applicant's representative: Robert L. Shapiro (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New commercial and institutional furniture and fixtures, uncrated*, between points in Arizona, California, Colorado, New Mexico, and Texas, on the one hand, and, on the other, points in Iowa and Missouri. The purpose of this filing is to eliminate the gateway of Kansas City, Mo.

No. MC 16682 (Sub-No. E5), filed May 15, 1974. Applicant: MURAL TRANSPORT, INC., 2900 Review Avenue, Long Island City, N.Y. 11101. Applicant's representative: Robert L. Shapiro (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commerical and institutional furniture, fixtures, and equipment*, (1) between points in Maine, New Hampshire, and Vermont, on the one hand, and, on the other, Delaware (except Wilmington), North Carolina, Ohio, South Carolina, Virginia (west of U.S. Highway 15), and West Virginia; (2) between points in Connecticut, Massachusetts, Rhode Island, and New York, on the one hand, and, on the other, points in North Carolina, Ohio, South Carolina, Virginia (west of U.S. Highway 15), and West Virginia; (3) between points in Maryland, New Jersey, Pennsylvania, and the District of Columbia, on the one hand, and, on the other, points in Maine, New Hampshire, and Vermont; (4) between points in Connecticut, Massachusetts, and Rhode Island, on the one hand, and, on the other, points in Ohio; (5) between points in Maine, New Hampshire, and Vermont, on the one hand, and, on the other, St. Louis, Mo., Covington, Ky., and points in Kentucky within 20 miles thereof, and points in Illinois, Indiana, and Michigan (on and south of Interstate Highway 94); and (6) between points in Connecticut, Massachusetts, and Rhode Island, on the one hand, and, on the other, St. Louis, Mo., Covington, Ky., points in Kentucky within 20 miles thereof, and points in Illinois, Indiana, and Michigan (on and south of Interstate Highway 94). The purpose of this filing is to eliminate the gateways in (1), (2), (3), and (4) above of New York, N.Y.; and in (5) and (6) above of New York, N.Y., and points in Cuyahoga County, Ohio.

No. MC 16682 (Sub-No. E6), filed May 15, 1974. Applicant: MURAL TRANSPORT, INC., 2900 Review Avenue, Long Island City, N.Y. 11101. Applicant's representative: Robert L. Shapiro (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *Household goods*, as defined by the Commission, (1) between points in Connecticut and Massachusetts, those in Nassau, Putnam, Rockland, Suffolk, and Westchester Counties, N.Y., and those in Bergen, Essex, and Hudson Counties, N.J., on the one hand, and, on the other, points in Delaware, the District of Columbia, Illinois, Indiana, Maryland, Michigan, Missouri, Ohio, Pennsylvania, Virginia, and West Virginia; (2) between points in Connecticut, Maine, Massachusetts, New Hampshire, and Rhode Island, and those in Nassau, Suffolk, and Westchester Counties, N.Y., on the one hand, and, on the other, points in New Jersey and Pennsylvania; and (3) between points in Connecticut and Massachusetts, those in Albany, Columbia, Dutchess, Nassau, Orange, Putnam, Rensselaer, Rockland, Suffolk, and Westchester Counties, N.Y., and those in Bergen, Essex, Hudson, Passaic, and Union Counties, N.J., on the one hand, and, on the other, points in Florida, Georgia, and South Carolina. The purpose of this filing is to eliminate the gateways in (1) above of New York, N.Y.; in (2) above of New York, N.Y.; and in (3) above of New York, N.Y.

No. MC 16682 (Sub-No. E7), filed May 15, 1974. Applicant: MURAL TRANSPORT, INC., 2900 Review Avenue, Long Island City, N.Y. 11101. Applicant's representative: Robert L. Shapiro (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commercial and institutional furniture and fixtures*, (1) between points in Connecticut, Massachusetts, New Jersey, New York, and Pennsylvania, on the one hand, and, on the other, points in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Nebraska, Ohio, and Wisconsin; (2) between points in Delaware and Maryland (except to and from points in Kentucky and Ohio), on the one hand, and, on the other, points in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Missouri, Nebraska, Ohio, and Wisconsin; and (3) between points in Maine, New Hampshire, and Vermont, on the one hand, and, on the other, points in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, Nebraska, Ohio, and Wisconsin. The purpose of this filing is to eliminate the gateways in (1) above of Cuyahoga County, Ohio; in (2) above of Philadephia, Pa., and Cuyahoga County, Ohio; and in (3) above of New York, N.Y., and Cuyahoga County, Ohio.

No. MC–19227 (Sub-No. E2), filed May 13, 1974. Applicant: LEONARD BROS. TRUCKING, INC., 2515 NW. 20th Street, Miami, Fla. 33152. Applicant's representative: William O. Turney, 2001 Massachusetts Ave. NW., Washington, D.C. 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting:

(A) (1) *Airplane parts and airplane supplies and equipment*, and (2) *guided missile parts and guided missile supplies and equipment*, (a) between points in Del Norte, Siskiyou, Humboldt, Trinity, Mendocino, and Lake Counties, Calif., on the one hand, and, on the other, points in Alabama, Georgia, South Carolina, and Tennessee (east and south of Scott, Fentress, Overton, Jackson, Wilson, Rutherford, Maury, and Giles Counties); and (b) between points in Butte, Sierra, Yuba, Sutter, Nevada, Placer, El Dorado, Sacramento, Amador, Alpine, Mono, Tuolumne, Calaveras, Mariposa, San Joaquin, Stanislaus, Madera, Merced, and Fresno Coumties, Calif., on the one hand, and, on the other, points in Alabama, Georgia, and Tennessee (east and south of Pickett, Overton, Jackson, Smith, Williamson, Maury, and Lawrence Counties).

(B) (1) *Commodities* (except boats and oilfield equipment), the transportation of which because of their size or weight require the use of special handling or equipment, and (2) *self-propelled articles* (except oilfield equipment), each weighing 15,000 lbs, or more and *related machinery, tools, parts, and supplies* moving in connection therewith, restricted to commodities which are transported on trailers, between points in Modoc, Shasta, Lassen, Tehama, and Plumas Counties, Calif., on the one hand, and, on the other, points in Arizona (east and south of Yuma, Yavapai, Coconino, Navajo, and Apache Counties), Arkansas, Kansas (south of Greeley, Wichita, Scott, Lane, Ness, Rush, Barton, Rice, McPherson, Marion, Chase, Lyon, Coffey, Anderson, and Linn Counties), Louisiana, Missouri (south of Bates, Henry, Benton, Camden, Miller, Maries, Gasconnade, Franklin, and Jefferson Counties), New Mexico, Oklahoma, and Texas; between points in Del Norte, Siskiyou, Humboldt, Trinity, Mendocino, Lake, Glenn, Butte, Sierra, Colusa, Sutter, Yuba, Nevada, Placer, Sonoma, Yolo, El Dorado, Napa, Sacramento, Amador, Alpine, Mono, Tuolumne, Calaveras, San Joaquin, Marin, Contra Costa, San Mateo, Santa Cruz, Santa Clara, Merced, Stanislaus, Alameda, Mariposa, Madera, Fresno, San Benito, and Monterey Counties, Calif., on the one hand, and, on the other, points in Arizona, Arkansas, Kansas (except Cheyenne, Sherman, Wallace, and Greeley Counties), Louisiana, Missouri, New Mexico, Oklahoma, and Texas; between points in California (south of Monterey, Fresno, and Mono Counties), on the one hand, and, on the other, points in Arizona, Arkansas, Kansas (north and west of Hamilton, Kearny, Scott, Lane, Ness, Rush, Ellsworth, Saline, Dickinson, Geary, Wabaunsee, Shawnee, Jefferson, and Atchinson Counties), Louisiana, Missouri, New Mexico, and Texas.

(C) (1) *Commodities* (except boats and oil field equipment) the transportation of which because of their size or weight require the use of special equipment or handling, and (2) *self-propelled articles* (except oilfield equipment), each weighing 15,000 lbs. or more and *related machinery, tools, parts, and supplies* moving in connection therewith, restricted to commodities which are transported on trailers, between points in Texas (north of Parmer, Castro, Swicher, Briscoe, Hall, and Childress Counties), on the one hand, and, on the other, points in Alabama (east and south of Cleburne, Clay, Tallapoosa, Elmore, Montgomery, Lowndes, Butler, Conecuh, and Escambia Counties), Georgia (east and south of Franklin, Banks, Hall, Forsyth, Cherokee, Bartow, Polk, and Haralson Counties), North Carolina (Rockingham, Guilford, Davidson, Rowan, Iredell, Lincoln, and Gaston Counties), South Carolina (east and south of Cherokee, Spartanburg, Greenville, and Anderson Counties), and Virginia (east and south of Stafford, Spotsylvania, Louisa, Fluvanna, Buckingham, Appomattox, Campbell, and Pittsylvania Counties); between points in Texas (south of Gaines, Dawson, Borden, Scurry, Fisher, Jones, Shackelford, Stephens, Palo Pinto, Parker, Tarrant, Dallas, Kaufman, Van Zandt, Smith, Gregg, and Harrison Counties; north of Jeff Davis, Brewster, Terrell, Val Verde, Edwards, Kerr, Gillespie, Blanco, Hays, Caldwell, Bastrop, Fayette, Washington, Waller, Harris, Liberty, Hardin, and Orange Counties), on the one hand, and, on the other, points in Alabama (east and south of Cherokee, Calhoun, Talladega, Shelby, Chilton, Autauga, Lowndes, Butler, and Covington Counties), Connecticut, Delaware, Georgia (south of Hart, Franklin, Banks, Hall, Forsyth, Cherokee, Bartow, and Floyd Counties), Maine, Maryland (east of Allegany County), Massachusetts, New Hampshire, New Jersey, New York (east and south of St. Lawrence, Herkimer, Oneida, Madison, Chenango, and Broome Counties), North Carolina (east and south of Surry, Yadkin, Iredell, Lincoln, and Gaston Counties), Pennsylvania (east and south of Susquehanna, Bradford, Tioga, Potter, Clinton, Centre, Mifflin, Huntington, and Bedford Counties), Rhode Island, South Carolina (east and south of Cherokee, Spartanburg, Greenville, and Anderson Counties), Vermont, Virginia (east and south of Highland, Bath, Alleghany, Craig, Roanoke, Floyd, and Caroll Counties), and the District of Columbia; between points and places in Texas (east of Fannin, Hunt, and Kaufman Counties; north of Henderson, Cherokee, Rusk and Panola Counties), on the one hand, and, on the other, points in Connecticut, Delaware, Georgia (east and south of Columbia, McDuffie, Jefferson, Johnson, Laurens, Wheeler, Jeff Davis, Coffee, Atkinson, and Clinch Counties), Maine, Maryland (east and south of Harford, Baltimore, Howard, and Prince Georges Counties), Massachusetts (east and south of Franklin, Hampshire, and Berkshire Counties), New Hampshire, New Jersey (east and south of Sussex and Warren Counties), New York (east and south of Columbia, Ulster, and Orange Counties), North Carolina (east and south of Person, Durham, Chatham, Lee, Moore and Richmond Counties), Pennsylvania (east and south of Northampton, Lehigh, Berks and Lancaster Counties), Rhode Island, South Carolina (east and south of Chesterfield, Kershaw, Fairfield, Newberry, Saluda and Edgefield Counties), and Virginia (east and south of Fairfax, Prince William, Stafford, Spotsylvania, Louisa, Goochland, Cumberland, Prince Edward, Charlotte, and Halifax Counties).

The purpose of this filing is to eliminate the gateways of (1) points in Florida, for (A) and (C) above, and (2) points in Arizona, within 25 miles of Yuma, including Yuma, and points in that part of Texas west of the eastern boundary lines of Lipscomb, Hemphill, Wheeler Collingsworth, Hall, Motley, Dickens, Kent, Scurry, Howard, Glasscock, Reagon, Crockett, and Val Verde Counties, Tex., for (B) above.

No. MC–29643 (Sub-No. E1), filed May 1, 1974. Applicant: WALSH TRUCKING SERVICE, INC., 50 Burney Ave., Massena, N.Y. 13662. Applicant's representative: Francis E. Walsh (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting:

Mex., on the one hand, and, on the other, Sabine, Natchitoches, Winn, Caldwell, Franklin, Madison, Tensas, Catahoula, La Salle, Grant, Rapides, Vernon, Beauregard, Allen, Evangeline, St. Landry, Avoyelles, Concordia, Pointe Coupee, West Feliciana, East Feliciana, St. Helena, Tangipahoa, Washington, St. Tammany, St. Bernard, Plaque-Mines, Jefferson, St. Charles, St. John the Baptist, St. James, Livingston, East Baton Rouge, West Baton Rouge, Ascension, Assumption, Lafourche, Terrebonne, St. Mary, Iberia, St. Martin, Lafayette, Vermilion, Acadia, Jefferson Davis, Calcasieu, and Cameron Counties, La., points in Warren, Hinds, Madison, Attala, Choctaw, Oktibbeha, Lowndes, Noxubee, Winston, Kemper, Neshoba, Leake, Lauderdale, Newton, Scott, Rankin, Clarke, Jasper, Smith, Simpson, Copiah, Claiborne, Jefferson, Adams, Wilkinson, Amite, Franklin, Lincoln, Pike, Lawrence, Jefferson Davis, Covington, Jones, Wayne, Greene, Perry, Forrest, Lamar, Marion, Pearl River, Stone, George, Jackson, Harrison, and Hancock Counties, Miss., points in Pickins, Tuscaloosa, Jefferson, Blount, De Kalb, Saint Clair, Etowah, Cherokee, Cleburne, Calhoun, Talladega, Randolph, Clay, Shelby, Chambers, Tallapoosa, Coosa, Chilton, Bibb, Sumter, Greene, Hale, Perry, Lee, Elmore, Autauga, Dallas, Marengo, Choctaw, Russell, Macon, Montgomery, Lowndes, Wilcox, Barbour, Bullock, Pike, Crenshaw, Butler, Monroe, Clarke, Washington, Conecuh, Mobile, Baldwin, Escambia, Covington, Coffee, Dale, Henry, Houston, and Geneva Counties, Ala., points in Georgia and points in Florida;

(d) Between points in Washington, Riley, Geary, Morris, Chase, Butler, Cowley, Republic, Clay, Cloud, Ottawa, Dickinson, Saline, Marion, McPherson, Harvey, Sedgwick, Sumner, Harper, Kingman, Reno, Rice, Ellsworth, Lincoln, Mitchell, Jewell, Smith, Osborne, Russell, Barton, Stafford, Pratt, Barber, Comanche, Kiowa, Edwards, Pawnee, Rush, Ellis, Rooks, Phillips, Norton, Graham, Trego, Ness, Hodgeman, Ford, Clark, Meade, Gray, Lane, Gove, Sheridan, Decatur, Rawlins, Thomas, Logan, Scott, Finney, Haskell, Seward, Stevens, Grant, Kearny, Wichita, Cheyenne, Sherman, Wallace, Greely, Hamilton, Stanton, and Morton Counties, Kans., on the one hand, and, on the other, points in Florida; (e) between points in Grant, Garfield, Logan, Oklahoma, Pottawatomie, Pontotoc, Johnston,

Marshall, Love, Carter, Murray, Garvin, McClain, Canadian, Kingfisher, Alfalfa, Major, Blaine, Caddo, Grady, Stephens, Jefferson, Cotton, Comanche, Tillman, Kiowa, Washita, Custer, Dewey, Woodward, Woods, Harper, Ellis, Roger Mills, Beckman, Greer, Harmon, Jackson, Beaver, Texas and Cimarron Counties, Okla., on the one hand, and on the other, points in Clay, Randolph, Terrell, Lee, Worth, Turner, Ben Hill, Coffee, Jeff Davis, Appling, Tattnall, Evans, Bryan, Liberty, Long, Wayne, McIntosh, Glynn, Camden, Brantley, Charlton, Pierce, Bacon, Ware, Atkinson, Clinch, Echols, Lowndes, Berrien, Cook, Brooks, Tift, Colquitt, Thomas, Grady, Mitchell, Dougherty, Calhoun, Early, Baker, Miller, Seminole, and Decater Counties, Ga., points in Mobile, Baldwin, Escambia, Covington, Coffee, Geneva, Dale, Henry, and Houston Counties, Ala., and points in Florida;

(f) Between points in Wyoming, on the one hand and, on the other, points in Louisiana; (g) between points in Kansas, on the one hand, and, on the other, points in Louisiana; (h) between points in Kansas, on, south, and east of a line beginning at the Colorado-Kansas State line, thence east along U.S. Highway 50 to Garden City, thence along U.S. Highway 156 to its intersection with Interstate Highway 70, thence along Interstate Highway 70 to Salina, thence north along U.S. Highway 81 to the Kansas-Nebraska State line, on the one hand, and, on the other, points in New Mexico; (i) between points in Texas, on the one hand, and, on the other, points in Kentucky, North Carolina, and Virginia; and (j) between points in Texas on and west of Interstate Highway 35, on the one hand, and, on the other, points in South Carolina. The purpose of this filing is to eliminate the gateways of points in *Orange and Jefferson Counties, Tex.*, for (a), (b), (c), (d), and (e) above; *points in Texas*, for (f), (g) and (h) above; and *points in Missouri* for (i) and (j) above.

No. MC–64651 (Sub-No. E2), filed May 12, 1974. Applicant: STAR TRANSPORT CO., INC., P.O. Box 2006, High Point, N.C. 27261. Applicant's representative: John T. Coon (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Baltimore, Md., on the one hand, and, on the other, Providence, R.I., to points in that part of New York within 150 miles of Newark, N.J., and east of a line beginning at the New York-Pennsylvania State line, and extending north along New York Highway 17 to Owego, thence along New York Highway 96 to its intersection with New York Highway 96B, thence along New York Highway 96B to Ithaca, thence along New York Highway 96 to Ovid, and thence along New York Highway 96A to its intersection with New York Highway 5, points in that part of Massachusetts on and east of U.S. Highway 5, and points in that part of Connecticut on and east of U.S. Highway 5, and those on U.S. Highway 1 between the New York-Connecticut State line and New Haven, Conn. The purpose of this filing is to eliminate the gateways of points in Cumberland and Salem Counties, N.J.

No. MC 106001 (Sub-No. E1), filed May 10, 1974. Applicant: DENNIS TRUCKING CO., INC., 2519 Morris Street, Philadelphia, Pa. 19145. Applicant's representative: Alan Kahn, Two Penn Center Plaza, Suite 1920, Philadelphia, Pa. 19102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: A. *Brick* and *terra cotta*, (1) From points in New Jersey to points in Maryland (except those west of Interstate Highway 81); (2) from points in New York on and south of a line beginning at the New York-Pennsylvania State line at Hancock, N.Y., thence over New York Highway 17 to junction New York Highway 30, thence over New York Highway 30 to junction New York Highway 28, thence over New York Highway 28 to Kingston, N.Y., thence over New York Highway 308 to junction New York Highway 199, and thence over New York Highway 199 to the New York-Connecticut State line, including points on the indicated portions of the highways specified, to points in Maryland (except those west of Interstate Highway 81); (3) from points in Pennsylvania bounded by a line beginning at the Pennsylvania-Delaware State line, and extending over U.S. Highway 202 to junction Pennsylvania Turnpike Northeast Extension, thence north along that Extension to junction Interstate Highway 81, and thence over Interstate Highway 81 to the Pennsylvania-New York State line, thence east along that line to the Delaware River, thence south along that River to the Pennsylvania-Delaware State line, and thence west along that line to point of beginning, including points on the indicated portions of the highways specified, to points in Maryland (except those west of Interstate Highway 83 from the Maryland-Pennsylvania State line to junction U.S. Highway 1, and thence over U.S. Highway 1 to the District of Columbia boundary); (4) from points in New Jersey to points in Delaware;

(5) From points in New York on and south of a line beginning at the New York-Pennsylvania State line at Waverly, N.Y., thence over New York Highway 17 to junction New York Highway 30, and thence over New York Highway 30 to junction New York Highway 28, thence over New York Highway 28 to Kingston, thence over New York Highway 308 to junction New York Highway 199, and thence over New York Highway 199 to the New York-Connecticut State line including points on the indicated portions of the highways specified (except points on Long Island east of New York Highway 114), to points in Delaware; (6) from points in Pennsylvania on, east, and south of a line beginning at the Pennsylvania-New York State line at Sayre, thence south over U.S. Highway 220 to junction U.S. Highway 6, thence west over U.S. Highway 6 to junction Pennsylvania Highway 14, thence south over Pennsylvania Highway 14 to junction U.S. Highway 15, thence south over U.S. Highway 15 to junction U.S. Highway 11, thence east over U.S. Highway 11 to junction Pennsylvania Highway 61, thence east over Pennsylvania Highway 61 to Pottsville, thence south over Pennsylvania Highway 61 to junction Pennsylvania Highway 443, thence east over Pennsylvania Highway 443 to junction U.S. Highway 309, thence east over U.S. Highway 309 to junction Pennsylvania Highway 100, thence south over Pennsylvania Highway 100 to junction U.S. Highway 202, thence south over U.S. Highway 202 to the Pennsylvania-Delaware State line, thence east along that line to the Delaware River, thence north along that river to the Pennsylvania-New York State line, and thence west along that line to point of beginning, including points on the indicated portions of the Highways specified, to points in Delaware; (7) from points in New York as described in (5) above, to points in New Jersey on and south of New Jersey Highway 33;

(8) From points in Pennsylvania on, east, and south of a line beginning at the Pennsylvania-Maryland State line and extending north over U.S. Highway 522 to Selinsgrove, thence south over Pennsylvania Highway 61 to Reading, thence over U.S. Highway 422 to Norristown, thence over U.S. Highway 202 to junction U.S. Highway 611, thence south over U.S. Highway 611 to Interstate Highway 276, and thence over Interstate Highway 276 to the Delaware River, including points on the indicated portions of the highways specified, to points in New Jersey; (9) from points in Delaware to points in New Jersey; (10) from points in Maryland (except points west of Interstate Highway 81) to points in New Jersey; (11) from points in New Jersey on and south of New Jersey Highway 33 to points in New York as described in (5) above; (12) from points in Pennsylvania on and east of a line beginning at the Pennsylvania-Delaware State line and extending north over Pennsylvania Highway 10 to Reading, and thence over U.S. Highway 422 to Norristown, thence over U.S. Highway 202 to the junction of U.S. Highway 611, thence south over U.S. Highway 611 to Interstate Highway 276, and thence over Interstate Highway 276 to the Delaware River to points in New York described in (2) above; (13) from points in Delaware to points in New York described in (5) above; (14) from points in Maryland (except points west of Interstate Highway 81) to points in New York as described in (2) above; (15) from points in New Jersey to points in Pennsylvania

V 39—111 JUN 7 74 XUM

as described in (8) above; (16) from points in New York as described in (2) above, to points in Pennsylvania as described in (12) above; (17) from points in Delaware to points in Pennsylvania as described in (6) above; and (18) from points in Maryland (except points west of Interstate Highway 81) to points in Pennsylvania as described in (3) above.

B. *Gypsum products,* (1) from points in New Jersey to the District of Columbia, Alexandria, Va., and points in Arlington, Fairfax, and Prince William Counties, Va.; (2) from points in New York as described in A(5) above, to points in the destination territory described immediately above; and (3) from points in Pennsylvania as described in A(3) above, to points in the destination territory described immediately above. *Empty containers and pallets* used in the transportation of gypsum products, from the destination points described immediately above, to points in the origin territories described above. C. *Building material and equipment, contractors' equipment, iron and steel, and machinery,* requiring specialized handling or rigging, because of size or weight, (1) between points in Delaware, on the one hand, and, on the other, points in New Jersey; (2) between points in Delaware, on the one hand, and, on the other, points in New York as described in A(5) above; (3) between points in Delaware, on the one hand, and, on the other, points in Pennsylvania as described in A(6) above;

(4) Between points in New Jersey on and south of New Jersey Highway 33, on the one hand, and, on the other, points in Pennsylvania on, east, and south of a line beginning at the Pennsylvania-New York State line at Sayre, Pa., thence south over U.S. Highway 220 to junction U.S. Highway 6, thence west over U.S. Highway 6 to junction Pennsylvania Highway 14, thence over Pennsylvania Highway 14 to junction U.S. Highway 15, thence over U.S. Highway 15 to junction U.S. Highway 220, thence over U.S. Highway 220 to junction Pennsylvania Highway 64, thence over Pennsylvania Highway 64 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction Pennsylvania Highway 28, thence south over Pennsylvania Highway 28 to State College, Pa., thence east over U.S. Highway 323 to junction U.S. Highway 522, and thence over U.S. Highway 522 to the Pennsylvania-Maryland State line, including points on the indicated portions of the highways specified;

(5) Between points in that part of New Jersey (except those specified immediately above) south and east of a line beginning at junction New Jersey Highway 33 and U.S. Highway 130, thence north over U.S. Highway 130 to junction U.S. Highway 1, thence over U.S. Highway 1 to Newark, N.J., and thence east over U.S. Highway 1 to Jersey City, N.J., on the one hand, and, on the other, points in Pennsylvania as described in A(8) above; (6) between points in Maryland on and east of Interstate Highway 81, on the one hand, and, on the other, points in New York as described in A(2) above; (7) between points in Maryland on and east of a line beginning at the Maryland-Pennsylvania State line and extending over Interstate Highway 83 to junction U.S. Highway 1, and thence over U.S. Highway 1 to the District of Columbia boundary, on the one hand, and, on the other, points in Pennsylvania as described in A(3) above; and (8) between points in Maryland on and east of Interstate Highway 81, on the one hand, and, on the other, points in New Jersey.

D. *Building material and equipment, contractors' equipment, iron and steel, and machinery,* requiring specialized handling or rigging, because of size or weight, between points in Maryland on and east of a line beginning at the Maryland-Pennsylvania State line and extending over Interstate Highway 83 to junction U.S. Highway 1, and thence over U.S. Highway 1 to the District of Columbia boundary, on the one hand, and, on the other, points in Delaware on and east of U.S. Highway 202 from the Delaware-Pennsylvania State line to Wilmington, Del. (but not including Wilmington). The purpose of this filing is to eliminate the gateways of *Philadelphia and Marcus Hook, Pa.*

No. MC–107295 (Sub-No. E1), filed May 13, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 148, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Mortar cement,* and *carpet and linoleum paste cement* (except in bulk), from the plant and warehouse facilities of C. E. Kaiser Company at Houston, Tex., to points in Maine, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateway of New Philadelphia, Ohio.

No. MC 107295 (Sub-No. E6), filed May 5, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: (A) *Steel doors, steel door frames,* and *steel window frames,* from Brooklyn, N.Y., to points in Florida, Georgia, South Carolina, and that part of North Carolina in, west, and south of Vance, Franklin, Wake, Johnston, Sampson, and Pender Counties (Harrisonburg, Va.*); and (B) *steel door and window frames,* from Brooklyn, N.Y., to points in Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington (Sedalia, Mo.*). The purpose of this filing is to eliminate the respective gateways indicated by asterisks above.

No. MC 107295 (Sub-No. E7), filed May 5, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Prefinished plywood paneling* and *particleboard,* from Memphis, Tenn., (1) to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming (Truman, Ark.*); (2) to points in Connecticut, Delaware, Maine, New Jersey, New York, Rhode Island, and Vermont (Paris, Ill.*); and (3) to points in that part of West Virginia in and north of Cabell, Kanawha, Nicholas, Webster, and Pocahontas Counties (Franklin, Ohio*). The purpose of this filing is to eliminate the respective gateways indicated by asterisks above.

No. MC 108340 (Sub-No. E1), filed May 11, 1974. Applicant: HANEY TRUCK LINE, P.O. Box 485, Forest Grove, Oreg. 71116. Applicant's representative: Lawrence V. Smart, Jr., 419 NW. 23rd Avenue, Portland, Oreg. 97210. Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: (1) *Survey stakes,* between points in Washington, on the one hand, and, on the other, points in Yamhill and Marion Counties, Oreg.; (2) *paper products,* between Longview, Wash., on the one hand, and, on the other, points in Yamhill and Marion Counties, Oreg.; (3) *livestock,* between points in Washington, on the one hand, and, on the other, points in Yamhill and Marion Counties, Oreg.; (4) *lumber and lumber mill products* (except commodities in bulk), between points in Washington, on the one hand, and, on the other, points in Marion and Yamhill Counties, Oreg.; (5) *sawdust wallboard,* between points in Washington and Idaho, on the one hand, and, on the other, points in Yamhill and Marion Counties, Oreg.; (6) *nursery stock,* and *farm, agricultural, and horticultural products* (except commodities in bulk), between points in Marion County, on the one hand, and, on the other, points in Washington west of the summit of the Cascade Mountains;

(7) *Canned goods, frozen fruits and vegetables, cement products, clay products, and brick* (except commodities requiring special equipment), from points in Marion County, Oreg., to points in Washington west of the summit of the Cascade Mountains; (8) *fruit and vegetables* (except commodities in bulk), from points in Yakima County, Wash., to points in Yamhill and Marion Counties, Oreg.; (9) *empty fruit and vegetable containers,* from points in Yamhill and Marion Counties, Oreg., to points in Yakima County, Wash.; (10) *cement,* in bags, from Seattle, Wash., to points in Marion and Yamhill Counties, Oreg.; (11) *sugar,* in bags and in tote bins, from Toppenish, Wash., to points in Yamhill and Marion Counties, Oreg.; (12) *pipe, culvert, and guard rails,* from Portland, Oreg., to points in that portion of California in and north of Mendocino, Lake, Colusa, Sutter, and Placer Counties; and (13) *paper and paper articles,* (a) from points in Yamhill and Marion Counties, Oreg., to points in Washington; and (b) from Seattle, Wash., to points in Yamhill and Marion Counties, Oreg. The purpose of this filing is to eliminate the gateways of (A) *Tigard, Oreg.,* for (1), (3), (4), (5), (6), (7), (8), (9) and (10) above; (B) *Tigard and Hillsboro, Oreg.,* for (2) and (13)(b) above; (C) *Sherwood and Tigard, Oreg.,* for (11) above; (D) *Hillsboro, Oreg.,* for (12) above; and (E) *Beaverton and Tigard, Oreg.,* for (13)(a) above.

No. MC–110525 (Sub-No. E269), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), in bulk, in tank vehicles, from points in Maryland to points in Georgia. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E270), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Maryland to points in Idaho. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Addyston, Ohio.

No. MC–110525 (Sub-No. E275), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Maryland to points in Kentucky. The purpose of this filing is to eliminate the gateway of S. Charleston, W. Va.

No. MC–110525 (Sub-No. E276), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivatives of petroleum or bituminous materials), in bulk, in tank vehicles, from points in Maryland to points in Louisiana. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E290), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension—Addyston,* 63 M.C.C. 677 (except bituminous products and materials), in bulk, in tank vehicles, from points in Maryland to points in Ohio. The purpose of this filing is to eliminate the gateways of Morgantown and Moundsville, W. Va.

No. MC–110525 (Sub-No. E291), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Maryland to points in Oklahoma. The purpose of this filing is to eliminate the gateway of S. Charleston, W. Va.

No. MC–110525 (Sub-No. E292), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Maryland to points in Oregon. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Addyston, Ohio.

No. MC–110525 (Sub-No. E294), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), from points in Maryland to points in South Carolina. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E306), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Massachusetts to points in Colorado. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E308), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except liquid hydrogen, liquid oxygen, and liquid nitrogen), in bulk, in tank vehicles, from points in Kentucky to points in Vermont. The purpose of this filing is to eliminate the gateways of Clairton, Pa., and Syracuse, N.Y.

No. MC–110525 (Sub-No. 310), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivations of petroleum or bituminous materials), in bulk, in tank vehicles, from points in Massachusetts, to points in Florida. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Greensboro, N.C.

No. MC–110525 (Sub-No. E311), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), in bulk, in tank vehicles, from points in Massachusetts to points in Georgia. The purpose of this filing is to eliminate the gateways of Newark, N.J., and points in North Carolina.

No. MC–110525 (Sub-No. E312), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Massachusetts, to points in Idaho. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E313), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Massachusetts, to points in Illinois. The purpose of this filing is to eliminate the gateway of Newark, N.J.

No. MC–110525 (Sub-No. E314), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Massachusetts, to points in Indiana. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Pittsburgh, Pa.

No. MC–110525 (Sub-No. E315), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The*

V39—111 JUN 7 74 XUM

Maxwell Co., Extension-Addyston, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Massachusetts to points in Iowa. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Natrium, W. Va.

No. MC–110525 (Sub-No. E316), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Kansas. The purpose of this filing is to eliminate the gateways of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–112822 (Sub-No. E17), filed April 22, 1974. Applicant: BRAY LINES, INC., P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: Robert A. Stone (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in that part of California on, north, and west of a line beginning at the California-Nevada State line and extending along California Highway 190 to junction U.S. Highway 395, thence south along U.S. Highway 395 to junction California Highway 74, thence along California Highway 74 to the Pacific Ocean, to points in Illinois, Indiana, Michigan, North Dakota, Ohio, South Dakota, and Wisconsin. The purpose of this filing is to eliminate the gateway of points in Idaho.

No. MC–112822 (Sub-No. E22), filed April 28, 1974. Applicant: BRAY LINES, INC., P.O. Box 1191, Cushing, Oklahoma 74023. Applicant's representative: Robert A. Stone (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in containers, from the facilities of Gulf Oil Company and Atlantic-Richfield Company at or near Houston, Tex., and the facilities of Gulf Oil Company and Texaco, Inc., at or near Beaumont, Tex., to points in that part of California on, north, and west of a line beginning at the California-Nevada State line and extending along U.S. Highway 66 to Barstow, thence sought along Interstate Highway 15 to junction California Highway 74, thence along California Highway 74 to Pacific Ocean. The purpose of this filing is to eliminate the gateway of Enid, Okla.

No. MC–113843 (Sub-No. E10), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Rhode Island, to points in Wisconsin. The purpose of this filing is to eliminate the gateways of Elmira, N.Y., and Detroit, Mich.

No. MC–113843 (Sub-No. E15), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Rhode Island to points in Illinois. The purpose of this filing is to eliminate the gateway of Elmira, N.Y.

No. MC–113843 (Sub-No. E16), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Rhode Island to points in Indiana. The purpose of this filing is to eliminate the gateway of Elmira, N.Y.

No. MC–113843 (Sub-No. E17), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Rhode Island to points in Michigan. The purpose of this filing is to eliminate the gateway of Elmira, N.Y.

No. MC–113843 (Sub-No. E18), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Rhode Island to points in Missouri. The purpose of this filing is to eliminate the gateway of Elmira, N.Y.

No. MC–113843 (Sub-No. E19), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Rhode Island to points in Ohio. The purpose of this filing is to eliminate the gateway of Elmira, N.Y.

No. MC–113843 (Sub-No. E32), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Frozen foods*, from points in Connecticut to points in Missouri. The purpose of this filing is to eliminate the gateway of Elmira, N.Y.

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Connecticut to points in Michigan. The purpose of this filing is to eliminate the gateway of Elmira, N.Y.

No. MC–113843 (Sub-No. E34), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Connecticut to points in Indiana. The purpose of this filing is to eliminate the gateway of Elmira, N.Y.

No. MC–113843 (Sub-No. E37), filed May 8, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Indiana to points in Rhode Island. The purpose of this filing is to eliminate the gateway of Elmira, N.Y.

No. MC–114019 (Sub-No. E14), filed May 1, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Oil*, in containers, as dealt in by wholesale food business houses between Franklin, Pa., on the one hand, and, on the other, points in Wisconsin and Iowa, restricted to the transportation of shipments moving from, to, or between refineries or distribution centers of petroleum products. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC 114019 (Sub-No. E15) filed May 1, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Heavy industrial chemicals* (not including drugs, medicines, and toilet preparations) as is dealt in by wholesale food business houses, from points in Wisconsin and Iowa to Cleveland, Ohio and points in Wayne County, Mich., restricted to the transportation of shipments moving from, to, or between heavy industrial chemical manufacturing plants (except drugs, medicines, and toilet preparation plants or warehouses or other facilities of such plants). The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC–114019 (Sub-No. E58), filed May 10, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Dairy products* from Springfield, Ky., to points in Wisconsin, and (2) *Dairy products* (other than frozen), from Springfield, Ky., to Denver, Colo., points in that part of Nebraska on and east of U.S. Highway 83 from the Kansas-Nebraska State line to North Platte, and on and south of U.S. Highway 30 from North Platte to the Missouri River, points in that part of Kansas on and east of U.S. Highway 281, points in Missouri on and west of U.S. Highway 65, points in that part of Iowa on and west of U.S. Highway 65 from Lineville to Iowa Falls, and on and south of U.S. Highway 20 from Iowa Falls to Sioux City. The purpose of this filing is to eliminate the gateway of Chicago or Effington, Ill.

No. MC–114019 (Sub-No. E59), filed May 9, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods, and foods not frozen when transported in the same vehicles with frozen foods*, in vehicles equipped with mechanical refrigeration, (a) from points in the Lower Peninsula of Michigan to points in Iowa, Nebraska, South Dakota, and North Dakota; (b) from points in the Upper Peninsula of Michigan to points in Kentucky and West Virginia. Restricted in (a) and (b) above to the transportation of shipments moving from, to, or between warehouses, and wholesale, retail, or chain outlets of food business houses. The purposes of this filing is to eliminate the gateway of Chicago, Ill.

No. MC–114019 (Sub-No. E60), filed May 9, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers, covers, caps, and accessories for glass containers and paper cartons*, from Nashville, Tenn. and Bowling Green, Ky., to points in Minnesota, North Dakota, South Dakota, and points in that part of Nebraska north and west of a line beginning at the junction of the Iowa-Nebraska State line and U.S. Highway 6, thence along U.S. Highway 6 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to the Nebraska-Kansas State line, and points in Iowa on and north of Iowa Highway 92, restricted to shipments moving from, to, or between warehouses or other facilities of wholesale food business houses. The purpose of this filing is to eliminate the gateway of Jeffersonville, Ind., and Streator, Ill.

No. MC–114019 (Sub-No. E61), filed May 9, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Prepared frozen foods* (other than frozen), from points in the Lower Peninsula of Michigan to Denver, Colo., and points in that part of Nebraska on and east of U.S. Highway 83 from the Kansas-Nebraska State line to North Platte, and on and south of U.S. Highway 30 from North Platte to the Missouri River, points in that part of Kansas on and east of U.S. Highway 281, points in Missouri on and west of U.S. Highway 65, and points in that part of Iowa on and west of U.S. Highway 65 from Lineville to Iowa Falls, and on and south of U.S. Highway 20 from Iowa Falls to Sioux City, restricted to the transportation of shipments moving from, to, or between warehouses, and wholesale, retail, or chain outlets of food business houses. The purpose of this filing is to eliminate the gateway of Chicago, Ill.

No. MC–114019 (Sub-No. E63), filed May 9, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk in tank vehicles), from Madison, Wis., to points in Missouri, Kansas, and those points in Nebraska, on, south, and west of Nebraska Highway 92 from the Iowa-Nebraska State Line to its junction with Nebraska Highway 2, thence on Nebraska Highway 2 from said junction to its junction with U.S. Highway 83, thence on U.S. Highway 83 from said junction to the Nebraska-South Dakota State line. The purpose of this filing is to eliminate the gateway of Monmouth, Ill.

No. MC 114019 (Sub-No. E70), filed May 10, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Steel* (except commodities requiring special equipment), from Monroe, Mich., to Sparrows Point and Baltimore, Md., New York, N.Y., and points within 30 miles of New York, N.Y., points in that part of New Jersey, Delaware, and Maryland, which are located within 30 miles of Philadelphia, Pa., points in that part of New York on and west of a line beginning at Windsdor Beach and extending to Rochester, thence along U.S. Highway 15 to Wayland, thence along New York Highway 245 to Dansville, thence along New York Highway 36 to junction New York Highway 21, thence along New York Highway 21 to Andover, and thence along New York Highway 17 to the New York-Pennsylvania State line, and points in West Virginia and Pennsylvania; and (2) *Iron and steel articles*, from Monroe, Mich., to Hagerstown and Frederick, Md., and the District of Columbia. The authority described in (1) and (2) above, restricted to the transportation of shipments moving from, to, or between iron and steel wire products, or fencing material and supply manufacturing plants, warehouses, or other facilities of such plants. The purpose of this filing is to eliminate the gateways of Toledo or East Liverpool, Ohio.

No. MC 114019 (Sub-No. E71), filed May 10, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Edible oils*, and *edible oil products*, in containers, in vehicles equipped with mechanical refrigeration, and related advertising matters, in mixed loads with the above specified commodities, from Nashville, Tenn., and Bowling Green, Ky., to points in Connecticut, Maine (except points in Aroostook, Ponobscot, Piscataquis, and Waldo Counties), Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, and Pennsylvania, restricted to shipments moving from, to, or between warehouses or other facilities of wholesale food business houses. The purpose of this filing is to eliminate the gateways of Jeffersonville, Ind., and Columbus, Ohio.

No. MC–114045 (Sub-No. E118), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Texas 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products*, as described in Section B of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, from Wapakoneta, Ohio, to points in Idaho, Oregon, Utah, Washington, and Wyoming. The purpose of this filing is to eliminate the gateway of Hillsboro, Hutchinson, or Wichita, Kans.

No. MC–114045 (Sub-No. E121), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Texas. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Preserved foodstuffs* (except commodities in bulk, frozen foods, meats, meat products and meat byproducts, dairy products, uncooked bakery goods, yeast, and salad dressing), from

V39—111 JUN 7 74 XUM

Vineland, N.J., to points in Missouri (except St. Louis, Mo., and points in its commercial zone). The purpose of this filing is to eliminate the gateway of Austin, Ind.

No. MC–114045 (Sub-No. E122), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Texas 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unfrozen meats* (except commodities in bulk, in tank vehicles), from Vineland, N.J., to points in Colorado, Idaho, Nevada, Utah, and Wyoming. The purpose of this filing is to eliminate the gateway of Dodge City, Kans.

No. MC–114045 (Sub-No. E123), filed May 9, 1974. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Downingtown, Pa. 75222. Applicant's representative: J. B. Stuart (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cooked bakery products and prepared bakery products ingredients* (other than frozen and other than those in bulk, in tank vehicles equipped with mechanical refrigeration), from the plant site and warehouse facilities utilized by the Pillsbury Company at Cincinnati, Ohio, to points in New Mexco, Oklahoma, and Texas. The purpose of this filing is to eliminate the gateway of Seelyville, Ind.

No. MC–114552 (Sub-No. E1), filed April 25, 1974. Applicant: SENN TRUCKING CO., 919 Eighteenth St. NW., Washington, D.C. 20006. Applicant's representative: William P. Jackson, Jr. (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood*, (1) from points in Louisiana, to points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia, and West Virginia; (2) from points in Louisiana on and south of U.S. Highway 84, to points in Ohio on and east of Interstate Highway 77; (3) from points in Manatee County, Fla., to points in Delaware, Illinois, Indiana, Maine, Maryland, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columba; (4) from the plant sites of Holly Hill Lumber Company, at or near Walterboro, S.C., to points in Illinois and Texas; (5) from the plant site of Ply-Gem Corporation in Queens County, N.Y., to points in Arkansas, Oklahoma, and Texas; and (6) from the plant site of Sumter Plywood Corporation near Livingston, Ala., to points in Delaware, Maine, Maryland, New Hampshire, New Jersey, New York, Pennsylvania, Vermont, Virginia east of U.S. Highway 21, West Virginia on and east of Interstate Highway 77, and the District of Columbia. The purpose of this filing is to eliminate the gateways of: (A) Charlotte, N.C., or the plant site and warehouse facilities of Vancouver Plywood Company at Charlotte, N.C., for (1) above; (B) the plant site and warehouse facilities of Vancouver Plywood Company at Charlotte, N.C., for (2) above; (C) the plant site of Sumter Plywood Corporation near Livingston, Ala., or points in Greenwood County, S.C., or the plant sites of Holly Hill Lumber Company at or near Walterboro, S.C., or the plant site and warehouse facilities of Vancouver Plywood Company at Charlotte, N.C., for (3) above; (D) Charlotte, N.C., for (4) above; (E) points in Greenwood County, S.C., for (5) above.

No. MC 123048 (Sub-No. E44), filed May 15, 1974. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., P.O. Box A, Racine, Wis. 53401. Applicant's representative: Paul L. Martinson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Front end loaders*, from Minneapolis, Minn., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Indiana, Kentucky, Maine, Massachusetts, Maryland, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, West Virginia, Virginia, and the Lower Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of West Bend, Wis.

No. MC 123048 (Sub-No. E49), filed May 15, 1974. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., P.O. Box A, Racine, Wis. 53401. Applicant's representative: Paul L. Martinson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Manure spreaders*, from Vinton, Iowa, to points in Connecticut, Delaware, Maine, Massachusetts, Maryland, New Hampshire, New York, New Jersey, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the Upper Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of West Bend, Wis.

No. MC 123048 (Sub-No. E52), filed May 15, 1974. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., P.O. Box A, Racine, Wis. 53401. Applicant's representative: Paul L. Martinson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Manure spreaders*, from Dubuque, Iowa to points in Connecticut, Delaware, Maine, Massachusetts, Maryland, New Hampshire, New York, New Jersey, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the Upper Peninsula of Michigan. MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before June 27, 1974. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–75166. By order of June 3, 1974, the Motor Carrier Board approved the transfer to Lakelawn Transport Corp., Syracuse, N.Y., of the operating rights in Certificate No. MC–4426 issued April 23, 1974 to Syracuse Rigging Company, Inc., Syracuse, N.Y., authorizing the transportation of machinery, telephone and telegraph equipment, and contractors equipment between Syracuse, N.Y., on the one hand, and, on the other, points in Connecticut, Massachusetts, New Jersey, Pennsylvania, Rhode Island, and New York. Herbert M. Canter, 201 East Jefferson St., Syracuse, N.Y. 13202, attorney for applicants.

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JUNE 3, 1974.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67, (49 CFR 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 139805 (Sub-No. 1 TA), filed May 24, 1974. Applicant: CEPHAS BROTHERS TRANSPORT, LTD., P.O. Box 184 B, Limestone Road, Hockessin, Del. 19707. Applicant's representative: Francis P. No. MC 139821 TA filed May 21, 1974. Applicant: HAUGEN TRANSIT, INC., Route 2A, Madelia, Minn. 56062. Applicant's representative: James H. Malecki, 1 South State Street, New Ulm, Minn. 56073. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed, feed ingredients and bentonite*, (A) from Mankato, Minn., to Wausau, Kiel, Columbus, Wild Rose, Antigo, Galesville, Dodgeville, West Salem, Marshfield, Seneca, Kieler, Madison, Spring Green, Plain, West Bend, Wautoma, Colfax, Benait, Saulk City, Friendship, Coloma, Watertown, Platteville, Chaseburg, Alam Center, Reedsburg, Hillsboro, Westby, Turtle Lake, Ladysmith, Menomonie, Milltown, Withee, Cuba City, Sparta, Star Prairie, Fall River, Barron, Mondovi, Mt. Vernon, New Richmond, Marathon, Middleton, Osceola, Ashland, Deer Park, Weyauwega, Campbellsport, Waupaca, Durand, Augusta, and Amery, Wis.; Mason City and Estherville, Iowa; Minot, N. Dak.; and Sioux Falls, S. Dak., and (B) from Belle Fourche, Huron, and Mitchell, S. Dak.; West Fargo and Mandan, N. Dak.; Green Bay, Chippewa Falls, Madison, White Hall, Onalaska, and Eau Claire, Wis.; and Green, Alta Vista, and LaMars, Iowa, to Minneapolis-St. Paul, Minn., for 180 days. SUPPORTING SHIPPERS: Wellen and Company, Inc., 6700 France Ave. So., Minneapolis, Minn. and Honeymead Products Company, 720 Minneopa Road, Mankato, Minn. 56001. SEND PROTESTS TO: A. N. Spath, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 414 Federal Building & U.S. Court House, 110 S. 4th Street, Minneapolis, Minn. 55401.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc 74–13134 Filed 6–6–74;8:45 am]

[Ex Parte No. 305]

NATIONWIDE INCREASE OF TEN PERCENT IN FREIGHT RATES AND CHARGES, 1974

JUNE 4, 1974.

At a General Session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 3rd day of June, 1974.

It appearing, that on May 6, 1974, most of the nation's railroads,[1] and certain connecting water and motor carriers having joint rates with said railroads, filed schedules of a nationwide general increase of 10 percent in freight rates and charges[2] under authority of section 6 of the Interstate Commerce Act and the Commission's Special Permission Order No. 74–3440, of May 3, 1974, said tariff schedules having been filed subject to possible investigation and suspension and bearing an effective date of June 5, 1974;

It further appearing, that by petition and verified statements dated April 22, 1974, as supplemented May 7, 1974, the carriers requested the issuance of orders granting relief from outstanding orders entered by the Commission, relief from section 4 of the Act, and all other relief necessary to permit the proposed general increase to become effective, subject to the condition that refund be made in the event that any increase (including interim increases) resulting from the application of the tariff exceeded the increases subsequently approved or prescribed by the Commission;

It further appearing, that interested parties were permitted to file protests and requests for suspension of the tariff schedules and verified statements in opposition on or before May 24, 1974, and the railroads were permitted to file replies on or before May 29, 1974;

It further appearing, that the Commission having considered the evidence and arguments of the parties as set forth in the protests, verified statements and replies recognizes that the nation's railroads are in need of additional freight revenues to offset recently incurred costs of materials, other than fuel, and to provide an improved level of earnings; that the Commission also recognizes that without the additional revenues to be derived from increased freight rates and charges, the earnings of the nation's railroads would be insufficient to enable them under honest, economical and efficient management to provide adequate and efficient railroad transportation services consistent with the public interest and the national transportation policy;

It further appearing, that the Commission, having reviewed the evidence and arguments of the parties, is convinced that the service provided by the nation's railroads is less than adequate and is in danger of further deterioration detrimental to the public interest, that in order to improve service the railroads must generate additional revenues, and that the increases proposed would, if permitted to become effective, generate additional revenues sufficient to enable the carriers to prevent further deterioration and improve service. However, if the schedules were permitted to become effective as filed and without conditions designed to promote service improvements, the increases proposed would be unjust and unreasonable and contrary to the dictates of the national transportation policy;

And it further appearing, that, insofar as increases are hereinafter authorized, said increases will not have a significant adverse effect upon the quality of the human environment within the meaning of the National Environmental Policy Act of 1969; therefore;

It is ordered, That the operation of the schedules specified below be, and it is hereby, suspended and that the use thereof in interstate and foreign commerce be deferred to and including January 4, 1975, unless otherwise ordered by this Commission;

Tariff of Increased Rates and Charges X–305, issued jointly by the Western Trunk Line Committee, Agent, its ICC No. A–4931, and other designated agents:

In Tariff X–305:
On Pages 66 to 73, Table 5;
On pages 74 to 81, Table 10;
On pages 82 to 85, Table 10–G;
In Tariff X–305 and Supplement 1:
All reference to Tables 5, 10 or 10–G wherever such reference appears therein;

It is further ordered, That an investigation be, and it is hereby, instituted into and concerning the lawfulness of all the rates, charges, and regulations which were contained in the suspended schedules, as aforesaid, with a view to making such findings and orders in the premises as the facts and circumstances shall warrant, all the said schedules to be subject to a refund provision as contained in the suspended tariff;

It is further ordered, That the carriers which are parties to this proceeding be, and they are hereby, authorized to cancel the suspended tariff on one day's notice;

It is further ordered, That in the event that the carriers which are parties to this proceeding elect to cancel the suspended tariff, then the carriers which are parties to this proceeding be, and they are hereby authorized to establish upon not less than 15 days' notice to the Commission and the public by filing and posting in the manner prescribed in the Interstate Commerce Act, an increase in rates and charges not to exceed those set forth in the cancelled tariff (to be designated X–305A) except that, in view of the pendency of Ex Parte No. 295 (Sub-No. 1), Increased Freight Rates and Charges, 1973—Recyclable Materials, the said increase is not authorized on the commodities described in paragraph (m) of the general exceptions to tariff No. X–295–A; and subject to maximum no higher than specified in the suspended tariff of increased rates and charges, X–305, effective June 5, 1974, or in connecting link supplements proposed to be made subject to said tariff, X–305, and in no event to produce greater revenue in connection with any rate or charge on any particular commodity or service than proposed in X–305; the master tariff authorized herein shall republish those provisions not suspended by this order, including tables 3 and 3–G and related provisions, provided that the tables are updated to include surcharge increase that became applicable June 1, 1974, and shall provide for cancellation of Tariff of Increased Rates and Charges X–305, Western Trunk Line Committee, Agent, ICC A–4931, and other designated agents; and subject to the following conditions:

1. On or before August 19, 1974, each carrier shall provide this Commission (a) with an estimate of the costs of deferred plant and equipment maintenance[3] as of June 30, 1974; number and percent of bad order cars by type; and miles of track by class on which slow orders were in effect. The estimate of deferred maintenance should be classified to show amounts for equipment by type of cars, locomotives plant, including yard and running track, and other similar classes of property and facilities; (b) with a report of the annual maintenance and capital expenditures for the years 1971–1973, inclusive, and the 1st and 2nd quarters of 1974. A report of estimated maintenance and capital investments shall be provided for the 3rd and 4th quarters of 1974 and the first two quarters of 1975.
2. All railroads shall maintain a monthly record of the increased freight revenues derived from the increases by months. The increased freight revenues may be estimated if the procedure for the estimations is explained.
3. Revenues generated by the increases should be expended for capital improvements and deferred maintenance of plant and equipment and the amount needed for increased material and supply cost, other than fuel. A record of such expenditures shall be maintained on a monthly basis.
4. At the end of the 3rd, 6th, and 9th months following the effective date of the increases, each carrier shall provide this Commission with an estimate of the freight revenues generated by the increases. Additionally, each carrier shall report the amount of expenditures made for deferred maintenance of plant and equipment, e.g., by type of car, track, cross ties, etc., as well as amounts expended for capital improvements by type of project. Furthermore, each carrier shall report the amount of unexpended funds derived from the authorized increases and how those funds are to be expended.
5. The schedules containing the increases authorized herein shall expire with June 30, 1975, unless otherwise ordered by this Commission. The Commission in authorizing increased rates and charges on interstate traffic herein is mindful and deeply concerned with the inadequacy of the services provided shippers by the respondent railroads. The Commission is cognizant that during the time rail service deteriorated, rail rates have had to be increased as a result of inflation to cover increased wage, fuel material, and interest costs as well as rising payroll taxes.

The Commission has been and continues to be concerned with the low level of earnings by the railroad industry which has contributed to the deferral of maintenance of plant and equipment, the postponement of capital improvements, and the depletion of the industry's net working capital. These factors in combination have caused a serious deterioration of rail service and increased expenses due to slow orders, car shortages, derailments, and shortages of locomotives.

The Commission has previously expressed its dissatisfaction with the evidence introduced by the respondents in general revenue proceedings. In the subject proceeding, the evidence introduced by the railroads is far from satisfactory, especially, for example, the respondents' failure to identify and quantify the costs of deferred maintenance.

Our responsibilities under the Act, inter alia, section 15a(2), require that we give consideration to "the need, in the public interest of adequate and efficient railway transportation service at the lowest cost consistent with the furnishing of such service; and to the need of revenues sufficient to enable the carriers, under honest, economical, and efficient management to provide such service." (Emphasis supplied) Accordingly, as previously indicated, the Commission intends that revenues generated by increases authorized herein, over and above the amount needed for increased material and supply costs, other than fuel, will be used by the respondents exclusively for reducing deferred maintenance of plant and equipment and delayed capital improvements in order that rail service to the shippers will be improved. The Commission expects that the authorized increases will enable the respondents' to expend substantially more for maintenance and capital improvements than in recent years and will evaluate respondents' compliance with this directive. Respondents' failure to apply the increased revenues as heretofore specified will result in the cancellation of these authorized increases. The Commission will determine whether cancellation should be ordered after evaluation of each of the reports required by the conditions set forth in subparagraph 4, of the second ordering paragraph hereof. In any event, on or before June 30, 1975, the Commission will determine whether the increase so authorized should be allowed to expire or be made permanent.

It is further ordered, That in making effective any increases in rates and charges herein authorized, the carriers which are parties to this proceeding be, and they are hereby, required to maintain and preserve all existing port relationships (including those involving Great Lakes and Pacific Coast ports) duly established by order of the Commission or recognized customs of the trade, and to observe the prohibitions of the Interstate Commerce Act with regard to unjust discrimination and undue and unreasonable preference and prejudice;

It is further ordered, That copies of any tariff filed hereunder shall be transmitted by first-class mail to all parties at the same time as the official filing at the Commission;

And it is further ordered, That all outstanding orders of the Commission be, and they are hereby, modified to permit the increases authorized herein to become effective.

FOURTH SECTION ORDER NO. 20457

It appearing, that carriers parties to the proceeding applied for relief from the provisions of section 4 of the Act necessary to establish the rates and charges originally sought; that the increases in rates and charges authorized herein cannot be published and made effective without producing in some instances rates or charges that yield greater compensation in the aggregate for the transportation of like kind of property for a shorter than for a longer distance over the same line or route in the same direction, or greater compensation as a through rate or charge than the aggregate-of-intermediate rates or charges subject to the Act, in contravention of section 4 thereof; that the increased cost of railroad operation necessitates the increases in rates and charges involved in this proceeding which cannot be made effective without fourth-section relief; that application of the increased charges to or from more distant points will not result in the establishment of rates to or from more distant points that are not reasonably compensatory; that no protestant adequately opposed issuance of the fourth-section relief sought on the ground that it would be adversely affected by the fourth-section departures that may be created by the increased rates; and that a special case has been presented in which the Commission may authorize relief from the provisions of section 4:

It is ordered, That carriers subject to the Interstate Commerce Act and parties to said proceeding be, and they are hereby, authorized to establish and maintain the increased rates and charges described herein without observing the provisions of section 4 of the Act;

It is further ordered, That parties to said proceeding be, and they are hereby, authorized to establish and maintain rates and charges permitted to become effective in this order without observing the long-and-short-haul provisions of section 4 of the Act in cases arising out of the failure to apply the full increases in rates and charges over interstate routes between points in a single State, in turn caused by the failure of the State authorities to authorize the full increases permitted in this proceeding;

It is further ordered, That in those instances in which rates in contravention of section 4 are established under authority contained herein, the schedule containing such rates shall make reference to this order in the manner required by Rule 28 of Tariff Circular No. 20;

And it is further ordered, That the fourth section relief granted herein shall expire with June 30, 1975.

---

[1] Only the Long Island Rail Road did not join in the petition.

[2] Certain exceptions were made to the increase.

[3] The railroad management decision or determination to expend these revenues largely on long deferred maintenance or other capital improvements has been made. See the verified statements of the Chief Executive Officers or Operating Officers of the 17 representative railroads, which statements are a matter of record herein.

V39 1111 JUN 7 74 XUM

AMENDMENT TO SPECIAL PERMISSION NO. 74-3440, AUTHORIZING CERTAIN DEPARTURES FROM THE COMMISSION'S PUBLISHED TARIFF REGULATIONS

It is ordered, That Special Permission No. 74-3440, be, and it is hereby, amended to permit the establishment of the increases in freight rates and charges authorized by the Commission in this order, subject to the terms, conditions and limitations provided therein.

By the Commission. (Commissioners O'Neal and Clapp dissenting; Vice Chairman MacFarland not participating.)

[SEAL] ROBERT L. OSWALD,
Secretary.

[Ex Parte No. 293 (Sub No. 1]

NORTHEASTERN RAILROAD INVESTIGATION, RAIL SERVICES PLANNING OFFICE HEARINGS

Public Hearing

JUNE 3, 1974.

Present: George M. Chandler, Director, Rail Services Planning Office, to whom the above-entitled proceeding has been referred pursuant to section 205 of the Regional Rail Reorganization Act of 1973.

Pursuant to section 205(d)(1) of the Rail Reorganization Act of 1973, notice is hereby given that the Rail Services Planning Office will conduct a hearing beginning July 10, 1974 and ending on July 12, 1974 in White River Junction, Vermont at the American Legion Hall, 35 South Main Street, White River Junction, Vermont.

The hearing will commence at 9:30 a.m. on each day. An evening session, commencing at 7 p.m., will be held on the first day. Additional sessions, based upon need, may be held at the discretion of the presiding officer.

Persons interested in speaking at the hearing should contact Carol Perry, 87 State Street, Room 303, P.O. Box 548, Montpelier, Vermont 05602. Telephone: (802) 223-6001.

The following uniform rules, procedures and practices for the hearings are established:

(1) All oral presentation will be limited to 10 minutes. Appearance times can only be obtained prior to the hearing by contacting the designated contact person on a first-come, first-served basis. Persons waiting until the hearing commences to seek an opportunity to speak will be given the next available time on a first-come, first-served basis. Any person, whether appearing at the hearing or not, may supply for the record any written materials and exhibits by no later than July 12, 1974. All written materials for the record must be on 8½" x 11" paper and submitted in 6 copies.

(2) Persons requesting an appearance time will be asked: their name, address, telephone number, for whom they work, whether they are representing a group, to indicate whether or not they wish aid from the Office of Public Counsel. If assistance is requested, an attorney from the Office of Public Counsel will contact the party prior to the hearing.

(3) The proceeding is legislative, not judicial in nature. It is designed to elicit as many public views as possible on present and future rail service needs in the region. Witnesses will not be required to testify under oath and there will be no cross-examination or rebuttal testimony. Only questions from the presiding officer and the representatives of the Office of Public Counsel will be permitted.

(4) One purpose of the hearings is to inform the public of the pendency of the statutory restructuring plan, and of the opportunities for public participation. Therefore, the usual Interstate Commerce Commission limitations on radio and television news coverage during the hearing will be relaxed. The presiding officer will permit live news coverage in the hearing room, provided that the conduct of the media representatives and the presence of radio and television equipment does not disturb the orderly conduct of the proceeding. The customary rules of the Commission prohibiting smoking and talking during the hearing will apply.

(5) Written testimony or correspondence which is not submitted at the hearing should be mailed, identified as White River Junction hearing, directly to:

Rail Services Planning Office
1900 L Street, NW.
Washington, D.C. 20036
(202) 254-3900

It is further ordered that notice of this order shall be given to the general public by depositing a copy thereof in Office of the Secretary of the Commission at Washington, D.C. and by filing a copy with the Director, Office of the Federal Register.

Issued in Washington, D.C., this 31st day of May, 1974.

[SEAL] ROBERT L. OSWALD,
Secretary.

FEDERAL ENERGY OFFICE

REFINERS' BUY-SELL LIST

Crude Oil Allocation

Pursuant to the authority of the Emergency Petroleum Allocation Act of 1973 and E.O. 11748, 38 FR 33575, and in accordance with the provisions of 10 CFR 211.65(e), the notice specified in § 211.65 (e) is hereby published. The notice lists the sales obligations and purchase opportunities for refiners for the first allocation quarter (June 1–August 31, 1974) of FEO's revised crude oil allocation program which was published on May 14, 1974 (39 FR 17288).

The buy-sell list is set forth as an appendix to this notice. Included as part of the list, as required by § 211.65(e), are: the quantity of crude oil each refiner-buyer is eligible to purchase, the total allocation obligation for all refiner-sellers, the fixed percentage share for each refiner-seller, and the quantity of crude oil that each refiner-seller is obligated to offer for sale to refiner-buyers. The quantity of crude oil that each refiner-seller is obligated to sell includes unsold amounts, if any, of such refiner-seller from the allocation period February through April 1974, as required by § 211.65(d)(3). This quantity also reflects the adjustments provided for by § 211.65 (d)(2). Similarly, the quantity of crude oil that each refiner-buyer is eligible to purchase has been adjusted pursuant to § 211.65(c) (3) and (4).

The buy-sell list is applicable for the period June 1 to August 31, 1974. The provisions of 10 CFR 211, Subpart C, apply to all transactions made under the buy-sell list.

The buy-sell list covers PAD districts I through V, and amounts shown are in barrels of 42 gallons each, for the specified period. Pursuant to § 211.65(d), refiner-sellers are required to offer the amount of crude oil listed by their names for sale to refiner-buyers. Under § 211.65 (a), refiner-buyers have the opportunity to purchase crude oil up to the amounts listed by their names.

The procedures of 10 CFR 211, Subpart C, applicable to transactions under the buy-sell list provide that if a sale is not agreed upon within 15 days of the date of publication of this notice, a refiner-buyer that has not been able to negotiate a contract to purchase crude oil may request FEO to direct one or more refiner-sellers to sell a suitable type of crude oil to such refiner-buyer. Such a request must be made within 30 days of the publication of this notice. Upon such request, FEO may direct one or more refiner-sellers which have not sold their allocation quarter quantity to sell crude oil to the refiner-buyer. If the refiner-buyer declines to purchase the crude oil specified by FEO, the rights of that refiner-buyer to purchase that volume of crude oil are forfeited during this allocation quarter, providing that the refiner-seller or refiner-sellers in question have fully complied with the provisions of Subpart C. Refiner-buyers making such request must provide the FEO with the following information:

1. Name of the refiner-buyer and of the person authorized to act for the refiner-buyer in buy-sell transactions.
2. Names and locations of the refineries for which crude oil is sought, the amount of crude oil sought for each refinery, and the technical specification range of crude oil which can be processed in each refinery.
3. Names and locations of all refiner-sellers from whom crude oil has been sought under this program and the volume and specification of the crude oil sought from each.
4. Statement of any restrictions, limitations or constraints on the refiner-buyer's purchasing crude oil, with particular respect to manner or time of deliveries and price.
5. The response of each refiner-seller to whom a request to purchase crude oil has been made, and the name and telephone number of the individual contacted at each such refiner-seller.
6. Such other pertinent information as FEO may request.

When a refiner-seller is directed by FEO to sell crude oil to a refiner-buyer, it is expected that every reasonable effort will be made to consummate a transaction. Upon either termination of negotiations or consummation of a transaction, FEO shall be advised of the outcome by both parties.

Each refiner-buyer and refiner-seller will report the details of each transaction under this program to FEO on Form 903 (rev.), which will be issued in the near future.

Refiners wishing to include new refining capacity, as defined in 10 CFR 211.62, in the allocation quarter commencing September 1, 1974, must apply to the FEO for certification of that capacity no later than July 3, 1974.

All reports and applications made under this notice should be addressed to:

Fuel Manager (Crude Oil, Refinery Mix, and Petrochemical Feedstocks), P.O. Box 2885, Washington, D.C. 20013.

Issued in Washington, D.C., June 5, 1974.

JOHN C. SAWHILL,
Administrator,
Federal Energy Office.

APPENDIX

The list of refiner-sellers and refiner-buyers for the period June 1, 1974 through August 31, 1974, is as follows. The list sets forth the identity of each refiner-seller and refiner-buyer, the fixed percentage share of each refiner-seller, and the volumes of crude oil (reflecting all adjustments required under § 211.65) that each such refiner-seller or refiner-buyer is either obligated to offer for sale or is eligible to purchase, as the case may be.

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Modification and Supersedeas Decision, Index

V39 111 JUN 7 74 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, (40 U.S.C. 276a)) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure theron prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the Federal Register without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and Supersedeas Decisions to General Wage Determination Decisions. Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended (40 U.S.C. 276a)) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

NEW GENERAL WAGE DETERMINATION DECISIONS

Kentucky	AQ–4122

MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State.

Alabama, AQ–4095	Mar. 29, 1974.
Delaware, AQ–2122	May 24, 1974.
Florida, AQ–4099	Apr. 12, 1974.

GROUP VI	$5.10					

GROUP I: Buses, jeeps, station wagons, pilot or escort cars, trucks up to 6 cu. yds. or 2-ton capacity, water trucks (single axle), dumpmen & tire repairmen

GROUP II: Dump trucks 6 cu. yds. to 13 cu. yds. capacity, transit mix trucks (single axle), 3 axle trucks

GROUP III: Dump trucks 13 cu. yds. capacity, truck mechanic helper

GROUP IV: Ashpalt distributor trucks, lumber carriers & similar type equipment, lift gate trucks, transit mix trucks (tandem axle), dump trucks 16 cu. yds. or more, fuel & grease trucks, and 4-axle trucks

GROUP V: A-frame trucks, boom trucks, gin pole trucks, winch trucks (when used for hauling material & equipment), trucks with 5-axle or more, fork lift trucks

GROUP VI: Euclids, euclid water truck, caterpillars, or similar off highway earth moving equipment (not self-loaded), truck mechanic

INDEX TO GENERAL WAGE DETERMINATION DECISIONS AND MODIFICATIONS AS OF MAY 3, 1974

There is set forth below an index to general wage determination decisions and modifications as published in the FEDERAL REGISTER pursuant to the Davis-Bacon and related Acts. The index lists general wage determination decisions and modifications by State and county. An updated index is published on the first Friday of each month.

The index is published for the convenience of the public and the Department of Labor will endeavor to keep it accurate and up to date. In the event the data in the index and published general decisions do not coincide, the published general decisions shall control.

"Bureaucrat's Bible" or
"Guerrilla Handbook"?

OFFICE OF THE
FEDERAL REGISTER
NATIONAL ARCHIVES AND
RECORDS SERVICE
GENERAL SERVICES ADMINISTRATION

United States Government Manual

1973/74 Edition

The Manual has been called the "bureaucrat's bible." It has also been called a "guerrilla warfare handbook for citizens tired of jousting with windmills."

As the United States Government Organization Manual, it has been a familiar aid to businessmen, researchers, lawyers, and students seeking current information about the Federal Government. This year, the title has been changed to reflect a broader emphasis on consumer-interest programs, although the agency organization charts are still included.

A fresh, modern format highlights a "Sources of Information" section for most agencies, with addresses and telephone numbers for obtaining information on:

- Employment
- Government contracts
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

$4.95 PER COPY

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—REGULATIONS AND STANDARDS UNDER THE AGRICULTURAL MARKETING ACT OF 1946

FEDERAL GRADING AND INSPECTION SERVICES

Certain Fees and Charges

Under authority contained in the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621 et seq.), the U.S. Department of Agriculture hereby amends the regulations governing the grading and inspection of domestic rabbits and edible products thereof and U.S. specifications for classes, standards, and grades with respect thereto (7 CFR Part 54), the regulations governing the voluntary inspection and grading of egg products (7 CFR Part 55), the regulations governing the grading of shell eggs and U.S. standards, grades, and weight classes for shell eggs (7 CFR Part 56), and the regulations governing the grading and inspection of poultry and edible products thereof and U.S. classes, standards, and grades with respect thereto (7 CFR Part 70), as set forth below:

STATEMENT OF CONSIDERATIONS

The amendments increase the hourly rate for voluntary grading and inspection service performed on a nonresident basis from $9.20 to $12, and increase the hourly rate for such service performed on Saturdays, Sundays, or legal holidays from $11.40 to $15 per hour. In addition, the fees for laboratory services for individual laboratory tests are increased in accordance with the new hourly rates based on the time required to perform such services plus 10 percent to cover the costs of reagents, breakage, and equipment depreciation.

The increases in fees are necessary to cover the higher costs of performing voluntary grading and inspection services. The existing hourly rates of $9.20 for regular work, and $11.40 for work performed on Saturdays, Sundays, or legal holidays became effective on July 1, 1970. Since that time the salaries of Government employees have increased about 25 percent. There have also been increases in other costs such as fringe benefits, supplies, travel, etc. In addition, a new cost factor of rent has been added. Effective July 1, 1974, the Department will be charged rent for the space it occupies.

The hourly rate to be charged for any laboratory analyses not covered by an individual test or for other applicable services performed in the laboratory has been increased from $11.40 to $13.20. The cost of rendering laboratory service has increased proportionately with the cost of providing other services on a nonresident basis. Laboratory fees also have not been adjusted since July 1, 1970.

Several other minor changes have been made solely for the sake of clarity.

The amendments are as follows:

PART 54—GRADING AND INSPECTION OF DOMESTIC RABBITS AND EDIBLE PRODUCTS THEREOF; AND U.S. SPECIFICATIONS FOR CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

1. In § 54.101, paragraphs (b) and (c) are amended to read:

§ 54.101 On a fee basis.

* * * * *

(b) Fees for grading service will be based on the time required to perform such service for class, quality, quantity (weight test), or condition of ready-to-cook product. The hourly charge shall be $12 and shall include the time actually required to perform the work, waiting time, travel time, and any clerical costs involved in issuing a certificate.

(c) Grading services rendered on Saturdays, Sundays, or legal holidays shall be charged for at the rate of $15 per hour. Information on legal holidays is available from the Supervisor.

PART 55—VOLUNTARY INSPECTION AND GRADING OF EGG PRODUCTS

2. In § 55.510, paragraphs (b) and (c) are amended to read:

§ 55.510 Fees and charges for services other than on a continuous resident basis.

* * * * *

(b) Fees for product inspection and sampling for laboratory analysis and appeals will be based on the time required to perform the services. The hourly charge shall be $12 and shall include the time actually required to perform the sampling and inspection, waiting time, travel time, and any clerical costs involved in issuing a certificate.

(c) Services rendered on Saturdays, Sundays, or legal holidays shall be charged for at the rate of $15 per hour. Information on legal holidays is available from the Supervisor.

* * * * *

3. Section 55.550 is amended to read:

§ 55.550 Laboratory analysis fees.

(a) The fees listed for the following individual laboratory analyses cover costs involved in the preparation and analysis of the product, certificate issuance, and personnel and overhead costs other than the expenses listed in § 55.530.

	Fee
Solids	$6.60
Fat	13.20
Bacteriological plate count	6.60

Staphylococcus	19.80
Salmonella: [1]	
Step 1	13.20
Step 2	6.60
Step 3	13.20

[1] Salmonella test may be in three steps as follows: Step 1—growth through differential agars; step 2—growth and testing through triple-sugar-iron and lysine iron agars; step 3—confirmatory test through biochemicals.

(b) The fee charge for any laboratory analysis not listed in paragraph (a) of this section, or for any other applicable services rendered in the laboratory shall be based on the time required to perform such analysis or render such service. The hourly rate shall be $13.20.

PART 56—GRADING OF SHELL EGGS AND U.S. STANDARDS, GRADES, AND WEIGHT CLASSES FOR SHELL EGGS

4. In § 56.46, paragraphs (b) and (c) are amended to read:

§ 56.46 On a fee basis.

* * * * *

(b) Fees for grading services will be based on the time required to perform the services. The hourly charge shall be $12, and shall include the time actually required to perform the grading, waiting time, travel time, and any clerical costs involved in issuing a certificate.

(c) Grading services rendered on Saturdays, Sundays, or legal holidays shall be charged for at the rate of $15 per hour. Information on legal holidays is available from the Supervisor.

V39 112 JUN 10 74 XUM

PART 70—GRADING AND INSPECTION OF POULTRY AND EDIBLE PRODUCTS THEREOF; AND U.S. CLASSES, STANDARDS, AND GRADES WITH RESPECT THERETO

5. In § 70.131, paragraphs (b) and (c) are amended to read:

§ 70.131 On a fee basis.

* * * * *

(b) Fees for grading services will be based on the time required to perform such services for class, quality, quantity (weight test), or condition, whether live, dressed, or ready-to-cook poultry is involved. The hourly charge shall be $12.00, and shall include the time actually required to perform the work, waiting time, travel time, and any clerical costs involved in issuing a certificate.

(c) Grading services rendered on Saturdays, Sundays, or legal holidays shall be charged for at the rate of $15.00 per hour. Information on legal holidays is available from the Supervisor.

* * * * *

Legislation requires that the fees and charges for grading and inspection services under the Agricultural Marketing Act of 1946, as amended, (7 U.S.C. 1621 et seq.) shall be reasonable and shall, as nearly as possible, cover the cost of such service.

The facts upon which the determinations are based as to the level of fees and charges necessary to cover these costs are not available to the industry, but are peculiarly within the knowledge of the Department. Therefore, public rulemaking would not result in the Department receiving additional information on this matter.

Accordingly, pursuant to 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause is found for making the amendments effective less than 30 days after publication in the FEDERAL REGISTER.

Issued at Washington, D.C., this 5th day of June, 1974, to become effective July 1, 1974.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

[FR Doc.74-13263 Filed 6-7-74;8:45 a.m.]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg 467, Amdt. 1]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period May 31–June 6, 1974. The quantity that may be shipped is increased due to improved market conditions for California-Arizona Valencia oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674) and upon the basis of the recommendation and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Valencia Orange Regulation 467 (39 FR 19219). The marketing picture now indicates that there is a greater demand for Valencia oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Valencia oranges to fill the current demand thereby making a greater quantity of Valencia oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until July 10, 1974 (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Valencia oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i), (ii), and (iii) of § 908.767 (Valencia Orange Regulation 467 (39 FR 19219)) are hereby amended to read as follows:

"(i) District 1: 494,000 cartons;
"(ii) District 2: 378,000 cartons;
"(iii) District 3: 178,000 cartons."

(Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674))

Dated: June 5, 1974.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-13262 Filed 6-7-74;8:45 am]

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

PART 1427—COTTON

Bagging and Bale Tie Specifications

On May 17, 1973, Commodity Credit Corporation published in the FEDERAL REGISTER (38 FR 12927) a notice that the regulations issued by Commodity Credit Corporation, published as the Specifications for Bagging and Bale Ties Used in Wrapping Cotton in 37 FR 3742, as amended, were being reviewed to determine whether, beginning with the 1974 crop of cotton, the regulations should be continued, modified, or rescinded. Most responses recommended continuation of the specifications with appropriate modifications. After consideration of all responses and recommendations of the Cotton Industry Bale Packaging Committee, it has been determined that detailed specifications should be continued for the 1974 crop of cotton and augmented to include other types of bagging, bale ties, and test methods. Accordingly, the Specifications for Bagging and Bale Ties Used in Wrapping Cotton published in 37 FR 3742, as amended, are hereby revised to read as shown below.

The material previously appearing in this subpart remains in full force and effect as to the crop years to which it was applicable.

Sec.
1427.1901 Purpose.
1427.1902 Specifications for bale ties and buckles.
1427.1903 Specifications for bagging.
1427.1904 Test methods.

AUTHORITY: Secs. 4, 5, 62 Stat. 1070, as amended; secs. 101, 103, 401, 63 Stat. 1051, as amended (15 U.S.C. 714 (b) and (c); 7 U.S.C. 1441, 1444, 1421).

§ 1427.1901 Purpose.

This subpart is for the purpose of announcing the bagging and bale tie specifications applicable to wrapping 1974 crop cotton tendered to CCC for loans, unless otherwise approved by the Executive Vice President, CCC, or his designee: *Provided, however,* That all bales of cotton packaged and identified with the testing program of the Cotton Industry Bale Packaging Committee sponsored by the National Cotton Council will be exempt from the provisions of this subpart.

§ 1427.1902 Specifications for bale ties and buckles.

(a) *Conventional hot rolled steel ties and buckles.* The total weight of bale ties and buckles to tie each bale of cotton shall be not less than 8½ pounds. Each bale of cotton must have not less than (1) six ties for flat bales (bales having densities less than 23 pounds per cubic foot), (2) eight ties for standard density bales (bales having densities of at least 23 but less than 28 pounds per cubic foot), or (3) eight ties for universal density bales (bales having densities of 28 pounds or higher per cubic foot) and have not had side pressure applied.

(b) *Cold rolled high tensile steel strapping*—(1) *For use on flat bales and standard and universal density bales compressed at a warehouse.* The strapping shall have a minimum width of three-fourths of an inch and minimum thickness of 0.025 inch with zero tolerance, minimum weight of 1 pound per 15.7 linear feet of strapping or 4 pounds per bale of cotton, minimum breaking strength of 2,400 pounds, and minimum joint efficiency of 85 percent or 2,040 pounds. There shall be a minimum of six ties per bale for flat bales and a minimum of eight ties per bale for standard density bales, and the supplier's name or trademark must be printed or embossed on every 36 inches of strapping.

(2) *For use on gin standard density and gin universal density bales.* The strapping shall have a minimum width of three-fourths of an inch and minimum thickness of 0.031 inch with zero tolerance, minimum weight of 1 pound per 12.7 linear feet of strapping or 5 pounds per bale of cotton, and minimum breaking strength of 3,200 pounds with minimum joint efficiency of 85 percent or 2,720 pounds for gin standard density bales or 4,000 pounds with minimum joint efficiency of 85 percent or 3,400 pounds for gin universal density bales. There shall be a minimum of eight ties per bale, and the supplier's name or trademark must be printed or embossed on every 36 inches of strapping.

(c) *Wire ties.* All wire ties must be coated with a rust inhibitor.

(1) *For use on flat bales.* The ties shall be 9-gauge or 0.148 inch diameter wire with a plus or minus tolerance of 1 percent. The breaking strength, including joint, must not be less than 2,100 pounds. There shall be a minimum of six ties per bale and a minimum weight of 4 pounds per bale.

(2) *For use on gin standard density and gin universal density bales.* The ties shall be 9-gauge or 0.148 inch diameter wire with a plus or minus tolerance of 1 percent. The breaking strength of the wire must not be less than 3,400 pounds with the joint placed on top of the bale. If the joint is placed on the side of the bale, the breaking strength of the wire must not be less than 3,400 pounds with a joint efficiency of not less than 90 percent or 3,200 pounds with a joint efficiency of not less than 95 percent. There must be a minimum of eight ties per bale and a minimum weight of 4 pounds per bale.

(3) *For use on standard and universal density bales compressed at a warehouse.* The ties shall be 10-gauge or 0.135 inch diameter wire with a plus or minus tolerance of 1 percent. The breaking strength of wire must not be less than 2,850 pounds with the joint placed on top of the bale. If the joint is placed on the side of the bale, the breaking strength of the wire must not be less than 2,850 pounds with a joint efficiency of 90 percent. The elongation of the wire shall not exceed 4 percent in 10 inches. There must be a minimum of eight ties per bale and a minimum weight of 3 pounds per bale. Wire ties meeting the requirements of paragraph 2 of this section may also be used on standard and universal density bales compressed at a warehouse.

(d) If the ties on a bale are not suitable for reuse when the bale is compressed, the ties will not be deemed to meet these specifications unless:

(1) If the bale is stored at a warehouse which has compress facilities or arrangements, either (i) the producer has prepaid the charge for furnishing new bale ties (separately or as a part of warehouse receiving charges), or (ii) such charge is included in the warehouse receiving charge and noted on the warehouse receipt (in which case such receiving charges will be deducted from the loan proceeds).

(2) If the bale is stored at any other warehouse and bales shipped from the warehouse are normally compressed in transit, the warehouse receipt must show that the bale ties are not suitable for reuse when the bale is compressed, and the charge assessed by the nearest compress in line of transit for furnishing new bale ties will be deducted from the loan proceeds.

§ 1427.1903 Specifications for bagging.

Except in cases where shrink-pack polyethylene bags are used, each bale must be wrapped with a pattern of bagging consisting of two pieces (panels) of bagging material. All bagging material must be clean, in sound condition, and of sufficient strength to adequately protect the cotton. The material must not have salt or other corrosive material added and must not contain sisal or other hard fiber or any other material which will contaminate or adversely affect cotton as determined by the President or Executive Vice President, Commodity Credit Corporation.

(a) *New jute bagging used to wrap flat bales.* Each one-half pattern (panel) of new jute bagging used to wrap flat bales must not be less than 108 inches or more than 115 inches in length and must not be less than 47 inches or more than 56 inches in width. The bagging must contain not less than 41 warp yarns per 12 inches of bagging of a size equal to or larger than the weft (filling) yarns and must contain not less than 25 weft (filling) yarns per 12 inches of bagging. The bagging must weigh not less than 11¼ and not more than 13¼ pounds per pattern (two panels) at 13.75 percent moisture content (not moisture regain).

(b) *New jute bagging used to wrap gin standard density and gin universal density bales.* Each one-half pattern (panel) of new jute bagging used to wrap gin standard density or gin universal density bales must not be less than 96 inches or more than 102 inches in length and must not be less than 40 inches or more than 48 inches in width. The bagging must contain not less than 150 warp yarns per 40 inches of bagging of a size equal to or larger than the weft (filling) yarns, must contain not less than 25 weft (filling) yarns per 12 inches of bagging, and must weigh not less than 7½ and not more than 8¾ pounds per pattern (two panels) at 13.75 percent moisture content (not moisture regain): *Provided,* That new jute bagging material meeting the warp and weft requirements for jute bagging used on flat bales and weighing not less than 8¾ and not more than 11¼ pounds per pattern at 13.75 percent moisture content (not moisture regain) may be used to wrap gin standard density and gin universal density bales.

(c) *Salvage jute (burlap) bagging used to wrap flat bales.* (1) Each one-half pattern (panel) of salvage jute bagging used to wrap flat bales must not be less than 108 inches or more than 115 inches in length and must be not less than 47 inches or more than 56 inches in width. The bagging must be processed specifically for cotton bale coverings from once-used good quality closely woven heavy jute bags previously used for sugar, coffee, cocoa, or other products approved by the President or Executive Vice President, CCC. The bagging must weigh not less than 11¼ and not more than 13¼ pounds per pattern (two panels) at 13.75 percent moisture content (not moisture regain).

(2) Each one-half pattern must be composed of not more than three pieces of used bag cloth of the same construction and weight. There must not be more than two crosswise sewn seams and no lengthwise sewn seams in any one-half pattern. (Seams, hems, and necessary patches in the original bags from which the bagging is made will not be considered sewn seams.) Overlap at seams and patches must not be greater than 3½ inches. Overlaps, patches, and hems sewn into bagging to increase the weight of lightweight material will not be permitted. Sewn seams must be such that the edges of the joined pieces coincide to make a symmetrical one-half pattern without appreciable displacement of the edge of one piece of bagging relative to the edge of the adjoining piece in the seam. Sewing must be with strong thread with not larger than ⅜ inch stitching.

(d) *Salvage jute (burlap) bagging used to wrap gin standard density and gin universal density bales.* (1) Each one-half pattern (panel) of salvage jute bagging used to wrap gin standard density or gin universal density bales must not be less than 40 inches or more than 48 inches in width and must be not less than 96 inches or more than 102 inches in length. The bagging must be processed specifically for cotton bale coverings from once-used good quality closely woven heavy jute bags previously used for sugar, coffee, cocoa, or other products approved by the President or Executive Vice President, CCC. The bagging must weigh not less than 7½ and not more than 11¼ pounds per pattern (two panels) at 13.75 percent moisture content (not moisture regain).

(2) Each one-half pattern must be composed of not more than three pieces of used bag cloth of the same construction and weight. There must not be more than two crosswise sewn seams and

V 39 112 JUN 10 74 XUM

no lengthwise sewn seams in any one-half pattern. (Seams, hems, and necessary patches in the original bags from which the bagging is made will not be considered sewn seams.) Overlap at seams and patches must not be greater than 3½ inches. Overlaps, patches, and hems sewn into bagging to increase the weight of lightweight material will not be permitted. Sewn seams must be such that the edges of the joined pieces coincide to make a symmetrical one-half pattern without appreciable displacement of the edge of one piece of bagging relative to the edge of the adjoining piece in the seam. Sewing must be made with strong thread with not larger than ⅜ inch stitching.

(e) *Cotton bagging used to wrap flat bales.* Cotton bagging may be used to wrap flat bales stored only in the States of Alabama, Florida, Georgia, North Carolina, South Carolina, and Virginia. Each one-half pattern of cotton bagging must not be less than 108 inches or more than 112 inches in length and must not be less than 45 inches or more than 48 inches in width. The bagging must contain not less than 120 warp yarns (plied or single) per 12 inches of bagging of a size equal to or larger than the weft (filling) yarns, must contain not less than 78 weft (filling) yarns (plied or single) per 12 inches of bagging and must weigh not less than 2½ pounds per pattern at 8.5 percent moisture content (not moisture regain).

(f) *Cotton bagging used to wrap gin standard density or gin universal density bales.* Each one-half pattern of cotton bagging used to wrap gin standard density or gin universal density bales must not be less than 100 inches or more than 104 inches in length and must not be less than 45 inches or more than 48 inches in width. The bagging must contain not less than 120 warp yarns (piled or single) per 12 inches of bagging of a size equal to or larger than the weft (filling) yarns, must contain not less than 78 weft (filling) yarns, (plied or single) per 12 inches of bagging, and must weigh not less than 2¼ pounds per pattern (two panels) at 8.5 percent moisture content (not moisture regain).

(g) *Polyethylene used to wrap gin standard and gin universal density bales*—(1) *General requirements*—(i) *Density.* Low density virgin polyethylene.

(ii) *Gauge.* The gauge shall be not less than 8 mil.

(iii) *Tensile strength.* For machine (length) direction, not less than 2,500 pounds per square inch, and for transverse (cross) direction, not less than 2,000 pounds per square inch.

(iv) *Elongation.* For both machine (length) and transverse (cross) direction, not less than 400 percent.

(v) *Impact resistance.* Not less than 450 grams.

(vi) *Slip characteristics.* Bagging must be low slip (coefficient of friction not less than .50) with no anti-block or slip additive included.

(vii) *Gauge tolerance.* The average of any 20 evenly spaced points around the length and width of a sheet or bag must be within plus or minus 10 percent of 8 mil. Yield on any order of 2,000 pounds or more shall not vary more than plus or minus 3 percent from the nominal yield.

(viii) *Tagging.* A piece of woven yarn scrim not less than 5 inches by 7 inches and laminated on each side with polyethylene must be placed inside the bag or sheet on head of bale and heat welded to the cover or some other suitable reinforcing material must be bonded to the bag or sheet.

(ix) *Tare weight.* Tare weight shall be not less than 2 pounds per pattern or shrink-pack bag.

(x) *Sealing head of bales.* Extra precaution must be taken in sealing heads of bales to provide maximum coverage and protection.

(2) *Additional requirements for polyethylene sheets.* Each sheet used to wrap gin standard density bales shall be not less than 100 inches in length by 46 inches in width. Each sheet used to wrap gin universal density bales shall be not less than 94 inches in length by 42 inches in width when used on 54 inch by 20 inch presses and not less than 90 inches in length by 44 inches in width when used on 50 inch by 20 inch presses. Guide marks shall be imprinted on sheets in order that press may be dressed properly.

(3) *Additional requirements for polyethylene shrink-pack bags.* Only gussetted bags shall be used. Each bag shall be not less than 87 inches in length when used on 54 inch by 20 inch presses and not less than 83 inches in length when used on 50 inch by 20 inch presses. The ratio of machine (length) direction shrink to the transverse (cross) direction shrink must not exceed 1.5:1.

(h) *Polyethylene scrim-laminate sheet panels used to wrap gin universal and gin standard density bales.* (1) *Polyethylene.* A sheet of not less than 2.5 mil low density virgin polyethylene shall be laminated on each side of a polyester scrim (total of not less than 5 mils polyethylene). The polyethylene must be low slip (coefficient of friction not less than .50) with no anti-block or slip additive included.

(2) *Polyester scrim.* The polyester scrim must be made from 1,000 denier polyester yarn with not less than 3 ends per inch in machine (length) direction and not less than 2 ends per inch in transverse (cross) direction.

(3) *Dimensions.* Each sheet used to wrap gin standard bales shall be not less than 100 inches in length by 46 inches in width. Each sheet used to wrap gin universal bales shall be not less than 94 inches in length by 42 inches in width for 54 inch by 20 inch presses, and not less than 90 inches in length by 44 inches in width for 50 inch by 20 inch presses. Guide marks shall be imprinted on sheets in order that press may be dressed properly.

(4) *Weight.* Tare weight shall be not less than 2 pounds per pattern.

§ 1427.1904 Test methods.

The following testing methods will be used by CCC in determining whether bagging and bale ties and buckles or fasteners used to package cotton tendered for CCC loans beginning with the 1974 crop of cotton meets the above specifications. Except for polyethylene shrink-pack bags, each sample of bagging selected for testing will consist of one-half pattern.

(a) *Length.* The length of the sample will be measured directly using a measuring stick, steel tape, or other suitably graduated device. The sample will be laid out flat on a smooth horizontal surface and the length measured. Measure both selvages for jute panels and for polyethylene sheets and shrink-pack bags, and polyethylene scrim-laminate sheets, measure the length of each side. The length of the sample will be the average of the two measurements rounded to the nearest inch. Jute measurements will be made on the sample in equilibrium with standard atmospheric conditions as specified in A.S.T.M. D 1776–62T.

(b) *Width.* The width of the sample will be measured directly using a measuring stick, steel tape, or other suitably graduated device and will include the selvages. The sample will be laid out flat on a smooth horizontal surface and the measurements made perpendicular to the lengths (selvages in the case of jute). Three width measurements will be taken on each sample. One measurement will be made at the center of the sample and two other measurements will be made approximately 12 inches in from each end of the sample. The average of the three measurements rounded to the nearest inch, will be the width. Jute measurements will be made on the sample in equilibrium with standard atmospheric conditions as specified in A.S.T.M. D 1776–62T.

(c) *Warp yarn count.* For new jute and cotton bagging, the number of warp ends in the width of the sample, including the selvages, will be counted at each end of the sample. The average of the two counts will be divided by the width, as determined above. This figure will be multiplied by 12 to determine warp yarns per 12 inches of bagging or by 40 to determine warp yarns per 40 inches of bagging.

(d) *Weft yarn count.* The number of weft (filling) yarns over a measured length of 36 inches on each sample of new jute and cotton bagging will be counted. The number counted divided by 3 will be the weft yarn count per 12 inches.

(e) *Weight of bagging.* The weight of bagging will be determined by weighing on suitable accurate scales and the weight per pattern determined to the nearest one-quarter pound. Several patterns (or bales of bagging patterns) may be weighed simultaneously and the weight averaged. For jute bagging calculate weight on the basis of 13.75 percent moisture content (not moisture regain) and for cotton bagging calculate

weight on basis of 8.5 percent moisture content (not moisture regain).

(f) *Measurement for polyethylene sheets and polyethylene shrink-pack bags.* The gauge and gauge tolerance shall be tested in accordance with A.S.T.M. D–374. The tensile strength and elongation shall be tested in accordance with A.S.T.M. D–882–67. Impact resistance shall be tested in accordance with A.S.T.M. Method B 1709–67. Slip characteristics shall be tested in accordance with A.S.T.M. D–1894. Calculate ratio of machine direction shrink to transverse direction shrink in accordance with A.S.T.M. D–2732.

(g) *Polyester scrim-laminate.* To determine the number of yarn ends in the machine (length) direction of the sample, count the number of yarns in the width of the sample and divide by the width in inches. Round the result to the nearest whole number. To determine the number of yarn ends per inch in the transverse (cross) direction, count the number of yarns over a measured length of 36 inches on the sample and divide by 36. Round to the nearest whole number.

(h) *Weight and strength of bale ties and buckles.* The bale ties and buckles will be weighed on suitable accurate scales and the weight determined to the nearest one-half pound. A bundle or package of ties and buckles may be weighed and averaged to determine the weight of ties and buckles nceessary to package a bale of cotton. For high tensile steel strapping, a given number of feet of strapping will be weighed to determine the number of feet of strapping per pound. Breaking strength and joint efficiency tests will be made only when determined to be necessary.

Effective date. This subpart is effective for all loans made on the 1974 crop of cotton.

Signed at Washington, D.C., on June 4, 1974.

Kenneth E. Frick,
Executive Vice President,
Commodity Credit Corporation.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—GENERAL REGULATIONS

[FmHA Instruction 427.1]

PART 1807—TITLE CLEARANCE AND LOAN CLOSING

Designation of Attorneys

Part 1807 of Title 7, Code of Federal Regulations (31 FR 14123), is amended by revising § 1807.1(e) to remove the requirement that the State Director must obtain the advice and concurrence of the Office of the General Counsel regarding professional qualifications before designating an attorney.

This revision is being published without notice of proposed rulemaking. It is an amendment of a rule of agency procedure of an internal nature, and therefore it is unnecessary to comply with public participation requirements prescribed by 5 U.S.C. 553.

As amended, § 1807.1(e) is revised to read as follows:

§ 1807.1 General.

* * * * *

(e) *Designation of Attorneys.* The State Director will designate attorneys in each county or area in which it is possible to have them furnish all of the legal services required of such attorneys by this Part. The State Director at his discretion may consult with the Office of the General Counsel, as to the professional qualifications of a proposed designated attorney. Only in a rare case will there be less than two attorneys designated in a county.

* * * * *

Title 8—Aliens and Nationality

CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

PART 242—PROCEEDINGS TO DETERMINE DEPORTABILITY OF ALIENS IN THE UNITED STATES: APPREHENSION, CUSTODY, HEARING, AND APPEAL

Authority To Issue and Cancel Orders To Show Cause; Authority To Issue Warrants of Arrest

Reference is made to the Notice of Proposed Rule Making which was published in the Federal Register on May 2, 1974 (39 FR 15283) pursuant to section 553 of Title 5 of the United States Code (80 Stat. 383) and in which there were set forth the proposed amendments to 8 CFR 242.1, 242.2, and 242.7, pertaining to the authority of Service officers to issue warrants of arrest and to issue and cancel orders to show cause.

No representations were received concerning the proposed rules of May 2, 1974. No change has been made in the proposed rules. The proposed rules, as set forth below, are hereby adopted:

1. In § 242.1(a), the existing third sentence is amended. As amended, § 242.1(a) reads as follows:

§ 242.1 Order to show cause and notice of hearing.

(a) *Commencement.* Every proceeding to determine the deportability of an alien in the United States is commenced by the issuance and service of an order to show cause by the Service. In the proceeding the alien shall be known as the respondent. Orders to show cause may be issued by district directors, acting district directors, deputy district directors, assistant district directors for investigations, and officers in charge at Albany, N.Y.; Cincinnati, Ohio; Dallas, Tex.; Hammond, Ind.; Harlingen, Tex.; Milwaukee, Wis.; Norfolk, Va.; Pittsburgh, Pa.; Providence, R.I.; San Diego, Calif.; Salt Lake City, Utah; St. Louis, Mo.; Spokane, Wash.

2. Section 242.2 is amended in the following respects: in paragraph (a), the existing second, third, seventh, eighth, and ninth sentences are amended; in paragraph (b), the ninth and tenth sentences are amended; in paragraph (c), the first sentence is amended; and paragraph (d) is amended. As amended, §§ 242.2 (a), (b), (c), and (d) read as follows:

§ 242.2 Apprehension, custody, and detention.

(a) *Warrant of arrest.* At the commencement of any proceeding under this part, or at any time thereafter and up to the time the respondent becomes subject to supervision under the authority contained in section 242(d) of the Act, the respondent may be arrested and taken into custody under the authority of a warrant of arrest. However, such warrant may be issued by no one other than a district director, acting district director, deputy district director, assistant district director for investigations, or officer in charge of an office enumerated in § 242.1(a), and then only whenever, in his discretion, it appears that the arrest of the respondent is necessary or desirable. If, after the issuance of a warrant of arrest, a determination is made not to serve it, any officer authorized to issue such warrant may authorize its cancellation. When a warrant of arrest is served under this part, the respondent shall have explained to him the contents of the order to show cause, the reason for his arrest and his right to be represented by counsel of his own choice at no expense to the Government. He shall be advised that any statement he makes may be used against him. He shall also be informed whether he is to be continued in custody or, if release from custody has been authorized, of the amount and conditions of the bond or the conditions under which the may be released. A respondent on whom a warrant of arrest has been served may apply to the district director, acting district director, deputy district director, assistant district director for investigations, or officer in charge of an office enumerated in § 242.1(a), for release or for amelioration of the conditions under which he may be released. The district director, acting district director, deputy district director, assistant district director for investigations, or officer in charge of an office enumerated in § 242.1(a), when serving the warrant of arrest and when determining any application pertaining thereto, shall furnish the respondent with a notice of decision, which may be on Form I–286, indicating whether custody will be continued or

V39 112 JUN 10 74 XUM

terminated, specifying the conditions, if any, under which release is permitted, and advising the respondent appropriately whether he may apply to a special inquiry officer pursuant to paragraph (b) of this section for release or modification of the conditions of release or whether he may appeal to the Board. A direct appeal to the Board from a determination by a district director, acting district director, deputy district director, assistant district director for investigations, or officer in charge of an office enumerated in § 242.1(a), shall not be allowed except as authorized by paragraph (b) of this section.

(b) *Authority of special inquiry officers; appeals.* After an initial determination pursuant to paragraph (a) of this section, and at any time before a deportation order becomes administratively final, upon application by the respondent for release from custody or for amelioration of the conditions under which he may be released, a special inquiry officer may exercise the authority contained in section 242 of the Act to continue or detain a respondent in, or release him from, custody, and to determine whether a respondent shall be released under bond, and the amount thereof, if any. Application for the exercise of such authority may be made to any available special inquiry officer who is stationed at the Service office which has administrative jurisdiction over the proceeding under the order to show cause or who conducts hearings there. If no such special inquiry officer is available, application may be made to any available special inquiry officer stationed in the region wherein said Service office is located. The determination of the special inquiry officer in respect to custody status or bond shall be entered on Form I–342 at the time such determination is made and shall be accompanied by a memorandum by the special inquiry officer as to the reasons for his determination. The special inquiry officer shall promptly notify the respondent and the Service of such determination. Consideration under this paragraph by the special inquiry officer of an application or request of an alien regarding custody or bond shall be separate and apart from any deportation hearing or proceeding under this part, and shall form no part of such hearing or proceeding or of the record thereof. The determination of the special inquiry officer as to custody status or bond may be based upon any information which is available to the special inquiry officer, or which is presented to him by the alien or the Service. The alien and the Service may appeal to the Board of Immigration Appeals from any such determination. After a deportation order becomes administratively final, the respondent may appeal directly to the Board from a determination by the district director, acting district director, deputy district director, assistant district director for investigations, or officer in charge of an office enumerated in § 242.1(a), except that no appeal shall be allowed when the Service notifies the alien that it is ready to execute the order of deportation and takes him into custody for that purpose. An appeal to the Board shall be taken from a determination by a special inquiry officer or from an appealable determination by a district director, acting district director, deputy district director, assistant district director for investigations, or officer in charge of an office enumerated in § 242.1(a) by filing a notice of appeal with the district director within 5 days after the date when written notification of the determination is served upon the respondent and the Service. Upon the filing of a notice of appeal, the district director shall immediately transmit to the Board all records and information pertaining to the determination from which the appeal has been taken. The filing of such an appeal shall not operate to delay compliance, during the pendency of the appeal, with the custody directive from which appeal is taken, or to stay the administrative proceeding or deportation.

(c) *Revocation.* When an alien who, having been arrested and taken into custody, has been released, such release may be revoked at any time in the discretion of the district director, acting district director, deputy district director, assistant district director for investigations, or officer in charge of an office enumerated in § 242.1(a), in which event the alien may be taken into physical custody and detained. If detained, unless a breach has occurred, any outstanding bond shall be revoked and cancelled. The provisions of paragraph (b) of this section shall govern availability to the respondent of recourse to other administrative authority for release from custody.

(d) *Supervision.* Until an alien against whom a final order of deportation has been outstanding for more than six months is deported, he shall be subject to supervision by a district director, acting district director, deputy district director, assistant district director for investigations, or officer in charge of an office enumerated in § 242.1(a), and required to comply with the provisions of section 242(d) of the Act relating to his availability for deportation.

3. In § 242.7, the first sentence is amended. As amended, § 242.7 reads as follows:

§ 242.7 Cancellation of proceedings.

If an order to show cause has been issued, and district director, acting district director, deputy district director, assistant district director for investigations, or officer in charge of an office enumerated in § 242.1(a) may cancel the order to show cause or, prior to the actual commencement of the hearing under a served order to show cause, terminate proceedings thereunder, if in either case he is satisfied that the respondent is actually a national of the United States, or is not deportable under the immigration laws, or is deceased, or is not in the United States, or that the proceeding was improvidently begun; or after actual commencement of hearing such officer may move that the case be dismissed for any of the foregoing reasons or that the case be remanded to his jurisdiction on the ground that it has come to his attention that there are involved the foreign relations of the United States which require further consideration. Cancellation of an order to show cause or termination of proceedings or remand of a case pursuant to the foregoing shall be without prejudice to the alien or the Service. If an order to show cause has been cancelled or proceedings have been terminated pursuant to this section, any outstanding warrant of arrest shall also be cancelled. A special inquiry officer may, in his discretion, terminate deportation proceedings to permit respondent to proceed to a final hearing on a pending application or petition for naturalization when the respondent has established prima facie eligibility for naturalization and the case involves exceptionally appealing or humanitarian factors; in every other case, the deportation hearing shall be completed as promptly as possible notwithstanding the pendency of an application for naturalization during any stage of the proceedings. (Sec. 103, 66 Stat. 173 (8 U.S.C. 1103))

The basis and purpose of the above-prescribed regulations are to empower assistant district directors for investigations to issue and cancel orders to show cause and to empower assistant district directors for investigations and certain specified officers in charge to issue warrants of arrest.

Compliance with the provisions of section 553 of Title 5 of the United States Code (80 Stat. 383) as to delayed effective date is unnecessary in this instance and would serve no useful purpose because the amendments to §§ 242.1, 242.2, and 242.7, which concern solely an internal reallocation of delegated authority, relate to agency management.

Effective date. This order shall become effective on the June 10, 1974.

Dated: June 4, 1974.

L. F. CHAPMAN, JR.,
Commissioner of Immigration and Naturalization.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 113—STANDARD REQUIREMENTS

Correction

In FR Doc. 74–10880, appearing at page 16866 in the issue of Friday, May 10, 1974 the following changes should be made:

1. In the second line of § 113.102(c)(4), the word "section" should read "second".

2. In the fourth line of § 113.38(a), the word "does" should read "dose".

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE (MEAT AND POULTRY PRODUCTS INSPECTION), DEPARTMENT OF AGRICULTURE

PART 317—LABELING, MARKING DEVICES, AND CONTAINERS

PART 381—POULTRY PRODUCTS INSPECTION REGULATIONS

Jar Closure Requirements

Statement of Considerations: On July 23, 1973, there was published in the FEDERAL REGISTER (38 FR 19690), in accordance with the administrative procedure provisions in 5 U.S.C. 553, and pursuant to the authority in the Federal Meat Inspection Act, as amended, and the Poultry Products Inspection Act, as amended, a notice of proposed rulemaking to add a new § 317.19 to the meat inspection regulations and a new § 381.14 to the poultry products inspection regulations to prevent the accumulation of filth and insects around the inside of the lid of containers of meat and poultry products. Opportunity for the presentation of views on the proposal was given until October 1, 1973.

Eight comments were received, five from consumers, and one each from a trade association, a State Department of Agriculture, and a Federal agency. Six of the comments were in favor of the regulation, one was against, and one noncommittal. Two of the eight also suggested that the effective date be postponed to allow time for transition to new style closures. One of the eight suggested the regulation be made to apply only to vacuum-packed food products because it is the breaking of the vacuum that causes the contamination to be pushed into the jar.

After consideration of all the comments, the Animal and Plant Health Inspection Service believes that the interests of the consumer will be served best by adopting the amendment with modifications as discussed hereinafter.

Consumer complaints recorded before publication of the proposal referred exclusively to vacuum-packed product. Therefore, the suggestion to adopt a regulation only for containers of vacuum-packed product seems reasonable. Further, it appears unnecessary to specify means to eliminate the annular space between the edge of the lid's rim and the container itself. The purpose of this amendment is to prohibit such spaces or seal such spaces in containers to prevent the accumulation of filth and insects inside of the lids of containers and thereby prevent the products in the containers from becoming adulterated. The proposal has been changed to clarify this purpose. It is noted that the container industry has recently made considerable progress in redesigning and producing closures to conform to the proposed requirements. However, this is a large volume industry and it is unreasonable to require overnight conversion. Therefore, it seems appropriate to accept the suggestions for delaying the effective date. After an evaluation of available data concerning industry problems in implementing this requirement, the Department has provided a period of 18 months for conversion.

Accordingly, the regulations in Parts 317 and 381 of this title are amended as follows:

1. The regulations in Part 317 are amended by adding a new § 317.19 to read as follows and the Table of Contents to Part 317 is amended to reflect the new section heading:

§ 317.19 Jar closures requirements.

Vacuum packed containers sealed with quick-twist, screw-on, or snap-on lids (or closures) shall not have an annular space between the inner edge of the lid's rim (lip or skirt) and the container itself or shall have such space sealed in a manner that will make it inaccessible to filth and insects.

2. The regulations in Part 381 are amended by adding a new § 381.143 to read as follows and the Table of Contents to Part 381 is amended to reflect the new section heading:

§ 381.143 Jar closures requirements.

Vacuum packed containers sealed with quick-twist, screw-on, or snap-on lids (or closures) shall not have an annular space between the inner edge of the lid's rim (lip or skirt) and the container itself or shall have such space sealed in a manner that will make it inaccessible to filth and insects.

(Sec. 21, 34 Stat. 1260, as amended (21 U.S.C. 621); Sec. 14, 71 Stat. 441, as amended, (21 U.S.C. 463); 37 FR 28464–28477)

It does not appear that further public participation in rulemaking proceedings on these amendments would make additional information available to the Department. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that further notice and other public procedure concerning these amendments are impracticable and unnecessary.

The foregoing amendments shall become effective December 10, 1975.

Done at Washington, D.C., on June 3, 1974.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 74–GL–6]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Federal Airway

On April 11, 1974, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (39 FR 13170) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would realign V–214 in part to extend from Richmond, Ind., via the South Solon, Ohio, INT to the INT of V–5 airway and the 274° radial of Zanesville, Ohio.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. The only comment received was favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., August 15, 1974, as hereinafter set forth.

Section 71.123 (39 FR 307) is amended as follows:

In V–214 "INT Richmond 090° and Rosewood, Ohio, 202° radials. From INT Appleton, Ohio," is deleted and "INT Richmond 097° and Appleton, Ohio, 236° radials; INT Appleton," is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C. on June 3, 1974.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE

[T.D. 74–165]

PART 159—LIQUIDATION OF DUTIES

Die Presses From Italy

Notice of countervailing duties to be imposed under section 303, Tariff Act of 1930, by reason of the payment or bestowal of a bounty or grant upon the manufacture, production or exportation of die presses from Italy.

In the FEDERAL REGISTER of December 5, 1973 (38 FR 33502), the Commissioner of Customs announced that information had been received in proper form pursuant to section 159.47(b) of the Customs Regulations (19 CFR 159.47(b)) which appeared to indicate that certain payments or bestowals made by the Government of Italy on the exportation from Italy of die presses constitute the payment or bestowal of a bounty or grant, directly or indirectly, within the meaning of section 303 of the Tariff Act of 1930 (19 U.S.C. 1303) upon the manufacture, production or exportation of the merchandise to which the payments apply. The notice provided interested parties 30 days from the date of publication to submit data, views, or arguments with regard to the existence or nonexistence and the net amount of a bounty or grant.

An investigation was conducted pursuant to section 159.47(c) of the Customs Regulations (19 CFR 159.47(c)).

After consideration of all information received, the United States Customs Service is satisfied that exports of die

V39 112 JUN 10 74 XUM

presses from Italy are subject to bounties or grants within the meaning of section 303.

Accordingly, notice is hereby given that die presses imported directly or indirectly from Italy, if entered for consumption or withdrawn from warehouse for consumption after the expiration of 30 days after publication of this notice in the Customs Bulletin, will be subject to payment of countervailing duties equal to the net amount of any bounty or grant determined or estimated to have been paid or bestowed.

In accordance with section 303, the net amount of the bounties or grants, under the information presently available, has been ascertained and determined or estimated to be 15.74 Lire per kilogram, unless satisfactory evidence is provided with respect to any particular importation that a lesser amount is involved. In view of fluctuations in the amount of the bounties or grants, additional declarations of the net amount of the bounties or grants ascertained and determined or estimated to have been paid upon the exportation of die presses from Italy may be published in subsequent issues of the Customs Bulletin.

Effective on the 31st day after the date of publication of the notice in the Customs Bulletin and until further notice, upon the entry for consumption of such dutiable die presses imported directly or indirectly from Italy which benefit from these bounties or grants, there shall be collected, in addition to any other duties estimated or determined to be due, countervailing duties in the amount ascertained in accordance with the above declarations.

The liquidation of all entries for consumption or withdrawals from warehouse for consumption of such dutiable die presses and parts thereof imported directly or indirectly from Italy which benefit from these bounties or grants and are subject to the order shall be suspended pending further declaration of the net amount of the bounties or grants paid. A deposit of the estimated countervailing duty, in the appropriate amount, shall be required at the time of entry for consumption or withdrawal from warehouse for consumption.

Any merchandise subject to the terms of this order shall be deemed to have benefited from a bounty or grant if such bounty or grant has been or will be paid or credited, directly or indirectly, upon the manufacture, production, or exportation of such die presses.

The table in section 159.47(f) of the Customs Regulations (19 CFR 159.47(f) is amended by inserting after the last entry for Italy the words "die presses" in the column "Commodity," the number of this Treasury decision in the column headed "Treasury Decision," and the words "Bounty Declared—Rate" in the column headed "Action."

(R.S. 251, secs. 303, 624; 46 Stat. 687, 759 (19 U.S.C. 66, 1303, 1624))

[SEAL] VERNON D. ACREE,
Commissioner of Customs.

Approved: June 5, 1974.

DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

[FR Doc.74-13247 Filed 6-7-74;8:45 am]

[T.D. 74-166]

PART 153—ANTIDUMPING

Picker Sticks From Mexico

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the Secretary of the Treasury responsibility for determination of sales at less than fair value. Pursuant to this authority the Secretary of the Treasury has determined that picker sticks from Mexico are being, or are likely to be, sold at less than fair value within the meaning of section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)). (Published in the FEDERAL REGISTER of February 7, 1974 (39 FR 4789).)

Section 201(a) of the Antidumping Act, 1921, as amended (19 U.S.C. 160(a)), gives the United States Tariff Commission responsibility for determination of injury or likelihood of injury. The United States Tariff Commission has determined, and on May 6, 1974, it notified the Secretary of the Treasury that an industry in the United States is being injured or is likely to be injured by reason of the importation of picker sticks from Mexico that are being, or are likely to be, sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended. (Published in the FEDERAL REGISTER of May 10, 1974 (39 FR 16939).)

On behalf of the Secretary of the Treasury, I hereby make public these determinations, which constitute a finding of dumping with respect to picker sticks from Mexico.

Section 153.43 of the Customs Regulations is amended by adding the following to the list of findings of dumping currently in effect:

Merchandise, Country and T.D.

Picker sticks, Mexico, 74-166.

(Cecs. 201, 407, 42 Stat. 11, as amended, 18 (19 U.S.C. 160, 173))

[SEAL] DAVID R. MACDONALD,
Assistant Secretary of the Treasury.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—DRUGS

PART 135—NEW ANIMAL DRUGS

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

Oxytocin Injection, Veterinary

The Commissioner of Food and Drugs has evaluated a new animal drug application (46-822V) filed by Forbes Laboratories, 402 West Lakeside St., Madison, WI 53715, proposing safe and effective use of oxytocin injection, veterinary for treatment of horses, cows, sows, ewes, dogs, and cats. The application is approved.

To facilitate referencing, Forbes Laboratories is being assigned a code number and placed in the list of firms in § 135.501 (21 CFR 135.501).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135 and 135b are amended as follows:

1. In Part 135 by adding new code No. 103 to § 135.501(c), as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

* * * * *

(c)

Code No.	*Firm name and address*
* * *	* * *
103	Forbes Laboratories, 402 West Lakeside St., Madison, WI 53715.

2. In Part 135b by revising § 135b.64(b) to read as follows:

§ 135b.64 Oxytocin injection, veterinary.

* * * * *

(b) *Sponsor.* See code Nos. 075, 080, 095, and 103 in § 135.501(c) of this chapter.

* * * * *

Effective date. This order shall be effective June 10, 1974.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)))

Dated: June 4, 1974.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

PART 148i—NEOMYCIN SULFATE

Neomycin Sulfate-Polymyxin B Sulfate Ophthalmic Ointment and Solution

Correction

In FR Doc. 74-10303, appearing at page 15753 in the issue for Monday, May 6, 1974, in the effective date paragraph at the end of the document, the date "May 1974" should be changed to read "May 6, 1974".

[Docket No. FDC-D-628]

PART 610—GENERAL BIOLOGICAL PRODUCTS STANDARDS

PART 630—ADDITIONAL STANDARDS FOR VIRAL VACCINES

Measles Virus Vaccine, Inactivated

In the FEDERAL REGISTER of April 5, 1973 (38 FR 8666), the Commissioner of Food and Drugs proposed that the standards for Measles Virus Vaccine, Inactivated §§ 630.40 through 630.45 (21 CFR 630.40 through 630.45) be deleted from the regulations principally because product licenses for inactivated measles virus vaccine were revoked, without prejudice, at the request of manufacturers in light of information which indicated that certain untoward and unpredicted reactions occurred in children who had received the product and were subsequently exposed to live measles virus.

Interested persons were given 30 days to file a written appearance electing whether or not to avail themselves of an opportunity for a hearing to show why the biological products regulations should not be so amended. No written appearances were received. Accordingly, the Commissioner concludes that the proposed deletion of the standards for Measles Virus Vaccine, Inactivated should be adopted without change.

Therefore, pursuant to provisions of the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 610 and 630 are amended as follows:

§ 610.53 [Amended]

1. In § 610.53 *Dating period for specific products* by deleting the listing for "Measles Virus Vaccine, Inactivated."

§§ 630.40–630.45 [Deleted]

2. In Part 630 by deleting Subpart E—Measles Virus Vaccine, Inactivated, containing §§ 630.40 *Measles Virus Vaccine, Inactivated,* 630.41 *General requirements,* 630.42 *Manufacture of Measles Virus Vaccine, Inactivated,* 630.43 *Test for safety,* 630.44 *Potency test,* and 630.45 *Equivalent methods,* and reserving it for future use.

Effective date. This order shall be effective June 10, 1974.

(Sec. 351, 58 Stat. 702, as amended (42 U.S.C. 262))

Dated: June 3, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

SUBCHAPTER J—RADIOLOGICAL HEALTH

PART 1020—PERFORMANCE STANDARDS FOR IONIZING RADIATION EMITTING PRODUCTS

Cabinet X-Ray Systems

Correction

In FR Doc. 74-8290, appearing at page 12985 in the issue for Wednesday, April 10, 1974, in the paragraph following preambular paragraph "10", in the fourth line, the reference to "§ 1020(b)(3)" should be changed to read "§ 1020.40(b)(3)".

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER G—ENGINEERING AND TRAFFIC OPERATIONS

PART 633—REQUIRED CONTRACT PROVISIONS

Federal-Aid Construction Contracts (Other Than Appalachian Contracts)

A Federal-aid to highways directive of long standing (PPM 40-4) has set forth the provisions which must be included in Federal-aid construction contracts for projects in order that such projects would be eligible for Federal aid pursuant to Title 23, United States Code. The directive has been revised for addition to the Federal-Aid Highway Program Manual. Inasmuch as portions of the Manual addition impose an obligation on States which must be complied with to obtain Federal assistance, those portions are hereby published.

The matters affected relate to grants, benefits, or contracts within the purview of 5 U.S.C. 553(a)(2), therefore general notice of proposed rulemaking is not required.

Issued on June 3, 1974.

NORBERT T. TIEMANN,
Federal Highway Administrator.

Part 633 is added to read as follows:

Subpart A—Federal-Aid Construction Contracts (Other Than Appalachian Contracts)

Sec.
633.101 Purpose.
633.102 Applicability.
633.103 Payrolls, weekly statements, and labor summaries.
633.104 Subletting or assigning the contract.
633.105 Notice to prospective Federal-aid construction contractors.
633.106 Termination of contract.
633.107 Implementation of the Clean Air Act.
Appendix A—Required Contract Provisions, Federal-Aid Construction Contracts.
Appendix B—Notices to Prospective Federal-Aid Construction Contractors.

AUTHORITY: 23 U.S.C. 315; 49 CFR 1.48(b)(35).

§ 633.101 Purpose.

The purpose of the regulations in this subpart is to prescribe, for Federal-aid construction contracts, required contract provisions covering employment, record of materials and supplies, subletting or assigning the contract, safety, false statements concerning highway projects, termination of contract, and the Clean Air Act, and to prescribe Federal-aid proposal notices relative to nonsegregated facilities and implementation of the Clean Air Act.

§ 633.102 Applicability.

Form PR-1273 "Required Contract Provisions, Federal-Aid Construction Contracts" (Appendix A) shall be made a part of, and incorporated in, each highway construction contract that involves the expenditure of Federal funds (other than direct Federal, Certification Acceptance, and Appalachian construction contracts).

§ 633.103 Payrolls, Weekly Statements, and Labor Summaries.

For all projects, copies of payrolls and weekly statements with respect to the wages paid during the preceding weekly payroll period, filed with the State as set forth in the Required Contract Provisions for the project, are to be retained by the State highway department for the period set forth in Appendix A to 23 CFR Part 17 with respect to the particular project, for review as needed by the Federal Highway Administration, the Department of Labor, the General Accounting Office, or other agencies at any time during such period.

§ 633.104 Subletting or Assigning the Contract.

The subcontracting limitations set forth in 23 CFR 1.21(a) are included in Appendix A. Exceptions to such limitations to permit a greater precentage of work to be subcontracted may be authorized as provided in 23 CFR 1.21(b). The State may require a contractor to perform with his own organization a percentage of work greater than 50 percent if it so desires.

§ 633.105 Notices to Prospective Federal-Aid Construction Contractors (Appendix B).

The State highway department shall include the notices concerning "Certification of Nonsegregated Facilities" and "Implementation of Clean Air Act", set forth in Appendix B, in all future bidding proposals for Federal-aid highway construction projects.

§ 633.106 Termination of Contract.

All contracts exceeding $2,500 shall contain suitable provisions for termination by the State, including the manner by which the termination will be effected and the basis for settlement. In addition,

V 39 — 112 — JUN 10 74 XUM

such contracts shall describe conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

§ 633.107 Implementation of the Clean Air Act.

Pursuant to regulations of the United States Environmental Protection Agency (40 CFR Part 15) implementing requirements with respect to the Clean Air Act are included in Appendix A.

Effective date: This subpart shall become effective on June 6, 1974.

APPENDIX A

REQUIRED CONTRACT PROVISIONS, FEDERAL-AID CONSTRUCTION CONTRACTS

(Exclusive of certification acceptance and Appalachian contracts)

I. Application.
II. Equal opportunity.
III. Nonsegregated facilities.
IV. Payment of predetermined minimum wages.
V. Statements and payrolls.
VI. Record of materials, supplies and labor.
VII. Subletting or assigning the contract.
VIII. Safety; accident prevention.
IX. False statements concerning highway projects.
X. Implemention of Clean Air Act.

I. APPLICATION

1. These contract provisions shall apply to all work performed on the contract by the contractor with his own organization and with the assistance of workmen under his immediate superintendence and to all work performed on the contract by piecework, station work or by subcontract.

2. The contractor shall insert in each of his subcontracts all of the stipulations contained in these Required Contract Provisions and also a clause requiring his subcontractors to include these Required Contract Provisions in any lower tier subcontracts which they may enter into, together with a clause requiring the inclusion of these provisions in any further subcontracts that may in turn be made. The Required Contract Provisions shall in no instance be incorporated by reference.

3. A breach of any of the stipulations contained in these Required Contract Provisions may be grounds for termination of the contract.

4. A breach of the following clauses may also be grounds for debarment as provided in 29 CFR 5.6(b): Section I, paragraph 2; Section IV, paragraphs 1, 2, 3, 5 and 7; Section V, paragraphs 1, 5a, 5b, and 5d.

II. EQUAL OPPORTUNITY

1. *Selection of labor.* During the performance of this contract, the contractor shall not discriminate against labor from any other State, possession or territory of the United States.

2. *Employment practices.* During the performance of this contract, the contractor agrees as follows:

a. The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoffs or termination; rates of pay or other forms of compensation; and selections for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the State highway department setting forth the provisions of this nondiscrimination clause.

b. The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

c. The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided by the State highway department advising the said labor union or workers' representative of the contractors commitments under this section II–2 and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations (41 CFR, Part 60) and relevant orders of the Secretary of Labor.

e. The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records and accounts by the Federal Highway Administration and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations and orders.

f. In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations or orders, this contract may be canceled, terminated or suspended in whole or in part and the contractor may be de- access to his books, records and accounts by tracts or Federally-assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation or order of the Secretary of Labor, or as otherwise provided by law.

g. The contractor will include the provisions of this Section II–2 in every subcontract or purchase order unless exempted by rules, regulations or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the State highway department or the Federal Highway Administration may direct as a means of enforcing such provisions including sanctions for noncompliance: *Provided, however,* that in the event a contractor becomes involved in, or is threatened with litigation with a subcontractor or vendor as a result of such direction by the Federal Highway Administration, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

3. *Selection of subcontractors, procurement of materials, and leasing of equipment.* During the performance of this contract, the contractor, for itself, its assignees and successors in interest (hereinafter referred to as the "contractor") agrees as follows:

a. Compliance With Regulations: The contractor shall comply with the Regulations relative to nondiscrimination in federally-assisted programs of the Department of Transportation, Title 49, Code of Federal Regulations, Part 21, as they may be amended from time to time, (hereinafter referred to as the Regulations), which are herein incorporated by reference and made a part of this contract.

b. Nondiscrimination: The contractor, with regard to the work performed by it during the contract, shall not discriminate on the grounds of race, color, or national origin in the selection and retention of subcontractors, including procurments of materials and leases of equipment. The contractor shall not participate either directly or indirectly in the discrimination prohibited by section 21.5 of the Regulations, including employment practices when the contract covers a program set forth in Appendix B of the Regulations.

c. Solicitations for Subcontracts, Including Procurements of Materials and Equipment: In all solicitations either by competitive bidding or negotiation made by the contractor for work to be performed under a subcontract, including procurements of materials or leases of equipment, each potential subcontractor or supplier shall be notified by the contractor of the contractor's obligations under this contract and the Regulations relative to nondiscrimination on the grounds of race, color, or national origin.

d. Information and Reports: The contractor shall provide all information and reports required by the Regulations, or directives issued pursuant thereto, and shall permit access to its books, records, accounts, other sources of information, and its facilities as may be determined by the State highway department or the Federal Highway Administration to be pertinent to ascertain compliance with such Regulations or directives. Where any information required of a contractor is in the exclusive possession of another who fails or refuses to furnish this information the contractor shall so certify to the State highway department, or the Federal Highway Administration as appropriate, and shall set forth what efforts it has made to obtain the information.

e. Sanctions for Noncompliance: In the event of the contractor's noncompliance with the nondiscrimination provisions of this contract, the State highway department shall impose such contract sanctions as it or the Federal Highway Administration may determine to be appropriate, including, but not limited to:

(1) withholding of payments to the contractor under the contract until the contractor complies, and/or

(2) cancellation, termination or suspension of the contract, in whole or in part.

f. Incorporation of Provisions: The contractor shall include the provision of this paragraph 3 in every subcontract, including procurements of materials and leases of equipment, unless exempt by the Regulations, or directives issued pursuant thereto. The contractor shall take such action with respect to any subcontractor or procurement as the State highway department or the Federal Highway Administration may direct as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, that, in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or supplier as a result of such direction, the contractor may request the State highway department to enter into such litigation to protect the interests of the State, and, in addition, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

III. NONSEGREGATED FACILITIES

(Applicable to Federal-aid construction contracts and related subcontracts exceeding

$10,000 which are not exempt from the Equal Opportunity clause.)

By submission of this bid, the execution of this contract or subcontract, or the consummation of this material supply agreement, as appropriate, the bidder, Federal-aid construction contractor, subcontractor, or material supplier, as appropriate, certifies that he does not maintain or provide for his employees any segregated facilities at any of his establishments, and that he does not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. He certifies further that he will not maintain or provide for his employees any segregated facilities at any of his establishments, and that he will not permit his employees to perform their services at any location, under his control, where segregated facilities are maintained. He agrees that a breach of this certification is a violation of the Equal Opportunity clause in this contract. As used in this certification, the term "segregated facilities" means any waiting rooms, work areas, restrooms and washrooms, restaurants and other eating areas, timeclocks, locker rooms and other storage or dressing areas, parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing facilities provided for employees which are segregated by explicit directive or are in fact segregated on the basis of race, creed, color, or national origin, because of habit, local custom, or otherwise. He agrees that (except where he has obtained identical certifications from proposed subcontractors and material suppliers for specific time periods), he will obtain identical certification from proposed subcontractors or material suppliers prior to the award of subcontracts or the consummation of material supply agreements, exceeding $10,000 which are not exempt from the provisions of the Equal Opportunity clause, and that he will retain such certifications in his files.

IV. PAYMENT OF PREDETERMINED MINIMUM WAGES

1. *General.* All mechanics and laborers employed or working upon the site of the work will be paid unconditionally and not less often than once a week, and without subsequent deduction or rebate on any account (except such payroll deductions as are permitted by regulations issued by the Secretary of Labor under the Copeland Act (29 CFR, Part 3)), the full amounts due at time of payment computed at wage rates not less than those contained in the wage determination decision of the Secretary of Labor which is attached hereto and made a part hereof, regardless of any contractual relationship which may be alleged to exist between the contractor and such laborers and mechanics; and the wage determination decision shall be posted by the contractor at the site of the work in a prominent place where it can be easily seen by the workers. For the purpose of this clause, contributions made or costs reasonably anticipated under section 1(b)(2) of the Davis-Bacon Act on behalf of laborers or mechanics are considered wages paid to such laborers or mechanics, subject to the provisions of Section IV, paragraph 3b, hereof. Also for the purpose of this clause, regular contributions made or costs incurred for more than a weekly period under plans, funds, or programs, but covering the particular weekly period, are deemed to be constructively made or incurred during such weekly period.

2. *Classification.* a. The State highway department contracting officer shall require that any class of laborers or mechanics, including apprentices and trainees, which is not listed in the wage determination and which is to be employed under the contract, shall be classified or reclassified conformably to the wage determination, and a report of the action taken shall be sent by the State highway department contracting officer to the Secretary of Labor.

b. In the event the interested parties cannot agree on the proper classification or reclassification of a particular class of laborers and mechanics, including apprentices and trainees, to be used, the question accompanied by the recommendation of the State highway department contracting officer shall be referred to the Secretary for final determination.

3. *Payment of fringe benefits.* a. The State highway department contracting officer shall require, whenever the minimum wage rate prescribed in the contract for a class of laborers or mechanics includes a fringe benefit which is not expressed as an hourly wage rate and the contractor is obligated to pay a cash equivalent of such a fringe benefit, an hourly cash equivalent thereof to be established. In the event the interested parties cannot agree upon a cash equivalent of the fringe benefit, the question, accompanied by the recommendation of the contracting officer, shall be referred to the Secretary of Labor for determination.

b. If the contractor does not make payments to a trustee or other third person, he may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing benefits under a plan or program of a type expressly listed in the wage determination decision of the Secretary of Labor which is a part of this contract: *Provided, however,* the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program.

4. *Payment of excess wages.* While the wage rates shown are the minimum rates required by the contract to be paid during its life, this is not a representation that labor can be obtained at these rates. No increase in the contract price shall be allowed or authorized on account of the payment of wage rates in excess of those listed herein.

5. *Apprentices and trainees (programs of department of labor).* a. Apprentices, under programs approved by the U.S. Department of Labor, will be permitted to work as such only when they are registered, individually, under a bona fide apprenticeship program registered with a State apprenticeship agency which is recognized by the Bureau of Apprenticeship and Training, United States Department of Labor; or, if no such recognized agency exists in a State, under a program registered with the Bureau of Apprenticeship and Training, United States Department of Labor. The allowable ratio of apprentices to journeymen in any craft classification shall not be greater than the ratio permitted to the contractor as to his entire work force under the registered program. Any employee listed on a payroll at an apprentice wage rate, who is not a trainee as defined in subparagraph b. of this paragraph or is not registered as above, shall be paid the wage rate determined by the Secretary of Labor for the classification of work he actually performed. The contractor or subcontractor will be required to furnish to the State highway department contracting officer written evidence of the registration of his program and apprentices as well as of the appropriate ratios and wage rates, for the area of construction prior to using any apprentices on the contract work. The term "apprentice" means (1) a person employed and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Bureau of Apprenticeship and Training, or with a State apprenticeship agency recognized by the Bureau, or (2) a person in his first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Bureau of Apprenticeship and Training, or a State Apprenticeship Council (where appropriate) to be eligible for probationary employment as an apprentice.

b. Trainees: Trainees will be permitted to work as such when they are bona fide trainees employed pursuant to a program approved by the U.S. Department of Labor, Manpower Administration, Bureau of Apprenticeship and Training.

6. *Apprentices and trainees (programs of Department of Transportation).* Apprentices and trainees working under apprenticeship and skill training programs which have been certified by the Secretary of Transportation as promoting equal employment opportunity in connection with Federal-aid highway construction programs are not subject to the requirements of Section IV, paragraph 5 above. The straight time hourly wage rates for apprentices and trainees under such programs will be established by the particular programs.

7. *Overtime requirements.* No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers, mechanics, watchmen or guards (including apprentices and trainees described in paragraphs 5 and 6 above) shall require or permit any laborer, mechanic, watchman or guard in any workweek in which he is employed on such work, to work in excess of eight hours in any calendar day or in excess of forty hours in such workweek unless such laborer, mechanic, watchman or guard receives compensation at a rate not less than one and one-half times his basic rate of pay for all hours worked in excess of eight hours in any calendar day or in excess of forty hours in such workweek, as the case may be.

8. *Violation: liability for unpaid wages; liquidated damages.* In the event of any violation of the clause set forth in paragraph 7, the contractor and any subcontractor responsible therefore shall be liable to any affected employee for his unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer, mechanic, watchman or guard employed in violation of the clause set forth in paragraph 7, in the sum of $10 for each calendar day on which such employee was required or permitted to work in excess of eight hours or in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph 7.

9. *Withholding for unpaid wages.* The State highway department contracting officer may withhold or cause to be withheld from the contractor so much of the accrued payments or advances as may be considered necessary to pay laborers, mechanics, (including apprentices and trainees) watchmen, or guards employed by the contractor or any subcontractor on the work the full amount of wages required by the contract. In the event of failure to pay any laborer, mechanic, (including apprentices and trainees) watchman or guard employed or working on the site of the

V 39 — 112 — JUN 10 74
XUM

work, all or part of the wages required by the contract, the State highway department contracting officer may, after written notice to the contractor, take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased.

10. *Withholding for liquidated damage.* The State highway department contracting officer may withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor, such sums as may administratively be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for liquidated damages as provided in the clause set forth in paragraph 8.

V. STATEMENTS AND PAYROLLS

1. *Compliance with Copeland Regulations (29 CFR, Part 3).* The contractor shall comply with the Copeland Regulations (29 CFR, Part 3) of the Secretary of Labor which are herein incorporated by reference.

2. *Weekly statement.* Each contractor or subcontractor shall furnish each week a statement to the State highway department resident engineer with respect to the wages paid each of its employees, (including apprentices and trainees described in Section IV, paragraphs 5 and 6, and watchmen and guards) engaged on work covered by the Copeland Regulations during the preceding weekly payroll period. The statement shall be executed by the contractor or subcontractor or by an authorized officer or employee of the contractor or subcontractor who supervises the payment of wages. Contractors and subcontractors must use the certification set forth on U.S. Department of Labor Form WH-348, or the same certification appearing on the reverse of Optional U.S. Department of Labor Form WH-347, or on any form with identical wording.

3. *Final labor summary.* The contractor and each subcontractor shall furnish, upon the completion of the contract, a summary of all employment, indicating, for the completed project, the total hours worked and the total amount earned. This data shall be submitted to the State highway department resident engineer on Form PR-47 together with the data required in Section VI, hereof, relative to materials and supplies. The provisions of this paragraph are not applicable to contracts for secondary highways or contracts financed solely with funds provided by the Highway Beautification Act of 1965, as amended.

4. *Final certificate.* Upon completion of the contract, the contractor shall submit to the State highway department contracting officer, for transmission to the Federal Highway Administration with the voucher for final payment for any work performed under the contract, a certificate concerning wages and classifications for laborers, mechanics, watchmen and guards employed on the project, in the following form:

* * * * *

The undersigned, contractor on

(Project No.)

hereby certifies that all laborers, mechanics, apprentices, trainees, watchmen and guards employed by him or by any subcontractor performing work under the contract on the project have been paid wages at rates not less than those required by the contract provisions, and that the work performed by each such laborer, mechanic, apprentice or trainee conformed to the classifications set forth in the contract or training program provisions applicable to the wage rate paid.

Signature and title ------------------------

* * * * *

5. *Payrolls and payroll records.* a. Payrolls and basic records relating thereto will be maintained during the course of the work and preserved for a period of three years thereafter for all laborers, mechanics, apprentices, trainees, watchmen and guards working at the site of the work.

b. The payroll records shall contain the name, social security number and address of each such employee, his correct classification, rates of pay (including rates of contributions or costs anticipated of the types described in section ;1(b)(2) of the Davis-Bacon Act), daily and weekly number of hours worked, deductions made and actual wages paid. Whenever the Secretary of Labor, pursuant to Section IV, paragraph 3b, has found that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits.

c. The payrolls shall contain the following information:

(1) The employee's full name, address and social security number. The employee's full and social security number need only appear on the first payroll on which his name appears. The employee's address need only be shown on the first submitted payroll on which the employee's name appears, unless a change of address necessitates a submittal to reflect the new address.)

(2) The employee's classification.

(3) Entries indicating the employee's basic hourly wage rate and, where applicable, the overtime hourly wage rate. The payroll should indicate separately the amounts of employee and employer contributions to fringe benefit funds and/or programs. Any fringe benefits paid to the employee in cash must be indicated. There is no prescribed or mandatory form for showing the above information on payrolls.

(4) The employee's daily and weekly hours worked in each classification, including actual overtime hours worked (not adjusted).

(5) The itemized deductions made and

(6) The net wages paid.

d. The contractor will submit weekly a copy of all payrolls to the State highway department resident engineer. The copy shall be accompanied by a statement signed by the employer or his agent indicating that the payrolls are correct and complete, that the wage rates contained therein are not less than those determined by the Secretary of Labor and that the classification set forth for each laborer or mechanic conform with the work he performed. Submission of a weekly statement which is required under this contract by Section V, paragraph 2, and the Copeland Regulations of the Secretary of Labor (29 CFR, Part 3) and the filing with the initial payroll or any subsequent payroll of a copy of any findings by the Secretary of Labor pursuant to Section IV, paragraph 3b, shall satisfy this requirement. The prime contractor shall be responsible for the submission of copies of payrolls of all subcontractors. The contractor will make the records required under the labor standards clauses of the contract available for inspection by authorized representatives of the State highway department, the Federal Highway Administration and the Department of Labor, and will permit such representatives to interview employees during working hours on the job.

e. The wages of labor shall be paid in legal tender of the United States, except that this condition will be considered satisfied if payment is made by negotiable check, on a solvent bank, which may be cashed readily by the employee in the local community for the full amount, without discount or collection charges of any kind. Where checks are used for payment, the contractor shall make all necessary arrangements for them to be cashed and shall give information regarding such arrangements.

f. No fee of any kind shall be asked or accepted by the contractor or any of his agents from any person as a condition of employment on the project.

g. No laborers shall be charged for any tools used in performing their respective duties except for reasonably avoidable loss or damage thereto.

h. Every employee on the work covered by this contract shall be permitted to lodge, board and trade where and with whom he elects and neither the contractor nor his agents, nor his employees shall, directly or indirectly, require as a condition of employment that an employee shall lodge, board or trade at a particular place or with a particular person.

i. No charge shall be made for any transportation furnished by the contractor, or his agents, to any person employed on the work.

j. No individual shall be employed as a laborer or mechanic on this contract except on a wage basis, but this shall not be construed to prohibit the rental of teams, trucks, or other equipment from individuals.

VI. RECORD OF MATERIALS, SUPPLIES AND LABOR

1. The provisions in this section are applicable to all contracts except contracts for secondary highways and contracts financed solely with funds provided by the Highway Beautification Act of 1965, as amended.

2. The contractor shall maintain a record of the total cost of all materials and supplies purchased for and incorporated in the work, and also of the quantities of those specific materials and supplies listed on Form PR-47 and in the units shown. Upon completion of the contract, this record, together with the final labor summary required in Section V, paragraph 3, hereof, shall be transmitted to the State highway department resident engineer for the project on Form PR-47 in accordance with instructions attached thereto, which will be furnished for this purpose upon request. The quantities for the listed items shall be reported separately for roadway and for structures over 20 feet long as measured along the centerline of the roadway.

3. The contractor shall become familiar with the list of specific materials and supplies contained in Form PR-47 prior to the commencement of work under this contract. Any additional materials information required will be solicited through revisions of Form PR-47 with attendance explanations.

4. Where subcontractors are involved the contractor shall submit either a single report covering work both by himself and all his subcontractors, or he may submit separate reports for himself and for each of his subcontractors.

VII. SUBLETTING OR ASSIGNING THE CONTRACT

1. The contractor shall perform with his own organization contract work amounting to not less than 50 percent of the original total contract price, except that any items designated by the State as "Specialty Items" may be performed by subcontract and the amount of any such "Specialty Items" so performed may be deducted from the original total contract price before computing the amount of work required to be performed by the contractor with his own organization.

a. "His own organization" shall be construed to include only workmen employed and paid directly by the prime contractor and equipment owned or rented by him, with or without operators.

b. "Specialty Items" shall be construed to be limited to work that requires highly specialized knowledge, craftsmanship or equipment not ordinarily available in contracting organizations qualified to bid on the contract as a whole and in general are to be limited to minor components of the overall contract.

2. In addition to the 50 percent requirement set forth in paragraph 2 above, the contractor shall furnish (a) a competent superintendent or foreman who is employed by him, who has full authority to direct performance of the work in accordance with the contract requirements, and who is in charge of all construction operations (regardless of who performs the work), and (b) such other of his own organizational capability and responsibility (supervision, management, and engineering services) as the State highway department contracting officer determines is necessary to assure the performance of the contract.

3. The contract amount upon which the 50 percent requirement set forth in paragraph 2 is computed includes the cost of materials and manufactured products which are to be purchased or produced by the contractor under the contract provisions.

4. Any Items that have been selected as "Specialty Items" for the contract are listed as such in the Special Provisions, bid schedule, or elsewhere in the contract documents.

5. No portion of the contract shall be sublet, assigned or otherwise disposed of except with the written consent of the State highway department contracting officer, or his authorized representative, and such consent when given shall not be construed to relieve the contractor of any responsibility for the fulfillment of the contract. Request for permission to sublet, assign, or otherwise dispose of any portion of the contract shall be in writing and accompanied by (a) a showing that the organization which will perform the work is particularly experienced and equipped for such work, and (b) an assurance by the contractor that the labor standards provisions set forth in this contract shall apply to labor performed on all work encompassed by the request.

VIII. SAFETY; ACCIDENT PREVENTION

In the performance of this contract, the contractor shall comply with all applicable Federal, State and local laws governing safety, health and sanitation. The contractor shall provide all safeguards, safety devices and protective equipment and take any other needed actions, on his own responsibility, or as the State highway department contracting officer may determine, reasonably necessary to protect the life and health of employees on the job and the safety of the public and to protect property in connection with the performance of the work covered by the contract.

It is a condition of this contract, and shall be made a condition of each subcontract entered into pursuant to this contract, that the contractor and any subcontractor shall not require any laborer or mechanic employed in performance of the contract to work in surroundings or under working conditions which are unsanitary, hazardous, or dangerous to his health or safety, as determined under construction safety and health standards (Title 29, Code of Federal Regulations, Part 1926, formerly Part 1518, as revised from time to time), promulgated by the United States Secretary of Labor, in accordance with Section 107 of the Contract Work Hours and Safety Standards Act (83 Stat. 96).

IX. FALSE STATEMENTS CONCERNING HIGHWAY PROJECTS

In order to assure high quality and durable construction in conformity with approved plans and specifications and a high degree of reliability on statements and representations made by engineers, contractors, suppliers, and workers on Federal-aid highway projects, it is essential that all persons concerned with the project perform their functions as carefully, thoroughly, and honestly as possible. Willful falsification, distortion, or misrepresentation with respect to any facts related to the project is a violation of Federal law. To prevent any misunderstanding regarding the seriousness of these and similar acts, the following notice shall be posted on each Federal-aid highway project in one or more places where it is readily available to all personnel concerned with the project:

NOTICE TO ALL PERSONNEL ENGAGED ON FEDERAL-AID HIGHWAY PROJECTS

Title 18, United States Code, Section 1020, reads as follows:

"Whoever, being an officer, agent, or employee of the United States, or of any State or Territory, or whoever, whether a person, association, firm, or corporation, knowingly makes any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the costs thereof in connection with the submission of plans, maps, specifications, contracts, or costs of construction on any highway or related project submitted for approval to the Secretary of Transportation; or

"Whoever knowingly makes any false statement, false representation, false report, or false claim with respect to the character, quality, quantity, or cost of any work performed or to be performed, or materials furnished or to be furnished, in connection with the construction of any highway or related project approved by the Secretary of Transportation; or

"Whoever knowingly makes any false statement or false representation as to a material fact in any statement, certificate, or report submitted pursuant to provisions of the Federal-Aid Road Act approved July 1, 1916 (39 Stat. 355), as amended and supplemented;

"Shall be fined not more than $10,000 or imprisoned not more than five years, or both."

X. IMPLEMENTATION OF CLEAN AIR ACT

1. The contractor stipulates that any facility to be utilized in the performance of this contract, unless such contract is exempt under the Clean Air Act, as amended (42 U.S.C. 1857 et seq., as amended by Pub. L. 91-604), Executive Order 11738, and regulations in implementation thereof (40 CFR, Part 15), is not listed, on the date of contract award, on the U.S. Environmental Protection Agency (EPA) List of Violating Facilities Pursuant to 40 CFR, 15.20.

2. The contractor agrees to comply with all the requirements of section 114 of the Clean Air Act, as amended, relating to inspection, monitoring, entry, reports, and information, as well as all other requirements specified in section 114 and all regulations and guidelines listed thereunder.

3. The contractor shall promptly notify the State highway department of the receipt of any communication from the Director, Office of Federal Activities, EPA, indicating that a facility to be utilized for the contract is under consideration to be listed on the EPA List of Violating Facilities.

4. The contractor agrees to include or cause to be included the requirements of subparagraphs 1 through 4 of this paragraph X in every nonexempt subcontract, and further agrees to take such action as the Government may direct as a means of enforcing such requirements.

APPENDIX B

FEDERAL-AID PROPOSAL NOTICES

NOTICES TO PROSPECTIVE FEDERAL-AID CONSTRUCTION CONTRACTORS

I. Certification of Nonsegregated Facilities

(a) A Certification of Nonsegregated Facilities, as required by the May 9, 1967, Order of the Secretary of Labor (32 F.R. 7439, May 19, 1967) on Elimination of Segregated Facilities (is included in the proposal and must be submitted prior to the award of a Federal-aid highway construction contract exceeding $10,000 which is not exempt from the provisions of the Equal Opportunity clause).

(b) Bidders are cautioned as follows: By signing this bid, the bidder will be deemed to have signed and agreed to the provisions of the "Certification of Nonsegregated Facilities" in this proposal. This certification provides that the bidder does not maintain or provide for his employees facilities which are segregated on a basis of race, creed, color, or national origin, whether such facilities are segregated by directive or on a de facto basis. The certification also provides that the bidder will not maintain such segregated facilities.

(c) Bidders receiving Federal-aid highway construction contract awards exceeding $10,000 which are not exempt from the provisions of the Equal Opportunity clause, will be required to provide for the forwarding of the following notice to prospective subcontractors for construction contracts and material suppliers where the subcontracts or material supply agreements exceed $10,000 and are not exempt from the provisions of the Equal Opportunity clause.

"NOTICE TO PROSPECTIVE SUBCONTRACTORS AND MATERIAL SUPPLIERS OF REQUIREMENT FOR CERTIFICATION OF NONSEGREGATED FACILITIES"

"(a) A Certification of Nonsegregated Facilities as required by the May 9, 1967, Order of the Secretary of Labor (32 F.R. 7439, May 19, 1967) on Elimination of Segregated Facilities, which is included in the proposal, or attached hereto, must be submitted by each subcontractor and material supplier prior to the award of the subcontract or consummation of a material supply agreement if such subcontract or agreement exceeds $10,000 and is not exempt from the provisions of the Equal Opportunity clause.

"(b) Subcontractors and material suppliers are cautioned as follows: By signing the subcontract or entering into a material supply agreement, the subcontractor or material supplier will be deemed to have signed and agreed to the provisions of the "Certification of Nonsegregated Facilities" in the subcontract or material supply agreement. This certification provides that the subcontractor or material supplier does not maintain or provide for his employees facilities which are segregated on the basis of race, creed, color, or national origin, whether such facilities are segregated by directive or on a de facto basis. The certification also provides that the subcontractor or material supplier will not maintain such segregated facilities.

"(c) Subcontractors or material suppliers receiving subcontract awards or material supply agreements exceeding $10,000 which are not exempt from the provisions of the Equal Opportunity clause will be required to provide for the forwarding of this notice

V39 112 JUN 10 74 XUM

to prospective subcontractors for construction contracts and material suppliers were the subcontracts or material supply agreements exceed $10,000 and are not exempt from the provisions of the Equal Opportunity clause."

II. Implementation of Clean Air Act

(a) By signing this bid, the bidder will be deemed to have stipulated as follows:

(1) That any facility to be utilized in the performance of this contract, unless such contract is exempt under the Clean Air Act, as amended (42 U.S.C. 1857 et seq., as amended by Pub. L. 91-604), Executive order 11738, and regulations in implementation thereof (40 CFR Part 15), is not listed on the U.S. Environmental Protection Agency (EPA) List of Violating Facilities pursuant to 40 CFR 15.20.

(2) That the State highway department shall be promptly notified prior to contract award of the receipt by the bidder of any communication from the Director, Office of Federal Activities, EPA, indicating that a facility to be utilized for the contract is under consideration to be listed on the EPA List of Violating Facilities.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 73-124R]

PART 110—ANCHORAGE REGULATIONS

Special Anchorage Area, Basin Point, Potts Harbor, Maine

Correction

In FR Doc. 74-7283, appearing at page 11543 of the issue of March 29, 1974, the last digit of the longitude reading in the eighth line of § 110.5(c-1) on page 11544 should read "9".

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 17—MEDICAL

Admission of Certain Veterans to Private and Public Hospitals

On page 10918 of the FEDERAL REGISTER of March 22, 1974, there was published a notice of proposed regulatory development to add paragraph (j) to § 17.50b to provide that care in private and public hospitals may be authorized for any disability of a veteran who has a total disability permanent in nature resulting from a service-connected disability. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulation.

One letter was received. The correspondent wanted to expand the authority in the proposed regulation and extend authority for care in private and public hospitals to all veterans rated at 80 percent, or more, service connected. The correspondent was advised that section 612(f)(2) of title 38, United States Code provides for the furnishing of outpatient care, not hospitalization of any medical condition of a veteran who is rated 80 percent, or more, service connected.

This proposed regulation is hereby adopted without change as set forth below.

Effective date. This VA Regulation is effective June 4, 1974.

Approved: June 4, 1974.

By direction of the Administrator:

[SEAL] R. L. ROUDEBUSH,
Deputy Administrator.

In § 17.50b, the period at the end of paragraph (i) is changed to ", or" and a new paragraph (j) is added to read as follows:

§ 17.50b Use of public or private hospitals for veterans.

* * * * *

(j) *For any disability of a veteran totally and permanently disabled from a service-connected disability.* The veteran has a total disability permanent in nature resulting from a service-connected disability and has been medically determined to require hospital care or medical services for a non-service-connected condition.

CHAPTER III—POSTAL RATE COMMISSION

PART 3002—ORGANIZATION

Change in Office Hours of the Docket Section

JUNE 4, 1974.

The Postal Rate Commission has decided to change the closing time of its Docket Section from 5:15 p.m. to 5 p.m. Accordingly, effective immediately, § 3002.2(e) of the Code of Federal Regulations is changed to read as follows:

§ 3002.2(e) Hours.

The offices of the Commission will be open from 8 a.m. to 4:30 p.m. with the Docket Section open from 8 a.m. to 5 p.m. of each day except Saturdays, Sundays, and holidays, unless otherwise directed by Executive Order or officially declared, with appropriate notice.

By the Commission.

JOSEPH A. FISHER,
Secretary.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 74-544]

PART 0—COMMISSION ORGANIZATION

Monitoring Facilities at Santa Ana, Calif.

In the matter of amendment of § 0.121(c) of the Commission's rules to delete listings of monitoring stations at Santa Ana, California, and Spokane, Washington.

1. As of July 1, 1974, the Commission will close its monitoring facilities located at Santa Ana, California, and Spokane, Washington. *Accordingly, it is ordered,* That, § 0.121(c) of the rules is amended by deleting therefrom the references to Federal Communications Commission monitoring station locations at Post Office Box 5126, Santa Ana, California, 92704 and Post Office Box 191, Spokane, Washington, 99210, effective July 1, 1974.

2. As these amendments relate to internal Agency organization, prior notice, procedural and effective date provisions of the Administrative Procedure Act (5 U.S.C. 553) do not apply. Authority for these amendments is contained in sections 4(i) and 303(r) of the Communications Act of 1934, as amended.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083 (47 U.S.C. 154, 303, 307))

Adopted: May 29, 1974.

Released: June 3, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

PART 73—RADIO BROADCAST SERVICES

Editorial Changes

In the matter of amendment of § 73.698, Table I of the Commission's rules and regulations to effect editorial changes therein.

1. Table I as contained in § 73.698 of the Commission's rules contains intermittent errors in the conversation of seconds to decimal parts of a degree. This Order is issued to correct those errors.

2. Authority for the amendment contained herein is set out in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.231(d) of the Commission's rules. Because the amendments are editorial in nature, the prior notice and effective date provisions of section 4 of the Administrative Procedure Act, 5 U.S.C. 553 do not apply.

3. *It is ordered,* effective June 14, 1974, that § 73.698 of the Commission's rules is amended as set forth below.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082 (47 U.S.C. 154, 155, 303))

Adopted: May 30, 1974.

Released: June 3, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] JOHN M. TORBET,
Executive Director.

Part 73 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 73.698, Table I, is amended to read as follows:

§ 73.698 Tables.

[Docket No. 19561; RM-1844, RM-1855, RM-1982; FCC 74-560]

PART 73—RADIO BROADCAST SERVICES

Table of Assigaments, FM Broadcast Stations

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Enterprise and Greenville, Alabama; Bonifay, Chipley and Pensacola, Florida).

1. The Commission here considers a petition for reconsideration filed by Sunny Hills of Chipley, Incorporated) Sunny Hills), as concerns our action declining to assign Channel 249A to Chipley, Florida, in a Report and Order, adopted in this docket on January 23, 1974 (FCC 74-71, 44 F.C.C. 2d 1056, 1058-9 (1974)).

2. Briefly, the proceeding stems from petitions to assign channels to Enterprise, Alabama, and Pensacola, Florida. Inasmuch as the Enterprise proposal would have precluded channel assignments at Greenville, Alabama, and Chipley, Florida, the notice of proposed rule making contained a counterproposal to assign a channel to each of the communities of Greenville and Chipley and none to Enterprise. Because this counterproposal conflicted with one of several proposals for assignment of FM channels to Pensacola, the Pensacola proposals were also included in this docket.

3. In studying the record after the comments responsive to the Notice were filed, the Commission determined that by using some different channels from those originally proposed, assignments could be made to all four communities—Enterprise, Greenville, Chipley, and Pensacola. However this solution to the problem required that the channel selected for the Chipley assignment (Ch. 249A) be used with a transmitter located 7.5 miles southwest of the city. A Request for Supplemental Information, adopted June 21, 1973 (FCC 73-671), invited comments on whether such a site was available. In response, Sunny Hills replied that transmitter sites would be limited, and did not appear interested in using the channel if such an assignment were made. Therefore, in view of our policy of not making FM channel assignments to cities of less than 10,000 in the absence of a demand, we refrained from making an assignment to Chipley (pop. 3,347, 1970 U.S. Census) of Channel 249A at that time, although assignments were made to Enterprise, Greenville, and Pensacola.

4. Sunny Hills filed a timely petition for reconsideration which states that while it would have preferred the assignment of Channel 296A to Chipley (as was

V39 112 JUN 10 74 XUM

proposed in the Notice) it is not adverse to assignment of Channel 249A, which it will apply for and place in operation if its application is granted. In the circumstances, we find that the public interest, convenience, and necessity would be served by presently assigning Channel 249A to Chipley, Florida. We stress, however, that because of requisite mileage spacing to existing Stations WJAD, Channel 247, Bainbridge, Georgia, and WBNX, Channel 251, Andalusia, Alabama, it is necessary for the transmitter for Channel 249A at Chipley to be located at least 7.5 miles southwest of that city, and any applicant for the channel is hereby placed on notice of this requirement.

5. Accordingly, the petition for reconsideration filed by Sunny Hills of Chipley, Incorporated, is granted.

6. *It is ordered*, That effective July 12, 1974, the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) is amended to read as follows with respect to Chipley, Florida:

City	*Channel No.*
Chipley, Fla	[1] 294A

[1] A site for this channel must be located at least 7.5 miles southwest of the reference point.

7. Authority for the action taken herein is contained in sections 4(1), 303 (g) and (r), 307(b), and 405 of the Communications Act of 1934, as amended.

8. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 405, 48 Stat., as amended, 1066, 1082, 1083, 1095; 47 U.S.C. 154, 303, 307, 405)

Adopted: May 29, 1974.

Released: June 3, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-13202 Filed 6-7-74;8:45 am]

[Docket No. 19708; RM-1832, RM-2025, RM-2092, FCC 74-559]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments, FM Broadcast Stations

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Park Rapids, Minn.; Albany, Minn.; Sauk Rapids-St. Cloud, Minn.; Jamestown, North Dakota.)

1. The Commission has before it the notice of proposed rule making in this proceeding (FCC 73-300, 38 FR 7574), adopted March 13, 1973, and responsive filings by WJON Broadcasting Company ("WJON"), Stearns County Broadcasting Company ("Stearns"), De La Hunt Broadcasting Corp. ("De La Hunt"), Tri-County Broadcasting Company ("Tri-County"), and Triple R. Inc. ("Triple R").

2. At issue in this proceeding is the making (or changing) of various FM assignments in Minnesota and the requiring of a change in frequency by a Jamestown, North Dakota, station. A number of communities are involved and we are presented (by the urgings of the parties or by our own study of the situation) with a number of possible courses of action. To simplify matters, we intend to discuss separately the situations affecting each of the communities instead of discussing the various plans which could be followed. Since the choices are so varied, a plan-by-plan description would be extremely difficult to follow. A review of the respective situations, on the other hand, is readily understandable. Moreover, this organizational approach will help clarify the reasons which have led us to conclude matters as we do as well as to comprehend the relative positions of the contenders. As will become clear, the decision we have reached responds partially if not always fully to the urgings of each of the parties.

3. This proceeding began with the filing of a request by De La Hunt urging us to change the channel assigned to Park Rapids, Minnesota, on which it was operating. De La Hunt argued that such a change was necessary in order to rectify a second harmonic interference problem involving Channel 12 television reception. Thereafter, Stearns urged the making of a first assignment at Albany, Minnesota, and Tri-County made such a request for Sauk Rapids-St. Cloud, Minnesota. Finally, WJON's comments asked that a Class C channel be substituted for the Class A channel on which it operates at St. Cloud, Minnesota, in competition with a Class C station there. Triple R, as licensee of the Jamestown, North Dakota, station would be affected only if the Park Rapids assignment were changed to Channel 227 and the station there did not also change its site. If Channel 248 were used at Park Rapids instead, or if De La Hunt changed its Park Rapids site, the Jamestown station would be unaffected. We now turn to an examination of the individual cases before us.

4. Albany, a community of 1,599 persons, is served by a daytime-only AM station. Stearns, licensee of this AM station urged a first FM assignment, recommending Channel 249A for the purpose. Channel 288A could be used instead, but it would require use of a site seven miles south of Albany. With its site located there, a station nevertheless could provide the requisite coverage to Albany. Stearns objected, arguing that a second tower would be needed and pointing out that the costs would be greater than if an FM station could be co-located with its AM station. It indicated that it sought reimbursement for some of these costs if Channel 288A were to be assigned instead of Channel 249A. Since a first assignment appears warranted, the question to be decided is which channel to assign.

5. De La Hunt operates an FM station at Park Rapids (population 2,772) on Channel 279. According to De La Hunt, the station has become involved in significant interference problems affecting reception of Station KNMT-TV, Walker, Minnesota, operating on VHF Channel 12. The cause of the difficulty is said to be second harmonic interference which in some cases has been correctable by the installation of traps and in some instances is said to have been proved to be beyond correction. While the various parties express differing views about the magnitude of the problem, we are persuaded that a problem does exist. The question, then, is whether it merits treatment by way of channel reassignment.

6. On the question of substituting FM channels to correct a television interference problem, the Commission has established guidelines on how such requests are to be resolved and has specified the nature of the showing required—*Public Notice*, 6 R.R. 2d 672, 31 FR 2567. The Commission needs to know the nature and extent of the problem, the efforts made to correct it, and the allocations consequences of responding to the request. As the Public Notice indicates is necessary, the proposed change in channel at Park Rapids would not deprive any community of any currently assigned channel, would not substitute a Class A channel for an existing Class B or C assignment and would not simply visit the problem on another future licensee in another community.[1] With these facts in mind, it is clear to us that though the problem may not be of the most serious sort, it nonetheless warrants consideration, for undeniably it is real. In this connection, we are not unmindful of the financial limitations faced by a station licensed to such a small community. Extensive corrective efforts by De La Hunt could well introduce costs of such magnitude as to preclude effective continued operation. To us, the balance in Park Rapids' favor is tipped by these facts, especially since all our assignment tests have been met.

7. Two channels could be utilized in Park Rapids instead of Channel 279. Instead of Channel 248 requested by De La Hunt, Channel 227 could be used. In one sense the situation resembles the one which would face Albany in terms of the need for a separate site. Here too a change in site would be required if Channel 227 were assigned to Park Rapids or if De La Hunt continued with its present site it would have to reimburse the licensee of the Jamestown station for a change in its frequency. Either, De La Hunt asserts, would be beyond its resources.

8. WJON operates on a Class A channel at St. Cloud, a city of 39,691 persons. The other local FM station is a Class C operation. WJON urges us to de-intermix the channels at St. Cloud by substituting Channel 251 for its present Channel 269A. According to WJON, significant first or second FM service would result from the commencement of a Class C operation as it proposes.

9. Tri-County seeks Channel 251 for Sauk Rapids, a community of 5,051, to bring its first FM local service. Since Sauk Rapids is contiguous to St. Cloud, it is Tri-County's approach to have the channel assigned on a hyphenated basis. This assignment it sees as an important one to serve underserved outlying areas. In effect, its argument is not unlike that of WJON.

10. While the merits of the various proposals are not on equal footing, each has much to recommend it. Recognition of this fact led us to explore the matter by conducting our own study to determine if there were a way to respond in full to the urgings of all the parties, or if not, to at least respond substantially. Happily, there is such an approach which gives each party much or all of what it requested.[2] Under this approach Albany obtains a channel as does Sauk Rapids, St. Cloud's intermixture is ended, and Park Rapids' interference problems are rectified. Finally, no other channel changes will be required, so the Jamestown station need not change its channel.

11. In order to accommodate all of the proposals, it has not been possible to respond fully to the preferences of all of the parties. Thus, while we understand Stearns' preference for the assignment of Channel 249A at Albany, because of the convenience of co-location, doing so would force a denial of other requests. Therefore, we shall assign Channel 288A. The reimbursement Stearns asks if this occurs is not appropriate. It is not an operating station suffering a cost and obtaining no benefit. The premise on which operating stations, forced to a new channel, are reimbursed, is inapplicable here, for unlike such cases, Stearns can decide on whether to go ahead or not. Even if it does not proceed, no existing service would be lost. Stearns will have to decide on whether it wishes to proceed on this basis. If it does not, another party may wish to, and the site question has no pertinency to such a party. While Stearns may see our decision as harsh, the facts dictate such an outcome. It is not always possible to provide an FM channel where it is desired, especially to so small a community. We can do so here but that action has to be balanced with other needs and the result is assignment of Channel 288A.

12. Park Rapids is larger, its service already in existence and relied upon by the public. To us, especially considering the station's wide area coverage, we think it preferable to assign Channel 248 and not impose the costs of a site change or of reimbursement to Jamestown. To impose these costs is to offer relief that is only a fiction. Moreover, the risk of interruption of a service on which residents of a large area rely cannot be ignored. Accordingly, the station's license will be modified to specify Channel 248.

13. We consider the communities of St. Cloud and Sauk Rapids together because of their proximity. While we could assign Channel 251 to either of them or to them both on a hyphenated basis, such an approach does not respond to the needs of both communities. St. Cloud is a city of almost 40,000 that warrants two FM assignments. Although it has them, one is a Class A, so that a competitive imbalance is unavoidable. In such a situation, an effect on the public is to be expected. If, for de-intermixture purposes and to extend a needed signal to unserved or underserved areas we substituted Channel 251 for WJON's Channel 269A, what then of Sauk Rapids needs? Sauk Rapids, though being much smaller, is somewhat in the shadow of St. Cloud. Its size does not commend it as the preferable location for a Class C assignment, if a choice has to be made. Does this mean that Sauk Rapids is to be ignored? Fortunately not. Channel 269A now used at St. Cloud could be used at Sauk Rapids. The need at Sauk Rapids is not so much in terms of reception service—wide coverage channels are more appropriately assigned at St. Cloud—as in terms of transmission service. A Class A channel could respond to the transmission needs of Sauk Rapids and environs without interfering with other needed assignments. Treated separately, it is large enough to warrant a Class A channel. If Sauk Rapids and St. Cloud were considered together, the total population would not ordinarily mean more than two assignments. To us this is not an equitable result, for we believe that Sauk Rapids requires separate consideration. Therefore, we will modify WJON's license to specify Channel 251 and assign its present channel, 269A, to Sauk Rapids.

14. *Accordingly, it is ordered*, Pursuant to the authority contained in sections 4(i), 303(g) and (r), 307(b) and 316 of the Communications Act of 1934, as amended, the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) is amended, effective July 12, 1974, as concerns the cities listed below, as follows:

City	*Channel No.*
Albany, Minn	288A
Park Rapids, Minn	248
St. Cloud, Minn	251, 284
Sauk Rapids, Minn	269A

15. *It is further ordered*, That effective July 12, 1974, and pursuant to section 316 of the Communications Act of 1934, as amended, the outstanding license held by WJON Broadcasting Company, for Station WJON-FM, St. Cloud, Minnesota, is modified to specify operation on Channel 251 in lieu of Channel 269A subject to the following conditions:

(a) The licensee shall inform the Commission in writing not later than the effective date herein of its acceptance of this modification.

(b) The licensee shall submit to the Commission by August 12, 1974, all necessary information complying with the applicable technical rules for modification of authorization to cover the operation of Station WJON-FM on Channel 251 at St. Cloud, Minnesota.

(c) The Commission will notify the licensee when a construction permit has been granted for the use of Channel 269A at Sauk Rapids, Minnesota. The licensee may continue to operate on Channel 269A under the outstanding authorization until the Sauk Rapids permittee is ready to operate on Channel 269A or it may effect the change to Channel 251 at any time prior thereto if it should so desire. Ten days prior to commencing operation on Channel 251, the licensee shall submit the same measurement data normally required in an application for an FM broadcast station license.

(d) The licensee shall not commence operation on Channel 251 until the Commission specifically authorizes it to do so.

16. *It is further ordered*, That effective July 12, 1974, and pursuant to section 316 of the Communications Act of 1934, as amended, the outstanding license held by De La Hunt Broadcasting Corp. for Station KPRM-FM, Park Rapids, Minnesota, is modified to specify operation on Channel 248 in lieu of Channel 279 subject to the following conditions:

(a) The licensee shall inform the Commission in writing no later than the effective date herein of its acceptance of this modification.

(b) The licensee shall submit to the Commission by August 12, 1974, all necessary information complying with the applicable technical rules for modification of authorization to cover the operation of Station KPRM-FM on Channel 248 at Park Rapids.

(c) The licensee may continue to operate on Channel 279 under the outstanding authorization until April 1, 1975, or it may effect the change to Channel 248 at any time prior thereto if it should so desire. Ten days prior to commencing operation on Channel 248, the licensee shall submit the same measurement data normally required in an application for an FM broadcast station license.

(d) The licensee shall not commence operation on Channel 248 until the Commission specifically authorizes it to do so.

17. *It is further ordered*, That the Secretary of the Commission shall send a copy of this Report and Order by Certified Mail, Return Receipt Requested, to WJON Broadcasting Company, licensee of Station WJON-FM, St. Cloud, Minnesota, and to De La Hunt Broadcasting Corp., licensee of Station KPRM-FM, Park Rapids, Minnesota.

18. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: May 29, 1974.

Released: June 4, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-13203 Filed 6-7-74;8:45 am]

---

[1] If Channel 279 is removed from Park Rapids it would become available for use in a number of communities where Channel 12 is not received and thus where a similar problem would not be expected to occur.

[2] Canadian concurrence has been obtained in this connection.

[FCC 74-553]

PART 76—CABLE TELEVISION SERVICES

PART 78—CABLE TELEVISION RELAY SERVICES

Order

In the matter of amendment of Part 76, Subpart B, and Part 78, Subpart B, of the Commission's rules and regulations concerning procedures in the Cable Television Service and Cable Television Relay Service.

1. It has come to our attention that some applicants, petitioners or other parties to Cable Television proceedings pending before the Commission have failed to keep the Commission informed on substantial and significant changes in matters relating to their pleadings. All parties need to be aware of their continuing obligation to update their pleadings. Such information as changes or transfers of ownership, later revisions of signal carriage proposals, or re-negotiations or alterations of franchise terms are vital to comprehensive review of the facts and pleadings upon which the Commission must rely in deciding how to rule on a matter.

2. We conclude that certain editorial additions to the Rules are necessary to emphasize the obligations of parties to proceedings before us. We are adding a note to §§ 76.7 and 76.13 of the Cable Television Rules, and to § 78.15 of the Cable Television Relay Rules, which draws attention to § 1.65 "Substantial and significant changes in information furnished by applicants to the Commission". As required by § 1.65, we expect petitioners, applicants, those who comment and those who object to take the initiative in keeping their filings current, accurate and complete. Should there be any procedural conflict between the specific provisions of §§ 76.7, 76.13, 78.15 and 1.65, it should be resolved in favor of the specific provisions.

3. Since the additions we make are interpretive or relate to Commission procedures, the prior notice provisions, and effective date provisions of Section 4 of the Administrative Procedure Act, 5 U.S.C. § 553, do not apply. Authority for these changes adopted herein is contained in sections 2, 3, and 4 (i) and (j) of the Communications Act of 1934, as amended.

4. *Accordingly, it is ordered,* That effective July 12, 1974, Part 76 and Part 78 of the Commission's rules are amended as set forth below.

(Secs. 2, 3, 4, 48 Stat., as amended, 1064, 1065, 1066; 47 U.S.C. 152, 153, 154)

Adopted: May 29, 1974.

Released: June 3, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Parts 76 and 78 of Chapter I of Title 47 of the Code of Federal Regulations are amended as follows:

1. In § 76.7, immediately after paragraph (i)(3), a note is added to read as follows:

§ 76.7 Special relief.

* * * * *

NOTE: Each party filing a petition, comments, opposition or other pleading pursuant to § 76.7 is responsible for the continuing accuracy and completeness of all information in such document. The provisions of § 1.65 are wholly applicable to pleadings involving § 76.7, except that where specific provisions of the latter conflict with the former, the specific provisions of § 76.7 are controlling, e.g., where requirements for service on specified parties of certain information may vary.

2. In § 76.13, the note at the end of the section is designated as Note 1 and a new Note 2 is added to read as follows:

§ 76.13 Filing of applications.

* * * * *

NOTE 2: Each applicant filing pursuant to § 76.13 is responsible for the continuing accuracy and completeness of all information in such applications. The provisions of § 1.65 are wholly applicable to applications under § 76.13, as well as to amendments filed pursuant to § 76.18, and objections filed pursuant to § 76.27, except that where the specific provisions of §§ 76.13, 76.18 or 76.27 conflict with the provisions of § 1.65, the specific provisions are controlling, e.g., where requirements for service on specified parties of certain information may vary.

3. In § 78.15, the note at the end of the section is designated as Note 1 and a new Note 2 is added to read as follows:

§ 78.15 Contents of applications.

* * * * *

NOTE 2: Each applicant filing pursuant to § 78.15 is responsible for the continuing accuracy and completeness of all information in such applications. The provisions of § 1.65 are wholly applicable to applications pursuant to § 78.15, as well as to amendments filed pursuant to § 78.17, and objections filed pursuant to § 78.22, except that where the specific provisions of §§ 78.15, 78.17, or 78.22 conflict with the provisions of § 1.65, the specific provisions are controlling, e.g., where requirements for service on specified parties of certain information may vary.

[FR Doc.74-13204 Filed 6-7-74;8:45 am]

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74-10; Notice 4]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Air Brake System Effective Date for Trailers

This notice amends Standard No. 121, *Air brake systems,* 49 CFR 571.121, to delay the effective date of the standard as it applies to air brake-equipped trailers until January 1, 1975.

The January 1, 1975, effective date was proposed in a notice published May 17, 1974 (39 FR 17563) which invited comments on the proposal until June 17, 1974. On the basis of urgent requests by manufacturers and the Truck Trailer Manufacturers Association, a new comment closing date of June 4, 1974, was established for the effective date issue (39 FR 18664, May 29, 1974). The separate issue of a new "heavy hauler trailer" category is still subject to the June 17 date for comments, and further action will be decided on after that date.

Only three commenters, out of the fifty who responded, opposed the 4-month postponement. These three were suppliers to the trailer industry who claimed that they were ready to provide the needed components by September 1, 1974, and stated that a delay in the effective day would entail additional costs to them. The NHTSA finds, however, that the September 1, 1974, date does not provide sufficient time for an orderly transition to production of the trailers with the new components, and that a delay until January 1, 1975, is therefore in the interest of motor vehicle safety.

In consideration of the foregoing, the effective date of Standard No. 121 (49 CFR 571.121) is changed from September 1, 1974, to January 1, 1975, as it applies to trailers.

(Sec. 103, 119, Pub. L. 89-563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegation of authority at 49 CFR 1.51.)

Issued on June 6, 1974.

ROBERT L. CARTER,
Acting Administrator.

[FR Doc.74-13300 Filed 6-6-74;10:56 am]

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Kenai National Moose Range, Alaska

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

ALASKA

KENAI NATIONAL MOOSE RANGE

The landing of aircraft in the Kenai National Moose Range, under other than emergency conditions, is prohibited except as authorized in the following designated areas: North of the Sterling Highway aircraft may land on public air strips and all lakes, except those lakes with recreational developments including campgrounds, camp sites, road waysides with connecting hiking trails, and the canoe system lakes. Furthermore, the Swan Lake Canoe Route area and the several public recreational lakes bounded on the west by the Swanson River Road, bounded on the north by the Swan Lake Road, bounded on the east by the north-south section line immediately west of Arrow Lake (located at the eastern terminus of Swan Lake Road) and continuing south 5.8 miles to its intersection with the Moose River (½ mile SE of the eastern most shore of Swan Lake), thence downstream the Moose River, and bounded on the south by the Moose Range boundary, is not a designated aircraft landing area; South of the north shore of the Kenai River and Skilak Lake, aircraft may land on lakes and rivers except the following lakes not authorized for aircraft operation include: Benchland, Cirque, Crater, Emma, Horsetrail, Marmot, Newman's, Timberline, Trophy and Wolverine.

a. The landing of aircraft on any road, glacier or snow field is prohibited.

b. Hidden Lake is a designated aircraft landing area, in season, for the purpose of sport ice fishing only.

c. Bottenintnin Lake is a designated aircraft landing area.

Regulations and maps describing designated aircraft landing areas are available at the Kenai National Moose Range Headquarters, Box 500, Kenai, Alaska 99611, phone 283-4877.

The provisions of this special regulation supplement the regulations which govern public access, use, and recreation on wildlife refuge areas generally and which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through May 31, 1975.

JAMES B. MONNIE,
Refuge Manager,
Kenai National Moose Range.

MAY 30, 1974.

[FR Doc.74-13180 Filed 6-7-74;8:45 am]

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER J—CONTINENTAL SHELF

PART 295—LIVING ORGANISMS OF THE CONTINENTAL SHELF

JUNE 5, 1974.

The Act of May 20, 1964, as amended (16 U.S.C. 1081 et seq.), prohibits foreign-flag vessels from engaging "in the fisheries within the territorial waters of the United States, its territories and possessions and the Commonwealth of Puerto Rico, or within any waters in which the United States has the same rights in respect to fisheries as it has in its territorial waters or in such waters to engage in activities in support of a foreign fishery fleet or to engage in the taking of any Continental Shelf fishery resource which appertains to the United States."

The Offshore Shrimp Fisheries Act of 1973 (Pub. L. 93-242, 87 Stat. 1061), amends subsections (a) and (b) of section 5 of the Act of May 20, 1964, as amended, by including, among other things, the addition of a new species which was identified as a Continental Shelf fishery resource.

The Secretary of Commerce, in consultation with the Secretary of State, had previously determined, by publication in the FEDERAL REGISTER on June 23, 1971 (36 FR 11923), under the authority granted in section 5(b) of the Act of May 20, 1964, as amended, that several other species of living organisms also qualify as Continental Shelf Resources. These species, which may have been inadvertently omitted from the list appearing in the Offshore Shrimp Fisheries Act of 1973 and might therefore be considered as having been removed from the list previously appearing in § 295.2, are also listed in § 295.2 below to insure their continuing inclusion as a Continental Shelf fishery resource. In addition, recommendations have been made to the Secretary of Commerce to include additional species in the existing list of "Living Organisms of the Continental Shelf" as published in the FEDERAL REGISTER on June 23, 1971 (36 FR 11923).

Therefore, a finding has been made by the Secretary of Commerce, in consultation with the Secretary of State, that the species in § 295.2 below meet the required criteria for listing.

To avoid the confusion of separate lists, the entire list is set out in § 295.2 below, including those species which previously were listed, those species listed in the Offshore Shrimp Fisheries Act of 1973, and those newly found by the Secretary of Commerce to require listing.

Effective date: These regulations shall become effective on June 10, 1974.

ROBERT M. WHITE,
Administrator.

Sec.
295.1 Purpose.
295.2 List of species.

AUTHORITY: 78 Stat. 196 (16 U.S.C. 1085), as modified by Reorganization Plan No. 4 of 1970, and as amended by 87 Stat. 1061, January 2, 1974.

§ 295.1 Purpose.

The purpose of the regulations in this part is to list those species found to constitute a Continental Shelf fishery resource by either (1) the Offshore Shrimp Fisheries Act of 1973 (87 Stat. 1061), or (2) the Secretary of Commerce, in consultation with the Secretary of State. Continental Shelf fishery resources are living organisms belonging to sedentary species, which at the harvestable stage, either are immobile on or under the seabed, or are unable to move except in constant physical contact with the seabed or the subsoil of the Continental Shelf.

§ 295.2 List of species.

COELENTERATA

Bamboo Coral—*Acanella* spp.
Black Coral—*Antipathes* spp.
Gold Coral—*Callogorgia* spp.
Precious Red Coral—*Corallium* spp.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[21 CFR Part 1301]

BULK MANUFACTURE OF SCHEDULE I AND II SUBSTANCES

Notice of Hearing

On April 3, 1974, the Drug Enforcement Administration published a notice of proposed rulemaking in the Federal Register (39 FR 12138), proposing two amendments to Part 1301, Title 21 of the Code of Federal Regulations. The proposals were published in order to simplify the administrative process by avoiding unnecessary, expensive, and time consuming hearings on the adequacy of competition each time a bulk manufacturer of a Schedule I or II controlled substance seeks registration and to minimize unnecessary obstacles to the registration of qualified manufacturers.

All interested parties were afforded an opportunity to comment, object or request a hearing on the proposed rules.

In response to the notice, the Antitrust Division, United States Department of Justice filed a comment in support of the proposals, stating (1) the legislative history of the Controlled Substances Act does not reflect any congressional intention to limit competition unless such limitation is necessary to maintain control over drug diversion, (2) the Drug Enforcement Administration's interpretation of section 303(a) of the Controlled Substances Act constitutes the appropriate manner of reconciling the congressional goals against drug diversion and promoting competition.

Mallinckrodt, Inc., Merck & Co., and S. B. Penick and Company filed objections to the proposed rules and requested a hearing stating that the Controlled Substances Act requires a finding respecting the adequacy of competition prior to registering any person to engage in the bulk manufacture of a Schedule I or II substance.

Notice is hereby given that a hearing in the matter of the proposed amendments to Part 1301 of Title 21, Code of Federal Regulations, will commence on July 16, 1974, at 10 a.m. in Room 1211 of the Drug Enforcement Administration, 1405 Eye Street NW, Washington, D.C. 20537.

Any interested person desiring to participate in this hearing, but not yet made a party, shall file a notice of his intention to participate in the form prescribed in 21 CFR 1316.48 on or before July 5, 1974, with the Hearing Clerk, Drug Enforcement Administration, 1405 Eye Street NW, Washington, D.C. 20537.

Dated: June 4, 1974.

John R. Bartels, Jr.,
Administrator,
Drug Enforcement Administration.

[FR Doc.74-13261 Filed 6-7-74;8:45 am]

[21 CFR Part 1311]

METHAQUALONE AND ITS SALTS

Controlled Substances

On October 4, 1973, the Drug Enforcement Administration published a notice in the Federal Register (38 FR 27517) placing methaqualone and its salts in Schedule II of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 801, et seq.).

The Drug Enforcement Administration published a notice of the 1974 Interim Aggregate Production Quota for Methaqualone and its salts in the Federal Register on March 12, 1974 (39 FR 9561). The quota provided for the amount of methaqualone to be produced, on an interim basis, to satisfy the legitimate medical, scientific, research and industrial needs of the United States as required by section 306 of the Controlled Substances Act (21 U.S.C. 826).

Prior to placing methaqualone in Schedule II, there were no restrictions placed upon the importation of methaqualone. Certain dosage form manufacturers formulated their products with and received new drug application (NDA) approval from the Food and Drug Administration, based on methaqualone produced in foreign countries. Due to the new drug application procedures of the Federal Food, Drug and Cosmetic Act (21 U.S.C. 355), domestic manufacturers are unable to supply methaqualone to those dosage form manufacturers whose NDA specifies a particular formulation of methaqualone not produced in the United States thereby rendering the domestic supplies of methaqualone inadequate at this time.

Therefore, under the authority vested in the Attorney General by section 1002(a)(2) of the Controlled Substances Import and Export Act (21 U.S.C. 952 (a)(2)) and delegated to the Administrator of the Drug Enforcement Administration, Department of Justice by § 0.100 of Title 28 of the Code of Federal Regulations (see 38 FR 18380, July 2, 1973), the Administrator of the Drug Enforcement Administration finds that the domestic supplies of methaqualone are inadequate to provide for the medical, scientific and other legitimate needs of the United States.

Any person who proposes to engage in the importation of methaqualone during 1974 shall be required to obtain a registration to conduct that activity on or before July 1, 1974. Applicants must certify, by an accompanying letter, that the quantity of methaqualone to be imported will not exceed the quota issued to the manufacturer for whom they are importing.

Dated: June 4, 1974.

John R. Bartels, Jr.,
Administrator,
Drug Enforcement Administration.

[FR Doc.74-13279 Filed 6-7-74;8:45 am]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 91]

[Docket No. 13824; Notice 74-21]

REPLENISHING AND MAINTENANCE OF OXYGEN SYSTEMS

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 91 of the Federal Aviation Regulations to prescribe safety requirements governing the presence of persons on board a civil aircraft of U.S. registry when certain work is being performed on the oxygen system of the aircraft.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue, SW, Washington, D.C. 20591. All communications received on or before September 9, 1974, will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

The Federal Aviation Regulations do not prohibit the replenishment or maintenance of oxygen systems with persons on board the aircraft. The oxygen system of an aircraft provides for the storage and distribution of oxygen to crewmembers and passengers. The oxygen is stored in cylinders that require replenishment of the oxygen by cylinder replacement, or by on-board recharging of the cylinders through an oxygen external fill system. Problems involving the procedures for replenishment or maintenance of the oxygen systems were brought to public attention as a result of a ground fire on December 31, 1970, involving a B-737 aircraft. As a result of the National Transportation Safety Board's investigation of the incident, the Board recommended that the FAA institute appropriate regulatory action to prohibit the servicing of oxygen systems while passengers are on board the aircraft.

The FAA has reviewed those incidents resulting in fires on board aircraft which have occurred in connection with the replenishment or maintenance of the aircraft oxygen system. This review indicates that there is a lack of uniformity among aircraft operators in responding to recommendations made in manufacturers' service bulletins to improve the safety of oxygen systems and that specific regulatory action is appropriate. Accordingly, it is proposed to amend Part 91 to prohibit a person from replacing an oxygen cylinder or performing maintenance on the oxygen system of an aircraft while persons other than those performing maintenance on the aircraft are on board, unless certain conditions are met. In addition, the proposal would prohibit the recharging of an oxygen cylinder installed in an aircraft while persons other than those performing maintenance are on board the aircraft. The proposed amendment would apply to all civil aircraft of U.S. registry equipped with an oxygen system.

(Sec. 313(a), 601, 604, and 605 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1424, and 1425), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

In consideration of the foregoing, it is proposed to amend Part 91 of the Federal Aviation Regulations by adding a new § 91.168 after § 91.167 to read as follows:

§ 91.168 Replenishing and maintenance of oxygen systems.

No person may perform the following while any person is on onboard an aircraft whose presence is not necessary for performing maintenance on that aircraft:

(a) Replenish the oxygen system by recharging an oxygen cylinder while it is installed in the aircraft.

(b) Replace an oxygen cylinder in the aircraft, or perform other maintenance on the oxygen system, unless the following conditions exist:

(1) An evacuation route and personnel to supervise an evacuation are provided by the operator for each aircraft occupant.

(2) The aircraft oxygen pressure leaving the oxygen cylinder is limited to a maximum of 450 p.s.i. by pressure reduction or by flow limiting valves directly connected to the oxygen supply cylinder outlet, or both.

(3) All oxygen supply cylinders installed in the aircraft are equipped with manual slow opening type valves. For purposes of this section a slow opening type valve is defined as a valve in which the flow characteristics for any number of turns of the valve handle do not exceed the limits shown in the following chart at any inlet pressure from 250 to 2,100 p.s.i.g.:

Issued in Washington, D.C., on May 31, 1974.

C. R. Melugin, Jr.,
Acting Director,
Flight Standards Service.

DEPARTMENT OF COMMERCE

Maritime Administration

[46 CFR Part 252]

OPERATING DIFFERENTIAL SUBSIDY FOR BULK CARGO VESSELS ENGAGED IN WORLDWIDE SERVICES

Contracting for and Payment of Subsidy

There is hereby proposed a new Part 252 to Title 46 of the Code of Federal Regulations setting forth regulations governing the payment of operating-differential subsidy to bulk cargo vessels engaged in worldwide services pursuant to Title VI of the Merchant Marine Act, 1936, as amended (the Act) (46 USC 1171-1180). These proposed regulations supercede the regulations proposed on May 22, 1971 (36 FR 9334). All comments received on the regulations as proposed on May 22, 1971, have been given due consideration in drafting these proposed regulations.

Regulations promulgated by the Maritime Administration concerning the operation of bulk cargo vessels on the Great Lakes (37 FR 7979) and in the carriage of grain from the United States to the Soviet Socialist Republics (38 FR 20807) remain in effect.

The regulations hereby proposed provide for the contracting for and the payment of subsidy to United States citizens who operate bulk cargo vessels registered in the United States in essential services in the foreign commerce of the United States. Generally, a vessel is deemed in § 252.5 of the proposed regulations to be in an essential service if it carries at least 30 percent of its cargo in the foreign commerce of the United States. Certain additional foreign commerce requirements are provided for in § 252.5.

Generally, the amount of subsidy is equal to the excess of the cost of subsidizable items of expense incurred in the operation of a vessel over the fair and reasonable cost of such items of expense, as determined in § 252.8 of the proposed regulations, if such vessel were operated under foreign registry in substantial competition, as determined in § 252.7, with vessels contracted under Title VI of the Act. Subsidized voyages are defined in § 252.4. Section 252.10 provides for the payment of accrued subsidy on the basis of tentative and, as established, final rates; the audit of operators' records; and the repayment of any overpayment of subsidy. Forms and procedures for the billing of subsidy are provided for in § 252.11. Five illustrative examples of the subsidy payment and billing procedures have been prepared for the guidance of interested parties and may be obtained from the Secretary, Maritime Administration, upon request. Section 252.12 provides the operator with rights of appeal of audits and certain administrative decisions. Finally §§ 252.6 and 252.9 provide that an operator file certain financial reports and statements and demonstrate financial resources adequate to insure the performance of the covenants and agreements contained in the subsidy contract.

V 39 112 JUN 10 74 XUM

Although the promulgation of regulations regarding the operating-differential subsidy program is exempt from the requirements of 5 U.S.C. 553, the Maritime Administration is nevertheless publishing the regulations in proposed form. Extensive editorial revision of the regulations as proposed is anticipated before they are adopted in final form. Comments may be addressed, and data, views and arguments concerning the proposed revision may be submitted in duplicate to the Secretary, Maritime Administration, Washington, D.C. 20230. All material received on or before August 12, 1974 will be considered. All comments in response to this proposal will be available for public inspection during normal business hours at the foregoing address.

Part 252 of Title 46 of the Code of Federal Regulations is proposed to read as follows:

PART 252—OPERATING DIFFERENTIAL SUBSIDY FOR BULK CARGO VESSELS ENGAGED IN WORLDWIDE SERVICE

Sec.
252.1 Purposes.
252.2 Applications.
252.3 Definitions.
252.4 Subsidized voyages.
252.5 Essential service and export-import requirements.
252.6 Demonstration of financial resources.
252.7 Determination of substantiality and extent of foreign flag competition.
252.8 Determination of subsidy rates.
252.9 Financial and other reporting requirements.
252.10 Payment of subsidy.
252.11 Subsidy billing procedures.
252.12 Appeal procedures.

AUTHORITY. Sec. 204(b), Merchant Marine Act, 1936, as amended (46 USC 1114), Reorganization Plans No. 21 of 1950 (64 Stat. 1273) and No. 7 of 1961 (75 Stat. 842) as amended by Pub. L. 91–469 (84 Stat. 1036), Department of Commerce Organization Order 10–8 (38 FR 19707, July 23, 1973).

§ 252.1 Purpose.

The regulations in this Part prescribe rules in accordance with Title VI of the Merchant Marine Act, 1936, as amended (Act), governing the payment of operating-differential subsidy for United States-flag bulk cargo vessels engaged in carrying bulk commodities in worldwide services.

§ 252.2 Applications.

Applications for operating-differential subsidy contracts under this Part may be obtained from the Secretary, Maritime Subsidy Board, Maritime Administration, Department of Commerce, Washington, D.C. 20230.

§ 252.3 Definitions.

(a) *Bulk cargo vessels.* All dry-bulk, tanker or combination tanker/dry-bulk design type vessels which meet the criteria in sections 601 and 610 of the Act are eligible for participation in this operating-differential subsidy program.

(b) *Operator.* An operator contracting to receive operating-differential subsidy under Title VI of the Act for voyages on essential services described in section 211(b) of the Act.

(c) *Subsidy contract.* The operating-differential subsidy agreement entered into by the U.S. and the operator.

(d) *Assistant Secretary.* The Assistant Secretary of Commerce for Maritime Affairs.

(e) *Board.* The Maritime Subsidy Board.

(f) *Region Director.* The Region Director of the Maritime Administration, having jurisdiction over the operator.

(g) *Contracting Officer.* As used in this Part, the Contracting Officer is the Director, Office of Subsidy Administration.

(h) *Cargo ton-miles.* Cargo ton-miles are the product of the long tons (2,240 pounds) of cargo carried multiplied by the distance in nautical miles that the cargo was transported (as recorded in the vessel's deck log) between the port of loading and the port of discharging the cargo.

(i) *Gross revenue.* Gross revenue means the operator's total gross receipts from fixtures of the vessel and cargoes.

(j) *Foreign flag competition.* Foreign flag competition means foreign registered vessels which are deemed to be competitive with the subsidized vessel. For purposes of establishing the foreign flag competition to be used in subsidy calculations, the Board shall make an annual determination of the foreign nations which have substantial tonnage of vessels under this registry that are comparable to the subsidized vessel.

(k) *Subsidized items of expense.* The Board shall determine the items of operating expense which qualify for subsidy under section 603(b) of the Act. Unless otherwise specified in the subsidy contract, the subsidized items of expense shall be wages of officers and crew, maintenance and repairs not compensated by insurance, hull and machinery insurance, and protection and idemnity insurance applicable to crew liability. These items are more fully defined in § 252.8.

(1) *Subsidy rates.* Subsidy rates are measurements of the cost differentials between the subsidized vessel and the competitive foreign flag vessels for subsidized items of expense. They are used as a medium for determining the amount of subsidy which is payable under the subsidy contract.

§ 252.4 Subsidized voyages.

(a) *General.* The operator shall operate each subsidized vessel for a minimum of three hundred thirty-five (335) days each year in worldwide carriage of bulk cargo in the foreign ocean-borne commerce of the U.S. and in the carriage of such cargoes between foreign ports.

(b) *Commencement.* The first subsidized voyage shall commence at the time provided in the subsidy contract; thereafter, subsidized voyages shall commence at 0001 hours local time of the day following the day of termination of the previous voyage or, in the event that a reduced crew period follows a voyage termination, as of 0001 hours of the day following the day on which such reduced crew period terminates.

(c) *Termination.* Subsidized voyages shall terminate (1) at U.S. ports at midnight of the day of completion of (i) paying off the crew from foreign articles, (ii) final discharge of cargo at the last port of discharge or (iii) voyage repairs, whichever event occurs last, (2) at foreign ports at midnight of the day of completion of final discharge of cargo if the vessel loads another cargo in that same port, or at midnight of the day prior to the day of commencement of loading cargo if it proceeds in ballast to another port for its next cargo; *Provided, however,* That the operator may request the Region Director to approve a variance from the foregoing for reasons of strike, cargo activity and other special circumstances and the Region Director shall promptly advise the operator of his determination in approving or disapproving such requests; *Provided, further,* That the final subsidized voyage shall terminate at the time provided in the subsidy contract.

(d) *Idleness, delay or lay-up.* The operator shall report promptly to the Region Director all facts and explanations thereof relating to periods of vessel idleness, lay-up or delay occurring during or between subsidized voyages. The Region Director shall determine whether such period could have been avoided through efficient and economical operation, whether operating costs were reduced to a minimum in accordance with sound commercial practice and shall advise the operator and the Contracting Officer of his decisions. Based on the Region Director's findings, the Contracting Officer shall determine whether subsidy is payable in whole or in part for such period and shall advise the subsidized operator of his determination.

(e) *Reduced crew period.* The term reduced crew period means any period in port, during which the vessel's normal crew complement is reduced by four (4) or more men and "division of wages" is not paid for the missing men. The reduced crew period shall cease on the day prior to the day that the vessel's crew complement is restored to not more than three (3) men less than the normal complement or "division of wages" is paid for the missing men, or the vessel is temporarily or permanently withdrawn from subsidized service.

(f) *Normal crew complement* means the crew complement which was approved by the Board for operating-differential subsidy under the provisions of section 603(c) of the Act, or as established by collective bargaining or other agreement, whichever is less. Reduced crew periods shall be reported promptly to the Region Director, specifying all pertinent facts, and the Region Director shall determine whether operating costs were reduced to a minimum in accordance with sound commercial practice and shall advise the operator and Contracting Officer of his findings. The Contracting Officer shall determine what expenses qualify for subsidy under the circumstances regarding such period.

§ 252.5 Essential service and export-import requirements.

(a) *General.* This section establishes minimum requirements for the carriage of cargo in the export-import foreign commerce of the U.S. for purposes of maintaining an essential service and determining the amount of subsidy earned.

(b) *Essential service requirement.* A vessel shall be deemed to be used in an essential service of the U.S. as provided in section 211(b) of the Act if during any period of subsidized service such vessel carries in the export-import foreign commerce of the U.S. at least thirty (30) per cent of all cargo carried in subsidized service (other than cargo carried in the coastwise or intercoastal trade) as determined paragraph (c)(2) of this section.

(c) *Export-import requirement* — (1) *Subsidy earned.* Unless otherwise agreed to by contract, the amount of subsidy earned is equal to the amount of subsidy otherwise payable multiplied by the percentage factor determined in accordance with the following schedule:

Percent of cargo carried in the export-import foreign commerce of the United States	*Percent of subsidy otherwise payable*
50 or more	100
40 but less than 50	70
30 but less than 40	40
less than 30	0

(2) *Percent of cargo carried in the export-import foreign commerce of the U.S.* The percent of cargo carried in the export-import foreign commerce of the U.S. is equal to the cargo ton-miles of cargo carried in subsidized service in the export-import foreign commerce of the U.S. on voyages terminated during any period of subsidized service or the gross revenue earned from the carriage of such cargo, divided by the ton-miles of all cargo carried in subsidized service on voyages terminated during such period (other than cargo carried in the coastwise or intercoastal trade) or the gross revenue earned from the carriage of such cargo, whichever yields the highest percent. For purposes of this paragraph cargo carried in subsidized service means cargo discharged in such service.

(3) *Period of subsidized service*—(i) *Three-year period.* The period of subsidized service shall be any period of 36 successive calendar months of operation. The first such period shall begin on the first day of the first subsidized voyage and shall end on the last day of the following 36th calendar month. Each succeeding three-year period shall begin on the day following the end of the preceding period of subsidized services and shall end on the last day of the following 36th calendar month, except that, the last such period shall end on the last day of the last subsidized voyage.

(ii) *One-year period.* An operator may in lieu of any three-year period elect a one-year period of 12 successive calendar months of operation. If a one-year period is elected in lieu of the first three-year period such one-year period shall begin on the first day of the first subsidized voyage and shall end on the last day of the following 12th calendar month. Any later one-year period elected by the operator shall begin on the day following the end of the preceding period of subsidized service and shall end on the last day of the following 12th calendar month. Such election must be received in writing by the Contracting Officer no later than the last day of the 14th calendar month of any three-year period.

(4) *Subsidy otherwise payable.* The amount of subsidy otherwise payable is the amount of subsidy payable under the subsidy contract for subsidized voyages terminated during any period of subsidized service after any reduction of subsidy due to the carriage of coastwise or intercoastal trade pursuant to section 605(a) of the Act.

(5) *Export-import foreign commerce of the U.S.* The export-import foreign commerce of the U.S. means the commerce or trade between the U.S., its territories or possessions, or the District of Columbia, and a foreign country.

§ 252.6 Demonstration of financial resources.

(a) *General.* At all times during the period that the subsidy contract is in effect the operator shall be required to provide evidence of adequate financial resources to insure that the U.S. may recover any overpayment of subsidy and to insure true and faithful performance of the covenants and agreements contained in the subsidy contract. Such evidence of adequate financal resources shall apply to each subsidized vessel.

(b) *Options for demonstrating financial resources.* Prior to the time that each vessel commences the first year of each three-year period the operator shall submit one of the following to the Contracting Officer:

(1) An acceptable letter of credit in favor of the Maritime Administration in an amount equal to the estimated subsidy accrual for that year.

(2) A surety bond in favor of the Maritime Administration issued by a bonding company authorized to do business in the U.S. in the amount of the estimated subsidy accrual for that year. The bond shall be subject to approval by the Maritime Administration both as to form and the sufficiency of the surety.

(3) United States Government securities of a face value equal to the estimated subsidy accrual for that year.

(4) The most recent balance sheet certified by a certified public accountant which demonstrates that the operator has working capital equal to twice the estimated subsidy accrual for that year. If the certified balance sheet covers a period terminating more than ninety (90) days prior to its submission it shall be accompanied by a current balance sheet certified by a company official which demonstrates that the operator still meets the working capital requirement. The operator must resubmit annually, within ninety (90) days after the close of its fiscal year, a current financial statement certified by a certified public accountant to demonstrate its continuing ability to meet the working capital requirement, and if at any time the operator becomes aware that it no longer has the necessary working capital to satisfy the requirement of this paragraph it shall promptly notify the Maritime Administration of this fact and shall provide evidence of adequate financial resources under one of the other options provided by this section.

(5) A guarantee, satisfactory in form, in favor of the Maritime Administration by any party whose financial statements will meet the working capital requirement contained in paragraph (b)(4) of this section. The guarantor shall submit the financial statements as prescribed in paragraph (b)(4) of this section and shall promptly notify the Maritime Administration if at any time it becomes aware that it no longer has the necessary working capital.

(c) *Vessel failing to meet export-import commerce requirements.* If a vessel fails to carry a minimum of thirty (30) per cent export-import foreign commerce of the U.S. on an aggregate basis at any time after the first year of the three-year period, the operator shall increase the amount of the letter of credit or surety bond, or the face value of United States Government securities, to an amount equal to the estimated subsidy accrual for the first eighteen (18) months of such period, and if the operator has elected or elects the working capital option contained in paragraphs (b)(4) or (5) of this section, the amount of working capital required shall be an amount equal to twice the estimated subsidy accrual for the first eighteen (18) months of such period. The operator must comply with this requirement before the next subsidy payment.

§ 252.7 Determination of substantiality and extent of foreign flag competition.

(a) *General.* Foreign flag competition shall be determined as of January 1 each year by utilizing a data file known as "Merchant Fleets of the World" which is maintained by the Maritime Administration. The substantiality and extent of foreign flag competition will be determined from a survey of the data file of all nations (excluding the U.S.S.R.) which have bulk vessels of similar cargo carrying capability to the subsidized vessel.

(b) *Procedures*—(1) *Class and tonnage groupings.* Foreign flag vessels shall be grouped into classes by design type, e.g., tanker, and each class of vessels shall be divided into four (4) deadweight tonnage ranges as follows:

(i) Range A—Vessels under 25,000 tons.

(ii) Range B—Vessels of 25,000 to 49,999 tons.

(iii) Range C—Vessels of 50,000 to 99,999 tons.

V39 112 JUN10 74 XUM

(iv) Range D—Vessels of 100,000 or more tons.

(2) *Selection of proper class and range.* The characteristics of the subsidized vessel shall be used for selecting the proper vessel class and tonnage range for purposes of establishing the foreign flags which shall be deemed to be competitive with the subsidized vessel.

(3) *Ranking of flags.* Foreign flag vessels of the selected class and range will be further grouped by nationality and ranked in descending order according to the deadweight tonnage under each flag as against the total deadweight tonnage of foreign flag vessels in the selected class and range.

(4) *Determination of principal competitors.* The principal foreign flag competitors shall be those flags with the largest deadweight tonnage for which the combined tonnage aggregates a minimum of sixty (60) percent of the total tonnage in the selected class and range or a maximum of five (5) principal competitors, whichever is reached first.

(5) *Determination of extent of competition.* The extent of competition of each principal foreign flag competitor shall be determined by a ratio, the numerator of which shall be the deadweight tonnage of the principal foreign flag competitor and the denominator of which shall be the total deadweight tonnage of all principal foreign flag competitors. The competition weight factors so determined shall be used in all operating-differential subsidy calculations. For example, if the deadweight tonnage of the selected class for Norway in Range B (25,000 to 49,999 tons) were 2.84 million tons and the total deadweight tonnage of the selected class for all principal foreign flag competitors in Range B (including Norway) were 9.55 million tons, the competition weight factor for Norway would be 29.7 percent; this means that in determining the cost of foreign flag competition, 29.7 percent will be Norwegian flag costs.

§ 252.8 Determination of subsidy rates.

(a) *General.* A separate paragraph of this section is devoted to general provisions, wages of officers and crews, maintenance (upkeep) and repairs, hull and machinery insurance and protection and indemnity insurance. Each of the paragraphs outlines procedures for establishing U.S. and foreign costs and for determining subsidy rates, including, where appropriate, definitions of terms, illustrations and sample calculations. In order to avoid repetition in the individual paragraphs, provisions which have general application to the calculation of subsidy rates for more than one subsidized item of expense are listed in paragraph (b) of this section, general provisions.

(b) *General provisions*—(1) *Provisions applicable to all subsidy rates*—(i) *Foreign flag competition.* The foreign flag competition determined by the Board as of January 1 each year shall be used for all subsidy rate calculations for that year. Wage subsidy rates are calculated for fiscal years, July 1 through June 30, and the foreign flag competition in effect as of January 1 in the middle of the fiscal year shall be used for establishing the wage rates. Subsidy rates for maintenance (upkeep) and repairs, hull and machinery insurance, and protection and indemnity insurance are calculated for calendar years and the foreign flag competition in effect as of January 1 of the calendar year shall be used for establishing those rates.

(ii) *Negative subsidy rates.* When a subsidy rate in any category is less than zero, indicating that the operator is at an advantage rather than a disadvantage in such category, the money equivalent of the negative subsidy rate shall be deducted from the subsidy found to be payable to the operator during the same year.

(iii) *Foreign cost data.* The Maritime Administration and the operator shall make every reasonable effort to obtain foreign cost data for purposes of determining subsidy rates.

(iv) *Opportunity for operator to comment on subsidy rates.* The Maritime Administration will calculate the subsidy rates, and such rates will be tendered to the operator for comment before they are recommended to the Board for approval. The operator will have thirty (30) days in which to comment on the proffered rate(s), and in the event of disagreement which cannot be resolved by the staff, the operator's comments as to such unresolved issues will be forwarded to the Board together with the Contracting Officer's recommendations.

(2) *Provisions applicable to subsidy rates for maintenance (upkeep) and repairs, hull and machinery insurance, and protection and indemnity insurance*—(i) *Subsidy rates.* The subsidy rates shall be determined as a percentage cost differential, except for protection and indemnity insurance deductibles which shall be determined, where possible, as a cost differential. The percentage rates shall be carried out to two (2) decimal places, and the deductible cost differentials shall be determined in dollars and cents. Except in the case of mutual agreement between the operator and the Board, subsidy rates shall be reviewed and adjusted as of January 1 each year.

(ii) *Application of subsidy rates.* For determining the amount of subsidy which is payable under the subsidy contract, the subsidy rates for each calendar year shall be applied to subsidized expenses incurred for voyages terminated during that calendar year.

(iii) *Foreign currency exchange rates.* Foreign currencies shall be converted into U.S. currency equivalents by using for the calendar year involved the average of monthly foreign currency exchange rates, as recommended by the United States Department of Treasury.

(c) *Wages of officers and crews*—(1) *General.* Pursuant to sections 603(c) and 603(e) of the Act there are two subsidy rates for wages of officers and crews, a wage sudsidy per diem rate and a wage subsidy percentage rate. The per diem rate is used for the payment of operating-differential subsidy for vessels which are operating with close to a full crew complement; however, because there are certain wage costs which cannot be included in a per diem rate, and because vessels do not operate with full crew complements in circumstances of undergoing repairs, etc., it is necessary to use a percentage rate for payment of subsidy on such unpredictably timed wage costs. Both rates shall be determined as of January 1 in the middle of the fiscal year (July 1 to June 30) to which they apply.

(2) *Definitions of terms*—(i) *Collective Bargaining Costs.* When used in this paragraph the term "collective bargaining costs" means the annual cost, calculated on the basis of the per diem rate of expense as of January 1 of annual fiscal year periods of all items of expense required of the operator through collective bargaining or other agreement, covering the employment of the officers and crew of the subsidized vessel, including payments required by law to assure old-age pensions, unemployment benefits, or similar benefits and taxes or other governmental assessments on crew payrolls, provided, however, that for purposes of collective bargaining costs the complement shall not exceed those officers and members of the crew which the Board has found to be necessary for the efficient and economical operation of such vessel.

(ii) *Base period.* When used in this subsection the term "base period" means any annual period beginning July 1, and ending June 30 with respect to which a base period cost is established. At intervals of not less than two years nor more than four years, the Board will establish a new base period. New base periods will be announced by the Board prior to the December 31 that would be included in the new base period.

(iii) *Base period cost*—(A) *Initial base period.* The term "base period costs" for the initial base period of subsidized service means the collective bargaining costs as of January 1 of that base period.

(B) *Subsequent base periods.* In base periods subsequent to the initial base period the term "base period costs" means the average of (1) the collective bargaining costs as of January 1 of such fiscal year and (2) the subsidizable wage cost computed for January 1 of the preceding fiscal year, calculated without regard to the limitations in paragraph (c)(2)(iv)(B) of this section, as increased or decreased to January 1 of such base period by the change in an index described in paragraph (c)(2)(v) of this section: *Provided, however,* That such base period costs shall not be less than a minimum nor more than a maximum amount determined as a percentage of the collective bargaining costs computed for

January 1 of such base period in accordance with the following schedule:

[In percent]

	Minimum	Maximum
Base period following a:		
2-yr cycle	97½	102½
3-yr cycle	96¼	103¾
4-yr cycle	95	105

(iv) *Subsidizable wage costs.* When used in this subsection the term "subsidizable wage costs" means, (A) with respect to a base period, the base period cost, and (B) in any fiscal period other than a base period, the most recent base period cost increased or decreased by the increase or decrease from January 1 of such base period to January 1 of such period in the index described in paragraph (c)(2)(v) of this section, provided that the subsidizable wage costs so determined shall not be less than 90 percent of the collective bargaining costs as of January 1 of such period nor greater than 110 percent of such collective bargaining costs.

(v) *Index.* The Bureau of Labor Statistics shall compile the index to be applied to base period costs which index shall consist of the average annual change in wages and benefits placed into effect for employees covered by collective bargaining agreements with equal weight to be given to changes affecting employees in the transportation industry (excluding the offshore maritime industry) and to changes affecting employees in private nonagricultural industries other than transportation.

(3) *Method of calculating collective bargaining costs*—(i) *Per diem amount.* Collective bargaining costs shall be determined by pricing out all fixed costs that are in effect as of January 1 each year and by adding to the per diem aggregate of such fixed costs a per diem aggregate of variable costs, obtained from cost experience of the subsidized vessel during the preceding calendar year. The per diem aggregate of variable costs as of January 1 shall be determined by applying a ratio to the per diem aggregate of base wage costs as of January 1, the numerator of which shall be the total of variable costs for the preceding calendar year and the denominator of which shall be the total of base wage costs for the preceding calendar year. The per diem collective bargaining costs shall be determined in dollars and cents.

(A) *Fixed costs.* Fixed costs are all costs that are stated at specific or determinable amounts per time period and do not vary based on operating experience. In cases where a monthly amount is specified in the agreement, the per diem amount shall be determined by multiplying the monthly amount by 12 and dividing the total by 365 or 366 days, as applicable, for that fiscal year. Among these costs, but not limited thereto, may be included:

Base wages (including non-watch pay).
Vacation pay.
Clothing and uniform allowances.
Contributions to pension and welfare plans.
Radio Operator allowances.

(B) *Variable Costs.* Variable costs are all regularly incurred employment costs which cannot be specifically priced out as of January 1; such costs are dependent upon ship operating experience. Among these costs, but not limited thereto, may be included:

Payroll taxes.
Overtime and penalty pay.
Payments to Master for piloting.
Transportation expenses and travel allowances.
Payments to relief officers and crews.
Wages and other expenses of U.S.M.M.A. cadets.
Lodging allowances.
Overlap in wages for replacement of crew (maximum of two days for Master and Chief Engineer and one day for other ratings).
Div. of wages occasioned by causes other than a shortage of crew.

(ii) *Example calculation.* The following is an example calculation of collective bargaining costs (CBC) and of U.S. wage costs (WC), the use of the latter is discussed in paragraph (c)(4):

ABC STEAMSHIP CO., TS-S-101c—WORLDWIDE SERVICES

January 1, 1974, collective bargaining costs (CBC) and U.S. wage costs (WC)

	Per diem	
	WC	CBC
Crew complement	[1] 27	[2] 26
Fixed costs as of Jan. 1, 1974:		
Base wages	$1,066.67	$1,023.95
Allowances (radio telephone, clothing, etc.)	3.49	3.49
Vacation pay	370.77	360.07
Pension, welfare, training, unemployment fund contributions	611.13	590.95
Total fixed costs	2,052.06	1,978.46
Variable costs as of Jan. 1, 1974:		
Variable cost factor (based on calendar year 1973 cost experience) (percent)	83.56	83.56
Total variable costs (Jan. 1, 1974, base wages×variable cost factor)	$891.31	$855.61
Total wage costs as of Jan. 1, 1974	2,943.37	2,834.07

[1] Actually carried.
[2] Approved by the Board.

(iii) *Unpredictably timed costs.* In addition to fixed and variable costs there are certain costs which are included in the definition of collective bargaining costs but which cannot be included in the per diem amount because they are unpredictably timed. Such payments are eligible for subsidy payment purposes in accordance with procedures set forth in this subsection. Examples of unpredictably timed costs are wages incurred during reduced crew periods, severance pay, special assessments for benefit funds and area bonuses. Retroactive increases in wages and benefit fund contributions which are negotiated to be retroactively effective prior to January 1 of a base period will be treated as unpredictably timed costs if they were not included in base period cost.

(iv) *Data requirements.* For purposes of calculating collective bargaining costs, the operator shall submit (A) Form MA-790 by March 31 each year, covering the wage costs incurred on voyages terminated during the preceding calendar year, and (B) as appropriate, current copies of all collective bargaining or other agreements, memorandums of understanding, and arbitration awards, which specify the fixed costs in effect as of January 1, as concluded between operator and the applicable maritime labor organizations, or otherwise promulgated. The foregoing shall be submitted to the Director, Office of Subsidy Administration, Maritime Administration, Washington, D.C. 20230.

(v) *Changes in crew complement.* If a vessel enters subsidized service with a crew complement that is different from those officers and members of the crew which the Board found to be necessary for the efficient and economical operation of such vessel, or if the operator negotiates a change in the crew complement of the vessel at any time such vessel is under the subsidy contract, the operator shall report promptly the facts and circumstances thereof to the Contracting Officer. The operator shall not be precluded from requesting, nor the Board from approving, the substitution of officers and members of the crew, whether or not such officers and members of the crew were previously included in the Board approved crew complement, provided that for purposes of collective bargaining costs such new crew complement does not exceed in number of crew complement previously approved by the Board.

(4) *Method of calculating foreign wage costs*—(i) *General.* The foreign wage cost (FC) of each principal foreign flag competitor and the comparable U.S. wage cost (WC) of the subsidized vessel are matched as of January 1 of the subsidized fiscal year for purposes of determining the composite per diem foreign wage costs for the competitive foreign flag vessels.

(ii) *Calculation of WC.* The calculation of WC shall be based on the actual negotiated crew complement of the subsidized vessel in effect on January 1 of the subsidized fiscal year, and the method of calculating WC shall be the same as that described for collective bargaining costs in paragraph (c)(3)(i) of this section: *Provided, however,* That a like-for-like concept shall be used for matching each item of U.S. and foreign wage costs. The matching process may necessitate the deletion of certain items of WC or the employment of a different pricing method than otherwise would apply to fixed and variable costs of the subsidized vessel because of the nature of foreign data. Where it is not possible to estimate by any reasonable method a certain item of foreign wage costs, but such cost is known to exist, the cost shall be excluded from the computation of WC for the purpose of comparing FC to WC. For example, if the cost of travel expenses cannot be determined for a foreign competitor, such cost will be excluded from WC. Similarly, it may not be possible to compute the foreign cost

V39—112 JUN 10 74 XUM

of a particular expense by the method that normally would be used for computing the U.S. cost, in which circumstance the U.S. cost shall be computed the same way that the foreign cost is determined. For example, if it is not possible to obtain the cost experience for payroll taxes of competitive U.K. flag vessels, the pricing method shall be used for both U.S. and U.K. taxes.

(iii) *Calculation of FC*—(A) *Manning.* The calculation of FC for each principal foreign flag competitor shall be based on the actual crew complement in effect on January 1 of the subsidized fiscal year, provided, however, the crew complement determined for any ship type with respect to any base period shall not be redetermined until the next base period. The actual crew complement of vessels under each principal foreign flag competitor shall be the predominant crew complement, in number and nationality, determined from a representative sample of Alien Crew Declarations of the foreign competitive vessels which have entered the U.S., or if a representative sample of such vessels have not entered the U.S., from the foreign operators of a random sample of such vessels.

(B) *Method.* The method of calculating FC shall be the same as that described in paragraph (c)(3)(i) of this section unless an item of foreign cost cannot be obtained on the same basis; preference shall be given to pricing out for fixed costs and to cost experience for variable costs.

(C) *Foreign currency exchange rates.* Foreign currencies shall be converted into U.S. currency equivalents by using the average of monthly foreign currency exchange rates, as recommended by the United States Department of Treasury, except in cases where by contract, or otherwise, certain items of wage costs are paid to foreign seamen at a specified rate of exchange of U.S. dollars, the specified rate shall be used. For priced out wage costs as of January 1 of the subsidized fiscal year, the average of monthly foreign currency exchange rates for the fiscal year shall be used. For cost experience wage costs, the average of monthly foreign currency exchange rates for the calendar year preceding January 1 of the subsidized fiscal year shall be used.

(D) *Cut-off date for receipt of data.* The Maritime Administration shall give the operator written notice of its intention to commence the calculation of FC for each principal foreign flag competitor and of the vessels which will be used for determining FC. The operator shall have sixty (60) days from the date of the Maritime Administration's notice in which to submit in writing all relevant data within its possession. Data received by the Maritime Administration on or after the cut-off date will not be used in the calculation of FC for that year unless, in the opinion of the Board, the data on hand are inadequate to establish a fair and reasonable foreign wage cost.

(E) *Disclosure of data.* In making the calculation of FC, the Board will consider all relevant matter so presented and all foreign wage cost data collected at its request or on its behalf. Such foreign cost data will be made available to an interested operator, unless the Board shall find that disclosure of the data will prevent its obtaining such data in the future.

(iv) *Composite weighted percentage.* The ratio of FC to WC for each principal foreign flag competitor shall be multiplied by the competition weight factor for that competitor to establish a weighted percentage, and the weighted percentages for all competitors shall be added to determine the composite weighted percentage. The composite weighted percentage shall be carried out to two (2) decimal places.

(v) *Composite foreign wage cost.* The composite foreign wage cost shall be determined by multiplying the composite weighted percentage by WC which is calculated by the same method as collective bargaining costs (see example calculation of WC in paragraph (6)(3)(ii) of this section). The composite foreign wage cost shall be determined in dollars and cents.

(vi) *Example calculation.* The following is an example calculation of composite foreign wage cost (CFC):

ABC STEAMSHIP CO., INC., T8-S-101c VESSEL—WORLDWIDE SERVICES

Jan. 1, 1974—composite foreign wage cost (CFC)

	United States	Japan	United States	Norway	United States	United Kingdom
Crew complement	27	27	27	25	27	30
Base wages [1]	$1,082	$314	$1,066.67	$467.59	$1,066.67	$387.38
Allowances [1]	4	122	3.49	52.55	3.49	41.50
Vacation pay (leave)	[2]415	[2]71	[1]370.77	[1]72.80	[2]406.82	[2]60.43
Pension and welfare	[2]659	[2]253	[2]649.90	[2]121.05	[1]611.13	[1]42.30
Social security	[2]76	[1]47	[2]94.81	[2]63.29	[1]75.25	[1]52.70
Overtime and other variable costs [1] (not elsewhere included) [3]	705	109	695.77	140.27	695.77	93.10
Repatriation				12.30		
Total wage costs	2,941	916	2,881	930	2,861	677
Unweighted percentage (FC to WC)	31.15		32.28		23.66	
Competition weight factor [4] (percent)	23.4		31.1		45.5	
Weighted percentage	7.29		10.04		10.77	
Composite weighted percentage		28.10				
Composite foreign wage cost (U.S. wage cost (WC) of $2,943.37 multiplied by 28.10 percent) [5]		$827.09				

[1] Based on Jan. 1, 1974, priced-out costs and foreign exchange rates for the period July 1, 1973, through June 30, 1974.

[2] Based on calendar year 1973 cost experience and foreign exchange rates.

[3] Excludes travel costs and wage costs of port relief officers and crews due to nonavailability of foreign data.

[4] Based on Jan 1, 1974, competition approved by the Board.

[5] WC calculated the same as collective bargaining costs.

(vii) *Data requirements.* For purposes of calculating WC the Maritime Administration will use Form MA-790, submitted by the operator in accordance with paragraph (c)(3)(iv) of this section. For purposes of calculating FC the Maritime Administration will use Alien Crew Declarations (Form I-418) filed with the U.S. Immigration and Naturalization Service, collective bargaining agreements, laws, decrees, regulations and other public documents, payrolls and other cost data obtained from foreign governments and operators.

(5) *Determination of wage subsidy per diem rate.* The composite foreign wage cost as of January 1 of the subsidized fiscal year shall be deducted from subsidizable wage costs as of the same January 1 to determine the wage subsidy per diem rate for that fiscal year. The per diem rate shall be determined in dollars and cents.

(6) *Determination of wage subsidy percentage rate.* The cost differential between composite foreign wage cost and subsidizable wage costs as of January 1 of the subsidized fiscal year shall be divided by subsidizable wage costs as of the same January 1 to determine the wage subsidy percentage rate for that fiscal year. The percentage rate shall be carried out to two (2) decimal places.

(7) *Application of wage subsidy rates*—(i) *Per diem rate.* For determining the amount of subsidy which is payable under the subsidy contract, the wage subsidy per diem rate in effect for a fiscal year shall be applied to subsidized voyage days that fall within such fiscal year, except for days of reduced crew periods as defined in paragraph (e) of § 252.4.

(ii) *Percentage rate.* For determining the amount of subsidy which is payable under the subsidy contract, the wage subsidy percentage rate in effect for a fiscal year shall be applied to subsidizable unpredictably timed wage expenses incurred for voyages which terminated within such fiscal year.

(8) *Procedures for determining wage subsidy rates for a new operator or vessel type*—(i) *Collective bargaining costs.* The procedures for calculating collective bargaining costs which are described in paragraph (c)(3)(i) of this section, shall be followed; however, a minimum of six (6) months of cost experience shall be used for determining the ratio of variable costs to base wages. For vessels which do not have a minimum of six (6) months of operating experience during the first calendar year of subsidized service, the ratio of variable costs to base wage costs for the next subsequent calendar year shall be used for determining the collective bargaining costs in effect as of the first January 1 in subsidized service. For vessels which have more than six (6) months of operating experience during the first calendar year of subsidized service, the ratio of variable costs to base wage costs for such calendar year shall be used for determining the collective bargaining costs in effect as of the first January 1 in subsidized service and for determining the collective bargaining costs in effect as of the previous January 1.

(ii) *Subsidizable Wage Costs*—(A) *Base period.* If the operator or vessel type enters subsidized service during a base period, the subsidizable wage costs for such base period shall be the collective bargaining costs in effect as of January 1 of such base period, determined in accordance with paragraph (i) above.

(B) *Other than a base period.* If the operator or vessel type enters subsidized service during a fiscal period that is other than a base period, the collective bargaining costs in effect as of January 1 of such fiscal period, determined in accordance with paragraph (c)(8)(i) of this section, shall be regressed to January 1 of the base period most recent to January 1 of such fiscal period, and the collective bargaining costs so determined for January 1 of the most recent base period shall be base period cost for purposes of determining in accordance with paragraph (c)(2)(iv) of this section, the subsidizable wage costs in effect during such fiscal period.

(iii) *Foreign wage costs.* The method of calculating foreign wage costs in effect as of January 1 of the initial fiscal period of subsidized service shall be the same as that described n paragraph (c)(4) of this section, except that WC for January 1 of such fiscal period shall be determined in accordance with the procedures described in paragraph (c)(8)(i) of this section for collective bargaining costs.

(iv) *Wage subsidy rates.* The determination of the wage subsidy per diem rate and the wage subsidy percentage rate, and the application of such rates, shall be the same as that described in paragraph (c)(5), (6), or (7), respectively, of this section.

(9) *Example calculation.* The following is an example calculation of wage subsidy per diem and percentage rates.

ABC STEAMSHIP CO., TS-S-101c VESSEL—WORLDWIDE SERVICES

Calculation of wage subsidy rates [1]

(1) Base period	(2) Interim period	(3) U.S. wage costs (WC)	(4) Collective bargaining costs	(5) Application of BLS index to base period cost	(6) Averaging in base periods (4)+(5)÷2	(7) Appropriate limits	(8) Base period cost	(9) Subsidizable wage costs	(10) Composite foreign wage cost	(11) Wage subsidy per diem rate	(12) Wage subsidy percentage rate (11)÷(9)
1973		2,729.78	2,644.20				2,644.20	2,644.20	793.42	1,850.78	69.99
	1974	2,943.37	2,834.07	2,644.20×107.8=2,850.45		90% (4)=2,550.66 110% (4)=3,117.48		2,850.45	827.09	2,023.36	70.98
[2]1975		3,143.40	3,027.08	2,644.20×116.3=3,075.20	3,051.14	97.5% (4)=2,951.40 102.5% (4)=3,102.76	3,051.14	3,051.14	883.29	2,167.85	71.05

[1] This computation is based on a new vessel entering subsidized service in May 1973.

[2] Base period for example purposes only.

(1) Par. (2)(ii).
(2) Fiscal period other than a base period.
(3) Par. (4), with example calculation in par. (3)(ii).
(4) Pars. (2)(i) and (3).
(5) Par. (2)(v).
(6) Par. (2)(iii)(B).
(7) Pars. (2)(iii) and (2)(iv).
(8) Par. (2)(iii).
(9) Par. (2)(iv).
(10) Pars. (4)(v) and (4)(vi).
(11) Par. (5).
(12) Par. (6).

(d) *Maintenance (upkeep) and repairs*—(1) *Definition of maintenance and repair costs*—(i) *Items eligible for subsidy payment.* All costs not compensated by insurance, if deemed fair and reasonable by the Maritime Administration, and otherwise eligible for subsidy under the provisions of Part 272 of this Subchapter, applicable to maintenance and repair work performed in the United States or the Commonwealth of Puerto Rico by ship repair yards, independent contractors or shore gang labor, shall be eligible for subsidy at the determined maintenance and repair subsidy rate.

(ii) *Items eligible for determination of subsidy rate.* The subsidy rate for maintenance and repairs shall be determined from price quotations of representative items of maintenance and repair work which are described in a standard set of specifications for drydocking and voyage repairs. The Maritime Administration shall select a sample of jobs which are representative of the various types of work performed in each principal category of maintenance and repair work—drydocking and underwater repars, boiler repairs, machinery repairs, hull and deck repairs, electrical repairs, exterior painting and interior painting. The jobs shall be described fully and combined into a standard set of specifications based on a particular type of vessel in order that U.S. and foreign shipyard estimators may comprehend the scope of the work. The same specifications shall be used for obtaining all price quotations.

(2) *Method of calculating subsidy rate*—(i) *Cost survey.* Not more frequently than once every three (3) years nor less frequently than every five (5) years, the Maritime Administration shall make a survey of maintenance and repair costs. For this purpose, reliable ship repair contractors located in selected U.S. and foreign ports shall be requested to provide price quotations for the representative items of maintenance and repair work which are described in the standard set of specifications.

(ii) *Indexing price quotations.* Since price quotations are effective for a specified month or a specified period, such quotations shall be indexed to be representative of prices for the subsidized calendar year by applying a ratio to the quotations, the numerator of which shall be the index number for the subsidized calendar year and the denominator of which shall be the index number for the specified month or period. The index shall be the monthly, or quarterly, index of wages (hourly, daily, weekly or monthly earnings) for the ship repairing industry in the country involved, or if a wage index for the ship repairing industry is not published, the most suitable wage index for that country shall be used. The U.S. Monthly Index of Wages (Hourly Earnings in Manufacturing), published by the Bureau of Labor Statistics, shall be used for indexing U.S. price quotations. If a wage index is not available for the country involved, the Cost of Living Index shall be used.

(iii) *Example of indexing.* The following is an example of indexing price quotations for a specified month and for a specified period to be representative of prices for the entire year:

No. 112—Pt. I——5

V39 112 JUN 10 74 XUM

M&R prices—1974, country—United Kingdom

	Country A quotation	Country B quotation	Country A adjusted to calendar year	Country B adjusted to calendar year	Total	Average 2 yd	Conversion to U.S. [1] $2.40
Yard							
Port	Liverpool	London					
Date of quotation	May to September	February					
Index for period [2]	133	132					
Index for year [2]	135	135					
Index ratio (percent)			101.504	102.273			
Drydocking and underwater repairs	£8,182	£11,270	£8,305	£11,526	£19,831	£9,916	$23,798
Boiler repairs	3,053	3,735	3,099	3,820	6,919	3,460	8,304
Machinery repairs	2,229	6,145	2,263	6,285	8,548	4,274	10,258
Hull and deck	1,666	2,480	1,691	2,536	4,227	2,114	5,074
Electrical	1,153	1,950	1,170	1,994	3,161	1,582	3,797
Exterior painting	290	590	294	603	897	449	1,078
Interior painting	816	680	828	695	1,523	762	1,829
Total	17,389	26,850	17,650	27,459	45,109	22,557	54,138

[1] Average rate of exchange for 1974, as recommended by the U.S. Department of Treasury.
[2] Wages—earnings in manufacturing, weekly rates index, Monthly Bulletin of Statistics. United Nations.

(iv) *Group cost weighting.* In order to give effect to the relative importance of price quotations in each principal category of maintenance and repair work, a group cost weight shall be established for each category by compiling cost data of actual maintenance and repair work performed on subsidized vessels during each calendar year. Form MA-140 submitted by all subsidized operators in accordance with Part 272 of this subchapter shall be used for this purpose. The group cost weight so established for each category shall be applied to all U.S. and foreign price quotations for that category.

(v) *Country price quotations not available.* When price quotations are not available for a particular country where a principal foreign flag competitor had work performed, the average of price quotations from other countries in that general geographical area shall be used. If such quotations are not available in that general area, the percentage of work performed in that country shall be distributed pro-rata between the other repairing countries of that principal foreign flag competitor.

(vi) *Category price quotation not available.* When a price quotation for a principal category of maintenance and repair work is not furnished by a repair yard in a country where a principal foreign flag competitior had work performed, the average of price quotations for such work by repair yards of countries in that general geographical area shall be used. If price quotations are not available for such work in that general area, the U.S. price quotation for accomplishing that type of work shall be substituted for the missing foreign price quotation.

(vii) *Country cost differential.* The average of price quotations for each principal category and for each foreign country shall be divided by the corresponding average of U.S. price quotations and expressed as a percentage in order to establish a cost ratio for each principal category. For this purpose an average of U.S. price quotations shall be determined for each of the four coastal areas—East, West, Gulf and Great Lakes—and the average of price quotations for the coast, or coastal areas, from which the subsidized vessel principally operated during the subsidized calendar year, shall be used. The cost ratio for each principal category shall be weighted by the corresponding group cost weight, in accordance with paragraph (d)(2)(iv) of this section, to determine a weighted cost ratio for that category, and the sum of weighted cost ratios for all principal categories subtracted from one hundred (100) percent, shall be the country cost differential.

(viii) *Example calculation of country cost differential.* The following is an example calculation of determining a country cost differential:

Determination of country cost differential [1]

[Year—1974; U.S. coast—Atlantic; type of vessel—tanker; Foreign country—United Kingdom]

	Foreign price	U.S. price	Ratio foreign/ United States	Group cost weight	Weighted ratio
			Percent	*Percent*	*Percent*
Drydocking and underwater repairs	$23,798	$55,600	42.8	18.6	8.0
Boiler repairs	8,304	9,120	91.1	8.9	8.1
Machinery repairs	10,258	13,425	76.4	18.9	14.4
Hull and deck repairs	5,074	14,197	35.7	36.2	12.9
Electrical repairs	3,797	8,098	46.9	11.5	5.4
Exterior painting	1,078	2,986	36.1	3.2	1.2
Interior painting	1,829	6,554	27.9	2.7	.8
Total	$54,138	$109,980		100.0	50.8

[1] Country cost differential, 49.2 percent.

(ix) *Determination of repairing practices.* For purposes of determining the country or countries where maintenance and repair work was accomplished on vessels of a principal foreign flag competitor, the Maritime Administration shall use a random sample of vessels under such competitor and shall determine the actual repairing practices of such vessels for the subsidized calendar year. If a random sample of vessels is used for determining foreign wage costs in accordance with paragraph (c)(4)(iii)(A) of this section, the same vessels shall be used for determining the repairing practices. The percentage of repairs performed at each country shall be determined in accordance with paragraphs (d)(2)(ix)(A) and (B) of this section.

(A) *Practices known.* When the repairing practices of the vessels are known and supported by adequate and reliable data, such practices shall be used.

(B) *Practices unknown.* When the repairing practices of the vessels are unknown, or partially unknown, data published by the Classification Societies and Lloyd's Shipping Index, reporting the dates and localities of drydocking and completion of the various types of surveys, shall be used for determining the geographical distribution of the unknown repairing practices.

(x) *Cut-off date for receipt of data.* The Maritime Administration shall give the operator written notice of the vessels which will be used for determining the repairing practices of each principal foreign flag competitor and the operator shall have sixty (60) days from the date of the Maritime Administration's notice in which to submit in writing all relevant data within its possession. Data received by the Maritime Administration on or after the cut-off date will not be used for determining the repair practices of such competitor for that year unless, in the opinion of the Board, the data on hand are inadequate for estimating the repairing practice of the principal foreign flag competitor.

(xi) *Proportionate cost differential.* The proportionate cost differential for each principal foreign flag competitor shall be determined by multiplying the percentage of repairs performed at each country by the percentage costs differential for that country and by adding the resulting weighted percentages for all countries where repair work was performed.

(xii) *Subsidy rate.* The subsidy rate shall be determined by multiplying the proportionate cost differential for each principal foreign flag competitor by the competition weight factor for that competitor and by adding the resulting weighted differentials for all principal foreign flag competitors. Negative differentials shall be applied as an offset against positive differentials in determining the subsidy rate.

(xiii) *Example calculation of subsidy rate.* The following is an example calculation of the maintenance and repairs subsidy rate:

ABC STEAMSHIP CO., INC., T8-S-101c VESSEL—WORLDWIDE SERVICES

Determination of maintenance (upkeep) and repairs subsidy rate,[1] *1974*

Principal competitors	Distribution of repairs		Country cost differential (percent)	Proportionate cost differential (percent)	Competition weight factor (percent)	Weighted differential (percent)
	Country	Percent				
Japan	Japan	85	36.2	30.8		
	United States	15	0	0		
	Total	100		30.8	23.4	7.207
Norway	Norway	15	44.7	6.7		
	Netherlands	20	43.2	8.6		
	Japan	45	36.2	16.3		
	United States	20	0	0		
	Total	100		31.6	31.1	9.828
United Kingdom	United Kingdom	80	49.2	39.4		
	Hong Kong	15	50.3	7.5		
	United States	5	0	0		
	Total	100		46.9	45.5	21.340
	Total					38.375
	Subsidy rate					38.37

(e) *Hull and machinery insurance*—(1) *Definition of hull and machinery insurance costs*—(i) *Items eligible for subsidy payment and determination of subsidy rate.* The fair and reasonable net premium costs (including stamp taxes) of hull and machinery, increased value, excess general average, salvage and collision liability insurance against risks and liabilities covered under the terms and conditions of policies approved as to form and coverage by the Maritime Administration, shall be eligible for subsidy payment and for the determination of the subsidy rate.

(ii) *Items ineligible for subsidy payment and determination of subsidy rate.* War risk insurance premiums, port risk premiums, and premiums reducing insurance (insurance of premiums) shall not be eligible for subsidy payment and for the determination of the subsidy rate.

(2) *Method of calculating subsidy rate*—(i) *General.* Due to the difficulty of comparing forms and costs of hull and machinery insurance coverages, the following assumptions shall be used for estimating the composite premium cost of the foreign competitive vessels:

(A) *Coverage.* The foreign competitive vessels have the same types and amounts of insurance coverages and deductible averages as the operator's subsidized vessel(s).

(B) *Rate.* The foreign competitive vessels are insured in the British market and the British market rate for such vessels is the same as the British market rate for the operator's subsidized vessel(s). If the operator carries all of its insurance in the American market, the American market rate shall be assumed to be the same as the British market rate.

(C) *Particular average.* The percentage of particular average repair claims for the foreign competitive vessels is the same as the percentage of particular average repair claims for the operator's subsidized vessel(s).

(D) *Repairs.* Insurable repairs of the foreign competitive vessels are performed in the same countries and in the same distribution as non-insurable repairs, and the cost differential for such repairs is the same as the maintenance and repairs subsidy rate.

(ii) *Net premium costs.* The composite foreign premium cost for the foreign competitive vessels and the net premium cost for the operator's subsidized vessel(s) shall be determined from Form MA-421. The operator shall prepare Form MA-421, which will include the insured value and deductible average provisions in effect for each subsidized vessel during the subsidized calendar year and the related net premium costs for hull and machinery, increased value and excess liability insurance carried in the American and British markets, and shall submit such form to the Region Director, not later than ninety (90) days after the close of the subsidized calendar year.

(iii) *Particular average portion of the foreign premium cost*—(A) *Percentage.* The particular average portion of the foreign premium cost shall be determined by applying a percentage to the hull and machinery portion of the foreign premium cost (after deducting the estimated total loss premium included therein). The percentage shall be based on the actual insured claims experience of the operator's subsidized vessel(s), provided the operator has a minimum of five (5) years of claims experience, and it shall be determined by dividing the total of underwriter's absorptions for particular average domestic repair claims paid and estimated by the total of underwriter's absorptions for all claims paid and estimated (excluding total loss and constructive total loss claims) under the hull and machinery portion of the insurance coverage, except that such percentage shall not exceed eighty-five (85) percent.

(B) *Report.* For purposes of determining the percentage of particular average domestic repair claims, the operator shall submit annually, on a currently revised basis, a report of the insured claims experience by years and repair categories. The report shall contain the underwriter's absorptions for

V 39 112 JUN 10 74 XUM

particular average repair claims paid (domestic), particular average repair claims paid (foreign), particular average repair claims estimated (domestic), particular average repair claims estimated (foreign), all other claims paid, and all other claims estimated, and it shall include all claims paid and estimated for the subsidized vessel(s) over the ten (10) year period ending on December 31 of the subsidized calendar year: *Provided, however*, That if the operator does not have ten (10) years of claims experience, the report may include a minimum of five (5) years of claims experience, increasing each year until the operator accumulates ten (10) years of claims experience. If the operator does not have five (5) years of claims experience, the average percentage of particular average domestic repair claims for all subsidized cargo vessels shall be used for determining the particular average portion of the foreign premium cost, unless the operator can submit specific data to substantiate its own claims cost experience on similar vessels. The report shall show the status of claims as of June 30 of the year subsequent to the subsidized calendar year and it shall be submitted to the Director, Office of Subsidy Administration, Maritime Administration, Washington, D.C. 20230, not later than sixty (60) days after such June 30.

(iv) *Adjusted particular average foreign premium cost.* The particular average portion of the foreign premium cost shall be adjusted in order to give effect to the repair cost differential for the foreign competitive vessels by applying the complement of the maintenance and repairs subsidy rate (100 percent minus the subsidy rate in effect for the subsidized calendar year) to the particular average portion of the foreign premium cost.

(v) *Composite adjusted foreign premium costs.* The adjusted particular average foreign premium cost shall be added to the net foreign premium cost exclusive of the particular average portion thereof to determine the composite adjusted foreign premium cost.

(vi) *Subsidy rate.* The composite adjusted foreign premium cost shall be subtracted from the operator's total net premium cost to determine the differential in dollars. The subsidy rate shall be determined by dividing the differential by the operator's total net premium cost.

(vii) *Example calculation.* The following is an example calculation of the hull and machinery insurance subsidy rate:

ABC STEAMSHIP COMPANY, INC., T8–S–101o VESSEL—WORLDWIDE SERVICES

Determination of hull and machinery insurance subsidy rate, 1974

Composite foreign premium cost:	
A. Hull and machinery coverage:	
Amount of total coverage	$8,000,000
Average premium rate in British market	2.25%
Premium cost in British market	$180,000
(Estimated total loss premium $8,000,000 at .50%[1] = $40,000)	
B. Increased value coverage:	
Amount of total coverage	$2,000,000
Average premium rate in British market	.625%
Premium cost in British market	$12,500
C. Excess liability coverage:	
Amount of total coverage	$3,000,000
Average premium rate in British market	.15%
Premium cost in British market	4,500
D. Total premium cost if insured 100 percent in British market	$197,000
E. Deduct Particular Average Portion:	
$180,000 less $40,000 = $40,000 × 70 percent P/A factor	98,000
F. Net premium cost exclusive of particular average	$99,000
G. Particular average adjustment:	
Particular average portion of premium cost	$98,000
Maintenance and repair subsidy rate complement (100.00 percent minus 37.37 percent)	61.63%
Adjusted particular average foreign premium cost	$60,397
Add back net premium cost exclusive of particular average	99,000
Composite adjusted foreign premium cost	$159,397
Total premium cost to subsidized operator	200,000
Differential in dollars	$40,603
Subsidy rate	20.30%

[1] After adjusting for broker's discounts, policy tax and other costs, as necessary.

(f) *Protection and indemnity insurance*—(1) *General.* For purposes of determining subsidy for protection and indemnity insurance, it shall be assumed that the cost differential between the subsidized vessel(s) and the foreign competitive vessels is limited to those portions of premium costs and deductible absorptions which are related to crew liability and that the cost of all other liabilities is the same for both the subsidized vessel(s) and the foreign competitive vessels.

(2) *Definition of protection and indemnity insurance costs*—(i) *Premiums*—(A) *Items eligible for subsidy payment.* The fair and reasonable net premium costs (including stamp taxes) of protection and indemnity, excess insurance, second seamen's insurance, and cargo liability if excluded from the primary policy, against liabilities covered under the terms and conditions of policies approved as to form and coverage by the Maritime Administration, shall be eligible for subsidy at the determined protection and indemnity insurance premium subsidy rate.

(B) *Items eligible for determination of subsidy rate.* All items listed in paragraph (f)(2)(A) of this section except for excess insurance premiums, shall be eligible for the determination of the subsidy rate.

(C) *Items ineligible for subsidy payment and for determination of subsidy rate.* War risk insurance premiums shall not be eligible for subsidy payment and for the determination of the subsidy rate.

(ii) *Deductibles.* The fair and reasonable costs of crew claims paid by the operator under the deductible provisions of protection and indemnity insurance policies approved as to form and coverage by the Maritime Administration to the extent that such costs would have been paid by the insurance underwriters under the terms of the policies except for the fact that such costs did not exceed the deductible provisions of such policies, shall be eligible for subsidy payment, provided, however, that for subsidy payment purposes the cost of such crew claims shall not exceed $25,000 each accident or occurrence.

(3) *Method of calculating subsidy rate*—(i) *General.* The calculation of the subsidy rate for protection and indemnity insurance premiums shall be based on costs per gross registered ton (g.r.t.) for crew liability and for all other liabilities. The premium cost for all other liabilities for the subsidized vessel(s) shall be added to the crew liability cost for the foreign competitive vessels of each principal foreign flag competitor to estimate the total premium cost for such competitor. If additional costs or credits are applied to a year after the subsidy rate for that particular year has been determined, the additional costs or credits shall be applied to the next year for which a subsidy rate has not been determined.

(ii) *Determination of premium costs for subsidized vessel(s)*—(A) *Total.* The total premium cost for the operator's subsidized vessel(s) shall be determined from Form MA–422. The operator shall prepare Form MA–422, which will include the protection and indemnity insurance premiums, gross registered tonnage and deductible provisions in effect for the subsidized vessel(s) during the subsidized calendar year, and shall submit such form to the Region Director, not later than ninety (90) days after the close of the subsidized calendar year.

(B) *Crew liability.* The crew liabiliy portion of the total premium cost shall be determined by applying a percentage to the total premium cost. The percentage shall be based on the actual insured claims experience of the operator's subsidized vessel(s), provided the operator has a minimum of five (5) years of claims experience, and it shall be determined by dividing the total of underwriter's absorptions for crew claims paid and estimated by the total of underwriter's absorptions for all claims paid and estimated, except that such percentage shall not exceed eighty-five (85) percent unless such higher percentage can be substantiated. For determining the percentage of crew claims, the operator shall submit annually, on a currently revised basis, a report of the total insurable claims experience on Form MA–344. The report shall be submitted with Form MA–422 and it shall include all claims paid and estimated for the subsidized vessel(s) over the five (5) year period ending on December 31 of the year preceding the subsidized calendar year. If the operator does not have five (5) years of claims experience, the average percentage of crew claims for all subsidized cargo vessels shall be used for determining the crew liability portion of the premium cost, unless the operator can submit specific data to substantiate its own claims experience on similar vessels.

(C) *All other liabilities.* The all other liabilities portion of the total premium cost shall be determined by subtracting therefrom the crew liability portion, determined in accordance with paragraph (f)(3)(ii)(B) of this section.

(iii) *Determination of crew liability costs for foreign competitive vessels*—(A) *Primary method.* The crew liability for the foreign competitive vessels of each principal foreign flag competitor shall be used if reliable cost data can be obtained. If such data cannot be obtained for a principal competitor and it is determined in accordance with paragraph (c)(4)(iii)(A) of this section that such competitor has a non-national crew, the crew liability cost for similar vessels under the same nationality as the crew may be used, at the Board's discretion, provided reliable cost data are obtained. If no reliable cost data are obtained for a particular competitor, the crew liability cost for that competitor shall be estimated in accordance with the alternate method described in paragraph (f)(3)(iii)(B) of this section.

(B) *Alternate method.* If no reliable cost data are obtained for a particular foreign flag competitor, the crew liability cost for such competitor shall be estimated by multiplying the operator's crew liability portion of the total premium cost by the competitor's unweighted wage percentage. For this purpose, the weighted percentage (FC to WC) in effect on January 1 of the subsidized calendar year shall be used.

(iv) *Subsidy rate.* The excess of the operator's total premium cost over each principal foreign flag competitor's estimated total premium cost, expressed as a percentage, shall be multiplied by the competition weight factor for such competitor to determine a weighted differential. The sum of the weighted differentials for all principal foreign flag competitors, negative differentials applied as an offset against positive differentials, shall establish the subsidy rate.

(v) *Example calculation.* The following is an example calculation of the protection and indemnity insurance subsidy rate:

ABC STEAMSHIP COMPANY, INC., TS–S–101c VESSEL—WORLDWIDE SERVICES

Determination of protection and indemnity insurance subsidy rate, 1974

	United States	Japan	Norway	United Kingdom
Crew liability	[1] $1.44	[2] $0.03	[2] $0.48	[2] $0.64
All other liabilities	.25	.25	.25	.25
Total cost	1.69	.28	.73	.89
Differential-excess of U.S. cost over foreign cost		$1.41	$0.96	$0.80
Unweighted differential (percent)		83.43	56.80	47.34
Competition weight factor (percent)		23.4	31.1	45.5
Weighted differential (percent)		19.523	17.665	21.540
Composite weighted differential (percent)			58.728	
Subsidy rate (percent)			58.72	

[1] Determined by applying 85 percent to total net premium cost per g.r.t. of $1.69, reported on Form MA–422.

[2] Crew liability data obtained by Maritime Administration.

(4) *Method of calculating subsidy payment for deductible absorptions*—(i) *Procedure.* The cost of each crew claim paid by the operator under the deductible provisions of protection and indemnity insurance policies, not to exceed $25,000 each accident or occurrence, shall be compared with the deductible in effect for each principal foreign flag competitor to determine the cost that such competitor would have absorbed. The excess of the operator's cost over the cost that would have been absorbed by each competitor shall be multiplied by the competition weight factor for such competitor to determine a weighted excess cost, and the sum of the weighted excess costs for all principal foreign flag competitors, negative differentials applied as an offset against positive differentials, shall be the subsidy payment.

(ii) *Deductibles for foreign competitive vessels.* The deductible in effect for the foreign competitive vessels of each principal foreign flag competitor shall be that which is related to the calculation of the premium subsidy rate. If the primary method is used for determining the crew liability cost, the related deductible shall be used. If the alternate method is used for estimating the crew liability cost for a particular competitor, the same unweighted wage percentage which is used for estimating the crew liability cost for such competitor shall be used for estimating the deductible costs absorbed by such competitor. For this purpose, the cost of each crew claim paid by the operator shall be multiplied by the unweighted wage percentage to determine the costs absorbed by the competitor.

§ 252.9 Financial and other reporting requirements.

(a) *Voyage reports*—(1) *General.* In order to determine compliance with the subsidy contract, the operator shall submit a voyage report to the Director, Office of Subsidy Administration, Maritime Administration, Washnigton, D.C. 20230, upon completion of each subsidized voyage.

(2) *Contents of voyage report.* The voyage report shall include the following information to the extent applicable to the subsidized voyage:

(i) Name of vessel and voyage number.

(ii) Subsidy contract number.

(iii) Vessel activity, including the following data.

(A) Ports of voyage commencement and termination, including dates and times.

(B) Loading port(s), including dates of arrival and departure and long tons of cargo loaded (specify commodity).

(C) Discharge port(s), including dates of arrival and departure and long tons of cargo discharged.

(D) Other port(s)—ports of bunkering, emergency calls, etc., including dates of arrival and departure (specify reason for call).

(E) Cargo ton-miles for all cargo discharged.

(F) Gross revenue for all cargo discharged.

(iv) Identify all periods of vessel layup, idleness and delay and reduced crew periods, and attach all pertinent correspondence with the Region Director.

(b) *Conditions of vessels, inspection and repairs.* In order that the Maritime Administration may have opportunity to participate in the inspection of vessels, in compliance with Part 272 of this Subchapter the operator shall give at least twenty-four (24) hours notice to the Region Director as to the time and place of making inspections.

(c) *Vessel insurance*—(1) *Policies.* Upon the binding of any insurance policy with respect to a subsidized vessel, the operator shall submit promptly to the Director, Office of Marine Insurance, Maritime Administration, Washington, D.C. 20230, for approval of the Maritime Administration, a signed copy of each cover note issued by the operator's brokers, which, to the extent applicable, shall set forth as to such vessel the amounts covered by hull, increased value and other forms of total loss protection, as well as protection and indemnity insurance. Such cover notes shall include the rates, the amounts placed in the different markets, the participating underwriters, the amount underwritten by each underwriter, and the amounts of the deductibles. Upon request, copies of

V39 112 JUN 10 74 XUM

the policy shall be submitted to the Maritime Administration for examination.

(2) *Losses and changes to policies.* The operator shall advise the Maritime Administration promptly of a cancellation of policy or changes in terms or underwriters, of any lay-up period which will permit the collection of return premiums, and for any major casualty or total loss which may occur.

(d) *Financial Statements*—(1) *General.* The operator shall submit the financial statements required in paragraphs, (d) (2), (3), and (4) of this section, in triplicate, to the Director, Office of Financial Analysis, Maritime Administration, Washington, D.C. 20230; such statements shall include management footnotes, as necessary, to make a fair financial presentation.

(2) *Balance Sheet and Statement of Income.* The operator shall submit a Balance Sheet and Statement of Income for the first, second and third quarter of its financial year, certified by a company official. Such statements shall be prepared in conformance with the specimens appended to the Uniform System of Accounts, prescribed in Part 282 of this Subchapter, and they shall be submitted not later than forty-five (45) days after the close of each quarter. The Balance Sheet shall be prepared as of the last day of each quarter and the Statement of Income shall cover operations for the quarter and cumulative operations for the financial year.

(3) *Financial report—Form MA-172.* For each financial year the operator shall submit Form MA-172 for such year, not later than ninety (90) days after the close of such year.

(4) *Certified financial statement.* For each financial year the operator shall submit a Balance Sheet and a Statement of Income and Retained Earnings for such year, certified by a certified public accountant. The statements shall be submitted not later than ninety (90) days after the close of such financial year.

§ 252.10 Payment of subsidy.

(a) *General.* Operating-differential subsidy shall be payable monthly for subsidized voyages terminated during the previous month, subject to the limitations contained in paragraph (d) of this section. Initially, subsidy shall be paid on the basis of tentative subsidy rates. After final subsidy rates are established the amount of subsidy which was paid on the basis of tentative rates shall be adjusted to conform with the final rates.

(b) *Tentative subsidy payment*—(1) *Tentative subsidy rates.* At the time of commencing subsidized service, the Board will establish tentative subsidy rates for each category of subsidized expense which shall be used for the purpose of making tentative subsidy payments. Tentative subsidy rates for wages shall be established annually by the Board, within ninety (90) days after the beginning of each fiscal year. Tentative subsidy rates for maintenance and repairs, hull and machinery insurance and protection and indemnity insurance may be established, at the Board's discretion, for any year subsequent to the initial year of subsidized service. If new tentative rates are not established for a subsequent year, the subsidy rate, tentative or final, applicable to the most recent year for each category of expense shall be used for the purpose of making tentative subsidy payments.

(2) *Partial payment*—(i) *Monthly.* At the close of each calendar month the operator shall submit a voucher for payment of accrued subsidy on voyages terminated during the month. There are two different billings used for this purpose, depending on whether the voyage terminated in a U.S. or foreign port. The only difference is the amount of wage subsidy which may be billed.

(A) *Subsidy billings for wages of officers and crews.* For voyage terminations in foreign ports, the voucher may include a percentage of the wage subsidy per diem rate based on a fraction, the numerator of which shall be the operator's total advances, allotments, and other cash payments made to or on behalf of the crew prior to payoff during the previous fiscal year and the denominator of which shall be the operator's gross payroll during the previous fiscal year. For operators who do not have the necessary cost experience to establish the percentage, a forty (40) percent factor shall be utilized. The tentative wage subsidy per diem rate shall be multiplied by the subsidized voyage days to establish the amount of accrued wage subsidy, and the accrued wage subsidy shall be multiplied by the percentage factor to establish the amount of wage subsidy which may be billed for voyages which terminated in foreign ports. The difference between this partial wage subsidy payment and the accrued wage subsidy may be included in the subsidy voucher for the vessel's next subsequent voyage termination in a U.S. port. For voyage terminations in U.S. ports, the voucher may include one hundred (100) percent of accrued wage subsidy, determined by multiplying the tentative wage subsidy per diem rate by the subsidized voyage days.

(B) *Subsidy billings for maintenance and repairs and insurance premiums.* For voyage terminations in both U.S. and foreign ports, the voucher may include ninety (90) percent of accrued subsidy on expenses incurred for maintenance and repairs, hull and machinery insurance premiums and protection and indemnity insurance premiums. Determination of accrued subsidy shall be made by multiplying the actual subsidizable voyage expenses incurred for each category by the tentative subsidy rate applicable to that category.

(ii) *Quarterly.* At the close of each calendar quarter (March, June, September, and December) the operator may include in its monthly voucher ninety (90) percent of accrued subsidy for unpredictably timed wage costs incurred on subsidized voyages terminated during the calendar quarter. Determination of accrued subsidy shall be made by multiplying the actual subsidizable unpredictably timed wage costs incurred by the tentative subsidy rate applicable to that category.

(iii) *Annually.* At the close of each calendar year the operator may submit a voucher for payment of ninety (90) percent of accrued subsidy on expenses incurred for protection and indemnity deductible absorptions on subsidized voyages terminated during the calendar year. The costs may be included in the December voucher or may be submitted in a separate voucher at any time after the close of the calendar year. Determination of accrued subsidy on the operator's absorptions for crew claims shall be made in accordance with paragraph (f)(4) of § 252.8, or the operator may elect to determine the accrued subsidy by applying the complement of the wage subsidy percentage rate (100 percent minus the rate in effect as of January 1 of that year) to the actual subsidizable absorptions for crew claims.

(3) *Expenses applicable to prior months.* Maintenance, repairs and insurance premiums expenses recorded in a current month but applicable to a voyage terminated in a previous month of the same calendar year may be included for payment of subsidy in the voucher submitted for the current month. Unpredictably timed wage expenses recorded in a current quarter but applicable to a voyage terminated in a previous quarter of the same fiscal year may be included for payment of subsidy in the voucher submitted for the current quarter.

(4) *Changes in subsidy rates.* At the time the Board approves a new subsidy rate, the accrued subsidy and payment thereof will be adjusted as follows:

(i) *Wage subsidy rates.* If changes occur in the wage subsidy per diem rate, the next monthly voucher shall include the new wage subsidy per diem rate (A) for the month currently billed and (B) for all months previously billed in the current fiscal year. If changes occur in the wage subsidy percentage rate for unpredictably timed wage expenses, the next quarterly voucher shall include the new wage subsidy percentage rate (A) for the quarter currently billed and (B) for all quarters previously billed in the current fiscal year.

(ii) *Maintenance and repairs and insurance subsidy rates.* If changes occur in maintenance and repairs and insurance premiums subsidy rates before the end of a calendar year, the next monthly voucher shall include the new subsidy rates (A) for the month currently billed and (B) for all months previously billed in the current calendar year.

(c) *Final Subsidy payment*—(1) *Submission of voucher.* Upon determination of the final wage subsidy per diem rate for a fiscal year, the operator shall submit a voucher for adjustment of subsidy previously paid on the basis of the tentative rate for that fiscal year. Upon determination of the final subsidy rate for a year for unpredictably timed wages, maintenance and repairs, hull and machinery insurance premiums, or protection and indemnity insurance premiums and foreign deductibles for crew claims, and upon completion of the Maritime Administration's audit of such category of expense for voyages terminated in that year, the operator shall submit a voucher for adjustment of subsidy previously paid on the basis of the tentative rate. The amount of final subsidy shall be determined by application of the final subsidy rate to the expenses approved by the Maritime Administration. The final subsidy amount for the year for each category of expense, less the tentative subsidy payments for that category, shall be payable to the operator. In the event that tentative subsidy payments exceed the amount of final subsidy payable, the operator shall make a prompt full refund of the overpayment.

(2) *Expenses applicable to prior years.* Expenses recorded in the current year but applicable to a voyage which terminated in a previous year may be billed for subsidy payment if or when the final subsidy rate applicable to that category of expense for the year in which the voyage terminated is incorporated into the subsidy contract and such expenses have been audited by the Maritime Administration.

(d) *Reduction of subsidy.* The payment of subsidy vouchers shall be suspended after the first eighteen (18) months of a three-year period if the subsidized vessel has not carried during the previous months of that period a minimum of fifty (50) percent export-import foreign commerce of the U.S. which is necessary to earn one hundred (100) percent of subsidy otherwise payable in accordance with § 252.5. Once the payment of subsidy has been suspended, the subsidy vouchers submitted thereafter during the remaining months of the three-year period shall not be paid until the amount of subsidy earned in accordance with § 252.5 exceeds the amount of subsidy which has been paid during the period, and the amount of subsidy paid for voyages completed during the remaining months of the period shall not exceed the amount of subsidy earned on a cumulative basis for such period. For this purpose, tentative subsidy payments shall be used for determining the amount of subsidy earned for such period (see example in paragraph (e)(1) of this section).

(e) *Repayment of subsidy*—(1) *One-year period.* For an operator who has elected a one-year period, within sixty (60) days after the close of such period the operator shall repay any overpayment of subsidy in excess of subsidy earned for the period. For example, if the operator has received $780 thousand in tenative subsidy payments for the period and the vessel has carried 45 percent export-import foreign commerce of the U.S. during such period, in accordance with the provisions of § 252.5 and paragraph (d) of this section, the vessel has earned 70 percent of $780 thousand, or $546 thousand, and the operator must refund $244 thousand.

(2) *Three-year period.* For an operator who is on a three-year period, the operator shall repay promptly to the Maritime Administration any overpayment of subsidy in excess of subsidy earned for the three-year period, determined on the basis that for the remaining months of the period the vessel will carry the same monthly average amount of cargo that it carried during the previous months of the period and that such cargo will be carried exclusively in the export-import foreign commerce of the U.S. For example, for a vessel which in a three-year period is used exclusively in foreign-to-foreign commerce for the first eighteen months of the period, the operator will be paid 100 percent of the tentative subsidy payments for such period. At the conclusion of the 19th month, if any portion of the cargo carried on voyages terminating during the 19th month was not in the U.S.-foreign trade, the operator shall be required to make repayment of subsidy paid in excess of 70 percent of estimated subsidy to be earned for the three-year period as it is unlikely that the vessel will be able to carry 50 percent export-import foreign commerce of the U.S. for the three-year period, even assuming the vessel will operate exclusively in such trade for the remainder of the period. At the conclusion of the 22nd month, if no cargo has been carried in the U.S.-foreign trade through such period, the operator shall be required to make repayment of subsidy paid during the first 18 months in excess of 40 percent of estimated subsidy to be earned for the three-year period as it is unlikely that the vessel will be able to carry 40 percent export-import foreign commerce of the U.S. for the three-year period, even assuming the vessel will operate exclusively in such trade for the remainder of the period. Similarly, at the conclusion of the 26th month, if no cargo has been carried in the U.S.-foreign trade through such period, the operator shall be required to make repayment of all remaining subsidy which was paid during the first eighteen months of the period as it is unlikely that the vessel will be able to earn any subsidy for the three-year period, even assuming the vessel will operate exclusively in the export-import foreign commerce of the U.S. for the remainder of the period.

(f) *Audit of operator's records.* (1) *General.* Vouchers submitted for partial payment of accrued subsidy will not require an audit of the operator's subsidizable expenses; however, certain items, for example, the percentage of advances, etc., as compared to gross payroll, may be verified. Prior to final payment of accrued subsidy, the Maritime Administration will audit the operator's subsidizable expenses and all data necessary for the verification of the percentage of export-import foreign commerce of the U.S.

(2) *Information necessary for audit.* In order for the Maritime Administration to perform its audit of subsidizable expenses incurred, revenues earned, and cargo carried, the operator shall make available all information and documents to support all vouchers on which subsidy is claimed. The required documents shall include, but are not limited to, the following:

(i) *Wages of officers and crew.* Voyage and port payrolls including overtime supports, individual pay vouchers, computation of payroll taxes and the various payroll contributions payable under collective bargaining agreements in support of costs submitted by the operator on Form MA-790 and in support of subsidy vouchers for unpredictably timed wage expenses.

(ii) *Maintenance and repairs.* Invoices of domestic suppliers and repair yards for expenses incurred in the United States and the Commonwealth of Puerto Rico.

(iii) *Hull and machinery insurance and protection and indemnity insurance.* Premium invoices, crew injury, illness and death claims records and files compiled in connection with costs absorbed under the deductible provisions of the insurance policies, and general and particular average claims files.

(iv) *Revenues earned and cargoes carried.* All contracts of affreightment, charter agreements, cargo loading and discharging reports, log records and other documents related to gross revenues for cargoes carried and cargo-ton miles.

§ 252.11 Subsidy billing procedures.

(a) *Subsidy voucher* (1) *Forms.* Requests for payment of subsidy shall be submitted on a public voucher, Standard Form 1034 and 1034A, which can be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(2) *Copies.* The original and three (3) copies of the voucher are to be submitted for payment to the Director, Office of Subsidy Administration, Maritime Administration, Washington, D.C. 20230. The original and two (2) copies must be supported by the schedules and the affidavit as shown in paragraph (b) of this section. The third copy is the payee's copy and need not be supported. The payee's copy will be returned with payment by the United States Department of Treasury.

(3) *Numbering.* Subsidy vouchers shall be numbered consecutively.

(b) *Schedules and affidavit*—(1) *Contents and instructions*—(i) *General.* The schedules are used for calculating the amount of subsidy which is due for payment. Separate schedules shall be prepared for each subsidized vessel. Subsidy accruals, gross revenues and cargo ton-miles must be aggregated for the period elected for the subsidized vessel under § 252.5 in order to determine the amount of subsidy earned for such period. The aggregation periods are referred to as accounting periods. Since a one-year period may be elected within fourteen (14) months of the beginning of a three-year period, the operator, if electing the one-year period after submitting a

V 39—112 JUN 10 74 XUM

voucher and schedules for the thirteenth month, shall resubmit corrected schedules to coincide with the accounting period.

(ii) *Schedule A.* Schedule A contains the cumulative subsidy accrued, the cumulative subsidy otherwise payable, and the net subsidy payable or refundable from the commencement of the accounting period. The entry "Billing No." shall be used by the operator for the consecutive numbering of such schedules for the accounting period. When the operator makes adjustments in subsidy accruals or the amount of subsidy payable after the close of the accounting period, it shall submit an additional Schedule A for such period, attaching appropriate supporting schedules.

(iii) *Schedule B (U.S.).* Schedule B (U.S.) contains the calculation of accrued wage per diem subsidy for a voyage terminated in a U.S. port.

(iv) *Schedule B (Foreign).* Schedule B (Foreign) contains the calculation of accrued wage per diem subsidy and of the partial subsidy payment for a voyage terminated in a foreign port.

(v) *Schedule B–1 (Foreign).* Schedule B–1 (Foreign) contains the balance of subsidy payable from Schedule B (Foreign). It may be submitted with the next subsidy voucher which includes a Schedule B (U.S.) for the same vessel, and if such voucher is submitted in a subsequent accounting period, a separate Schedule A for the accounting period in which the voyage terminated shall be attached.

(vi) *Schedule C.* Schedule C contains the calculation of accrued subsidy for maintenance and repairs, hull and machinery insurance premiums, and protection and indemnity insurance premiums for the terminated voyage.

(vii) *Schedule C–1.* Schedule C–1 contains the calculation of accrued subsidy for unpredictably timed wages incurred on voyages terminated during the calendar quarter. If any of the voyages were terminated in the previous accounting period, the accrued subsidy for such voyages shall be reported on a separate Schedule C–1 and Schedule A for such period.

(viii) *Schedule D.* Schedule D contains the calculation of accrued subsidy for protection and indemnity insurance deductible absorptions for voyages terminated during the calendar year. If any of such voyages were terminated in the previous accounting period, the accrued subsidy for such voyages shall be reported on a separate Schedule D and Schedule A for such period.

(ix) *Schedule D–1.* Schedule D–1 is an optional form for calculating the accrued subsidy for protection and indemnity insurance deductible absorptions in accordance with paragraph (b)(2)(iii) of § 252.10. If used, it shall be submitted in accordance with the instructions contained in paragraph (b)(1)(viii) of this section.

(x) *Schedule E.* Schedule E contains cumulative gross revenue and cargo ton-miles, and it is used for determining the percentage of subsidy earned during the accounting period. The operator shall indicate the final schedule for each accounting period by adding the word "Final" to the schedule title, i.e., Schedule E (Final).

(xi) *Schedule F.* Schedule F contains the calculation of subsidy refundable for the accounting period. The operator is not required to submit a Schedule F unless Schedule A indicates an overpayment of subsidy after the first eighteen (18) months of a three-year accounting period.

(xii) *Affidavit.* The affidavit shall be signed by an official of the operator who is familiar with the subsidy contract, these regulations, the operation of the subsidized vessel and the accounts, books, records and disbursements of the operator relating to such operation.

(2) *Forms.* The operator shall furnish its own supply of the following forms:

SCHEDULE A

(Operator)

Subsidy contract No. ____

Calculation of operating-differential subsidy (ODS) for the ....
(name of vessel)

Billing No. ____

Accounting period ....
(1 year/3 years)

Date period commenced ....
(day, month, and year)

	Current voucher	*Previous vouchers*	*Total*
I. ODS accrued:			
1. Tentative rates:			
(i) Wages—per diem	$____	$____	$____
(ii) Wages—unpredictably timed	____	____	____
(iii) Other categories of expense:			
A. M&R	____	____	____
B. H&M premium	____	____	____
C. P&I premium	____	____	____
D. P&I deductibles	____	____	____
(iv) Total tentative ODS accrued	$____	$____	$____
2. Final rates:			
(i) Wages—per diem	$____	$____	$____
(ii) Wages—unpredictably timed	____	____	____
(iii) Other categories of expense:			
A. M&R	____	____	____
B. H&M premium	____	____	____
C. P&I premium	____	____	____

AFFIDAVIT

State of ----------------------------
City of ----------------------------
County/parish of ----------------------------

I, ------------------------------------, (name of company official) being duly sworn, depose and say, that I am ---------- (title) of the ---------------- (operator) (herein referred to as the "Operator"), and as such am familiar with (a) provisions of the Operating-Differential Subsidy Agreement, Contract No. ------, dated as of ------------, as amended, to which the Operator is a party; and (b) the regulations governing the payment of operating-differential subsidy for bulk cargo vessels, Part 252, Title 46, C.F.R.; and (c) the operation of the vessels covered by said Agreement and regulations; and (d) the accounts, books, records, and disbursements of the Operator relating to such operation.

Referring to the public voucher dated --------------, covering voyages terminated during the periods commencing ------------ and ending ------------, and attached submitted by said Operator concurrently herewith for a payment on account in the sum of ------------, under said Agreement, I further depose and say that, to the best of my knowledge and belief, the Operator has fully complied with the terms and conditions of said Agreement and regulations, applicable orders, rulings and provisions of the Merchant Marine Act, 1936, as amended, and is entitled, under the provisions of said Agreement and regulations, orders and rulings applicable thereto, to the amount of the payment on account requested; and further depose and say that the vessels named in the attached schedules were in authorized service for the voyages on which the payment on account is requested and has not included in the calculation of the amount of subsidy claimed in the attached voucher any costs of a character that the Maritime Administration, or Secretary of Commerce, acting by and through the Maritime Subsidy Board, or any predecessor or successor, had advised the Operator to be ineligible to be so included, or any costs collectible from insurance, or from any other source.

Payment by the Maritime Administration of all or part of the amount claimed herein shall not be construed as approval of the correctness of the amount stated to have been due, nor a waiver of any right of remedy the Maritime Administration, or Secretary of Commerce, acting by and through the Maritime Subsidy Board, or any predecessor or successor, may have under the terms of said Agreement, or otherwise.

I further depose and say that this affidavit is made for and on behalf and at the direction of the Operator for the purpose of inducing the Maritime Administration to make a payment on account pursuant to the provisions of the aforesaid Operating-Differential Subsidy Agreement, as amended.

Subscribed and sworn to before me, a Notary Public, in and for the aforesaid County and State, this -------- day of ------------, 19--

My commission expires ------------

§ 252.12 Appeal procedures.

(a) *Appeals of annual or special audits.* An operator who disagrees with the findings, interpretations, or decisions in connection with audit reports of the Maritime Administration and who cannot settle said differences by negotiation with the appropriate Region Director's office, may submit an appeal from such findings, interpretations, or decisions in accordance with Part 205 of Subchapter A.

(b) *Appeals of administrative determinations*—(1) *Policy.* An operator who disagrees with the findings, interpretations, or decisions of the Contracting Officer with respect to the administration of this Part, may submit an appeal from such findings, interpretations, or decisions in accordance with paragraph (b)(2) of this section.

(2) *Procedure.* (i) Appeals shall be made in writing to the Secretary, Maritime Subsidy Board, Maritime Administration, within sixty (60) days following the date of the document notifying the operator of the administrative determination of the Contracting Officer.

(ii) The appellant will be notified in writing if a hearing is to be held or if additional facts are to be submitted for consideration in connection with the appeal.

(iii) When a decision has been rendered by the Board, the appellant will be notified in writing.

(3) *Finality of decisions.* An operator who disagrees with the findings and determinations of the Board may appeal such findings and determinations by filing with the Secretary of Commerce, a written petition for review of the Board's action. The petition must be filed in accordance with Section 7, Department of Commerce Organization Order 10–8 (38 FR 19707).

(4) *Hearings.* The Rules of Practice and Procedure, Part 201, Subchapter A, will be followed for all hearings granted under this Part.

By order of the Maritime Subsidy Board, Maritime Administration.

Dated: June 3, 1974.

JAMES S. DAWSON, Jr.,
Secretary.

Food and Drug Administration

[21 Parts 141a, 146a, 149h]

BENZATHINE PHENOXYMETHYL PENICILLIN

Proposed Recodification, Technical Changes and Updating

Correction

In FR Doc. 74–10301 appearing at page 15879 of the issue of Monday, May 6, 1974, change the comments closing date in the last paragraph, now appearing as May 6, 1974, to read July 5, 1974.

[21 CFR Part 610]

BIOLOGICAL PRODUCTS

Proposal Regarding Test for Pyrogenic Substances

Licensed biological products must comply with the requirements of § 610.13(b) (21 CFR 610.13(b)), regarding the test for pyrogenic substances. This test is designed to establish whether the product is free from fever-producing contaminants and impurities which may result in illness and death to the user.

The Commissioner of Food and Drugs is presently conducting a review of existing standards of safety, purity, and potency of biological products so that these standards will reflect the best current testing procedures established by the scientific community. This review has revealed that the existing test for detecting pyrogenic substances in biological products must be updated to include improved procedures developed since its original incorporation into the biologics regulations on June 30, 1960. The existing test lacks sufficient specificity and is inconsistent with the procedures prescribed in the current edition of the United States Pharmacopeia (U.S.P.). To assure that pyrogen testing of licensed biological products is conducted by the most reliable method, the Commissioner has determined that test procedures based upon those prescribed in the U.S.P. and other specifications, like those proposed for the forthcoming publication of the U.S.P., should be required for biological products. Accordingly, the proposed amendment prescribes precise requirements concerning test animals, test conditions, interpretation of results, and retesting which will increase the uniformity, sensitivity, and reliability of the test.

Therefore, pursuant to provisions of the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that Part 610 be amended by revising § 610.13(b) (2) and (3) to read as follows:

§ 610.13 Purity.

* * * * *

(b) * * *

(2) *Procedure; test results; standards to be met.* Use only overtly healthy, mature rabbits. House the rabbits individually in an area of uniform temperature (±3° C.), free from disturbances likely to excite them. Rabbits for pyrogen tests may not be used within 2 weeks following their having been given a test sample that was adjudged pyrogenic and in no case may a rabbit be used more frequently than every 48 hours. Before using a rabbit that has not been used in a pyrogen test during the previous 2 weeks, condition it by a sham test that includes all the steps prescribed in paragraph (b)(2) of this section, except injection of the test dose. Perform the test under environmental conditions similar to those under which the rabbits are housed. On the day of the test withhold all food, except water, from the rabbits until completion of the test. Determine the control temperature of each rabbit not more than 40 minutes prior to injecting the test dose. The control temperature is determined by inserting the temperature measuring device into the rectum of the test rabbit to a depth of not less than 7.5 centimeters and allowing sufficient time to reach a maximum temperature before taking the reading. The control temperature recorded for each rabbit constitutes the temperature from which any subsequent rise following the injection of the material is calculated. If the rectal temperature measuring device is to remain inserted throughout the testing period, restrain the rabbits to allow them to assume a natural resting position. In any one test, use only those rabbits whose control temperatures do not deviate more than 1° C. from each other and do not use any rabbits with a temperature exceeding 39.8° C. Warm the test product to approximately 37°C. and inject the test dose into an ear vein of each of three rabbits. Injection of the test dose in each rabbit shall be at the rate of not less than 1 milliliter per minute. Record the temperature at 1, 2, and 3 hours subsequent to the injection. The lot of the product fails to meet the test requirements if there is a temperature rise of 0.6° C. or more for any rabbit at any one of the time periods or if the sum of the three individual temperature rises exceeds 1.4° C.

(3) *Retest.* If the lot fails to meet the test requirements prescribed in paragraph (b)(2) of this section, the test may be repeated once using five other rabbits. The temperature rises recorded for all eight rabbits used in testing the lot shall be included in determining whether the standard for purity is met. The product fails to meet the test requirements if more than three rabbits show individual temperature rises of 0.6° C. or more at any one of the recording stages, or if the sum of the eight individual temperature rises exceeds 3.7° C.

* * * * *

Interested persons may, on or before August 9, 1974, file with the Hearing Clerk, Food and Drug Administration, Room 6–86, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: June 3, 1974.

Sam D. Fine,
Associate Commissioner for Compliance.

CIVIL AERONAUTICS BOARD

[14 CFR Part 239]

[Economic Regs. Docket No. 26391; EDR–270]

ACTUAL SHIPPER LOSS

Reporting Data Pertaining to Freight Loss and Damage Claims by Certain Air Carriers and Foreign Route Air Carriers

June 4, 1974.

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposed amendment to Part 239 of its economic regulations (14 CFR Part 239) to amend the definition of "actual shipper loss" and to modify the manner in which reported theft claims are to be identified.

The principal features of the proposed rule are set forth in the attached Explanatory Statement and the proposed amendment is set forth in the Proposed Rule. The amendment is proposed under authority of sections 101(3), 204(a), 401 and 402 of the Federal Aviation Act of 1958 as amended (72 Stat. 737, 743, 754 and 757, as amended, 49 U.S.C. 1301, 1324, 1371 and 1372).

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before July 25, 1974, will be considered by the Board before taking final action upon the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 710 Universal Building, 1825 Connecticut Avenue NW., Washington, D.C. upon receipt thereof.

By the Civil Aeronautics Board.

[seal] Edwin Z. Holland,
Secretary.

Under the present definition in § 239.1 for "actual shipper loss," each carrier is required to report the entire loss, damage or delay incurred by the shipper, despite the fact that a shipment may have been routed over the lines of two or more carriers. Thus, the fact that each carrier involved in such a multiple-carrier situation presently reports the entire amount of the claim, rather than only its own share therein, necessarily results in an industry-wide overstatement of claimed amounts for shipper loss, damage or delay.

The Air Transport Association of America (ATA) has petitioned to modify this definition in order to reflect a truer figure for shipper losses, as they may be known by the reporting carrier. While the Board agrees that a revised definition is desirable, we believe that the revised definition which we are proposing herein would be more effective than that suggested by ATA to achieve the desired goal.

The ATA petition also proposes some new language concerning actual shipper loss under claims presented by forwarders. However, ATA's proposal appears to presuppose that the direct carrier would always have knowledge of "* * * the amount actually paid by the forwarder to the shipper * * *," whereas in fact such knowledge might not be available to the reporting direct air carrier. Accordingly, while we again agree with ATA's objective, we have modified the text of the proposed change so as to refer to the amount claimed by the forwarder.

ATA's petition also asserts that the method of identifying shortage claims in Schedule B—Analysis of Shortage, under § 239.7(c) does not lend itself to automated preparation. ATA therefore suggests that Column (2) of Schedule B be amended by requiring insertion of the carrier's claim number rather than the

airbill description. With respect to this aspect of ATA's petition, we again agree that Schedule B should be revised in the manner suggested by ATA, but with a further refinement, as we are proposing herein, with respect to carriers which maintain claim records according to airbill number.

It is proposed to amend Part 239 of the Board's economic regulations (14 CFR Part 239) as follows:

1. Amend § 239.1, by adding two paragraphs to the existing definition of "Actual shipper loss," the amended definition to read in part as follows:

§ 239.1 Definitions.

* * * * *

"Actual shipper loss" means the total dollar amount on each claim actually suffered by claimant because of loss, damage, delay, etc., based on the invoice value (per pound, per unit, etc.) at destination, or origin invoice value plus freight charges, and including customs duty paid where such amounts are properly included in the measure of damages. For claims involving shipments where no invoices exist, such as personal effects and used household goods, the actual loss to the shipper shall be the negotiated settlement, or the amount claimed less reasonable depreciation based upon prior use and age, whichever is greater. For claims involving settlements borne by more than one direct air carrier, the total actual settlements borne by each carrier, and each such portion of the total actual shipper loss shall be reported by each such carrier.

For claims made by an air freight forwarded, the amount of actual shipper loss to be reported by direct air carriers shall be the amount actually paid by the forwarder to the shipper and such amount shall be substantiated by the forwarded when the claim is filed with the direct air carrier.

* * * * *

2. Amend § 239.7(c), by replacing the present language, the amended paragraph to read as follows:

§ 239.7 Schedule B—Analysis of Shortage.

* * * * *

(c) Columns (1) and (2)—List individually each claim payment during the reporting period in the amount of $100 or more as the result of shortage. Use the commodity code numbers provided in Appendix A in column (1). In column (2), use the carrier claim file number of the reporting carrier. For carriers using Airbill/Airwaybill numbers as claim file numbers, files shall be maintained in such fashion as to insure retrieval at a later date with minimum effort and time.

* * * * *

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 91]

[Docket No. 20027; RM–2050]

OIL SPILL CLEANUP OPERATIONS

Proposed Frequency Allocations; Order Extending Time

In the matter of amendment of Parts 2 and 91 of the Commission's rules and regulations to provide a frequency allocation for oil spill cleanup operations.

1. The Commission has before it for consideration a Motion for Extension of Time in the above named proceeding filed on behalf of the Oil Spill Control Association of America (OSCAA) requesting a 60 day extension in the time for filing comments and an additional 30 days for reply comments in response to the Commission's notice of proposed rule making herein, adopted April 16, 1974.

2. According to OSCAA, its member companies are active on day-to-day basis performing essential oil and hazardous substances control and cleanup work, and a substantial proportion of those companies would not now qualify for eligibility under the proposed Commission Rule § 91.301(d). OSCAA says it is a new organization, formed in November 1973, and was therefore unable to participate in discussions conducted under the auspices of the IRAC committee in consideration of the petition (RM 2050) of the American Petroleum Institute. OSCAA indicates that had it taken an active role in those deliberations, it would have been available to make a responsive filing within the time limit specified by the Notice of Proposed Rule Making. It says it is now in the process of accumulating information from governmental and private sources which it hopes will shed additional light upon the Rulemaking.

3. It is our desire to obtain all relevant data concerning oil spill cleanups and to make the allocation for this communications requirement as effective as possible. We additionally recognize the difficulty experienced by OSCAA, being a newly formed group, in gathering data within the designated time limit. We agree, therefore, that some time extension is warranted. However, we believe that a sixty day extension would unduly delay the proceeding and inconvenience other parties who may have already filed or intend to file. Therefore, we are granting a thirty-day extension rather than the sixty days requested. This should be sufficient time for OSCAA and others to obtain the necessary data and present their views to the Commission.

4. *Accordingly, it is ordered,* pursuant to authority contained in section 5(d) of the Communications Act of 1934, as amended, [47 U.S.C. 155(d)] and § 0.251(b) of the Commission's rules [47 CFR 0.251(b)], the date for filing comments in this proceeding is extended from May 31, 1974, to June 29, 1974, and the date for filing reply comments is extended from June 11, 1974, to July 29, 1974.

Adopted: June 3, 1974.

Released: June 3, 1974.

Federal Communications Commission,
[seal] Ashton Hardy,
General Counsel.

[FR Doc.74–13198 Filed 6–7–74;8:45 am]

[47 CFR Part 73]

[Docket No. 20070; RM–1970; FCC 74–558]

FM BROADCAST STATIONS IN NEBRASKA

Table of Assignments

In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations (Ogallala, Nebraska).

1. The Commission has before it (a) the Ogallala Broadcasting Company ("OBC") petition for reconsideration of the Commission's September 6, 1973, Memorandum Opinion and Order [42 F.C.C. 2d 720 (1973)] denying its petition for rule making, (b) an opposition to the petition for reconsideration filed by Industrial Business Corporation ("IBC") and OBC's reply to the opposition.

2. OBC and IBC for some time have been in a comparative hearing vying for the only FM channel currently assigned to Ogallala, Nebraska. Subsequent to the Commission's Memorandum Opinion and Order denying OBC's rule making petition to add a second channel, the Administrative Law Judge in the comparative proceeding issued an Initial Decision favoring the IBC application. Nevertheless, various levels of appeal remain, so it cannot be said that the adjudicatory process of choosing between the applicants is at an end. This is important because of the connection between the hearing and OBC's proposal. When we denied the OBC petition to add a second FM channel, we did not resolve the question of the need for such an assignment. Rather, we did not reach the merits of the proposal itself because OBC was interested in using the channel only if it were unsuccessful in the hearing. Since IBC was unwilling to apply for the proposed channel if it were to be assigned and since no other party had shown an interest, we were being asked to add a channel with no assurance it would be utilized. This we refused to do. Moreover, since the hearing would continue its regular course, it could not be said that making the assignment would speed the process of bringing service to Ogallala. Now, OBC indicates that it has changed its mind and states that it would be ready to amend to the new channel if it is assigned.

V39—112 JUN 10 74 XUM

3. This change of heart by OBC provides no basis for reversing our earlier action as OBC's new circumstance (its readiness to amend) has always been a matter fully within its control. As a consequence, its petition does not raise the sort of new circumstances in a petition for reconsideration which is referred to in § 1.106(c)(1) of the Commission's rules.[1] Nor has OBC shown that our previous decision erroneously disposed of the case based on the facts then before us. Rather, since it seeks reversal based on a new matter which could have been presented earlier and since OBC's election to propose a channel without a commitment to utilize it cannot be simply erased now that its approach did not succeed, there is no basis for altering our previous decision. The choice was OBC's to make and a reversal now would not be sound administrative practice.

4. While OBC's petition for reconsideration has been found to be wanting, there is nothing to prevent it from filing a new petition for rule making based on the same facts and relying on its willingness to amend to the new channel. Little would be accomplished by requiring such a resubmission, as we already have before us essentially all the material which OBC would be called upon to resubmit. Accordingly, we shall not require such a resubmission but instead shall examine the filings in light of OBC's new declaration.

5. On Ogallala's need for another channel, the parties take sharply opposing positions. OBC argues that Ogallala needs a second channel and that it could be provided without significant preclusionary impact. IBC insists that Ogallala is too small to be able to support another station. In its view, if OBC became the licensee, the AM–FM combination OBC would then have, would doom IBC's ability to conduct an independent operation. As important as this point may be, it is not one that has to be resolved before issuance of a Notice of Proposed Rule Making. In fact, we have normally deferred the resolution of such questions to the application stage rather than resolving them in rule making. Even if the matter were to be considered in the rule making context, it need not predate the issuance of a Notice of Proposed Rule Making. Nor, of course, does the issuance of a Notice in any way stand as a finding in favor of the proposal on this score or a rejection of the issue sought to be raised. To the extent that it may be appropriate, the issue can be considered in connection with the Report and Order to be written in this proceeding.

6. On the assignment itself, we believe it useful to entertain comments and with them obtain more specific data on the need for the assignment. From the information now in hand, it appears that the channel could be added, could meet applicable engineering requirements and could avoid significant preclusionary impact. Nevertheless, IBC shall be given an opportunity for rebuttal on the latter point as well as any others it wishes to raise. Under these circumstances we believe that the subject proposal warrants further exploration and we invite the filing of comments on it. Based on the submissions we shall then be able to decide the need for a second FM assignment in this community of 4,976 persons.

7. To avoid any confusion, we shall specify the averments which OBC needs to supply. It needs to confirm its intention to apply for this channel promptly and its intention thereupon to end its efforts to prevail in hearing. Requiring anything less would not serve to aid a prompt inauguration of service at Ogallala but simply would be returning to the original posture we rejected. In effect, OBC would have to agree to effectuate a complete withdrawal (without insisting on compensation via a "buy-out") from the hearing process. Since it is the need of the community for additional service, not OBC's desire to be the party to render it that is at issue, we shall not intervene to specify that the amendment shall be permitted without prejudice nor to provide for the automatic amendment of its application as OBC apparently seeks. That is a matter to be addressed in the normal course of seeking leave to withdraw from the hearing process.

8. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

9. In view of the foregoing and pursuant to authority contained in sections 4(i), 5(d)(1), 303 and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's rules, we propose for consideration the following revisions in our FM Table of Assignments (§ 73.202(b) of the rules) with respect to the city listed below:

City	Channel No.	
	Present	Proposed
Ogallala, Nebr	228A	224A, 228A

10. *It is further ordered,* That the petition for reconsideration filed by Ogallala Broadcasting Company is denied except to the extent that the relief sought is granted by the issuance of this notice of proposed rulemaking.

11. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before July 29, 1974, and reply comments on or before August 19, 1974. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

12. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Adopted: May 29, 1974.

Released: June 4, 1974.

FM BROADCAST STATIONS IN CABOOL, MO.

Order Extending Time for Filing Reply Comments

In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations, (Cabool, Missouri).

1. On March 25, 1974, the Commission adopted a notice of proposed rule making in the above-entitled proceeding. Publication was given in the FEDERAL REGISTER on April 2, 1974, 39 F.R. 12035. The time for filing comments has expired and the date for filing reply comments is presently June 3, 1974.

2. On May 29, 1974, Radio Company of Texas County, Inc. (Radio Company), by counsel, requested that the time for filing reply comments be extended to and including July 1, 1974. Counsel states that on May 29th he has received a copy of what appears to be further comments filed by Cabool Broadcasting Corporation, proponent in this proceeding. Counsel points out that these comments include substantial engineering exhibits, statements, etc. and in view of the circumstance requests the additional time in which to file reply comments.

3. We are of the view that the public interest would be served by extending the time in this proceeding. *Accordingly, it is ordered,* that the date for filing reply comments is extended to and including July 1, 1974.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules.

Adopted: June 4, 1974.

Released: June 4, 1974.

FM BROADCAST STATIONS IN IOWA

Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations; (Anamosa and Iowa City, Iowa; Burlington, Iowa).

1. On April 16, 1974, the Commission adopted a memorandum opinion and order and notice of proposed rule making in the above-entitled proceeding. Publication was given in the FEDERAL REGISTER on May 2, 1974, 39 FR 15324. Comment and reply comment dates are presently June 14 and July 2, 1974, respectively.

2. On May 29, 1974, counsel for Richard A. Carroll, filed a request for extension of time in which to file comments and reply comments to and including July 5 and July 22, 1974, respectively. Counsel states that a consulting radio engineer has been engaged and has made substantial progress in preparing engineering studies, but because of illness and a recent accident counsel will be unable to complete and file comments by the presently assigned date. Counsel for parties in this proceeding have been contacted and have consented to the requested extension.

3. We are of the view that the public interest would be served by extending the time in this proceeding. *Accordingly, it is ordered,* that the dates for filing comments and reply comments are extended to and including July 5 and July 22, 1974, respectively.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Adopted: June 4, 1974.

Released: June 4, 1974.

FM BROADCAST STATIONS IN FLORIDA

Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of § 73.202(b) Table of Assignments, FM Broadcast Stations. (Marco, St. Augustine, and Milton, Florida).

1. On April 8, 1974, the Commission adopted a notice of proposed rule making in the above-entitled proceeding. Publication was given in the FEDERAL REGISTER on April 15, 1974, 39 FR 13559. The dates for filing comments and reply comments are presently May 23 and June 3, 1974, respectively.

2. On May 21, 1974, City of Jacksonville, licensee of Station WJAX–FM, Jacksonville, Florida, requested that the time for filing comments be extended to and including May 31, 1974. It states that the extension is necessary in order to permit the preparation and mailing of an engineering affidavit for submission to the Commission in this matter. Counsel for proponent in this proceeding has indicated that he has no objection to grant of the extension.

3. We are of the view that the public interest would be served by granting the additional time. *Accordingly, it is ordered,* That the date for filing comments and reply comments is extended to and including May 31 and June 17, 1974, respectively, RM–2184 only.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Adopted: May 23, 1974.

ADVISORY GROUP ON ELECTRON DEVICES

Notice of Meetings

The Department of Defense Advisory Group on Electron Devices (various working groups thereof) will meet in closed sessions as indicated below:

a. Working Group on Lasers, 201 Varick Street, New York, New York, 26–27 June 1974.

b. Working Group on Special Devices, Engineering Building, Room 4107, University of California, Santa Barbara, California, 28 June 1974.

c. Working Group on Microwave Devices, National Bureau of Standards (Section 272.50), Boulder Laboratories, Boulder Colorado, 24 June 1974.

d. Working Group on Low Power Devices, Ramada Inn, 3737 Quebec Street, Denver, Colorado, 24 June 1974.

The purpose of the DoD Advisory Group on Electron Devices, and various working groups thereof, is to provide the Director of Defense Research and Engineering and the Military Departments with advice and recommendations on the conduct of economical and effective research and development programs in the field of electron devices, e.g., lasers, radar tubes, transistors, infrared sensors, etc. The group is also the vehicle for interservice coordination of planned R&D efforts.

In accordance with Public Law 92–463, section 10, paragraph (d), it is hereby determined that the AGED meetings concern matters listed in section 552(b) of Title 5 of the United States Code, particularly subparagraph (1) thereof, and that the public interest requires such meetings be closed insofar as the requirements of subsections (a)(1) and (a)(3) of section 10, Public Law 92–463 are concerned.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

ENVIRONMENTAL QUALITY AWARD ADVISORY COMMITTEE

Public Meeting

Pursuant to the provisions of Pub. L. 92–463 and Executive Order 11686, notice is hereby given that the Department of Defense Environmental Quality Award Advisory Committee will meet in open meeting at 10:15 a.m. in Room 3E333, the Pentagon, Washington, D.C., on Thursday, June 13, 1974.

The purpose of this annual meeting is to review the environmental quality programs and accomplishments of the following installations:

Fort Sill, Oklahoma
Marine Corps Air Station, Kaneohe Bay, Hawaii
Naval Civil Engrg. Lab., Port Hueneme, California
U.S. Air Force Academy, Colorado

The committee will review and appraise the records of these selected installations, each representing a major branch of the military departments, and recommend to the Secretary that installation which has conducted the most outstanding environmental quality program during the preceding calendar year.

The meeting will be open to the public to the extent that space limitations of the meeting place permit. Because of these limitations, interested parties are requested to reserve space by calling 202–695–5030. Reservations will be on a first-come basis.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD(C).

Bureau of Land Management

[New Mexico 20156]

NEW MEXICO

Notice of Application

MAY 30, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576). Southern Union Gas Company has applied for a 4-inch natural gas pipeline right-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN,
NEW MEXICO

T. 20 S., R. 28 E.,
Sec. 34, W½SE¼.

This pipeline will convey natural gas across 0.415 miles of national resource land in Eddy County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, New Mexico 88201.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

[Docket No. M 74–78]

CS & S COAL CO., INC., ET AL.

Amendment To Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. § 861(c) (1970)), CS & S Coal Company, Inc., et al., have filed an amended petition to modify the application of 30 CFR 77.1605(k) to Mine No. 24, Wellmore Coal Company, located in Buchanan County, Virginia. Said mine is, by this amendment, to be added to the list of the twenty-nine mines contained in the original petition as published in FEDERAL REGISTER, Vol. 39, No. 74—Tuesday, April 16, 1974, at 13694.

Petitioners further request that the original petition be amended as follows:

CAPITAL LAND & MINERAL COAL COMPANY

Change "Mine No. 1" to "Mine No. 3".

DUTY COAL COMPANY

Change "Mine No. 1" to "Mine No. 9".

WELLMORE COAL COMPANY

Change "Mine No. 2" to "Mine No. 2 (Strip)".
Change "Mine No. 7" to Mine No. 1".
Change "Mine No. 8" to "Mine No. 2".
Change "Mine No. 9A" to "Mine No. 3(a)".
Change "Mine No. 9C" to "Mine 3(c)".

The foregoing changes are changes in mine number only and are made in order to better relate to the now commonly used identity of the mine. The M.E.S.A. identification number in the case of each of the above mines remains the same and is not changed.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before July 10, 1974. Such requests or comments must be filed in the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

JAMES R. RICHARDS,
Director,
Office of Hearings and Appeals.

NATIONAL REGISTRY OF NATURAL LANDMARKS

Additions

By notice in the FEDERAL REGISTER of September 5, 1973 (pp. 23982–23985), there was published a list of sites eligible for inclusion in the National Registry of Natural Landmarks. Further notice is hereby given that the list of eligible natural landmarks is amended by addition of the sites listed below.

All Federal agencies should take cognizance of the sites included in the National Registry of Natural Landmarks to fulfill the intent of section 102 of the National Environmental Policy Act of 1969 (83 Stat. 852; (42 U.S.C. 4331)).

JOHN E. COOK,
Acting Deputy Director, National Park Service.

The sites listed below which have been registered are indicated by an asterisk.

The following sites have been added to the National Registry:

ALABAMA

Newsome Sinks Karst Area, Morgan County—between Morgan City and Union Hill.

CALIFORNIA

Pixley Vernal Pools, Tulare County—6 miles east of Pixley.

COLORADO

Garden Park Fossil Area, Fremont County.
Morrison Fossil Area, Jefferson County—just north of Morrison.

CONNECTICUT

McLean Game Refuge Natural Areas, Hartford County—4 miles north and northwest of the village of Simsbury.

INDIANA

Hemmer Woods, Gibson County—2 miles northeast of the village of Buckskin.
Hoot Woods, Owen County—3 miles northwest of the village of Freedom.
Kramer Woods, Spencer County—1½ miles southwest of the village of Patronville.
Meltzer Woods, Shelby County—2 miles southwest of the village of Blue Ridge.
Tamarack Bog Nature Preserve, Lagrange County—Pigeon River State Game Preserve, 1 mile southeast of the town of Mongo.
Wesselman Park Woods, Vanderburgh County—within the city limits of Evansville.

MICHIGAN

Strangmoor Bog, Schoolcraft County—Seney National Wildlife Refuge, southwest of Seney.

MONTANA

Bridger Fossil Area, Carbon County.
Cloverly Formation Site, Big Horn County.

TENNESSEE

Big Bone Cave, Van Buren County—5 miles west-northwest of Spencer.
Cedar Glades Natural Area, Wilson County—Cedar of Lebanon State Forest, 10 miles south of Lebanon.
Conley Hole, Grundy County—2 miles southeast of Viola.
Cumberland Caverns (Higginbotham and Henshaw Caves), Warren County—5 miles east of McMinnville.
Grassy Cove Karst Area, Cumberland County—9 miles southeast of Crossville.
Lost Sea (Craighead Caverns), Monroe County—5 miles southeast of Sweetwater.

VERMONT

Cornwall Swamp, Addison County—2 miles southeast of the village of Cornwall.

VIRGINIA

Butler Cave-Breathing Cave, Bath County—½ mile north of Burnsville.
Grand Caverns, Augusta County—south of Grottoes.
**Luray Caverns, Page County*—1½ miles west of the center of Luray.

WEST VIRGINIA

Greenbrier Caverns, Greenbrier County—north and south of Organ Cave.
Greenville Saltpeter Cave, Monroe County—¼ mile north of the town of Greenville.
Lost World Caverns, Greenbrier County—2 miles north of Lewisburg.
Sennett-Thorn Mountain Cave System, Pendleton County—½ mile northwest of Moyers.
Swago Karst Area, Pocahontas County—3 miles west of Marlington.

WISCONSIN

Abraham's Woods, Green County—2 miles southwest of Albany.
Cedarburg Bog, Ozaukee County—4 miles west of Saukville.
Chippewa River Bottoms, Buffalo County—north of Wabasha, Minn.
Chiwaukee Prairie, Kenosha County—5 miles south of Kenosha.
Finnerud Forest Scientific Area, Oneida County—2 miles southwest of Minocqua.
Flambeau River Hemlock-Hardwood Forest, Sawyer County—Flambeau River State Forest, 20 miles southwest of Park Falls.
Kakagon Sloughs, Ashland County—2 miles north of the town of Odanah.
Spruce Lake Bog, Fond du Lac County—Kettle Moraine State Forest, 2 miles northwest of the village of Dundee.
Summerton Bog, Marquette County—3 miles southeast of the village of Oxford.
Wyalusing Hardwood Forest, Grant County—Wyalusing State Park, 6 miles north of Bagley.

National Oceanic and Atmospheric Administration

INCIDENTAL TAKING OF MARINE MAMMALS IN THE COURSE OF TUNA PURSE-SEINING OPERATIONS

Enforcement of Regulations

Regulations were promulgated on January 22, 1974 (39 FR 2481), and corrected on February 14, 1974 (39 FR 5635), relating to incidental taking of marine mammals in the course of tuna purse-seining operations. Such regulations provide, among other things, that commercial tuna fishing vessels commencing voyages after April 1, 1974, and utilizing purse-seine nets to catch and land yellowfin tuna shall be required to equip the purse-seine nets with a porpoise safety panel prior to utilizing the nets in actual fishing operations.

As a result of the petroleum shortage, it was determined on March 13, 1974, that nylon netting, a petroleum based product which is required for the safety panel, was not readily available to all persons and vessels affected by these regulations.

Therefore, in order to allow those commercial fishing vessels, which were unable to obtain porpoise safety panels, to commence commercial tuna fishing voyages after April 1, 1974, and to use purse-seine nets not equipped with a porpoise safety panel, the provisions of the regulations which required purse-seine nets utilized by such vessels to be equipped with porpoise safety panels (Specifically, §§ 216.24(b) (1), (2), and (3) and 216.24 (d)(1)(i)) were waived with respect to certain vessels until June 1, 1974, subject

to certain conditions (39 FR 9684, March 13, 1974).

As a result of the continued shortage of nylon netting, some vessel owners who placed orders for such netting were unable to obtain the netting in order to insert the panel by June 1, 1974.

Therefore, in order to allow certain commercial fishing vessels which have been unable to obtain netting for porpoise safety panels to continue fishing after June 1, 1974, the provisions of the regulations, which require purse-seine nets utilized by such vessels to be equipped with such panels (specifically §§ 216.24(b) (1), (2), and (3) and 216.24 (d)(1)(i)) may be waived by the Regional Director, National Marine Fisheries Service, Terminal Island; *Provided*, That he determines that in each case the order for the netting, which order had been previously registered with the Regional Director pursuant to the March 13, 1974 notice (39 FR 9684), was still in force and effect and that the porpoise safety panel will be inserted as soon as possible after the netting is delivered. Except as specifically provided herein, the provisions of the regulations referred to in this notice shall remain in full force and effect.

Jack W. Gehringer,
Acting Director,
National Marine Fisheries Service.

June 4, 1974.
